§ 290.28 *Permit number.* Each permit issued under the Import Milk Act, including each temporary permit, shall bear an individual number. The right to the use of such number is restricted solely to the permittee.

§ 290.29 *Form of tag.* Each container of milk or cream shipped or transported into the United States by such permittee shall have firmly attached thereto a tag in the following form, bearing the required information in clear and legible type:

Product_____
(State whether raw milk, pasteurized milk, raw cream, or pasteurized cream.)
Permit number_____
Federal Import Milk Act.
Department of Health, Education, and Welfare.
Shipper_____
Address of shipper_____

Provided, That in case of unit shipments consisting of milk only or cream only under one permit number, in lieu of each container being so marked, the vehicle of transportation, if sealed, may be tagged with the above tag, which should, in addition, show the number of containers and quantity of contents of each.

§ 290.30 *Suspension and revocation of permit.* A permit to ship or transport milk or cream into the United States may be suspended for cause at any time. A permit may be revoked for cause after opportunity to be heard has been accorded the permittee, who may appear in person, by attorney, or by letter and show cause why the permit should not be revoked.

§ 290.31 *Order to show cause why permit should not be revoked and temporary suspension of permit pending hearing.* When the Secretary has reason to believe that the holder of any permit for the shipment of milk or cream into the United States has failed to comply with the provisions of or has violated sections 141–149 of Title 21, United States Code, or any of the regulations in this part, or that the milk or cream shipped by the holder of the permit into the United States is not produced and handled in conformity with, or that the quality thereof does not conform to, all of the provisions of section 142 of Title 21, United States Code, the Secretary shall serve upon the permittee an order to show cause why such permit should not be revoked, and, pending the hearing upon such order, the Secretary may temporarily suspend such permit.

§ 290.32 *Docket or file number.* The order to show cause shall be assigned a docket or file number and the proceedings had thereunder shall thereafter be referred to by such number.

§ 290.33 *Service of order to show cause.* The order to show cause shall be addressed to the permittee, who shall be designated as the respondent, and shall be served upon the permittee by an employee of the Department of Health, Education, and Welfare or by registered mail, return receipt requested. If the respondent is a corporation, service shall be had upon the president, secretary, treasurer or statutory agent of the corporation.

§ 290.34 *Time and place of hearing.* The Secretary shall set a time and place for a hearing upon the order to show cause.

§ 290.35 *Designation of examiner.* The Secretary shall designate an employee of the Department of Health, Education, and Welfare as examiner to conduct the hearing, and such examiner may, in accordance with the rules of evidence applicable to administrative proceedings, admit or exclude any evidence presented and may limit the scope of any evidence admitted.

§ 290.36 *Appearance of respondent.* The respondent may appear in person or by counsel. All persons who appear at the hearing must conform to the standards of ethical conduct required of practitioners before the courts of the United States.

§ 290.37 *Testimony of witnesses.* The testimony of witnesses at the hearing shall be upon oath or affirmation administered by the examiner.

§ 290.38 *Admissibility of records.* Copies of the records of the Department of Health, Education, and Welfare, certified under the seal of the Department, shall be admissible to the same extent that the original records would be admissible.

§ 290.39 *Depositions.* The deposition of any witness, taken after reasonable notice to the opposite party and at a time and place and before a person designated for the purpose by the Secretary, shall be admitted if the evidence is otherwise admissible.

§ 290.40 *Affidavits.* Affidavits, if relevant and material, may, in the discretion of the examiner, be admitted, but the Secretary will consider the lack of opportunity for cross-examination in determining the weight that shall be given to such evidence.

§ 290.41 *Hearsay evidence.* Hearsay evidence may, in the discretion of the examiner, be admitted even though it

does not come within any well-recognized exception to the hearsay rule, but the Secretary will determine what weight shall be given to such evidence.

§ 290.42 *Form of introduction of evidence.* The form of the introduction of evidence shall not be a ground of objecting to such evidence.

§ 290.43 *Copies of exhibits.* When practicable to do so, a copy of each exhibit shall be furnished to the opposing party either before or at the time of its introduction.

§ 290.44 *Judicial notice.* Judicial notice, on request, will be taken of such matters as are noticed by the courts of the United States.

§ 290.45 *Objection to evidence.* If the respondent objects to the admission of any evidence offered against him or the rejection of any evidence offered by him, or to the limitation of the scope of any evidence introduced by him, he shall state the grounds of such objection. If the objection is overruled, he may take an exception.

§ 290.46 *Attorney representing the Department of Health, Education, and Welfare.* At the hearing, the Secretary shall be represented by an attorney designated by the General Counsel of the Department of Health, Education, and Welfare.

§ 290.47 *Filing of briefs.* At the conclusion of the hearing, the examiner shall announce the period of time within which briefs may be filed following the receipt by the respondent of the tentative findings of fact and the tentative order, as set out in § 290.48.

§ 290.48 *Tentative findings of fact.* The examiner, within a reasonable time after the conclusion of the hearing, shall prepare tentative findings of fact and a tentative order, which shall be served upon the respondent or sent to him by registered mail.

§ 290.49 *Exceptions by the respondent.* Within 20 days after the receipt of the tentative findings of fact and the tentative order, the respondent, if he wishes to take exceptions to any matters set out therein, shall transmit such exceptions to the General Counsel of the Department of Health, Education, and Welfare. At the same time, the respondent shall transmit a brief statement concerning each of the exceptions to the actions of the examiner at the hearing, as set out in §§ 290.35–290.45, upon which he wishes to rely. If exception is taken to any proposed finding of fact, reference must be made to the pages or parts of the record relied upon and a corrected finding of fact must be submitted. The respondent, if he files exceptions, shall state in writing whether he desires to make an oral argument on the exceptions before the Secretary.

§ 290.50 *Oral argument before the Secretary.* In the event that an oral argument before the Secretary is requested, a date for such argument shall be fixed by the Secretary or by the Under Secretary, if designated to act in his stead.

§ 290.51 *Issuance of final order.* If oral argument is heard in any proceeding by the Secretary or Under Secretary, the final order in the proceeding shall be issued by the person who heard the argument.

§ 290.52 *Hearing before prosecution.* Before violation of the act is referred to the Department of Justice for prosecution under section 5 of the Federal Import Milk Act, an opportunity to be heard will be given to the party against whom prosecution is under consideration. The hearing will be private and confined to questions of fact. The party notified may present evidence, either oral or written, in person or by attorney, to show cause why he should not be prosecuted. After a hearing is held, if it appears that the law has been violated, the facts will be reported to the Department of Justice.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 976—MILK IN FORT SMITH, ARKANSAS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION

Pursuant to the applicable provisions of Public Act No. 10, 73rd Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended, regulating the handling of milk in the Fort Smith, Arkansas, marketing area, hereinafter referred to as the "order" it is hereby found and determined that the provisions of § 976.61 (b) of the order do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order from the effective date hereof.

It is hereby found and determined that notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impracticable, unnecessary and contrary to the public interest, in that the (1) information upon which this action is based did not become available in sufficient time for such compliance; (2) the issuance of this suspension order effective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for the marketing area; (3) this action will relieve handlers subject to other orders of certain obligations with respect to milk they distribute in the Fort Smith, Arkansas, marketing area, which obligations are not computed uniformly under current marketing conditions in the area; (4) the volume of milk subject to this provision has been substantially increased with the issuance of an order regulating the handling of milk in the Central Arkansas, marketing area; and (5) this suspension order does not require of persons affected any preparation prior to its effective date.

It is therefore ordered, That the following provision of the order be and it is hereby suspended with respect to all milk subject to the provisions of the order from the effective date hereof:

1. Section 976.61 (b) in its entirety.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 16th day of December 1955 to be effective upon and after January 1, 1956.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

[F. R. Doc. 55-10227; Filed, Dec. 20, 1955; 8:52 a. m.]

PART 1065—TOMATOES

IMPORT RESTRICTIONS

§ 1065.1 *Tomato Regulation No. 1*—(a) *Findings and determinations.* (1) Findings: Notice of rule making regarding proposed restrictions on the importation of tomatoes into the United States, to be made effective under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906 1047), was published in the FEDERAL REGISTER November 29, 1955 (20 F. R. 8759). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, and the data, views, and arguments submitted by interested parties, it is hereby found that the restrictions on the importation of tomatoes into the United States, as hereinafter provided, are in accordance with said section 8e.

(2) It is hereby found that it is impracticable and contrary to the public interest to postpone the effective date of this section beyond that herein specified (5 U. S. C. 1001 et seq.) in that (i) the requirements established by this import regulation are issued pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), which makes such regulation mandatory; (ii) regulations are now in effect on domestic shipments of tomatoes under Marketing Agreement No. 125 and Order No. 45 (7 CFR 945.301; 20 F. R. 8808); (iii) notice that this action was being considered to become effective January 2, 1956, was published in the FEDERAL REGISTER on November 29,

1955 (20 F. R. 8759); (iv) compliance with this tomato import regulation should not require any special preparation by importers which cannot be completed by the effective date; (v) notice hereof in excess of three days, the minimum that is prescribed by said section 8e, is given with respect to this tomato import regulation; (vi) such notice is hereby determined, under the circumstances, to be reasonable; and (vii) the regulations hereby established for tomatoes that may be imported into the United States are equivalent or comparable to those imposed upon domestic tomatoes under the aforesaid marketing agreement and order.

(b) *Import restrictions.* During the period from January 2, 1956, to May 31, 1956, both dates inclusive, and subject to the general regulations (7 CFR Part 1060; 19 F. R. 7707, 8012) applicable to the importation of listed commodities and the requirements of this section, no person shall import any tomatoes of any variety unless such tomatoes meet the requirements of the U. S. No. 2 or better grade.

(c) *Minimum quantities.* Any importation which in the aggregate, does not exceed 300 pounds, may be imported without regard to the provisions of paragraph (b) of this section.

(d) *Plant quarantine.* No provisions of this section shall supersede the restrictions or prohibitions on tomatoes under the Plant Quarantine Act of 1912.

(e) *Inspection and certification.* (1) The Federal or the Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Services, United States Department of Agriculture, is hereby designated, pursuant to § 1060.4 (a) of the general regulations, as the governmental inspection service for the purpose of certifying the grade, size, quality, and maturity of tomatoes that are imported, or to be imported into the United States under the provisions of section 8e of the act.

(2) Inspection and certification by the Federal or the Federal-State Inspection Service of each lot of imported tomatoes is required pursuant to § 1060.3 *Eligible imports* of the aforesaid general regulations and this section. Each such lot shall be made available and accessible for inspection. Such inspection and certification will be made available in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51). Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers of uninspected and uncertified tomatoes should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located each importer must give the specified advance notice to the applicable office listed below prior to the time the tomatoes will be imported.

Ports	Office	Advance notice
All Texas points	George B. Crisp, Jeffers Bldg., P. O. Box 111, Harlingen, Tex. (Telephone Garfield 3-1240.)	1 day.
All Arizona points	R. H. Bertelson, Room 202 Trust Bldg., 305 American Ave., P. O. Box 1646, Nogales, Ariz. (Telephone 484.)	1 day.
All California points	Carley D. Williams, 284 Wholesale Terminal Bldg., 784 S. Central Ave., Los Angeles 21, Calif. (Telephone Vandike 8756.)	3 days.
All Florida points	Lloyd W. Boney, Room 4, Dade County Growers Market, 1200 N.W. 21st Terr., Miami 42, Fla. (Telephone 82-6632.)	3 days.
All other points	E. E. Conklin, Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, AMS, United States Department of Agriculture, Washington 25, D. C. (Telephone Republic 7-4142 Ext. 5870.)	3 days.

(3) Inspection certificates shall cover only the quantity of tomatoes that is being imported at a particular port of entry by a particular importer.

(4) The inspections performed, and certificates issued by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51). The cost of any inspection and certification shall be borne by the applicant therefor.

(5) Each inspection certificate issued with respect to any tomatoes to be imported into the United States shall be set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The name of the importer (consignee);

(iv) The commodity inspected;

(v) The quantity of the commodity covered by the certificate;

(vi) The principal identifying marks on the containers;

(vii) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(viii) The following statement, if the facts warrant: Meets U. S. Import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(6) The shipping point tolerances of the U. S. No. 2 grade, as set forth in § 51.1857 (a) (1) of this title (18 F. R. 7143), which reads as follows:

(1) At shipping point (or in shipments from Mexico when inspected at points of entry into the United States) not more than a total of 10 percent, by count, for tomatoes in any lot, which fail to meet the requirements of this grade: *Provided*, That not more than one-tenth of this amount, or 1 percent, shall be allowed for tomatoes which are soft or affected by decay.

shall apply to all inspections performed on tomatoes prior to or upon entry into the United States.

(f) *Definitions.* (1) The term "U. S. No. 2" means the U. S. No. 2 grade, as set forth in the United States Standards for Tomatoes (§§ 51.1855 to 51.1876, inclusive, of this title; 18 F. R. 7142), including the tolerances set forth therein.

(2) All other terms have the same meaning as when used in the general regulations (7 CFR Part 1060; 19 F. R. 7707, 8012) applicable to the importation of listed commodities.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 16, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 68]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (20 F. R. 2881, 2973, 3499, 3931, 4397, 4841, 5256, 5709, 6076, 6575, 7134, 7897, 8364, 8630, 8983), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

1. Subparagraph (1) of paragraph (a), relating to Alameda County in California, is deleted.

2. New subdivisions (xxiv), (xxv), (xxvi), (xxvii), (xxviii), (xxix), (xxx), (xxxi), and (xxxii), are added to subparagraph (8) of paragraph (d), relating to Gloucester County in New Jersey, to read:

(xxiv) Lot No. 48 in Block 233, in Deptford Township, owned by J. A. Ross and operated by Robert Shisler;

(xxv) Lots No. 5A and 6 in Block 2, in Deptford Township, owned and operated by Alex Seder;

(xxvi) Lot No. 2 in Block 4J, in Deptford Township, owned by Andrew Seder and operated by Ed Seder;

(xxvii) Lots No. 26 and 27 in Block 387, in Deptford Township, owned and operated by Daniel Kinsley;

(xxviii) Lot No. 24 in Block 233, in Deptford Township, owned and operated by C. Kolwalus;

(xxix) Lot No. 2 in Block 4, in Deptford Township, owned and operated by Richard Schofield;

(xxx) Lot No. 2 in Block 397, in Deptford Township, owned and operated by Sam Villari;

(xxxi) Plots 7, 8, and 9 in Block 199, in Washington Township, owned and operated by Price Brothers; and

(xxxii) Plots 10 and 11, in Block 199, in Washington Township, owned and operated by James and Charles Price.

3. A new subdivision (vi) is added to subparagraph (2) of paragraph (d), relating to Middlesex County in New Jersey, to read:

(vi) That part of South Brunswick Township lying west of U. S. Route No. 130, north of Dey Road, east of Rowland Road, and south of Broadway Road.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in California and New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1954 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111. Interprets or applies secs. 4, 5, 23 Stat. 32, sec. 1, 32 Stat. 791; 21 U. S. C. 120)

Done at Washington, D. C., this 15th day of December 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 55-10228; Filed, Dec. 20, 1955; 8:52 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53983]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

VESSEL SUPPLIES

The decision of the United States Court of Customs and Patent Appeals in the case reported in C. A. D. 569, decided June 24, 1954, involved a vessel which was moved in ballast from New York, New York, to Seattle, Washington, for conversion, refitting, and repairs to make it suitable for the Puget Sound-Alaska trade. The court ruled that the vessel was not engaged in trade within the meaning of section 309 of the Tariff Act of 1930, as amended, on the voyage from New York to Seattle. Accordingly, the fuel oil consumed on the voyage from New York to Seattle was held not entitled to exemption from duty or tax under section 309.

The Customs Regulations governing the conditionally free withdrawal of supplies for vessels under section 309 require amendment to bring them into harmony with the decision of the court in C. A. D. 569, and to provide a procedure to better enable collectors to determine whether vessels which proceed in ballast may properly be considered to be engaged in trade within the meaning of the statute.

It is also believed to be desirable to incorporate in the Customs Regulations a Bureau ruling that a vessel on a trial or test trip is not engaged in trade.

1. Accordingly, § 10.59 is amended as follows:

a. Paragraph (a) (3) is deleted. Paragraph (a) (4) is redesignated (a) (3) and amended to read:

(3) Departing in ballast (without cargo or passengers) from one port for another, domestic or foreign, for the purpose of lading passengers or cargo at the port of destination for carriage in a class of trade specified in section 309 (a), Tariff Act of 1930, as amended, for which class of trade the vessel is suitable and substantially ready for service with necessary fittings, outfit, and equipment already installed on its departure in ballast, and from which it is not diverted prior to carriage of passengers or cargo in such trade. A written declaration of the owner or agent of the vessel may be required in connection with the withdrawal, certifying to the vessel's suitableness and substantial readiness with necessary fittings, outfit, and equipment already installed on its departure in ballast for service in a class of trade specified in section 309 and agreeing to notify the collector if it is laid up or diverted from such class of trade prior to the carriage of cargo or passengers in such trade.

b. Paragraphs (b), (c), and (d) are redesignated paragraphs (c), (d), and (e), respectively, and a new paragraph (b) is added, to read:

(b) A withdrawal of articles may not be made under section 309, Tariff Act of 1930, as amended, for use on a trial or test trip of a vessel preparatory to its actually engaging in trade.

(Sec. 309, 46 Stat. 690, as amended; 19 U. S. C. 1309)

2. Section 10.60 is amended as follows:

a. Paragraph (a) is amended by adding the following sentence: "When a withdrawal of supplies or other articles is made which may be used on a vessel while it is proceeding in ballast to another port as provided for by § 10.59 (a) (3), a notation of this fact shall be made on the withdrawal and the name of the other port given if known."

b. The first sentence of paragraph (d) is amended to read: "When the supplies are to be laden at a port other than the port of withdrawal from warehouse, they shall be withdrawn for transportation in bond to the port of lading."

(Sec. 309, 46 Stat. 690, as amended; 19 U. S. C. 1309)

3. Section 10.64 (a) is amended by changing the period at the end of the second sentence to a comma and adding: "unless it proceeds in ballast from the port where the articles are laden to another port to lade passengers or cargo."; by substituting "§ 25.18" for "§ 25.16" in the third sentence in order to correct a cross reference; and by deleting "----------" at the end of the

(Name and title)

paragraph and adding the following:

[1] I further declare that the vessel proceeded in ballast to the port of ---------- to

Name of port

lade cargo or passengers, that the vessel was suitable for service in the class of trade checked above with fittings, outfit, and equipment for such trade already installed when the vessel so departed in ballast, and that upon arrival it proceeded to engage in the carriage of cargo or passengers in such trade, except as stated below:

(If no exception, note "None")

(Name and title)

[1] This statement to be included if the articles were laden on a vessel which proceeded in ballast from the port of lading to another port.

(Sec. 309, 46 Stat. 690, as amended; 19 U. S. C. 1309)

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: December 14, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10215; Filed, Dec. 20, 1955; 8:50 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 14—CACAO PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

PART 19—CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS; AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

PART 27—CANNED FRUITS; DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY; AND FILL OF CONTAINER

PART 29—FRUIT BUTTERS, FRUIT JELLIES, FRUIT PRESERVES, AND RELATED PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

PART 53—TOMATO PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY; AND FILL OF CONTAINER

EFFECTIVE DATE OF ORDER AMENDING THE DEFINITIONS AND STANDARDS OF IDENTITY

In the matter of amending the definitions and standards of identity for sweet chocolate; milk chocolate; skim milk chocolate; buttermilk chocolate; mixed dairy product chocolates; sweet chocolate and vegetable fat (other than cacao fat) coating; sweet cocoa and vegetable fat (other than cacao fat) coating; pasteurized process cheese spread; pasteurized cheese spread; pasteurized process cheese spread with fruits, vegetables, or meats; pasteurized cheese spread with fruits, vegetables or meats; pasteurized neufchatel cheese spread with other foods; cold-pack cheese food; cold-pack cheese food with fruits, vegetables, or meats; canned peaches; canned peaches with rum; canned apricots; canned apricots with rum; canned pears; canned pears with rum; canned cherries; canned cherries with rum; canned fruit cocktail; fruit butter, fruit jelly; preserves; catsup;

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, 68 Stat. 54; 21 U. S. C. 341) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (20 F. R. 1996), notice is hereby given that no objections were filed to the order published in the FEDERAL REGISTER on October 27, 1955 (20 F. R. 8073) amending the definitions and standards of identity for the above-listed foods. The amendments promulgated by that order will become effective December 26, 1955.

These amendments add glucose sirup and dried glucose sirup to the optional ingredients permitted by the definitions and standards of identity for the foods heretofore listed.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 401, 52 Stat. 1046, as amended, 68 Stat. 54; 21 U. S. C. 341)

Dated: December 12, 1955.

[SEAL] JOHN L. HARVEY,
Acting Commissioner of Food and Drugs.

[F. R. Doc. 55-10205; Filed, Dec. 20, 1955; 8:47 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF METHOXYCHLOR

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of methoxychlor in or on certain raw agricultural commodities. The request for the establishment of tolerances for one of the commodities was withdrawn without prejudice to a future filing.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended by adding the following new section:

§ 120.120 *Tolerances for residues of methoxychlor.* Tolerances for residues of methoxychlor (2,2-bis-(*p*-methoxyphenyl)-1,1,1-trichloroethane) are established as follows:

(a) 100 parts per million in or on alfalfa, clover, cowpeas, grass for forage, peanut forage, soybean forage.

(b) 14 parts per million in or on carrots (with or without tops) or carrot tops, currants, gooseberries, peanuts.

(c) 3 parts per million in the fat of meat from cattle, sheep, or hogs.

(d) 2 parts per million in or on the following grains: Barley, corn, oats, rice, rye, sorghum grain, wheat.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Dated: December 5, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-10206; Filed, Dec. 20, 1955; 8:47 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF PARATHION

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of parathion in or on certain raw agricultural commodities.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended by adding the following new section:

§ 120.121 *Tolerances for residues of parathion.* A tolerance of 1 part per million is established for residues of parathion (O,O-diethyl O-*p*-nitrophenyl thiophosphate) in or on the following raw agricultural commodities: Alfalfa, barley, clover, corn forage, grass for forage, hops, oats, olives, pea forage, vetch, wheat.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 408, 68 Stat. 512; 12 U. S. C. 346a)

Dated: December 8, 1955.

[SEAL] JOHN L. HARVEY,
Acting Commissioner of Food and Drugs.

[F. R. Doc. 55-10207; Filed, Dec. 20, 1955; 8:48 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCE FOR RESIDUES OF CHLORDANE

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of chlordane in or on certain raw agricultural commodities. Subsequently the petitioner withdrew its request for tolerances on certain of these raw agricultural commodities without prejudice to a future filing.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which a tolerance is being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerance established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended by adding the following new section:

§ 120.122 *Tolerance for residues of chlordane.* A tolerance of 0.3 part per million is established for residues of chlordane (1,2,4,5,6,7,8,8-octachloro-2,3,-

3a,4,7,7a - hexahydro - 4,7 - methanoindene) in or on sweetpotatoes.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Dated: December 8, 1955.

[SEAL] JOHN L. HARVEY,
Acting Commissioner of Food and Drugs.

[F. R. Doc. 55-10209; Filed, Dec. 20, 1955; 8:48 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF INORGANIC BROMIDES FROM FUMIGATION WITH METHYL BROMIDE

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of inorganic bromides which result from the fumigation of certain raw agricultural commodities with methyl bromide. Subsequently, the petitioner withdrew the request for tolerances on pecans and peanuts without prejudice to future filing.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended by adding the following new section:

§ 120.123 *Tolerances for residues of inorganic bromides resulting from fumigation with methyl bromide.* The tolerances for residues of inorganic bromides (calculated as Br) in or on raw agricultural commodities which have been fumigated with methyl bromide are as follows:

(a) 5 parts per million in or on apples, pears, quinces.

(b) 20 parts per million in or on eggplants, onions, tomatoes.

(c) 30 parts per million in or on beets, rutabagas, turnips.

(d) 50 parts per million in or on alfalfa hay, barley, beans, green beans, lima beans, snap beans, black-eyed peas, cocoa beans, corn, grain sorghum (milo), oats, rice, rye, wheat.

(e) 75 parts per million in or on potatoes, sweet potatoes.

(f) 200 parts per million in or on cottonseed.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, shall specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Dated: December 8, 1955.

[SEAL] JOHN L. HARVEY,
Acting Commissioner of Food and Drugs.

[F. R. Doc. 55-10208; Filed, Dec. 20, 1955; 8:48 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCE FOR RESIDUES OF GLYODIN

A petition was filed with the Food and Drug Administration requesting the establishment of a tolerance for residues of glyodin (2-heptadecyl glyoxalidine acetate) in or on peaches.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which a tolerance is being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerance established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances for residues of inorganic bromides (calculated as Br) in or on raw agricultural commodities which have been fumigated with methyl bromide are as follows:

(a) 5 parts per million in or on apples, pears, quinces.

(b) 20 parts per million in or on eggplants, onions, tomatoes.

(c) 30 parts per million in or on beets, rutabagas, turnips.

(d) 50 parts per million in or on alfalfa hay, barley, beans, green beans, lima beans, snap beans, black-eyed peas, cocoa beans, corn, grain sorghum (milo), oats, rice, rye, wheat.

(e) 75 parts per million in or on potatoes, sweet potatoes.

(f) 200 parts per million in or on cottonseed.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Dated: December 14, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-10201; Filed, Dec. 20, 1955; 8:47 a. m.]

PART 141a—PENICILLIN AND PENICILLIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PENICILLIN V FOR ORAL SUSPENSION

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 507, 701, 59 Stat. 463, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for tests and methods of assay and certification of penicillin and penicillin-containing drugs (21 CFR, Parts 141a, 146a) are amended by adding the following new sections:

1. Part 141a is amended by adding thereto a new section, reading as follows:

§ 141a.82 *Penicillin V for oral suspension (phenoxymethyl penicillin for oral suspension)*—(a) *Potency.* Proceed as directed in § 141a.81 (a). Its potency is satisfactory if the immediate containers contain not less than 85 percent of the number of units that they are represented to contain.

(b) *Moisture.* Proceed as directed in § 141a.5 (a) or § 141a.26 (e).

2. Part 146a is amended by adding thereto a new section, reading as follows:

§ 146a.104 *Penicillin V for oral suspension (phenoxymethyl penicillin for oral suspension)*—(a) *Standards of identity, strength, quality, and purity.* Penicillin V for oral suspension is a mixture of penicillin V and one or more suitable and harmless suspending agents, colorings, and flavorings. Its moisture content is not more than 1 percent. The penicillin V used conforms to the requirements of § 146a.103 (a). Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate container shall be a tight container as defined by the U. S. P., and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused that are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of units in the immediate container.

(iii) The statement "Expiration date ---------," the blank being filled in with the date that is 24 months after the month during which the batch was certified: *Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

(2) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however,* That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the penicillin used in making such batch was completed, the number of units in each immediate container, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and a statement that each ingredient used in making the batch conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided in subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch: Potency and moisture.

(ii) The penicillin V used in making the batch: Potency, toxicity, moisture, pH, crystallinity, penicillin V content.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch: One immediate container for each 5,000 immediate containers in the batch, but in no case less than 5 immediate containers or more than 12 immediate containers, collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The penicillin used in making the batch: 10 packages, each containing approximately equal portions of not less than 300 milligrams, packaged in accordance with the requirements of § 146a.103 (b).

(iii) In case of an initial request for certification, each other ingredient used in making the batch: One package of each, containing approximately 5 grams.

(4) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i), (ii), and (iii) of this section.

(2) If the Commissioner considers that investigations, other than examination of such immediate containers, are necessary to determine whether or not such batch complies with the requirements of § 146.3 of this chapter for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d) of this chapter.

Notice and public procedure are not necessary prerequisities to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: December 14, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-10200; Filed, Dec. 20, 1955; 8:47 a. m.]

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1954 Supp., Part 141c) and certification of antibiotic and antibiotic-containing drugs (21 CFR, 1954 Supp., Parts 146, 146a, 146c) are amended as indicated below:

1. Part 141c is amended by adding the following new section:

§ 141c.228 *Tetracycline hydrochloride-neomycin tablets*—(a) Potency—(1) *Tetracycline hydrochloride content.* Proceed as directed in § 141c.218 (a) but in lieu of the directions in § 141c.218 (a) (5) prepare the sample as follows: Using a mortar and pestle, grind 5 tablets to a fine powder. Using 200 milliliters of absolute methanol, quantitatively transfer the powder to a blending jar and blend at high speed for 2 minutes. Centrifuge a portion of the liquid at high speed for sufficient time (usually 15 minutes) to obtain a substantially clear solution. Dilute an aliquot of the clear solution in sufficient 0.10 *M* monobasic potassium phosphate buffer, pH 4.5, to give a concentration of 0.24 microgram per milliliter (estimated). Its content of tetracycline hydrochloride is satisfactory if it

contains not less than 85 percent of the number of milligrams per tablet that it is represented to contain.

(ii) *Neomycin content.* Proceed as directed in § 141e.410 (a) (1) (ii) of this chapter, except that: Immediately after the second blending, heat a convenient sized aliquot of the blend in a steam bath for 30 minutes, cool, and dilute to 10 micrograms per milliliter (estimated). Its content of neomycin is satisfactory if it contains 85 percent of the number of milligrams per tablet that it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141a.5 (a) of this chapter.

2. In § 146.26 *Animal feed containing penicillin* * * *, paragraph (b) is amended as follows:

a. Subparagraphs (9) and (10) are changed to read as follows:

(9) It is intended for use solely in the prevention of chronic respiratory disease (air-sac infection), infectious sinusitis, and blue comb (nonspecific infectious enteritis) in poultry and/or bacterial swine enteritis; its labeling bears adequate directions and warnings for such use, and it contains, per ton of feed, not less than 50 grams of bacitracin or 50 grams of penicillin (unless it is intended for bacterial swine enteritis) or 50 grams of a combination of the two drugs, except that if it contains the combination drug and it is intended for the prevention of bacterial swine enteritis it shall contain not less than 25 grams of bacitracin.

(10) It is intended for use solely in the treatment of chronic respiratory disease (air-sac infection), infectious sinusitis, and blue comb (nonspecific infectious enteritis) in poultry and/or bacterial swine enteritis; its labeling bears adequate directions and warnings for such use, and it contains, per ton of feed, not less than 100 grams of bacitracin or 100 grams of penicillin (unless it is intended for bacterial swine enteritis) or 100 grams of a combination of the two drugs, except that if it contains the combination drug and it is intended for the treatment of bacterial swine enteritis it shall contain not less than 50 grams of bacitracin.

b. Subparagraphs (18), (19), and (21) are deleted, and subparagraphs (20), (22), (23), (24), and (25) are renumbered as (18), (19), (20), (21), and (22), respectively.

c. Renumbered subparagraph (21) (iii) is amended by changing the words "subparagraph (20)" to read "subparagraph (18)".

d. Paragraph (b) is further amended by adding the following new subparagraphs:

(23) It is intended for use solely as an aid in the reduction of losses due to enterotoxemia in sheep; its labeling bears adequate directions and warnings for such use; and it contains not less than 20 grams of chlortetracycline per ton of feed.

(24) It is intended for use solely in the maintenance of weight gains of swine in the presence of atrophic rhinitis; its labeling bears adequate directions and warnings for such use; and it contains not less than 50 grams of chlortetracycline per ton of feed.

(25) It is intended for use solely as an aid in the reduction of bacterial diarrhea in beef calves, and it contains a quantity of chlortetracycline adequate to provide 0.1 milligram per pound of body weight per day when fed in accordance with the directions for use that accompany the feed.

3. In § 146a.99 *Capsules crystalline penicillin G* * * *, paragraph (a) *Standards of identity* * * * is amended by inserting immediately after the words "vegetable oils," the following new words: "and with or without one or more suitable antihistaminics and vasoconstrictors,".

4. Part 146c is amended by adding the following new section:

§ 146c.228 *Tetracycline hydrochloride-neomycin tablets.* Tetracycline hydrochloride-neomycin tablets are tablets that conform to all requirements and are subject to all procedures prescribed by § 146c.204 for tetracycline hydrochloride capsules, except that:

(a) Each tablet shall contain not less than 250 milligrams of neomycin. The neomycin used conforms to the requirements prescribed for neomycin by § 146e.410 (a) (2) of this chapter.

(b) In lieu of the labeling prescribed by § 146c.204 (c) (1) (ii), each package shall bear on the outside wrapper or container and the immediate container the number of milligrams of tetracycline hydrochloride and the number of milligrams of neomycin in each tablet of the batch.

(c) In addition to complying with the requirements of § 146c.204 (d), a person who requests certification of a batch shall submit with his request a statement showing the number of milligrams of tetracycline hydrochloride and neomycin in each tablet of the batch, the batch mark, and (unless it was previously submitted) the results and the date of the latest tests and assays of the neomycin used in making the batch for potency, toxicity, moisture, and pH. He shall also submit in connection with his request (unless it was previously submitted) a sample consisting of 5 packages containing approximately equal portions of not less than 0.5 gram each of the neomycin used in making such batch.

(d) The fee for the services rendered with respect to each immediate container in the sample of neomycin submitted in accordance with the requirements prescribed therefor by this section shall be $4.00.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industries, since it conditionally relaxes existing requirements, and since it would be against public interest to delay providing for the amendments set forth above.

I further find that animal feed containing antibiotic drugs need not comply with the requirements of sections 502 (1) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy, provided they are used in the amounts and for the purposes specified in amendment 2.

This order shall become effective upon issuance, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: December 6, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter J—Heirs and Wills

PART 81—DETERMINATION OF HEIRS AND APPROVAL OF WILLS, EXCEPT AS TO MEMBERS OF THE FIVE CIVILIZED TRIBES AND OSAGE INDIANS

KAW FUNDS

A new § 81.34 is added to read as follows:

§ 81.34 *Kaw funds.* (a) The regulations in this part, except to the extent stated in paragraphs (b), (c), and (d) of this section, shall apply to the determination of heirs or devisees of deceased Indians to whom funds of the Kaw Tribe of Indians are directed to be distributed by the act approved August 9, 1955 (69 Stat. 559).

(b) For the purpose of making determinations under this section, the examiner of inheritance may recognize or adopt final decrees of distribution entered by courts of competent jurisdiction.

(c) No claim, fee, or charge, other than debts due the United States, shall be recognized or allowed against any part of the Kaw funds to which an Indian beneficiary is entitled.

(d) Sections 81.18 and 81.33 shall have no application in the distribution of the Kaw funds.

(Secs. 1, 2, 36 Stat. 855, 856, as amended, sec. 1, 38 Stat. 856, 42 Stat. 1185, as amended, secs. 1, 2, 56 Stat. 1021, 1022; 25 U. S. C. 372, 373, 377, 373a, 373b)

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

Subchapter L—Irrigation Projects: Operation and Maintenance

PART 130—ORDER FIXING OPERATION AND MAINTENANCE CHARGES

CROW INDIAN IRRIGATION PROJECT, MONTANA; CHARGES

There was published in the daily issue of the FEDERAL REGISTER pursuant to section 4 (a) of the Administrative Procedure Act approved June 11, 1946, Public Law 404, 79th Congress; the acts of Congress approved August 1, 1914; June 4, 1920; May 26, 1926; and March 7, 1928 (38 Stat. 583, 25 U. S. C. 385; 41 Stat. 751; 44 Stat. 658; 45 Stat. 210; 25 U. S. C. 387) and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs September 11, 1946 (11 F. R. 10279) and by virtue of authority delegated by the Commissioner of Indian Affairs to the Regional Director September 13, 1949, by Order No. 2535, notice of intention to modify § 130.12 of Title 25, Code of Federal Regulations, dealing with irrigable lands of the Crow Indian Irrigation Project to read as follows:

Interested persons were thereby given opportunity to participate in preparing the modification by submitting data or written arguments within 30 days from the publication of the notice. No objections were submitted. Accordingly, § 130.12 is amended as follows:

§ 130.12 *Charges.* In compliance with the provisions of the act of August 1, 1914 (38 Stat. 583; 25 U. S. C. 385), the operation and maintenance charges for irrigable lands under the Crow Indian Irrigation Project and under certain private ditches for the calendar year 1956 and subsequent years until further notice are hereby fixed as follows:

For the assessable non-district area under constructed works on all Government-operated units excepting Coburn Ditch, per acre	$2.50
For the assessable area under constructed works on certain tracts of irrigable trust patent Indian land within and benefited by the Two Leggins Unit, per acre	1.74
For the assessable area on certain tracts of irrigable trust patent Indian land within and benefited by the Bozeman Trail Unit, per acre	1.25
For all lands in Indian ownership under the Bozeman Trail Unit on June 28, 1946, and under constructed works on all Government-operated units in the Little Big Horn watershed; for non-Indian, non-irrigation district lands, under private ditches, contracting for the benefits and repayment for the costs of the Willow Creek Storage Works; for operation and maintenance of said Works, per acre	.10
For certain tracts of irrigable trust patent Indian lands within and benefited by the Two Leggins Drainage District (contract dated June 29, 1932), per acre	$0.75

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

The foregoing amendment is to become effective for the irrigation season of 1956 and continue in effect thereafter until further notice.

J. M. COOPER,
Area Director.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 897, Amdt. 3]

PART 97—ROUTING

REROUTING OF TRAFFIC

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 15th day of December 1955.

Upon further consideration of Service Order No. 897 (19 F. R. 3762; 20 F. R. 4, 4688), and good cause appearing therefor: It is ordered, that:

Section 97.897 *Service Order No. 897*, be, and it is hereby amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p. m., June 30, 1956, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p. m., December 31, 1955.

It is further ordered, That copies of this order and direction shall be served upon the Nebraska State Railway Commission and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended, sec. 15, 24 Stat. 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] HAROLD D. McCOY,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 957]

[AO-150 A-2]

POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT NO. 98 AND ORDER NO. 57, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR 900 et seq.), notice is hereby given of a public hearing to be held in the Bannock County Court House, Pocatello, Idaho, beginning at 9:30 a. m., m. s. t., January 19, 1956, with respect to proposed amendments to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the provisions of the proposed amendments, which are hereinafter set forth, and appropriate modifications thereof.

The Idaho-Eastern Oregon Potato Committee, the administrative agency established pursuant to the marketing agreement and order, has proposed the following amendments to said marketing agreement and order and has requested a hearing thereon:

1. Amend §§ 957.1, 957.2, and 957.3, to read, respectively, as follows:

§ 957.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 957.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agri-

cultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 957.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

2. Amend §§ 957.7, 957.8, and 957.9 to read, respectively, as follows:

§ 957.7 *Certified seed potatoes.* "Certified seed potatoes" means and includes all potatoes officially certified and tagged, marked or otherwise appropriately identified, under the supervision of the official seed potato certifying agency of the State in which the potatoes are grown, or other seed certification agencies which the Secretary may recognize and approve.

§ 957.8 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of potatoes owned by another person) who handles potatoes or cause potatoes to be handled.

§ 957.9 *Handle.* "Handle" or "ship" means to sell or transport potatoes within the production area, or between the production area and any point outside thereof.

3. Amend § 957.12 *Fiscal year* to read as follows:

§ 957.12 *Fiscal period.* "Fiscal period" means the period beginning and ending on the dates approved by the Secretary pursuant to recommendations by the committee.

4. Renumber and amend § 957.13 *Grade and size* to read as follows:

§ 957.14 *Grade and size.* "Grade" means any one of the officially established grades of potatoes or peeled potatoes, and "size" means any one of the officially established sizes of potatoes or peeled potatoes, as defined and set forth in:

(a) United States Standards for Potatoes issued by the United States Department of Agriculture (§§ 51.1540 to 51.1559 of this title), or amendments thereto, or modifications thereof, or variations based thereon;

(b) United States Consumer Standards for Potatoes issued by the United States Department of Agriculture (§§ 51.1575 to 51.1587 of this title), or amendments thereto, or modifications thereof, or variations based thereon;

(c) United States Standards for Grades of Peeled Potatoes issued by the United States Department of Agriculture (§§ 52.2421 to 52.2433 of this title) or amendments thereto, or modifications thereof, or variations based thereon; and

(d) Standards for potatoes issued by the State of Idaho or Oregon or amendments thereto, or modifications thereof, or variations based thereon.

5. Add a new § 957.13 *Grading* reading as follows:

§ 957.13 *Grading.* "Grading" is synonymous with "preparation for market" and means the sorting or separation of potatoes into grades, sizes, shapes, qualities, and packs for market purposes.

6. Renumber § 957.14 *Export* as § 957.17.

7. Renumber and amend § 957.15 *District* to read as follows:

§ 957.18 *District.* "District" means each one of the geographical divisions of the production area established pursuant to § 957.27 or as reestablished pursuant to § 957.28.

8. Add new §§ 957.15 *Pack* and 957.16 *Container* reading as follows:

§ 957.15 *Pack.* "Pack" means a unit of potatoes in any type of container and which falls within specific weight limits or within specific grade limits, or both, recommended by the committee and approved by the Secretary.

§ 957.16 *Container.* "Container" means a sack, box, bag, crate, hamper, basket, carton, package, barrel, bulk load or any other type of unit used in the packaging, transportation, sale, shipment or handling of potatoes.

9. Add new §§ 957.19 *Marketing season* and 957.20 *Table stock potatoes* reading as follows:

§ 957.19 *Marketing season.* "Marketing season" is synonymous with "season" and means the period July 1 of any year to and including June 30 of the following year.

§ 957.20 *Table stock potatoes.* "Table stock potatoes" means and includes all potatoes not included within the definition of certified seed potatoes.

10. Renumber §§ 957.20 to 957.32, inclusive, as §§ 957.25 through 957.27, and 957.29 through 957.38, respectively.

11. Amend paragraphs (a) and (b) of the newly renumbered § 957.25 to read as follows:

§ 957.25 *Establishment and membership.* (a) The Idaho-Eastern Oregon Potato Committee consisting of ten members, of whom six shall be producers and four shall be handlers, is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) Each person selected as a committee member or alternate to represent producers shall be an individual who is a producer in the district for which selected or an officer or employee of a producer in such district, and shall be a resident thereof. A producer who handles potatoes other than of his own production shall qualify as a producer under this section, and §§ 957.29, 957.30, 957.32, and 957.34, only if the potatoes of his own production constituted 51 percent or more of the total quantity of potatoes handled by him during the portion of the then current season preceding his nomination.

12. Amend the newly numbered § 957.26 to read as follows:

§ 957.26 *Term of office.* (a) The term of office of committee members and alternates shall be for two years beginning June 1 and ending May 31. The terms of office of such members and alternates shall be so determined that one-half of the total committee membership shall terminate each May 31.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify and continuing until the end of the term for which selected, and until their successors are selected and have qualified.

13. Add a new § 957.28 reading as follows:

§ 957.28 *Redistricting.* The committee may recommend, and pursuant thereto the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts, set forth in § 957.27, within the production area. In recommending any such changes, the committee shall give consideration to: (a) Shifts in potato acreage within districts and within the production area during recent years; (b) the importance of new potato production in its relation to existing districts; (c) the equitable relationship between the committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in apportionment of members within districts may become effective within less than 30 days prior to the beginning of a fiscal period; and no recommendations for such redistricting or reapportionment may be made less than four months prior to such date.

14. Amend the newly renumbered §§ 957.29, 957.30, and 957.31 to read as follows:

§ 957.29 *Selection.* Members and alternates shall be selected on the following basis (unless otherwise apportioned pursuant to § 957.28): (a) Three producer members and two handler members with their respective alternates, from District No. 1; (b) one producer member and one handler member, with their respective alternates, from District No. 2; and (c) two producer members and one handler member, with their respective alternates, from District No. 3.

§ 957.30 *Nominations.* (a) The Secretary may select the members and alternates of the Idaho-Eastern Oregon Potato Committee from nominations which may be made in the following manner, or from other eligible persons: nominations for members and alternates may be submitted by producers or handlers, as the case may be, or groups of either thereof, on an elective basis or otherwise.

(b) In order to provide nominations for committee members and alternates: (1) The committee shall hold or cause to be held prior to April 1 of each year, one or more meetings of producers and of handlers in each of the districts designated in § 957.27, or pursuant to § 957.28, in which the then current terms of office will expire the following May 30; and

(2) In arranging for such meetings, the committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies, and may combine its meetings with others.

(c) Nominations shall be supplied to the Secretary, in such manner and form as he may prescribe, not later than 30 days prior to the expiration of the terms of office.

(d) Only producers may participate in designating nominees for producer members and alternates and only handlers may participate in designating nominees for handler members and alternates.

(e) Regardless of the number of districts in which a person produces or handles potatoes, such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for committee members and alternates: *Provided,* That in the event a person is engaged in producing or handling potatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees: *Provided further,* That, an eligible voter's privilege of casting only one vote, as aforesaid shall be construed to permit such voter to cast one vote for each position to be filled in the district in which he elects to vote.

§ 957.31 *Failure to nominate.* If nominations are not made within the time and in the manner and form specified by the Secretary pursuant to § 957.30, the Secretary may without regard to nominations, select the committee members and alternates: *Provided,* That such selection shall be on the basis of the representation prescribed in this subpart.

15. Amend the newly numbered §§ 957.34, 957.35, and 957.36 to read as follows:

§ 957.34 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate during such member's absence; an alternate member may perform such other duties as assigned or requested by the committee. In the event of the death, removal, resignation, or disqualification of a member his alternate shall act for him until a successor to such member is selected and has qualified.

§ 957.35 *Procedure.* (a) A majority of the members of the committee shall be necessary to constitute a quorum; and at least six concurring votes shall be required to pass any motion or approve any committee action. At any assembled meeting, all votes shall be cast in person.

(b) The committee may provide for meetings, by telephone, telegraph, or other means of communication and any vote cast at such meeting shall be confirmed promptly in writing.

§ 957.36 *Expenses and compensation.* Committee members and their respective alternates shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this subpart, and shall receive compensation at a rate to be determined by the committee and approved by the Secretary, not to exceed $10.00 for each day, or portion thereof, spent in attending to committee business: *Provided,* that at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

16. Amend paragraph (d) of the newly renumbered § 957.38 *Duties* to read as follows:

(d) to investigate from time to time, and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to potatoes;

17. Amend §§ 957.40 to 957.46, inclusive, to read as follows:

§ 957.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during the same period.

§ 957.41 *Budget.* At the beginning of each fiscal period, and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget promptly to the Secretary with an accompanying report showing the basis for its calculations.

§ 957.42 *Assessments.* (a) The funds to cover the committee's expenses pursuant to § 957.40 shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who ships potatoes as the first handler thereof shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of such expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary, but not to exceed $1.00 per carload. Such rates may be established upon the basis of the committee's recommendations or other available information.

(c) At any time during or subsequent to a given fiscal period, the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendation, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.

§ 957.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member or alternate of the committee, he shall account for all receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and deliver all such property and funds in his hands to such successor, agency, or person as may be designated by the Secretary, and shall execute such assignments and other instruments as may be necesary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this part, or during any period or periods when regulations are not in effect and; if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 957.44 *Refunds.* Monies arising from the excess of assessments over expenses shall be accounted for as provided in this section. Each handler entitled to a proportionate refund of the excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him. However, the Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this order to liquidate the affairs of the committee: *Provided,* That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of committee liquidation shall be returned upon a pro rata basis to all persons from whom such funds were collected.

18. Add a new § 957.47 reading as follows:

§ 957.47 *Research and development.* The committee may investigate from time to time and assemble data on the growing, harvesting, shipping, and marketing conditions with respect to pota-

toes, and, upon approval of the Secretary, may provide for the establishment of research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes.

19. Amend §§ 957.50 to 957.54, inclusive, to read as follows:

§ 957.50 *Marketing policy*—(a) *Preparation.* Prior to or at the same time as recommendations are made pursuant to § 957.51, the committee shall consider, and prepare a proposed policy for the marketing of potatoes. In developing its marketing policy the committee shall investigate relevant supply and demand conditions for potatoes. In such investigations the committee shall give appropriate consideration to the following:

(1) Market prices for potatoes, including prices by grade, size, and quality in different packs, and in different containers;

(2) Supplies of potatoes by grade, size, and quality in the production area and in other production areas;

(3) The trend and level of consumer income;

(4) Establishing and maintaining orderly marketing conditions for potatoes;

(5) Orderly marketing of potatoes as will be in the public interest; and

(6) Other relevant factors.

(b) *Reports.* (1) The committee shall promptly submit a report to the Secretary setting forth the aforesaid marketing policy and shall notify producers and handlers of the contents of such report.

(2) In the event it becomes advisable to shift from such marketing policy because of changed supply and demand conditions, the committee shall prepare a new or revised marketing policy in the manner set forth in paragraph (a) of this section and this paragraph. The committee shall promptly submit a report thereon to the Secretary and notify producers and handlers of the contents of such report on the new or revised marketing policy.

§ 957.51 *Recommendation for Regulations.* Whenever the committee deems it advisable that the handling of potatoes be regulated pursuant to § 957.52 or § 957.53, or both, it shall recommend to the Secretary grade, size, quality, or maturity regulation, or any combination thereof, or amendment thereto, or modification, suspension or termination thereof, whenever it finds that such regulation, as provided in such sections will tend to effectuate the declared policy of the act.

§ 957.52 *Issuance of regulations.* (a) The Secretary shall limit the shipment of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such limitation may:

(1) Regulate in any or all portions of the production area, the shipment of particular grades, sizes, qualities, or maturities, or any combination thereof, of any or all varieties of potatoes during any period;

(2) Regulate the shipment of particular grades, sizes, qualities, or maturities of potatoes differently, for different varieties, for table stock potatoes, for certified seed potatoes, for different outlets, for different portions of the production area, for different packs, for different containers, for peeled potatoes and unpeeled potatoes, or for any combination of the foregoing, during any period;

(3) Provide a method through rules and regulations, issued pursuant to this part for fixing the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of potatoes, or both;

(4) Regulate the shipment of potatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(5) Prohibit the handling of potatoes during a specified period or periods. No Regulation issued pursuant to this subparagraph shall be effective for more than 96 consecutive hours: *Provided,* That not less than 72 consecutive hours shall elapse between the termination of any such period of limitation and the beginning of the next such period.

(b) In the event the handling of potatoes is regulated pursuant to § 957.52 (a) (5), no handler shall handle any such potatoes which were prepared for market during the effective period of such regulation.

(c) The Secretary may amend any regulation issued under this part whenever he finds that such amendment would tend to effectuate the declared policy of the act. The Secretary may also terminate or suspend any regulation or amendment thereof whenever he finds that such regulation or amendment obstructs or no longer tends to effectuate the declared policy of the act.

§ 957.53 *Modification, suspension, or termination.* Whenever the Secretary finds, upon the basis of the recommendations and information submitted by the committee, or from other available information, that it will tend to effectuate the declared policy of the act, he shall modify, suspend, or terminate regulation under or pursuant to §§ 957.42, 957.52, or 957.65, or any combination thereof, in order to facilitate shipments of potatoes for the following purposes:

(a) For grading or storage within any or all portions of the production area.

(b) Planting within any or all portions of the production area;

(c) Export;

(d) Relief or charity;

(e) Livestock feed;

(f) Certified seed potatoes;

(g) Manufacture or conversion into specified products; and

(h) Such other purposes which may be specified by the committee, with approval of the Secretary.

20. Renumber §§ 957.55 through 957.57 as §§ 957.54 through 957.56, respectively.

21. Amend the newly renumbered § 957.56 to read as follows:

§ 957.56 *Safegards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to § 957.53 from entering channels of trade for other than the specific purpose authorized therefor.

(b) Safeguards, as provided by this section, may include requirements that handlers:

(1) Shall obtain the inspection required by § 957.65 or pay the assessment provided by § 957.42, or both, in connection with the potato shipments effected in accordance with § 957.53; and

(2) Shall obtain certificates of privilege from the committee for shipments of potatoes effected or to be effected under provisions of § 957.53.

(c) The committee, with the approval of the Secretary, shall prescribe rules governing the issuance and the contents of certificates of privilege.

(d) The committee may rescind or deny to any handler certificates of privilege if proof satisfactory to the commit tee is obtained that potatoes shipped by him for the purposes stated in § 957.53 were handled contrary to the provisions of this part.

(e) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(f) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates and such other information as may be requested by the Secretary.

22. Amend § 957.65 *Inspection and certification* to read as follows:

§ 957.65 *Inspection and certification.* (a) During any period in which regulations are issued pursuant to §§ 957.42, 957.52, 957.53, or any combination thereof, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary may designate, and is covered by a valid inspection certificate, except when relieved from such requirements pursuant to recommendation by the committee and approval by the Secretary.

(b) Regrading, resorting, or repacking any lot of potatoes shall invalidate any prior inspection certificates covering such potatoes insofar as the requirements of this section are concerned. During any period in which shipments of potatoes are regulated, as aforesaid, no handler shall handle potatoes after they have been regraded, resorted, repacked, or in any way further prepared for market, unless such potatoes are inspected and covered by a valid inspection certificate as required in paragraph (a) of this section.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate shall be valid may be established by the committee with the approval of the Secretary; and such length of time may be different for shipments for different purposes.

(d) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available promptly to the committee by the inspection service.

23. Delete §§ 957.70 to 957.73, inclusive.

24. Amend § 957.83 by inserting "(a)" after the title *Effective time* and by adding paragraph (b) reading as follows:

(b) All rules and regulations issued by the Secretary pursuant to this part (Order No. 57, as amended), which are in effect immediately prior to the date of this amendment shall continue in effect under this subpart as originally issued, or subsequently modified, until such rules and regulations are changed, modified, or suspended in accordance with this subpart.

25. The Fruit and Vegetable Division Agricultural Marketing Service, United States Department of Agriculture, proposes the following amendment:

Make such other changes in the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform to any amendments thereof which may result from this hearing.

Copies of this notice may be obtained from the Western Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 1218 S. W. Washington Street, Portland 5, Oregon, or from the Hearing Clerk, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 16th day of December 1955.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11546]

RADIO BROADCAST SERVICES; MECHANICAL REPRODUCTIONS

NOTICE OF EXTENSION OF TIME FOR FILING COMMENTS

In the matter of amendment of §§ 3.188, 3.288, 3.588 and 3.653 of the Commission's rules and regulations relating to mechanical reproductions.

1. The Commission adopted a Notice of Proposed Rule Making on November 16, 1955 (FCC 55-1136), instituting a rule making proceeding in the above entitled matter. The Notice specified that comments should be filed by December 15, 1955, with replies due 10 days thereafter.

2. On December 13, 1955, the National Broadcasting Company, Inc., filed a Motion for an Extension of Time Within Which to File Comments. NBC states that it favors the objectives of the proposed amendment in this matter, but is not satisfied that the objectives can best be attained by the proposal in its present form. NBC further states that its counsel have been fully engaged in preparation of other matters before the Commission, including, for example, comments in the general television allocation proceeding in Docket No. 11532, and therefore requests that the date for filing comments be extended to January 20, 1956.

3. The Commission believes that a sufficient showing has been made to warrant an extension of time for filing comments in this proceeding and that such an extension would be in the public interest.

4. In view of the foregoing: *It is ordered,* That the time for filing comments in the above entitled proceeding is extended to January 20, 1956; and that the time for filing replies to such comments is extended to 10 days thereafter.

Adopted: December 15, 1955.

Released: December 16, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 12, 1955.

An application, serial number C-09807, for the withdrawal from all forms of appropriation under the public land laws, including the mining but not the mineral leasing laws, of the lands described below, was filed on July 15, 1955, by the Fish and Wildlife Service, U. S. Department of the Interior.

The purposes of the proposed withdrawal: For use in connection with the South Platte River Management Area.

For a period of thirty (30) days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor, Bureau of Land Management, 357 New Custom House, Box 1018, Denver 1, Colorado. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, COLORADO

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

1956 CROP SUGAR BEET WAGES AND PRICES AND DESIGNATION OF PRESIDING OFFICERS

NOTICE OF HEARINGS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of Section 301 of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U. S. C. Sup. 1131), notice is hereby given that public hearings will be held as follows:

At Greeley, Colorado, January 4, 1956, at the State Armory, 614 Eighth Avenue, at 10:00 a. m.;

At Salt Lake City, Utah, January 6, 1956, Room 230, Federal Building, at 10:00 a. m.;

At Billings, Montana, January 9, 1956, Assembly Room, Roosevelt School, 23d Street and Fourth Avenue North, at 10:00 a. m.;

At Fargo, North Dakota, January 11, 1956, Students Lounge, North Dakota Agricultural College Library, at 10:00 a. m.;

At Detroit, Michigan, January 13, 1956, Court Room 859, Federal Building, at 10:00 a. m.

The purpose of these hearings is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of Section 301 (c) (1) of the Act, fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugar beets in regions other than the State of California, southwestern Arizona, southern Oregon and western Nevada, for the 1956 crop on farms with respect to which applications for payments under the Act are made, and (2), pursuant to the provisions of section 301 (c) (2) of the Act, fair and reasonable prices for the 1956 crop of sugar beets in regions other than those noted above to be paid under either purchase or toll agreements by producers who process sugar beets grown by other producers and who apply for payments under the Act.

In order to obtain the best possible information, the Department requests that all interested parties appear at the hearing to express their views and to present appropriate data with respect to all points relative to the subject matters of the hearings.

The hearings, after being called to order at the times and places mentioned herein, may be continued from day to day within the discretion of the presiding officers and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearings by the presiding officers.

Ward S. Stevenson and Charles F. Denny are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearings.

Issued this 16th day of December 1955.

[SEAL] LAWRENCE MYERS,
Director, Sugar Division.

Office of the Secretary

UTAH

DISASTER ASSISTANCE; DELINEATION AND CERTIFICATION OF ADDITIONAL COUNTIES CONTAINED IN DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress (42 U. S. C. 1855 et seq.), the President determined that a major disaster occasioned by drought existed in the State of Utah in October 1954.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148; 19 F. R. 5364), certain counties in the State of Utah were on October 19, 1954 (19 F. R. 7119 as amended by 19 F. R. 8635 and 20 F. R. 952), determined to be the areas affected by the major disaster occassioned by drought.

Pursuant to the aforesaid delegations, the delineations and certifications of counties in the drought area in the State of Utah are hereby amended by adding Kane County and the entire area of Garfield County.

Done at Washington, D. C., this 16th day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11474, 11475; FCC 55M-1041]

NORTHERN INDIANA BROADCASTERS, INC., AND ST. JOSEPH VALLEY BROADCASTING CORP. (WJVA)

ORDER FOR THE CONDUCT OF HEARING

DECEMBER 15, 1955.

In re applications of Northern Indiana Broadcasters, Incorporated, South Bend, Indiana, Docket No. 11474, File No. BP-9602; St. Joseph Valley Broadcasting Corporation (WJVA), Mishawaka, Indiana, Docket No. 11475, File No. BP-9778; for construction permits.

Appearances. John A. Rafter, Washington, D. C., on behalf of Northern Indiana Broadcasters, Incorporated; William S. Green, Washington, D. C., on behalf of St. Joseph Valley Broadcasting Corporation (WJVA); George S. Smith and Edwin S. Nail, Washington, D. C., on behalf of Anderson Broadcasting Company; and Charles J. Frederick, Washington, D. C., on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. A pre-hearing conference in the above-entitled proceeding was held November 18, 1955. The parties attending were as above indicated.

2. Prior to the pre-hearing conference on November 18, 1955, the Commission gave its consent to the transfer of control of St. Joseph Valley Broadcasting Corporation, applicant in Docket 11475. It was stated at the pre-hearing conference that in the event that transfer of control of St. Joseph Valley Broadcasting Corporation is consummated, such party will withdraw from the proceeding. The pre-hearing conference was, thereafter, conducted on the assumption that St. Joseph Valley Broadcasting Corporation would not be an applicant in this proceeding, it being understood, however, that in the event the assignment of the transfer of control is not consummated, St. Joseph Valley Broadcasting Corporation could assert all rights which it had prior to the start of the conference.

3. On the assumption that St. Joseph Valley Broadcasting Corporation will not be an applicant, the issues to be resolved in this proceeding become those pertaining to interference with Station WHBU, Anderson, Indiana, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary services in such areas.

4. As a result of the pre-hearing conference referred to and subject to the limitations indicated in paragraph 2, the following schedule was ordered:

a. All exhibits designed to respond to engineering issues and, in particular, with respect to the matter of interference to Station WHBU, Anderson, Indiana, or to any other existing or proposed station, will be exchanged with the parties on or before December 16, 1955.

b. The evidentiary hearing will begin Tuesday, January 10, 1956. At this evidentiary hearing, all parties will offer in evidence the exhibits which they propose to offer in response to the engineering issues herein.

c. It is the intent of the Hearing Examiner to receive in evidence at the hearing which will start Tuesday, January 10, 1956, all exhibits and stipulations to which no objections are made as well as all exhibits which, after objections, are held to be legally admissible. The exhibits to which this paragraph refers are those which are to be exchanged among the parties on or before December 16, 1955.

d. The exhibits exchanged on December 16, 1955, may be offered in evidence at the January 10, 1956, hearing without the necessity of having an officer or member of the applicant present for such purpose. After the exhibits have been offered, counsel for each applicant will identify the person or persons he wishes to call to explain the exhibits as well as to identify the witness or witnesses of the opposing applicant he desires to call for cross-examination.

It is so ordered, This the 15th day of December 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11528; FCC 55M-1038]

WBUF-TV, INC., AND NATIONAL BROADCASTING CO., INC.

ORDER SCHEDULING PREHEARING CONFERENCE

In re application of WBUF-TV, Inc. (Assignor) and National Broadcasting Company, Inc. (Assignee), Docket No. 11528, File No. BAPCT-150; for assignment of the construction permit for Station WBUF-TV, Buffalo, New York.

The Hearing Examiner having under consideration the above-entitled proceeding; and

It appearing that National Broadcasting Company, Inc., did, on December 8, 1955, file its motion requesting that the above-entitled hearing, scheduled to begin on December 19, 1955, be continued; and

It further appearing that WGR Corporation did, on December 13, 1955, file "Comments of WGR Corporation on Motion For a Continuance" herein, which in substance opposed the motion of continuance heretofore referred to;

It is ordered, This 13th day of December 1955, that all parties or their attorneys are directed to appear for a prehearing conference, including oral arguments on said motion for continuance, pursuant to the provisions of section 1.813 of the Commission's rules, at the Commission's offices in Washington, D. C., at 10:00 a. m., December 16, 1955.

[Docket No. 11572]

WARNER & TAMBLE RADIO SERVICE, INC.

ORDER TO SHOW CAUSE WHY LICENSE SHOULD NOT BE REVOKED

In the matter of Warner & Tamble Radio Service, Inc., Memphis, Tennessee, Docket No. 11572; order to show cause why the license for radiotelephone station WP-9369 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WB-9369, licensed to Warner & Tamble Radio Service, Inc., P. O. Box 166, Memphis 1, Tennessee, and located aboard the vessel "Advance";

It appearing that notices of violations of the Commission's rules in the operation of said station were given the licensee as follows:

(a) Notice dated April 29, 1955, specifying, among other things, violation of the following Commission rules as of April 15:

(1) Non-compliance with § 8.353 (b) by conducting communications from ship to ship on a frequency not assigned for that purpose by the Commission.

(2) Non-compliance with § 8.364 by failing to announce the call letters assigned at the beginning and conclusion of communications.

(b) Notice dated June 9, 1955, sent by Registered Mail, Return Receipt Requested, received by the licensee on June 22, 1955, which called attention, among other things, to the above noted violation of § 8.364 and also the further violation of § 8.601 (a) of the Commission's rules for failure to reply thereto. This notice also requested a response within 10 days of receipt;

It further appearing that as of this date the licensee has not answered either of the above-mentioned official violation notices;

It is ordered, This 14th day of December 1955 pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Warner & Tamble Radio Service, Inc., P. O. Box 166, Memphis 1, Tennessee, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 13th day of February 1956;

It is further ordered, That the Secretary send a copy of this order to the licensee by Registered Mail—Return Receipt Requested.

Released: December 15, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10221; Filed, Dec. 20, 1955; 8:51 a. m.]

[Docket No. 11577]

WILLIAM PURNELL

ORDER TO SHOW CAUSE WHY LICENSE SHOULD NOT BE REVOKED

In the matter of William Purnell, Berlin, Maryland, Docket No. 11577; order to show cause why the license of Radiotelephone Station WE-8995 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of station WE-8995, licensed to William Purnell, Bayridge Farm, RFD #2, Berlin, Maryland, and located aboard the vessel "Answer";

It appearing that notices of the violations of the Commission's rules in the operation of said station were given the licensee as follows:

(a) Notice dated July 21, 1955, specifying, among other things, that as of July 20, 1955, the licensee was in violation of section 8.368 of the Commission's rules for failure to keep a radio log.

(b) Notice dated August 31, 1955, sent by Registered Mail, Return Receipt Requested, received by Nancy Purnell as agent for the licensee on September 2, 1955, calling attention to the above noted violation and failure to reply thereto in violation of section 8.601 (a) of the Commission's rules. This notice also requested a response within 10 days of receipt;

It further appearing that as of this date the licensee has not answered either of the above-mentioned official violation notices;

It is ordered, This 14th day of December 1955, pursuant to section 312 (c) of the Communications Act of 1934, as amended, that the said William Purnell show cause why the aforesaid license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 17th of February 1956;

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said William Purnell, Bayridge Farm RFD #2, Berlin, Maryland.

Released: December 15, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10222; Filed, Dec. 20, 1955; 8:51 a. m.]

[Docket No. 11530; FCC 55M-1042]

JAMES W. MILLER

ORDER CONTINUING HEARING

In re application of James W. Miller, Milford, Massachusetts, Docket No. 11530, File No. BP-9878; for construction permit.

The Hearing Examiner having under consideration a motion for a continuance of the above-entitled proceeding filed on December 12, 1955, by James W. Miller;

It appearing that the above-named applicant is now engaged in the preparation of an amendment which he believes will resolve all questions of interference and which would render the proposed hearing unnecessary and that the continuance is requested to provide time for completion of the amendment and to permit its processing by the Commission; and

It appearing further that no other participant in the proceeding has objected to grant of the motion;

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in an order to show cause, a licensee shall within thirty (30) days from the date of the receipt of a show cause order submit a written statement informing the Commission whether said licensee will appear at the designated hearing and present evidence upon the matters specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to a show cause order within the above-mentioned thirty (30) day period, or, having informed the Commission in writing within the above-mentioned thirty (30) day period that the licensee will appear at the hearing and present evidence upon the matter specified and then failing to appear at the hearing, will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

It is ordered, This 16th day of December 1955, that the motion is granted, and the hearing now scheduled for January 6, 1956, is continued to 10:00 a. m., February 6, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket Nos. 11580, 11581; FCC 55-1229]

SHASTA TELECASTERS AND SACRAMENTO BROADCASTERS, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Laurence W. Carr, George C. Fleharty, William B. Nystrom, C. T. Ross, George H. Voorhies, Carl R. McConnell, Morris K. Cohen and Robert L. Hammett d/b as Shasta Telecasters, a Joint Venture, Redding, California, Docket No. 11580, File No. BPCT-2010; Sacramento Broadcasters, Inc., Redding, California, Docket No. 11581, File No. BPCT-2022; for construction permits for new television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of December 1955;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 7 assigned to Redding, California; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised of the fact that their applications were mutually exclusive, of the necessity for a hearing thereon, of all objections to their applications, and were given an opportunity to reply; and

It further appearing that upon due consideration of the above applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Laurence W. Carr et al, d/b as Shasta Telecasters, and Sacramento Broadcasters, Inc., are legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast stations;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, to determine on a comparative basis which of the proposed operations would better serve the public interest, convenience and necessity in the light of the record made with respect to significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: December 16, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10224; Filed, Dec. 20, 1955; 8:51 a. m.]

[Docket No. 11578]

FORD V. THIBODEAUX & H. J. ESTAVE

ORDER TO SHOW CAUSE WHY LICENSE SHOULD NOT BE REVOKED

In the matter of Ford V. Thibodeaux & H. J. Estave, Amelia, Louisiana, Docket No. 11578; order to show cause why the license for Radiotelephone Station WD-2856 should not be revoked.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of station WD-2856 licensed to Ford V. Thibodeaux and H. J. Estave, Amelia, Louisiana, and located aboard the vessel "Patricia";

It appearing that notices of the violations of the Commission's rules in the operation of said station were given the licensees as follows:

(a) Notice dated March 31, 1955, for violation on March 30, 1955, of section 8.108 of the Commission's rules for transmitting harmonic emissions outside the authorized frequency.

(b) Notice dated May 26, 1955, for violation of section 8.364 (a) of the Commission's rules by failing to identify the station by the assigned call letters.

(c) Notice dated June 2, 1955, sent by Registered Mail, Return Receipt Requested, which was received by the licensees on June 9, 1955, again calling attention to the violation contained in the Notice of March 31, 1955. This notice also noted the violation of section 8.601 (a) for failure to reply thereto and requested a response within 10 days of receipt.

(d) Notice dated June 20, 1955, sent by Registered Mail, Return Receipt Requested, which was received by the licensees on June 23, 1955, calling attention to the violation contained in the notice of May 26, 1955. This notice also noted the violation of section 8.601 (a) for failure to reply thereto and requested a response within 10 days of receipt;

It further appearing that as of this date the licensee has not answered any of the above-mentioned official violation notices;

It is ordered, This 14th day of December 1955 pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Ford V. Thibodeaux & H. J. Estave, Amelia, Louisiana, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 15th day of February 1956;

It is further ordered, That the Secretary send a copy of this Order to the licensee by Registered Mail—Return Receipt Requested.

Released: December 15, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10223; Filed, Dec. 20, 1955; 8:51 a. m.]

[Docket Nos. 11582, 11583; FCC 55-1233]

DALE R. CURTIS AND TOOELE COUNTY RADIO AND TELEVISION BROADCASTING, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Dale R. Curtis, Salt Lake City, Utah, Docket No. 11582, File No. BP-9925; Tooele County Radio and Television Broadcasting, Inc., Tooele, Utah, Docket No. 11583, File No. BP-9966; for construction permits.

At a session of the Federal Communications Commisison held at its offices in Washington, D. C., on the 14th day of December 1955;

The Commission having under consideration the above-entitled applications of Dale R. Curtis and Tooele County Radio and Television Broadcasting, Inc., each for a construction permit for a new standard broadcast station to operate on 990 kilocycles with a power of one kilowatt, daytime only, at Salt Lake City, Utah, and Tooele, Utah, respectively; and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that operation of both stations as proposed would result in mutually destructive interference; that the geographical coordinates specified in the application of Tooele County Radio and Television Broadcasting, Inc., are in error, and, therefore, a determination has not been made as to whether the antenna tower construction proposed by this applicant would create a hazard to air navigation; and that there is a large discrepancy between the two proposals as to the area and number of persons encompassed within the interference-free (0.5 mv/m) contours that cannot be readily explained by the difference in site locations; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated October 3, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would serve the public interest; and

It further appearing that a timely reply was filed by Dale R. Curtis; and

It further appearing that Tooele County Radio and Television Broadcasting, Inc., in replies dated November 11 and November 14, 1955, submitted additional financial data and information regarding the location of the proposed antenna site, but the exact geographical coordinates of the proposed site were not specified, and, therefore, a determination has still not been made as to whether the proposed tower construction would create a hazard to air navigation; and requested that its application be granted without hearing; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations and the availability of other primary service to such areas and populations.

2. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations would better provide a fair, efficient and equitable distribution of radio service.

3. To determine whether the antenna system in the proposed operation of Tooele County Radio and Television Broadcasting, Inc., would constitute a hazard to air navigation.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

Released: December 16, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10225; Filed, Dec. 20, 1955; 8:52 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in an order to show cause, a licensee shall within thirty (30) days from the date of the receipt of a show cause order submit a written statement informing the Commission whether said licensee will appear at the designated hearing and present evidence upon the matters specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to a show cause order within the above-mentioned thirty (30) day period, or, having informed the Commission in writing within the above-mentioned thirty (30) day period that the licensee will appear at the hearing and present evidence upon the matter specified and then failing to appear at the hearing, will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

FEDERAL POWER COMMISSION

[Docket No. G-4911 etc.]

SUNRAY MID-CONTINENT OIL CO.[1]

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 14, 1955.

Sunray Mid-Continent Oil Company, Applicant, filed applications as hereinafter specified. Applicant, a Delaware corporation, with its principal place of business at Tulsa, Oklahoma, has applied for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing it to render services as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant produces and sells natural gas for transportation in interstate commerce for resale.

Docket No.; Date Filed; Location of Field; and Buyer

G-4911, G-4913 and G-4920; 11-17-54; Snyder Field, Scurry County, Texas; Lone Star Gas Company.

G-4912 and G-4917; 11-17-54; Mineral Field and South Mineral Fields, Bee County, Texas; Transcontinental Gas Pipe Line Corporation.

G-4914, G-4915 and G-4918; 11-17-54; Panhandle Field, Moore and Hutchinson Counties, Texas; Phillips Petroleum Company.

G-4916; 11-17-54; Bowers Field, Gray County, Texas; Transcontinental Gas Pipe Line Corporation.

G-4919; 11-17-54; Goebel Field, Live Oak County, Texas; Transcontinental Gas Pipe Line Corporation.

G-4944 to G-4954, inclusive; 11-18-54; Mission River, Slick-Wilcox, Burnell, Boyce and Brandt, South Weesatche, Hordes Creek, Mustang Island, Red Fish Bay, and Marshall Fields, Refugio, Goliad, De Witt, Bee, Karnes and Neuces Counties, Texas; United Gas Pipe Line Company.

G-6044 and G-6046; 11-26-54; West Edmond Hunton Lime Field, Logan, Canadian, and Kingfisher Counties, Oklahoma; Cities Service Gas Corporation.

G-6045 and G-6057; 11-26-54; Cotton Valley Field, Webster Parish, Louisiana; United Gas Pipe Line Company.

G-6047; 11-26-54; North McFaddin Field, Victoria County, Texas; United Gas Pipe Line Company.

G-6048; 11-26-54; Eagan Field, Acadia Parish, Louisiana; Transcontinental Gas Pipe Line Corporation.

G-6049 and G-6050; 11-26-54; Driscoll and Bear Creek Fields, Bienville Parish, Louisiana; Arkansas Louisiana Gas Company.

G-6051 and G-6054; 11-26-54; Eagan and Northwest Branch Fields, Acadia Parish, Louisiana; United Gas Pipe Line Company.

G-6053; 11-26-54; Gibson Field, Terrebonne Parish, Louisiana; United Gas Pipe Line Company.

G-6056; 11-26-54; Sentell Field, Bossier Parish, Louisiana; Arkansas Louisiana Gas Company.

G-6059; 11-26-54; Iowa Field, Jefferson Davis Parish Louisiana; United Gas Pipe Line Company.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 13, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 30, 1955. Failure of any party to appear at and participate in the hearing shall be construed as a waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-10194; Filed, Dec. 20, 1955; 8:45 a. m.]

[1] Effective May 16, 1955, Mid-Continent Petroleum Corporation merged into Sunray Oil Corporation and Sunray Oil Corporation changed its name to Sunray Mid-Continent Oil Company and adopted the applications of Sunray Oil Corporation in the dockets listed herein.

[Docket No. E-6351]

CALIFORNIA ELECTRIC POWER CO.

NOTICE OF SUPPLEMENTAL APPLICATION

DECEMBER 15, 1955.

Take notice that on December 12, 1955, a supplemental application was filed by the California Electric Power Company (Applicant), a corporation organized and existing under the laws of

the State of Delaware, qualified to do business as a foreign corporation in the States of Arizona, California and Nevada, with its principal place of business in Riverside, California, for authorization, pursuant to section 202 (e) of the Federal Power Act, to export electric energy from the United States to Mexico to its wholly owned subsidiary, Industrial Electrica Mexicana, S. A. de C. V., in the amounts and at the rates hereinafter set forth:

Year	In or near Calexico, Calif.		Near Andrade, Calif.		Near Gadsden, Ariz.	
	Kwh.	*Kw.*	*Kwh.*	*Kw.*	*Kwh.*	*Kw.*
1956	130,000,000	30,000	42,000,000	18,000	15,000,000	4,000

The requested authorization would supersede that heretofore granted by order of the Commission issued September 13, 1955, in the above docket, wherein Applicant was authorized to export the following amounts of electric energy:

Year	In or near Calexico, Calif.		Near Andrade, Calif.		Near Gadsden, Ariz.	
	Kwh.	*Kw.*	*Kwh.*	*Kw.*	*Kwh.*	*Kw.*
1955	115,000,000	27,000	10,000,000	4,000	13,000,000	4,000
1956	130,000,000	30,000	30,000,000	10,000	13,000,000	4,000

That authorization was conditioned upon the transmission of those amounts of energy over facilities specified in a Presidential Permit to the Applicant to construct, operate, maintain and connect facilities at the international border between the United States and Mexico which was signed by the President of the United States on November 5, 1949 (Docket No. E-6223). The amounts of energy which Applicant presently seeks to export would be transmitted over those same facilities except that in the case of the exportation made in the vicinity of Andrade, California, Applicant proposes to replace the existing facilities with new facilities to be completed on or about April 1, 1956. By companion supplemental application filed December 12, 1955, in Docket No. E-6223, Applicant seeks authorization, pursuant to Executive Order No. 10485, to construct, maintain, operate and connect the proposed new facilities at the international border and to remove existing facilities which would then be replaced thereby.

Any person desiring to be heard or to make any protest with reference to the aforesaid supplemental application should, on or before January 4, 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's General Rules and Regulations. The application is on file for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-10193; Filed, Dec. 20, 1955; 8:45 a. m.]

[Docket No. G-5122 etc.]

SUNRAY MID-CONTINENT OIL CO.[1]

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 14, 1955.

Sunray Mid-Continent Oil Company (Applicant), filed applications as hereinafter specified. Applicant, a Delaware corporation with its principal place of business at Tulsa, Oklahoma, has applied for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing it to render and terminate services as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant produces and sells natural gas for transportation in interstate commerce for resale.

Docket No.; Date Filed; Location of Field; and Buyer

G-5122; 11-19-54; Gladys Powell Field, Goliad County, Texas; Texas Eastern Transmission Corporation.

G-5123; 11-19-54; Placedo, Harper, McFaddin and East Placedo Fields, Victoria and Calhoun Counties, Texas; Tennessee Gas Transmission Company.

G-5124; 11-19-54; Wyrick Field, Refugio County, Texas; Tennessee Gas Transmission Company.

G-5125; 11-19-54; North Lissie Field, Wharton County, Texas; Tennessee Gas Transmission Company.

G-5126 and G-5130; 11-19-54; Karon and North Goebel Fields, Live Oak County, Texas; Texas Eastern Transmission Corporation.

G-5127; 11-19-54; East Meyersville Field, DeWitt County, Texas; Texas Eastern Transmission Corporation.

G-5128; 11-19-54; Holzmark-Wilcox Field, Bee County, Texas; Texas Eastern Transmission Corporation.

G-5129 and G-5132; 11-19-54; Hordes Creek Field, Goliad County, Texas; Texas Eastern Transmission Corporation.

G-5131; 11-19-54; Hostetter and North Hostetter Fields, Live Oak, McMullen and Duval Counties, Texas; Texas Eastern Transmission Corporation.

G-5134; 11-19-54; Cabeza Creek Field Goliad County, Texas; United Gas Pipe Line Company.

G-5135; 11-19-54; La Gloria Field, Jim Wells and Brooks Counties, Texas; Transcontinental Gas Pipe Line Corporation.

G-5172; 11-22-54; Drinkard Field, Lea County, New Mexico; Permian Basin Pipe Line Company.

G-5173; 11-22-54; Guymon-Hugoton Field, Texas County, Oklahoma; Northern Natural Gas Company.

G-5174; 11-22-54; Monument Field, Lea County, New Mexico; El Paso Natural Gas Company.

G-5175; 11-22-54; North McFaddin Field, Victoria County, Texas; United Gas Pipe Line Company.

G-5176; 11-22-54; Hugoton Field, Stevens County, Texas; Panhandle Eastern Pipe Line Company.

G-5177; 11-22-54; Jal Field, Lea County, New Mexico; El Paso Natural Gas Company.

G-5178; 11-22-54; Hugoton Field, Kearney County, Texas; Cities Service Gas Company.

G-5179; 11-22-54; Doyle Field, Stephens County, Oklahoma; Lone Star Gas Company.

Applicant in Docket No. G-5122 filed a supplement on August 9, 1955, requesting authority to abandon service pursuant to section 7 (b) of the Natural Gas Act because production from its single well ceased on September 21, 1954 and the well was plugged and abandoned on February 8, 1955.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 12, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 29, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-10195; Filed, Dec. 20, 1955; 8:46 a. m.]

[1] Effective May 16, 1955, Mid Continent Petroleum Corporation merged into Sunray Oil Corporation and Sunray Oil Corporation changed name to Sunray Mid-Continent Oil Company and adopted the applications of Sunray Oil Corporation in the dockets listed herein.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 16, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31436: *Liquefied petroleum gas—Southwest to W. T. L., Illinois and Southwestern Territories.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on liquefied petroleum gas, tank-car loads from origins in the Southwest as described in the application to destinations in the Southwest, also in Illinois and western trunk line territories.

Grounds for relief: Rates constructed on bases prescribed, or related to bases prescribed, in Montana-Dakota Utilities Co. v. Atchison, Topeka & Santa Fe Ry. Co. 268 I. C. C. 769, and circuity.

FSA No. 31437: *Coal—Alabama mines to Alabama points.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on coal, carloads from mines on applicants' lines in Alabama to destinations on Central of Georgia Railway in Alabama over interstate routes.

Grounds for relief: Maintenance of rates over applicants' circuitous routes same as those prescribed by this Commission in Docket 31321.

Tariffs: Supplement 25 to Central of Geeorgia Ry. tariff I. C. C. 3297; Supplement 15 to St. Louis-San Francisco Ry. I. C. C. A-580.

FSA No. 31438: *Cinders—Ohio to Central and Illinois Territories.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on cinders, clay or shale, carloads from Cleveland and South Park, Ohio to specified points in Illinois, Iowa, Michigan, Missouri, Ohio, West Virginia and Wisconsin.

Grounds for relief: Short-line distance scales and circuity.

Tariff: H. R. Hinsch, Agent, tariff I. C. C. No. 4622, and six other tariffs.

FSA No. 31439: *Grain and products—Kansas City, Mo.-Kans., to New Orleans, La.* Filed by Kansas City Southern Railway Company, for interested rail carriers. Rates on grain, grain products and related articles, carloads from Kansas City, Mo.-Kans., to New Orleans, La., for export.

Grounds for relief: Circuitous routes.

Tariff: Supplement 24 to Kansas City Southern Railway tariff I. C. C. 5303.

FSA No. 31440: *Substitute service—Pennsylvania Railroad Company.* Filed by Central States Motor Freight Bureau, Inc., Agent, for The Pennsylvania Railroad Company, Eazor Express, Inc., and other interested motor carriers. Rates on various commodities in trailers, loaded on railroad flat cars between Chicago, Ill., and points beyond, on the one hand, and Pittsburgh, Pa., and points beyond, on the other.

Grounds for relief: Motor carrier competition.

Tariff: Central States Motor Freight Bureau, Inc. tariff I. C. C. No. 25, MF-I. C. C. No. 820.

FSA No. 31441: *Woodpulp from the South to W. T. L. Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on woodpulp, carloads from Foley, Fla., and Clyattville, Ga., to points in western trunk line territory.

Grounds for relief: Circuity.

Tariff: Supplement 104 to Agent Spaninger's tariff I. C. C. No. 1260.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

[Notice 91]

MOTOR CARRIER APPLICATIONS

DECEMBER 16, 1955.

Protests, consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by and explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days of publications of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 623 Sub 12, filed December 8, 1955, H. MESSICK, INC., P. O. Box 214, Duquese & Newman Roads, Joplin, Mo. Applicant's attorney: Stanley P. Clay, 209 Joplin National Bank Bldg., Joplin, Mo. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Blasting supplies, materials and agents, ammonium nitrate*, and ingredients used in the manufacture of explosives, (1) from points in Jasper County, Mo., to points in Montana; (2) between the plant site of the Hercules Powder Company, located about five miles southwest of Carthage, Mo., and the plant site of the Hercules Powder Company, located about two miles west of Webb City, Mo., on the one hand, and, on the other, Collinsville, Ill., and Hobbs, N. Mex., and points in Arkansas, Kansas, Missouri, Oklahoma, Texas, Iowa, Nebraska, and Louisiana; (3) between points in Jasper County, Mo., and Turck, Kans., on the one hand, and, on the other, points in Illinois, Michigan, Wisconsin, Minnesota, North Dakota and South Dakota; (4) from the plant site of the Hercules Powder Company about five miles southwest of Carthage, Mo., and from the site of a Hercules Powder Company explosives magazine about two miles west of Webb City, Mo., to the site of an explosives magazine about five miles east of Tatum, N. Mex., and *returned shipments* of the above commodities on return. Applicant is authorized to conduct irregular route operations in Missouri, New Mexico, Arkansas, Kansas, Oklahoma, Texas, Iowa, Nebraska, Louisiana, Illinois, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota and Montana.

No. MC 2229 Sub 74, filed October 28, 1955, RED BALL MOTOR FREIGHT, INC., 1210 S. Lamar St., P. O. Box 3148, Dallas, Tex. Applicant's attorney: Scott P. Sayers, Century Life Bldg., Fort Worth, Tex. For authority to operate as a *common carrier*, over a regular route, operating between Texarkana, Tex. and El Dorado, Ark. over U. S. Highway 82, serving no intermediate points, for operating convenience only, as a connecting route in connection with carrier's authorized operations to transport (1) general commodities, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Shreveport, La. and El Dorado, Ark., serving all intermediate points, over U. S. Highways 79 and 80, Louisiana Highway 70, and Arkansas Highway 15; (2) general commodities, except commodities of unusual value, household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading, between Texarkana, Tex. and Mount Pleasant, Tex., over U. S. Highway 67; and (3) dangerous explosives and general commodities, except those of unusual value, and household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading, from Bells, (Tex.) to Texarkana over U. S. Highway 82. Applicant is authorized to conduct operations in Texas, Louisiana, and Oklahoma.

No. MC 9789 Sub 4, filed December 8, 1955, THOMAS C. DYER, INC., East 4031 Trent, Spokane, Wash. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas and petroleum, and their products and by-products; and *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operations, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipelines; and *wooden skids, heavy timbers, wood piling, lumber, wood construction poles, and contractors equipment, materials and supplies*, between points in North Dakota, Montana and Minnesota. Applicant is authorized to conduct irregular route operations in

California, Idaho, Montana, Oregon and Washington.

No. MC 20793 Sub 20, filed December 5, 1955, WAGNER TRUCKING CO., INC., Jobstown, N. J., Applicant's representative: G. Donald Bullock, Box 146, Wyncote, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Brick*, from Richland Township, Bucks, County, Pa., to points in New Jersey, points in Delaware, Orange and Rockland Counties, N. Y., and that part of New York on and east of U. S. Highway 9W and south of U. S. Highway 20, including New York, N. Y., and points on Long Island, N. Y., and points in Connecticut on and west of U. S. Highway 5. Applicant is authorized to conduct operations in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia.

No. MC 30867 Sub 62, filed November 14, 1955, CENTRAL FREIGHT LINES, INC., 303 S. 12th St., Waco, Tex. For authority to operate as a common carrier, over regular routes, transporting: *General commodities, including Class A and B explosives*, but excepting those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Liberty, Tex., and Anahuac, Tex., over Farm to Market Highway No. 563, serving all intermediate points. Applicant is authorized to conduct operations in Texas.

No. MC 42329 Sub 116, filed December 5, 1955, HAYES FREIGHT LINES, INC., 628 East Adams, Springfield, Ill. For authority to operate as a *common carrier*, irregular routes, transporting: *Class A, B, and C* explosives as defined by the Commission, serving Kingsbury Ordnance Plant at or near Kingsbury, Ind., as an off-route point in connection with applicant's authorized regular-route operations between (1) Chicago, Ill., and Youngstown, Ohio, and (2) South Bend, Ind., and Louisville, Ky. Applicant is authorized to conduct operations in Pennsylvania, Ohio, Kentucky, Tennessee, Indiana, Illinois, West Virginia, Missouri, Iowa, and Michigan.

No. MC 42487 Sub 301, filed December 9, 1955, CONSOLIDATED FREIGHTWAYS, INC., 2029 N. W. Quimby St., Portland, Oreg. Applicant's attorney: Donald A. Schafer, 803 Public Service Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Acids, chemicals* and *chemical solutions; Fertilizers*, organic or non-organic; *Fish oil* and *marine animal solubles; Foodstuffs, beverages* or *beverage preparations; Gases*, compressed; *Glue, casein liquid* or *glue stock; Liquors*, such as wine and/or alcoholic; *Paints*, and *paint materials; Paraffin wax; Petro chemicals; Sizing, rosin* or *emulsified petroleum or sizing; Tallow; Wood preservatives; Alcohol*, industrial and medicinal; in bulk, in tank vehicles, between points in Oregon, Washington, California, Idaho, Montana, Utah and Nevada. Applicant is authorized to conduct operations in Oregon, Washington, Idaho, California, Minnesota, Montana, North Dakota, Utah, Illinois, Iowa, Wyoming, South Dakota, Nebraska, and Nevada.

No. MC 44947 Sub 12, filed December 8, 1955, DEIOMA TRUCKING CO., a corporation, Box 11, East Sparta, Ohio. Applicant's attorney: Noel F. George, 44 East Broad Street, Columbus 15, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Clay products*, from points in Scioto and Portage Counties, Ohio, to points in Indiana, and *pallets, skids*, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application on return. Applicant is authorized to conduct operations in Delaware, Indiana, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia.

No. MC 45626 Sub 31, filed December 7, 1955, VERMONT TRANSIT CO., INC., 343 North Winooski Avenue, Burlington, Vt. Applicant's attorney: Linwood C. Major, Jr., 2001 Massachusetts Avenue, NW., Washington 6, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Express, mail*, and *newspapers* in the same vehicle with passengers, (a) between Boston, Mass., and Ascutney, Vt., from Boston over U. S. Highway 3 via Billerica, Mass., to junction Massachusetts Highway 3–A, thence over Massachusetts Highway 3–A via Lowell, Mass., to junction U. S. Highway 3 at North Chelmsford, Mass., thence over U. S. Highway 3 to Concord, N. H., thence over U. S. Highway 202 to Hopkinton, N. H., thence over New Hampshire Highway 103 to the Connecticut River, thence across the Connecticut River to Ascutney, and return over the same route, serving all intermediate points, except no local transportation between Boston, Mass., and Concord, N. H., or points intermediate thereto; (b) Following three routes are for operating convenience only; between Concord, N. H., and White River Junction, Vt., over U. S. Highway 4, serving no intermediate points; (c) between Lowell, Mass., and Tyngsboro, Mass., over Massachusetts Highway 113, serving no intermediate points; and (d) between junction U. S. Highway 3 and Massachusetts Highway 3–A near Billerica, Mass., and junction U. S. Highway 3 and Massachusetts Highway 3–A near North Chelmsford, Mass., over U. S. Highway 3, serving no intermediate points. Applicant is authorized to conduct operations in Maine, Massachusetts, New Hampshire, New York, and Vermont.

NOTE: Applicant states that the purpose of this application is to seek authority to transport *express, mail*, and *newspapers* in the same vehicle with passengers, over routes already contained in Certificate No. MC 45626 dated July 28, 1950, in order to provide a consistent over-all service to the travelling and shipping public. Applicant further states that the authority sought herein is an incidental service in connection with passenger operations being performed over each of the routes involved herein, subject to the restriction set forth in (a) above.

No. MC 45829 Sub 26, filed September 12, 1955, CAROLINA MOTOR EXPRESS LINES, INC., EARL R. COX, RECEIVER, 708 South West Street, P. O. Box 1061, Indianapolis, Ind. Applicant's attorney: David G. Macdonald, Commonwealth Building, 1625 K Street, N. W., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Richmond, Va., and Charleston, W. Va., from Richmond over U. S. Highway 250 to junction Virginia Highway 12, thence over Virginia Highway 12 to junction U. S. Highway 11, thence over U. S. Highway 11 to junction U. S. Highway 60, thence over U. S. Highway 60 to Charleston, and return over the same route, serving no intermediate points, as an alternate route, for operating convenience only, in connection with carrier's regular route operations through combination of regular routes between (1) Charleston, W. Va., and Princeton, W. Va., which is a portion of regular route operations between Speedway, Ind., and Greensboro, N. C., (2) Princeton, W. Va., and Roanoke, Va., which is a portion of regular route operations between Princeton, W. Va., and Greensboro, N. C., (3) Charleston, W. Va., and Clifton Forge, Va., which is a portion of alternate route operations between Charleston, W. Va., and Roanoke, Va., and (4) regular route operations sought in proceeding No. MC 45829 Sub 25 between Richmond, Va., and Roanoke, Va., wherein as of the time of filing of the present application operating authority has not as yet been issued. Service to Richmond is restricted to traffic moving from or through Indianapolis, Ind.; and service from Richmond is restricted to traffic moving to or through regular route points specified in Certificate issued in No. MC 45829 in West Virginia, Ohio, and Indiana. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, North Carolina, Ohio, Virginia and West Virginia.

No. MC 50069 Sub 165, filed December 2, 1955, REFINERS TRANSPORT & TERMINAL CORPORATION, 2111 Woodward Avenue, Detroit 1, Mich. Applicants' attorney: Wilhelmina Boersma, 2850 Penobscot Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid chemicals, vegetable and animal inedible oils, greases, tallows* and *acids, paint*, and *paint material* in bulk, in tank trucks, from points in Indiana located in the Chicago, Ill., Commercial Zone, as defined by the Commission, to points in Illinois. PAINTS AND RELATED ARTICLES FROM CALIFORNIA TO IDAHO AND OREGON

TARIFF INVESTIGATION

At a session of the Interstate Commerce Commission, Board of Suspension, held at its office in Washington, D. C., on the 13th day of December A. D. 1955.

There being under consideration the matter of rates and charges, and the rules, regulations and practices affecting such rates and charges, applicable on interstate or foreign commerce of paints and related articles from points in California to points in Idaho and Oregon, as set forth in Item 2510, 24th Revised Page 264, Rocky Mountain Motor Tariff Bureau, Inc., Agent, MF–I. C. C. No. 52, or as same may be amended or reissued;

It appearing that upon consideration of the tariff schedules and protest thereto there is reason to believe that they result in rates and charges, rules, regulations and practices that are unjust and unreasonable in violation of the Interstate Commerce Act; and good cause appearing therefor:

It is ordered, That an investigation be, and it is hereby, instituted upon the Commisison's own motion, into and concerning the lawfulness of the rates, charges, rules and regulations and practices contained in said schedules, with a view to making such findings and order in the premises as the facts and circumstances shall warrant.

It is further ordered, That the investigation in this proceeding shall not be confined to the matters and issues hereinbefore stated as the reason for instituting this investigation, but shall include all matters and issues with respect to the lawfulness of the said rates, charges, rules, regulations and practices under the Interstate Commerce Act.

It is further ordered, That a copy of this order be served on the respondents' attorneys in fact who filed the schedules containing the rates under investigation herein; and that further notice of this proceeding be given to the respondents, and that notice be given to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

And it is further ordered, That this matter be assigned for hearing at a time and place to be hereafter fixed.

By the Commission, Board of Suspension.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-220]

STANDARD GAS AND ELECTRIC CO. AND PUBLIC UTILITY ENGINEERING AND SERVICE CORP.

NOTICE OF FILING OF PLAN PROVIDING FOR LIQUIDATION OF SUBSIDIARY COMPANY

DECEMBER 15, 1955.

Notice is hereby given that Standard Gas and Electric Company ("Standard Gas"), a registered holding company in the process of liquidation under an order of this Commission, and its inactive service company subsidiary, Public Utility Engineering and Service Corporation ("Service Corp."), a Delaware corporation, have filed an application with this Commission, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), for approval of a plan providing for the liquidation and dissolution of Service Corp. It is stated that the plan is proposed as a step towards compliance by Standard Gas with section 11 of the act.

All interested parties are referred to the application and plan on file in the offices of the Commission for a statement of the transactions therein proposed, which, together with certain other pertinent facts, are summarized as follows:

Standard Gas is the beneficial owner of all of the 100,000 shares of Service Corp's outstanding capital stock, its only outstanding security. Under the plan Service Corp will transfer and distribute in kind to Standard Gas all of its property and assets, subject to all liens and encumbrances, if any, in complete cancellation and retirement of all of its outstanding capital stock. Standard Gas will assume all of Service Corp's debts, obligations and liabilities. Applicants represent that Service Corp has transacted no business and has had no customers nor any employees since 1945; that Service Corp is solvent; and that its realizable assets as of October 31, 1955, consisted entirely of cash in the amount of approximately $126,000.

It is proposed that the business and affairs of Service Corp are to be settled and wound up pursuant to voluntary dissolution proceedings under the Delaware Business Corporation Law; and its corporate existence terminated in January 1956, or as soon thereafter as is feasible.

It is stated that no State commission and no other Federal commission has jurisdiction over the plan or the transactions requisite to its consummation and that the expenses to be incurred in connection with the plan are estimated not to exceed $500.

It is requested that this Commission's order become effective forthwith upon issuance and that the Commission approve the transfers and exchanges involved in the proposed liquidation and make the recitals required by section 1081 (f) and section 4382 (b) (2) of the Internal Revenue Code of 1954.

Notice is further given that any interested person may on or before January 3, 1956, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by such application and plan which he desires to controvert, or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may grant said application and approve said plan.

By the Commission.

[File No. 70-3432]

COLUMBIA GAS SYSTEM, INC., ET AL.

NOTICE OF FILING REGARDING SALE OF PROMISSORY NOTE BY SUBSIDIARY TO PARENT AND OF ASSETS BY PUBLIC-UTILITY SUBSIDIARY TO ASSOCIATE COMPANY

DECEMBER 15, 1955.

In the matter of the Columbia Gas System, Inc., United Fuel Gas Company, Atlantic Seaboard Corporation; File No. 70-3432.

Notice is hereby given that a joint application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and two of its wholly-owned subsidiaries, United Fuel Gas Company ("United Fuel") and Atlantic Seaboard Corporation ("Seaboard"). Applicants-declarants have designated sections 6, 7, 9 and 10 of the act and Rules U-43 and U-44 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

United Fuel, a gas utility company incorporated in West Virginia proposes to sell to Seaboard, a non-utility associate company, incorporated in Delaware, certain gas storage facilities consisting of a storage pool, wells, structures and auxiliary equipment and 5.5 miles of 10¾ inch transmission line located in West Virginia. United Fuel proposes to sell such assets at original cost less accrued depreciation as of the date of transfer. Based on book figures as of October 31, 1955, such purchase price would have been $1,326,026.77 for the facilities plus $350,000 for storage gas subject to current delivery.

Seaboard proposes to finance the purchase of the facilities by the issue and sale to Columbia of a 3⅝ percent unsecured promissory note in the principal amount of $1,300,000 due in 25 equal annual installments on February 15 of the years 1957 to 1981, inclusive. The balance of the purchase price is proposed to be paid in cash from retained earnings. Interest is to be paid semi-annually on February 15 and August 15 on the unpaid principal.

The application-declaration states that by order dated November 30, 1955, the Federal Power Commission approved the abandonment of service by United Fuel and the acquisition and operation of such facilities by Seaboard.

According to the application-declaration expenses in connection with the proposed transactions are estimated at $400 of which United Fuel and Seaboard will pay $150 each and Columbia $100.

Applicants-declarants request that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than December 29, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law, if any, raised by such application-declaration which he proposes to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as filed or as hereafter amended, may be granted and permitted to become effective as provided in Rule U-23 of the General Rules and Regulations promulgated under the Act, or the Commission may exempt such transactions from its Rules as provided in Rules U-20 (a) and U-100 or take such other action as it deems appropriate.

By the Commission.

[File No. 70-3430]

THE COLUMBIA GAS SYSTEM, INC. AND CENTRAL KENTUCKY NATURAL GAS CO.

NOTICE OF FILING OF DECLARATION REGARDING SALE OF UTILITY ASSETS

DECEMBER 15, 1955.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its public-utility subsidiary, Central Kentucky Natural Gas Company ("Central Kentucky"). Declarants designate section 12 of the act and Rule U-44 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Central Kentucky proposes to sell to The Union Light, Heat and Power Company ("Union") and the Cincinnati Gas & Electric Company ("Cincinnati"), non-affiliated companies, certain gas utility assets consisting of transmission lines, related river crossings and a measuring station, for an aggregate price based on the original cost of such facilities less accrued depreciation per books. As of September 30, 1954 such original cost was $707,802.05 and the accrued depreciation thereon amounted to $186,686.35 resulting in a sales price as of that date of $521,115.70. It is stated that while the facilities proposed to be sold are no longer suitable for transmission purposes at high pressures, they are useful to the purchasers.

The Public Service Commisson of Kentucky, by order dated June 16, 1955, approved the proposed sale by Central Kentucky and the acquisition thereof by Union, and the Federal Power Commission, by order dated November 14, 1955, authorized the proposed sale by Central Kentucky. According to the declaration the total expenses in connecton with the proposed sale will amount to approximately $300 of which Columbia will pay $100 and Central Kentucky $200. Declarants request that the order of this Commission become effective upon issuance.

Notice is further given that any interested person may, not later than December 29, 1955 at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its Rules as provided in Rules U-20 (a) and U-100, or take such other action as it deems appropriate.

By the Commission.

[File No. 7-1770]

ALLEN B. DU MONT LABORATORIES, INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

DECEMBER 15, 1955.

In the matter of application by the Boston Stock Exchange for unlisted trading privileges in Allen B. Du Mont Laboratories, Inc., Common Stock, $1 Par Value.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the Amercian Stock Exchange.

Upon receipt of a request, on or before December 29, 1955, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

AUTHORITY: §§ 476.101 to 476.111 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 407, 63 Stat. 1055, sec. 301, 68 Stat. 454, 83d Cong.; 7 U. S. C. 1427.

§ 476.101 *General statement.* Section 407 of the Agricultural Act of 1949, as amended, provides that the Commodity Credit Corporation, on such terms and conditions as the Secretary of Agriculture may deem in the public interest, shall make available any farm commodity owned by it for use in relieving distress in connection with any major disaster determined by the President to warrant assistance by the Federal Government under Public Law 875, Eighty-First Congress, as amended. This part announces the policies with respect to making feed grains owned by Commodity Credit Corporation (hereinafter referred to as "CCC") available under such provision of law to State agencies for distribution to established farmers who are in need of such assistance, sets forth general requirements indicating how State agencies can qualify for and obtain such feed grains, and sets forth terms and conditions governing the distribution of such feed grains. The "1955 Disaster Relief Feed Grain Program" provided for in this part is separate and distinct from the "1955 Emergency Feed Program", which is designed to enable farmers to obtain feed grains at

reduced prices, the regulations pertaining to such program being contained in 19 F. R. 5199 (§§ 288.1 to 288.6 of this title) and 20 F. R. 7562 (§§ 475.15 to 475.24 of this chapter).

§ 476.102 *Administration.* The program provided for in this part will be administered by Commodity Stabilization Service (hereinafter called CSS) under the general direction and supervision of the Executive Vice President, CCC, and in the field will be carried out by the CSS Commodity Offices. Representatives and employees of CSS Commodity Offices do not have authority to modify or waive any of the provisions of this part or any amendments or supplements thereto.

§ 476.103 *Definitions.* Unless the context or subject matter otherwise requires, as used in this part, the following terms should have the following meanings:

(a) "Designated feed grains" means barley, corn, grain sorghums and oats;

(b) "Cooperating State Agency" means a State Agency, designated by the proper State authority, to participate in this program. Only one such agency may be designated for each State.

(c) "Designated disaster area" means an area designated by the President under Public Law 875, 81st Congress, as amended, as an area of major disaster, and also by the Secretary of Agriculture as an area in which assistance of the nature provided for herein is needed.

§ 476.104 *Agreement with Cooperating State Agency*—(a) *Request for approval.* Request by appropriate State officials for approval of the Cooperating State Agency to participate in the program should be made in writing to the Administrator, CSS, U. S. Department of Agriculture, Washington 25, D. C. The request must contain the following:

(1) Name and address of the Cooperating State Agency.

(2) Certification, in duplicate, as specified in § 476.105 (b) (2) (i) stating the Cooperating State Agency's understanding of the program.

(3) Copy of the uniform basic standards that will be used in determining the eligibility of recipients.

§ 476.105 *General conditions.* The quantities of designated feed grains made available by CCC under this program will be determined with regard to other statutory and program operations of CCC and will be such as can be effectively distributed in furtherance of the objectives of this program. Under this program CCC will deliver designated feed grains in bulk only to Cooperating State Agencies via railroad cars at one or more central locations in each State. The designated feed grains will be furnished by CCC free of cost to the Cooperating State Agencies and CCC will pay the transportation and handling costs in making deliveries at central locations in each State. No other costs will be assumed by CCC. Cooperating State Agencies, prior to receiving designated feed grains under this program, will be required to enter into agreements with the Secretary of Agriculture. Such agreements will set forth certain terms and conditions and, as a minimum, such terms and conditions will include the following:

(a) *Terms and conditions; orders; shipments*—(1) *Submission of orders.* Orders must be submitted by the Cooperating State Agency to the CSS Commodity Office serving the State (see § 476.106 for the list of CSS Commodity Offices and the areas served by them).

(2) *Necessary information in orders.* Orders must specify the kind and quantity of designated feed grains desired, and must also specify the destination, delivering railroad carrier, and the consignee. Request for shipment of two or more carload lots for delivery at the same point may be included in the same order. Shipments will be made in carload lots only.

(3) *Acknowledgment of order.* The CSS Commodity Office will acknowledge receipt of any order submitted by the Cooperating State Agency, and, if such order is acceptable to CCC, will notify such Agency of the appropriate date that shipment will be made and of the origin point of shipment.

(4) *Delivery.* Shipment of designated feed grains will be made by the CSS Commodity Office to the point shown in the order, if such point is approved by CCC as a central location. Upon request of the Cooperating State Agency prior to delivery at such point, the CSS Commodity Office may divert such shipment to another central location.

(5) *Weight certificates.* The Cooperating State Agency shall furnish to the CSS Commodity Office, as soon as possible after unloading, official weight certificates, or the best weights obtainable if official weights are not available, with respect to each shipment.

(6) *Charges after arrival.* The Cooperating State Agency shall be responsible for all transportation and accessorial charges accruing after arrival of the shipment at the original billed destination or the point to which the shipment was ordered diverted by the CSS Commodity Office pursuant to request of the Cooperating State Agency. The Cooperating State Agency shall also be responsible for any other charges or costs of any kind accruing after arrival of the designated feed grains. Such costs and charges shall include, but are not limited to, costs and charges for receiving, storing, handling, bagging, and distribution of the designated feed grains.

(b) *Terms and conditions; eligibility of recipients; distribution*—(1) *Eligibility of recipients.* Designated feed grains furnished by CCC to any Cooperating State Agency must be distributed free of any costs by such Agency, or its designated representative, to needy farmers. For the purposes of this program the term "needy farmer" means an established farmer residing on a rural farm in a designated disaster area who is without sufficient cash or credit to purchase sufficient feed for his livestock, including hogs, poultry and workstock, and who has been certified to as such by a State or local organization or agency designated by the proper State authority. Uniform basic standards must be established by the Cooperating State Agency for determining the eligibility of recipients; and, as provided in § 476.104 (a) (2), must be submitted with the Cooperating State Agency's request for approval under this program. Such uniform basic standards shall not be changed or altered in any way without the express written approval of CCC. Such uniform basic standards must provide that no person shall be certified as a "needy farmer" whose application under the "1955 Emergency Feed Program" (19 F. R. 5199, 20 F. R. 7562) has been approved during the sixty day period immediately preceding such person's application for assistance under this program.

(2) *Conditions on use.* (i) Designated feed grains furnished by CCC under this program must be used solely for the preservation of the needy farmer's livestock, including hogs, poultry and workstock, and, except for workstock, such livestock must be used solely for food for the needy farmer and his family, and must not be marketed. The Cooperating State Agency shall take all measures necessary to assure compliance with the foregoing.

(ii) The Cooperating State Agency must submit to CCC, with its request for approval under this program, a certification, signed by an appropriate official, in substantially the following form:

I, ----------, ----------,
(Name) (Title)
do hereby certify on behalf of ----------
---------- that it is
(Agency requesting approval)
clearly understood that CCC will make designated feed grains available under the "1955 Disaster Relief Feed Grain Program" only on the conditions that such designated feed grains be distributed free of any cost to needy farmers and be used by such needy farmers solely for feed for the preservation of their livestock, including hogs, poultry and workstock, and that, except for workstock, such livestock and any products thereof must be used only for food for the needy farmer and his family, and must not be marketed. The Cooperating State Agency will make every effort to assure that such conditions are complied with by needy farmers, and will issue such rules and regulations as are appropriate and necessary to assure compliance therewith.

(iii) Each needy farmer, prior to receiving any designated feed grains, must be required by the Cooperating State Agency to certify that he understands that the designated feed grains are being furnished to him through the United States Department of Agriculture and that he will use such feed grains solely

for feed for the preservation of his livestock, including hogs, poultry and workstock and that, except for workstock, such livestock and any products thereof will be used only for food for him and his family and will not be marketed.

§ 476.106 *CSS Commodity Offices.* The CSS Commodity Offices handling feed grains and the areas served by them are shown below:

Chicago CSS Commodity Office, 623 South Wabash Avenue, Chicago 5, Illinois: Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia.

Dallas CSS Commodity Office, 3306 Main Street, Dallas 26, Texas: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, and Texas.

Kansas City CSS Commodity Office, Federal Office Building, 911 Walnut Street, Kansas City 6, Missouri: Colorado, Kansas, Missouri, Nebraska, and Wyoming.

Minneapolis CSS Commodity Office, 1006 West Lake Street, Minneapolis 8, Minnesota: Minnesota, Montana, North Dakota, South Dakota, and Wisconsin.

Portland CSS Commodity Office, 1218 South West Washington Street, Portland 5, Oregon: Arizona, California, Idaho, Nevada, Oregon, Utah and Washington.

§ 476.107 *Requests for information.* Cooperating State Agencies or other interested persons desiring information concerning the program, including, but not limited to, such information as the kinds of feed grains that are available, location of such grains, and time required to make delivery, should make written request direct to the CSS Commodity Office serving the State.

§ 476.108 *Accounting for the feed grains shipped.* The Cooperating State Agency shall maintain and preserve until at least January 1, 1961, true and accurate records pertaining to the receipt and distribution of the designated feed grains delivered by CCC, and upon request, an examination of such records by a duly authorized representative of the United States shall be permitted at any time during business hours.

§ 476.109 *Mis-use of designated feed grains.* Whenever it is determined by the Executive Vice President, CCC, that any designated feed grains made available by CCC under this program have been improperly distributed by the Cooperating State Agency, or have not been distributed in accordance with the terms and conditions of this program, the Cooperating State Agency shall pay to CCC, promptly upon demand, CCC's statutory minimum sales price for unrestricted use for the same class, grade and quality of the designated feed grain involved, as determined by CCC, in effect on the date that the CSS Commodity Office acknowledged receipt of the Cooperating State Agency's orders for such feed grain.

§ 476.110 *Termination and disqualification*—(a) *Termination.* CCC may terminate this program, either in its entirety or with respect to a specific designated disaster area at any time. In the event of such termination, CCC will specify a reasonable time within which the Cooperating State Agency must complete distribution of any designated feed grain in its possession.

(b) *Disqualification.* A Cooperating State Agency receiving feed grains may be disqualified from future participation in this program if it fails to comply with the provisions of this part or any notices, instructions or announcements issued pursuant to this part. Action taken hereunder shall not preclude CCC or the United States Department of Agriculture from taking other action through other available means when considered necessary. Fraud in the acquisition, handling or distribution of designated feed grains may be subject to prosecution under applicable Federal statutes.

§ 476.111 *Saving clause.* Any or all of the provisions of this part may be waived, withdrawn or amended at any time.

Issued this 16th day of December 1955.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President, Commodity Credit Corporation.

Approved:

TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-10266; Filed, Dec. 21, 1955; 8:51 a. m.]

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 725—BURLEY AND FLUE-CURED TOBACCO

APPORTIONMENT OF NATIONAL MARKETING QUOTA FOR FLUE-CURED TOBACCO FOR 1956-57 MARKETING YEAR AMONG THE SEVERAL STATES

§ 725.707 *Basis and purpose.* (a) Sections 725.707 to 725.708 are issued to apportion the national marketing quota for flue-cured tobacco for the 1956-57 marketing year among the several States. The findings and determinations contained in §§ 725.707 to 725.708 have been made on the basis of the latest available statistics of the Federal government, and after due consideration of data, views, and recommendations received from tobacco producers and others as provided in a notice (20 F. R. 7918) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since flue-cured tobacco growers are now planning their 1956 farming operations, it is imperative that they be advised at the earliest date possible of the 1956 tobacco acreage allotments for their farms. It is hereby found that compliance with the 30-day effective date provisions of the Administrative Procedure Act is impractical and contrary to the public interest. Therefore, the apportionment shall be effective on the date of filing with the Director, Division of the Federal Register.

§ 725.708 *Apportionment of the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1956*—(a) *Apportionment of the quota.* The national marketing quota is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Alabama	553
Florida	18,822
Georgia	89,982
North Carolina	585,976
South Carolina	103,013
Virginia	88,949
Reserve [1]	2,224

[1] Acreage reserved for establishing allotments for new farms.

(Sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply Secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313)

Done at Washington, D. C., this 16th day of December 1955. Witness my hand and the seal of the Department of Agriculture.

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

REQUIREMENTS AND QUOTAS FOR 1956

Basis and purpose. The purpose of Sugar Regulation 811 is to determine, pursuant to section 201 of the Sugar Act of 1948, as amended (hereinafter called the "act"), the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1956 and to establish, pursuant to section 202 of the act, sugar quotas for the supplying areas in terms of short tons of sugar, raw value, equal to the quantity determined by the Secretary of Agriculture to be needed in 1956.

The determination of sugar requirements set forth below is made pursuant to section 201 of the Sugar Act of 1948. The act requires that the Secretary of Agriculture make such determination for the calendar year 1956 during December of 1955. The determination has been based, insofar as required by section 201 of the act, on official statistics of the Department of Agriculture and statistics published by other agencies of the Federal Government.

Prior to the issuance of this regulation, notice was given (20 F. R. 7706) that the Secretary of Agriculture was preparing, among other things, to determine the sugar requirements and to establish quotas for the calendar year 1956 and that any interested person might present any data, views, or arguments with respect thereto at a public hearing to be held in Washington, D. C., on November 2, 1955. In addition, the notice stated that any interested person might present any data, views or arguments with respect thereto in writing not later than November 21, 1955. In making this determination due consideration has been given to the data, views and arguments expressed at the hearing held on November 2, 1955, and to the data, views and arguments submitted in writing on or before November 21, 1955, in accordance with the Administrative Procedure Act (60 Stat. 237).

Since the Sugar Act of 1948 requires that the Secretary of Agriculture determine sugar requirements for the calendar year 1956 during the month of December 1955, and since the sugar quotas for some areas are relatively small, thereby making it possible for such areas to exceed their quotas within a few days after the beginning of the quota year, compliance with the 30-day effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest. Accordingly, this regulation shall be effective on January 1, 1956.

Sec.
811.80 Sugar requirements, 1956.
811.81 Basic quotas for domestic areas.
811.82 Basic quotas for other areas.
811.83 [Reserved.]
811.84 Proration of quota for foreign countries other than Cuba and the Republic of the Philippines.
811.85 Direct-consumption portion of quotas or prorations.
811.86 Liquid sugar quotas.
811.87 Restrictions on marketing and shipment.
811.88 Inapplicability of quota regulations.

AUTHORITY: §§ 811.80 to 811.88 issued under sec. 403, 61 Stat. 932, as amended; 7 U. S. C. Sup. 1153. Interpret or apply secs. 202, 204, 207, 208, 209, 210 and 212; 61 Stat. 924, 925, 927, 928, as amended, 929; 7 U. S. C. Sup. 1112, 1114, 1117, 1118, 1120, 1122.

§ 811.80 *Sugar requirements, 1956.* The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1956 is hereby determined to be 8,350,000 short tons, raw value.

§ 811.81 *Basic quotas for domestic areas.* There are hereby established, pursuant to subsection (a) of section 202 of the act, for domestic sugar producing areas for the calendar year 1956 the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Domestic beet sugar	1,800,000
Mainland cane sugar	500,000
Hawaii	1,052,000
Puerto Rico	1,080,000
Virgin Islands	12,000

§ 811.82 *Basic quotas for other areas.* There are hereby established, pursuant to subsections (b) and (c) of section 202 of the act, for foreign countries for the calendar year 1956, the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Republic of the Philippines	980,000
Cuba	2,808,960
Other foreign countries	117,040

§ 811.83 [Reserved.]

§ 811.84 *Proration of quotas for foreign countries other than Cuba and the Republic of the Philippines*—(a) *Entries from unspecified countries.* The portion of any quota or deficit prorated in this section to unspecified countries may be filled by sugar from any country other than those specified in this part but the quantity entered from any unspecified country shall not exceed one per centum of the total quota and deficits for foreign countries other than Cuba and the Republic of the Philippines prorated in this section.

(b) *Basic prorations.* The 1956 quota for foreign countries other than Cuba and the Republic of the Philippines is hereby prorated, pursuant to subsection (c) of section 202 of the act, among such countries as follows:

Country:	*Proration in short tons, raw value*
Dominican Republic	29,064
El Salvador	4,355
Haiti	2,813
Mexico	12,051
Nicaragua	8,237
Peru	54,668
Unspecified countries	5,852
Total	117,040

§ 811.85 *Direct-consumption portion of quotas or prorations*—(a) *Domestic areas.* Pursuant to subsections (a), (b) and (c) of section 207 of the act, the quotas established in § 811.81 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

Area:	*Direct-consumption sugar, short tons, raw value*
Hawaii	29,616
Puerto Rico	126,033
Virgin Islands	0

(b) *Other areas.* (1) Pursuant to subsections (d), (e) and (h) of section 207 of the act, the quotas established in § 811.82 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

Area:	*Direct-consumption sugar, short tons, raw value*
Republic of the Philippines	59,920
Cuba	375,000
Other foreign countries	39,794

(2) Notwithstanding the foregoing limitation, the following listed countries may enter within the limits of the prorations established in § 811.84 a minimum quantity of sugar for direct consumption equal to the quantities listed below for each such country:

Country:	*Direct-consumption sugar, pounds, raw value*
Canada	7,552
Colombia	857
Costa Rica	2,168
Dominican Republic	2,400,958
El Salvador	4,041,686
Haiti	376,163
Hong Kong	42,987
Mexico	1,287,589
Nicaragua	9,059,531
Peru	4,377,617
United Kingdom	144,490

§ 811.86 *Liquid sugar quotas.* There are hereby established, pursuant to section 208 of the act, for foreign countries for the calendar year 1956 quotas for liquid sugar as follows:

Country:	*Liquid sugar, wine gallons, 72 percent total sugar content*
Cuba	7,970,558
Dominican Republic	830,894
British West Indies	300,000
Other foreign countries	0

§ 811.87 *Restrictions on marketing and shipment.* Pursuant to section 209 of the act, all persons are hereby prohibited, during the calendar year 1956 from:

(a) Bringing or importing into the continental United States from the Territory of Hawaii, Puerto Rico, the Virgin Islands, or foreign countries, (1) any sugar or liquid sugar after the applicable quota, or the proration of any such quota, has been filled, or (2) any direct-consumption sugar after the direct-consumption portion of any such quota or proration thereof has been filled.

(b) Shipping, transporting, or marketing in interstate commerce, or in competition with sugar or liquid sugar shipped, transported, or marketed in interstate or foreign commerce, any sugar or liquid sugar produced from sugar beets or sugarcane grown in either the domestic beet sugar area or the mainland cane sugar area after the quota for such area has been filled.

§ 811.88 *Inapplicability of quota regulations.* Pursuant to section 212 of the act, §§ 811.81 to 811.87 shall not apply to (a) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in the calendar year 1956; (b) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines in the calendar year 1956 for religious, sacramental, educational, or experimental purposes; (c) liquid sugar imported from any foreign country other than Cuba and the Republic of the Philippines, in individual sealed containers not in excess of one and one-tenth gallons each; or (d) any sugar or liquid sugar imported, brought into, or produced or manufactured in the United States for the distillation of alcohol, or for livestock feed or for the production of livestock feed.

STATEMENT OF BASES AND CONSIDERATIONS

Section 201 of the Sugar Act of 1948, as amended, provides that in determining the quantity (total quota) of sugar needed to meet the requirements of consumers in the continental United States consideration must be given to the distribution of sugar in the twelve months ended October 31 prior to the year to which the requirements apply, any surplus or deficiency in inventories of sugar, changes in consumption because of changes in population and demand conditions, and the relationship between wholesale prices for refined sugar and the Consumers' Price Index.

Distribution of sugar by refiners, importers, and processors during the 12-month period ended October 31, 1955, amounted to 8,500,000 tons. It appears that consumption of sugar during this 12-month period was somewhat less than distribution.

Invisible inventories (held by wholesalers, retailers, and consumers) appear to have risen and to have been higher on October 31 than they were a year earlier, since distribution in the four months immediately preceding, during which refined sugar prices were strengthening in many parts of the country, exceeded that for the corresponding period a year earlier by about 270,000 tons.

Inventories held by refiners and importers on October 31, 1955, amounted to 503,000 tons, or substantially the same as a year earlier. However, additional supplies available to refiners and importers under quotas were larger so that total supplies held by, or available to, refiners and importers on October 31, 1955, amounted to 1,306,000 tons or approximately 70,000 tons more than a year ago.

Supplies of beet sugar remaining to be marketed under the quota during the last two months of 1955 were 136,000 tons smaller than for the same period of 1954. After deducting constructive deliveries made to fill quotas in 1954, the total supplies of beet and cane sugar available under quotas for distribution during the last two months of the year are as large in 1955 as they were in 1954. Both visible and invisible inventories fluctuate considerably depending upon price trends and other conditions that temporarily affect demand. Although it is impossible to anticipate the demand for inventories a year in advance, present inventories are believed to be large enough to permit some reduction, if holders so desire, by the end of 1956.

Population growth should result in an increase of approximately 150,000 tons in consumption during calendar year 1956 as compared with the 12-month period ended October 31, 1955. Changes that may occur in other demand conditions in 1956 are not likely to affect the consumption of sugar significantly.

New York wholesale prices of refined sugar were unusually stable during 1955 and are now at the same level as they were a year ago. During the first half of 1955 prices of refined cane and beet sugar in the southern and western areas of the country were low in relation to the New York basis price. By October, however, prices in such other areas had strengthened so as to restore substantially the relationship with the New York price that existed prior to late 1953. The New York wholesale price of refined sugar in 1955 averaged about 1.4 cents per pound below the level that would have been necessary to maintain the relationship between that price and the Consumers' Price Index that existed under price control in 1947.

After consideration of all of the foregoing factors and recognition of the inherent uncertainties involved, it is determined that initial sugar requirements (total quotas) for the continental United States for 1956 of 8,350,000 short tons, raw value, as established herein will provide a supply that is expected to result in prices that are not excessive to consumers and that will maintain and protect the welfare of the domestic sugar industry.

Quotas. The basic quotas established for domestic areas are in amounts specified in the act. Section 202 of the act provides that the quota for the Republic of the Philippines shall be 952,000 short tons "as specified in section 211 of the Philippine Trade Act of 1946." Quotas under the Sugar Act are established in terms of "short tons, raw value". On the basis of the average polarization of Philippine sugar brought into the continental United States during 1955, equal to 94 percent of the 1955 quota, a quota of 980,000 short tons, raw value, is required to permit the entry of the quantity of sugar established as the quota for the Republic of the Philippines by section 202 of the act. The portion of this quota which may be imported as direct-consumption sugar, established as 56,000 short tons in subsection (d) of section 207 of the act, may be filled entirely with refined sugar and is, therefore, determined to be equivalent to 59,920 short tons, raw value.

The basic quotas for other foreign countries have been established by applying the statutory percentages to the difference between the consumption estimate and the sum of the quotas established for domestic areas and the Republic of the Philippines. In accordance with subsection (c) of section 202 of the act, ninety-five percent of the quota for foreign countries other than Cuba and the Republic of the Philippines has been prorated to those countries which entered more than two percent of the average importations within the quotas for the years 1948, 1949, and 1950 on the basis of the average quantity imported from each such country within the quotas for those years. The remaining five percent of the quota has not been prorated to specific countries and may be filled by countries not receiving specific prorations. The amounts of the quotas and prorations which may be filled by direct-consumption sugar are as specified in the act. The liquid sugar quotas equal those specified in the act.

Done at Washington, D. C., 16th day of December 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[Sugar Reg. 812]

PART 812—SUGAR REQUIREMENTS AND QUOTAS; HAWAII AND PUERTO RICO

CALENDAR YEAR, 1956

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922; 65 Stat. 318; 7 U. S. C. 1100) and the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001), these regulations are hereby made, prescribed, and published to be in force and effect for the calendar year 1956 or until amended or superseded by regulations hereafter made during the calendar year 1956.

Basis and purpose. The determinations and the sugar quotas set forth below have been made and established pursuant to section 203 of the Sugar Act of 1948, as amended (hereinafter called the "act"). The act provides for the Secretary of Agriculture to make such determinations and establish such quotas for the calendar year 1956 during December 1955. The determinations of the sugar requirements have been based insofar as required by section 201 of the act, on official statistics of the Department of Agriculture and statistics published by other agencies of the Federal Government. The purpose of such determinations is to provide the amounts of sugar needed to meet the requirements of consumers in the Territory of Hawaii and in Puerto Rico for the calendar year 1956. The determinations provide the basis for the establishment of sugar quotas for such year for local consumption therein pursuant to section 203 of the act.

Prior to the issuance of these regulations, notice was given (20 F. R. 7707) that the Secretary of Agriculture was preparing, among other things, to determine the requirements and quotas for the calendar year 1956 for local consumption in Hawaii and Puerto Rico and that any interested person might present any data, views or arguments with respect thereto in writing not later than November 21, 1955. Due consideration has been given to the data, views and arguments submitted, in accordance with the Administrative Procedure Act (60 Stat. 237).

Since the act provides that the Secretary of Agriculture determine sugar requirements and establish quotas for local consumption in Hawaii and in Puerto Rico during December 1955, to be applicable for the calendar year 1956, it is impracticable and not in the public interest to comply with the 30-day effective date requirements of the Administrative Procedure Act. Accordingly, these regulations shall be effective January 1, 1956.

§ 812.15 *Sugar requirements and quotas*—(a) *Sugar requirements.* It is hereby determined, pursuant to section 203 of the act, that the amount of sugar needed to meet the requirements of consumers in the territory of Hawaii for the calendar year 1956 is 45,000 short tons of sugar, raw value, and that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1956 is 100,000 short tons, raw value.

(b) *Local consumption quotas.* There are hereby established, pursuant to section 203 of the act, for local consumption in the Territory of Hawaii and in Puerto Rico, for the calendar year 1956 the following quotas.

Area:	*Quotas in terms of short tons, raw value*
Hawaii	45,000
Puerto Rico	100,000

§ 812.16 *Restrictions on marketing.* For the calendar year 1956 all persons are hereby forbidden, pursuant to section 209 of the act, from marketing in the Territory of Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the area for the calendar year 1956 has been filled.

STATEMENT OF BASES AND CONSIDERATIONS

Pursuant to section 203 of the act, it has been determined that those provisions of section 201 of the act which shall apply to the determination of the amounts of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico relate to (1) the quantities of sugar distributed for local consumption in Hawaii and in Puerto Rico during the twelve-month period ended October 31, 1955, (2) deficiencies or surpluses in inventories of sugar and (3) changes in consumption because of changes in population and demand conditions.

The quantities of sugar distributed for consumption in Hawaii and Puerto Rico, including that which was lost in refining after charge to the local quotas, during such twelve-month period were approximately 42,000 short tons of sugar, raw value, and 106,000 short tons of sugar, raw value, respectively.

No official estimate of population for either of these areas for 1956 is available. The estimate of the civilian population for 1955 was about 2 percent greater than for 1954 in both areas.

In Hawaii changes in distribution of sugar for local consumption in recent years appears to have been dominated by changes in industrial use of sugar. For the twelve months ended October 31, 1953, distribution amounted to about 42,000 tons, and for the twelve months ended October 31, 1954, about 38,000. The average for the seven years ended October 31, 1955, is a little less than 40,000 tons. In view of these rates of distribution, it appears that new quota supplies of 45,000 short tons, raw value, will be adequate for local consumption in Hawaii in 1956.

In Puerto Rico the 106,000 tons distributed in the twelve-month period ended October 31, 1955, is 6,000 tons more than was distributed in the preceding twelve months. Distribution during seven twelve-month periods preceding October 31, 1954, averaged 100,000 tons, the variations from year to year indicating no clear-cut trend. On October 31 processors and refiners held 28,000 short tons, raw value, of refined and turbinado sugar in inventory. Of this quantity about 21,000 tons was within 1955 allotments compared to about 18,000 tons needed to sustain distribution to the end of the year at the rate for the preceding twelve months. The refiners do not operate in the first few weeks of the calendar year. Refined sugar in processor's inventory on January 1, 1956, in excess of 1955 quotas may be used to fill 1956 allotments of either the local quota or the direct-consumption portion of the mainland quota. Local quota sugar transferred to a refiner in 1955 and carried into 1956 is available for local consumption without charge to 1956 allotments. It is desirable to provide a local quota supply which will permit refiners (or their customers) to carry sufficient quota refined sugar into the new year to maintain an adequate supply for consumers until processing of new-crop sugar is fully under way. It, therefore, appears that inventories charged to the 1955 quota will not be excessive on January 1, 1956, and that a quota of 100,000 short tons, raw value, for local consumption in Puerto Rico in 1956 will provide a supply of sugar that will be consumed at fair prices.

In accordance with the above, the quotas for local consumption in Hawaii and Puerto Rico for 1956 have been established at 45,000 and 100,000 short tons, raw value, respectively.

(Sec. 403, 61 Stat. 932, 7 U. S. C. 1153. Interpret or apply secs. 201, 203, 209, 210; 61 Stat. 923, 925, 928; 7 U. S. C. 1111, 1113, 1119, 1120)

Done at Washington, D. C., this 16th day of December 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-10258; Filed, Dec. 21, 1955; 8:50 a. m.]

[Sugar Reg. 812, Amdt. 1]

PART 812—SUGAR REQUIREMENTS AND QUOTAS, HAWAII AND PUERTO RICO

CALENDAR YEAR, 1955

Basis and purpose. The revised determination of sugar requirements and the revised sugar quotas for Hawaii set forth below have been made and established pursuant to section 203 of the Sugar Act of 1948, as amended (hereinafter called the "act"). The act requires that the Secretary shall revise the determination of sugar requirements at such times during the calendar year as may be necessary. It now appears that the requirements for Hawaii for the calendar year 1955 will exceed the amount provided for in the determination which became effective January 1, 1955. The purpose of this revision is to make the determination and the quota related thereto conform to the requirements presently indicated on the basis of the applicable factors specified in section 203 of the act.

The original quota is approaching exhaustion and additional sugar is needed for distribution during the remainder of 1955. In order to effectively carry out the purposes of the Sugar Act, it is necessary that the revision in the determination and quota be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest, and the revision of the determination made herein shall be effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, 65 Stat. 318; 7 U. S. C. 1100) and the Administrative Procedure Act (60 Stat. 237, U. S. C. 1001), Sugar Regulation 812 (19 F. R. 9167) determining sugar consumption requirements and quotas for the Territory of Hawaii and Puerto Rico for the calendar year 1955 is hereby amended by revising § 812.13 to read as follows:

§ 812.13 *Sugar requirements and quotas*—(a) *Sugar requirements.* It is hereby determined pursuant to section 203 of the act, that the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii for the calendar year 1955 is 45,000 short tons, raw value, and that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1955 is 100,000 short tons, raw value.

(b) *Local consumption quotas.* There are hereby established pursuant to section 203 of the act, for local consumption in the Territory of Hawaii and in Puerto Rico, for the calendar year 1955, the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Hawaii	45,000
Puerto Rico	100,000

STATEMENT OF BASES AND CONSIDERATION

In the original determination, the quantity for local consumption in Hawaii was set at 40,000 short tons, raw value. Local sugar distribution for the first ten months of 1955 amounted to approximately 38,000 tons. A quota for the full year of 45,000 tons will be required to provide this rate of distribution and the necessary year-end stocks of sugar in distribution channels. The consumption requirements and quota for Puerto Rico remain unchanged at the quantity established in Sugar Regulation 812, effective January 1, 1955.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies secs. 201, 203, 209, 210; 61 Stat. 923, 925, 928; 7 U. S. C. 1111, 1113, 1119, 1120)

Done at Washington, D. C., this 16th day of December 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-10259; Filed, Dec. 21, 1955; 8:50 a. m.]

[Sugar Reg. 814.23]

PART 814—ALLOTMENT OF SUGAR QUOTAS

MAINLAND CANE SUGAR AREA, 1956

Basis and purpose. This allotment order is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act") for the purpose of establishing allotments of the 1956 sugar quota for the Mainland Cane Sugar Area for the period January 1, 1956, to the date allotments of such quota are prescribed for the full calendar year 1956.

Omission of recommended decision and effective date. The record of the

hearing regarding the subject of this order shows that with 1955 marketings for the Mainland Cane Sugar Area equal to the quota of 500,000 tons, probably 474,000 tons of 1955-crop sugar will remain to be marketed after January 1, 1956. This quantity of sugar, along with production of sugar from 1956-crop sugarcane, will result in a supply of sugar available for marketing in 1956 sufficiently in excess of the 500,000 short tons, raw value, quota for the area to cause disorderly marketing and prevent some interested persons from having equitable opportunities to market sugar (R. 8). The inventories of sugar on January 1, 1956, together with production in early 1956, may make it possible for some allottees to market shortly after January 1, 1956, a quantity of sugar larger than the allotments established by this order. Since this proceeding was instituted for the purpose of issuing allotments to prevent disorderly marketing of sugar and to afford all interested persons an equitable opportunity to market, it is hereby found that due and timely execution of the functions imposed upon the Secretary under the act imperatively and unavoidably requires omission of a recommended decision in this proceeding. It is hereby further found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237), is impracticable and contrary to the public interest and, consequently, this order shall be effective on January 1, 1956.

Preliminary statement. Section 205 (a) of the act requires the Secretary to allot a quota whenever he finds that the allotment is necessary (1) to assure an orderly and adequate flow of sugar or liquid sugar in the channels of interstate or foreign commerce, (2) to prevent the disorderly marketing of sugar or liquid sugar, (3) to maintain a continuous and stable supply of sugar or liquid sugar, or (4) to afford all interested persons equitable opportunities to market sugar within the quota for the area. Section 205 (a) also requires that such allotment be made after such hearing and upon such notice as the Secretary may by regulation prescribe.

Pursuant to the applicable rules of practice and procedure (7 CFR 801.1 et seq.) a preliminary finding was made that allotment of the quota is necessary, and a notice was published on October 18, 1955 (20 F. R. 7815), of a public hearing to be held at Washington, D. C., in Room 2W, Administration Building of the Department of Agriculture on November 3, 1955, at 2:00 p. m., e. s. t., for the purpose of receiving evidence to enable the Secretary, (1) to affirm, modify or revoke the preliminary finding of necessity for allotments, and (2) to establish fair, efficient and equitable allotments of a portion of the 1956 quota for the Mainland Cane Sugar Area for the period January 1, 1956, to the date the Secretary prescribes allotments of such quota for the calendar year 1956.

The hearing was held at the place and time specified in the notice.

Basis for findings and conclusions. Section 205 (a) of the act reads in pertinent part as follows:

* * * Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processing of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, determined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person and the ability of such person to market or import that portion of such quota or proration thereof allotted to him * * *

The necessity for allotment of the 1956 sugar quota for the Mainland Cane Sugar Area is indicated by the extent to which the quantity of sugar in prospect for marketing in 1956 exceeds the quota and that in the absence of allotments disorderly marketing would result, and some interested persons would be prevented from having equitable opportunities to market sugar (R. 8, 9).

Testimony indicates that it is desirable to defer allotment proceedings with respect to the allotment of the full quota for 1956 until most allottees have completed processing of 1955-crop sugarcane, but allotments of a portion of the quota should be in effect beginning January 1, 1956, because inventories of sugar on January 1, 1956, together with production of sugar in early 1956 may make it possible for some allottees to market shortly after January 1, 1956, a quantity of sugar larger than eventually may be allotted to them (R. 8, 9).

To meet this situation the Government witness proposed that allotment of 80 percent of the 1956 sugar quota for the Mainland Cane Sugar Area be established to be effective for the period January 1, 1956, to the date allotments of the entire quota for the calendar year are established, by allotting to each allottee 80 percent of his allotment of the 1955 quota established in Sugar Regulation 814.22, Amendment 1, effective September 23, 1955 (20 F. R. 7126, 7987; R. 9; Ex. 4).

Consideration is given to the three factors cited in the act in the same manner as was given in allotting the full quota for 1955, and such basis for allotment of a portion of the 1956 quota to be in effect for the early part of the year cannot be substantially improved (R. 11). No testimony, proposals or arguments other than that outlined above appear in the hearing record.

Findings and conclusions: On the basis of the record of the hearing, I hereby find and conclude that:

(1) For the calendar year 1956 Mainland Cane Sugar processors will have available for marketing from 1954 and 1955-crop sugarcane about 474,000 short tons, raw value, of sugar. This quantity of sugar, together with production of sugar from 1956-crop sugarcane, will result in a supply of sugar available for marketing in 1956 sufficiently in excess of the 500,000 short tons, raw value, quota for the Mainland Cane Sugar Area to cause disorderly marketing and prevent some interested persons from having equitable opportunities to market sugar.

(2) The allotment of the 1956 Mainland Cane Sugar Area quota is necessary to prevent disorderly marketing and to afford all interested persons equitable opportunities to market sugar processed from sugarcane produced in the area.

(3) It is desirable to defer the allotment of the entire 1956 calendar year sugar quota for the Mainland Cane Sugar Area until processings from 1955-crop sugarcane can be known or closely estimated for all allottees, but it is necessary to make allotments of a portion of the 1956 quota effective January 1, 1956, to prevent some allottees from marketing a quantity of sugar larger than eventually may be allotted to them when the entire 1956 quota is allotted.

(4) The findings in (3), above, require that, effective for the period January 1, 1956, until the date allotments of the entire 1956 calendar year Mainland Cane Sugar Area quota are prescribed, allotments of such quota be established for each allottee equal to 80 percent of each allottee's allotment of the 1955 quota for such area as established by Sugar Regulation 814.22, Amendment 1, effective September 23, 1955.

(5) Allotments of the 1956 sugar quota for the Mainland Cane Sugar Area established as found in (4), above, give consideration to the statutory factors "processings * * * from * * * proportionate shares," "past marketings" and "ability to market."

(6) The allotments of the 1955 quota referred to in (4), above, are as set forth in the following table:

Processor	Allotments (short tons, raw value)
Albania Sugar Co	5,014
Alice C. Plantation & Refy, Inc	5,749

(7) For the period January 1, 1956, until the date allotments of the entire 1956 calendar year sugar quota for the Mainland Cane Sugar Area are prescribed, the allotments established in the foregoing manner and in the quantities set forth in the order provide a fair, efficient and equitable distribution of such quota and meet the requirements of section 205 (a) of the act.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, it is hereby ordered:

§ 815.23 *Allotment of the 1956 sugar quota for the Mainland Cane Sugar Area*—(a) *Allotments.* For the period January 1, 1956, until the date allotments of the entire 1956 calendar year sugar quota for the Mainland Cane Sugar Area are prescribed, the 1956 quota for the Mainland Cane Sugar Area is hereby allotted, to the extent shown in this section, to the following processors in the quantities which appear opposite their respective names:

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-10262; Filed, Dec. 21, 1955; 8:51 a. m.]

[Sugar Reg. 814.32]

PART 814—ALLOTMENT OF SUGAR QUOTAS

DOMESTIC BEET SUGAR AREA, 1956

Basis and purpose. This allotment order is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of establishing allotments of the 1956 sugar quota for the Domestic Beet Sugar Area for the period January 1, 1956, to the date allotments of such quota are prescribed for the full calendar year 1956.

Omission of recommended decision and effective date. The record of the hearing regarding the subject of this order shows that about 1,630,000 short tons, raw value, of sugar will be held in inventory by the allottees on January 1, 1956, or will be produced by them from the remainder of the 1955-crop sugar beets by July 1956. Some allottees will have in inventory on January 1, 1956, quantities of beet sugar larger than their 1955 allotments and others may have quantities larger than their 1955 allotments available for marketing by the time they complete 1955-crop processings (R. 8). The availability of such sugar may make it possible for some allottees to market shortly after January 1, 1956, a quantity of sugar larger than the allotments established by the order. In view thereof, and to assure that the allotments established herein become effective on January 1, 1956, in order that disorderly marketing of sugar may be prevented, and all interested persons may be afforded an equitable opportunity to market, it is hereby found that due and timely execution of the functions imposed upon the Secretary under the act imperatively and unavoidably requires omission of a recommended decision in this proceeding. It is hereby further found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237), is impracticable and contrary to the public interest and, consequently, this order shall be effective on January 1, 1956.

Preliminary statement. Section 205 (a) of the act requires the Secretary to allot a quota whenever he finds that the allotment is necessary (1) to assure an orderly and adequate flow of sugar or liquid sugar in the channels of interstate or foreign commerce, (2) to prevent the disorderly marketing of sugar or liquid sugar, (3) to maintain a continuous and stable supply of sugar, or (4) to afford all interested persons equitable opportunities to market sugar within the quota for the area. Section 205 (a) also requires that such allotment be made after such hearing and upon such notice as the Secretary may by regulation prescribe.

Pursuant to the applicable rules of practice and procedure (7 CFR 801.1 et seq.) a preliminary finding was made that allotment of the quota is necessary, and a notice was published on October 18, 1955 (20 F. R. 7815), of a public hearing to be held at Washington, D. C., in Room 2W, Administration Building of the Department of Agriculture on November 3, 1955, at 10:00 a. m., e. s. t., for the purpose of receiving evidence to enable the Secretary (1) to affirm, modify or revoke the preliminary finding of necessity for allotments, and (2) to establish fair, efficient and equitable allotments of a portion of the 1956 quota for the Domestic Beet Sugar Area for the period January 1, 1956, to the date the Secretary prescribes allotments of such quota for the calendar year 1956.

The hearing was held at the place and time specified in the notice.

Basis for findings and conclusions. Section 205 (a) of the act reads in pertinent part as follows:

* * * Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processing of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, determined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person and the ability of such person to market or import that portion of such quota or proration thereof allotted to him * * *.

The necessity for allotment of the 1956 sugar quota for the Domestic Beet Sugar Area is indicated by the extent to which the quantity of sugar in prospect for marketing in 1956 exceeds the quota and the large quantity relative to 1955 allotments that some processors will have available January 1, 1956 (R. 8).

Testimony indicates that it is desirable to defer allotment proceedings with respect to the allotment of the full quota for 1956 until most allottees have completed processing of 1955-crop sugar beets, but that allotments of a portion of the quota should be in effect January 1, 1956, because inventories of sugar on January 1, 1956, together with production of sugar in early 1956 may make it possible for some allottees to market shortly after January 1, 1956, a quantity of sugar larger than eventually may be allotted to them (R. 9–10).

To meet this situation it was proposed that allotment of 80 percent of the 1956 sugar quota for the Domestic Beet Sugar Area be established to be effective for the period January 1, 1956, to the date allotments of the entire quota for the calendar year are established, by allotting to each allottee 80 percent of his allotment of the 1955 quota established in Sugar Regulation 814.31, Amendment 1, effective June 9, 1955 (20 F. R. 3999; R. 10, Ex. 4).

Data on processings, past marketings and inventories during the period 1948 through 1954 were made a part of the record of the proceedings on which this order is based (R. 12; Ex. 5). An allotment for each allottee of the 1956 quota for the Domestic Beet Sugar Area equal to 80 percent of the 1955 allotment for such allottee, as established by Sugar Regulation 814.31, Amendment 1, effective June 9, 1955, will bear a general relationship to the level of processings and marketings for each processor in the 1948–54 period as reflected by these data (R. 11).

In accordance with the hearing record (R. 13) it has been found that Northern Ohio Sugar Company is the successor of Great Lakes Sugar Company and Monitor Sugar Division of Robert Gage Coal Company is successor to Lake Shore Sugar Company.

To assure that the marketing of sugar or liquid sugar will be charged against the proper allotment a finding has been made and a provision has been included in the order to cover the marketing of sugar or liquid sugar derived from sugar beets or molasses which are sold by one processor to another but which are retained and processed and the sugar or liquid sugar derived therefrom is delivered to the buyer or for his account. No testimony, proposals or aguments appear in the record other than are outlined above.

Findings and conclusions. On the basis of the record of the hearing, I hereby find and conclude that:

(1) For the calendar year 1956 Domestic Beet Sugar processors will have available for marketing from 1954 and 1955-crop sugar beets about 1,630,000 short tons, raw value, of sugar. This quantity of sugar, together with production of sugar from 1956-crop beets, will result in a supply of sugar available for marketing in 1956 sufficiently in excess of the 1,800,000 short tons, raw value, quota for the Domestic Beet Sugar Area to cause disorderly marketing and prevent some interested persons from having equitable opportunities to market sugar.

(2) The allotment of the 1956 Domestic Beet Sugar Area quota is necessary to prevent disorderly marketing and to afford all interested persons equitable opportunities to market sugar processed from sugar beets produced in the area.

(3) Allotment of the entire 1956 calendar year sugar quota for the Domestic Beet Sugar Area should be deferred until processings of the 1955-crop sugar beets can be known or closely estimated for all allottees, however it is necessary that an allotment of such quota be in effect on January 1, 1956, in order to avoid disorderly marketing out of sugar on hand on that date or to be produced shortly thereafter, and to afford all interested persons equitable opportunities to market sugar.

(4) The findings in (3), above, require that, effective for the period January 1, 1956, until the date allotments of the 1956 Domestic Beet Sugar Area quota for the full calendar year 1956 are prescribed, allotments of such quota be established for each allottee equal to 80 percent of each allottee's allotment of the 1955 quota for such area as established by Sugar Regulation 814.31, Amendment 1, effective June 9, 1955, and that other provisions of such regulations apply to the allotments made herein.

(5) In establishing allotment of the 1956 sugar quota for the Domestic Beet Sugar Area as found in (4), above, the statutory factors, "processings • • • from • • • proportionate shares," "past marketings" and "ability to market" have been taken into consideration.

(6) The allotments of the 1955 quota referred to in (4), above, are as set forth in the following table:

Processors	Allotments	
	Short tons, raw value	100-pound bags beet sugar
Amalgamated Sugar Co., The	232,397	4,343,860
American Crystal Sugar Co	258,495	4,830,000
Buckeye Sugars, Inc	10,165	190,000
Franklin County Sugar Co	10,165	190,000
Garden City Co., The	7,490	140,000
Great Lakes Sugar Co	21,400	400,000
Great Western Sugar Co., The	406,600	7,600,000
Holly Sugar Corp	275,525	5,150,000
Lake Shore Sugar Co	9,095	170,000
Layton Sugar Co	7,811	146,000
Menominee Sugar Co	5,350	100,000
Michigan Sugar Co	58,850	1,100,000
Monitor Sugar Division of Robert Gage Coal Co	19,795	370,000
National Sugar Manufacturing Co	5,350	100,000
Spreckels Sugar Co	201,962	3,775,000
Superior Sugar Refining Co	6,420	120,000
Union Sugar Division, Consolidated Foods Corp	79,715	1,490,000
Utah-Idaho Sugar Co	183,505	3,420,000
All other persons	000	000
Total	1,800,000	33,644,860

(7) Northern Ohio Sugar Company shall replace Great Lakes Sugar Company, and the Monitor Sugar Division of Robert Gage Coal Company shall succeed to all interests of Lake Shore Sugar Company as allottees of the 1956 sugar quota for the domestic beet sugar area.

(8) To assure that the marketing of sugar or liquid sugar is charged against the proper allotment, it is necessary that the order provide for charges to allotments of processors who sell sugar beets, or molasses derived from sugar beets, but retain and process such sugar beets or molasses into sugar or liquid sugar for delivery to or for the account of the buyer.

(9) For the period January 1, 1956, until the date allotments of the entire 1956 calendar year sugar quota for the Domestic Beet Sugar Area are prescribed, the allotments established in the foregoing manner and in the quantities set forth in the order provide a fair, efficient and equitable distribution of such quota and meet the requirements of section 205 (a) of the act.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, it is hereby ordered:

§ 814.31 *Allotment of the 1956 sugar quota for the Domestic Beet Sugar Area*—(a) *Allotments.* For the period January 1, 1956, until the date allotments of the entire 1956 calendar year sugar quota for the Domestic Beet Sugar Area are prescribed, the 1956 quota for the Domestic Beet Sugar Area is hereby allotted, to the extent shown in this section, to the following processors in the quantities which appear opposite their respective names:

Processors	Allotments	
	Short tons, raw value	100-pound bags beet sugar
Amalgamated Sugar Co., The	185,917	3,475,088
American Crystal Sugar Co	206,724	3,864,000
Buckeye Sugars, Inc	8,132	152,000
Franklin County Sugar Co	8,132	152,000
Garden City Co., The	5,992	112,000
Great Western Sugar Co., The	325,280	6,080,000
Holly Sugar Corp	220,420	4,120,000
Layton Sugar Co	6,249	116,800
Menominee Sugar Co	4,280	80,000
Michigan Sugar Co	47,080	880,000
Monitor Sugar Division of Robert Gage Coal Co	23,112	432,000
National Sugar Manufacturing Co., The	4,280	80,000
Northern Ohio Sugar Co	17,120	320,000
Spreckels Sugar Co	161,570	3,020,000
Superior Sugar Refining Co	5,136	96,000
Union Sugar Division, Consolidated Foods Corp	63,772	1,192,000
Utah-Idaho Sugar Co	146,804	2,744,000
Any other person	000	000
Subtotal	1,440,000	26,915,888
Unallotted	360,000	6,728,972
Total	1,800,000	33,644,860

(b) *Marketing of sugar beets and molasses.* If sugar beets or molasses derived from sugar beets are sold by a processor but retained and processed by such processor and the sugar or liquid sugar processed therefrom is delivered to or for the account of the buyer of the sugar beets or molasses, the marketing of such sugar or liquid sugar shall, at the time such sugar or liquid sugar is so delivered, be charged to the allotment of the processor who sold and processed such sugar beets or molasses.

(c) *Restrictions on shipment and marketing.* For the period January 1, 1956, until the date an allotment order is issued alloting the entire 1956 calendar year sugar quota for the Domestic Beet Sugar Area, each person named in paragraph (a) of this section, and any other person is hereby prohibited from marketing in interstate commerce or in competition with sugar or liquid sugar shipped, transported or marketed in interstate commerce or foreign commerce, any sugar or liquid sugar produced from sugar beets grown in the Domestic Beet Sugar Area in excess of his allotment established in paragraph (a) of this section.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 205, 209, 61 Stat. 926, 928; 7 U. S. C. 1115)

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter B—Cooperative Control and Eradication of Animal Diseases

PART 55—CATTLE DESTROYED BECAUSE OF ANAPLASMOSIS

Pursuant to the provisions of sections 3 and 11 of the act of May 29, 1884, as amended, and section 2 of the act of February 2, 1903 (21 U. S. C. 111, 114, 114a), the following new Part 55 is hereby promulgated to appear in Subchapter B, Chapter I, Title 9, Code of Federal Regulations:

Sec.
55.1 Cooperation in eradication of anaplasmosis.
55.2 Appraisal of animals.
55.3 Payments of indemnity; claims not allowed.

AUTHORITY: §§ 55.1 to 55.3 issued under sec. 3, 23 Stat. 32, sec. 2, 32 Stat. 792, ch. 30, 45 Stat. 59, sec. 101, 58 Stat. 734, as amended; 21 U. S. C. 111, 114, 114a.

§ 55.1 *Cooperation in eradication of anaplasmosis.* Upon agreement of the authorities of the Territory of Hawaii to enforce quarantine restrictions and orders and directives properly issued in the control and eradication of anaplasmosis of cattle and to pay 50 percent of the expenses of the purchase and disposition of cattle affected by the disease, the Chief of the Animal Disease Eradication Branch of the Agricultural Research Service is hereby authorized to agree on the part of the Department to cooperate with the Territory in the control and eradication of the subject disease and to pay not more than 50 percent of such expenses.

§ 55.2 *Appraisal of animals.* Animals required to be destroyed because of being infected with anaplasmosis shall be appraised by an officially designated representative of the Animal Disease Eradication Branch or the Territory of Hawaii and shall be destroyed within a period of time acceptable to the Chief of the Branch. Such appraisal shall be based on the actual value of the cattle at the time and place of appraisal.

§ 55.3 *Payments of indemnity; claims not allowed.* (a) Owners of affected cattle destroyed in accordance with this part shall be paid an indemnity not to exceed one-half the difference between the appraised value and the salvage value but the payment shall not exceed the amount paid by the Territory of Hawaii.

(b) In the discretion of the Branch Chief claims will not be allowed under the terms of this part if the payee has not complied with all quarantine requirements.

(c) Claims will not be allowed for expenses for the care and feeding of animals held for destruction.

(d) In the discretion of the Branch Chief claims will not be allowed arising out of the destruction of animals unless they shall have been appraised as described in this part and the owner thereof shall execute a written agreement to the appraisal.

Effective date. These regulations become effective December 22, 1955.

The purpose of this part is to permit the Department to cooperate with the Territory of Hawaii and to grant indemnities to owners of cattle destroyed because of anaplasmosis. The amount of indemnities is dependent on laws of the cooperators, budgetary considerations, and other facts peculiarly within the knowledge of the Department of Agriculture. Federal cooperation and support for eradication of this disease shall be confined to the Territory of Hawaii. It is necessary to put these regulations into effect promptly in order to facilitate conduct of the anaplasmosis eradication program and to assure maximum benefit to affected persons. Hence, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to

the promulgation of these regulations are impracticable and contrary to the public interest and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D. C., this 19th day of December, 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 147]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date, provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.14, the Fort Ord, California, area (R–284 formerly D–284), amended on May 10, 1951 in 16 F. R. 4311 is further amended by changing the "Description by geographical coordinates" column to read:

Beginning at latitude 36°41'15", longitude 121°47'40"; thence to latitude 36°39'40", longitude 121°43'20"; thence to latitude 36°37'35", longitude 121°41'17"; thence to latitude 36°34'54", longitude 121°43'01"; thence to latitude 36°34'30", longitude 121°47'40"; thence along the arc of a circle of 3 miles radius centered at latitude 36°35'30", longitude 121°50'30"; to latitude 36°38'00", longitude 121°50'20"; thence to latitude 36°38'15", longitude 121°51'45"; thence to latitude 36°42'00", longitude 121°49'45"; thence to latitude 36°40'59", longitude 121°48'49"; thence to point of beginning.

2. In § 608.51, the Gray AFB, Texas, area (R–343 formerly D–343), amended on November 10, 1954 in 19 F. R. 7285 is further amended by changing the "Description by geographical coordinates" column to read:

Beginning at latitude 31°22'30", longitude 97°44'20"; thence to latitude 31°18'00", longitude 97°50'00"; thence to latitude 31°18'00", longitude 97°52'18"; thence to latitude 31°11'36", longitude 97°48'30"; thence meandering southeastward and remaining 100 yards west of West Range Road to latitude 31°09'30", longitude 97°47'18"; thence to latitude 31°08'00", longitude 97°46'12"; thence to latitude 31°08'00", longitude 97°45'00"; thence to latitude 31°02'00, longitude 97°45'00"; thence to latitude 31°02'00", longitude 97°38'00"; thence to latitude 30°56'00", longitude 97°38'00"; thence to latitude 30°50'00", longitude 97°48'00"; thence to latitude 30°50'00", longitude 98°06'00"; thence to latitude 31°22'00", longitude 98°06'00"; thence to latitude 31°26'00", longitude 97°55'00"; thence to latitude 31°22'30", longitude 97°44'20" the point of beginning.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies Sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on January 12, 1956.

[SEAL] C. J. LOWEN, Jr.,
Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6410]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

OKLAHOMA COLLEGE OF AUDIOMETRY AND JOHN W. BRIDGES

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Individual or private business as educational, religious or research institution; qualifications and abilities; § 13.205 *Scientific or other relevant facts.* Subpart—*Misrepresenting oneself and goods*—Business status, advantages or connections: § 13.1450 *Individual or private business as educational, religious or research institution;* § 13.1535 *Qualifications.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.1930 *"Degrees" and "diplomas".* Subpart—*Using misleading name*—Vendor: § 13.2410 *Individual or private business being educational, religious or research institution or organization;* § 13.2455 *Qualifications.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Oklahoma College of Audiometry et al., Oklahoma City, Okla., Docket 6410, December 7, 1955]

In the Matter of Oklahoma College of Audiometry, a Corporation, and John W. Bridges, Individually and as President of Said Corporation

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission—which charged an individual and the corporate school controlled and directed by him, engaged in selling and distributing a correspondence course of study in audiometry or the art of fitting hearing aids, with representing in circulars mailed to prospective students and in advertisements in magazines of national circulation that the school was a recognized and accredited college or institution of higher learning in which was taught the science of audiometry; that its president held a number of degrees pertaining to that subject; that the school gave the latest scientific methods of testing, treating, fitting, and rehabilitating those suffering from loss of hearing; that students making a passing grade of 75 would receive a diploma of Doctor of Audiometry, indicated by the letters "D. A."; and that the school was a non-profit educational institution—and an agreement between the parties providing for the entry of a consent order.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which, by the Commission's order of December 7, 1955, became the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondent Oklahoma College of Audiometry, a corporation, and its officers, and respondent John W. Bridges, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of courses of study and instruction, do forthwith cease and desist from:

1. Using the word "college," or any word of similar import, as a part of said corporation's corporate or trade name, or otherwise representing, directly or by implication, that respondents' enterprise is a college or institution of higher learning.

2. Representing, directly or by implication, that respondents' school is recognized by any standard or accepted accrediting organization or is an accredited educational institution.

3. Representing, directly or by implication, that respondent John W. Bridges is the holder of any accredited and recognized academic degrees pertaining to the subject of audiometry.

4. Representing, directly or by implication, that respondents' school gives the latest scientific methods of testing, treating, fitting or rehabilitating those suffering hearing loss.

5. Representing, directly or by implication, that the degree of "Doctor of Audiometry" is an accepted and recognized degree.

6. Representing, directly or indirectly, that respondents' school is a non-profit educational institution.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 7, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 55–10279; Filed, Dec. 21, 1955; 8:54 a. m.]

[Docket 6352]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

CALLAWAY MILLS CO. AND CALLAWAY MILLS, INC.

Subpart—*Dealing on exclusive and tying basis:* § 13.670 *Dealing on exclusive and tying basis.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or applies sec. 3, 38 Stat. 731; 15 U. S. C. 14) [Cease and desist order, Callaway Mills Company (LaGrange, Georgia) et al., Docket 6352, December 8, 1955]

In the Matter of Callaway Mills Company, a Corporation, and Callaway Mills, Inc., a Corporation

This proceeding was heard by Everett F. Haycraft, hearing examiner, upon the complaint of the Commission—which charged the nation's largest manufacturer of industrial wiping cloths and its sales subsidiary, with sales in 1953 approximating $8,000,000, with violating Section 3 of the Clayton Act through selling their products, including the trademarked cloth "Kex", to some 110 large industrial laundries which in turn rented the cloths to industrial concerns for use in wiping grease, dirt, etc., from machinery and tools, on condition that they did not deal in competitive products—and an agreement between the parties providing for the entry of a consent order.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist which, by the Commission's order of December 8, 1955, became the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That the respondents, Callaway Mills Company, a corporation, and Callaway Mills, Inc., a corporation, and their officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of industrial wiping cloths and other similar or related products in commerce, as "commerce" is defined in the Clayton Act, do forthwith cease and desist from:

(1) Selling or making any contract or agreement for the sale of any such products on the condition, agreement or understanding that the purchaser thereof shall not use or deal in industrial wiping cloths or other similar or related products supplied by any competitor or competitors of respondents;

(2) Enforcing, or continuing in operation or effect, any condition, agreement or understanding in or in connection with any contract of sale, which condition, agreement, or understanding is to the effect that the purchasers of said products shall not use or deal in industrial wiping cloths or other similar or related products supplied by any competitor or competitors of respondents.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 8, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69b) [Cease and desist order, Weinstein Fur Company et al., Union City, N. J., Docket 6415, December 8, 1955]

In the Matter of Weinstein Fur Company, a Corporation, and Stanley W. Weinstein, Individually and as Secretary and Manager of Said Corporation

This proceeding was heard by Frank Hier, hearing examiner, upon the complaint of the Commission—which charged retail fur dealers with violating the Fur Products Labeling Act in advertisements in newspapers which failed deceptively to disclose the names of animals producing the furs, the country of origin of imported furs, and the fact that fur products were composed of bleached, dyed, or otherwise artificially colored fur; and which misrepresented the geographical origin of furs, prices and value of fur products, and the products as being from the stock of a liquidating business—and an agreement between the parties providing for the entry of a consent order.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which, by the Commission's order of December 8, 1955, became the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondents, Weinstein Fur Company, a corporation, and Stanley W. Weinstein, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the sale, advertising, offer for sale, transportation or distribution of fur products which have been made in whole or in part of fur which had been shipped and received in commerce, as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

(1) Misbranding fur products by failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur when such is a fact;

(e) The name, or other identification issued and registered by the Commission of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered for sale in commerce, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product.

(2) Falsely or deceptively advertising fur products through the use of any advertisements, representation, public announcement or notice, which is intended to aid, promote or assist, directly or indirectly in the sale or offering for sale of fur products, and which:

(a) Fails to disclose the name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations;

(b) Fails to disclose that fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is the fact;

(c) Fails to disclose the name of the country of origin of imported furs contained in fur products;

(d) Sets forth required information in abbreviated form;

(e) Uses words or terms connoting a false geographical origin of furs contained in fur products;

(f) Represents, directly or by implication:

(1) That the regular or usual price of any fur product is any amount which is in excess of the price at which such product had been offered for sale in good faith or sold by respondents in the recent regular course of their business.

(2) That a sale price enables purchasers of fur products to effectuate any savings in excess of the difference between the said price and the price at which comparable products were sold during the time specified or, if no time is specified, in excess of the difference be-

tween said price and the current price at which comparable products are sold;

(3) That the aggregate value of fur products offered for sale is greater than is the fact;

(4) That any of such products were from the stock of a business in a state of liquidation, contrary to the fact.

(3) Makes the pricing claims or representations referred to in paragraph (f), (1), (2), and (3), inclusive, above, unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based, as required by Rule 44 (e) of the rules and regulations.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 8, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 55-10281; Filed, Dec. 21, 1955; 8:55 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

ROCHESTER HARBOR, N. Y.; SAGINAW RIVER, MICH.

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.190 governing the operation of drawbridges across navigable waters of the United States in the State of New York, where constant attendance of drawtenders is not required, is hereby amended prescribing paragraph (f) (10), to govern the operation of the New York Central Railroad Company bridge across the Genesee River in Rochester Harbor, New York, as follows:

§ 203.190 *Navigable waters in the State of New York and their tributaries; bridges where constant attendance of draw tenders is not required.* • • •

(f) The bridges to which this section applies, and the regulations applicable in each case are as follows:

• • • • • •

(10) Genesee River; New York Central Railroad Company bridge at mile 0.9 in Rochester Harbor. From December 16 to March 31, inclusive, at least 12 hours' advance notice required. From April 1 to December 15, inclusive, the draw shall be opened promptly for the passage of any vessel unable to pass under the closed bridge.

[Regs., December 1, 1955, 823.01 (Genesee River, N. Y.)-ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.700 governing the operation of drawbridges across the Saginaw River, Michigan, is hereby amended to provide for the operation of certain drawbridges on advance notice during the nonnavigation season as follows:

§ 203.700 *Saginaw River, Mich.; bridges.* (a) The owners of or agencies controlling drawbridges across Saginaw River shall provide the necessary tenders and the proper mechanical appliances for the safe, prompt, and efficient opening of the draws for the passage of vessels.

(b) Except as otherwise provided in paragraphs (d), (i), and (j) of this section, the draw of each bridge, upon receiving the prescribed call signal shall be opened (1) promptly for the passage of any vessel or other watercraft of 20 tons and upward not able to pass under the closed bridge: *Provided*, That the opening of the draw of a railroad bridge may be delayed not to exceed five minutes after receipt of signal to permit the passage thereover of a mail or passenger train which is ready to cross at the time the signal is given, and (2) as soon as practicable for the passage of any vessel or other watercraft of less than 20 tons: *Provided*, That no such vessel shall be delayed for a longer period than fifteen minutes.

(c) *Signals*—(1) *Call signals for opening of draw*—(i) *Sound signal.* One long blast, two short blasts, and one long blast of a whistle, horn, or siren, repeated at intervals until the acknowledging signal is received from the bridge: *Provided*, That when a vessel is about to leave a point between two drawbridges and within sight or hearing of both to pass through the draw upstream, the call signal shall be followed after a brief interval by an additional short blast.

(ii) *Visual signals.* A white flag by day or a white light at night, swung in full circles at arm's length in full sight of the bridge and facing the draw.

(2) *Acknowledging signals*—(i) *When draw can be opened immediately*—(a) *Sound signals.* Same as call signal.

(b) *Visual signals.* A white flag by day or a green light at night swung up and down vertically a number of times in full sight of the vessel.

(ii) *When draw cannot be opened immediately, or when it is open and must be closed immediately*—(a) *Sound signals.* Four or more short and rapid blasts of a whistle, horn, or siren, or four or more sharp and rapid strokes of a bell, repeated at intervals until acknowledged by the vessel. The vessel shall acknowledge by one long blast followed by one short blast.

(b) *Visual signals.* A red flag by day or a red light at night, swung to and fro horizontally in full sight of the vessel; or in lieu thereof, if considered advisable by the owner of or agency controlling any bridge, two red lights mounted 30 inches between centers, horizontally, in an elevated position above the bridge and showing both upstream and downstream, may be flashed alternately. These signals shall be repeated until acknowledged by the vessel. The vessel shall acknowledge with a red flag by day or a red light at night swung to and fro horizontally.

NOTE: Visual signals are to be used in conjunction with sound signals if weather conditions are such that sound signals may not be heard or at other times if desired. The term "long blast" means a distinct blast of a whistle, horn, or siren of approximately three seconds' duration and the term "short blast" means a distinct blast of a whistle, horn, or siren of approximately one second's duration.

(d) *Closed periods.* (1) Belinda Street, Third Street, Lafayette Street and Cass Avenue bridges shall not be opened for the passage of any vessel under 50 gross tons between 6:30 and 8:30 a. m. and between 3:30 and 5:30 p. m., except on Sundays.

(2) Belinda Street, Third Street, and Lafayette Street bridges shall not be opened for the passage of any downbound vessel over 50 gross tons between 7:30 and 8:30 a. m. and between 4:30 and 5:30 p. m., except on Sundays and legal holidays observed in the locality.

(e) The bridges shall not be required to open for pleasure craft carrying appurtenances unessential for navigation which extend above the normal superstructure. Upon request, the District Engineer, Corps of Engineers, Detroit, Michigan, will cause an inspection to be made of the superstructures and appurtenances of any such craft habitually frequenting the waterway, with a view to adjusting any differences of opinion in this matter between the vessel owner and the bridge owner.

(f) Trains and vehicles shall not be stopped on a bridge for the purpose of delaying its opening, nor shall watercraft be handled so as to hinder or delay the operation of the draw, but all passage over or through a bridge shall be prompt to prevent delay to either land or water traffic.

(g) The owner of or agency controlling each bridge shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can be easily read at any time, a copy of the regulations in this section pertaining to the particular bridge.

(h) The general regulations contained in paragraphs (a) to (g), inclusive, of this section shall apply to all bridges except as modified by the special regulations contained in paragraphs (i) and (j) of this section. The closed periods in paragraph (d) of this section shall not apply to vessels operated by the United States and municipal vessels. All such vessels shall be passed through the draws of these bridges during any closed period.

(i) *Bridges at Saginaw.* (1) The owners of or agencies controlling drawbridges at Saginaw need not keep draw tenders in constant attendance.

(2) For openings of the draws of the City of Saginaw highway bridge at Sixth Avenue and bridges upstream therefrom below the Court Street fixed bridge, from November 16 to March 31, inclusive, and between 11:00 p. m. and 7:00 a. m. from April 1 to November 15, inclusive, at least three hours' advance notice is required.

(3) For openings of the draws of bridges upstream from the Court Street fixed bridge, at least 24 hours' advance notice is required.

(4) Advance notice as required by this paragraph shall be given to the Bridge Operations Officer, Police Department, City of Saginaw, Michigan, telephone Saginaw 8191. In the case of bridges which are not owned or controlled by the City of Saginaw, the Bridge Operations Officer shall be responsible for relaying the necessary information to the owners or agencies concerned. Advance notice shall include the name of the vessel, its location at the time notice is given, if inbound the exact destination and expected time of arrival, and if outbound the point and time of departure. The actual opening in each case will be accomplished only after exchange of the prescribed signals.

(j) *Bridges at Bay City.* (1) The owners of or agencies controlling drawbridges at Bay City need not keep draw tenders in constant attendance during period from December 16 to March 15, inclusive.

(2) For openings of draws of all bridges from Saginaw Bay upstream to and including Cass Avenue bridge, at least 24 hours' advance notice is required during this period.

(3) Advance notice as required by this paragraph shall be given to the Dispatcher, Police Department, City of Bay City, Michigan, telephone Bay City 5521. In the case of bridges which are not owned or controlled by the City of Bay City, the Dispatcher shall be responsible for relaying the necessary information to owners or agenices concerned. Advance notice shall include the name of the vessel, its location at time notice is given, if inbound, the exact destination and expected time of arrival, and if outbound, the point and time of departure. The actual opening in each case will be accomplished only after exchange of the prescribed signals.

[Regs., November 30, 1955, 823.01 (Saginaw River, Mich.)-ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] JOHN A. KLEIN, *Major General, U. S. Army, The Adjutant General.*

[F. R. Doc. 55-10232; Filed, Dec. 21, 1955; 8:45 a. m.]

PART 203—BRIDGE REGULATIONS

PART 207—NAVIGATION REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.235 governing the operation of drawbridges across Christina River, Delaware, is hereby amended prescribing special regulations to govern the operation of the Reading Company bridge at mile 4.5 by revision of paragraph (g) (6) (i), as follows:

§ 203.235 *Christina River, Del.; bridges.* • • •

(g) *Bridges requiring advance notice for prompt openings.* • • •

(6) The bridges to which these special regulations apply, periods when draws need not be operated and advance notice required are, as follows:

(i) *Reading Company bridge at mile 4.5 and Pennsylvania Railroad Company bridge at mile 5.38.* Between 8:00 p. m. and 6:00 a. m., the draws need not be opened for the passage of vessels. Between 6:00 a. m. and 8:00 p. m., at least 24 hours' advance notice required.

[Regs., December 6, 1955, 823.01 (Christina River, Del.)-ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.245 governing the operation of drawbridges where constant attendance of draw tenders is not required over navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets, is hereby amended prescribing paragraph (j) (3–a), to govern the operation of the State of Louisiana Department of Highways bridge across Grand Bayou near Paincourtville, Louisiana, as follows:

§ 203.245 *Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.* • • •

(j) *Waterways discharging into Gulf of Mexico west of Mississippi River.* • • •

(3–a) Grand Bayou, La.; State of Louisiana Department of Highways bridge near Paincourtville. At least 24 hours' advance notice required.

[Regs., December 5, 1955, 823.01 (Grand Bayou, La.)-ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

3. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.790 governing the operation of drawbridges across Duwamish Waterway is hereby amended prescribing closed periods for the King County Highway Bridge at Fourteenth Avenue South, Seattle, Washington, revoking subdivision (iii) of paragraph (b) (2), pertaining to the former City Bridge at Eighth Avenue South, Seattle, Washington, revising paragraph (b) (2) (iv) and adding paragraph (b) (2) (v), as follows:

§ 203.790 *Duwamish Waterway at Seattle, Wash.; bridges.* • • • (b) *Special regulations.* • • •

(2) The following signals are prescribed for vessels wishing to have the draws opened:

• • • • • •

(iii) *City Bridge at Eighth Avenue South.* [Revoked.]

(iv) *County bridge at Fourteenth Avenue South.* Clearance 45 feet at mean lower low water.

(*a*) *Opening signal.* The signal for opening this bridge shall be one long blast followed quickly by one short blast and one long blast of the whistle.

(b) *Closed periods.* Between the hours of 7:00 a. m. and 8:00 a. m., and 3:30 p. m. and 5:00 p. m., Monday through Friday of each week, the draw need not be opened for the passage of vessels.

(v) *Additional instructions.* The bridges described in this subparagraph shall also be opened for the passage of vessels or watercraft of any description propelled by other than steam power, upon like signals given by whistle or trumpet, or upon verbal request of the person or persons in charge of same. If the draw of any of the bridges is ready to be opened immediately when the prescribed signal is given from the vessel, the signal shall be answered immediately by the same prescribed signal from a whistle or horn on the bridge; but if the draw is not ready to be opened immediately upon the prescribed signal being given on the vessel, the signal shall be answered immediately from the bridge by four or more short blasts of a whistle, horn, or megaphone, or four or more distinct strokes of a bell.

[Regs., December 5, 1955, 823 (Duwamish River, Wash.)-ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

4. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.7 governing the use and navigation of a seaplane restricted area in Salem Harbor, Massachusetts, is hereby amended to provide an increased area to meet the minimum requirements for operational flexibility and flight safety, revising section heading and paragraph (a) as follows:

§ 207.7 *Salem and Beverly Harbors, Mass.; seaplane restricted area*—(a) *The area.* The waters of Salem and Beverly Harbors adjacent to the United States Coast Guard Air Station, Winter Island, Salem, Mass., bounded as follows: Beginning at Fort Pickering Light at the southeastern tip of Winter Island, latitude 42°31'35", longitude 70°52'01"; thence to Abbot Rock day beacon, latitude 42°31'49", longitude 70°51'46"; thence to latitude 42°32'01", longitude 70°51'41"; thence to latitude 42°32'16", longitude 70°52'00"; thence to latitude 42°32'25", longitude 70°51'50"; thence to latitude 42°32'17", longitude 70°51'33"; thence to latitude 42°32'28", longitude 70°50'46"; thence to latitude 42°32'20", longitude 70°50'40"; thence to latitude 42°32'03", longitude 70°51'04"; thence to latitude 42°31'57", longitude 70°50'53"; thence to latitude 42°31'48", longitude 70°51'24"; thence to latitude 42°31'33", longitude 70°51'34"; thence to latitude 42°31'27", longitude 70°51'24"; thence to latitude 42°31'34", longitude 70°50'38"; thence to latitude 42°31'28", longitude 70°50'37"; thence to latitude 42°31'17", longitude 70°51'53"; thence to latitude 42°30'48", longitude 70°52'19"; thence to latitude 42°30'54", longitude 70°52'34"; thence to the northeastern corner of Salem Terminal Company's wharf, latitude 42°31'21", longitude 70°52'30"; thence to a point on the high water line on the southwestern end of Winter Island, latitude 42°31'33", longitude 70°52'18"; thence easterly along the southern shore of Winter Island to the point of beginning.

[Regs., December 2, 1955, 800.211 (Salem Harbor, Mass.)-ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 206—FREIGHT COMMODITY STATISTICS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 9th day of December A. D. 1955.

The matter of freight commodity statistics to be compiled and reported by Class I common and contract motor carriers of property being under consideration; and,

It appearing, that notices dated July 31, 1952 (17 F. R. 7550), January 5, 1953 (18 F. R. 261), June 8, 1954 (19 F. R. 3479), and June 18, 1954 (19 F. R. 3814), to the effect that regulations providing for compiling and reporting freight commodity statistics, had been approved, were served on all Class I common and contract motor carriers of property subject to provisions of Part II of the Interstate Commerce Act, and also published in the FEDERAL REGISTER as noted, pursuant to provisions of section 4 of the Administrative Procedure Act; and

It further appearing, that the notices provided for written views or representations to be filed by any interested person on or before September 30, 1952, subsequently extended to July 15, 1954, and after consideration of all written views and representations received on or before July 15, 1954, as provided in such notices as amended:

It is ordered, That the following rules and regulations be, and they are hereby, approved and prescribed, and that all Class I common and contract motor carriers of property subject to Part II of the Interstate Commerce Act observe and comply with these rules and regulations:

Sec.
206.1 Freight commodity statistics.
206.2 Exempt carriers.
206.3 Items to be reported.
206.4 Truckload traffic defined.
206.5 Freight revenue.
206.6 Report form and date of filing.

AUTHORITY: §§ 206.1 to 206.6 issued under 49 Stat. 546, as amended; 49 U. S. C. 304. Interpret or apply 49 Stat. 563, as amended; 49 U. S. C. 320.

§ 206.1 *Freight commodity statistics.* Beginning January 1, 1956, and continuing thereafter until further order of the Commission, all Class I common and contract motor carriers of property, as defined in § 182.01-1 of this chapter, subject to Part II of the Interstate Commerce Act, and not hereinafter specifically exempted from the requirements of this Part, shall compile and report annually certain freight traffic statistics according to commodity groups and classes named in Appendix I to this part, and in conformity with formal instructions included in the appropriate report forms hereinafter prescribed.

§ 206.2 *Exempt carriers.* Until further order of the Commission those Class I common and contract motor carriers of property which are predominantly engaged in the types of carriage or service indicated below will be exempt from the requirements for compiling and reporting freight commodity statistics:

(a) Dump trucking,
(b) Armored truck service,
(c) Film and associated commodities,
(d) Retail store delivery.

§ 206.3 *Items to be reported.* Information respecting intercity truckload shipments shall be compiled and reported for each commodity class named in Appendix I, as follows:

(a) Revenue freight originated:
Terminating with carrier:
Number of shipments,
Number of tons (2,000 pounds),
Freight revenue.
Delivered to another motor carrier:
Number of shipments,
Number of tons (2,000 pounds),
Freight revenue.
(b) Revenue freight received from another motor carrier:
Terminating with carrier:
Number of shipments,
Number of tons (2,000 pounds),
Freight revenue.
Delivered to another motor carrier:
Number of shipments,
Number of tons (2,000 pounds),
Freight revenue.
(c) Total truckload revenue freight:
Number of shipments,
Number of tons (2,000 pounds),
Freight revenue.

§ 206.4 *Truckload traffic defined.* For purposes of this part a truckload shipment shall mean any shipment of not less than 10,000 pounds of a single commodity represented by one of the classes of the Commission's freight commodity classification or any sub-division of such classes which moves on a single bill of lading. It is recognized that more than one shipment of 10,000 pounds will at times move in the same truck, but, in compiling the information, each such shipment will be treated as a truckload shipment. Truckload shipments received from or delivered to a carrier other than a motor carrier shall be classified as originating and terminating, respectively, with the reporting carrier.

§ 206.5 *Freight revenue* as used in § 206.3 means the reporting carrier's proportion of the revenue shown on each freight bill without subsequent adjustment for errors in rates, extensions, interline divisions, etc.

§ 206.6 *Report form and date of filing.* Reports required by the rules and regulations of this part shall be filed in duplicate with the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D. C., on or before the 60th day succeeding the close of the year for which they are compiled, on Form TCS which will be furnished to the carriers. (The outline of the report Form follows the tenor of the order.)

It is further ordered, That a copy of this order shall be served on each Class I common or contract motor carrier of property subject to Part II of the Act and on every trustee, receiver, executor, administrator, or assignee of any such motor carrier, and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

APPENDIX I—LIST OF COMMODITY GROUPS AND CLASSES

GROUP I—PRODUCTS OF AGRICULTURE

Class
1. Wheat.
3. Corn.
5. Sorghum grains.
7. Oats.
9. Barley and rye.
11. Rice.
13. Grain, n. o. s.
15. Flour, wheat.
17. Meal, corn.
19. Flour, edible, n. o. s.
21. Cereal food preparations, n. o. s.
23. Mill Products, n. o. s.
25. Hay.
27. Straw.
29. Tobacco, unmanufactured.
31. Tobacco siftings, sweepings, and waste.
33. Cotton in bales.
35. Cotton linters, nolls, and regins.
37. Cottonseed.
39. Cottonseed oil cake and meal.
41. Cottonseed hulls and bran.
43. Soybeans.
45. Soybean oil cake and meal.
47. Vegetable and nut oil cake and meal, n. o. s.
49. Apples, fresh, not frozen.
51. Bananas, fresh.
53. Berries, fresh, not frozen.
55. Cantaloupes and melons, n. o. s.
57. Grapes, fresh.
59. Lemons, limes, and citrus fruits, n. o. s.
61. Oranges and grapefruit.
63. Peaches, fresh, not frozen.
65. Pears, fresh, not frozen.
67. Watermelons.
69. Fruits, fresh, n. o. s., not frozen.
71. Fruits, dried, dehydrated, and evaporated, n. o. s.
73. Fruits and berries, fresh, frozen.
75. Coffee.
77. Cabbage.
79. Celery.
81. Lettuce.
83. Onions, dry.
85. Potatoes, other than sweet.
87. Tomatoes.
89. Vegetables, fresh, n. o. s., not frozen.
91. Beans and peas, dried.
93. Vegetables, dried, dehydrated, and evaporated, n. o. s.
95. Vegetables, fresh, frozen.
97. Peanuts.
101. Sugar beets.
103. Malt, n. o. s.
105. Flaxseed.
107. Seeds, n. o. s.
199. Products of agriculture, n. o. s.
(900) Total Products of Agriculture.

GROUP II—ANIMALS AND PRODUCTS

201. Horses, mules, ponies and asses.
203. Cattle and calves, single-deck.

GROUP II—ANIMALS AND PRODUCTS—continued

Class
205. Calves, double-deck.
207. Sheep and goats, single-deck.
209. Sheep and goats, double-deck.
211. Swine, single-deck.
213. Swine, double-deck.
215. Meats, fresh, n. o. s.
217. Meats, cooked, cured, dried, and smoked.
219. Packing house products, edible, n. o. s.
221. Margarine, n. o. s.
223. Poultry, live.
225. Poultry, dressed and frozen.
227. Eggs.
229. Butter.
231. Cheese.
233. Dairy products, n. o.s.
235. Wool and mohair in grease.
237. Wool and mohair, n. o. s.
239. Hides, skins, and pelts, n. o. s.
241. Leather, n. o. s.
243. Sea food, n. o. s.
245. Fish and sea animal oil.
299. Animals and products, n. o. s.
(910) Total Animals and Products.

GROUP III—PRODUCTS OF MINES

301. Anthracite coal, n. o. s.
303. Anthracite coal to breakers and washeries.
305. Bituminous coal.
307. Coke.
309. Iron ore.
311. Aluminum ore and concentrates.
313. Copper ore and concentrates.
315. Lead ore and concentrates.
317. Zinc ore and concentrates.
319. Ores and concentrates, n. o. s.
321. Barytes.
323. Clay and bentonite.
325. Sand, industrial.
327. Gravel and sand, n. o. s.
329. Stone and rock: Broken, ground, and crushed.
331. Fluxing stone and raw dolomite.
333. Stone, rough, n. o. s.
335. Stone, finished, n. o. s.
337. Petroleum, crude.
339. Asphalt.
341. Salt.
343. Phosphate rock.
345. Sulphur.
399. Products of mines, n. o. s.
(920) Total Products of Mines.

GROUP IV—PRODUCTS OF FORESTS

401. Logs, butts, and bolts.
403. Posts, poles, and piling, wooden.
405. Wood, fuel.
407. Ties, railroad.
409. Pulpwood.
411. Lumber, shingles, and lath.
413. Box, crate, and cooperage materials.
415. Veneer, plywood, and built-up wood.
417. Rosin and turpentine.
499. Products of Forests, n. o. s.
(930) Total Products of Forests.

GROUP V—MANUFACTURES AND MISCELLANEOUS

501. Gasoline.
503. Fuel, road, and petroleum residual oils, n. o. s.
505. Lubricating oils and greases.
507. Petroleum products, refined, n. o. s.
509. Gases, other than petroleum, n. o. s.
511. Cottonseed oil.
513. Linseed oil.
515. Soybean oil.
517. Vegetable and nut oils, n. o. s.
519. Oils, n. o. s.
521. Oil foots, sediment, and tank bottoms.
523. Rubber, crude, natural, and synthetic.
525. Rubber goods, n. o. s.

GROUP V—MANUFACTURES AND MISCELLANEOUS—continued

Class
527. Chemicals, n. o. s.
529. Sulphuric acid.
531. Acids, n. o. s.
533. Sodium (soda) products.
535. Alcohol, n. o. s.
537. Blacks, n. o. s.
539. Fertilizers, n. o. s.
541. Insecticides and fungicides, n. o. s.
543. Tar, pitch, and creosote.
545. Tanning material, n. o. s.
547. Paint, paint material, putty, and varnish.
549. Plastics.
551. Cellulose articles, n. o. s.
553. Drugs, medicines, and toilet preparations.
555. Aluminum: Bar, ingot, pig, and slab.
557. Aluminum, n. o. s.
559. Copper: Ingot, matte, and pig.
561. Copper, brass, and bronze, n. o. s.
563. Lead and zinc: Bar, ingot, and pig.
565. Lead and zinc, n. o. s.
567. Magnesium metal and alloy.
569. Alloys for steel manufacture.
571. Metals and alloys, n. o. s.
573. Iron, pig.
575. Iron and steel: Billet, bloom, and ingot.
577. Iron and steel: Bar, rod, and slab.
579. Iron and steel, n. o. s.
581. Iron and steel nails and wire (woven and not woven), n. o. s.
583. Manufactured iron and steel.
585. Cast iron pipe and fittings.
587. Iron and steel pipe and fittings, n. o. s.
589. Tanks, n. o. s.
591. Agricultural implements, n. o. s.
593. Agricultural implement parts, n. o. s.
595. Machinery and machines, n. o. s.
597. Machinery parts.
601. Business and office machines, n. o. s.
605. Railway equipment, S. U., not moved on own wheels.
607. Railway equipment parts.
609. Rails and railway track material, iron and steel.
611. Vehicles, other than motor.
613. Automobiles, passenger.
615. Automobiles, freight.
617. Vehicles, motor, n. o. s.
619. Military vehicles, n. o. s.
621. Automobiles and autotrucks, K. D.
623. Vehicle parts, n. o. s.
625. Airplanes, aircraft, and parts.
627. Tires and tubes, rubber.
629. Guns, small arm, and parts, n. o. s.
631. Ammunition and explosives.
633. Cement: Natural and Portland.
635. Cement, n. o. s.
637. Brick, common.
639. Brick, n. o. s., and building tile.
641. Refractories.
643. Artificial stone, n. o. s.
645. Lime, n. o. s.
647. Plaster: Stucco and wall.
649. Sewer pipe and drain tile (not metal).
651. Broken or ground brick, blocks, crockery, and glass.
653. Woodpulp.
655. Scrap paper and rags.
657. Newsprint paper.
659. Printing paper, n. o. s.
661. Wrapping paper.
663. Paper bags.
665. Paper and paper articles, n. o. s.
667. Printed matter, n. o. s.
669. Paperboard, fibreboard, and pulpboard.
671. Wallboard.
673. Building paper and prepared roofing material.
675. Insulating materials, n. o. s.

GROUP V—MANUFACTURES AND MISCELLANEOUS—continued

Class
677. Building woodwork and millwork.
679. Building materials, n. o. s.
681. Buildings and houses, fabricated and portable, n. o. s.
683. Asbestos articles, n. o. s.
685. Electrical equipment and parts, n. o. s.
687. Furnaces, heaters, radiators, and parts.
689. Bathroom and lavatory fixtures and sinks.
691. Hardware, n. o. s.
693. Glass.
695. Glassware, n. o. s.
697. Glass bottles, jars, and packing glasses, n. o. s.
701. Chinaware, crockery, and earthenware.
703. Woodenware.
705. Household utensils, n. o. s.
707. Refrigerators, freezing apparatus and parts.
709. Laundry equipment.
711. Stoves, ranges, and parts.
713. Floor covering.
715. Furniture, n. o. s.
717. Furniture parts.
719. Tools and parts, n. o. s.
721. Abrasives, other than crude.
723. Bagging: Burlap, cotton, gunny, and jute, n. o. s.
725. Bags: Burlap, cotton, gunny, and jute, n. o. s.
727. Cotton cloth and cotton fabrics, n. o. s.
729. Cotton factory products.
731. Synthetic fibre and yarns (rayon or nylon).
733. Cloth and fabrics, n. o. s.
735. Rope, cordage, and binder twine, n. o. s.
737. Boots, shoes, and findings, n. o. s.
739. Luggage and handbags, n. o. s.
741. Athletic, gymnasium, playground, and sporting equipment, n. o. s.
743. Games and toys.
745. Liquors, alcoholic, n. o. s.
747. Wine.
749. Liquors, malt.
751. Beverages, n. o. s.
753. Ice.
755. Sirup and molasses, refined.
757. Molasses, residual.
759. Sugar.
761. Candy and confectionery.
763. Food products, n. o. s., in cans and packages, not frozen.
765. Food products, n. o. s., frozen.
767. Starch.
769. Soap and cleaning and washing compounds.
771. Matches.
773. Feed, animal and poultry, n. o. s.
775. Manufactured tobacco, n. o. s.
777. Cigarettes.
779. Containers, metal.
781. Containers, wooden.
783. Containers, fibreboard and paperboard, K. D.
785. Containers, n. o. s.
787. Containers, returned empty.
789. Scrap iron and scrap steel.
791. Iron and steel borings, turnings, etc.
793. Furnace slag.
795. Waste materials for remelting, n. o. s.
797. Waste materials, n. o. s.
799. Manufactures and miscellaneous, n. o. s.
(940) Total Manufactures and Miscellaneous.

GROUP VI—FORWARDER TRAFFIC

950. Forwarder Traffic.
(960) Grand Total Truckload Traffic.

[F. R. Doc. 55-10269; Filed, Dec. 21, 1955; 8:52 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

United States Coast Guard

[33 CFR Parts 140, 142, 143, 144, 145, 146]

[CGFR 55-53]

ARTIFICIAL ISLANDS AND FIXED STRUCTURES ON THE OUTER CONTINENTAL SHELF

PUBLIC HEARING ON PROPOSED REGULATIONS

1. The Merchant Marine Council will hold a public hearing on Monday, January 23, 1956, commencing at 9:30 a. m., in Room 4120, Coast Guard Headquarters, Thirteenth and E Streets NW., Washington, D. C., for the purpose of receiving comments, views, and data on proposed regulations which provide requirements with respect to safety of life and property on artificial islands and fixed structures used directly or indirectly in connection with the exploration, testing, drilling, production, storage, etc., of natural resources of the subsoil and seabed of the outer continental shelf. The regulations proposed will apply to both mobile and built-up platforms, whether manned or unmanned, and whether or not serviced by attending vessels.

2. Reasonable Coast Guard regulations with respect to lights and other warning devices, safety equipment, and other matters relating to the promotion of safety of life and property on the artificial islands and fixed structures located on the outer continental shelf, or on the waters adjacent thereto, are authorized under section 4 (e) of the Outer Continental Shelf Lands Act, approved August 7, 1953 (43 U. S. C. 1333).

3. The proposed regulations do not apply to (a) the operating equipment used or employed on artificial islands or fixed structures, and (b) the methods and operations used in the drilling, producing, or transporting by pipe lines of natural resources from the subsoil or seabed of the outer continental shelf. The proposed requirements regarding lights and warning devices will be added to the regulations in Subchapter C—Aids to Navigation in 33 CFR Chapter I at a later date.

4. The proposed regulations are based on discussions, comments, views, and data considered at informal conferences and meetings held by the Coast Guard with various persons and organizations interested in safety of life and property on the artificial islands and fixed structures located on the outer continental shelf. These requirements will be subject to change from time to time as it may be deemed necessary. The regulations when prescribed by the Commandant will supersede all interim requirements, instructions, or informal arrangements applying to the same subjects as covered in the regulations.

5. Copies of these proposed regulations will be mailed to persons and organizations who have expressed an active interest in this subject. Copies may also be obtained upon request from the Commandant (CMC), United States Coast Guard, Washington 25, D. C., so long as they are available. After the extra copies for distribution are exhausted, copies will be available for reading purposes only in Room 4104, Coast Guard Headquarters, or at the offices of the various Coast Guard District Commanders.

6. Comments on the proposed regulations are invited. Written comments containing constructive criticisms, suggestions, or views are welcomed; however, acknowledgment of the comments received or reasons why the suggested changes were or were not adopted will not be made. Each oral or written comment is considered and evaluated. If it is believed the comment, view, or suggestion clarifies or improves the proposed regulation, it is changed accordingly. After adoption of regulations by the Commandant they are published in the FEDERAL REGISTER. Each person who desires to submit written comments, data, or views in connection with the proposed regulations should submit them so that they will be received prior to January 20, 1956, by the Commandant (CMC), United States Coast Guard, Washington, D. C. Comments, data, or views may be also presented orally or in writing at the hearing before the Merchant Marine Council on January 23, 1956. In order to insure consideration of comments and to facilitate checking and recording it is essential that each comment regarding a section or paragraph of the proposed regulations be submitted on Form CG-3287, showing the section number, paragraph designation (if any), the proposed change, the reason or basis (if any), and the name, business firm or organization (if any), and the address of the submitter. Copies may be obtained upon request from the Commandant (CMC), or from any Coast Guard District Commander.

7. By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 167-15, dated January 3, 1955, and 167-17, dated June 29, 1955 (20 F. R. 840, 4976), it is proposed to publish regulations with respect to artificial islands and fixed structures located on the outer continental shelf to read as follows:

Subchapter N—Artificial Islands and Fixed Structures on the Outer Continental Shelf

PART 140—GENERAL PROVISIONS

SUBPART 140.01—AUTHORITY AND PURPOSE

Sec.
140.01-1 Purpose of regulations.
140.01-5 Assignment of functions.

SUBPART 140.05—APPLICATION

140.05-1 Artificial islands and fixed structures.
140.05-5 Scope of requirements.
140.05-10 Effective date of regulations.
140.05-15 Amendments or additions to regulations.
140.05-20 Separability of regulations.

SUBPART 140.10—DEFINITIONS OF TERMS USED IN THIS SUBCHAPTER

Sec.
140.10-1 Approved.
140.10-5 Artificial island or fixed structure.
140.10-10 Attending vessel.
140.10-15 Coast Guard District Commander.
140.10-20 Commandant.
140.10-25 Manned platform.
140.10-30 Mobile platform.
140.10-35 Officer in Charge, Marine Inspection.
140.10-40 Party.
140.10-45 Unmanned platform.

SUBPART 140.15—EQUIVALENTS AND APPROVED EQUIPMENT

140.15-1 Conditions under which equivalents may be used.
140.15-5 Equipment of an approved type.

SUBPART 140.20—ENFORCEMENT

140.20-1 Responsibility for enforcement.
140.20-5 Penalty.

SUBPART 140.25—APPEALS AND JUDICIAL REVIEW

140.25-1 Right of appeal.
140.25-5 Judicial review.

AUTHORITY: §§ 140.01-1 to 140.25-5 issued under sec. 1, 63 Stat. 545, 14 U. S. C. 633. Interpret or apply sec. 4, 67 Stat. 462; 43 U. S. C. 1333.

SUBPART 140.01—AUTHORITY AND PURPOSE

§ 140.01-1 *Purpose of regulations.* (a) The regulations in this subchapter are requirements with respect to safety equipment and other matters relating to the promotion of safety of life and property on the artificial islands and fixed structures located on the outer continental shelf.

(b) These provisions are established to implement section 4 (e) (1) of the Outer Continental Shelf Lands Act (sec. 4, 67 Stat. 462; 43 U. S. C. 1333), which reads as follows:

> The head of the Department in which the Coast Guard is operating shall have authority to promulgate and enforce such reasonable regulations with respect to lights and other warning devices, safety equipment, and other matters relating to the promotion of safety of life and property on the islands and structures referred to in subsection (a) or on the waters adjacent thereto, as he may deem necessary.

§ 140.01-5 *Assignment of functions.* (a) The Secretary of the Treasury by Treasury Department Order 167-15, dated January 3, 1955, and Treasury Department Order 167-17, dated June 29, 1955 (20 F. R. 820, 4976), delegated to the Commandant, U. S. Coast Guard, the authority to prescribe regulations and to administer the functions described in section 4 (e) of the Outer Continental Shelf Lands Act (43 U. S. C. 1333).

SUBPART 140.05—APPLICATION

§ 140.05-1 *Artificial islands and fixed structures.* (a) This subchatper shall be applicable to all artificial islands and fixed structures located on the outer continental shelf which are directly or indirectly used in connection with the exploration, production, storage, etc. (including drilling and testing), of natural resources of the subsoil and seabed of the outer continental shelf. The phrase "artificial islands and fixed structures" includes both mobile and built-up platforms, whether manned or unmanned, and whether or not attended or serviced by vessels. The term "natural resources" includes oil, gas, petroleum, minerals, etc., which may be removed from the subsoil and seabed of the outer continental shelf.

§ 140.05-5 *Scope of requirements.* (a) This subchapter pertains to special safety construction features required, emergency equipment, lifesaving appliances, fire-fighting equipment, emergency operation procedures, and special inspections thereof by the Coast Guard. These requirements will be enforced after construction or erection of the artificial islands or fixed structures is completed.

(b) The lights and warning devices required for artificial islands and fixed structures shall be provided and maintained in accordance with requirements now in effect or which may hereafter be established in Parts 60 to 76, inclusive (Subchapter C—Aids to Navigation), of this chapter. The vessels in attendance shall display lights and signals in accordance with the Regulations for Preventing Collisions at Sea, 1948, or the local rules established in accordance with Rule 30 thereof, as appropriate.

(c) The regulations in this subchapter shall not apply to operating equipment used and employed, nor to the methods and operations used in the drilling for and the production of oil, gas, petroleum, or other subsoil minerals, nor to the transportation thereof by pipeline.

§ 140.05-10 *Effective date of regulations.* (a) The regulations in this subchapter shall become effective on and after July 1, 1956. These requirements shall supersede all interim instructions or temporary requirements issued which are in conflict therewith.

§ 140.05-15 *Amendments or additions to regulations* (a) The right is reserved to alter, amend, cancel, or add to the regulations in this subchapter. However, any additions, cancellations, or amendments shall not be retroactive in effect unless specifically provided for at the time and a reasonable period for compliance will be permitted. Except in an emergency, ninety days will be allowed before amendments or new requirements will become effective.

§ 140.05-20 *Separability of regulations.* If any provision of the regulations in this subchapter, or the application of such provision to any person, firm, company, or corporation, or to any artificial island or fixed structure, shall be held invalid, the validity of the remainder of the regulations in this subchapter and the applicability of such provisions shall not be affected thereby.

SUBPART 140.10—DEFINITIONS OF TERMS USED IN THIS SUBCHAPTER

§ 140.10-1 *Approved.* This term means approved by the Commandant unless otherwise stated.

§ 140.10-5 *Artificial island or fixed structure.* This term means a building or platform secured to the seabed by fixed means or submerged onto the seabed so that for all practical purposes it becomes stationary. This includes both mobile and built-up platforms.

§ 140.10-10 *Attending vessel.* This term means a vessel moored close to and readily accessible to an artificial island or fixed structure, which is especially adapted to providing power, fuel, and/or other services pertaining to the operation being conducted on such artificial island or fixed structure.

§ 140.10-15 *Coast Guard District Commander.* This term means an officer of the Coast Guard designated as such by the Commandant to command all Coast Guard activities within a particular Coast Guard district, which includes the inspections, enforcement, and administration of regulations governing artificial islands and fixed structures located on the outer continental shelf.

§ 140.10-20 *Commandant.* This term means the Commandant of the Coast Guard.

§ 140.10-25 *Manned platform.* This term means an artificial island or fixed structure which, after completion of erection, is actually and continuously occupied by persons living and accommodated thereon.

§ 140.10-30 *Mobile platform.* This term means an artificial island or fixed structure, which includes as an integral part of itself features which permit it to be moved as an entity from position to position and to be fixed to or submerged onto the seabed.

§ 140.10-35 *Officer in Charge, Marine Inspection.* This term means any person from the civilian or military branch of the Coast Guard designated as such by the Commandant, and who, under the superintendence of the Coast Guard District Commander is in charge of a marine inspection zone, shall be immediately responsible for the performance of duties with respect to inspections, enforcement, and administration of regulations governing artificial islands and fixed structures.

§ 140.10-40 *Party.* This term means a person, firm, company, or corporation. This includes the owner of the artificial island or fixed structure, his agent, and the person in charge of an artificial island or fixed structure.

§ 140.10-45 *Unmanned platform.* This term means an artificial island or fixed structure which is not a manned platform. This includes an artificial island or fixed structure which is continuously serviced by an attending vessel.

SUBPART 140.15—EQUIVALENTS AND APPROVED EQUIPMENT

§ 140.15-1 *Conditions under which equivalents may be used.* (a) The use of alternate equipment, apparatus, or arrangements for those specified in this subchapter may be permitted by the Commandant to such extent and upon conditions as will insure a degree of safety comparable to or above the minimum standards set in this subchapter.

§ 140.15-5 *Equipment of an approved type.* (a) Where equipment in this subchapter is required to be of an approved type, such equipment requires the specific approval of the Commandant. Such approvals are published in the Federal Register and in addition are contained in Coast Guard publication CG-190, "Equipment Lists."

(b) Specifications for many of the items required to be of an approved type have been prescribed by the Commandant and are contained in Parts 160 to 164, inclusive, in Subchapter Q—Specifications in 46 CFR Chapter I. In general such specifications are of interest only to the manufacturer of specific items of equipment.

SUBPART 140.20—ENFORCEMENT

§ 140.20-1 *Responsibility for enforcement.* (a) The Coast Guard District Commander has general responsibility for and superintendence over the inspections, enforcement, and administration of the regulations in this subchapter within his assigned district. The authority to perform this work is hereby delegated to the Coast Guard District Commander and he may redelegate this authority as necessary to any person from the civilian or military branch of the Coast Guard.

(b) Except with respect to requirements regarding aids to navigation provided for in paragraph (c) of this section, it is the responsibility of the Officer in Charge, Marine Inspection, within his marine inspection zone, to perform or have performed the inspections, enforcement, and administration of the regulations in this subchapter. The authority to perform this work under the superintendence of the Coast Guard District Commander is hereby delegated to the Officer in Charge, Marine Inspection, and he may redelegate this authority as necessary to any person from the civilian or military branch of the Coast Guard.

(c) With respect to requirements regarding aids to navigation for artificial islands and fixed structures, the Coast Guard District Commander has responsibility of performing or having performed the inspections, enforcement, and administration of such regulations, which are or may be required. The authority to perform this work is hereby delegated to the Coast Guard District Commander and he may redelegate this authority as necessary to any person from the civilian or military branch of the Coast Guard.

§ 140.20-5 *Penalty.* (a) The penalty for any violation of the regulations in this subchapter is in section 4 (e) (2) of the Outer Continental Shelf Lands Act (43 U. S. C. 1333) and reads as follows:

> Any person, firm, company, or corporation who shall fail or refuse to obey any of the lawful rules and regulations issued hereunder shall be guilty of a misdemeanor and shall be fined not more than $100 for each offense. Each day during which such violation shall continue shall be considered a new offense.

(b) The Coast Guard does not have any authority to assess, mitigate, or remit a fine incurred with respect to any violation of the regulations in this subchapter. With respect to deficiencies in equipment required by this subchapter, the owner or his agent or the person in charge will be informed in writing of any violation incurred and will be given a reasonable period of time in which to correct the deficiency. By "reasonable period of time" is meant as soon as practicable.

SUBPART 140.25—APPEALS AND JUDICIAL REVIEW

§ 140.25–1 *Right of appeal.* (a) Any party interested in or aggrieved by any decision or action of the Officer in Charge, Marine Inspection, may appeal therefrom to the Coast Guard District Commander of the district in which the action or decision was made. A further appeal may be made to the Commandant, U. S. Coast Guard, from the decision of the District Commander. Any party interested in or aggrieved by any decision or action of the Coast Guard District Commander may appeal therefrom to the Commandant, U. S. Coast Guard.

(b) Appeals from decisions or actions of the Officer in Charge, Marine Inspection, to the Coast Guard District Commander shall be made in writing within 30 days after the decisions or actions appealed from shall have been rendered or taken. Such an appeal shall set forth the decision or action appealed from and the reasons why the decision or action should be set aside or revised. Appeals from the decisions or actions of the Coast Guard District Commander to the Commandant shall be made in writing within 30 days after the decisions appealed from shall have been rendered.

(c) Pending the determination of the appeal the initial decision or action of the Officer in Charge, Marine Inspection, or the initial decision or action of the Coast Guard District Commander shall remain in effect. The decision of the Commandant is final.

§ 140.25–5 *Judicial review.* Nothing in this subchapter shall be so construed as to prevent any party from seeking a judicial review of the regulations in this subchapter or any decision or action taken pursuant thereto. Section 4 (b) of the Outer Continental Shelf Lands Act (43 U. S. C. 1333) provides that United States district courts shall have original jurisdiction of cases and controversies arising under this act.

PART 142—INSPECTIONS

Sec.
142.01 Application.
142.05 Inspection requirements.
142.10 Scope of inspections.
142.15 Deficiencies.
142.20 Authority to perform inspections.

AUTHORITY: §§ 142.01 to 142.20 issued under sec. 1, 63 Stat. 545, 14 U. S. C. 633. Interpret or apply sec. 4, 67 Stat. 462; 43 U. S. C. 1333.

§ 142.01 *Application.* The provisions of this part shall apply to all artificial islands and fixed structures located on the outer continental shelf.

§ 142.05 *Inspection requirements.* The Officer in Charge, Marine Inspection, will perform, or have performed, the inspections of artificial islands or fixed structures within his area of jurisdiction to determine that the requirements in this subchapter are met. These inspections will be at such time or times as he may deem necessary.

§ 142.10 *Scope of inspections.* In the inspection of an artificial island or a fixed structure, the person assigned will inspect the lifesaving appliances, firefighting equipment, emergency equipment, observe emergency drills (if necessary), and otherwise satisfy himself that all provisions of the regulations in this subchapter have been complied with and that the emergency equipment is in good condition and satisfactory in every respect.

§ 142.15 *Deficiencies.* Any deficiency will be reported to the owner. The owner shall have the deficiency corrected as soon as practical. Any equipment required by the regulations in this subchapter found to be deficient or unsatisfactory by the person performing an inspection will be condemned. Such condemned equipment shall be repaired or replaced as soon as practical. Condemned lifesaving or fire-fighting equipment, which cannot be satisfactorily repaired, shall be so mutilated that it cannot be used for the purpose for which it was originally intended.

§ 142.20 *Authority to perform inspections.* Persons assigned to this work may at any time lawfully inspect an artificial island or fixed structure.

PART 143—CONSTRUCTION AND ARRANGEMENT

SUBPART 143.01—GENERAL

Sec.
143.01–1 Application.
143.01–5 Scope of requirements.

SUBPART 143.05—MEANS OF ESCAPE

143.05–1 Types.
143.05–5 Manned platform.
143.05–10 Unmanned platform.

SUBPART 143.10—PERSONNEL LANDINGS

143.10–1 Manned platforms.
143.10–5 Illumination.

SUBPART 143.15—GUARDS AND RAILS

143.15–1 Floor or deck areas and openings.
143.15–5 Catwalks and stairways.

AUTHORITY: §§ 143.01–1 to 143.15–5 issued under sec. 1, 63 Stat. 545, 14 U. S. C. 633. Interpret or apply sec. 4, 67 Stat. 462; 43 U. S. C. 1333.

SUBPART 143.01—GENERAL

§ 143.01–1 *Application.* The provisions of this part apply to all artificial islands and fixed structures.

§ 143.01–5 *Scope of requirements.* No requirements are established with respect to the construction and arrangement of artificial islands and fixed structures except as necessary to comply with safety requirements contained in this subchapter.

SUBPART 143.05—MEANS OF ESCAPE

§ 143.05–1 *Types.* Means of escape shall be fixed stairways or fixed ladders. They shall be constructed of metal and shall extend from the platform to the surface of the water at the low range tidal mark.

§ 143.05–5 *Manned platform.* At least two means of escape shall be provided for each manned platform.

§ 143.05–10 *Unmanned platform.* At least one means of escape shall be provided for each unmanned platform.

SUBPART 143.10—PERSONNEL LANDINGS

§ 143.10–1 *Manned platforms.* Sufficient personnel landings shall be provided on each manned platform to assure safe access and egress. When due to special construction personnel landings are not feasible, then suitable transfer facilities to provide safe access and egress shall be installed.

§ 143.10–5 *Illumination.* The personnel landings shall be provided with satisfactory illumination. The minimum shall be one-foot candle of artificial illumination as measured at the landing floor and guards and rails.

SUBPART 143.15—GUARDS AND RAILS

§ 143.15–1 *Floor or deck areas and openings.* (a) Except for helicopter landing decks which are provided for in paragraph (b) of this section, and areas not normally occupied, the unprotected perimeter of all floor or deck areas and openings shall be rimmed with guards and rails or wire mesh fence. The guard rail or fence shall be at least 42 inches high. The two intermediate rails shall be so placed that the rails are approximately evenly spaced between the guard rail and the floor or deck area: *Provided,* That if a toe board is installed then one of the intermediate rails may be omitted and the other rail placed approximately half way between the top of the toe board and the top guard rail.

(b) The unprotected perimeter of the helicopter landing deck shall be protected with a device of sufficient strength and size as to prevent any person from falling from such deck.

§ 143.15–5 *Catwalks and stairways.* Each catwalk and each stairway shall be provided with a suitable guard rail or rails, as necessary.

PART 144—LIFESAVING APPLIANCES

SUBPART 144.01—MANNED PLATFORMS

Sec.
144.01–1 Life floats.
144.01–5 Location and launching of life floats.
144.01–10 Equipment for life floats.
144.01–15 Alternates for life floats.
144.01–20 Life preservers.
144.01–25 Ring life buoys.
144.01–30 First-aid kit.
144.01–35 Litter.
144.01–40 Emergency communications equipment.

SUBPART 144.10—UNMANNED PLATFORMS

144.10–1 Life preservers.
144.10–5 Ring life buoys.
144.10–10 Other lifesaving appliances.

AUTHORITY: §§ 144.01–1 to 144.10–10 issued under sec. 1, 63 Stat. 545, 14 U. S. C. 633. Interpret or apply sec. 4, 67 Stat. 462; 43 U. S. C. 1333.

SUBPART 144.01—MANNED PLATFORMS

§ 144.01–1 *Life floats.* Each manned platform shall be provided with at least two approved life floats. The life floats shall have sufficient capacity to accommodate all persons present at any one time.

§ 144.01–5 *Location and launching of life floats.* The life floats shall be distributed in accessible locations and mounted on the outboard sides of the working platform in such a manner as to be readily launched.

§ 144.01–10 *Equipment for life floats.* (a) Each life float shall be provided with a painter. This painter shall be a manila rope, or equivalent, not less than 2¾ inches in circumference, and of a length not less than three times the distance from the low water line to the deck or place where the life float is stowed.

(b) An approved electric water light shall be provided for each life float. The water light shall be attached to the life float by a lanyard not less than one fathom nor more than two fathoms in length. The water light shall be mounted in a bracket so that when the life float is launched the water light will pull free of the bracket.

(c) Two paddles shall be provided for each life float. The paddles shall not be less than five feet nor more than six feet long. The paddles shall be stowed in such a way that they will be readily accessible from either side of the life float when in the water.

§ 144.01–15 *Alternates for life floats.* (a) Approved lifeboats or approved life rafts may be used in lieu of approved life floats, for either all or a part of the capacity required. When either lifeboats or life rafts are used approved means of launching will be required.

(b) The equipment required for a lifeboat is a bailer, boat hook, bucket, hatchet, lantern, life line, two life preservers, matches, full complement of oars and steering oar, painter, plug, and rowlocks, of the same type, kind, and character as required for lifeboats carried on vessels engaged in navigating bays, sounds, and lakes other than the Great Lakes, and rivers.

(c) The equipment required for a life raft is a boat hook, life line (if not a Type A life raft), full complement of oars and steering oar, painter, and rowlocks of the same type, kind, and character as required for life rafts carried on cargo and miscellaneous vessels navigating on bays, sounds, and lakes other than the Great Lakes.

§ 144.01–20 *Life preservers.* An approved adult life preserver shall be provided for each person on a manned platform. The life preservers shall be located in easily accessible places.

§ 144.01–25 *Ring life buoys.* (a) At least four approved ring life buoys shall be placed on each manned platform. One ring life buoy shall be placed in a suitable rack on each side of a manned platform in an accessible place. The ring life buoy shall always be capable of being cast loose, and shall not be permanently secured in any way.

(b) An approved electric water light shall be provided with each ring life buoy. The water light shall be attached to the ring life buoy by a lanyard not less than 3 feet nor more than 6 feet in length. The water light shall be mounted in a bracket near the ring life buoy so that when the ring life buoy is cast loose the water light will pull free of the bracket.

§ 144.01–30 *First-aid kit.* On each manned platform a first-aid kit approved by the Commandant or the U. S. Bureau of Mines shall be provided and kept in the custody of the supervisor.

§ 144.01–35 *Litter.* On each manned platform a Stokes litter shall be provided and kept in an accessible place.

§ 144.01–40 *Emergency communications equipment.* On manned platforms means of communication by radio and/or wire telephone shall be provided for contacting the shore or vessels in the vicinity for aid in the event of an emergency.

SUBPART 144.10—UNMANNED PLATFORMS

§ 144.10–1 *Life preservers.* On an unmanned platform an adult life preserver shall be provided for each person thereon while crews are working continuously on a 24-hour basis. The life preservers shall be located in easily accessible places.

§ 144.10–5 *Ring life buoys.* On an unmanned platform at least four approved ring life buoys shall be provided and kept thereon while crews are working continuously on a 24-hour basis. The requirements for stowage, arrangement, and approved electric water lights with brackets and lanyards in § 144.01–25 shall be met when ring life buoys are placed on unmanned platforms.

§ 144.10–10 *Other lifesaving appliances.* While life preservers and ring life buoys are the only lifesaving appliances required on unmanned platforms and then only when crews are continuously working on a 24-hour basis, if at other times lifesaving appliances are provided, the pertinent requirements in this part shall be met with respect to the type and character thereof.

PART 145—FIRE-FIGHTING EQUIPMENT

Sec.
145.01 Portable and semi-portable fire extinguishers.
145.05 Classification of fire extinguishers.
145.10 Locations and number of fire extinguishers required.

AUTHORITY: §§ 145.01 to 145.10 issued under sec. 1, 63 Stat. 545, 14 U. S. C. 633. Interpret or apply sec. 4, 67 Stat. 462; 43 U. S. C. 1333.

§ 145.01 *Portable and semi-portable fire extinguishers.* On all manned platforms and on all unmanned platforms where crews are continuously working on a 24-hour basis, approved type portable fire extinguishers and/or approved type semi-portable fire extinguishers shall be installed and maintained. On all unmanned platforms where crews are not continuously working on a 24-hour basis, approved type portable fire extinguishers and/or approved type semi-portable fire extinguishers shall be installed and maintained only when crews are working thereon.

§ 145.05 *Classification of fire extinguishers.* (a) Portable and semi-portable extinguishers shall be classified by a combination letter and number symbol. The letter indicating the type of fire which the unit could be expected to extinguish, and the number indicating the relative size of the unit.

(b) The types of fire will be designated as follows:

(1) "A" for fires in ordinary combustible materials where the quenching and cooling effects of quantities of water, or solutions containing large percentages of water, are of first importance.

(2) "B" for fires in flammable liquids, greases, etc., where a blanketing effect is essential.

(3) "C" for fires in electrical equipment where the use of a non-conducting extinguishing agent is of first importance.

(c) The number designations for size will start with "I" for the smallest to "V" for the largest. Sizes I and II are considered portable extinguishers. Sizes III, IV and V are considered semi-portable extinguishers which shall be fitted with suitable hose and nozzle or other practicable means so that all portions of the space concerned may be covered. Examples of size graduations for some of the typical portable and semi-portable extinguishers are set forth in Table 145.05 (c).

TABLE 145.05 (c)—PORTABLE AND SEMIPORTABLE EXTINGUISHERS

Classification type, size	Soda-acid and water, gallons	Foam, gallons	Carbon dioxide, pounds	Dry chemical, pounds
A-II	2½	2½	-------	-------
B-II	-------	2½	15	20
C-II	-------	-------	15	20
B-V	-------	40	50	-------

(d) All portable and semi-portable extinguishers shall have permanently attached thereto a durable name plate giving the name of the item, the rated capacity in gallons or pounds, the name and address of the person or firm for whom approved, and the identifying mark of the actual manufacturer.

§ 145.10 *Locations and number of fire extinguishers required.* (a) Approved portable and semi-portable extinguishers shall be installed in accordance with Table 145.10 (a).

TABLE 145.10 (a)—PORTABLE AND SEMIPORTABLE EXTINGUISHERS

Space	Classification	Quantity and location
SAFETY AREAS		
Communicating corridors	A–II	1 in each main corridor not more than 150 feet apart. (May be located in stairways.)
Radio room	C–II	1 in vicinity of exit.
ACCOMMODATIONS		
Sleeping accommodations	A–II	1 in each sleeping accommodation space. (Where occupied by more than 4 persons.)
SERVICES SPACES		
Galleys	B–II or C–II	1 for each 2,500 square feet or fraction thereof for hazards involved.
Storerooms	A–II	1 for each 2,500 square feet or fraction thereof located in vicinity of exits, either inside or outside of spaces.
MACHINERY SPACES		
Gas-fired boilers	B–II (CO_2 or dry chemical).	2 required.
Gas-fired boilers	B–V	1 required.[1]
Oil-fired boilers	B–II	2 required.
Oil-fired boilers	B–V	1 required.[1]
Internal combustion or gas turbine engines	B–II	1 for each engine.[2]
Electric motors or generators of open type	C–II	1 for each 2 motors or generators.[3]

[1] Not required where a fixed carbon dioxide system is installed.
[2] When installation is on weather deck or open to atmosphere at all times 1 B–II for each three engines is allowable.
[3] Small electrical appliances, such as fans, etc., shall not be counted or used as basis for determining number of extinguishers required.

(b) Semi-portable extinguishers shall be located in the open so as to be readily seen.

PART 146—OPERATIONS

SUBPART 146.01—SPECIAL OPERATING REQUIREMENTS

Sec.
146.01–1 Application.
146.01–5 Identification marks required.
146.01–10 Recording identification marks.
146.01–15 Maintenance of emergency equipment.
146.01–20 Casualty or accident report.
146.01–25 Authority of person in charge.

SUBPART 146.05—MANNED PLATFORMS

146.05–1 Application.
146.05–5 General alarm system.
146.05–10 Emergency signals.
146.05–15 Duties of personnel.
146.05–20 Manning of life floats, etc.
146.05–25 Emergency drills.
146.05–30 Station bill.
146.05–35 Markings for emergency equipment.

AUTHORITY: §§ 146.01–1 to 146.05–35 issued under sec. 1, 63 Stat. 545, 14 U. S. C. 633. Interpret or apply sec. 4, 67 Stat. 462; 43 U. S. C 1333.

SUBPART 146.01—SPECIAL OPERATING REQUIREMENTS

§ 146.01–1 *Application.* The provisions of this subpart apply to all artificial islands or fixed structures.

§ 146.01–5 *Identification marks required.* The owner or operator shall assign a name or number or other suitable designation to each artificial island and each fixed structure located on the outer continental shelf. This name or number or other suitable designation shall be permanently and conspicuously displayed on the artificial island or fixed structure so that it can be readily seen in clear visibility by vessels or aircraft.

§ 146.01–10 *Recording identification marks.* The owner or operator shall record the name or number or other suitable designation assigned each artificial island and each fixed structure with the Coast Guard District Commander having jurisdiction over the area in which it is located. This information is for identification purposes.

§ 146.01–15 *Maintenance of emergency equipment.* The emergency equipment provided, regardless of whether or not required by this subchapter, shall be maintained in good condition at all times. Good operating practices require replacement of expended equipment, as well as periodic renewal of those items which have a limited period of effectiveness, such as replacing charges in fire extinguishers, replacing batteries in electric water lights, etc.

§ 146.01–20 *Casualty or accident report.* (a) The owner, or his agent, or the person in charge, shall report as soon as possible to the Officer in Charge, Marine Inspection, having jurisdiction, whenever his artificial island or fixed structure is involved in a casualty or accident and any one or more of the following occur:

(1) If it is hit by a vessel and damage to property is in excess of $1,500.

(2) Damage to property in excess of $25,000.

(3) Material damage affecting the usefulness of life-saving or fire-fighting equipment.

(4) Loss of life.

(5) Injury causing any person to remain incapacitated for a period in excess of 72 hours, arising out of or being directly connected with the use or employment of any emergency equipment described in this subchapter.

(b) The written report, in narrative form, shall contain the name or number or other suitable designation assigned to the artificial island or fixed structure; the names and addresses of the owner, his agent (if any), operator (if any), and the person in charge; the nature and probable cause of the casualty or accident; the date and time the casualty or accident occurred, if known, otherwise approximately when it occurred; details of damage incurred, especially with respect to lifesaving and fire-fighting equipment; the nature and extent of injury to any person; names and addresses of persons involved; and other comments, especially with respect to use or need for emergency equipment.

§ 146.01–25 *Authority of person in charge.* In case an emergency arises, nothing in the regulations in this subchapter shall be so construed as preventing the person in charge from pursuing the most effective action in his judgment for rectifying the conditions causing the emergency.

SUBPART 146.05—MANNED PLATFORMS

§ 146.05–1 *Application.* The provisions of this subpart apply only to manned platforms.

§ 146.05–5 *General alarm system.* Each manned platform shall be provided with a general alarm system. When operated, this system shall be audible in all parts of the manned platform on which provided.

§ 146.05–10 *Emergency signals.* The owner, or his agent, or the person in charge, shall establish emergency signals to be used for calling the personnel to their emergency stations. The abandon platform signal shall be an intermittent signal on the general alarm system, and a signal on the fog horn for not less than 15 seconds. This signal should be supplemented by word of mouth warning.

§ 146.05–15 *Duties of personnel.* (a) The owner, or his agent, or the person in charge, shall assign to each person on a manned platform special duties and duty stations so that in event an emergency arises confusion will be minimized and no delay will occur with respect to the use or application of equipment required by this subchapter. The duties shall, as far as possible, be comparable with the regular work of the individual.

(b) The duties shall be assigned as necessary for the proper handling of any emergency, and shall include the following:

(1) The closing of airports, watertight doors, scuppers, sanitary and other discharges which lead through the platform's hull below the margin line, etc.

(2) The stopping of fans and ventilation systems.

(3) The donning of life preservers.

(4) The preparation and launching of life floats, lifeboats, or life rafts.

§ 146.05–20 *Manning of life floats, etc.* The owner, or his agent, or the person in charge, shall assign a person to each life float, lifeboat, or life raft, who shall be responsible for launching it in event of an emergency.

§ 146.05–25 *Emergency drills.* (a) Emergency drills shall be conducted at least once each month by the person actually in charge of the manned platform. The drill shall be conducted as if an actual emergency existed. All personnel should report to their respective stations and be prepared to perform the duties assigned to them.

(b) The person actually in charge and conducting the emergency drill shall give such instructions to the personnel as are necessary to insure that all persons are familiar with their duties and stations.

(c) The date and time of such drills shall be reported in writing by the person actually in charge at the time of the drill to the owner who shall maintain this report record for a year and furnish it upon request to the Coast Guard. After one year, such records may be destroyed. When it is impossible to conduct emergency drills as required by this section during a particular calendar month, during the following month a written report by the owner shall be submitted to the Officer in Charge, Marine Inspection, stating why the drills could not be conducted.

§ 146.05–30 *Station bill.* (a) The owner, his agent, and the person in charge, shall be responsible for and have prepared a station bill (muster list). This station bill must be signed by the person in charge. Copies shall be duly posted in conspicuous locations on the manned platform.

(b) The station bill shall set forth the special duties and duty stations of each member of the personnel for any emergency which involves the use or application of equipment required by this subchapter. In addition, it shall contain all other duties assigned and considered as necessary for the proper handling of any emergency.

(c) The station bill shall contain the various signals to be used for calling the personnel to their emergency stations, and to abandon platform.

§ 146.05–35 *Markings for emergency equipment.* (a) Markings shall be provided as considered necessary for the guidance of persons on manned platforms.

(b) The general alarm bell switches shall be identified by red letters at least one inch high with a contrasting background: "GENERAL ALARM."

(c) All general alarm bells shall be identified by a sign at each bell in red letters at least one inch high with a sharp contrasting background: "GENERAL ALARM—WHEN BELL RINGS GO TO YOUR STATION."

(d) All life floats, lifeboats, and life rafts, together with paddles or oars, shall be conspicuously marked with a name or number or identification of the artificial island or fixed structure on which placed. The number of persons allowed on each life float, lifeboat, or life raft shall be conspicuously marked thereon in letters and numbers 1½ inches high. These numbers shall be placed on both sides of the life float, lifeboat, or life raft.

(e) All life preservers and ring life buoys shall be marked with the name and number or identification of the manned platform on which placed.

Dated: December 19, 1955.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard,
Commandant.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Document 87]

ARIZONA

SMALL TRACT CLASSIFICATION 37

DECEMBER 15, 1955.

1. Pursuant to authority delegated by Document No. 43, Arizona, effective May 19, 1955 (20 F. R. 3514–15), the following described lands, which were classified by Document No. 51, Arizona, Small Tract Classification No. 37, dated June 15, 1955 (20 F. R. 4423), are hereby opened to lease and sale for residence and/or business sites under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

GILA AND SALT RIVER MERIDIAN

T. 1 N., R. 8 E.,
Sec. 14: SE¼;
Sec. 23: E½.

The lands described comprise 96 small tracts and contain a total of 480 acres.

2. The lands are located approximately 18 miles east of Mesa and 2½ miles east of Apache Junction. The climate is arid with an average annual precipitation of about 9 inches. The elevation is approximately 1,700 feet above sea level. The temperature varies from a high of about 115° F. in summer to a low of about 25° F. in winter. The soil is sandy and supports a fair vegetative cover including paloverde, mesquite, creosote, ocotillo, various species of cacti including saguaro and cholla, and a few annual weeds and grasses. Culinary water is not available from any known source but can be developed probably from wells at a depth of about 300 feet. Electric power is available from transmission lines from a distance of one to two miles.

3. (a) The individual tracts are all approximately five acres in size and rectangular in shape. The longer dimension may be either east and west or north and south, provided the tract is entirely within a rectangular ten acre sixty-fourth subdivision of a section.

(b) The purchase price of all tracts is $200.00 per tract.

(c) The advance three year rental for a residence tract is $30.00. The advance three year rental for a business tract is $60.00. However, if the gross business exceeds $2,000.00 per annum, the rental will be calculated in accordance with the schedule incorporated in the lease.

(d) Rights-of-way 33 feet in width for streets, roads and public utilities will be reserved on all section lines and quarter, sixteenth and sixty-fourth subdivision lines.

4. Leases will be issued for a term of three years and will contain an option to purchase in accordance with 43 CFR 257.13. Lessees who comply with general terms and conditions of their leases will be permitted to purchase their tracts at the appraised price provided that during the period of their leases they either, (a) construct the improvements specified in paragraph 5, or (b) file a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will not be renewable unless failure to construct the required improvements is justified under the circumstances and non-renewal would work an extreme hardship on the lessee. All mineral rights will be reserved to the United States.

5. To maintain their rights under their leases, lessees will be required to either, (a) construct substantial improvements on their lands, or (b) file a copy of an agreement with their neighbors binding them to construct substantial improvements on their lands. Such improvements must conform with health, sanitation and construction requirements of local ordinances and must, in addition meet the following standards:

A residence must be suitable for year round use, on a permanent foundation with a minimum of 500 square feet of floor space and of substantial construction to withstand the elements. It must be built in a workmanlike manner out of attractive materials and properly finished. Adequate disposal and sanitary facilities must be installed.

6. (a) Applicants must file, in duplicate, with the Manager, Land Office, 251 Main Post Office Building, Phoenix, Arizona, application Form 4–776 filled out in compliance with the instructions on the form and accompanied by any showings or documents required by those instructions. Copies of the application form can be secured from the above-named official.

(b) The applications must be accompanied by a filing fee of $10 plus the advance rental specified above. Failure to transmit these payments with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

7. (a) All valid applications filed prior to 10:15 a. m. June 15, 1955 will be granted the preference right provided by 43 CFR 257.5 (a).

(b) All valid applications from persons entitled to veterans' preference filed after 10:15 a. m. June 15, 1955 and prior to 10:00 a. m. January 20, 1956 will be considered as simultaneously filed at that time.

(c) All valid applications from persons entitled to veterans' preference filed after 10:00 a. m., January 20, 1956 will be considered in the order of filing.

(d) All valid applications from all other persons filed after 10:15 a. m.

June 15, 1955 and prior to 10:00 a. m. April 20, 1956 will be considered as simultaneously filed at that time.

(e) All valid applications filed after 10:00 a. m. April 20, 1956 will be considered in the order of filing.

8. Inquiries concerning these lands shall be addressed to the Manager, Arizona Land Office, Room 251 Main Post Office Building, Phoenix, Arizona.

E. R. TRAGITT,
State Lands and Minerals, Staff Officer.

OREGON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Bureau of Land Management has filed an application, Serial No. Oregon 04135, for the withdrawal of the lands described below, subject to valid existing rights and reservations, from all forms of appropriation under the public land laws, including the general mining laws and mineral leasing laws, except leasing under the Small Tract Act (52 Stat. 609) as amended; and lease and sale of vacant public lands for recreational purposes under the Recreation Act of June 14, 1926 (44 Stat. 741), as amended.

The applicant desires the withdrawal of the lands adjacent to the Rogue River and its tributaries to protect and preserve their scenic and recreational values from despoilation by any entry or application incompatible with those objectives. The proposed withdrawal affecting Oregon and California revested railroad lands will be consistent with the intent of the act of August 28, 1937 (50 Stat. 874), and the timber on such lands will be managed and disposed of in accordance with such act.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior: State Supervisor, P. O. Box 3861, Portland, Oregon.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

WILLAMETTE MERIDIAN, OREGON

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 14, 1955.

The United States Fish and Wildlife Service has filed an application, Serial No. Idaho 05080, for the withdrawal of the lands described below, from all forms of appropriation under the public-land laws, including the mining laws, but not the mineral leasing laws, and reserved under the jurisdiction of the Department of the Interior for use by the Department of Fish and Game of the State of Idaho in connection with the Bruneau Valley Wildlife Management Area, under such conditions as may be prescribed by the Secretary of the Interior.

The applicant desires the land to assure continued free public access to the backwaters of the C. J. Strike Dam for fishing and hunting.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determinaton of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 6 S., R. 5 E.,
Sec. 5, S½SW¼, SW¼SE¼;
Sec. 6, Lots 5, 6, E½SW¼, S½SE¼;
Sec. 7, W½NE¼, NE¼NW¼, NE¼SE¼;
Sec. 8, SW¼SW¼;
Sec. 9, NW¼NE¼, N½NW¼;
Sec. 10, SW¼NW¼, NE¼SW¼;
Sec. 14, NW¼NW¼;
Sec. 17, NW¼NE¼.

The areas described aggregate 850.47 acres.

The lands should be subject to the following stipulations:

1. That the withdrawing agency will not fence the area.

2. Grazing use and range management is to be administered by the Bureau of Land Management.

J. R. PENNY,
State Supervisor.

[F. R. Doc. 55-10237; Filed, Dec. 21, 1955; 8:46 a. m.]

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 13, 1955.

The United States Fish and Wildlife Service has filed an application, Serial No. Idaho 06677, for the withdrawal of the lands described below, from all forms of appropriation under the public-land laws, including the mining laws, but not the mineral leasing laws, and reserved under the jurisdiction of the Department of the Interior for use by the Department of Fish and Game of the State of Idaho in connection with the Star Lake Management Area, under such conditions as may be prescribed by the Secretary of the Interior.

The applicant desires the land for use by the State in connection with their acquired lands for development of food and cover for sagegrouse and pheasant.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 7 S., R. 19 E.,
Sec 3, SE¼SW¼, SW¼SE¼.

The area described aggregates 80.00 acres.

J. R. PENNY,
State Supervisor.

Bureau of Reclamation

MOUNTAIN HOME DIVISION; SNAKE RIVER PROJECT, IDAHO

ORDER OF REVOCATION

DECEMBER 30, 1954.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Order of April 30, 1951, in so far as said order affects the following-described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

BOISE MERIDIAN, IDAHO

T. 1 S., R. 1 W.,
Sec. 5, SW¼NW¼.

The above area aggregates 40 acres.

FLOYD E. DOMINY,
Acting Assistant Commissioner.

[61715]

DECEMBER 16, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The land is located about 1.8 miles easterly from Melba, Idaho. The topography is gently undulating, ranging in elevation from about 2,700 to 2,750 feet. The slopes are mainly southwesterly. The soil is of fine silt loams which as to some portions of the subdivision are beset with lava detritus.

No application for the land may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The land will not be subject to occupancy or disposition until it has been classified.

Subject to any valid existing rights and the requirements of applicable law, the land is hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or rights. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on January 21, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on April 21, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on April 21, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The land has been open to applications and offers under the mineral-leasing laws. It will be open to locations under the United States mining laws beginning at 10:00 a. m. on April 21, 1956.

Persons claiming veterans preference rights must enclose with their application proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlements, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries regarding the land shall be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Order 11]

DISTRICT DIRECTORS OF INTERNAL REVENUE

DELEGATION OF AUTHORITY TO ACCEPT CERTAIN OFFERS IN COMPROMISE

DECEMBER 2, 1955.

Pursuant to authority vested in me by Treasury Department Order No. 150–25, dated June 1, 1953, District Directors of Internal Revenue are hereby delegated authority to accept offers in compromise submitted under the provisions of section 3761 of the Internal Revenue Code of 1939, or section 7122 of the Internal Revenue Code of 1954, in cases in which the unpaid amount of the tax (including any interest, additional amount, addition to the tax, or assessable penalty) is less than $5,000, and in cases involving specific penalties, except that this delegation of authority is subject to the limitations contained in applicable regulations and procedures.

Effective date: December 2, 1955.

[SEAL] O. GORDON DELK,
Acting Commissioner.

[F. R. Doc. 55–10270; Filed, Dec. 21, 1955; 8:52 a. m.]

[Order 12]

ASSISTANT REGIONAL COMMISSIONER

DESIGNATION TO ACT AS REGIONAL COMMISSIONER AND AS DISTRICT DIRECTOR

DECEMBER 2, 1955.

1. The Regional Commissioner shall designate an Assistant Regional Commissioner to serve as Acting Regional Commissioner during any period of absence of the Regional Commissioner. If, however, the position of Regional Commissioner becomes vacant, the Commissioner will designate the employee who will serve as Acting Regional Commissioner.

2. In a District Office having an Assistant District Director, such Assistant will become Acting District Director in case of the absence, separation or death of the District Director, unless or until the Regional Commissioner designates another officer to serve as Acting District Director. In a district where there is no Assistant District Director, (a) the Regional Commissioner will designate the employee who becomes Acting District Director in case of the separation or death of the District Director, and (b) the District Director will designate the employee who will serve as Acting District Director in the absence of the District Director, unless or until the Regional Commissioner designates another officer to serve as Acting District Director.

3. Designations as Acting Regional Commissioner and Acting District Director shall be made a matter of record.

4. This order supersedes Commissioner's Reorganization Order No. 15, Amendment 1 (18 F. R. 7646), dated November 23, 1953.

Effective date: December 2, 1955.

[SEAL] GORDON DELK,
Acting Commissioner.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

UPLAND COTTON AND EXTRA LONG STAPLE COTTON

NOTICE OF REDELEGATION OF FINAL AUTHORITY OF STATE AGRICULTURAL STABILIZATION AND CONSERVATION COMMITTEES

Section 722.729 (b) of the Regulations Pertaining to Acreage Allotments for the 1956 Crop of Upland Cotton (20 F. R. 8247) and § 722.1328 (b) of the Regulations Pertaining to Acreage Allotments for the 1956 Crop of Extra Long Staple Cotton (20 F. R. 8621) issued pursuant to the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301–1376), provide that any authority delegated to a State Agricultural Stabilization and Conservation Committee by the regulations in §§ 722.717 to 722.729 (a), inclusive, and in §§ 722.1317 to 722.1328 (a), inclusive, may be redelegated by the State Committee. In accordance with section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002 (a)), which requires delegations of final authority to be published in the FEDERAL REGISTER, there are set out herein the redelegations of final authority which have been made by State Agricultural Stabilization and Conservation Committees of authority vested in such committees by the Secretary of Agriculture in the regulations referred to above. Shown below are the sections of the regulations in which such authority appears and the persons, designated by name or by title, to whom the authority has been redelegated:

ALABAMA

Section 722.717 (g)—B. L. Collins, State Administrative Officer.

Section 722.729 (a)—B. L. Collins, State Administrative Officer; and all ASC Farmer Fieldmen.

ARKANSAS

Section 722.729 (a)—All Program Specialists; and all ASC Farmer Fieldmen.

CALIFORNIA

Sections 722.729 (a) and 722.1328 (a)—J. T. Moody, Stanley L. Hill, and Main S. Wall.

FLORIDA

Sections 722.718 (f) (2) and 722.1318 (b)—State Administrative Officer or Acting State Administrative Officer.

Sections 722.729 (a) and 722.1328 (a)—State Administrative Officer or Acting State Administrative Officer; and all ASC Farmer Fieldmen.

GEORGIA

Section 722.717 (g)—State Administrative Officer.

Sections 722.729 (a) and 722.1328 (a)—State Administrative Officer; Chief, Program Operations Division; Chief, Audit and Statistical Division; Marketing Quota Specialist; and all ASC Farmer Fieldmen.

ILLINOIS

Sections 722.717 (b); 722.717 (e) (3) (ii) (*a*); 722.717 (g); 722.717 (j); 722.729 (a) and Sections 722.1317 (b); 722.1317 (e) (3) (ii) (*a*); 722.1317 (g); 722.1317 (j); 722.1328 (a)—Lloyd S. Martin, Program Assistant; and Winstead R. Davie, ASC Farmer Fieldman.

KENTUCKY

Sections 722.717 to 722.729 (a), inclusive, and Sections 722.1317 to 722.1328 (a), inclusive—The following members of the State Committee: Roy C. Gray, Ernest E. Bullock, Samuel F. Tuggle; W. L. Rouse, State Administrative Officer; the following Program Specialists: Roger H. Karrick, Roger W. Thomas, Homer V. Yonts; and Kenneth A. Grogan, ASC Farmer Fieldman.

LOUISIANA

Sections 722.718 (f) (2) and 722.729 (a)—Clarence E. Slack, State Administrative Officer; Joseph R. Bath, Program Specialist; Camille J. Clayton, ASC Farmer Fieldman; Lloyd A. Mullin, ASC Farmer Fieldman; Lewis L. Sanders, ASC Farmer Fieldman; Don L. Rockett, ASC Farmer Fieldman; Hugh F. Spencer, ASC Farmer Fieldman.

MISSISSIPPI

Sections 722.717 (b) and 722.717 (g)—State Administrative Officer or Acting State Administrative Officer.

Section 722.729 (a)—State Administrative Officer; Acting State Administrative Officer; Marketing Quota Specialist; all ASC Farmer Fieldmen; and all County Officer Auditors.

MISSOURI

Section 722.729 (a)—All ASC Farmer Fieldmen.

NEW MEXICO

Sections 722.717 (b); 722.717 (e) (3) (ii) (*a*); 722.717 (g); 722.717 (j); 722.718 (a); 722.718 (f) (2); 722.1317 (b); 722.1317 (e) (3) (ii) (*a*); 722.1317 (g); 722.1317 (j); and 722.1318 (b)—Dale H. Helsper, State Administrative Officer; and W. C. Hutchins, Jr., Program Specialist.

Sections 722.729 (a) and 722.1328 (a)—Dale H. Helsper, State Administrative Officer; W. C. Hutchins, Jr., Program Specialist; Theodore R. Baker, Assistant Program Specialist; and all ASC Farmer Fieldmen.

NEVADA

Sections 722.717 to 722.729 (a), inclusive—Ervin H. Christensen, Administrative Assistant.

NORTH CAROLINA

Sections 722.717 (b) and 722.717 (g)—H. C. Blaylock, Assistant Chief, Marketing Quota Section.

Section 722.729 (a)—A. P. Hassell, Jr., Chief, Administrative Division, and all ASC Farmer Fieldmen.

OKLAHOMA

Sections 722.717 to 722.729 (a), inclusive—Samuel A. Shelby, Chief, Program Specialist Staff; Marvin E. Taylor, Program Specialist, and all ASC Farmer Fieldmen.

TENNESSEE

Sections 722.717 to 722.729 (a), inclusive—Joe H. Maupin, State Administrative Officer; Joe D. Ramsey, Program Specialist; John E. Hudson, Program Specialist, and the following ASC Farmer Fieldmen: James G. Barrett, Foster E. Bradshaw, Charles L. Cole, John R. Collier, William H. Cross, Levie W. Dickerson, Ray E. Wilkinson, Joel Yeiser, Jr.

PUERTO RICO

Sections 722.1317 to 722.1328 (a), inclusive—G. Laguardia, Director, Caribbean Area Office; J. Capo-Caballero, Assistant Director, Caribbean Area Office; Alcides Zeno, Chief, ACP and District Offices Division.

TEXAS

Sections 722.729 (a) and 722.1328 (a)—H. H. Marshall, Program Specialist; E. F. Rollins, Program Specialist; O. C. Cowsert, Program Specialist; W. M. Hott, Administrative Assistant; Paul Johnson, Administrative Assistant; and C. H. Galloway, Administrative Assistant; and all ASC Farmer Fieldmen.

VIRGINIA

Section 722.729 (a)—W. T. Powers, State Administrative Officer; J. S. Shackleton, Jr., Program Specialist; and J. Parker Lambeth, Jr., Marketing Quota Specialist.

Issued at Washington, D. C., this 16th day of December 1955.

[SEAL] WALTER C. BERGER,
Acting Administrator.

Office of the Secretary

[Public Notice 145; Delegation of Authority 88]

DEPUTY UNDER SECRETARY FOR ECONOMIC AFFAIRS

DELEGATION OF AUTHORITY WITH RESPECT TO DUTIES AND FUNCTIONS

Pursuant to the authority vested in me by section 4 of the Act of May 26, 1949 (63 Stat. 111; 5 U. S. C. 151c), I hereby delegate to the Deputy Under Secretary for Economic Affairs of the Department of State, or in his absence to the officer designated to act for him, the performance of all the functions which the Secretary of State is authorized to perform pursuant to and under the authority of Section 25 (b) of the Federal Reserve Act, as amended (Act of December 23, 1913, ch. 6, section 25 (b), as added June 16, 1933, ch. 89, section 15, 48 Stat. 184, and amended April 7, 1941, ch. 43, section 2, 55 Stat. 131; 12 U. S. C. 632).

Delegation of Authority No. 69 dated August 12, 1953 (18 F. R. 4930, August 19, 1953), is hereby rescinded.

Dated: December 13, 1955.

[SEAL] JOHN FOSTER DULLES,
Secretary of State.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Return Order 268, Amdt.]

HELMUT LEGERLOTZ

In the matter of the claim of Helmut Legerlotz, Claim No. 6158, Vesting Order No. 2044.

Return Order No. 268, relative to Claim No. 6158 of Helmut Legerlotz, executed February 28, 1949, published March 3, 1949 (14 Fed. Reg. 973) is hereby amended as follows:

Under the heading "Property", the first paragraph is amended to read as follows: "$733,293.87 in the Treasury of the United States. Of this sum an amount of $48,317.94 will be retained pursuant to paragraph 6 (c) of the Memorandum of Understanding Between the Government of the United States of America and the Provisional Government of the French Republic Regarding Settlement for Lend-Lease, Reciprocal Aid, Surplus War Property, and Claims, effective May 28, 1946."

Executed at Washington, D. C., on December 15, 1955.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General, Director, Office of Alien Property.

[F. R. Doc. 55–10275; Filed, Dec. 21, 1955; 8:53 a. m.]

DEPARTMENT OF COMMERCE

Bureau of the Census

NOTICE OF DETERMINATION FOR SURVEYS

In conformity with the act of Congress approved August 31, 1954, 68 Stat. 1012, and due notice having been published (20 F. R. 8396, November 9, 1955), pursuant to said act, I have determined that annual data to be derived from the surveys listed below are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry and are not pub-

licly available from non-governmental or other government sources.

Report forms in most instances furnishing data on shipments and/or production and in some instances on stocks, unfilled orders, orders booked, consumption, etc., will be required of all establishments engaged in the production of the items covered by the following list of surveys with the exception of the Annual Survey of Manufactures which will be conducted on a sample basis and which calls for general statistical data such as employment, payroll, man-hours, capital expenditures, cost of materials consumed, etc., in addition to information on products shipped, and the lumber and household furniture surveys which will also be conducted on a sample basis.

Annual survey of manufactures.
Stocks of wool (as of April 1, 1956).
Cotton and synthetic woven goods finished.
Knit cloth.
Woolen and worsted machinery activity.
Gloves and mittens.
Apparel.
Shoes and slippers.
Softwood plywood.
Softwood veneer.
Red cedar shingles.
Hardwood plywood—Production by consuming company.
Hardwood veneer.
Lumber.
Household furniture and bedding products.
Paper and board—Detailed grade.
Inorganic chemicals and gases.
Refractories.
Pressed and blown glassware.
Steel mill products.
Aluminum foil converted.
Steel boilers.
Heating and cooking equipment.
Internal combustion engines.
Machine tools.
Metalworking machinery.
Tractors.
Farm machines and equipment.
Radios, television and phonographs.
Mechanical stokers.
Refrigeration equipment.
Office, computing, and accounting machines.

The following list of surveys represent annual counterparts of monthly, quarterly, and semi-annual surveys. The content of these annual reports will be identical with that of the monthly, quarterly, and semi-annual reports except for Construction Machinery which will additionally call for data on shipments of power cranes and shovels and off-highway type trucks. However, there will be no duplication inasmuch as establishments that file the monthly, quarterly, and semi-annual reports during the year covered by the annual report will not need to submit annual reports on these products.

Flour milling products.
Confectionery products.
Cotton broad woven goods.
Synthetic broad woven goods.
Wool consumption and stocks.
Woolen and worsted fabrics.
Tire cord and tire fabrics.
Hardwood plywood (for sale).
Pulp, paper, and board.
Consumers of wood pulp.
Superphosphate.
Paint, varnish, and lacquer.
Clay construction products.
Asphalt and tar roofing and siding products.
Glass containers.
Nonferrous castings.
Plumbing fixtures.
Steel shipping barrels, drums, and pails.
Commercial and home canning closures.
Metal cans.
Farm pumps.
Fans, blowers, and unit heaters.
Electric lamps.
Construction machinery (excavating and earthmoving).
Complete aircraft and aircraft engines.
Backlog of orders for aircraft companies.
Aircraft propellers.

Blank copies of the forms to be used are available on request to the Director of the Census, Washington 25, D. C.

I have, therefore, directed that annual surveys be conducted for the purpose of collecting the data hereinabove described.

Dated: December 15, 1955.

[SEAL] ROBERT W. BURGESS,
Director.

Approved:

SINCLAIR WEEKS,
Secretary of Commerce.

FEDERAL POWER COMMISSION

[Docket No. G-4932, etc.]

MIDSTATES OIL CORP. ET AL.

ORDER CONSOLIDATING PROCEEDINGS

In the matters of Midstates Oil Corporation, Docket No. G-4932; Seneca Development Company, Docket No. G-8616; Hassie Hunt Trust, Docket No. G-8618; Hunt Oil Company, Docket No. G-8619; H. L. Hunt, Docket No. G-8620; Nebo Oil Company, Docket No. G-8621; G. H. Vaughn, Docket No. G-8902; Sunray Oil Corporation, Docket No. G-8960; Cotton Valley Operators Committee, Docket No. G-9086; Woodley Petroleum Company, Docket No. G-9772.

The foregoing proceedings, except Woodley Petroleum Company (Woodley), Docket No. G-972, are consolidated and presently scheduled for hearing on January 16, 1956.

On December 14, 1955, the Commission, in Docket No. G-9772 suspended Woodley's Supplement No. 4 to its FPC Gas Rate Schedule No. 6, and provided for a hearng.

The proceedings involving Woodley, Docket No. G-9772, appear to involve many issues which are related to issues involved in the foregoing consolidated proceedings.

The Commission finds: the proceedings in all of the above-designated dockets should be consolidated for purposes of the hearing now scheduled to resume on January 16, 1956.

The Commission orders:

(A) Pursuant to the authority conferred by the Natural Gas Act, including particularly sections 4, 14, 15, and 16, the public hearing in the proceedings involving Woodley Petroleum Company, Docket No. G-9772, is hereby designated to commence at 10:00 a. m., e. s. t., on January 16, 1956, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., and such public hearing is hereby consolidated for purposes of hearing with the hearings of the proceedings in the other foregoing designated dockets now scheduled to resume hearing on January 16, 1956.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: December 14, 1955.

Issued: December 15, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-9772]

WOODLEY PETROLEUM CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Woodley Petroleum Company (Applicant), on November 23, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation and Effective Date[1]

Notice of Change, undated; Louisiana Nevada Transit Company; Supplement No. 4 to Applicant's FPC Gas Rate Schedule No. 6; December 24, 1955.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Applicant if later.

the appropriateness of any filing of a rate schedule and supplements thereto by Applicant in reference to deliveries of gas to Louisiana Nevada Transit Company since it does not appear that Applicant has signed any contract with Louisiana Nevada Transit Company for the sale of gas, and also enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon the date fixed by order of consolidation issued simultaneously herewith In the Matters of Midstates Oil Corporation, et al., Docket Nos. G-4932 et al., concerning the appropriateness of any filing of a rate schedule and supplements thereto by Applicant in reference to deliveries of gas to Louisiana Nevada Transit Company since it does not appear that Applicant has signed any contract with Louisiana Nevada Transit Company for the sale of gas, and also enter upon a hearing concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the same hereby is suspended and the use thereof deferred until May 24, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: December 14, 1955.

Issued: December 15, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-10246; Filed, Dec. 21, 1955; 8:48 a. m.]

[Docket No. G-9237]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 15, 1955.

Take notice that Northern Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at 2223 Dodge Street, Omaha, Nebraska, filed on August 17, 1955, an application for permission and approval pursuant to section 7 (b) of the Natural Gas Act to abandon certain facilities, as hereinafter described.

The facilities which Applicant proposes to abandon consist of the following, located at Sioux City, Iowa; (a) approximately 1,607 feet of 16-inch pipeline beginning at Applicant's Sioux City measuring station and extending to a point of connection with Iowa Public Service Company's (Public Service) 10-inch pipeline, which Applicant proposes to sell to Public Service; (b) metering and regulating equipment, including a meter building and appurtenant pipelines, located at Armour and Company's Sioux City plant, which Applicant proposes to sell to Public Service; (c) metering and regulating equipment, including a meter building and appurtenant pipelines, located at Swift and Company's Sioux City plant, which Applicant proposes to sell to Public Service, and (d) metering and regulating equipment, including a meter building and appurtenant pipelines, located at Cudahy Company's Sioux City plant, which Applicant proposes to remove because said plant has been closed. Applicant further proposes to transfer from its Peoples Natural Gas division to Public Service the 90 Mcf a day of contract demand currently required for the firm portion of the service to the Armour and Swift plants.

The facilities described above are or have been used to transport natural gas to the packing companies under an arrangement with Public Service whereby that company also transported the gas for the Applicant. Under Applicant's proposal herein the Armour and Swift plants will continue to receive natural gas service but from Public Service rather than Applicant. Applicant states that Public Service has agreed to pay $9,900 for the facilities which are proposed to be sold.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 12, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Failure of any party to appear at and participate in the hearing shall be construed as waiver of any concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of January 1956. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-10247; Filed, Dec. 21, 1955; 8:48 a. m.]

[Docket No. G-9415]

LONE STAR GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 15, 1955.

Take notice that Lone Star Gas Company (Applicant), a corporation with a principal office in Dallas, Texas, filed on September 29, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to operate facilities heretofore constructed and hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The application recites that the following described facilities have been owned and operated by the Applicant for a number of years as part of its integrated system extending as various branches from its Line E-10 and Line G-16 systems respectively. Line E-10 and its various branches have been heretofore certificated by the Commission[1] with the exception of the following described pipelines for which Applicant requests a certificate of public convenience and necessity in this application, to-wit:

1. Approximately 22,609 feet of 6-inch and 2,572 feet of 4-inch Line E5-A-A from Station 0+00 the junction of Lines E5-A and E5-A-A in Section 32, Township 5 South, Range 7 East in Marshall County, Oklahoma, to Station 251 +81, the terminus of Line E5-A-A at the Universal Gasoline Company's Aylesworth Gasoline Plant in Section 19, Township 6 South, Range 7 East in the Aylesworth Field, Marshall County, Oklahoma.

2. Approximately 15,088 feet of 10-inch, 26,415 feet of 8-inch and 56 feet of 6-inch Line EB from Station 0+00, the junction of Lines E and EB in the R. H. Bowling Survey, Grayson County, Texas, to Station 415+59 at the block valve for the Sandusky Dehydration Plant in the E. L. Stickney Survey, Sandusky Field, Grayson County, Texas.

3. Approximately 14,471 feet of 8-inch Line EB-A from Station 0+00, the junction of Lines EB and EB-A in the E. L. Stickney Survey, Grayson County, Texas, to approximate Station 144+71 at the block valve for the Big Mineral Dehydration Plant in the E. Tucker Survey, Big Mineral Field, Grayson County, Texas.

Line G-16" and its various branches have been heretofore certified by the Commission[2] with the exception of the following described pipelines for which Applicant requests a certificate of public convenience and necessity in this application, to-wit:

4. Approximately 11,546 feet of 6-inch Line GG from Station 0+00, the junction of Lines G and GG in Section 14, Township 3 South, Range 4 West in

[1] FPC Dockets Nos. G-442, G-761, G-942, G-1356, G-1357 and G-8527.

[2] FPC Dockets Nos. G-442, G-760, G-1043, G-1097, G-1446 and G-2324.

Stephens County, Oklahoma, to Station 115+46, the terminus of Line GG in Section 16, Township 3 South, Range 4 West Asphaltum Field, Stephens County, Oklahoma.

5. Approximately 5,846 feet of 4-inch Line GH from Station 0+00, the junction of Lines G and GH in the M. J. Eason Survey, Cooke County, Texas, to Station 58+64, the terminus of Line GH at the Standard Oil Company's Sivells Bend Plant in the J. McKerley Survey, Sivells Bend Field, Cooke County, Texas.

6. Approximately 53,851 feet of 6-inch and 34 feet of 4-inch Line GJ from Station 0+00, the junction of Lines G and GJ in Section 31, Township 5 South, Range 2 West, Carter County, Oklahoma, to Station 538+8, the terminus of Line GJ at the Apache Gasoline Company's West Brock Gasoline Plant in Section 15, Township 5 South, Range 1 West, West Brock Field, Carter County, Oklahoma.

7. Approximately 8,174 feet of 6-inch and 85 feet of 4-inch Line GK from Station 0+00, the junction of Lines G and GK in Section 36, Township 3 South, Range 4 West, Jefferson County, Oklahoma, to Station 82+59, the terminus of Line GK at the All Star Gas Company's All Star Gasoline Plant in Section 30, Township 3 South, Range 3 West, Healdton-North Deese Field, Carter County, Oklahoma.

8. Approximately 32,590 feet of 6-inch and 28 feet of 3-inch Line GL from Station 0+00, the junction of Lines G and GL in Section 34, Township 4 South, Range 3 West, Carter County, Oklahoma, to Station 326+18, the terminus of Line GL at Shell Oil Company's Dillard Gasoline Plant in Section 22, Township 4 South, Range 2 West Hewitt Field, Carter County, Oklahoma.

The application recites that the certificate is sought by Applicant so that it may continue efficiently to supply the existing consumer markets from gas reserves which have been for many years attached to its pipeline system by utilizing the subject facilities in interstate commerce to supply in part the natural gas requirements of its Line E and Line G Systems.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 23, 1956 at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-9546]

FELDT & ROBINSON ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 15, 1955.

Take notice that Feldt & Robinson (Applicant), a partnership whose address is Colorado Springs, Colorado, as operator for itself and others filed on October 24, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce to Kansas-Nebraska Natural Gas Company at 12 cents per Mcf for resale, which gas will be produced from the Southwest Potter Field, Kimball County, Nebraska.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 23, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9621]

CLEGG AND HUNT ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 15, 1955.

Take notice that Clegg and Hunt (Applicant), a Texas corporation, whose address is Houston, Texas, as operator for itself and others filed on November 7, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce to Texas Gas Corporation at 13.6 cents per Mcf for gas produced in the Marrs McLean Field and 13.30069 cents per Mcf for gas produced from the Phelan Field, all in Jefferson County, Texas. Texas Gas Corporation will resell such gas to Texas Gas Pipe Line Corporation and Texas Eastern Transmission Corporation for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 23, 1956, at 9:35 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket Nos. G-9674, G-9675]

KIO OIL & DEVELOPMENT CO. AND TEKOIL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 15, 1955.

Take notice that KIO Oil & Development Co. (KIO), a Delaware corporation with its principal place of business at Chicago, Illinois, filed on November 18, 1955, an application pursuant to section 7 of the Natural Gas Act, for permission and approval to abandon certain facilities and service by reason of the sale of said facilities, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application, which is on file with the Commission and open to public inspection.

Tekoil Corporation (Tekoil), a Delaware corporation with its principal place of business at Robinson, Illinois, filed on November 18, 1955, an application pursuant to section 7 of the Natural Gas Act, authorizing it to acquire and operate the facilities and to render the service proposed to be abandoned by KIO, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Tekoil has entered into Lease Sale Agreement for the acquisition of all oil and gas properties of KIO, by virtue of contract under date of March 31, 1955, consummation of which is contemplated on January 9, 1956.

Tekoil proposes by the acquisition herein to sell natural gas in interstate commerce to Cities Service Gas Company for resale which gas will be produced from wells located in the West Edmond Hunton Line unit situated in Oklahoma, Logan, Canadian and Kingfisher Counties, Oklahoma.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 4, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-6576]

BRACKEN OIL CO. ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 16, 1955.

Take notice that Bracken Oil Company, a co-partnership, composed of J. Paul Price, et al., Applicant, whose address is Peoples Bank Building, Tyler, Texas, filed on November 29, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Tuttle Unit of Willow Springs Field, Harrison County, Texas, which it sells in interstate commerce to the Texas Eastern Transmission Corporation for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 17, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9391]

SKELLY OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 16, 1955.

Take notice that Skelly Oil Company (Applicant), a Delaware corporation whose address is Box 1650, Tulsa, Oklahoma, filed on September 23, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas produced from the West Pampa Field, Gray County, Texas, to Phillips Petroleum Company for resale in interstate commerce. The rate for initial delivery will be 7¢ per Mcf.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 25, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 11, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

DEPUTY URBAN RENEWAL COMMISSIONER ET AL.

DESIGNATION AND ORDER OF PRECEDENCE TO ACT AS URBAN RENEWAL COMMISSIONER

The officers appointed to the following listed positions in the Housing and Home Finance Agency (excluding persons designated to serve in an acting capacity) are hereby designated to act in the place and stead of the Urban Re-

newal Commissioner, with the title of "Acting Urban Renewal Commissioner" and with all the powers, rights, and duties assigned to the said Commissioner, in the event the Commissioner is unable to act by reason of his absence, illness, or other cause, provided that no officer shall serve in such acting capacity unless all other officers whose titles precede his in this designation are unable to act by reason of absence, illness, or other cause:

1. Deputy Urban Renewal Commissioner;

2. Assistant Commissioner for Operations, Urban Renewal Administration;

3. Assistant Commissioner for Technical Services, Urban Renewal Administration;

4. Associate General Counsel, Urban Renewal Branch, Division of Law;

5. Director, Planning and Engineering Branch, Urban Renewal Administration.

This order supersedes the order effective February 4, 1955 (20 F. R. 780) respecting this same subject.

(Reorg. Plan No. 3 of 1947, 61 Stat. 954; 62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U. S. C. 1952 ed. 1701c)

Effective as of the 22d day of December 1955.

ALBERT M. COLE,
Housing and Home Finance Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF-2016]

VADA URANIUM CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFORE, AND NOTICE OF OPPORTUNITY FOR HEARING

DECEMBER 16, 1955.

I. Vada Uranium Corporation, 280 Aultman Street, Ely, Nevada, having filed with the Commission on January 17, 1955, a Notification on Form 1-A and an offering circular, and amendments thereto on February 23, 1955, and March 17, 1955, relating to an offering of 2,000,000 shares of its 1 cent par value common stock at 15 cents per share for the aggregate amount of $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) of the act and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in that:

1. The aggregate offering price of the securities to be offered exceeds the limitation of $300,000 as prescribed by Rule 217 (a) of Regulation A;

2. The notification on Form 1-A, Item 1, failed to state therein all the jurisdictions in which the securities were to be offered;

3. The issuer has failed to file on Form 2-A reports of sales as required by Rule 224 of Regulation A; and

4. Certain selling literature used in connection with the sale of the securities was not filed with the Commission as required by Rule 221 of Regulation A.

B. That the offering circular which was used in connection with the offering contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to the statement on page 5 of the offering circular that the underwriter holds his stock for investment and has agreed that he will not make any distribution of his stock for a period of at least one year after the commencement of the offering.

C. That the use of said offering circular in connection with the offering of the issuer's securities would and did operate as a fraud and deceit upon the purchasers of the securities.

III. *It is ordered*, Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Vada Uranium Corporation, 280 Aultman Street, Ely, Nevada and The Bristol Securities Company, 130 South Main Street, Fall River, Massachusetts, personally or by registered mail or by confirmed telegraphic notice and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-10254; Filed, Dec. 21, 1955; 8:49 a. m.]

[File No. 24D-1836]

U-H URANIUM CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR AND NOTICE OF OPPORTUNITY FOR HEARING

DECEMBER 16, 1955.

U-H Uranium Corporation, P. O. Box 535, Provo, Utah, having filed with the Commission on July 13, 1955, a notification on Form 1-A and an offering circular, and an amendment thereto on November 16, 1955, relating to a proposed public offering of 6,000,000 shares of its 5 cents par value common stock for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

The Commission having reasonable cause to believe that:

A. The terms and conditions of said Regulation A have not been complied with in that—

(1) An offering of the securities has been made by communications not filed with the Commission pursuant to Rule 221 under Regulation A and not in compliance with Rule 220 thereof;

(2) Either an offering circular has not been and is not being delivered to offerees and purchasers of the said stock as required by Rule 219 (a) or an offering circular not meeting the requirements of Rule 219 (e), as particularized in letters, dated August 18 and 23, 1955, from the Commission's staff has been and is being so delivered;

(3) The offering has been and is being made by false and misleading statements of the issuer's Vice-President, Hansel Chang; and

(4) The offering was commenced and securities sold prior to the time permitted by Rule 219 (e); and

B. The failure to use an offering circular required by Rule 219 (a) and the use of the offering circular not meeting the requirements of Rule 219 (e) and the oral statements of the issuer's Vice-President in connection with the offering would, and did, operate as a fraud or deceit upon the purchasers.

It is ordered, Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for a hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this Order and Notice shall be served upon U-H Uranium Corporation and Hansel Chang personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-10255; Filed, Dec. 21, 1955; 8:49 a. m.]

[File No. 70-3427]

CENTRAL PUBLIC UTILITY CORP.

ORDER AUTHORIZING GUARANTEE BY PARENT OF SHORT-TERM NOTE OF SUBSIDIARY AND EXTENSION OF CREDIT TO SUCH SUBSIDIARY

DECEMBER 16, 1955.

Central Public Utility Corporation ("Central"), a registered holding company under the Public Utility Holding Company Act of 1935 ("act"), which has disposed of all its public-utility subsidiaries within the United States and which now has an application pending for exemption pursuant to section 3 (a) (5) of the act (File No. 31-626), has filed a declaration pursuant to section 7 of the act and Rule U-45 thereunder with respect to the following proposed transactions:

Central states that, although the consolidated earned surplus of its system exceeds $7,500,000, its own cash and corporate earned surplus have been greatly reduced by prior dividend payments to its stockholders (at the semi-annual rate of 40 cents per share), that it does not have sufficient cash or corporate earned surplus for the payment of its next regular dividend, and that it desires to obtain such cash in the form of dividends to increase its earned surplus to enable it to continue dividends to its own stockholders. The filing indicates that Central's wholly owned subsidiary, The Islands Gas and Electric Company ("Islands"), an intermediate holding company which is exempt from the requirements of the act pursuant to orders heretofore issued by the Commission under sections 3 (a) (5) and 3 (b) thereof, desires to aid Central and is considering the declaration and payment on its common stock of dividends aggregating not more than $5,000,000. It is further indicated that Islands now has about $2,500,000 in cash immediately available for the payment of dividends and it is contemplating a short-term bank loan of $2,500,000. The bank loan in contemplation would be from some New York bank and would be evidenced by Islands' promissory note bearing interest at a rate not to exceed ½ percent more than the prime rate, maturing in less than nine months and secured by Central's guarantee which, in turn, would be secured by the pledge with the lending bank of a time deposit equivalent to the amount of the loan and (if required by the bank) by Central's subordination of the indebtedness owed to it by Islands.

Central further states that the payment of the described dividends to it by Islands would enable Central to continue its regular dividend payments to its own stockholders and that it would invest the bulk of the cash received, thereby carrying on its proper business as a holding company.

Respecting repayment of the proposed loan, Central states that Islands believes it would have no difficulty in making repayment; but that even if Islands were unable to repay the loan, Central would pay the loan by using the pledged cash and would become subrogated to the bank's position as creditor of Islands in the amount of the loan.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable standards of the Act are satisfied and that the declaration should be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that said declaration be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

UNITED STATES TARIFF COMMISSION

[Investigation 46]

WOMEN'S AND CHILDREN'S LEATHER HANDBAGS AND POCKETBOOKS

NOTICE OF PUBLIC HEARING

The United States Tariff Commission announces a public hearing, to begin at 10 a. m., e. d. s. t., on May 15, 1956, in the hearing room of the Tariff Commission, Eighth and E Streets NW., Washington, D. C., in connection with Investigation No. 46 under section 7 of the Trade Agreements Extension Act of 1951, as amended, instituted November 21, 1955, with respect to women's and children's handbags and pocketbooks wholly or in chief value of leather, including reptile leather, described in the public notice of this investigation previously given (20 F. R. 9188).

Request to appear at hearings. Parties interested will be given opportunity to be present, to produce evidence, and to be heard at the above-mentioned hearing. Such parties desiring to appear at the hearing should notify the Secretary of the Commission, in writing, at least three days in advance of the date of hearing.

I certify that the above hearing was ordered by the Tariff Commission on the 16th day of December 1955.

Issued: December 19, 1955.

[SEAL] DONN N. BENT,
Secretary.

MAIN READING ROOM

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 2—FILLING COMPETITIVE POSITIONS

PART 9—SEPARATIONS, SUSPENSIONS, AND DEMOTIONS

MISCELLANEOUS AMENDMENTS

Sections 2.101, 9.101 (b), and 9.106 (b) are amended as set out below:

§ 2.101 *Methods of filling vacancies.* In his discretion an appointing officer may fill any position in the competitive service either by competitive appointment from a civil service register or by appointment of a present or former Federal employee through noncompetitive action in accordance with the regulations in this chapter. He shall exercise his discretion in all personnel actions solely on the basis of merit and fitness. (In determining the merit and fitness of any person under this paragraph, there shall be no discrimination on the basis of his religious or political affiliations, or his marital status, physical handicap, race, color, or national origin.)

§ 9.101 *Agency responsibility for separation or demotion of employees.* • • •

(b) The discretion vested in the appointing officer to remove employees under his jurisdiction, or to take other disciplinary action, is subject only to the following restrictions:

(1) Employees in the competitive service who are not serving probationary or trial periods and who are not serving under temporary appointments, and employees having a competitive status who occupy positions in Schedule B, under other than temporary appointments, shall not be removed, suspended, or involuntarily demoted except for such cause as will promote the efficiency of the service and in accordance with the procedure prescribed in § 9.102.

(2) Discrimination shall not be exercised in removals, suspensions, or demotions because of the employee's race, religion, color, national origin, marital status, or physical handicap, or (except as may be required by law) because of his political opinions or affiliations.

(3) Like penalties shall be imposed for like offenses whenever removals, suspensions, or demotions are made, or when other disciplinary actions are taken.

§ 9.106 *Authority of Commission to investigate separations, suspensions, reassignments, or demotions.* • • •

(b) The Commission may investigate the removal, suspension, reassignment, or demotion of an employee who establishes a prima facie case that:

(1) The procedure prescribed by the Commission under § 9.102 (a) (1) has not been followed (regardless of other allegations); or

(2) The removal, suspension, reassignment, or demotion was made for political reasons, except as may be required by law, or resulted from discrimination because of marital status or physical handicap.

NOTE: Allegations of discrimination because of race, religion, color, or national origin will not be investigated under § 9.106, inasmuch as a procedure for review of such cases is provided by Executive Order 10590 and Part 401 of this title.

(3) No case will be investigated under this paragraph unless the request for such investigation is received by the Commission within ten (10) days after the effective date of separation, suspension, reassignment, or demotion. This time limit may be extended in the discretion of the Commission only upon a showing by the employee that circumstances beyond his control prevented him from filing a request for an investigation within the prescribed ten (10) days. The regulations of the Commission under section 14 of the Veterans' Preference Act of 1944 as amended (Part 22 of this chapter), relating to appeals to the Commission of preference eligibles, are applicable whenever a request is received from a preference eligible to investigate a removal, suspension for more than thirty (30) days, or demotion.

(4) The Commission has no authority to investigate a suspension or termination of employment under Public Law 733, 81st Congress, where it is alleged that the agency failed to follow the procedure prescribed in the law.

(R. S. 1753; sec. 2, 22 Stat. 403, as amended; 5 U. S. C. 631, 633)

PART 20—RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

PART 35—RESTORATION OF FEDERAL EMPLOYEES AFTER ACTIVE MILITARY DUTY

MISCELLANEOUS AMENDMENTS AND REVISION OF PART

1. Sections 20.4, 20.5 and 20.6 are amended in pertinent part as set out below:

§ 20.4 *Order of selection*—(a) *Determination of competitive area.* (1) An agency may establish a general plan of competitive areas by obtaining prior approval from the central office of the Commission. Subsequent clearance with the Commission will not be required concerning competitive areas conforming to the approved general plan unless there has been a material change in the agency's organizational structure or in other factors on which the general plan was approved.

(2) In the absence of an approved general plan the normal competitive area shall be a bureau or equivalent part of an agency in the departmental service, or all of a field installation in a local commuting area, or any combination of these as may be determined by the agency.

(b) *Determination of competitive level.* Within the competitive area, the agency will determine competitive levels of positions to be affected by a reduction in force.

(c) *Determination of tenure groups.* For the purpose of determining relative retention preference in reductions in force, competing employees with performance ratings of "Satisfactory" or better shall be classified according to tenure of employment and veteran preference in groups and subgroups as follows:

(1) *Group I.* (i) In the competitive service, this group consists of career employees who have completed probation and who are not indefinite because they occupy military or defense-transfer vacancies. Career employees serving under temporary or indefinite promotions shall be considered in this group with respect to positions at and below the grade in which they last served on a permanent basis.

(ii) In positions excepted from the competitive service, this group includes all employees serving under appointments with no conditions or restrictions.

(2) *Group II.* (i) In the competitive service, this group includes career employees who are serving probationary periods, all career-conditional employees, and career employees who are "indefinite" because they occupy military or defense-transfer vacancies.

(ii) In positions excepted from the competitive service, it includes employees who are conditional solely because they occupy military or defense-transfer vacancies, or whose tenure is otherwise conditioned without specific time limitation.

(3) *Group III.* In the competitive service, this group includes indefinite employees, employees serving under temporary appointments pending establishment of registers, and employees serving under other nonstatus nontemporary appointments.

(4) *Subgroups.* Within each tenure group, employees entitled to veteran preference are in subgroup "A" and others are in subgroup "B".

(i) Employees in subgroup "A" of tenure Group I or II who are entitled to be retained for one year after exercising their restoration rights under section 9 of the Universal Military Training and Service Act of 1951, as amended, shall be given priority in retention over other employees in subgroup "A" until the expiration of the one-year period.

(ii) Employees in subgroup "B" of tenure Group I or II who are entitled to be retained for six (6) months after exercise of restoration rights under subsection 262 (f) of the Reserve Forces Act of 1955 shall be given priority in retention over other employees in subgroup "B" until the expiration of the six-month period.

(d) *Retention register*—(1) *Compilation.* When two or more competing employees are in a competitive level which is to be affected by a reduction in force, the retention records of such employees shall be brought up to date and a retention register shall be compiled. All employees in positions in the particular competitive level, whether in duty, leave, or furlough status, excluding only those absent on active military duty with reemployment rights, shall be entered on the register in the order of tenure groups and subgroups, and according to retention credits in any subgroup when there are two or more. One (1) retention credit shall be given for each full year of Federal Government service, and four (4) retention credits shall be given for an "outstanding" performance rating. Two (2) retention credits shall be given for a rating representing a level of performance between "Satisfactory" and "Outstanding" where the agency's performance rating plan provides for a fourth performance rating level. If any employees serving under temporary appointments specifically limited to one (1) year or less are assigned to positions in the competitive level, their names and the expiration dates of their appointments shall be entered below the space provided for employees in tenure groups on the register. Likewise, if there are any employees serving in positions in the competitive level under any kind of appointments, with current official performance ratings of "Unsatisfactory," their names shall be entered on the register below the names of temporary employees.

(2) *Separation of registers.* Separate registers shall be compiled to show the distinctions between competitive levels representing positions in the competitive service; excepted from the competitive service; and those filled on a seasonal, when-actually-employed (WAE), or part-time basis.

(3) *Availability for inspection.* Employees notified of proposed adverse action in a reduction in force shall have an opportunity to examine retention registers and other records which have a bearing on the actions in their cases. All registers and records shall be open for inspection by representatives of the Commission.

(e) *Sequence of selection.* With respect to each competitive level, action must be taken to remove all employees with official "Unsatisfactory" performance ratings, and all employees serving under temporary appointments specifically limited to one (1) year or less from positions affected by a reduction in force before any competing employee, in any tenure group, is reached for action. Thereafter, selections for action must be made in order from the bottom to the top of the register. Half years of service will be used in breaking ties in retention standing, but any ties still remaining will be decided administratively.

§ 20.5 *Actions*—(a) *In general.* Employees who cannot be retained in their positions because of a reduction in force will be changed to positions that will last as long as three (3) months, separated, or furloughed.

(b) *Employees in positions in the competitive service.* (1) No employee may be separated, furloughed for more than thirty (30) days, or reduced in pay or grade in a reduction in force while a competing employee with lower retention standing and without a statutory retention right is retained in the same competitive level.

(2) No employee in any subgroup of tenure group I or II who is willing to accept a reasonable change in position may be separated, furloughed for more than thirty (30) days, or subjected to greater reduction in pay than necessary under such reasonable change in position, (i) if he is qualified for a position

which will last as long as three (3) months in another competitive level in his present competitive area in which an employee with lower subgroup standing is retained, or (ii) if he is qualified to go back to a position which will last as long as three (3) months from which he was promoted (or to an essentially identical position) in his present competitive area in which an employee with lower retention standing and without a statutory retention right is retained.

• • • • •

§ 20.6 *Notice to employees.* • • •

(e) *Employee with statutory retention rights.* Notices to employees in positions in which they have statutory retention rights as the result of restoration after military training or service shall show effective dates on or after the expiration of such rights.

• • • • • •

(Secs. 11, 19, 58 Stat. 390, 391; 5 U. S. C. 860, 868)

2. Part 35 is revised and amended as set out below:

PART 35—RESTORATION OF FEDERAL EMPLOYEES AFTER ACTIVE MILITARY DUTY

Subpart A—Statutory Restoration of Nontemporary Employees

Sec.
35.1 Employees covered.
35.2 Agency action at time employee leaves.
35.3 Agency action while employee is absent.
35.4 Requirements for restoration.
35.5 Agency action at time employee returns.
35.6 Appeals to the Commission.
35.7 Commission action on appeal.

Subpart B—Regulatory Restoration of Indefinite Employees

35.51 Employees covered.
35.52 Agency action at time employee leaves.
35.53 Agency action while employee is absent.
35.54 Requirements for restoration.
35.55 Agency action at time employee returns.
35.56 Appeals to the Commission.
35.57 Commission action on appeal.

SUBPART A—STATUTORY RESTORATION OF NONTEMPORARY EMPLOYEES

AUTHORITY: §§ 35.1 to 35.7 issued under sec. 9, 62 Stat. 614, 50 U. S. C. App. 459. Interpret or apply sec. 262, 69 Stat. 602.

§ 35.1 *Employees covered.* (a) The regulations in this subpart shall apply to any employee in the following groups who leaves a position in the Federal Government or the District of Columbia Government to enter on active military duty:

(1) Career and career-conditional employees in the competitive service;

(2) Nontemporary employees in the excepted service of the Executive branch of the Federal Government or in the District of Columbia Government; or

(3) Nontemporary employees of the legislative branch of the Federal Government who cannot be restored in the legislative branch and who are eligible to acquire a competitive status under section 2 (b) of the Act of November 6, 1940 (54 Stat. 1212).

(b) (1) "Active military service," as used in this subpart, means active duty in full pay status in the armed forces of the United States entered upon subsequent to June 24, 1948.

(2) "Active military duty," as used in this subpart, means (i) active military service or (ii) an initial period of active duty for training in the armed forces in accordance with section 262 of the Reserve Forces Act of 1955 (69 Stat. 600).

§ 35.2 *Agency action at time employee leaves*—(a) *Military furlough or separation*—(1) *Recording of action.* Each employee entering on active military duty shall be furloughed or separated at the option of the agency. At the time he returns to civilian duty the employee shall be considered as having been on military furlough and shall be entitled to all the benefits provided by law or the regulations in this subpart.

(2) *Job identity requirements.* The agency concerned shall positively identify the position the employee is leaving.

(b) *Leave of absence*—(1) *For active military duty.* Agencies shall grant leave of absence to an employee for the purpose of entering, or determining physical fitness to enter, on active military duty as defined in § 35.1 (b). Upon application within thirty (30) days after rejection for active duty, the employee shall be returned to his position without reduction in seniority, status, or pay, except as such reduction may be made for all employees similarly situated.

(2) *For other training duty.* Agencies shall also grant leave of absence to an employee for the performance of other training duty in the Armed Forces of the United States. Upon application within thirty (30) days after release from training duty, the employee shall be returned to his position without reduction in seniority, status, or pay, except as such reduction may be made for all employees similarly situated.

§ 35.3 *Agency action while employee is absent*—(a) *Regradings.* If the employee's position is regraded upward during his absence, personnel action shall be taken placing him in the regraded position unless it is clearly shown that he is not qualified for the position. If the position is regraded downward during his absence, no personnel action shall be taken until he returns and is restored. At that time the downgrading of an employee with veteran preference shall be processed under section 14 of the Veterans' Preference Act of 1944, as amended.

(b) *Promotions.* An employee absent on active military duty shall be given the same consideration for promotion as employees who are serving in the agency at that time. He shall be considered for any and all promotions for which he would normally have been considered had he not been absent on military duty. Agencies shall be held responsible for maintaining adequate records to assure such consideration during the time he is absent. Any such promotion shall be effected as of the date it would have been made notwithstanding the absence for military duty.

(c) *Reorganizations.* In the event of any reorganization within an agency which affects the position of any employee absent on military duty, the agency shall be responsible for determining the position of comparable grade to which the employee shall be assigned and for recording the same on official records.

(d) *Abolition of the agency or transfer of functions.* If any functions of any agency are transferred to another agency or a successor agency, the employee absent on military duty may be reassigned to another position of comparable grade in his agency. If this is not done, the head of the agency to to which the functions are transferred shall be responsible for taking official action transferring the employee to its rolls. If an agency is abolished and its functions are not transferred to any other agency, it shall be the responsibility of the agency being abolished to furnish to the Commisison a list of all employees absent on active military duty and to note the official personnel folders accordingly. This list shall include, in addition to the names of the employees, the employee's date of birth, position, grade, and salary, and the organizational unit of the agency in which he was employed.

§ 35.4 *Requirements for restoration*—(a) *After active military service.* Any employee covered by the regulations in this subpart who is inducted, enlists, or is ordered or called into the armed forces of the United States for active service after June 24, 1948, is entitled to restoration if he:

(1) Serves not more than four (4) years (exclusive of any additional service imposed according to law);

(2) Receives a certificate of Satisfactory Completion of Training and Service;

(3) Makes application for restoration within ninety (90) days after discharge or after hospitalization continuing after discharge for not more than one (1) year; and

(4) Is qualified to perform the duties of the position.

(b) *After active duty for training.* Any employee covered by the regulations in this subpart who enters on an initial period of active duty for training in the armed forces of the United States pursuant to clause (1) of subsection 262 (c) of the Reserve Forces Act of 1955 (69 Stat. 600) shall be entitled to restoration if he:

(1) Satisfactorily completes such period of active duty for training;

(2) Applies for restoration within sixty (60) days after his release from such required period of active duty for training or after his discharge from hospitalization incident to such duty continuing for not more than six (6) months after such release; and

(3) Is qualified to perform the duties of the position.

§ 35.5 *Agency action at time employee returns*—(a) *Time limit for restoration.* Restoration shall be made as soon as possible, and in no event later than thirty (30) days after the employee's application is received in the agency.

(b) *Position to which restored.* Employees shall be restored to employment in the following order, unless the position is occupied by an employee with greater retention preference:

(1) To the position to which promoted while in the miltary service;

(2) To a position of like seniority, status, and pay;

(3) To the next best available position for which he is qualified.

(c) *Employees with reemployment rights after transfer.* Any employee who cannot be restored to his latest grade or level in the agency he left to enter active military duty may exercise his reemployment rights in the agency in which he has such rights in accordance with Part 10 of this chapter.

(d) *Physical qualifications.* A returning employee who is not qualified to perform the duties of the position to which he is entitled to be restored, because of disability sustained during active military duty, but who is qualified to perform the duties of any other position in the agency, shall be restored to such other position in such a way as to provide him like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in his case.

(e) *Conflicting rights.* In case two (2) or more employees are entitled to be restored to the same position, the employee who left such position first shall have the prior right to be restored thereto. The second employee shall be assigned to a position of like seniority, status, and pay for which he is qualified, if there is such a position not occupied by an employee with equal or greater retention preference. If such an assignment is impossible, the second employee shall be offered restoration to the next best available position for which he is qualified.

(f) *Notice of right to appeal.* When an agency refuses to restore or determines that it is not feasible to restore an employee as provided under this subpart, the agency shall notify the employee in writing to this effect and of his right to appeal to the Commission. A copy of the notice shall be forwarded to the Commission.

§ 35.6 *Appeals to the Commission*—(a) *Executive branch and District of Columbia employees.* An employee may appeal to the Commission to establish his rights to restoration as follows:

(1) *Former agency not in existence.* If the agency in which he was employed is no longer in existence and its functions have not been transferred to another agency, appeal may be filed not later than ten (10) days after expiration of the period specified in § 35.4 for apply for restoration.

(2) *Not feasible to restore.* Appeal from the decision of an agency that it is not feasible for him to be restored to employment may be filed not later than ten (10) days after receipt of notice from the agency.

(3) *Failure of restoration.* If the agency fails to restore him within thirty (30) days after receipt of his application, appeal may be filed not later than ten (10) days after expiration of this thirty-day period.

(4) *Refusal of restoration.* If the agency refuses to restore him to employment, appeal may be filed not later than ten (10) days after receipt of notice from the agency.

(5) *Improper restoration.* If the agency has improperly restored him to employment, appeal may be filed not later than ten (10) days after such improper restoration.

(6) *Delayed appeals.* An appeal filed after expiration of the ten-day filing period may be accepted in the discretion of the Commission when the employee shows good cause for not filing within that period.

(b) *Legislative employees.* An employee of the legislative branch of the Government who is eligible to acquire a competitive status under section 2 (b) of the Act of November 26, 1940 (54 Stat. 1212), may file an appeal with the Commission when it is not possible for him to be restored in the legislative branch. The appeal must be filed not later than ten (10) days after expiration of the period specified in § 35.4 for applying for restoration.

§ 35.7 *Commission action on appeal*—(a) *Agency not in existence or not feasible to restore.* When the Commission finds that the employee cannot be restored because the agency is no longer in existence and its functions have not been transferred, or that it is not feasible for the employee to be restored, it shall determine whether there is a position in any other agency in the executive branch of the Government or the government of the District of Columbia for which the employee is qualified and which is vacant or held by a temporary employee. When it is so determined, the employee shall be restored to such position as directed by the Commission.

(b) *Legislative employees.* When the Commission finds that the employee is eligible to acquire a competitive status in accordance with section 2 (b) of the Act of November 26, 1940 (54 Stat. 1212), it shall determine whether there is a position in any agency for which the employee is qualified and which is vacant or held by a temporary employee. When it is so determined, he shall be restored to such position as directed by the Commission.

(c) *Failure or refusal to restore.* When the Commission finds that an employee has not been restored in accordance with the regulations in this subpart, or that an agency has failed or refused to restore an employee in accordance with paragraph (a) or (b) of this section, it shall issue an order specifically requiring such agency of the Government or the government of the District of Columbia to restore the employee and to compensate him for any loss of salary suffered by reason of refusal or failure to comply with the regulations in this subpart. Such compensation shall be less any amount received by him through other employment, unemployment compensation, or readjustment allowances. An affidavit of the employee, subject to verification of any amounts claimed to have been received, shall be required for the employing agency to determine the compensation due.

SUBPART B—REGULATORY RESTORATION OF INDEFINITE EMPLOYEES

AUTHORITY: §§ 35.51 to 35.57 issued under R. S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U. S. C. 631, 633.

§ 35.51 *Employees covered.* (a) The regulations in this subpart shall apply to any employee who leaves a position in the competitive service while serving under indefinite appointment (not limited to one year or less) and enters on active military duty, including any such employee who has been given reemployment rights under Part 10 (or former Part 8) of this chapter.

(b) (1) "Active military service," as used in this subpart, means active duty in full pay status in the armed forces of the United States entered upon subsequent to June 24, 1948.

(2) "Active military duty," as used in this subpart, means (i) active military service or (ii) an initial period of active duty for training in the armed forces in accordance with section 262 of the Reserve Forces Act of 1955 (69 Stat. 600).

§ 35.52 *Agency action at time employee leaves*—(a) *Military furlough or separation*—(1) *Recording of action.* Each employee entering on active military duty shall be furloughed or separated at the option of the agency. At the time he returns to duty the employee shall be considered as having been on military furlough and shall be entitled to all the benefits provided by the regulations in this subpart.

(2) *Job identity requirements.* The agency concerned shall positively identify the position the employee is leaving.

(b) *Leave of absence*—(1) *For active military duty.* Agencies shall grant leave of absence to an employee for the purpose of entering, or determining physical fitness to enter, on active military duty as defined in § 35.1 (b). Upon application within thirty (30) days after rejection for active duty, the employee shall be returned to his position without reduction in seniority, status, or pay, except as such reduction may be made for all employees similarly situated.

(2) *For other training duty.* Agencies shall also grant leave of absence to an employee for the performance of other training duty in the armed forces of the United States. Upon application within thirty (30) days after release from training duty, the employee shall be returned to his position without reduction in seniority, status, or pay, except as such reduction may be made for all employees similarly situated.

§ 35.53 *Agency action while employee is absent*—(a) *Regradings.* If the employee's position is regraded upward during his absence, personnel action shall be taken placing him in the regraded position unless it is clearly shown that he is not qualified for the position. If the position is regraded downward during his absence, no personnel action shall be taken until he returns and is restored. At that time the downgrading of an employee with veteran preference must be processed under section 14 of the Veterans' Preference Act of 1944, as amended.

(b) *Promotions.* An employee absent on active military duty may be given the same consideration for promotion as employees who are serving in the agency at that time. He may be considered for any and all promotions for which he would normally have been considered had he not been absent on military duty.

(c) *Transfer of functions.* If any functions of any agency are transferred to another agency or successor agency, the employee absent on military duty may be reassigned to another position of comparable grade in his agency. If this is not done, the head of the agency to which the functions are transferred shall be responsible for taking official action transferring the employee to its rolls.

§ 35.54 *Requirements for restoration*—(a) *After active military service.* Any employee covered by the regulations in this subpart who is inducted, enlists, or is ordered or called into the armed forces of the United States for active service after June 24, 1948, is entitled to restoration if he:

(1) Serves not more than four (4) years (exclusive of any additional service imposed according to law);

(2) Receives a certificate of Satisfactory Completion of Training and Service;

(3) Makes application for restoration within ninety (90) days after discharge or after hospitalization continuing after discharge for not more than one (1) year; and

(4) Is qualified to perform the duties of the position.

(b) *After active duty for training.* Any employee covered by the regulations in this subpart who enters on an initial period of active duty for training in the armed forces of the United States pursuant to clause (1) of subsection 262 (c) of the Reserve Forces Act of 1955 (69 Stat. 600) shall be entitled to restoration if he:

(1) Satisfactorily completes such period of active duty for training;

(2) Applies for restoration within sixty (60) days after his release from such required period of active duty for training or after his discharge from hospitalization incident to such duty continuing for not more than six (6) months after such release; and

(3) Is qualified to perform the duties of the position.

§ 35.55 *Agency action at time employee returns*—(a) *Time limit for restoration.* Restoration shall be made as soon as possible, and in no event later than thirty (30) days after the employee's application is received in the agency.

(b) *Position to which restored.* The employee shall be restored to the position indicated below or to one of like seniority, status, and pay, unless such position is occupied by an employee with greater retention preference:

(1) To the position to which promoted while in the military service;

(2) To the position in which he was serving at the time he entered military service;

(3) To the next best available position for which he is qualified.

(c) *Employees with reemployment rights after transfer.* If an employee is unable to be restored at an appropriate grade or level in the agency he left to enter active military duty, he may exercise his reemployment rights in the agency in which he has such rights in accordance with Part 10 of this chapter.

(d) *Physical qualifications.* A returning employee who is not qualified to perform the duties of the position to which he is entitled to be restored, because of disability sustained during active military duty, but who is qualified to perform the duties of any other position in the agency, shall be restored to such other position in such a way as to provide him like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in his case.

(e) *Conflicting rights.* In case two (2) or more employees are entitled to be restored to the same position, the employee who would have greater retention preference shall have the prior right to be restored thereto. The second employee shall be assigned to a position of like seniority, status, and pay for which he is qualified. If such assignment is impossible, the second employee shall be offered restoration to the next best available position. In neither case may an employee be restored to a position occupied by an employee with greater retention preference.

(f) *Geographical area.* The right of restoration of an employee shall be restricted to the geographical area in which the installation in which he was formerly employed is located.

(g) *Effect of restoration.* Restoration of an employee shall not cause his employment to extend beyond the date it would otherwise be terminated.

(h) *Notice of right to appeal.* When an agency refuses to restore or determines that it is not feasible to restore an employee as provided in this subpart, the agency shall notify the employee in writing to this effect and of his right to appeal to the Commission. A copy of the notice shall be forwarded to the Commission.

§ 35.56 *Appeals to the Commission.* An employee may appeal to the Commission to establish his rights to restoration as follows:

(a) *Not feasible to restore.* Appeal from the decision of an agency that it is not feasible for him to be restored to employment may be filed not later than ten (10) days after receipt of notice from the agency.

(b) *Failure of restoration.* If the agency fails to restore him within thirty (30) days after receipt of his application, appeal may be filed not later than ten (10) days after expiration of this thirty-day period.

(c) *Refusal of restoration.* If the agency refuses to restore him to employment, appeal may be filed not later than ten (10) days after receipt of notice from the agency.

(d) *Improper restoration.* If the agency has improperly restored him to employment, appeal may be filed not later than ten (10) days after such improper restoration.

(e) *Delayed appeals.* An appeal filed after expiration of the ten (10) day filing period may be accepted in the discretion of the Commission when the employee shows good cause for not filing within that period.

§ 35.57 *Commission action on appeal.* When the Commission finds that an employee has not been restored in accordance with the regulations in this subpart, it shall notify and require the agency concerned to restore the employee.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

PESTICIDE CHEMICALS; FURTHER EXTENDED DATES ON WHICH STATUTE SHALL BECOME FULLY EFFECTIVE

Requests have been received for extension of the date on which the pesticide chemicals amendment (68 Stat. 511 et seq.; 21 U. S. C. 342, 346a) shall become fully effective. McLaughlin Gormley King Company has requested extension for MGK 264 (also known as *N*-oxtylbicyclo (2,2,1)-5-heptene-2,3-dicarboximide), for use in fly sprays. S. B. Penick and Company has requested extension for Sulfoxide (also known as *N*-oxtyl sulfoxide of isosafrole) for use in fly sprays.

These uses are considered nonseasonal. The requested extensions are necessary. Therefore the following order is issued pursuant to sections 402 (a) (2) and 408, 68 Stat. 511, 517 (ch. 559, secs. 2, 5); 21 U. S. C. 342 and note 1 under section 342; 346a, and under authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (20 F. R. 1996).

Section 3.44 *Pesticide chemicals; further extended dates on which statute shall become fully effective*, published in the FEDERAL REGISTER of December 20, 1955 (20 F. R. 9553) is amended in paragraph (a) (2) by inserting the following items in proper alphabetical order.

MGK 264: In fly sprays.
Sulfoxide: In fly sprays.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies secs. 402, 408, 68 Stat. 511; 21 U. S. C. 342, 346a)

Dated: December 16, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 175]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

Note: Where the general classification (I,FR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

I FR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an I,FR instrument approach is conducted at this airport, it shall be in accordance with the following instrument approach procedure unless a different procedure is authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, location, facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (+) side of final course; distance (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Ceiling and visibility minimums			Missed approach
						Condition	Type aircraft		
							75 m. p. h. or less	More than 75 m. p. h.	
1	2	3	4	5	6	8	9	10	11
BETTLES, ALASKA. Bettles Airport (BET). SBRA-LFR-BETT. Procedure No. 1. Amendment No. 4. Effective date: January 21, 1956. Supersedes Amendment M-3, dated March 31, 1954. Major changes: (1) New format; (2) departure procedure deleted; (3) runway headings corrected; (4) air carrier note added.	Shuttle—SE course: 128° outbound. 308° inbound. 4,000' within 25 miles.			W side of SE course: 128° outbound. 308° inbound. 2,000' within 10 miles. Not authorized beyond 10 miles.	1,500	Within 1.4 miles, turn left immediately; climb on NW course (128°) to 2,000' within 25 miles.			Left turn to 2,000' direct to Shuttle.
						*T-dn	2 engines or less: 300-1 700-2 1,000-3	More than 2 engines: 300-1 700-2 1,000-3	*Takeoff runway 1, N, 500-2 day and night. Right turn after takeoff runway 1 not authorized.
						C-dn			
						A-dn			
						CAUTION: Over terrain 2 miles NNE, 2,000' hills 4 miles NW, 2,000' hills 7 miles E, 2,000' hills 9 miles W of airport. AIR CARRIER NOTE: Sliding scale not applicable.			
DAVENPORT, IOWA. Davenport Municipal, 753'. SBRA-DVT-ML1. Procedure No. 1. Amendment No. 2. Effective date: January 21, 1956. Supersedes No. 1, dated June 10, 1954. Major changes: (1) column 5 reflects procedure turn from 25 to 10 miles; (2) columns 7 and 11 distances revised to agree with C&G.	Moline VOR	236—21.5	2,300	S side of NW course: 308° outbound. 128° inbound. 2,000' within 10 miles.	1,300	Within 2.6 miles, climb to 2,300' on E course MIL-1-LFR. CAUTION: Offield weather information indicating conditions at Davenport are at or above minimums specified must be obtained prior to the time a letdown is started.			Climb to 2,300' direct to Moline VOR.
						T-dn	2 engines or less: 300-1 500-1 800-2	More than 2 engines: 200-½ 500-1½ 800-2

						C-dn			
						A-dn			

2. The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an ADF instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
1	2	3	4	5	6	7	8	9	10	11
MANSFIELD, OHIO. Mansfield, 1,296'. BMH–MFD. Procedure No. 1. Amendment No. 6. Effective date, January 21, 1956. Supersedes Amendment 5, dated May 15, 1954. Major changes: Reduction in circling minimums. Restriction in missed approach.	Intersection NE course Columbus LFR and 310° bearing to Mansfield BMH.	310—3.0	2,500	W side of course: 310° outbound. 130° inbound. 2,500' within 10 miles	1,900	On airport	T-dn C-dn A-dn	300–1 600–1 800–2	200–½ 600–1½ 800–2	Within 0 mile, climb to 2,500' on course of 130° within 10 miles of Mansfield BMH.
	Mansfield VOR	312—6.7	2,500							

3. The very high frequency omnirange procedures prescribed in § 609.9 (a) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

4. The very high frequency omnirange procedures prescribed in § 609.9 (c) are amended to read in part:

VOR/DME STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses, and radials are magnetic. Elevations and altitude are in feet MSL.
If a VOR/DME instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator of Civil Aeronautics for such airport. Initial approaches shall be made over specific routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.
NOTE: Distances are in nautical miles unless otherwise indicated except visibilities, which are in statute miles.

[Amdt. 94]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated.)

1. Section 610.12 *Green civil airway 2* is amended to read in part:

From—	To—	Minimum altitude
Buffalo, N. Y., LFR..	Rush INT, N. Y.....	2,100
E. Pembroke, N. Y. FM.	Buffalo, N. Y., LFR westbound only.	1,900
Rush INT, N. Y.....	Rochester, N. Y. LFR.	2,000

2. Section 610.15 *Green civil airway 5* is amended to read in part:

From—	To—	Minimum altitude
Jackson, Tenn., LFR..	Nashville, Tenn., LFR.	3,000
Lebanon INT, Tenn..	Smithville, Tenn., LF/RBN.	3,500
Smithville, Tenn., LF/RBN.	Watts Bar[1] INT, Tenn.	4,500

3. Section 610.101 *Amber civil airway 1* is amended to read in part:

From—	To—	Minimum altitude
San Diego, Calif., LFR.	Oceanside, Calif.: LF/RBN northbound.	3,000
	Southbound.....	2,500
Oceanside, Calif., LF/RBN.	Long Beach, Calif., LFR.	4,000

[1] 4,500'—Minimum crossing altitude at Watts Bar INT, westbound.

4. Section 610.103 *Amber civil airway 3* is amended to read in part:

From—	To—	Minimum altitude
Pueblo, Colo., LFR....	Colorado Springs, Colo., LF/RBN:	
	Southbound.....	7,000
	Northbound.....	8,000

5. Section 610.104 *Amber civil airway 4* is amended to read in part:

From—	To—	Minimum altitude
Tulsa, Okla., LFR.....	Claremore INT, Okla.	2,000
Claremore INT, Okla..	Chanute, Kans., LFR.	2,200
Verdigris River, Okla., FM.	Tulsa, Okla., LFR southwest bound only.	1,900

6. Section 610.106 *Amber civil airway 6* is amended to read in part:

From—	To—	Minimum altitude
Nashville, Tenn., LFR.	Green Brier INT, Tenn.	3,000
Green Brier INT, Tenn.	Bowling Green, Ky., LFR.	2,000

7. Section 610.207 *Red civil airway 7* is amended to read in part:

From—	To—	Minimum altitude
Greenville, S. C., LFR.	Beacon 14 INT, S. C..	3,000
Beacon 14 INT, S. C...	Spartanburg, S. C., LFR.	2,800

8. Section 610.213 *Red civil airway 13* is amended to read in part:

From—	To—	Minimum altitude
Providence, R.I., LFR.	Bedford, Mass., LF/RBN	1,800

9. Section 610.225 *Red civil airway 25* is added to read:

From—	To—	Minimum altitude
U. S. Canadian Border.	Kokadjo INT, Maine.	5,500
Kokadjo INT, Maine..	East Dover INT, Maine.	6,000

10. Section 610.237 *Red civil airway 37* is amended to read in part:

From—	To—	Minimum altitude
Prescott INT, Ark....	Little Rock, Ark.. LFR.	1,800

11. Section 610.287 *Red civil airway 87* is amended to read in part:

From—	To—	Minimum altitude
Honolulu, T. H., LFR.	Maui, T. H.,[1] LFR...	6,000

[1] 8,000' minimum crossing altitude at Maui LFR, eastbound; 6,000, westbound.

12. Section 610.603 *Blue civil airway 3* is amended to read in part:

From—	To—	Minimum altitude
Grand Rapids, Mich., LFR.	Traverse City, Mich., LFR.	2,800

13. Section 610.606 *Blue civil airway 6* is amended to read in part:

From—	To—	Minimum altitude
Wichita Falls, Tex., LFR.	Washington INT, Okla.	2,700

14. Section 610.613 *Blue civil airway 13* is amended to read in part:

From—	To—	Minimum altitude
Texarkana, Ark., LFR.	Hartford INT, Ark[1]	3,800
Hartford INT, Ark.....	Ft. Smith, Ark., LF/RBN.	3,800

[1] 6,000'—Minimum reception altitude.

15. Section 610.622 *Blue civil airway 22* is amended to read in part:

From—	To—	Minimum altitude
Corner Stone INT, Ark.	Little Rock, Ark., LFR.	1,800

16. Section 610.630 *Blue civil airway 30* is amended to read in part:

From—	To—	Minimum altitude
Kingsville INT, Tex....	Driscoll INT, Tex.....	1,300
Driscoll INT, Tex.....	Corpus Christi, Tex., LFR.	1,400
Corpus Christi, Tex., LFR.	Clareville INT, Tex...	1,400
Clareville INT, Tex....	Losoya INT, Tex.....	1,800
Losoya INT, Tex.....	Kelly, Tex., LFR.....	2,000

17. Section 610.674 *Blue civil airway 74* is amended to delete:

From—	To—	Minimum altitude
Willard INT, N. Mex...	Otto, N. Mex. LFR..	12,000

18. Section 610.1001 *Direct routes—U. S.* is amended to delete:

From—	To—	Minimum altitude
Colorado Springs, Colo., LF/RBN.	Pueblo, Colo., LFR: Southbound	7,000
	Northbound	8,000
Jacksonville, Fla., LFR.	Charleston, S. C., LFR.	1,300

19. Section 610.6005 *VOR civil airway 5* is amended to read in part:

From—	To—	Minimum altitude
Louisville, Ky., VOR.	Warsaw INT, Ky.[1]	2,400
Warsaw INT, Ky.[1]	Cincinnati, Ohio, VOR.	2,000

[1] 2,800′—Minimum reception altitude.

20. Section 610.6006 *VOR civil airway 6* is amended to delete:

From—	To—	Minimum altitude
Omaha, Nebr., VOR, via S alter.	Des Moines, Iowa, via S alter.	[1] 3,600

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter C—Regulations and Standards Under the Farm Products Inspection Act

PART 55—GRADING AND INSPECTION OF EGG PRODUCTS

MISCELLANEOUS AMENDMENTS

Notice of a proposed amendment to the regulations governing the grading and inspection of egg products (7 CFR Part 55) was published in the FEDERAL REGISTER on December 3, 1955 (20 F. R. 8932). The amendment hereinafter promulgated is pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

The amendment will implement Public Law 272, 84th Congress, 1st Session, approved August 9, 1955, amending the aforesaid act by designating the certificates, memoranda, marks and other identifications and devices for making such marks or identifications, with respect to inspection, class, grade, quality, size, or condition, that are official for the purposes of said act. The amendment also makes a minor change in the sanitary requirements dealing with the procedures for washing eggs prior to breaking. The language of the amendment set forth herein is the same as was published in the aforesaid notice with the exception of minor clarifying changes.

It is hereby found that it would be impractical, unnecessary and contrary to the public interest to delay the effective date of this amendment until thirty (30) days after publication in the FEDERAL REGISTER for the reasons that (1) the amendment is in the nature of an interpretative rule, (2) the language changes represent a needed improvement in clarifying the meaning and intent of the regulations, and (3) no additional time is required by interested persons to prepare for compliance with this amendment.

The amendment is as follows:

1. Delete paragraph (q) of § 55.2 *Terms defined.*

2. Add a new § 55.2a, to read as follows:

§ 55.2a *Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.* Subsection 203 (h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

(a) "Official certificate" means any form of certification, either written or printed, used under this part to certify with respect to the sampling, inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part, including but not limited to those set forth in §§ 55.36 through 55.38.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been officially graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or

affixed to or printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

3. Change § 55.30 *Denial of service,* to read as follows:

§ 55.30 *Denial of service.* (a) The following acts or practices or the causing thereof may be deemed sufficient cause for the debarment, by the Administrator, of any person, including any agents, officers, subsidiaries or affiliates of such person, from any or all benefits of the act for a specified period, after notice and opportunity for hearing has been accorded him:

(1) *Misrepresentation, deceptive, or fraudulent act or practice.* Any wilful misrepresentation or any deceptive or fraudulent act or practice found to be made or committed by any person in connection with:

(i) The making or filing of an application for any grading service, inspection service, or sampling service, appeal or regrading service;

(ii) The making of the product accessible for sampling, grading or inspection;

(iii) The making, issuing or using or attempting to issue or use any grading certificate, inspection certificate, symbol, stamp, label, seal, or identification authorized pursuant to the regulations in this part;

(iv) The use of the terms "United States" or "U. S." in conjunction with the grade of the product;

(v) The use of any of the aforesaid terms or any official stamp, symbol, label, seal, or identification in the labeling or advertising of any product; or

(vi) The use of the terms "Government Graded", "Federal-State Graded", "U. S. Inspected", "Government Inspected", or terms of similar import in the labeling or advertising of any product.

(2) *Use of facsimile forms.* Using or attempting to use a form which simulates in whole or in part any certificate, symbol, stamp, label, seal or identification authorized to be issued or used under the regulations in this part.

(3) *Willful violation of the regulations.* Any willful violation of the regulations in this part or the act.

(4) *Interfering with a grader or inspector.* Any interference with or obstruction or any attempted interference or obstruction of any grader or inspector in the performance of his duties.

(5) *Misleading labeling.* The use of the terms "Government Graded", "Federal-State Graded", or terms of similar import in the labeling or advertising of any product without stating in the label or advertisement the U. S. grade of the product as determined by an authorized grader.

(6) *Miscellaneous.* The existence of any of the conditions set forth in § 55.24 constituting the basis for the rejection of an application for grading or inspection service.

(b) Whenever the Administrator has reason to believe that any person, or his employee, agent, or representative has flagrantly or repeatedly committed any of the acts or practices specified in paragraph (a) of this section, he may without hearing direct that the benefits of the act be denied such person, including any agents, officers, subsidiaries or affiliates of such person, pending investigation and hearing and shall give notice thereof by registered mail. A written petition for reconsideration of such interim denial may be filed with the Administrator by any person so denied the benefits of the act if postmarked or delivered within 10 days after notice of the interim denial. Such petition shall state specifically the errors alleged to have been made by the Administrator in denying the benefits of the act pending investigation and hearing. Within 20 days following the receipt of such petition for reconsideration, the Administrator shall reinstate the benefits of the act or notify the petitioner by registered mail of the reasons for continued interim denial.

4. Change paragraph (b) of § 55.81 *Egg washing operations,* to read as follows:

(b) Shell eggs with adhering dirt shall be washed, rinsed with a water spray and dried. Such eggs may be immersed in or sprayed with a bactericidal solution immediately following the water rinse and thereafter dried prior to breaking: *Provided,* That, if other than hypochlorites are used for the bactericidal treatment, the eggs shall again be rinsed prior to drying and breaking.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624)

Issued at Washington, D. C. this 20th day of December 1955, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 55-10302; Filed, Dec. 22, 1955; 8:50 a. m.]

PART 56—GRADING AND INSPECTION OF SHELL EGGS AND UNITED STATES STANDARDS, GRADES AND WEIGHT CLASSES FOR SHELL EGGS

MISCELLANEOUS AMENDMENTS

Notice of a proposed amendment to the regulations governing the grading and inspection of shell eggs and United States standards, grades and weight classes for shell eggs (7 CFR Part 56) was published in the FEDERAL REGISTER on December 3, 1955 (20 F. R. 8933). The amendment hereinafter promulgated is pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

The amendment will implement Public Law 272, 84th Congress, 1st Session, approved August 9, 1955, amending the aforesaid act by designating the certificates, memoranda, marks and other identifications and devices for making such marks or identifications, with respect to inspection, class, grade, quality, size, or condition, that are official for the purposes of said act. The amendment also includes minor changes with respect to the information which is required in the grade mark, and changes the language in the U. S. wholesale grades for shell eggs in the interest of clarity. The language of the amendment set forth herein is the same as was published in the aforesaid notice with the exception of minor clarifying changes.

It is hereby found that it would be impractical, unnecessary and contrary to the public interest to delay the effective date of this amendment until thirty (30) days after publication in the FEDERAL REGISTER for the reasons that (1) the amendment is in the nature of an interpretative rule, (2) the language changes represent a needed improvement in clarifying the meaning and intent of the regulations, and (3) no additional time is required by interested persons to prepare for compliance with this amendment.

The amendment is as follows:

1. Delete paragraph (p) of §56.2 *Terms defined.*

2. Add a new § 56.2a, to read as follows:

§ 56.2a *Designation of official certificates, memoranda, marks, other identifications and devices for purposes of the Agricultural Marketing Act.* Subsection 203 (h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed in this section shall have the respective meanings specified:

(a) "Official certificate" means any form of certification, either written or printed, used under this part to certify with respect to the sampling, inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part, including but not limited to, those set forth in § 56.38.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been officially graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

3. Change § 56.31 *Denial of service,* to read as follows:

§ 56.31 *Denial of service.* (a) The following acts or practices or the causing thereof may be deemed sufficient cause for the debarment, by the Administrator, of any person, including any agents, officers, subsidiaries or affiliates of such person, from any or all benefits of the act for a specified period, after notice and opportunity for hearing has been accorded him:

(1) *Misrepresentation, deceptive, or fraudulent act or practice.* Any wilful misrepresentation or any deceptive or fraudulent act or practice found to be made or committed by any person in connection with:

(i) The making or filing of an application for any grading service, inspection service, or sampling service, appeal or regrading service;

(ii) The making of the product accessible for sampling, grading or inspection;

(iii) The making, issuing or using or attempting to issue or use any grading certificate, inspection certificate, symbol, stamp, label, seal, or identification authorized pursuant to the regulations in this part;

(iv) The use of the terms "United States" or "U. S." in conjunction with the grade of the product;

(v) The use of any of the aforesaid terms or any official stamp, symbol, label, seal, or identification in the labeling or advertising of any product; or

(vi) The use of the terms "Government Graded", "Federal-State Graded", "U. S. Inspected", "Government Inspected", or terms of similar import in the labeling or advertising of any product.

(2) *Use of facsimile forms.* Using or attempting to use a form which simulates in whole or in part any certificate, symbol, stamp, label, seal or identification authorized to be issued or used under the regulations in this part.

(3) *Willful violation of the regulations.* Any willful violation of the regulations in this part or the act.

(4) *Interfering with a grader or inspector.* Any interference with or obstruction or any attempted interference or obstruction of any grader or inspector in the performance of his duties.

(5) *Misleading labeling.* The use of the terms "Government Graded", "Federal-State Graded", or terms of similar import in the labeling or advertising of any product without stating in the label or advertisement the U. S. grade of the product as determined by an authorized grader.

(6) *Miscellaneous.* The existence of any of the conditions set forth in § 56.24 constituting the basis for the rejection of an application for grading or inspection service.

(b) Whenever the Administrator has reason to believe that any person, or his employee, agent, or representative has flagrantly or repeatedly committed any of the acts or practices specified in paragraph (a) of this section, he may without hearing direct that the benefits of the act be denied such person, including any agents, officers, subsidiaries or affiliates of such person, pending investigation and hearing and shall give notice thereof by registered mail. A written petition for reconsideration of such interim denial may be filed with the Administrator by any person so denied the benefits of the act if postmarked or delivered within 10 days after notice of the interim denial. Such petition shall state specifically the errors alleged to have been made by the Administrator in denying the benefits of the act pending investigation and hearing. Within 20 days following the receipt of such a petition for reconsideration, the Administrator shall reinstate the benefits of the act or notify the petitioner by registered mail of the reasons for continued interim denial.

4. Change § 56.38 *Form of grade mark,* with the exception of Figures 1 and 2, to read as follows:

§ 56.38 *Form of grade mark.* The grade mark permitted to be used to officially identify cartons containing one dozen shell eggs, which are graded pursuant to the regulations in this part, shall be contained in a shield of the form and design indicated in examples in Figures 1 and 2 of this section. The information (including the form and arrangement of its wording) which is to be included in such marks shall be: (1) The letters "U. S. D. A."; (2) the U. S. grade, such as, "U. S. A Grade"; (3) one of the following phrases: "Graded Under Federal-State Supervision", "Graded Under U. S. and State Supervision", or a term of similar import, and (4) the size or weight class of the product, such as, "Large": *Provided,* That, the size may be omitted from the grade mark if it appears prominently on the main panel of the carton. The grade mark shall be printed on the carton or on a label used to seal the carton. When the size or weight class is included as a part of the grade mark the form of such mark shall be as indicated in Figure 1 of this section and when the size or weight class designation is not included in the grade mark the form of the grade mark shall be as indicated in Figure 2 of this section. The grade mark shall also include the plant number of the official plant where the product was packed if the appropriate plant number does not appear elsewhere on the packaging material. In addition, the date the eggs were graded shall be stamped either on the grade mark used to seal the carton or applied in a legible manner elsewhere on the carton. Such date of grading shall be expressed as the month and day or as the consecutive day of the year. The grade mark shall be not less than 1⅛ inches in height and should not exceed 1¾ inches in height. The size of the letters designating the grade shall be not less than ¼ inch in height. The size of the print and the arrangement of the other information within the shield shall be in approximately the same proportion as shown in the examples in Figures 1 and 2 of this section.

5. Change § 56.226 *Grades,* to read as follows:

§ 56.226 *Grades.* (a) "U. S. Specials --% AA Quality" shall consist of eggs of which at least 20 percent are AA Quality; and the actual percentage of AA Quality eggs shall be stated in the grade name. Within the maximum of 80 percent which may be below AA Quality, not more than 7.5 percent may be B Quality, C Quality, Dirties or Checks in any combination and not more than 2.0 percent may be Loss.

(b) "U. S. Extras --% A Quality" shall consist of eggs of which at least 20 percent are not less than A Quality; and the actual total percentage of A Quality and better quality eggs shall be stated in the grade name. Within the maximum of 80 percent which may be below A Quality, not more than 11.7 percent may be C Quality, Dirties, or Checks in any combination, and not more than 3.0 percent may be Loss.

(c) "U. S. Standards --% B Quality" shall consist of eggs of which at least 20 percent are not less than B Quality; and the actual total percentage of B Quality and better quality eggs shall be stated in the grade name. Within the maximum of 80 percent which may be below B Quality not more than 11.7 percent may be Dirties or Checks in any combination, and not more than 4 percent may be Loss.

(d) "U. S. Trades --% C Quality" shall consist of eggs of which at least 83.3 percent are not less than C Quality; and the actual total percentage of C Quality and better quality eggs shall be stated in the grade name. Within the maximum of 16.7 percent which may be below C Quality not more than 11.7 percent may be Dirties or Checks in any combination and not more than 5 percent may be Loss.

(e) "U. S. Dirties" shall consist of eggs that are Dirty and shall contain not more than 11.7 percent Checks and not more than 5 percent Loss.

(f) "U. S. Checks" shall consist of eggs that are Checks and shall contain not more than 5 percent Loss.

(g) "No grade" means eggs of possible edible quality that fail to meet the requirements of an official U. S. Grade or that have been contaminated by smoke, chemicals, or other foreign material that has seriously affected the character, appearance, or flavor of the eggs.

6. Change § 56.227 *Summary of grades*, to read as follows:

§ 56.227 *Summary of grades.* A summary of the United States Wholesale Grades for Shell Eggs follows as Table I of this section:

TABLE I—SUMMARY OF UNITED STATES WHOLESALE GRADES FOR SHELL EGGS

Wholesale grade designation	Minimum percentage of eggs of specific qualities required [1]				Maximum tolerance permitted (lot average)				
	AA Quality	A Quality or better	B Quality or better	C Quality or better	B Quality, C Quality, Dirties, and Checks	C Quality, Dirties, and Checks	Dirties and Checks	Checks	Loss
					Percent	*Percent*	*Percent*	*Percent*	*Percent*
U. S. Specials--% AA Quality [2]	20	Balance	None permitted except for tolerances.		7.5				2
U. S. Extras--% A Quality [2]		20	Balance	None permitted except for tolerances.		11.7			3
U. S. Standards--% B Quality [2]			20	Balance			11.7		4
U. S. Trades--% C Quality [2]				83.3			11.7		5
U. S. Dirties--%								11.7	5
U. S. Checks--%									6

[1] Substitution of eggs possessing higher qualities for those possessing lower specified qualities is permitted.
[2] The actual total percentage must be stated in the grade name.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624)

Issued at Washington, D. C. this 20th day of December 1955, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 55-10304; Filed, Dec. 22, 1955; 8:51 a. m.]

PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF; AND UNITED STATES CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

MISCELLANEOUS AMENDMENTS

Notice of a proposed amendment to the regulations governing the grading and inspection of poultry and edible products thereof and United States classes, standards, and grades with respect thereto (7 CFR Part 70) was published in the FEDERAL REGISTER on November 29, 1955 (20 F. R. 8754). The amendment hereinafter promulgated is pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

The amendment will implement Public Law 272, 84th Congress, 1st Session, approved August 9, 1955, amending the aforesaid act by designating the certificates, memoranda, marks and other identifications and devices for making such marks or identifications, with respect to inspection, class, grade, quality, size, or condition, that are official for the purposes of said act. The amendment also makes minor changes in the manner of providing poultry inspection service on a Federal-State basis. The language of the amendment set forth herein is the same as was published in the aforesaid notice with the exception of minor clarifying changes.

It is hereby found that it would be impractical, unnecessary and contrary to the public interest to delay the effective date of this amendment until thirty (30) days after publication in the FEDERAL REGISTER for the reasons that (1) the amendment is in the nature of an interpretative rule, (2) the language changes represent a needed improvement in clarifying the meaning and intent of the regulations, and (3) no additional time is required by interested persons to prepare for compliance with this amendment.

The amendment is as follows:

1. Delete the definition of "Official Identification" in § 70.1.

2. Delete the definition of "State Supervisor" in § 70.1 *Definitions*, and substitute in lieu thereof the following: "State supervisor" or "Federal-State supervisor" means any authorized and designated individual who is in charge of the poultry grading service or the poultry inspection service in a State. A State supervisor or a Federal-State supervisor of poultry inspection service shall be a veterinarian and a Federal employee.

3. Add new § 70.2 to read as follows:

§ 70.2 *Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.* Subsection 203 (h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed in this section shall have the respective meaning specified:

(a) "Official certificate" means any form of certification, either written or printed, used under this part to certify with respect to the sampling, inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. Grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part, including but not limited to, those set forth in §§ 70.381 through 70.384.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been officially graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

4. Delete the first sentence of § 70.14 *Dressed poultry; eligibility.*

5. Change the number "70.404" in § 70.390 *Basis of providing Federal-State service*, to read "70.401".

6. Change § 70.60 *Denial of service*, to read as follows:

§ 70.60 *Denial of service.* (a) The acts or practices set forth in §§ 70.61 to 70.66 or the causing thereof may be deemed sufficient cause, for the debarment, by the Administrator, of any person, including any agents, officers, subsidiaries, or affiliates of such person from any or all benefits of the act for a specified period, after notice and opportunity for hearing has been accorded him.

(b) Whenever the Administrator has reason to believe that any person, or his employee, agent, or representative has flagrantly or repeatedly committed any of the acts or practices specified in

§§ 70.61 to 70.66, he may without hearing, direct that the benefits of the act be denied such person, including any agents, officers, subsidiaries, or affiliates of such person, pending investigation and hearing and shall give notice thereof by registered mail. A written petition for reconsideration of such interim denial may be filed with the Administrator by any person so denied the benefits of the act within 10 days after notice of the interim denial. Such petition shall state specifically the errors alleged to have been made by the Administrator in denying the benefits of the act pending investigation and hearing. Within 20 days following the receipt of such petition for reconsideration, the Administrator shall reinstate the benefits of the act or notify the petitioner of the reasons for continued interim denial.

7. Change paragraph (c) of § 70.61 *Misrepresentation, deceptive, or fraudulent acts or practices*, to read as follows:

(c) The making, issuing, or using, or attempting to issue or use any grading certificate, inspection certificate, symbol, stamp, label, seal or identification, authorized pursuant to the regulations in this part;

8. Change paragraph (e) of § 70.61, to read as follows:

(e) The use of any of the aforesaid terms or any official stamp, symbol, label, seal or identification in the labeling or advertising of any product; or

9. Change § 70.62 *Use of facsimile forms*, to read as follows:

§ 70.62 *Use of facsimile forms.* Using or attempting to use a form which simulates in whole or in part, any certificate, symbol, stamp, label, seal or identification authorized to be issued or used under the regulations in this part.

10. Change § 70.63, to read as follows:

§ 70.63 *Wilful violation of the regulations.* Any wilful violation of the regulations in this part or the act.

11. Change § 70.64, to read as follows:

§ 70.64 *Interfering with a grader or inspector.* Any interference with or obstruction or any attempted interference or obstruction of any grader or inspector in the performance of his duties.

12. Change § 70.65, to read as follows:

§ 70.65 *Misleading labeling.* The use of the terms "Government Graded", "Federal-State Graded", or terms of similar import in the labeling or advertising of any product without stating in the labeling or advertisement, the U. S. grade of the product as determined by an authorized grader.

13. Delete §§ 70.391 through 70.404 and insert in lieu thereof the following renumbered sections:

§ 70.391 *Supervision.* All inspection service which is provided under this part shall be technically and administratively supervised by the Agricultural Marketing Service (hereinafter referred to as AMS) through its national and area supervisory organization. It shall be the responsibility of AMS to determine that the services rendered pursuant to any cooperative agreement under the regulations are conducted in a satisfactory manner, that the actual post-mortem inspection of poultry is adequate, and that uniform procedures and policies are followed in all plants in accordance with the requirements of the regulations. Inspection service furnished on a Federal-State basis shall be carried on either under the direct supervision of a Federally-employed Circuit Supervisor (hereinafter referred to as Alternative I) or under the direct supervision of a Federally-employed State Supervisor (hereinafter referred to as Alternative II). In either case, such supervisor shall be immediately responsible for the activities within the State. However, any supervisory official of AMS of a higher administrative level shall have the authority to observe, independently of or in conjunction with the Federal-State supervisor, any particular station or the official activities of any particular inspector at any time he deems it advisable; and shall have the authority to supervise such activities as may be desirable and necessary.

CONDITIONS

§ 70.395 *Regulations.* The regulations of the Secretary of Agriculture governing the grading and inspection of poultry and edible products thereof and instructions of the Administrator governing the inspection of products shall apply to both Federal-State inspection service and to Federal inspection service. AMS shall assume the responsibility for developing the regulations and any instructions issued pursuant thereto and for the supervision of inspection work carried on under the service.

§ 70.396 *Duties of the Federal-State Supervisor.* The Federal-State supervisor of inspection service shall be responsible for the supervision and proper conduct of inspection service within the State or States to which he is assigned. He may be assigned to supervise inspection service in a single State or in two or more adjoining States providing this is agreed to by AMS and the cooperating agencies in such States. He shall examine each prospective State inspector and recommend acceptable applicants for a license. Such recommendation shall be in writing and accompanied by a statement of the qualifications of the applicant. He shall be responsible for making surveys of plants applying for service within the State. The assignment of State employed inspectors to plants shall be mutually agreeable to the State agency and AMS. Insofar as practicable inspectors will not be assigned to plants where they have been previously employed.

§ 70.397 *Employment and licensing of State inspectors.* (a) The cooperating State agency shall assume responsibility for recruitment and employment of State inspectors for plants under the Federal-State service, and the salaries of such inspectors shall be paid by the State. Such inspectors may be employed only when licensed by AMS, and it shall be understood that AMS shall have the authority to withdraw such license at any time (and thus terminate the services of any such inspector) in accordance with the provisions of this part. The licensed State inspector shall not, while a licensed inspector, accept employment, money or remuneration of any kind from the company to which assigned.

(b) Each State inspector at the time he begins service as an inspector shall complete a period of training under the immediate supervision of a Federally employed training supervisor. The license issued to such inspector shall be a limited license authorizing him to perform inspection work only under the supervision of the inspector-in-charge of the station to which he is assigned. A license authorizing the State inspector to serve as inspector-in-charge of a station may be issued when it has been determined by the officer-in-charge of the poultry inspection service of AMS that the inspector is qualified for such position.

§ 70.398 *Duties of State-employed inspectors.* The duties of the State-employed inspectors shall be the same as the duties of Federally-employed inspectors. Inspectors shall make proper, accurate, and adequate post-mortem examinations of poultry carcasses and shall thoroughly familiarize themselves with and adhere to the inspection procedures and the applicable provisions of the Federal regulations governing inspection service.

§ 70.399 *Replacement of Federal inspectors.* When Federal-State inspection service replaces Federal inspection service in a State the replacement of Federal inspectors by State inspectors shall not be carried out until satisfactory transfers of the Federal inspectors to plants out of the State can be accomplished by AMS.

§ 70.400 *Collection of fees.* Through designated representatives, the State Agency shall collect all fees and charges for services rendered under cooperative agreements, except to branches of the Federal Government, and will establish a special fund into which these fees and charges will be deposited. Any person or firm desiring Federal-State inspection service shall make application therefor to the State Agency. The application shall set forth the conditions under which service is to be performed. Such applications shall be approved or concurred in by AMS.

§ 70.401 *Reimbursement of AMS by State cooperating agency.* The State Agency shall reimburse AMS from fees collected or from State appropriations, or both, for the following:

(a) An amount equal to (1) the salaries of any Federally employed inspectors assigned to plants under the Federal-State inspection service, plus an amount to cover travel costs, annual leave accrued, and sick leave earned and taken while such Federally employed inspectors are assigned to plants in the State; (2) an amount to cover travel costs incurred by AMS with respect to training activities performed by any Federal training supervisors in the State; and (3) an amount calculated upon the amounts specified in subparagraphs (1) and (2) of this paragraph to cover administrative costs incurred by AMS with respect to Federal em-

ployees while they are assigned in the State.

(b) An amount equal to the actual amounts reimbursed to the Agricultural Research Service by AMS, plus fifteen (15) percent of such amounts to cover administrative costs of AMS when inspectors of the Agricultural Research Service are employed in any plant, performing the inspection of canning or other processing of poultry food products.

(c) An amount equal to fifteen (15) percent of the salaries and other expenses of inspectors employed by the State Agency, to cover administrative costs of AMS when such inspectors are employed in any plant, performing the inspection of canning or other processing of poultry food products.

(d) As compensation toward supervisory and administrative costs of AMS as well as toward costs incurred for supplies, equipment, certificates, report forms, and other materials furnished by AMS as follows:

(1) Where Alternative I, referred to in § 70.391 is adopted, an amount equal to thirty-five (35) cents per thousand pounds of eviscerated poultry processed in each official plant operating under Federal-State inspection service, plus one hundred and twenty-five ($125) dollars, for the combined initial and final survey made of each plant in the State by AMS pursuant to § 70.44 of the regulations. (The request for such survey will be made by the State Agency to AMS upon receipt by the State Agency, of an application for inspection service.)

(2) Where Alternative II, referred to in § 70.391 is adopted, an amount equal to (i) the salary of the Federally employed State Supervisor, plus an amount to cover travel costs, annual leave accrued, and sick leave earned and taken while such State Supervisor is employed in the State, and (ii) an amount equal to twenty (20) cents per thousand pounds of eviscerated poultry processed in each official plant operating under Federal-State inspection service to cover administrative and supervisory costs of AMS, above the State level.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624)

Issued at Washington, D. C., this 20th day of December 1955, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

Chapter III—Agricultural Research Service, Department of Agriculture

[P. P. C. 575, Revised]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—MEXICAN FRUIT FLY

REVISED ADMINISTRATIVE INSTRUCTIONS PRESCRIBING METHODS OF TREATMENT OF CITRUS FRUIT UNDER MEXICAN FRUIT FLY QUARANTINE

Pursuant to the authority conferred by § 301.64-4 (e) of the regulations supplemental to the Mexican Fruit Fly Quarantine (Notice of Quarantine No. 64, 7 CFR and Supp. 301.64-1 et seq.), the Chief of the Plant Pest Control Branch hereby issues revised administrative instructions to appear as § 301.64-4a in Title 7, Code of Federal Regulations, as follows:

§ 301.64-4a *Administrative instructions prescribing methods of treatment of citrus fruit.* (a) Any of the approved methods of fumigation and sterilization specified in paragraph (b) of this section will meet sterilization requirements imposed under § 301.64-4 (e) as a condition of the issuance of permits for the interstate movement of citrus fruits.

(b) *Approved methods of treatment*—(1) *Ethylene dibromide fumigation.* (i) This approved treatment shall consist of fumigation of citrus fruit with vaporized ethylene dibromide at normal atmospheric pressure in specially constructed fumigation chambers at the prescribed dosage under the following fruit and air temperatures:

(*a*) 8 ounces of ethylene dibromide per 1,000 cubic feet of space for 2 hours at temperatures (both fruit and fumigation chamber) of 77° F. or above.

(*b*) 10 ounces of ethylene dibromide per 1,000 cubic feet of space for 2 hours at temperatures (both fruit and fumigation chamber) of 70° F. to 76° F. inclusive.

(ii) No specifications as to the exact methods and equipment used in obtaining the required temperatures, volatilizing and circulating the gas, are prescribed but the conditions under which fumigation takes place must be satisfactory to the supervising inspector. Vapor-heat sterilization rooms and equipment, with certain alterations, may be made into satisfactory fumigation chambers. However, extreme care must be taken to prevent the escape of gas into the packing plant during the fumigation process as ethylene dibromide gas is toxic to human beings.

(2) *Vapor-heat methods.* (i) The following methods of vapor-heat treatment are approved:

(*a*) The temperature of the fruit shall be raised to 110° F., at the approximate center of the fruit, in a period of 8 hours and shall be held at that level during the following 6 hours. This method is adapted to sterilization plants that do not have the capacity to increase the temperature of the fruit steeply at the beginning of the treating period.

(*b*) The temperature of the fruit shall be raised to 110° F., at the approximate center of the fruit, in a period of 6 hours and shall be held at that level during the following 4 hours. The temperature of the fruit must be raised rapidly during the first 2 hours, after which it may be gradually raised to 110° F., in the following 4 hours.

(ii) While no specifications as to the exact methods and equipment for obtaining these conditions are prescribed, the air within the room shall be maintained at the temperature and under the humidity conditions required by the supervising inspector. Available information clearly indicates that by the application of dry heat the required temperatures cannot be reached without injury to the fruit. To prevent such injury it is necessary to maintain a very high humidity throughout the period of treatment. In the tests where successful performance was obtained, live steam as the source of heat was applied in such a way as to secure as nearly as possible a uniform distribution of steam-heated air so directed as not to discharge directly on the fruit. The air temperature ranged from 110° to 112° F., and the air was very moist. The fruit was held in field boxes stacked six boxes high and without special means of separating the boxes in each stack. The experiments indicate that the fruit should be sterilized after coloring, if this is necessary, and before packing for shipment, and then cooled down to a temperature around 45° F. as soon as possible after sterilizing. Wax or paraffin, either dry or in solution, should not be applied to this fruit before sterilization.

(3) *Low-temperature methods.* This approved treatment shall consist of either:

(i) Cooling until the approximate center of the fruit reaches a temperature of 33° F. and holding the fruit at or below that temperature for a period of 18 days; or,

(ii) Cooling until the approximate center of the fruit reaches a temperature of 34° F. and holding the fruit at or below that temperature for a period of 20 days.

(iii) Cooling until the approximate center of the fruit reaches a temperature of 35° F. and holding the fruit at or below that temperature for a period of 22 days.

(c) *Other conditions.* Such treatments as are approved in paragraph (b) of this section may be conducted only in packing or refrigeration plants that are located in the regulated area and are approved by the Plant Pest Control Branch. The Branch will approve only those plants that are adequately equipped to handle and fumigate or sterilize fruit. Such treatment will be done under the supervision of inspectors of the Branch. These inspectors shall at all times be given access to fruit while in the process of treatment.

(d) *Department not responsible for damage.* While the results of the fruit treatment experiments so far conducted have been successful, it should be emphasized that inexactness and carelessness in operation may result in injury to fruit. In approving the methods of treatment specified in paragraph (b) of this section the United States Department of Agriculture does not accept the responsibility for fruit injury.

The foregoing administrative instructions shall be effective December 23, 1955, and at that time shall supersede B. E. P. Q. 575, effective February 1, 1949, (7 CFR, 1954 Supp., 301.64-4a).

The foregoing revised administrative instructions provide a new alternate method of ethylene dibromide fumigation. In this respect, they relieve restrictions now imposed. In addition they restate methods of low-temperature and vapor-heat treatments previously approved in administrative instructions now in effect. In order to be of maximum benefit to shippers of citrus fruit, such new alternate method should be made available as soon as possible. Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and public procedure on the foregoing administrative instructions are unnecessary, impracticable, and contrary to the public interest, and since these instructions relieve restrictions they may properly be made effective under said section 4 less than 30 days after their publication in the FEDERAL REGISTER.

(Secs. 1, 3, 33 Stat. 318; 7 U. S. C. 141, 143, 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 20th day of December 1955.

[SEAL] W. L. POPHAM,
Chief,
Plant Pest Control Branch.

[F. R. Doc. 55-10305; Filed, Dec. 22, 1955; 8:51 a. m.]

[P. P. C. 612, Second Revision]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—KHAPRA BEETLE

REVISED ADMINISTRATIVE INSTRUCTIONS DESIGNATING PREMISES AS REGULATED AREAS UNDER REGULATIONS SUPPLEMENTAL TO THE KHAPRA BEETLE QUARANTINE

Pursuant to § 301.76-2 of the regulations supplemental to the Khapra Beetle Quarantine (7 CFR 301.76-2, 20 F. R. 1012) under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), revised administrative instructions are hereby issued as follows, listing warehouses, mills, and other premises in which infestations of the khapra beetle have been determined to exist and designating such premises as regulated areas within the meaning of said quarantine and regulations.

§ 301.76-2a *Administrative instructions designating certain premises as regulated areas under the khapra beetle quarantine and regulations.* Infestations of the khapra beetle have been determined to exist in the warehouses, mills, and other premises listed below. Accordingly, such warehouses, mills, and other premises are hereby designated as regulated areas within the meaning of the provisions in this subpart:

ARIZONA

Acme Bag & Burlap Co., 3200 South Seventh Street, Phoenix.

Allied Grain Company, 310 South 24th Avenue, Phoenix.

Arizona Flour Mills, South Peart Road at Southern Pacific Railroad, Casa Grande.

Arizona Flour Mills, Tempe.

Arizona Flour Mills, 177 East Toole, Tucson.

Arizona Grain Storage Co., 100 South Nevada, Chandler.

Arizona Stock Farms, Inc., Arlington.

Arizona Wholesale Supply Co., 191 Toole Avenue, Tucson.

Arlington Cattle Co. (warehouse and mill), Highway 80, Arlington.

C. A. Batty Farm, Box 27, Glenbar.

Box O Ranch P. O. Box 424, Coolidge.

Brown's Farm Store, 3555 East Washington, Phoenix.

Capitol Feed & Seed, South Pacific Street and East Dirklay Avenue, Coolidge.

Capitol Feed & Seed Co., 312 South 15th Avenue, Phoenix.

Chandler Feed & Seed Store, 256 South Arizona Avenue, Chandler.

Delinting & Seed Treating Co., 3100 South Seventh Street, Phoenix.

Elloc Farm, Route 4, Box 182, Phoenix.

Erly-Fat Livestock Feed Co., South Peart Road at Southern Pacific Railroad, Casa Grande.

Erly-Fat Livestock Feed Co., 117 East Toole Avenue, Tucson.

C. H. Espy (town property), 1089 B Avenue, Yuma.

John H. Evans Farm Storage, Route 4, Box 330, located ¼ mile east of 75th Avenue on south side of Van Buren Street, Phoenix.

Farm Equipment & Supply, First Street and California Avenue, Parker.

Farmers' Coop. Marketing Association, 401 Eighth Street, Yuma.

Farmers' Coop. Marketing Association, Highway 95, Yuma.

Feeders Supply Co., 751 West Main, Mesa.

G & H Feed Store, 812 Thatcher Boulevard, Safford.

Grubbs Hatchery, P. O. Box 1806, Yuma.

International Market (Jimmy Ng), 106 Main Street, Somerton.

Frank Kornegay Farm (storage bins), 10th Street and Avenue D, Yuma.

Henry Leivas Farm, Route 1, Box 48-B, Parker.

Long's Dairy (barn), Buckeye.

Mrs. Pearl McCreary Ranch, Route 1, Gilbert.

McElhaney Cattle Company, cattle feed lot, 44 North Central Avenue, located 1 mile south and 1½ miles east of Tempe, on east Broadway, Phoenix.

Millett Feed Barn & Millett Feed & Storage Warehouse, 254 South Sirrine Street, Mesa.

Northrup-King Seed Co., 953 Third Avenue, Yuma.

Pablo Franco Ranch, 1764 Avenue B, Yuma.

Peterson's Feed & Supply, 940 North Stone Avenue, Tucson.

Phoenix Hay & Feed Company, 4111 North Seventh Street, Phoenix.

Quick Seed & Feed, 2101 Grand Avenue, Phoenix.

Ranchers Feed & Supply, 264 South Scottsdale Road, Scottsdale.

Red Star Feed & Seed Store, 220 Mill Street, Tempe.

R. F. Richter Feed Store, Box 51, Parker.

South Central Feed & Supply (warehouse), 3710 South Central Avenue, Phoenix.

Southern Feed & Hardware, 25 East Southern Avenue, Phoenix.

Southwest Flour & Feed, 347 East A Street, Glendale.

Tiemann Feed & Supply Co., 2001 North Stone Avenue, Tucson.

Tovrea Land & Cattle Co., 5001 East Washington, Phoenix.

Tucson Hay and Grain Co., 4734 East Speedway, Tucson.

Valley Feed & Seed, 1918 West Van Buren, Phoenix.

Valley Hay Market, 334 West Prince Road, Tucson.

Vita-Gro Feed Store, 155 West Main Street, Mesa.

Norman Welker Farm, Route 1, Safford.

Whitman Grain Co., 11th Street, Yuma.

Whitman Seed Co., 11th Street, Yuma.

Yuma County Feed & Seed Warehouse & Store, 2101 Eighth Street, Yuma.

CALIFORNIA

Paul H. Aspey Farm Storage Bins, 1 mile south of Highway 80 on Highway 111, and 1 mile east of Acacia Canal Gate 67, El Centro. Mail address Box 264, El Centro.

Janice Axtell Farm, Route 4, Box 2250, Oroville.

I. V. Bag Company (Nick Robolino, owner), located East A and Road 46, 304 North Ninth Street, Brawley. Mail address P. O. Box 1313, Brawley.

Bakersfield Cattle Feeding Co. Ranch, Box 3155, Greenfield.

B. S. Baldwin & Son Ranch, Route 2, Box 758, Bakersfield.

Beckwith & Co., 614 High Street, Delano.

E. M. Bevins Ranch, Route 2, Box 22, El Centro.

John Binnell (chicken ranch), 1607 South Cucamonga Avenue, Ontario.

Thomas Blackman Property (Bag fumigation), southwest corner of intersection of Sixth Street and Emerson, Calexico.

L. R. Bonesteel Ranch, located one-sixth mile north of Highway 98 from a point 1.7 miles east of Bonds Corner, Holtville. Mail address Route 1, Holtville.

Joe Bowers Ranch, Road 66, three-fourths mile west of Road B, Route 1, Box 14, Calipatria.

Hershel Brady Ranch, 1531 East A Street, Brawley.

Madeline Britton Property, 219 First Street, Calexico.

C. H. Burns Ranch, located two miles northeast of Shafter at southwest corner of Mettler and Merced Avenue. Mail address Route 1, Box 12, Shafter.

Camp and Mebane Cattle Co. Feed Yard, 3½ miles east of Cawelo on Lerdo Road, Cawelo.

Louis Carano Ranch, east of Southern Pacific Railroad tracks at intersection of County Roads East B and No. 8, 1 mile south of Heber.

Charles C. Causey (small farm used for storage and farm feeding), 653 South Imperial Avenue, northwest corner intersection County Roads East M and 46, Brawley.

Central Valley Feed Yard, Inc., East Eighth Street and RR. tracks, Imperial.

Louis J. Charlebois, Jr., Ranch, Route 2, Box 375, Blythe.

Fred Clendonen Ranch, Route 5, Box 359, Bakersfield.

Coachella Valley Feed Yard, east side of Highway 111, south of Avenue 54. Mail address Box 226, Thermal.

J. E. Conrad Ranch, 18782 Livermore Street, Reedley.

C. E. Cook Ranch, ¼ mile south of intersection of County Roads 39 and West 1, Imperial.

Olaf Dahlquist Ranch, intersection of Road 28 and West N, Route 2, Box K, Imperial.

W. Denewiler Ranch, Route 1, Box 77, Blythe.

Rosie Diffenboeker Ranch, County Road No. 68, one-half mile west of Highway 111, Calipatria.

C. R. Dow Ranch, Long Valley, North fork of Wolf Creek, 4 miles north of Highway 20, P. O. Clearlake Oaks.

El Centro High School, barn on County Farm, El Centro.

The Farmers Cattle Feeding Yard, three-quarter mile west of Highway 111, north of Brawley. Mail address Box 155, Brawley.

Harry Finney Ranch, Somerset Road, SW¼ of sec. 24, T. 10 N., R. 3 W., near Hinkley.

Archie Frick Ranch, SE¼ of sec. 7, T. 32 S., R. 29 E., near Arvin. Mail address 325 Third Avenue, Arvin.

Forrest Frick Ranch, located one mile east of Lamount on west side of Vineland Road, 150 yards south of Di Giorgio Road. Mail address Route 5, Box 437, Bakersfield.

Forrest Frick Ranch, located west side of Vineland Road, four-tenths of a mile south of Di Giorgio Road. Mail address Route 5, Box 437, Bakersfield.

Fred Frick Ranch, the south 100 acres of the NW¼ of sec. 7, T. 32 S., R. 29 E., near Arvin. Mail address 325 Third Avenue, Arvin.

Bud Frye Ranch, 72155 Frankwood (2 miles north of Reedley), Reedley.

Ernest Furrer Ranch, northeast corner of intersection of county roads West J and 18, El Centro.

Pete Gardner Ranch, one-half mile south of Cemetery Road on west side of unnamed road, one-half mile east of Evergreen Cemetery, 2 miles east of courthouse, El Centro.

Joe Grassotti Ranch, 899 West Fairview Road, Bakersfield.

Bud Gunterman Ranch, on East G, one-half mile south of road 8 on west side of Acacia Canal at Gate 4, Calexico.

Gunterman Ranches (Bud Gunterman, owner), intersection of East L and Road 14, Calexico.

L. R. Hamilton Ranch, Route 3, Box 568, Visalia.

Hangover Farms, located northwest corner Road 20 (Highway 80) and West E, Box 418, El Centro.

F. J. Hauseur & Sons Feed Lot, located 2 miles south of Orita, 1½ miles east on Oxallo Canal, Brawley.

Gilbert Hayden Ranch, located at northwest corner of West 26 and F Road. Mail address P. O. Box 195, Imperial.

Hiett Dairy, located one mile west of Delano on Hiett Avenue, 300 yards south of County Line Road, Route 1, Box 1088, Delano.

C. P. Hiles Ranch, Route 5, Box 2309, Oroville.

Oscar Holdenried Farm Storage Bins, Renfro Drive, 1 mile west of Kelseyville. Mail address Box 338, Lakeport.

Holly Sugar Co. Feed Lot, located at intersection of East B and Road 34, Brawley.

Holtville Milk Coop., Holtville.

Ray J. Hovely Ranch, Old Calipatria Highway, 2½ miles north of Brawley, Brawley.

Harold Hunt Ranch, 742 Olive (7 miles east of Heber), El Centro.

Alvin Immel Ranch, located Oasis Canal, Gate 24, intersection of East O and Road 35, Holtville.

J. A. Ivey Ranch, Route 2, Box 167, Blythe.

Burt and Clinton James Store, southeast corner Johnson Dale Highway and Buena Vista Drive, Kernville.

Carl Johns & Son Ranch, located 10 miles northwest of Bakersfield on west side of Calloway Drive, 200 yards south of Snow Road, Route 4, Box 576, Bakersfield.

D. H. Johnson Ranch, Route 2, Box 104, Imperial.

Johnson & Drysdale Cattle Co., Route 1, Box 143, Calexico.

H. Johnson Ranch, Route 1, Box 206, Terra Bella.

Everet Jones Ranch, intersection of East R and Road 56, Route 2, Box 174, Brawley.

A. H. Karpe Greenfield Ranch, Station A, Box 187, Greenfield.

Clarence Keel Ranch, Highway 111, 4 miles north of Calipatria.

J. R. Kennedy Ranch, located in Long Valley, approximately 6 miles north of Highway 20, P. O. Clearlake Oaks.

Kern County Land Company, Gosford Feed Yard, 2920 M Street, Bakersfield.

Kern Valley Farms, on Wheeler Ridge Road, 1 mile south of Herring Road, Box 184, Arvin.

Henry Kirchener Dairy, on west side of County Road East B, one-fourth mile north of County Road 28, El Centro.

C. E. Kline Ranch, Route 2, Box 282, El Centro.

Estle Lain Ranch, located one-eighth mile west of intersection of Road West C and Road 21, north side of Road 21, Route 1, Box 9, El Centro.

R. Langley Ranch, Route 2, Box 39A, Holtville.

N. K. Larsen Ranch, located at intersection West G and Road 33, Route 2, Box 138, Imperial.

Fritz Lehman Ranch, Route 1, Box 99, northeast of El Centro.

Miss Mattie Lund and Irene Lund Parker Ranch, 6 miles east of Oroville, P. O. Drawer 309, Oroville.

Gene Malone Ranch, Route 1, Box 1440M, Indio.

Tom Manning Feed Barns, north end of Sones Drive, east side of Adobe Creek, north of Finley. Mail address Box 54, Lakeport.

F. B. Marlow Ranch, intersection of West A and Road 54, Star Route, Box 27, Westmoreland.

Marshall Seed & Feed Co., 126 South Sixth, El Centro.

Peter L. Marston Ranch, Route 2, Box 261, El Cajon.

John T. Martin Ranch, Route 1, Box 99, Earlimart.

Kelly McCollum Ranch, intersection of Road 28 and West E, Route 1, Box G, Imperial.

M. L. McFarland (small farm), County Road West A, one-fourth mile north of County Road 28, P. O. Box 327, Imperial.

S. C. McGonagle Ranch, two miles east of El Centro from Highway 80 on the Dogwood Canal. Mail address Box 978, El Centro.

Mee Ranches (lessee), 1901 East Brundage Lane, Bakersfield.

Milham Farms, Blue Moon Ranch, Lerdo Road, Buttonwillow.

Henry Munger Feed Lot, 299 Main Street, El Centro.

L. C. Myers Ranch, intersection of East V and County Road 58, Brawley.

Newhall Land & Farming Company, Route 3, Box 77, Saugus.

Niland Food Market (store), west side of 200 block, east side of Highway 111, Niland.

Onyx Store property (Oscar Rudnick, owner), Onyx.

Oro Farm and Cattle Co. (Benjamin Kosdon, owner), located one and one-half miles northeast of Buttonwillow on west side of Wasco Way, one-half mile north of Highway 178, Box 274, Buttonwillow.

Outsen Milling Co., 925 Bryant Street, San Francisco.

Palo Verde School District Farm, Palo Verde Junior College, west side of Lovekin, between Chancelor Way and 10th Avenue, Blythe.

Pauba Ranch Mill & Feed Yard (Vail Co., owner), north side of Highway 71, 3½ miles north of junction with Highway 395, south of Temecula.

I. F. Porter (small farm), Route 2, Box 9A, Brawley.

Raymond A. Powell and Mike Deniz Ranch, Route 1, Box 166, 1 mile north of Glenn.

Paul Pryor Dairy, 5501 Olive Drive, Oildale, located four miles west of U. S. Highway 99, south side of Olive Drive, approximately three miles northwest of Bakersfield.

C. B. Ralph's Ranch, at northeast corner of intersection of County Roads East C and 32, Imperial.

Emil Rebik Ranch, near East P on north side of Road 58, Box 184, Brawley.

Clare Rexroth Ranch, in sec. 8, T. 27 S., R 27 E., Route 1, Box 98, McFarland.

J. W. Roberts Ranch, located at Ash Canal, Gate 160, intersection of East J and Road 18, Route 2, Box 57, Holtville.

F. O. Rosenbaum Ranch, Route 2, Box 29, Imperial.

Harold B. Ross Ranch, Route 1, Box 78, Holtville.

Oscar Rudnick Ranch, on Highway 178, across highway from Onyx Store, Onyx.

Oscar Rudnick Ranch, one-half mile north of Onyx Store, Onyx.

Rudinick Trust Feed Lot, 1½ miles west of Oak Street, on Panama Lane, Bakersfield.

Leroy Schaad Ranch, at northwest corner of intersection of Ware Road and Lone Star Road, Williams.

F. W. Schoneman Ranch, at southwest corner of intersection of County Roads East T and 54, Brawley.

Walter E. Scott Ranch, southwest corner of 14th Avenue and Defrain Boulevard, P. O. Box 283, Blythe.

Roy C. Shank Ranch, Route 2, Box 17A, Brawley.

K. K. Sharp (small farm and storage), Route 1, Box 44, southeast corner intersection County Roads East R and 26, on Pampas Canal, Holtville.

Shaw and Dower (feed lot and bulk storage at residence), three-fourths mile north of Sandia, Holtville.

Frank Sherwood Ranch, 920 Lewelling Avenue, Hayward.

Alice Sinclair Ranch, Vail Canal No. 3, Gate 309, 5½ miles west, thence one-half mile north of Calipatria, on northwest corner of intersection of West I and County Road 66, Calipatria.

Mrs. L. E. Sinclair (residence), Road East A, one-half mile south of intersection with Road 65, P. O. Box 234, Calipatria.

Snyder's Termite Control, 4428 Magnolia Avenue, Riverside.

Starkey Bros. Dairy, Imperial.

Studer Bros. Ranch, County Road 6, two miles east of Mt. Signal School, Wisteria Lot 4, Route 1, Box 74A, Calexico.

K. W. Taylor Feed Lot, located at intersection of West H. and Road 9, Route 2, Box 45A, El Centro.

E. W. Thornton Ranch, Route 2, Box 2, Imperial.

Union Development Co. Warehouse, approximately 100 yards south of intersection of County Roads No. 86 and West A, Niland.

John Waterman Ranches, located one-eighth mile west of El Centro on Ross Avenue, Route 2, Box 95, El Centro.

Albert Whitlock Ranch, southeast corner of intersection of Highway 111 and Road 77, P. O. Box 19, Calipatria.

Wildlife Refuge Unit No. 1, at northeast corner of intersection of West I and County Road 60, Brawley.

Wildlife Refuge Unit No. 2, on east side of West I, one-fourth mile north of County Road 74, Brawley.

Wilkerson Brothers Ranch, on south side of County Road No. 74, one-half mile east of County Road East J, Calipatria.

Ray Willis Ranch, Route 1, Box 106, Brawley.

R. B. Wilson Co. Feed Yard, 300 K Street, Brawley.

T. O. Witt Ranch, on Highway 178, 13 miles northeast of Isabella Lake, Onyx.

D & A Wittenberg Ranch, located south side of Tulare Avenue, one-half mile west of Scaroni Avenue, 3 miles west of Shafter, Route 1, Box 238, Shafter.

Wright Feed Yards, Seeley.

W. E. Young Ranch, intersection of East N and Road 66, P. O. Box 267, Calipatria.

William Youtsler Ranch, intersection of West J and Road 58, Route 1, Brawley.

Miguel D. Yslava Ranch, Route 1, Box 200, El Centro.

NEW MEXICO

Slone Grain Co., 223 North Avenue B, Portales.

This revision combines into a single list the warehouses, mills, and other premises that were designated as khapra beetle regulated areas in revised administrative instructions effective June 22, 1955 (20 F. R. 4361), as amended effective July 13, 1955, July 30, 1955, August 17, 1955, September 17, 1955, October 11, 1955, and November 17, 1955 (20 F. R. 4979, 5447, 5961, 6992, 7565, 8515).

By omitting from the list 7 establishments in Arizona, 15 establishments in California, and 3 establishments in New Mexico, the revision revokes the designation of these establishments as regulated areas and deletes them from the list. The revision also adds to the list 2 establishments in Arizona and 6 establishments in California, thereby designating them as regulated areas.

This revision shall be effective December 23, 1955, and on that date shall supersede revised administrative instructions effective June 22, 1955, and amendments thereof effective July 13, 1955, July 30, 1955, August 17, 1955, September 17, 1955, October 11, 1955, and November 17, 1955 (20 F. R. 4361, 4979, 5447, 5961, 6992, 7565, 8515).

These instructions supplement khapra beetle quarantine regulations already effective. They also relieve restrictions insofar as they revoke the designation of certain regulated areas. They must be made effective promptly in order to carry out the purposes of the regulations and to permit unrestricted movement of regulated products from the premises being removed from designation as regulated areas. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing administrative instructions are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 9, 37 Stat. 318; 7 U. S. C. 141, 143, 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 20th day of December 1955.

[SEAL] W. L. POPHAM,
Chief,
Plant Pest Control Branch.

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Regs. 814.15, 814.16]

PART 814—ALLOTMENT OF SUGAR QUOTAS

QUOTAS AND DIRECT CONSUMPTION PORTION, PUERTO RICO, 1956

Basis and purpose. This allotment order is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of (A) allotting the 1956 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar transferred for further processing and shipment within the direct-consumption portion of such quota) and the 1956 sugar quota for local consumption in Puerto Rico among persons who process Puerto Rican sugarcane into sugar (1) to be brought into the continental United States and (2) to be marketed for local consumption in Puerto Rico and (B) allotting the portion of the 1956 sugar quota for Puerto Rico which may be filled by direct-consumption sugar among persons who market such sugar for consumption in the continental United States.

The sugar quota for Puerto Rico for consumption in the continental United States is referred to herein as "mainland quota", allotments thereof are referred to as "mainland allotments" and the allotments of the direct-consumption portion thereof as "direct-consumption allotments". The sugar quota for consumption in Puerto Rico and allotments thereof are referred to as "local quota" and "local allotments," respectively.

Omission of recommended decision and effective date. The record of the hearing regarding allotment of the 1956 sugar quotas for Puerto Rico shows that inventories of sugar on January 1, 1956, will approximate 140,000 tons and production of sugar from 1955–56 crop sugarcane will be approximately the sum of the local and mainland quotas established by the Secretary of Agriculture (R. 5, 6). Some of the mainland and local allotments made by this order could be exceeded by the marketing of the 1955 carryover plus a comparatively small quantity of new-crop sugar. Also, the record of the hearing regarding allotment of direct-consumption sugar shows that the capacity of Puerto Rican refineries to produce direct-consumption sugar far exceeds the sum of 126,033 short tons, raw value, of such sugar which may be marketed in the continental United States under the act and the quantity of sugar needed for local consumption in Puerto Rico in 1956 (R. 23). Some of the direct-consumption allotments made by this order are small and delay in the issuance of the order might result in some persons marketing more than their fair share of the direct-consumption portion of the quota. Since this proceeding was instituted for the purpose of issuing allotments to prevent disorderly marketing of sugar and to afford all interested persons an equitable opportunity to market, it is hereby found that due and timely execution of the functions imposed upon the Secretary under the act imperatively and unavoidably requires omission of a recommended decision in this proceeding. It is hereby further found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237), is impracticable and contrary to the public interest and, consequently, this order shall be effective on January 1, 1956.

Preliminary statement. Under the provisions of section 205 (a) of the act, the Secretary is required to allot a quota or proration thereof whenever he finds that allotment is necessary (1) to assure an orderly and adequate flow of sugar or liquid sugar in the channels of interstate or foreign commerce, (2) to prevent the disorderly marketing of sugar or liquid sugar, (3) to maintain a continuous and stable supply of sugar or liquid sugar, or (4) to afford all interested persons equitable opportunities to market sugar within the quota for the area. Section 205 (a) also requires that such allotment be made after such hearing and upon such notice as the Secretary may by regulation prescribe.

Pursuant to the applicable rules of practice and procedure (7 CFR 801.1 et. seq.), a preliminary finding was made that allotment of the quotas is necessary and a notice was published on September 24, 1955 (20 F. R. 7170), of a public hearing to be held at Santurce, Puerto Rico, in the Conference Room, Caribbean Area Office, ASC, Segarra Building, on October 5, 1955, at 10:00 a. m., for the purpose of receiving evidence to enable the Secretary to make a fair, efficient and equitable distribution of (A) the 1956 mainland quota (including raw sugar transferred for further processing and the shipment within the direct-consumption portion of the quota) and the 1956 local quota among persons who process Puerto Rican sugarcane into sugar (1) to be brought into the continental United States and (2) to be marketed for local consumption in Puerto Rico, and of (B) the direct-consumption portion of the 1956 sugar quota for Puerto Rico. The hearing was held at the time and place specified in the notice.

In arriving at the findings, conclusions, and regulatory provisions of this order, all proposed findings and conclusions were carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings and conclusions proposed by interested persons are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

Basis for findings and conclusions. Section 205 (a) of the act reads in pertinent part as follows:

• • • Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processing of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, determined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person and the ability of such person to market or import that portion of such quota or proration thereof allotted to him • • •

A. Allotment of mainland and local quotas. The record of the hearing indicates that the prospective Puerto Rican sugar supplies for 1956 sufficiently exceed the quota for Puerto Rico that allotment of the quotas is necessary (R. 5, 6).

All three factors specified in the provision of law quoted above have been considered and each is given a percentile weighting by the formula on which this allotment of the 1956 quotas for Puerto Rico is based. That formula follows a proposal made in the record as to the measures and weightings of factors to be used for determining combined mainland and local allotments (R. 6–7), with provisions for estimates to be used in making initial allotments (R. 8) and sources of data to be used in making final allotments (R. 9).

The formula is made applicable to combined allotments because total marketing opportunities are of greatest significance in determining an equitable distribution among the allottees and because two of the three factors specified in the act for consideration, processings from proportionate shares and ability to market, represent quantities applicable to total marketings. Direct measurement of these factors in relation to local allotments has little relevance because, for the area as a whole, local marketings

amount to only about 10 percent of these factors, and the relative proportion for different allottees varies from zero to about 50 percent (R. 10–11). All processings from a crop are used as a measure of the factor "processing of sugar or liquid sugar from • • • sugarcane to which proportionate shares • • • pertained," even though small quantities of processings from non-proportionate share sugar may be included, since such raw sugar for direct consumption in the formula used for fixing allotments (R. 9).

No other proposals were made and no exception was taken to the proposed procedure which is essentially the same as that which proved satisfactory in allotting the 1955 quota.

A proposal was made in the record for dividing the combined allotment of each allottee into mainland and local allotments on the basis of the percentage that local marketings of each allottee was of its total marketings in 1954 and 1955 (R. 11, 12). Local marketings utilized in the findings and conclusions include all of the marketings to purchasers in Puerto Rico not accounted for by sugar (1) brought into the continental United States by a refiner to whom the allottee transferred sugar for that purpose, or (2) exported at so-called "world prices" (R. 9). A representative of Central Juanita, Inc., proposed using only 1955 instead of a two-year period (R. 21). In finding that local allotments should be based on local marketings in 1955 only, recognition has been given to the testimony at the hearing that marked changes have occurred in the local marketings of individual processors in recent years (R. 11). No other exceptions were taken or proposals made with respect to dividing combined allotments into mainland and local allotments.

As proposed in the hearing record (R. 12) a finding is made to limit initial allotments to 80 percent of the quota, because the use of estimates may result in allotments higher than those resulting from the use of final data. Findings also are made upon uncontroverted evidence in the record that revisions be made in the order, without further notice or hearing, for the purposes of substituting final data for estimates (R. 8) and for revising allotments resulting from the release of allotments by any allottee, or resulting from the proration of any deficit in a quota of another area (R. 13, 14). All allottees stipulated for the record that deficits in quotas or allotments, and final production, marketing and inventory data for each allottee shall become a part of the record.

Findings are made under paragraphs 13 and 14, and paragraphs (b), Producers marketings under allotments; (c), Restrictions on marketings; (d), Exchange of allotments, and (e), Specific charges against allotments, are included in the order since similar provisions operated satisfactorily in 1955, and no objection was made to the proposal in the record that such provision be included (R. 13).

In view of the testimony in the record by a representative of Central San Francisco that his firm, formerly known as the Estate of Arturo Lluberas and Sobrinos had changed its name to Central San Francisco (R. 18), such change in name has been reflected accordingly in the findings and allotment order.

B. *Allotment of the direct-consumption portion of the mainland quota.* The record of the hearing shows that the potential capacity of Puerto Rican refiners to produce direct-consumption sugar sufficiently exceeds the quantity of such sugar which may be marketed within quotas that allotment of direct-consumption sugar is necessary (R. 23).

While all three factors specified in the provisions of section 205 (a) of the act quoted above have been considered, only the "past marketing" and "ability to market" factors have been given percentile weightings in the formula used on which the allotment of the direct-consumption portion of the 1956 mainland quota for Puerto Rico is based. Testimony indicates that allottees accounting for 95 percent of the marketings of direct-consumption sugar to the continental United States do not process sugar from sugarcane and that giving weight to the factor "processing from proportionate shares" would not lead to equitable allotments (R. 24).

The findings and conclusions for measuring and weighting the two factors "past marketing" and "ability to market" follow a proposal made in the record (R. 24, 25). By using marketings of direct-consumption sugar in the continental United States during the years 1951–55, inclusive, as a measure of "past marketings," a period of years has been selected that represent experience under marketing conditions similar to those which may be expected in 1956, and also provide a period of time sufficient to offset short-run factors affecting data for a single year. By using the largest marketings of direct-consumption sugar in the continental United States by each allottee in any year during the period 1935 through 1955 as a measure of "ability to market," a sufficient period of time has been provided to permit the selection of a year for each allottee which will reflect relative abilities. A shorter period as proposed by a representative of the Western Sugar Refining Company (R. 30, 31) would not afford the same opportunity to measure relative abilities on the basis of one year's shipments. A comparison with present plant capacity shows no impairment in the ability of any of the allottees to produce direct-consumption sugar (R. 25).

Two hundred tons of the direct-consumption portion of the quota to be allotted has been set aside for the marketing of raw sugar for direct consumption as proposed in the record (R. 27). It is not practicable to allot such a small quantity to numerous raw sugar mills in advance, hence allotments will be made upon application for specific sales. This procedure continues a trade practice followed in previous years, and contributes to an efficient allocation of the direct-consumption portion of the 1956 sugar quota to be allotted.

The two hundred tons set aside would permit the marketing of Puerto Rican raw sugar for direct consumption in the continental United States at a slightly higher rate than in 1955 prior to the hearing, but at a lower rate than in any other recent year (R. 27).

In accordance with the record of the hearing (R. 27, 28) provision has been made in the findings and the order to reallocate, without further notice or hearing, any quantity of an allotment released by an allottee or any quantity of the unallotted reserve not needed for the marketing of raw sugar for direct consumption. Also, as proposed in the record (R. 28), the findings and order contain provisions relating to restrictions on marketing similar to those contained in the 1955 Puerto Rican allotment order, since such provisions operated successfully in 1955 and no objection was made in the record to their inclusion in 1956.

The name of the allottee formerly known as Estate of Arturo Lluberas y Sobrinos has been changed to Central San Francisco in accordance with testimony in the record (R. 18).

Findings and conclusions. On the basis of the record of the hearing, I hereby find and conclude that in regard to:

A. *Allotment of mainland and local quotas.* (1) For the calendar year 1956 Puerto Rican processors will have available for marketing on the mainland and in Puerto Rico an amount of sugar which exceeds the combined mainland and local quotas by approximately 140,000 short tons.

(2) The allotment of the 1956 mainland quota for Puerto Rico (including raw sugar transferred for further processing to be brought in within the direct-consumption portion of the quota) and the 1956 local quota for Puerto Rico is necessary to prevent disorderly marketing of such sugar and to afford all interested persons equitable opportunities to market such sugar in the continental United States and in Puerto Rico.

(3) To assure a fair, efficient and equitable distribution of the mainland and local quotas for Puerto Rico for 1956 the three statutory standards should be weighted as follows: "processings • • • from • • • proportionate shares," 70 percent; "past marketings," 10 percent; and "ability to market," 20 percent.

(4) The percentage which all of each allottee's processings for the 1955–56 crop is of the total of such processings for all allottees constitutes a fair and equitable measure of "processings • • • from • • • proportionate shares" and in the initial order all processings from 1954–55 crop sugarcane should be used as estimates of processings from 1955–56 crop sugarcane.

(5) A fair and equitable measure of the factor past marketings for each allottee is the percentage which its average mainland and local marketings during the years 1951 through 1955 is of the total of such average marketings for all allottees and in the initial order the combined allotments for 1955 as set forth in Exhibit 4, corrected, of the record should be used as estimates of marketings for 1955.

(6) The sum for each allottee of processings of sugar from 1955–56 crop sugar plus the inventory of sugar on January 1, 1956, as a percentage of the total of such sums for all allottees constitutes a fair and equitable measure of the ability of each allottee to market sugar during 1956. In the initial order the estimate of 1955–56 processings indicated in paragraph (4), above, should be used, and the January 1, 1955, inventories plus processings of sugar from 1954–55 crop sugarcane less 1955 combined allotments as indicated in (5), above, should be used as estimates of the January 1, 1956, inventories.

(7) The percentages that local marketings were of combined mainland and local marketings for each processor during 1955 are representative for the purpose of dividing the combined 1956 allotment for each processor into a mainland allotment and a local allotment and in the initial order the local allotments for 1955 adjusted for exchanges of local and mainland allotments between allottees effected prior to September 30, 1955, as set forth in the record (Ex. 4 corrected) should be used as estimates of local marketings for 1955.

(8) The quantities of sugar and the percentages referred to in paragraphs (4), (5), (6), and (7), above, are as set forth in the following table:

Processor	Production of sugar from 1954–55 crop sugarcane		Average annual marketings (estimated) 1951 through 1955		Jan. 1, 1956, estimated stocks plus production from 1954–55 crop sugarcane		Estimated local marketings 1955	
	Short tons raw value	Percent of total	Short tons raw value	Percent of total	Short tons raw value	Percent of total	Short tons raw value	Percent of allottee's total 1955 marketings

(9) The combined local and mainland quotas should be allotted by applying the weightings of the factors specified in paragraph (3) above to the percentage measures of those factors listed for each allottee in paragraph (8), and by multiplying the sum of such weighted percentages for each allottee by the sum of such quotas. The combined allotments so established should be divided into local and mainland allotments on the basis of the percentages local marketings are of total marketings in 1955 as listed in paragraph (8), above.

(10) In order to prevent any allottee from marketing a quantity of sugar in excess of the allotments established therefor on the basis of final data relating to 1955–56 crop processings, 1955 marketings and January 1, 1956, inventories, allotments established by this order should not exceed 80 percent of the combined mainland and local quotas.

(11) The order shall be revised without further notice or hearing for the purpose of (a) substituting data on processings of the 1955–56 crop sugarcane, 1955 local and mainland marketings and January 1, 1956, inventories for estimates used in measuring the factors in (4), (5), (6) and (7); (b) allotting any quantity of an allotment which may be released by an allottee, in writing to the Director of the Sugar Division, to other allottees able to utilize additional allotment in proportion to the established allotments of such allottees; and (c) allotting any area deficits to which Puerto Rico may become a beneficiary by allotting such quantities to allottees in the same proportion as the allotments then in effect.

(12) The name of the allottee formerly referred to as Estate of Arturo Lluberas y Sobrinos shall be changed to Central San Francisco.

(13) Any producer who receives sugar in payment for sugarcane (a) should be permitted to market, within the allotment of the processor who processed his sugarcane, a quantity of sugar equal to the same percentage of the producer's 1955–56 crop sugar that the sum of the processor's mainland and local allotments is of the total 1955–56 crop sugar processed from cane by such processor, and (b) such permitted quantity should be within the mainland allotment unless the producer requests local allotment. Further, a person who, as a producer, has sugar received from a processor in settlement for sugarcane of crops prior to that of 1955–56 shall be permitted to market such sugar within that processor's mainland allotment.

(14) An efficient distribution of the quotas requires exchanges between allottees of quantities of mainland allotment for like quantities of local allotment, subject to the approval of an officer of the Department designated in the order.

(15) Allotments established in the foregoing manner and in the amounts set forth in the order provide a fair, efficient, and equitable distribution of the quotas, as required by section 205 (a) of the act.

B. *Allotment of direct-consumption portion of the mainland quota.* (1) The potential capacity of Puerto Rican refiners to produce direct-consumption sugar during the calendar year 1956 exceeds 280,000 short tons and this quantity is far greater than the total quantity of such sugar which may be marketed within the 1956 sugar quotas for Puerto Rico.

(2) The allotment of the direct-consumption portion of the 1956 sugar quota for Puerto Rico is necessary to prevent disorderly marketing of such sugar and to afford each interested person an equitable opportunity to market such sugar in the continental United States.

(3) Assignment of a percentile weight to the "proportionate shares" factor in the final allotment formula would not result in fair, efficient and equitable allotment.

(4) The best measure of the "past marketings" factor for each allottee is its percentage of the average marketings of direct-consumption sugar of all allottees in the continental United States during the years 1951 through 1955.

(5) The best measure of the "ability to market" factor for each allottee is its percentage of the sum of the largest quantities of direct-consumption sugar of all allottees marketed in the continental United States during any calendar year during the period 1935–55, inclusive, and the ability so measured is within the present plant capacity of each refiner.

(6) The allotments of the direct-consumption portion of the 1955 mainland quota for Puerto Rico as established in Sugar Regulation 814.14 (19 F. R. 9322) and set forth in the record (Ex. 6) are adequate measures of 1955 marketings of direct-consumption sugar in the continental United States.

(7) The quantity of sugar marketed referred to in paragraphs (4) and (5), above, are as follows:

[Short tons, raw value]

Allottee	Average 1951–55	Highest year 1935–55
Central Aguirre Sugar Co., a trust	5,946	10,640
Central Roig Refining Co	19,794	28,665
Central San Francisco	776	2,560
Porto Rican American Sugar Rfy., Inc	78,853	116,611
Western Sugar Refining Co	19,696	29,988
Total	125,065	188,494

(8) A small part of the direct-consumption portion of the mainland quota is normally marketed in the continental United States as raw sugar for direct consumption. Two hundred short tons, raw value, should be reserved for this purpose in 1956.

(9) Allotments totaling 125,833 short tons, raw value, should be established by giving fifty percent weight to past marketings, measured as provided in paragraph (4), above, and fifty percent weight to ability to market, measured as provided in paragraph (5), above.

(10) Any quantity that may be released by any allottee who finds that it cannot use its full allotment and so indicates in writing to the Director of the Sugar Division, or any quantity that may not be needed to meet the demands upon the unallocated reserve for raw sugar for direct consumption, may be reallotted to allottees in proportion to their established allotments without further notice or hearing.

(11) The name of the allottee formerly referred to as Estate of Arturo Lluberas y Sobrinos shall be changed to Central San Francisco.

(12) Each allottee in 1956 should be restricted from bringing into the continental United States for consumption therein any direct-consumption sugar in excess of the smaller of its allotment established herein or the quantity transferred to such allottee and charged against an allotment of the 1956 Puerto Rican mainland quota. All other persons should be prohibited from bringing such sugar into the continental United States in 1956 for consumption therein except such sugar acquired from an allottee within its allotment established herein, or brought in as raw sugar within the quantity established therefor.

(13) Allotments established in the foregoing manner and in the amounts set forth in the order provide a fair, efficient, and equitable distribution of the direct-consumption portion of the mainland quota, as required by section 205 (a) of the act.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, it is hereby ordered:

§ 814.15 *Allotment of 1956 sugar quotas for Puerto Rico*—(a) *Allotments.* The 1956 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar to be further processed and marketed within the direct-consumption portion of such quota) and the 1956 sugar quota for local consumption in Puerto Rico, are hereby allotted, to the extent shown in this section, to the following processors in amounts which appear in columns (1) and (2) opposite their respective names:

[Short tons, raw value]

Processor	(1) Mainland allotment	(2) Local allotment
Antonio Roig, Sucesores, S. en C	21,283	17,071
Asociacion Azucarera Cooperativa	26,926	54
Central Aguirre Sugar Co., a trust	86,797	1,287
Central Coloso, Inc	49,619	490
Central Eureka, Inc	32,492	510
Central Guamani, Inc	9,818	-------
Central Igualdad, Inc	22,010	13,966

All other persons	-------	-------
Subtotal	864,000	80,000
Unallotted	216,000	20,000
Total	1,080,000	100,000

(b) *Producers' marketings under allotments.* Each processor shall reserve a share of its mainland allotment for the marketings of each producer with whom settlement for sugarcane is made in sugar equal to the same percentage of the producer's 1955–56 crop sugar that the sum of the processor's mainland and local allotments is of the processor's total production of 1955–56 crop sugar. Provided, That upon written request to the processor within 30 days of the effective date of this order, the producer's share shall be divided between local and mainland allotments as the sum of the processor's allotments is divided between mainland and local allotments. Further, a person who, as a producer, has sugar received from a processor in settlement for sugarcane of crops prior to that of 1955–56 shall be permitted to market such sugar within that processor's mainland allotment.

(c) *Restrictions on marketings.* (1) During the period January 1, 1956, to the date the allotments established in this section are revised on the basis of final data on processings from 1955–56 crop sugarcane, 1955 marketings and January 1, 1956, inventories, each processor named in paragraph (a) of this section, together with the producers with whom it shares its allotments under paragraph (b) of this section and all other persons are hereby prohibited from bringing into the continental United States for consumption therein, or marketing to a local refiner or any other person for that purpose, and from marketing for local consumption in Puerto Rico, any sugar in excess of the applicable quantities established in columns (1) and (2) of the table in paragraph (a) of this section.

(2) During the calendar year 1956 all persons who acquire raw sugar for further processing and resale as direct-consumption sugar are hereby prohibited from marketing sugar for local consumption in Puerto Rico in excess of the sum of (i) the quantity of sugar acquired for such purpose under the limitations specified in § 814.13, as amended (19 F. R. 9319; 20 F. R. 2686, 5674) and held in inventory on December 31, 1955, and (ii) the quantity of sugar acquired for such purpose within the limits specified in this section.

(d) *Exchange of allotments.* The allotments established in paragraph (a) of this section, or producers' shares thereof established under paragraph (b) of this section, shall not be exchanged without the approval of the Chief of the Quota and Allotment Branch, Sugar Division, Commodity Stabilization Service of the Department.

(e) *Specific charges against allotments.* Sugar produced in Puerto Rico which is brought into the continental United States for consumption therein or marketed for local consumption in Puerto Rico during 1956 shall be charged to the applicable allotment of the processor who processed such sugar.

§ 814.16 *Allotment of the direct-consumption portion of 1956 sugar quota for Puerto Rico*—(a) *Allotments.* The direct-consumption portion of the 1956 sugar quota for Puerto Rico, amounting to 126,033 short tons, raw value, is hereby allotted as follows:

Allottee	Direct-consumption allotment (short tons, raw value)
Central Aguirre Sugar Co., a trust	6,542
Central Roig Refining Co	19,526
Central San Francisco	1,255
Porto Rican American Sugar Refinery, Inc	78,592
Western Sugar Refining Co	19,918
All other persons (raw sugar only)	200
Total	126,033

(b) *Restrictions on marketing.* (1) During the calendar year 1956, each allottee named in paragraph (a) of this section is hereby prohibited from bringing into the continental United States, for consumption therein, any direct-consumption sugar from Puerto Rico in excess of the smaller of (i) the allotment therefor established in paragraph (a) of this section, or (ii) the quantity transferred to such allottee and charged against a 1956 mainland allotment under § 814.15.

(2) During the calendar year 1956, all persons other than the allottees specified in paragraph (a) of this section are hereby prohibited from bringing into the continental United States, for consumption therein, any direct-consumption sugar from Puerto Rico except (i) that acquired from an allottee within the quantity established in this section, and (ii) that brought in within the quantity established in this section for "all other persons".

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interpret or apply secs. 205, 209, 61 Stat. 926, 928; 7 U. S. C. 1115)

Done at Washington, D. C., this 16th day of December 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-10261; Filed, Dec. 22, 1955; 8:45 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-262]

PART 911—MILK IN THE TEXAS PANHANDLE MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK

Sec.
911.0 Findings and determinations.

DEFINITIONS

911.1 Act.
911.2 Secretary.
911.3 Department.
911.4 Person.
911.5 Cooperative association.
911.6 Texas Panhandle marketing area.
911.7 Producer.
911.8 Distributing plant.
911.9 Supply plant.
911.10 Pool plant.
911.11 Nonpool plant.
911.12 Handler.
911.13 Producer-handler.
911.14 Producer milk.
911.15 Fluid milk product.
911.16 Other source milk.
911.17 Chicago butter price.
911.18 Base milk.
911.19 Excess milk.

MARKET ADMINISTRATOR

911.25 Designation.
911.26 Powers.
911.27 Duties.

REPORTS, RECORDS AND FACILITIES

911.30 Reports of receipts and utilization.
911.31 Other reports.
911.32 Records and facilities.
911.33 Retention of records.

CLASSIFICATION

911.40 Skim milk and butterfat to be classified.
911.41 Classes of utilization.
911.42 Shrinkage.
911.43 Responsibility of handlers and reclassification of milk.
911.44 Transfers.
911.45 Computation of the skim milk and butterfat in each class.
911.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

911.50 Basic formula price.
911.51 Class prices.
911.52 Butterfat differentials to handlers.
911.53 Location differentials to handlers.
911.54 Use of equivalent prices.

APPLICATION OF PROVISIONS

911.60 Producer-handler.
911.61 Plants subject to other Federal orders.
911.62 Handlers operating nonpool plants.
911.63 Rate of payment on unpriced milk.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

911.70 Computation of value of milk for each handler.
911.71 Computation of aggregate value used to determine uniform prices.
911.72 Computation of uniform price.
911.73 Computation of uniform prices for base milk and excess milk.

PAYMENTS

911.80 Time and method of payment for producer milk.
911.81 Butterfat differentials to producers.
911.82 Location differentials to producers.
911.83 Producer-settlement fund.
911.84 Payments to the producer-settlement fund.
911.85 Payments out of the producer-settlement fund.
911.86 Adjustment of errors in payment.
911.87 Marketing services.
911.88 Expense of administration.
911.89 Adjustment of overdue accounts.
911.90 Termination of obligations.

DETERMINATION OF BASE

911.95 Daily base.
911.96 Base rules.
911.97 Announcement of established bases.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

911.100 Effective time.
911.101 Suspension or termination.
911.102 Continuing power and duty of the market administrator.
911.103 Liquidation after suspension.

MISCELLANEOUS PROVISIONS

911.110 Separability of provisions.
911.111 Agents.

AUTHORITY: §§ 911.0 to 911.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 911.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Texas Panhandle marketing area. Upon the basis of the evidence introduced in such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect the market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe with respect to butterfat and skim milk contained in (a) receipts of producer milk, (b) other source milk at a pool plant which is allocated to Class I milk pursuant to § 911.46 and, (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

(b) *Additional findings.* In view of the fact that this order will constitute the original imposition of a regulatory program of this nature for the market, the provisions other than those relating to prices and payments to producers, should be put into effect prior to the effective date of the entire order to afford handlers an opportunity to make any necessary changes in their accounting procedure or other adjustments as required to conform with all provisions of the order. Reasonable time will have been afforded interested parties to prepare to comply with the aforesaid provisions. The provisions of said order are known to handlers. The decision of the Assistant Secretary of Agriculture containing all provisions of this order was issued on November 22, 1955. In view of the foregoing, it is hereby found and determined that good cause exists for making §§ 911.1 through 911.19; 911.25 through 911.27; 911.30 through 911.33; 911.40 through 911.46; 911.60 and 911.61; 911.88 through 911.90; 911.100 through 911.103; 911.110 and 911.111, effective on January 1, 1956 and the entire order (§§ 911.1 through 911.111) effective February 1, 1956. It would be contrary to the public interest to delay such effective dates of this order for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of more than 50 percent of the milk covered by this order which is marketed within the Texas Panhandle marketing area refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum thereon and who, during the determined representative period (October 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Texas Panhandle marketing area

shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 911.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 911.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 911.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 911.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 911.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 911.6 *Texas Panhandle marketing area.* "Texas Panhandle marketing area," hereinafter called the "marketing area," means all the territory within the counties of Armstrong, Briscoe, Carson, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchison, Moore, Oldham, Ochiltree, Potter, Randall, Roberts, Sherman and Wheeler, all in the State of Texas.

§ 911.7 *Producer.* "Producer" means any person, except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is (a) received at a pool plant, or (b) diverted from a pool plant to a nonpool plant for the account of either the operator of the pool plant or a cooperative association (1) any day during the months of March through June and (2) on not more than 15 days during any of the months of July through February: *Provided,* That milk diverted pursuant to this section shall be deemed to have been received at the location of the plant from which diverted.

§ 911.8 *Distributing plant.* "Distributing plant" means a plant which is approved by an appropriate health authority for the processing or packaging of Grade A milk and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 911.9 *Supply plant.* "Supply plant" means a plant from which milk, skim milk or cream which is acceptable to the appropriate health authority for distribution in the marketing area under a Grade A label is shipped during the month to a pool plant qualified pursuant to § 911.10 (a).

§ 911.10 *Pool plant.* "Pool plant" means:

(a) A distributing plant from which a volume of Class I milk equal to not less than 50 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area: *Provided,* That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authorities for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(b) A supply plant from which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 50 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided,* That if such shipments are not less than 75 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year: *And provided further,* That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

§ 911.11 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 911.12 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of one or more distributing or supply plants, or (b) any cooperative association with respect to the milk from producers diverted by the association for the account of such association from a pool plant to a nonpool plant.

§ 911.13 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers.

§ 911.14 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at the pool plant directly from producers, or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in § 911.7.

§ 911.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream, or any mixture in fluid form of skim milk and cream (except storage cream, aerated cream products, eggnog, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers).

§ 911.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 911.17 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department.

§ 911.18 *Base milk.* "Base milk" means milk received at a pool plant from a producer during any of the months of March through June which is not in excess of such producer's daily base computed pursuant to § 911.95 multiplied by the number of days in such month: *Provided,* That all milk received at a pool plant from a producer or diverted from such a plant during any of the months of March through June 1956 shall be base milk.

§ 911.19 *Excess milk.* "Excess milk" means milk received at a pool plant from a producer during any of the months of March through June which is in excess of base milk received from such producer during such month, and milk received during such month from a producer for whom no base can be computed pursuant to § 911.95.

MARKET ADMINISTRATOR

§ 911.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 911.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 911.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 911.88 (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 911.87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 911.30 and 911.31, or payments pursuant to §§ 911.80, 911.84, 911.86, 911.87, and 911.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(i) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(j) Publicly announce on or before:

(1) The 5th day of each month, the minimum price for Class I milk, pursuant to § 911.51 (a), and the Class I butterfat differential, pursuant to § 911.52 (a), both for the current month; and the minimum price for Class II milk, pursuant to § 911.51 (b), and the Class II butterfat differential, pursuant to § 911.52 (b), both for the preceding month;

(2) The 10th day after the end of the months of July through February the uniform price pursuant to § 911.72 and the producer butterfat differential pursuant to § 911.81;

(3) The 10th day after the end of each of the months of March through June, the uniform prices for base milk and excess milk pursuant to § 911.73 and the producer butterfat differential pursuant to § 911.81; and

(k) On or before the 10th day after the end of each month, report to each cooperative association, which so requests, the percentage of the milk caused to be delivered by the cooperative association or by its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report; the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

REPORTS, RECORDS AND FACILITIES

§ 911.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer handler, shall report for such month to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk, and the aggregate quantities of base and excess milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) The quantities of skim milk and butterfat contained in producer milk diverted to nonpool plants pursuant to § 911.7;

(e) Inventories of fluid milk products on hand at the beginning and end of the month; and

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 911.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including, for the months of March through June, the total pounds of base and excess milk, (iii) the number of days, if less than the entire month for which milk was received from such producer, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of any fluid milk product at his pool plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product;

(3) Prior to his diversion of producer milk to a nonpool plant, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted; and

(4) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

§ 911.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations including the amount and nature of any deductions and the disbursement of money so deducted.

§ 911.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 911.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat which are required to be reported pursuant to § 911.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 911.41 through 911.46.

§ 911.41 *Classes of utilization.* Subject to the conditions set forth in § 911.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of a fluid milk product (except as provided in paragraph (b) (2) of this section) and (2) not accounted for as Class II milk:

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product; (2) disposed of and

used for livestock feed; (3) contained in inventory of fluid milk products on hand at the end of the month; and (4) in shrinkage allocated to receipts of producer milk and other source milk (except milk diverted to a nonpool plant pursuant to § 911.7) but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively.

§ 911.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and in other source milk.

§ 911.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 911.44 *Transfers.* Skim milk or butterfat disposed of each month from a pool plant shall be classified:

(a) As Class I milk, if transferred in the form of a fluid milk product to the pool plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in their reports submitted for the month to the market administrator pursuant to § 911.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 911.46 and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *And provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk of both handlers;

(b) As Class I milk, if transferred to a producer-handler in the form of fluid milk product;

(c) As Class I milk, if transferred or diverted in the form of a fluid milk product to a nonpool plant located more than 300 miles by the shortest highway distance as determined by the market administrator from the nearest point in the marketing area;

(d) As Class I milk, if transferred or diverted in the form of a fluid milk product in bulk to a nonpool plant located not more than 300 miles by the shortest highway distance as determined by the market administrator from the nearest point in the marketing area unless:

(1) The transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 911.30 for the month within which such transaction occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat in the fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from such nonpool plant do not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines constitute the regular source of supply for such plant: *Provided,* That any skim milk or butterfat in fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from the nonpool plant which is in excess of receipts from such dairy farmers shall be assigned to the fluid milk products so transferred or diverted and classified as Class I milk: *And provided further,* That if the total skim milk and butterfat in fluid milk products which were transferred by all handlers to such nonpool plant during the month is less than the skim milk and butterfat classified as Class I milk pursuant to the preceding proviso hereof, the assignment to Class I milk shall be prorated over the claimed Class II classification reported by each such handler on transfers to the nonpool plant.

§ 911.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water reasonably associated with such solids in the form of whole milk.

§ 911.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 911.45 the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 911.41 (b) (4);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which were not subject to the Class I pricing provisions of an order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less;

(5) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source received in the form of fluid milk products which are subject to the Class I pricing provisions of another order issued pursuant to the act;

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers according to the classification of such products as determined pursuant to § 911.44 (a);

(8) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(9) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 911.50 *Basic formula price.* The basic formula price shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section, rounded to the nearest cent.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following milk plants for which prices have been reported to the market administrator or to the Department, divided by 3.5 and multiplied by 4.0:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Clarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price obtained by adding together the amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Subtract 3 cents from the Chicago butter price and multiply the remainder by 4.8; and

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 8.16.

§ 911.51 *Class prices.* Subject to the provisions of §§ 911.52 and 911.53, the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* From the effective date of this part through August, 1957, the Class I milk price shall be the basic formula price for the preceding month, plus $2.15 during the months of July through February and plus $1.85 during all other months.

(b) *Class II milk price.* The Class II milk price shall be:

(1) For the months of March through June, the average of the prices reported to have been paid or to be paid for ungraded milk of 4 percent butterfat content received from farmers during the month at the following plants for which prices have been reported to the market administrator or the Department:

Present Operator and Location

Plains Creamery, Arnett, Okla.
Price Creamery, Portales, N. Mex.
Quint County Creamery, Mangum, Okla.
Swisher County Creamery, Tulia, Tex.

(2) For the months of July through February, the higher of the prices computed pursuant to subparagraph (1) of this paragraph and paragraph (b) of § 911.50.

§ 911.52 *Butterfat differentials to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices for the month calculated pursuant to § 911.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.120.

(b) *Class II prices.* Multiply the Chicago butter price for the current month by 0.110.

§ 911.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 100 miles or more from the City Hall, Amarillo, Texas, by the shortest hard-surfaced highway distance, as determined by the market administrator, and which is transferred to a distributing plant which is a pool plant in the form of a fluid milk product and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 911.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Amarillo City Hall (miles):	*Rate per hundredweight (cents)*
100 but less than 110	35.0
For each additional 10 miles or fraction thereof an additional	1.6

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 911.46 (a) (5), and the comparable steps in (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 911.54 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 911.60 *Producer-handlers.* Sections 911.40 through 911.46, 911.50 through 911.53, 911.70 through 911.73, 911.80 through 911.88, and 911.95 through 911.97 shall not apply to a producer-handler.

§ 911.61 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless: (a) Such plant is qualified as a pool plant pursuant to § 911.10 (a) and a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets (excluding pool plants) in the Texas Panhandle marketing area than in the marketing area regulated pursuant to such other order, or (b) such plant is qualified as a pool plant pursuant to § 911.10 (b): *Provided,* That the operator of a distributing plant or a supply plant which is exempted from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 911.30) and allow verification of such reports by the market administrator.

§ 911.62 *Handlers operating nonpool plants.* None of the provisions from §§ 911.44 through 911.53, inclusive, or from §§ 911.70 through 911.85, inclusive, shall apply in the case of a handler in his capacity as the operator of a nonpool plant, except that such handler shall, on or before the 13th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of as Class I milk from such plant to retail or wholesale outlets (including sales by vendors and plant stores) in the marketing area during the month, by the rate determined pursuant to § 911.63.

§ 911.63 *Rate of payment on unpriced milk.* The rate of payment per hundredweight to be made by handlers on unpriced other source milk allocated to Class I milk shall be any plus amount calculated as follows:

(a) During the months of March through June, subtract from the Class I price adjusted by the Class I butterfat and location differentials applicable at a pool plant of the same location as the nonpool plant supplying such other source milk, the Class II price adjusted by the Class II butterfat differential; and

(b) During the months of July through February subtract from the Class I price f. o. b. such nonpool plant the uniform price to producers adjusted by the Class I butterfat differential.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 911.70 *Computation of value of milk for each handler.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 911.46 (a) (9) and the corresponding step of (b) by the applicable class prices;

(c) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified in Class II less shrinkage during the preceding month, or the hundredweight of milk subtracted from Class I pursuant to § 911.46 (a) (8) and the corresponding step of (b), whichever is less; and

(d) Add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 911.46 (a) (2) and (3) and the corresponding step of (b), by the rate of payment on unpriced milk determined pursuant to § 911.63 at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided,* That if the source of any such fluid milk product received at a pool plant is not clearly established or if such skim milk and butterfat is received or used in a form other than as a fluid milk product such product shall be considered to have been received from a source at the location of the pool plant where it is classified.

§ 911.71 *Computation of aggregate value used to determine uniform prices.* For each month the market administrator shall compute an aggregate

value from which to determine uniform prices per hundredweight for producer milk, of 4.0 percent butterfat content, f. o. b. plants located within 100 miles of the City Hall of Amarillo, Texas, as follows:

(a) Combine into one total the values computed pursuant to § 911.70 for all handlers who made the reports prescribed in § 911.30 for such month, except those in default of payments required pursuant to § 911.84 for the preceding month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is less or more, respectively, than 4.0 percent, an amount computed by multiplying such differences by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add an amount equal to the sum of the location differential deductions to be made pursuant to § 911.82; and

(d) Add an amount equal to one-half of the unobligated cash balance in the producer-settlement fund.

§ 911.72 *Computation of uniform price.* For each of the months of July through February, the market administrator shall compute a uniform price for producer milk of 4.0 percent butterfat content f. o. b. pool plants located within 100 miles of the City Hall of Amarillo, Texas, as follows:

(a) Divide the aggregate value computed pursuant to § 911.71 by the total hundredweight of producer milk included in such computations; and

(b) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (a) of this section. The resulting figure shall be the uniform price for producer milk.

§ 911.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of March through June, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, f. o. b. pool plants located within 100 miles of the City Hall of Amarillo, Texas, as follows:

(a) From the reports submitted by handlers pursuant to § 911.30, determine the aggregate classification of producer milk included in the computation of value pursuant to § 911.71 and the total hundredweight of such milk which is base milk and which is excess milk;

(b) Determine the value of such excess milk on a 4 percent butterfat basis by multiplying the total hundredweight of such milk which is not greater than the total Class II milk pursuant to paragraph (a) of this section by the Class II milk price and by adding thereto the value obtained by multiplying the hundredweight of such excess milk which is greater than the quantity of such Class II milk by the Class I milk price;

(c) Divide the value of excess milk obtained in paragraph (b) of this section by the total hundredweight of such milk, and subtract not less than 4 nor more than 5 cents from the price thus computed. The resulting figure shall be the uniform price for excess milk;

(d) Subtract the value of excess milk obtained in paragraph (b) of this section from the aggregate value of all milk obtained in § 911.71; and

(e) Divide the amount obtained in paragraph (d) of this section by the total hundredweight of base milk obtained in paragraph (a) of this section, and subtract not less than 4 cents nor more than 5 cents from the price thus computed. The resulting figure shall be the uniform price for base milk.

§ 911.80 *Time and method of payment for producer milk.* Except as provided in paragraph (c) of this section, each handler shall make payment to each producer for milk received from such producer as follows:

(a) On or before the last day of each month, for milk received during the first 15 days of the month, at not less than the Class II price for the preceding month;

(b) On or before the 15th day after the end of each month, for milk received during such month, an amount computed at not less than the uniform prices per hundredweight pursuant to §§ 911.72 and 911.73 subject to the butterfat differential computed pursuant to § 911.81 plus or minus adjustments for errors made in previous payments to such producer; and less (1) payment made pursuant to paragraph (a) of this section, (2) location differential deductions pursuant to § 911.82, (3) marketing service deductions pursuant to § 911.87 and (4) proper deductions authorized by such producer: *Provided*, That if such handler has not received full payment for such month pursuant to § 911.85 he may reduce uniformly per hundredweight for all producers his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator. The handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator;

(c) (1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association each handler shall pay to the cooperative association on or before the 13th and 26th days of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section an amount equal to the sum of the individual payments otherwise payable to such producers. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(d) In making the payments to producers pursuant to paragraphs (b) and (c) of this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from such producer, including for the months of March through June, the pounds of base milk and excess milk;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 911.81 *Butterfat differentials to producers.* The applicable uniform prices to be paid each producer pursuant to § 911.80 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the total pounds of butterfat in the producer milk allocated to Class I and Class II milk during the month pursuant to § 911.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth of a cent.

§ 911.82 *Location differentials to producers.* In making payment pursuant to § 911.80 the uniform price pursuant to § 911.72 and the uniform price for base milk pursuant to § 911.73 to be paid for milk which is received from producers at a pool plant located 100 miles or more from the City Hall, Amarillo, Texas, by the shortest hard-surfaced highway distance as determined by the market administrator shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Amarillo City Hall (miles):	*Rate per hundredweight (cents)*
100 but less than 110	35.0
For each additional 10 miles or fraction thereof an additional	1.6

§ 911.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 911.62, 911.84, and 911.86, and out of which he shall make all payments pursuant to §§ 911.85 and 911.86: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 911.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month each handler shall pay to the market administrator the amount by which the value of milk for such handler, pursuant to § 911.70, for such month exceeds the obligation, pursuant to § 911.80, of such handler to producers for milk received during the month.

§ 911.85 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler the amount by which the obligation, pursuant to § 911.80, of such handler to producers for milk received during the month exceeds the value of milk for such handler computed pursuant to § 911.70. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the appropriate funds are available.

§ 911.86 *Adjustment of errors in payment.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 911.84, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 911.85, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 911.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 911.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 911.80 (b), shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from such producer (except such handler's own farm production), during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

§ 911.88 *Expense of administration.* As his pro rata share of the expense of the administration of the order, each handler shall pay to the market administrator, on or before the 15th day after the end of each month, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to butterfat and skim milk contained in (a) producer milk, (b) other source milk at a pool plant which is allocated to Class I milk pursuant to § 911.46, and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 911.89 *Adjustment of overdue accounts.* There shall be added to any balance due the market administrator pursuant to §§ 911.62, 911.84, 911.86, 911.87, and 911.88 an amount equal to one-half of one percent of such balance for each month or any portion thereof that payment of the balance is overdue.

§ 911.90 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 911.95 *Daily base.* The daily base for each producer shall be the amount obtained by dividing the total pounds of producer milk received from such producer by all handlers during the months of September through December immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of December inclusive, less the number of days for which no deliveries are made, but not less than 112 days.

§ 911.96 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the months of September through December;

(b) An entire base shall be transferred from a person holding such base to any other person effective as of the first day of any month following receipt by the market administrator of an application for such transfer. Such application shall be on a form approved by the market administrator and shall be signed by the baseholder and by the person to whom such base is to be transferred: *Provided*, That if a base is held jointly, the entire base shall be transferable only

upon receipt of such application signed by all joint holders.

§ 911.97 *Announcement of established bases.* On or before February 15 of each year subsequent to 1956, the market administrator shall notify each producer and the handler receiving milk from such producer of the daily base established by such producer.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 911.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 911.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 911.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment or which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 911.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under this control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 911.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 911.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Sections 911.1 through 911.19; 911.25 through 911.27; 911.30 through 911.33; 911.40 through 911.46; 911.60 and 911.61; 911.88 through 911.90; 911.100 through 911.103; 911.110 and 911.111 shall be effective on and after the 1st day of January 1956 and the entire order (§§ 911.1 through 911.111) shall be effective on and after the 1st day of February 1956.

Issued at Washington, D. C., this 19th day of December 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 55-10291; Filed, Dec. 22, 1955; 8:47 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1948]

PART 161—THE FEDERAL RANGE CODE FOR GRAZING DISTRICTS

Part 161, The Federal Range Code for Grazing Districts, is revised, effective 30 days from date of publication, to read as follows:

Sec.
161.1 Basic policy and plan of administration.
161.2 Definitions.
161.3 Qualifications of applicants.
161.4 Minimum requirements; classification of base properties.
161.5 Rating and classification of Federal range.
161.6 Issuance of licenses and permits.
161.7 Transfers of base property; base property qualifications; relinquishments.
161.8 Fees; time of payment; refunds.
161.9 Procedure in applications; protests.
161.10 Appeals and hearings.
161.11 General rules of the range.
161.12 Procedure for enforcement of rules and regulations.
161.13 Grazing District advisory boards.
161.14 Local associations of stockmen.
161.15 Construction and maintenance of improvements on Federal range.
161.16 Special rules for grazing districts.
161.17 Contributions for administration, protection, and improvement of public lands.
161.18 Pledge of licenses and permits as security for loans; applications for extension of permit term by borrower-permittee.
161.19 Saving clause.

AUTHORITY: §§ 161.1 to 161.19 issued under sec. 2, 48 Stat. 1270; 43 U. S. C. 315a.

§ 161.1 *Basic policy and plan of administration.* (a) *Purposes; general requirements.* Grazing districts will be administered to conserve and regulate the public grazing lands, to stabilize the livestock industry dependent upon them, and in aid thereof to promote the proper use of the privately controlled lands and waters dependent upon those public grazing lands. In furtherance of these objectives, grazing privileges will be granted with a view to the protection of those livestock operations that are recognized as established and continuing and which normally involve the substantial use of the public range in a regular, continuing manner each year. To promote the highest use of the public lands within grazing districts which have been or hereafter are established, possession or control of sufficient land or water to insure a year-round operation for a certain number of livestock in connection with the use of the Federal range will be required of all users.

(b) *Preference applicants.* Preference in the granting of grazing privileges will be given to those applicants within or near a district who are landowners engaged in a livestock business, bona fide occupants or settlers, or owners of water or water rights, as may be necessary to permit the proper use of lands, water, or water rights owned, occupied, or leased by them. When the demands of all such preference applicants cannot be satisfied, prior consideration will be given applicants in the manner specified in § 161.6. Provision will be made for other applicants so far as Federal range remains available.

(c) *Permits; annual licenses.* Grazing permits may be issued as soon as the necessary data can be obtained or after agreements as to the extent of their individual grazing privileges have been reached by the interested applicants and such agreements have been reduced to writing, a recommendation thereon made by the advisory board, and approval thereof given by the range manager. No such agreement will be approved unless it appears that it is fair and that it represents a substantial compliance with the provisions of the Federal Range Code for Grazing Districts, and no applicant shall be prejudiced by his failure or refusal to enter into such an agreement. The practice of issuing an annual license will be continued until such time as a permit is issued. Upon the issuance of a permit any outstanding license or part thereof which has been granted on the same qualifications on which the permit is based will terminate. Upon expiration of a term permit an annual license may be issued, pending issuance of a new term permit.

§ 161.2 *Definitions.* Wherever used in rules, instructions, or interpretations issued by the Bureau of Land Management in or pursuant to the Federal Range Code for Grazing Districts, unless the context otherwise requires:

(a) The "act" means the Taylor Grazing Act of June 28, 1934 (48 Stat. 1269; 43 U. S. C. 315, 315a–315r), as amended and supplemented.

(b) "The Federal Range Code for Grazing Districts" means all of the rules and regulations pertaining to the administration of grazing districts.

(c) The "Secretary" means the Secretary of the Interior or his authorized agent.

(d) The "Director" means the Director of the Bureau of Land Management or his authorized agent.

(e) "State Supervisor" means the supervising Bureau of Land Management officer for the State in which the particular range lies, or his authorized agent.

(f) "Federal range" means land within established grazing districts administered by the Bureau of Land Management under the Federal Range Code for Grazing Districts, including the vacant, unappropriated, and unreserved public land of the United States chiefly valuable for grazing and forage crops; State, County, and privately-owned land leased for such administration; and lands so administered pursuant to a cooperative agreement with the Federal department or agency having jurisdiction over such land.

(g) "Property" means privately owned or controlled land or water used in range livestock operations.

(h) "Base property" means property used for the support of the livestock for which a grazing privilege is sought and on the basis of which the extent of a license or permit is computed.

(i) "Base property qualifications" means the maximum amount of grazing privileges on Federal range properly allowable to base properties in Class I or Class II.

(j) "Forage land" means land the principal use of which is the production of natural or cultivated feed for livestock.

(k) (1) "Land dependent" by use means forage land other than Federal range of such character that the conduct of an economic livestock operation requires the use of the Federal range in connection with it and which, in the "priority period", was used as a part of an established, permanent, and continuing livestock operation for any two consecutive years or for any three years of such priority period in connection with substantially the same part of the public domain, now part of the Federal range. The priority period shall be the five-year period immediately preceding June 28, 1934, except that if such Federal range was placed within a grazing district after June 28, 1938, or added to an existing grazing district by boundary modification after the latter date, the priority period shall be the five years immediately preceding the date of the order establishing such district or effecting such addition, as the case may be.

(2) No land shall be considered as dependent by use unless offered as base property in an application for a grazing license or permit within one year after the date when the Federal range used in creating the dependency by use first became a part of a grazing district, except that if the Federal range used in creating the dependency by use became a part of a grazing district prior to June 28, 1938, such base property shall not be considered as dependent by use unless offered in an application for a grazing license or permit filed prior to said date. Only the last set of base properties used during the priority period by a livestock operation can be invested with dependency by use by such operation.

(3) The extent to which grazing licenses or permits will be granted on the basis of dependency by use of land, shall be governed by the following:

(i) It shall not exceed the average annual amount of forage customarily and properly utilized by the livestock operation computed on the basis of any two consecutive years or any three years in which use was actually made during the priority period, whichever is more favorable to the applicant, on that part of the public land which, at the time of the issuance of the license or permit, is Federal range.

(ii) It shall not exceed the amount of forage needed for the proper support of the number of livestock creating such dependency by use which is available on the base property during the minimum period established under § 161.4.

The grazing privileges which may be granted hereunder shall not exceed the amounts determined under subdivision (i) or (ii) of this subparagraph, whichever is the lesser. Where the base property provides forage in excess of that necessary for the proper support of the number of livestock used in creating the dependency by use (Class I) the base property, to the extent of such excess forage capacity, may be treated as dependent by location (Class II) if so qualified.

(iii) Whenever the dependency by use of two or more base properties was created by the use of all or part of the same Federal range, during the same or at different seasons of the year, by two or more livestock operations, the relative dependency by use of each of the base properties shall be proportionate to the average annual use actually and properly made of the Federal range during the priority period by each of the livestock operations.

(l) "Land dependent by location" means forage land other than Federal range, which is so situated and of such character that it can properly be used as a base for an economic livestock operation utilizing the forage resources of the Federal range.

(m) "Animal-unit month" means the amount of natural or cultivated feed necessary for the sustenance of one cow or its equivalent, for a period of one month; as applied to Federal range, it means also the grazing privileges represented by the grazing of one cow or its equivalent for a period of one month. For the purposes of this definition, one cow shall be considered the equivalent of one horse or five sheep or five goats; provided, however, that only for the purposes of establishing fees for grazing privileges under § 161.8 (b), the charge for one horse grazing on the Federal range for one month shall be at twice the rate charged for one cow grazing for the same period.

(n) "Grazing capacity" means the total animal-unit months of forage available from a tract or tracts of forage land during a given period.

(o) "Full-time water" means water which is suitable for consumption by livestock and available, accessible, and adequate for a certain number of livestock during those months in the year for which the range is classified as suitable for use. Such water may be from one source or may be the aggregate amount available from several sources.

(p) (1) "Prior water" is water which, during all or not less than two years of the priority period was used to service certain public domain now part of the Federal range for a livestock operation that was established, permanent, and continuing, and which, normally involved the grazing of livestock on the same areas of public land for a certain portion or portions of the years of such use. For the purpose of this definition the priority period shall be the five-year period immediately preceding June 28, 1934, except that in any area placed within a grazing district or added to an existing district by boundary modification after September 23, 1942, the priority period shall be the five-year period immediately preceding the date of the order establishing such district or effecting such addition, as the case may be.

(2) Where a livestock operation used a water or waters during the priority period in such manner as would, in the absence of other factors, have served to invest such water with the attribute of priority, but such livestock operation subsequently ceased using such water or waters and used other water or waters in such manner as to invest them, too, with priority, only the latter water or waters shall be considered as prior, unless the former are also prior because of use by another livestock operation.

(3) No water shall be considered as prior unless offered as base property in an application for a grazing license or permit filed within one year after the public lands which were used in creating the priority first became a part of a grazing district except that when such lands became a part of a grazing district more than one year prior to March 16, 1942, a water shall not be considered as prior unless offered in an application filed prior to that date.

(4) The extent to which grazing privileges will be granted on the basis of the priority of water shall not exceed the average annual amount of forage customarily and properly utilized by the livestock operation computed on the basis of the years in which use was actually made during the priority period, on substantially that part of the public lands within the service area which, at the time of the issuance of the license or permit, is Federal range.

(q) "Service area" means the area that can be properly grazed by livestock watering at a certain water. In determining such area, natural and cultural barriers, recognized habits of livestock, proper livestock practices, and range management factors will be considered.

§ 161.3 *Qualifications of applicants—*(a) *Qualifications.* An applicant for a grazing license or permit is qualified if engaged in the livestock business and:

(1) Is a citizen of the United States, or

(2) Has on file before a court of competent jurisdiction a valid declaration of intention to become a citizen or a valid petition for naturalization, or

(3) Is a group, association, or corporation authorized to conduct business under the laws of the State in which the grazing privileges sought are to be exercised, and the controlling interest in which is vested in persons who would be qualified as individual applicants under subparagraphs (1) or (2) of this paragraph.

(b) *Effect of transfer arising through operation of law.* The acquisition of rights in base property by an unqualified person through operation of law or testamentary disposition will not adversely affect any outstanding license or permit, or preclude the issuance or renewal of a license or permit, based on such property, for a period of two years after such acquisition. Upon the failure of such person to qualify within the two year period the license or permit will be subject to cancellation in accordance with § 161.9 (d).

§ 161.4 *Minimum requirements; classification of base properties.* (a) The range manager, after recommendation by the advisory board, shall establish minimum base property requirements as a condition of qualification for the issuance of a license or permit in each district or unit thereof, taking into consideration the availability of base properties for proper use with and their relative dependence upon Federal range, land and water conditions, and other factors affecting livestock operations in the area according to customary use and best practices for good range management.

(b) The range manager after recommendation by the advisory board will classify base properties as land or water and further in the following manner:

Class 1. Land dependent by use, or full-time prior water.

Class 2. Land dependent by location, or full-time water.

§ 161.5 *Rating and classification of Federal range—(a) Grazing capacity; seasons and maximum annual period of use.* The range manager, after recommendation by the advisory board, will rate the grazing capacity of each unit or area in a grazing district and will classify each for the proper seasons of use and for the maximum period of time for which any licensee or permittee will be allowed to use the Federal range therein during any one year.

(b) *Wildlife; allowance for maintenance.* In each grazing district a sufficient grazing capacity of Federal range suitable for wildlife will be reserved by the range manager after consulting with wildlife interests and the advisory board, for the maintenance of a reasonable number of wild game animals, to use the range in common with livestock grazing in the district.

(c) *Designation of ranges for particular kinds of livestock.* The range manager may designate certain areas for use exclusively by a certain kind or class of livestock when necessary for the proper use or orderly administration of the Federal range.

(d) *Unit-wide or area-wide adjudication.* (1) The range manager, after recommendation by the advisory board, may make a simultaneous classification under § 161.4 of all offered base properties within a single administrative unit or grazing area and may allocate in a single action the available Federal range within the unit or area upon which such base properties are dependent.

(2) The Range Manager, shall give written notice by registered mail[1] of such classification and allocation to the persons offering such base properties, and allow them 30 days from receipt of the written notice to file protest to the Advisory Board, in accordance with § 161.9 (b). Thereafter, and provided there is then pending a valid application for grazing privileges, the range manager will render his final decision thereon and will allow the right of appeal to the Examiner in accordance with § 161.10.

(e) *Diminution of available Federal range.* Federal range lands to be used under a license or permit are subject to classification and disposition under the provisions of sections 7 and 14 of the act, and to withdrawal, appropriation, selection, or other disposal under the public land laws. Reasonable notice of a pending or proposed classification, withdrawal or other disposal which might result in a diminution of the available Federal range will be given to the licensee or permittee of such lands, consistent with § 296.3 of this chapter, and subject to the right of protest or appeal to the Director and to the Secretary of the Interior as may be provided in such notice and the rules of practice, Part 221 of this chapter.

§ 161.6 *Issuance of licenses and permits.* Licenses or permits will be issued in the following order:

(a) *Free-use licenses.* A free-use license will be issued to any free-use applicant for grazing on Federal range in the immediate neighborhood of the applicant's residence for not to exceed the number of livestock owned and kept by him for domestic purposes, that is, livestock whose products are consumed or whose work is directly and exclusively used by the family of the applicant, provided the free-use applicant has adequate facilities for the proper care and maintenance of such domestic livestock on the Federal range.

(b) *Regular licenses and permits; number of livestock.* (1) Regular licenses and permits will be issued to qualified applicants to the extent that Federal range is available in the following preference order and amounts:

(i) To applicants owning or controlling land in class 1, licenses or permits to the extent of the dependency by use of such land; to applicants owning or controlling water in class 1, licenses or permits to the extent of the priority of such water.

[1] Wherever registered mail is required in this part, Certified mail may be used in lieu thereof in accordance with § 101.19 of this chapter.

(ii) To applicants owning or controlling land or water in class 2, licenses or permits for the number of livestock for which range is available and which can be properly grazed in connection with a livestock operation which involves the use of such land or water.

(2) Any licensee or permittee who desires to use the Federal range for a period or periods other than as authorized by his license or permit may, upon written approval of the range manager, be allowed to use the amount of his authorized grazing privileges during any period of time for which the Federal range is classified as proper for use, provided:

(i) The total of such use does not exceed the maximum amount of time for which any licensee or permittee is allowed to use the Federal range during any one grazing year;

(ii) The number of animal-unit months of Federal range to be utilized is not thereby increased;

(iii) Such use will not be detrimental to the Federal range, and

(iv) Such use will not adversely affect other licensees or permittees.

(c) *Exchange of the use licenses.* Exchange of use licenses may be issued to any applicant having ownership or control of non-Federal land interspersed and normally grazed in conjunction with the surrounding Federal range for not to exceed the grazing capacity of such non-Federal land, without payment of grazing fees, provided that during the term of the license the Bureau shall have the management and control of such non-Federal land for grazing purposes.

(d) *Non-renewable licenses.* Non-renewable licenses may be issued to non-preference applicants only for the period specified by the range manager and for the number of livestock for which range is temporarily available and which can be properly grazed without detriment to the operations on the range of applicants owning or controlling base properties in class 1 and class 2.

(e) *Terms and conditions.* The issuance and continued effectiveness of all regular licensees and permits will be subject to the following terms and conditions:

(1) The possession or control by the applicant, licensee, or permittee, of feed and forage supplies adequate, with the authorized Federal range use, to support his licensed or permitted livestock for a full year-round operation.

(2) No license or permit will provide for the grazing livestock on the Federal range during that part or parts of the year for which the Federal range has not been classified as proper for use.

(3) No license or permit will confer grazing privileges in excess of the grazing capacity of the Federal range to be used.

(4) So far as consistent with proper range practices, licenses and permits will confer grazing privileges on the range lands which were used in creating the dependency by use or priority of the base properties involved.

(5) In the event of range depletion resulting from drought or other causes, the grazing privileges that may be exercised under any license or permit may be reduced in whole or in part, and for such period of time as may be necessary.

(6) Upon the diminution of the Federal range to be used under any license or permit due to withdrawal, appropriation, selection, or otherwise, the license or permit may be reduced proportionately to the reduction in available grazing capacity caused by the loss of such Federal range.

(7) If a licensee or permittee ceases to make substantial use of his base property in connection with his year-round livestock operation, the authorized use under such license or permit will be subject to reduction in proportion to the diminished use of the base property.

(8) If a licensee or permittee loses ownership or control of:

(i) All or part of his base property, the license or permit, to the extent it was based upon such lost property, shall terminate immediately without further notice from the range manager; except that, if the licensee or permittee notifies the range manager, in writing, of such loss within thirty days from the date thereof, such license or permit shall terminate to that extent at the end of the grazing season or grazing year as the range manager shall determine; or

(ii) All or part of such other lands or grazing privileges as are necessary to his year round operation, the license or permit will be subject to reduction in proportion to the loss of such necessary lands or grazing privileges unless the licensee or permittee notifies the range manager within 30 days after such loss and thereafter within the time allowed by the range manager after recommendation by the Advisory Board acquires ownership or control of other lands or grazing privileges sufficient to assure a year-round operation.

(9) Class I base property qualifications, in whole or in part, will be lost upon the failure for any two consecutive years:

(i) To offer base property which is not covered by an outstanding current term permit to the full extent of its qualification in an application for a license or permit or renewal thereof, or to apply for non-use thereof in whole or in part or

(ii) To accept a license or permit issued pursuant to such application.

(10) The failure for any two consecutive years to make substantial use as determined by the range manager after reference to the advisory board, of all or part of the grazing privileges authorized under a license or permit may result in the revocation thereof and in the proportionate loss of the base property qualifications.

(11) Non-use, in whole or in part, of grazing privileges under a license or permit may be authorized by the range manager, upon application by the licensee or permittee, after reference to the advisory board, for the following reasons: conservation and protection of the Federal range, annual fluctuations in livestock operations, or financial or other reasons beyond the control of the licensee or permittee.

(12) A revocation of a license or permit in whole or in part may result in a proportionate loss of the class I or class II base property qualifications, as the case may be.

(13) (i) No readjudication of any license or permit, including free use license, will be made on the claim of any applicant or intervener with respect to the qualifications of the base property, or as to the livestock numbers or seasons of use of the Federal range allotment where such qualifications or such allotment has been recognized and license or permit has issued for a period of three consecutive years or more, immediately preceding such claim.

(ii) The Bureau of Land Management may make such readjudication at any time when necessary to comply with the Federal Range Code for Grazing Districts.

(14) Where Federal range is allotted for the exclusive grazing use of one or more users, the range manager, if the proper use or orderly administration of the range makes it necessary:

(i) May require the licensee(s) or permittee(s), as a condition to the granting and continued effectiveness of grazing licenses or permits, to fence or to contribute an equitable share to the cost of fencing the allotted areas, and of maintenance of such fences;

(ii) May require any licensee or permittee who will benefit in some substantial measure from such fence construction, as a condition to the renewal of an existing license or permit, likewise to pay or to reimburse an equitable share of the cost of such fence construction and maintenance. The amount of such share may be established by agreement of the parties, or, upon their failure to agree, by determination of the range manager.

Any necessary enforcement action under this subparagraph will be taken in accordance with § 161.9 (d).

(f) *Reduction.* (1) If necessary to reach the grazing capacity of any area of the Federal range after licenses or permits have been issued, reductions of grazing privileges applicable to such area shall be made in the following order:

(i) Non-renewable licenses.

(ii) Regular licenses or permits to the extent, if any, to which they have been issued in excess of the base property qualification.

(iii) Regular licenses or permits properly issued, on an equal percentage basis.

(2) Such reductions may be made either by reducing the number of livestock or the time on the Federal range involved or by both methods as determined by the range manager after recommendation by the Advisory Board.

(g) *Allotments; agreements; increases.* Allotments of Federal range will be made to licensees or permittees when conditions warrant. Division of the range by private agreement or former practice will be followed where practicable provided such agreement is reduced to writing and approved by the range manager. Increases in grazing capacity will be participated in by existing preference licensees and permittees to the extent of and in proportion to their respective qualifications.

(h) *Administration of lands additionally available; preference right for lands restored from withdrawal.* (1) Any land within the exterior boundaries of a grazing district made available for administration by the Bureau of Land Management, by a lease under the Pierce Act of June 23, 1938 (52 Stat. 1033; 43 U. S. C. 315m–1–315m–4), by the revocation of a withdrawal, or by the cancellation or relinquishment of a homestead entry or claim, or otherwise, after the grazing privileges in the area embracing the land have been adjudicated, will be administered in accordance with customary use so far as such administration may be practicable and consistent with good range management.

(2) Where public lands are restored from withdrawal and the range manager determines that the lands are available for grazing use, the party using such lands or part thereof for grazing purposes under authority of the agency which had jurisdiction over the lands immediately prior to their restoration, shall have a superior preference to the further grazing use of such lands. The preference right must be asserted and an application for license or permit, on Form 4–1283 obtainable from the range manager, must be filed with that officer not more than 90 days after the date of signing of the order of revocation of the withdrawal, or not more than 90 days after the end of the current lease year under which the land is being used, whichever is the later. The application must be accompanied by a copy of the prior lease, license, permit or other authority upon which the preference claim is based. The range manager may issue to such applicant an annual license or a term permit as he shall determine, authorizing such grazing use subject to the applicable regulations in this part. (Sec. 1, act of May 28, 1954 (68 Stat. 151), as interpreted and applied to sec. 3, Taylor Grazing Act, 43 U. S. C., 1952 ed., sec. 315 (h)).

(i) *Suspension of licenses and permits under Soldiers' and Sailors' Civil Relief Act of 1940.* Any licensee or permittee who enters military service, as defined in section 101 (1) of the Soldiers' and Sailors' Civil Relief Act of 1940 (54 Stat. 1179; 50 U. S. C. War Appendix, 511 (1)), may elect at the beginning of or at any time during the period of such service to suspend his license or permit, in whole or in part, for such period and six months thereafter, subject to the following:

(1) The licensee or permittee shall file with the range manager an application, in duplicate, setting forth the facts and circumstances upon which the application for suspension of the license or permit is based. If the applicant desires the suspension of a license or permit in more than one district, a separate application shall be filed with the range manager for each district.

(2) Upon the approval of the application the suspension shall be effective for the period involved, unless sooner terminated upon further application to the range manager by the licensee or permittee, and no operations under the license or permit to the extent suspended shall be conducted during such period.

(3) No grazing fees will be assessed under a license or permit to the extent and during the period it is suspended and, upon the approval of an application for suspension, any fees that have been paid for the period of suspension will be refunded and any fees that are or may become due for such period will be remitted.

(4) A special temporary license, to the extent of any grazing privileges suspended, may be issued to another applicant for not to exceed the period of such suspension, but upon the termination of the suspension, either by reason of the expiration of the six months' period following the conclusion of the first licensee's or permittee's military service or by reason of an application by the first licensee or permittee for an earlier termination, or otherwise, such temporary license shall terminate as of the beginning of the grazing period next following the termination of the suspension.

(5) No suspension granted hereunder shall entitle a licensee or permittee to any greater privileges subsequently than those to which he would have been entitled in the absence of a suspension.

(6) Any adverse action by the range manager on an application for suspension of a license or permit under this paragraph may be appealed by the licensee or permittee to the Director, and from the Director to the Secretary of the Interior, in accordance with the rules of practice, Part 221 of this chapter.

(j) *Interest of Member of Congress prohibited.* No Member of or Delegate to Congress shall be admitted to any share or part of any license or permit issued under the Act, or to derive any benefit to arise therefrom. (41 U. S. C., sec. 22; 18 U. S. C., secs. 431–433.)

CROSS REFERENCE: For prohibitions against interests of Interior Department employees, see Part 7 of this chapter.

§ 161.7 *Transfers of base property; base property qualifications; relinquishments*—(a) *Transfer of base property; effect.* (1) A transfer of a base property or part thereof, whether by agreement, operation of law, or testamentary disposition will entitle the transferee, if qualified under § 161.3 (a), to so much of the grazing privileges as is based thereon. In any event the original license or permit will be terminated or decreased to the extent of such transfer.

(2) A transferee shall, within 90 days from the date of transfer, file with the range manager documentary evidence of the transfer and an application on Form 4–1283 for a license or permit, active or nonuse, for the grazing privileges based thereon. Failure to comply with these requirements may result in the loss of the qualifications of the base property transferred. Where, however, a transfer, or a different vesting in any manner, of a leasehold interest in land or water may result in interference with the stability of livestock operations or with proper range management, upon a finding to that effect by the range manager, after reference to the advisory board, such land or water will lose its base property qualifications and grazing privileges based thereon will be denied.

(b) *Transfer of base property qualifications; limitations; consent of owner or encumbrancer; effect.* (1) A licensee or permittee may request the transfer of the recognized qualifications of base property then owned or controlled by him to other property owned or controlled by him, or to property owned or controlled by another person or persons qualified in accordance with § 161.3 (a). An application for approval of a transfer shall be filed with the range manager on Form 4–1284 as to land base, or on Form 4–1285 as to water base. Transfer of base property qualifications may be made under the following conditions:

(i) When an applicant owns or controls base land or lands having a forage production in excess of that required to support the licensed or permitted livestock, the qualifications may be concentrated on that part of the property having the forage production required by and which will continue to be used for the support of such livestock.

(ii) When such qualifications are to be transferred from land owned or controlled by the applicant, to land owned or controlled by others, the transfer will be recognized only to the extent such qualifications do not exceed the forage production of the new base property.

(iii) When an applicant owns or controls base water, the qualifications may be transferred to another adequate water source which will service the same range area.

(3) No transfer will be allowed under this paragraph if it interferes with the stability of livestock operations or proper range management, or adversely affects the local economy. No transfer will be allowed without the written consent of the owner or owners and any encumbrancer of the base property from which the transfer is to be made, except that in an application for transfer of Class 1 qualifications where the applicant for such transfer is a lessee of the base property without whose livestock operations the dependency by use or priority thereof would not have been established, such consent will not be required. Upon approval of the application by the range manager after reference to the advisory board, the transfer shall be effective as of the date of filing of the application, and the base property from which the transfer is made will thereupon lose its qualifications to the extent indicated in the transfer.

(c) *Relinquishment of base property qualifications; limitation; effect.* Upon request of a licensee or permittee, the range manager may accept a relinquishment or waiver of grazing privileges on the Federal range and of base property qualifications of the base property owned or controlled by the applicant. Upon acceptance of such relinquishment, the base property will lose its qualifications to the extent specified, provided that no such relinquishment will be accepted without the written consent of the owner or owners, if other than the licensee or permittee, and any encumbrancer of the base property, except that if the licensee or permittee is a lessee of the base property without whose livestock operations the dependency by use or priority thereof would not have been established, such owner's consent will not be required.

§ 161.8 *Fees; time of payment; refunds*—(a) *Free-use licenses.* No fee will be charged for the issuance of a free-use license.

(b) *Licenses and permits.* Each regular licensee or permittee, and holder of a non-renewable license will be charged fees, consisting of a grazing fee for the use of the range and a range improvement fee, as established from time to time, for the animal unit months authorized by the license or permit. All livestock six months of age or over allowed on the Federal range will be considered at any point of time during the grazing period as a part of the total number for which a license or permit has been issued. No fees will be charged for livestock under six months of age. Range improvement fees, upon the recommendation of the advisory board and approval of the Director, may vary in accordance with the character or requirements of the various districts or portions thereof. Grazing fees may differ in any district or unit thereof in which the grazing capacity of the Federal range is increased by reason of the addition of land not owned by the United States, or by reason of a cooperative agreement or memorandum of understanding between the Bureau of Land Management, and any State or Federal agency, or any person, association, or corporation. A minimum annual charge of $1 will be made on all regular licenses or permits, and non-renewable licenses.

NOTE: In accordance with § 161.8 (b) of the Federal Range Code for Grazing Districts (19 F. R. 8958, December 23, 1954) and pursuant to the act of June 28, 1934 (48 Stat. 1275), as amended, notice is hereby given that effective January 1, 1956, fees for grazing privileges (equivalent to 15 cents per animal unit month) will be charged each regular licensee or permittee, and every holder of a non-renewable license, for the period covered by the license or permit, as follows: 15 cents per cow per month; 30 cents per horse per month; 3 cents per sheep or goat per month. Seventy-five percent of the total fee will be a grazing fee and twenty-five percent will be a range improvement fee.

This revised basis for computing the grazing and range improvement fees will become effective with all payments received on and after January 1, 1956.

(c) *Crossing permits.* Upon application filed with the range manager by any person showing the necessity for crossing the Federal range with livestock for proper and lawful purposes, a crossing permit may be issued to him at a charge, payable in advance, of one cent per head per day for cattle, 2 cents per head per day for horses, and one-fifth cent per head per day for sheep and goats; except that no fee will be charged where the trail to be used in so limited and defined that no substantial amount of forage will be consumed in transit, or to the extent the crossing permit involves the use of a stock driveway created under section 10 of the Stockraising Homestead Act of December 29, 1916 (39 Stat. 862; 43 U. S. C. 300).

(d) *Payment of fees; reduction or increase in numbers; extension of periods of use.* No license or permit shall be issued or renewed until payment of all

fees and other amounts due the United States under the Federal Range Code for Grazing Districts has been made. Fees for licenses and permits are due the United States upon issuance of the fee notice pursuant to application and are payable annually at least 15 days in advance of the first grazing period and for the full amount indicated on the fee notice; no license or permit shall be effective to authorize grazing use thereunder until such payment has been made.[2] A permit may be canceled or reduced pursuant to § 161.9 (d) for failure to pay the annual fee in accordance with the fee notice. Any licensee or permittee who desires to make temporary use of the grazing privileges during any authorized grazing period or periods in a manner other than that authorized in his existing license or permit must obtain the permission of the range manager at least 30 days prior to the beginning of any such grazing period, in which case an adjusted fee notice will be issued accordingly.

(e) *Refunds.* No refund of fees properly paid will be made because of an unauthorized failure to use the grazing privileges, either in whole or in part, represented by a license or permit, except that:

(1) During periods of range depletion due to severe drought or other natural causes or in case of a general epidemic of disease during the life of a license or permit, the Director may in his discretion credit, remit, refund, reduce in whole or in part, or postpone the payment of fees for such depletion period so long as the emergency exists.

(2) When fees have been paid which are not required by law, or which are in excess of lawful requirements, an application for refund thereof may be filed with the range manager under the provisions of the act of March 26, 1908, as amended (35 Stat. 48; 43 U. S. C. 95, et seq.), or such excess fees may be credited on subsequent fee notices.

§ 161.9 *Procedure in applications; protests*—(a) *Filing and consideration of applications; inter-district agreements; recommendations; service of notice.* (1) Each year a date will be set by the range manager prior to which all applications[3] for grazing licenses or permits in the district must be filed in his office; applications filed on or after such date may be rejected for that year unless satisfactory justification for the belated filing is shown.

(2) Applications for grazing licenses or permits will be considered first by the advisory board of the district in which the Federal range is located, except that applications of district advisers will be considered first by the range manager, without reference to the advisory board.

[2] Any grazing on the Federal range within grazing districts in the absence of effective license or permit is unlawful and prohibited; such unauthorized grazing shall be deemed in trespass and may be proceeded against as provided in § 161.12, or by other action under the law.

[3] 18 U. S. C. 1001 makes it a crime for any person knowingly and wilfully to submit or cause to be submitted to any agency of the United States any false, fictitious, or fraudulent statements or representations as to any matter within its jurisdiction.

(3) Where a grazing area or unit is located in one district, but is administered by the range manager of an adjacent district pursuant to a formal inter-district agreement, applications for grazing licenses or permits on such area or unit shall be filed with the range manager of the adjacent district. The advisory board of the district in which the land is actually located may designate one or more of its members, on its behalf, in cooperation with the advisory board of the adjacent district, to make appropriate recommendations to the range manager of the adjacent district with respect to such applications.

(4) The advisory board will make its recommendation to the range manager and, if such recommendation is to any extent adverse, it shall set forth the reasons therefor. If such recommendation is favorable, the range manager will notify the applicant by ordinary mail. If the recommendation is to any extent adverse, notice will be served on the applicant in person or by registered letter sent to his address of record, setting out the reason or reasons given by the advisory board for the adverse recommendations including a reference to the pertinent sections or provisions of the Federal Range Code for Grazing Districts in which the application is deficient, and naming a place and date, not less than ten days thereafter, when protests against the recommendation will be heard. In any case where consideration of an application involves only issues previously adjudicated involving the same applicant or his predecessors in interest, the same base property and the same area of use, the advisory board may decide that a protest meeting be not held; whereupon, the range manager shall act upon the recommendation of the board as its final recommendation.

(b) *Protests; reconsideration by advisory board; service of notice.* At the time and place fixed for the protest meeting, any licensee, permittee, or applicant may appear, in person or by attorney or other representative, or may file a written protest with the advisory board, which thereupon will reconsider its previous recommendation in the light of the protest and will make a final recommendation to the range manager. If such recommendation is favorable to the applicant, and the range manager approves, he will notify the applicant thereof by ordinary mail. If the recommendation is to any extent adverse, and the range manager approves, a notice giving the reason or reasons therefor will be served on the applicant in person or by registered mail, including a reference to the pertinent sections or provisions of the Federal Range Code for Grazing Districts in which the application is deficient. Such notice will constitute the range manager's final decision for purposes of appeal.

(c) *Allowance or rejection of application; modification; service of notice.* The range manager, in the light of all facts and circumstances and after reference to the advisory board, may issue or refuse to issue a grazing license or permit. If the action taken by the range manager on any application is substantially different from that recommended by the advisory board, a notice including a recital of the specific reasons for the action taken will be served on the applicant and on any other applicant or applicants adversely affected by such action, in person or by registered mail. The notice will advise each applicant of his privilege to appeal to an examiner.

(d) *Cancellation or reduction of licenses or permits; show cause; appeal to examiner.* Licenses or permits are subject to cancellation or reduction to the extent that they have been improperly issued, or to the extent that their continued effectiveness is adversely affected pursuant to any of the provisions of § 161.3 (b), § 161.6 (e), § 161.8 (d), § 161.14 (d) or § 161.15 (f). Except as otherwise specifically provided, in any such case or in any case in which it shall appear that a license or permit confers grazing privileges in excess of those properly allowable under the Federal Range Code for Grazing Districts, the range manager will notify the licensee or permittee that the license or permit is thereby held for cancellation or reduction either in whole or in part, as the case may be, and that the licensee or permittee will be allowed fifteen days from receipt of notice within which to show cause why such action should not be made final. Such notice will set forth fully the reasons for the proposed action, specifically referring to the pertinent provisions of the Federal Range Code for Grazing Districts, and will be served on the licensee or permittee by registered mail or in person. In case of failure of the licensee or permittee to show cause within the time allowed, the license or permit will be canceled or reduced to the extent indicated in the notice. The range manager will consider any cause shown and, if satisfied of its sufficiency, will close the case; if not satisfied as to its sufficiency, or if no cause is shown, he will notify the licensee or permittee in person or by registered mail that the cancellation or reduction will become final unless an appeal to the examiner is filed in accordance with § 161.10 (a).

§ 161.10 *Appeals and hearings*—(a) *Appeal to examiner; motion to dismiss.* (1) Any applicant whose interest is adversely affected by a final decision of the range manager may appeal to an examiner by filing his appeal in the office of the range manager within 30 days after receipt of the decision. The appeal shall state the reasons, clearly and concisely, why the appellant thinks the decision of the range manager is in error. All grounds of error not stated will be considered as waived, and no such waived ground of error may be presented at the hearing unless ordered or permitted by the examiner.

(2) When separate appeals are filed and the issue or issues involved are common to two or more appeals, they may be consolidated for purposes of hearing and decision.

(3) The range manager will promptly forward the appeal to the State Supervisor. Within thirty days after his receipt of the appeal, the State Supervisor may file on behalf of the range manager a written motion, serving a copy thereof upon the appellant, requesting that the appeal be dismissed for the

reason that it is frivolous, the appeal was filed late, the errors are not clearly and concisely stated, the issues are immaterial, or all issues involved therein have been previously adjudicated in an appeal involving the same privileges, the same parties or their predecessors in interest. The appellant may file a written answer within twenty days after service of the motion upon him. The appeal, motion, the proofs of service, and the answers will be transmitted to the examiner, who shall rule on the motion, and, if the motion is sustained, dismiss the appeal by written order.

(b) *Time and place of hearing; notice; intervenors.* At least thirty days before the date set the range manger will notify the appellant of the time and place of the hearing within or near the district. Any other person who in the opinion of the range manager may be directly affected by the decision on appeal will also be notified of the hearing; such person may himself appear at the hearing, or by attorney, and upon a proper showing of interest, may be recognized by the examiner as an intervenor in the appeal.

(c) *Authority of examiner; subpoenas; depositions; continuances; witness fees.* (1) The examiner is vested with the duty and general authority to conduct the hearing in an orderly, impartial and judicial manner, including authority to subpoena witnesses, recognize intervenors, administer oaths and affirmations, call and question witnesses, regulate the course and order of the hearing, rule upon offers of proof and the relevancy of evidence, and to make findings of fact, conclusions of law, and a decision. The examiner shall have authority to take or to cause depositions to be taken. Subpoenas, depositions, the attendance of witnesses, and witness and deposition fees shall be governed by Parts 221 and 223 of this chapter, to the extent such regulations are applicable.

(2) The examiner also may grant or order continuances, and set the times and places of further hearings. Continuances shall be granted in accordance with the rules of practice (Part 221 of this chapter), and when the ends of justice will be served thereby. Continuances will not be granted unless they are clearly justified and timely request has been made. Where it appears prior to the date of hearing that a continuance will be desired, the party desiring the continuance should promptly file a request for continuance with the examiner, along with proof of service of the request on the range manager and on other parties. The range manager and other parties shall have five days from receipt of the request to file objection to the continuance. The examiner will then rule on the request, and, if granted, set a new date for the hearing. The range manager will notify all interested persons of the new date.

(d) *Conduct of hearing before examiner.* (1) The appellant, the state supervisor or his representative, and recognized intervenors will stipulate so far as possible all material facts and the issue or issues involved. The examiner will state any other issues on which he may wish to have evidence presented. Issues which appear to the examiner to be unnecessary to a proper disposition of the case will be excluded; but the party asserting such issue may state briefly for the record the substance of the proof which otherwise would have been offered in support of the issue. Issues not covered by the appellant's specifications of error may not be admitted except with the consent of the state supervisor or his representative, unless the examiner rules that such issue is essential to the controversy and should be admitted. The parties will then be given an opportunity to submit offers of settlement and proposals of adjustment for the consideration of the examiner and of the other parties.

(2) Unless the examiner orders otherwise, the state supervisor or his representative will then make the opening statement, setting forth the facts leading to the appeal (or issuance of the show cause order where that is involved). Upon the conclusion of the opening statement, the appellant shall present his case, consistent with his specifications of error. Following the appellant's presentation, or upon his failure to make such presentation, the examiner, upon his own motion or upon motion of any of the parties, may order summary dismissal of the appeal with prejudice because of the inadequacy or insufficiency of the appellant's case, to be followed by a written order setting forth the reasons for the dismissal and taking such other action under the Federal Range Code for Grazing Districts as may be proper and warranted. An appeal may be had from such order as well as from any other final determination made by the examiner.

(3) In the absence or upon denial of such motion the State Supervisor or his representative and recognized intervenors may present evidence if such a presentation appears to the examiner to be necessary for a proper disposition of the matters in controversy, adhering as closely as possible to the issues raised by the appellant. All oral testimony shall be under oath or affirmation, and witnesses will be subject to cross-examination by any party to the proceeding. The examiner will himself question any witness whenever it appears necessary. Documentary evidence will be received by the examiner and made a part of the record, if pertinent to any issue, or may be entered by stipulation. No exception need be stated or noted and every ruling of the examiner will be subject to review on appeal. The party affected by an adverse ruling sustaining an objection to the admission of evidence, may insert in the record, as a tender of proof, a brief written statement of the substance of the excludcd evidence; and the opposing party may then make an offer of proof in rebuttal. The examiner will summarily stop examination and exclude testimony on any issue which he determines has been adjudicated previously in an appeal involving the same privileges and the same parties or their predecessors in interest, or which is obviously irrelevant and immaterial to the issues in the case. At the conclusion of the testimony the parties at the hearing shall be given a reasonable opportunity, considering the number and complexity of the issues and the amount of testimony, to submit to the examiner proposed findings of fact and conclusions of law, and reasons in support thereof, or to stipulate to a waiver of such findings and conclusions.

(e) *Findings of fact and decision by examiner; notice; submission to Director for decision.* (1) As promptly as possible after the time allowed for presenting proposed findings and conclusions, the examiner will make findings of fact and conclusions of law unless waiver has been stipulated, and will render a decision upon all material issues of fact and law presented on the record. In doing so he may adopt the findings of fact and conclusions of law proposed by one or more of the parties if they are correct. He must rule upon each such proposed finding and conclusion. The reasons for the findings, conclusions and decisions made shall be stated, and along with the findings, conclusions and decision, shall become a part of the record in any further appeal. A copy of the decision shall be sent by registered mail to the appellant and all intervenors, or their attorneys of record.

(2) The Director may require, in any designated case, that the examiner make only a recommended decision and that such decision and the record be submitted to the Dierctor for consideration. In such instances the Director shall make the initial decision which shall constitute the decision of the Bureau, without prejudice to the right of any party affected to be furnished with a copy of the transcript of testimony, as provided in the next paragraph, and to appeal to the Secretary in the manner prescribed by the rules of practice (Part 221 of this chapter).

(f) *Notice of appeal to the Director; furnishing copies of the transcript.* Within ten days after the receipt of the decision of the examiner any party, including state supervisor or his representative, desiring to appeal to the Director shall file a written notice of his intention to appeal and may request a copy of the transcript of testimony. Copies of the transcript will be furnished to the state supervisor without charge, and to other appellants and to the intervenors, at a charge of ten cents per folio, except that upon a sufficient showing to the examiner, supported by an affidavit, that an appellant or intervenor is financially unable to pay such fee, a copy will be furnished him without charge. The examiner shall include in the record proof of delivery of the transcript showing the date of such delivery. Notice of appeal and request for a copy of the transcript shall be filed through the office of the Hearing Examiner.

(g) *Appeals to the Director.* An appeal from any decision of the examiner shall be filed in the office of the Director, Bureau of Land Management, Washington 25, D. C., together with any brief in support thereof, within thirty days after date of receipt of the transcript of testimony, or, if the transcript is not requested, within thirty days after receipt of the examiner's decision. A copy of the appeal and of any brief must be served on each party, including the State supervisor either personally or by registered mail. Any party, including the State supervisor, opposing the appeal, will be allowed twenty days from date of receipt of the copy of the appeal and brief within which to file in the office of the Director a reply brief, a copy of which must be served upon the appellant in the same manner. The appeal in other respects shall be made in accordance with the rules of practice (Part 221 of this chapter).

(h) *Appeals to the Secretary of the Interior.* An appeal from the decision of the Director may be made to the Secretary of the Interior in accordance with the rules of practice (Part 221 of this chapter).

(i) *Effect of decision suspended during appeal.* (1) An appeal shall suspend the effect of the decision from which it is taken pending final action on the appeal. Where the appeal is concerned with the grazing privileges to be granted under the current application, an appellant who was granted grazing privileges in the preceding year may continue to use such privileges pending final action on the appeal, unless the decision appealed from is made immediately effective, as herein next provided.

(2) When the orderly administration of the range or other public interest so requires, (i) the range manager may provide initially in his decision that it shall be in full force and effect pending decision on an appeal therefrom; (ii) the examiner or the Director may provide in the decision on an appeal before such officer, that it shall be in full force and effect pending decision on any further appeal; (iii) the Director or the Secretary may provide by interim order that any decision from which an appeal is taken shall be in full force and effect pending final decision on the appeal. Any action taken by the range manager pursuant to a decision shall be subject to modification or revocation by the Examiner, Director, or the Secretary upon an appeal from the decision. In order to insure the exhaustion of administrative remedies before resort to court action, no decision which at the time of its rendition is subject to appeal to a superior authority in the Department shall be considered final so as to be agency action subject to judicial review under sec. 10 (c) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 237), unless it has been made effective pending a decision on appeal in the manner provided in this paragraph.

(j) *Record as basis of decision; definition of record.* No decision shall be rendered except on consideration of the whole record or such portions thereof as may be cited by any party or by the state supervisor and as supported by and in accordance with the reliable, probative and substantial evidence. The transcript of testimony and exhibits, together with all papers and requests filed in the proceeding shall constitute the exclusive record for decision.

(k) *Notice and proof of service.* Any notice or other papers required to be served under this section shall be served in person or by registered mail sent to the last address of record, and proof of service furnished. Proof of service shall consist of the affidavit of the person making the personal service, signed acknowledgement of the person served, or the registry return receipt.

(l) *Effect of substantial compliance.* No adjudication of grazing privileges will be set aside on appeal, if it appears that it is reasonable and that it represents a substantial compliance with the provisions of the Federal Range Code for Grazing Districts.

§ 161.11 *General Rules of the range—*(a) *Acts prohibited.* The following acts are prohibited on the Federal range:

(1) Grazing livestock upon, allowing livestock to drift and graze on, or driving livestock across the Federal range, including stock driveways, without an appropriate license or permit, regular or free-use, or a crossing permit.

(2) Grazing livestock upon or driving livestock across the Federal range, including stock driveway, in violation of the terms of a license or a permit, either by exceeding the number of livestock permitted, or by allowing livestock to be on the Federal range in an area or at a time different from that designated, or in any other manner.

(3) Constructing or maintaining any kind of improvements, structures, fences, or enclosures on the Federal range, including stock driveways, without authority of law or a permit.

(4) Destroying, molesting, disturbing, or injuring property used or acquired for use by the United States in the administration of Federal range, including stock driveways, or improvements constructed or maintained under section 4 of the act.

(5) Cutting, burning, or removing vegetative cover, brush, woodland growth, or timber for any purpose, except as authroized by law. Permits to carry on controlled burning of vegetative cover or brush may be issued by the range manager in proper cases, subject to such conditions as he may impose, and to all State laws and regulations concerning such burning.

(6) Molesting or driving from the Federal range without authority livestock lawfully grazing thereon under license or permit.

(7) Interference with licensed hunters or fishermen to enter, and hunt and fish on the Federal range covered by such license or permit; or with the entrance of miners, prospectors and mineral lessees of the United States to prospect, locate, develop, mine or patent the mineral resources on such Federal range; or with other persons entitled to enter such range for lawful purposes.

(b) *Rules of fair range practice.* All licensees and permittees shall comply with the following rules of fair range practice:

(1) The statutory provisions of the State in which the Federal range or stock driveway to be used is located relating to the branding of livestock and sanitary requirements shall be followed.

(2) A crossing permittee shall follow the route prescribed in the crossing permit at an average rate of not less than five miles per day for sheep or goats and ten miles per day for cattle or horses, but an increased or decreased rate of travel may be prescribed in the discretion of the range manager.

(3) All licensees and permittees shall provide adequate salt on the range for their licensed or permitted livestock, and shall bed sheep and goats according to instructions issued by the range manager. Upon request by the majority of the users of any community allotment of Federal range, the range manager may prescribe the time for, breed, grade, and number of bulls to be turned into such allotment; in the absence of such express requirements the provisions of State law on the subject shall be applicable.

§ 161.12 *Procedure for enforcement of rules and regulations.* A grazing license or permit may be suspended, reduced, or revoked, or renewal thereof denied for a clearly established violation of the terms, or conditions of the license or permit, or for a violation of the act or of any of the provisions of the Federal Range Code for Grazing Districts, or of any approved special rule.

(a) *Violations not clearly wilful.* Whenever it appears that a violation exists, not clearly wilful, the range manager shall serve written notice upon the alleged violator and upon any interested lien holder who has registered notice of his lien with the range manager. The notice shall set forth the act or omission constituting such violation, referring to the specific terms or provisions of the license or permit, of the act or of the Federal Range Code for Grazing Districts or of any approved special rule alleged to have been violated; and will allow the licensee or permittee a reasonable specified time from receipt of notice to demonstrate that there has been no violation or that he has since achieved compliance with such terms and conditions. If such showing is satisfactory to the range manager he will close the case; if satisfactory showing is not made within the time allowed, the violations alleged in the notice will be deemed to have been wilful and the range manager will notify the state supervisor thereof for further action under paragraph (e) of this section.

(b) *Violations clearly wilful; special circumstances.* Whenever it appears to the range manager that a violation is clearly wilful or when the public health, safety, or interest requires, the range manager will refer the matter directly to the state supervisor for further action under paragraph (e) of this section.

(c) *Unlawful grazing on Federal range; removal of livestock; impoundment.* (1) Whenever the charge consists of unlawfully grazing livestock on the Federal range, the notice served on the alleged violator and any interested lien holder who has filed notice of his lien with the range manager will order the alleged violator to remove the livestock or to cause them to be removed immediately or within such reasonable time as may be specified. If the alleged violator fails to comply with the notice the range manager may proceed to exercise the proprietary right of the United States in the Federal range, under local impoundment law and procedure, if practicable; otherwise he may refer the matter through the usual channels for appropriate legal action by the United States against the violator.

(2) In any case where the owner of the trespassing livestock, or his representative, is unknown, or where conservation of the Federal range and of the forage thereon requires it, the range manager when so authorized by order of the State Supervisor may take steps to remove the trespassing livestock by such methods and by such means, including the use of airborne or motor-driven vehicles, as may be necessary, and to dispose of them by sale or otherwise within not less than 48 hours after public notice of his intention to make such disposition, subject to the right of any owner or registered lien holder of such trespassing livestock to redeem the livestock within such nondisposal period upon payment of (i) the value of the forage consumed, (ii) damage to the Federal range and other property of the United States, and (iii) the cost of such impoundment and removal, as determined by the range manager.

(3) Where conservation of the Federal range and the forage thereon requires it, the State Supervisor, with the approval of the Area Administrator, may temporarily close a grazing district or any portion thereof, to grazing by any class of livestock to be specified in such order. Notice of the order shall be published in a local newspaper and shall be posted at the County Courthouse of the County in which the closed area lies. The order shall require all owners of livestock affected thereby, to remove such livestock from the area within not less than five days from date of publication of the notice. Thereafter the range manager shall proceed to impound, remove, and dispose of, in the most humane manner in accordance with the provisions of this paragraph any such livestock trespassing or grazing in violation of the closing order.

(d) *Amicable settlement of civil cases involving damage to Federal property.* All offers of settlement for the value of the forage consumed in trespass and for damage to Federal range or to other property of the United States resulting from an alleged violation of any provision of the act or of the Federal Range Code for Grazing Districts will be transmitted to the State Supervisor for consideration. An offer of settlement will not constitute satisfaction of civil liability for the damage involved until finally accepted by the State Supervisor and in no event will it relieve the violator of criminal liability. No license or permit will be issued or renewed until payment of any amount found to be due the United States under this section has been offered and until payment of any amount due as grazing fees has been made.

(e) *Disciplinary action for violations; show cause.* (1) Whenever it appears to the State Supervisor that a wilful violation exists he shall cause a written notice to be served upon the licensee or permittee. The notice shall set forth the act or acts complained of, specifically referring to the terms, conditions, or provisions of the license or permit, or of the Federal Range Code for Grazing Districts alleged to have been violated, and an estimate of the amount of damages resulting therefrom, including the value of any forage consumed. The notice will cite the licensee or permittee to appear before an examiner of the Bureau of Land Management at a designated time and place to show cause why his license or permit should not be reduced or revoked or renewal thereof denied and satisfaction of damages made.

(2) The hearing upon the order to show cause will be conducted so far as practicable in the same manner as other hearings before an examiner. The evidence shall be confined to the commission of the acts charged and the amount of damages, if any, due to the United States. If the alleged violation is established to the satisfaction of the examiner, or upon the failure, without proper excuse satisfactory to the examiner, of the person named in the notice or his representative to appear at the hearing, the examiner will render a written decision assessing the amount of damages and directing the range manager to suspend, reduce, or revoke the license or permit or to deny renewal, if the facts so warrant.

(f) *Bonds for violations.* Whenever an applicant, licensee, or permittee commits a wilful or wanton violation of any provision of the Federal Range Code for Grazing Districts or has repeatedly committed violations thereof, the State Supervisor may require him to furnish a cash or corporate surety bond on an approved form to cover all probable damages that may result from his violations for a period up to ten years. Upon the violator's failure to furnish a bond when so required, the range manager may refuse to issue or renew a license or permit, or the State Supervisor may take action under paragraph (e) of this section, to revoke such license or permit.

(g) *Penal provision.* Under section 2 of the act any wilful violation of the provisions of the act or of the Federal Range Code for Grazing Districts or of approved special rules, after actual notice of the existence of the provisions of such act or of such rules and regulations, is punishable by a fine of not more than $500.

(h) *Appeals.* Appeal from the decision of the examiner to the Director and from the Director to the Secretary on any matter under this section shall be made in accordance with the applicable provisions of § 161.10 and the rules of practice (Part 221 of this chapter).

§ 161.13 *Grazing District Advisory Boards*—(a) *Authorization for establishment; number of members; qualifications.* The State Supervisor shall fix the number of members to be elected for appointment to the advisory board in each district, such number to be not less than five nor more than twelve, exclusive of a wildlife representative who will not be elective but shall be appointed directly by the State Supervisor. The State Supervisor may fix the number of district advisers to be elected as representatives of each class of stockmen, according to the kind of livestock owned, or may fix the number to be elected from each voting precinct, or both, provided that the free-use licensees in each district shall be entitled to one representative who shall be a free-use licensee. All district advisers, except the wildlife representative, shall be electors qualified to vote in the particular election. If a district is divided into precincts an adviser representing a precinct shall qualify in the precinct in the same manner as in the district.

(b) *Election; time and place; the general procedures.* All district advisers, except wildlife representatives, shall be elected in the manner provided in this section, and in the General Procedures for Grazing District Advisory Board Elections as approved by the Director, Bureau of Land Management and published in the FEDERAL REGISTER. An election of district advisers for each grazing district will be held within ninety days after the publication in the FEDERAL REGISTER of the order establishing the grazing district. Persons elected as advisers at the first election of the new district may hold office for a three-year term, or the range manager may divide the group, by lot, as evenly as may be, into three classes to serve for one year, two years, or three years respectively, and until their successors are elected and have qualified. Thereafter in such new district and in existing district, the Range Manager, after recommendation by the advisory board, shall determine whether elections shall be held annually or every three years and whether by actual polling or by mail, in accordance with the options in the General Procedures for Grazing District Advisory Board Elections.

(c) *Appointment; term of office; removal; vacancies.* Upon receipt of the judges' certificate of returns after conclusion of the election procedure the Range Manager shall notify the State Supervisor of the results thereof. A person elected as district adviser shall assume office only after he has been appointed by the State Supervisor and has taken the oath of office. Such person shall serve for the term for which he has been elected and until his successor is elected and has qualified. The State Supervisor may remove any district adviser from office because of failure to discharge his duties, loss of any of his qualifications to hold the office, or in the public interest. Upon a vacancy occurring in the office of a district adviser other than a wildlife representative by reason of resignation, removal, disqualification, or otherwise, the board shall recommend the name of a person to fill the vacancy and such recommendation, together with that of the range manager, shall be transmitted to the State Supervisor for consideration. A person appointed to fill a vacancy shall hold office until the next regular election. The wildlife representative shall hold office for a term of three years and until a successor is appointed by the State Supervisor.

(d) *Meetings; organization.* District advisory boards shall meet at any time and place within or near the district designated by the State Supervisor or his authorized representative. At the first meeting of the board after an election, it shall organize by electing one of its members as chairman and such other officers from its membership as it may deem necessary. Meetings of a district advisory board shall be open to the public except that, with the approval of the Bureau representative present, it may meet in executive session to consider applications for the granting of licences or permits or any other business.

(e) *Functions and duties of district advisers; limitations.* District advisers shall advise or make recommendations on the following matters:

(1) The qualifications, classification, and requirements of base property.

(2) The transfer and relinquishment of base property qualifications.

(3) The grazing capacity of the Federal range in the district.

(4) Applications for all types of grazing licenses or permits, including nonuse, or extension of use, except applications of district advisers.

(5) Cancellation of grazing licenses or permits when related to: failure to use base property, loss of all or part of lands used in year-round operation, range depletion, failure to offer base property or to validate a license or permit, or failure to use grazing privileges.

(6) Agreements as to the extent of individual grazing privileges, when such agreements have been reduced to writing and found to be equitable and in substantial compliance with the provisions of the Federal Range Code for Grazing Districts.

(7) Variance in range improvement fees in accordance with the character and requirements of the district or portions thereof.

(8) Requirements for unit or allotment boundary fences and apportionment of costs between the benefiting licensees or permittees.

(9) Proper rules of fair range practice.

(10) Allotments of range by classes of livestock or for community or individual use.

(11) Seasonal use of the Federal range or any part thereof.

(12) Cooperative agreements or application for the construction or maintenance of improvements on the Federal range under section 4 of the act and assignments thereof.

(13) Work plans under the range improvement, weed control or soil and moisture conservation programs.

(14) Any recommendations made by local associations of stockmen in the district.

(15) Reservations of grazing capacity of Federal range for wild game animals, including any agreements in connection therewith proposed for execution with State or Federal wildlife agencies.

(16) Special rules for the district, within the meaning of § 161.16.

(17) Any other matter which they may desire to bring to the attention of the Director, or on which their advice may be requested.

(f) *State Advisory Boards.* Each grazing district advisory board shall select from its members, at the first meeting of the board after each election, two members and two alternates to serve on a State Advisory Board for the State in which the district is located; where the district advisory board has representation for cattle and horses, and sheep and goats, then only one representative and one alternate representing each class shall be selected. The wildlife members of the advisory boards within each State may select one of their number and one alternate to serve on the State Advisory Board as their representative on wildlife matters.

(g) *National Advisory Board Council.* Each State Advisory Board shall select from its members, at its first meeting of each new term, one representative and one alternate representing cattle and horses, and one representative and one alternate representing sheep and goats, to serve on a National Advisory Board Council. The wildlife members of the several State Advisory Boards in each of the three B. L. M. Areas may select one of their number and one alternate to serve on the National Council as their area representative on wildlife matters.

(h) *Functions and duties of State Advisory Boards and National Advisory Board Council.* In addition to the service rendered on grazing district advisory boards, the State Advisory Board members shall consider and make recommendations on grazing administration policies or problems affecting the State as a whole. The National Advisory Board councilmen, in addition to serving on their respective district and State Advisory Boards, shall consider and make recommendations on grazing administration policies and problems of national scope.

§ 161.14 *Local associations of stockmen*—(a) *Organization.* Qualified applicants for grazing licenses or permits in any grazing district may organize a local association, or several associations, according to classes of livestock, or by community of interest or otherwise.

(b) *Articles of incorporation; constitutions; by-laws.* Such associations shall be organized as corporations "not-for-profit", if permissible under the laws of the State in which the grazing district, or the greater part thereof, is situated; or they may be organized as cooperative unincorporated associations. In either case the articles of incorporation, the charters, or the constitutions of such associations shall be submitted to the State Supervisor for approval before the association may be recognized by the Bureau. The by-laws of such associations need not be submitted but in any instance in which they are in conflict with the provisions of the Federal Range Code for Grazing Districts or the terms of any license, permit, or cooperative agreement issued to or made with an association, the latter shall prevail.

(c) *Powers.* Such local association shall be authorized to exercise one or more of the following powers, to be specifically set forth in the articles of incorporation, charter, or constitution, as the case may be, of such association:

(1) To make contributions in cash, property, material or labor toward the administration, protection, and improvement of the Federal range lying within the district.

(2) To construct and maintain fences, wells, reservoirs, and other improvements necessary to the care and management of the livestock grazed in the district, under permit issued by the Bureau.

(3) To act in an advisory capacity in the administration of the Federal range lying within the district.

(4) To recommend the amount, manner of apportionment, time, and method of collection of assessments for strictly association purposes, as well as for the public purposes contemplated by the act.

(5) To enter into cooperative agreement for any of the foregoing purposes or for any other purposes authorized by the act. In addition, the association's powers may include, among others, the power to lease or otherwise acquire the control of State, county, privately owned, tax default, or other lands within or near a district.

(d) *Cooperative agreements for use of lands; obligation of licensees and permittees to share cost.* Whenever the grazing capacity of Federal range is increased whether by reason of the acquisition of control of any lands by the Bureau or otherwise, through a cooperative agreement with a local association, any licensee or permittee benefiting thereby, whether a member of the association or not, shall pay to the association his proportionate share of the cost of the association lands and of the cost of installation, development, and maintenance of range improvements, including reseeding, plus any authorized association assessments for other expenses. Such share shall be determined by the range manager after consideration of the recommendation of the association. The range manager may refuse to issue a license or permit to any applicant or may cancel or refuse to renew the license or permit of any licensee or permittee to graze on any lands covered by such agreement, whether public or association lands, and whether or not such applicant, licensee, or permittee is a member of the association, if he fails or refuses to pay to the association any of the foregoing charges.

§ 161.15 *Construction and maintenance of improvements on the Federal range*—(a) *Qualification of applicants for permits.* An applicant for a permit to construct or maintain improvements under section 4 of the act, or to use and maintain improvements of such character constructed and owned by a prior occupant, on the Federal range, must be qualified under § 161.3 (a).

(b) *Applications.* Applications for such permits shall be filed in triplicate with the range manager on form 4–1115.

(c) *Appeals.* The range manager will act on the application after reference to the advisory board and such action shall be final unless the applicant or any interested party appeals in accordance with § 161.10.

(d) *Assignments.* Assignments of section 4 permits shall be filed with the range manager in triplicate on the authorized form and shall not be effective until approved by the range manager.

(e) *Applications for use of improvements owned by prior occupant; procedure upon failure to agree.* Where an application shows that the applicant and the prior occupant have not agreed on the value of such improvements owned by the latter, the range manager will promptly, at the applicant's expense, cause the prior occupant to be served either personally or by registered mail with a notice of the filing of the application, and an order to show cause within thirty days why the improvements should not be determined to be of the value

alleged by the applicant. Upon such a showing, or if the prior occupant applies within thirty days from the date of service for an appearance before the range manager, then in the light of such evidence as the applicant and the prior occupant may present in such appearance, the range manager will determine the present reasonable value of the improvements. Such determination shall be final unless an appeal is taken in accordance with § 161.10. Upon the failure of the prior occupant to show cause or to apply within thirty days for an appearance, the reasonable value of the improvements will be determined by the range manager but shall be not less than the amount alleged by the applicant in his application, and the decision of the range manager in such case shall be final. In any case when a decision has become final, payment by the applicant of the amount determined and a showing that the improvements are free of all encumbrances may be required prior to favorable action on the application for use of such improvements, and on any application for grazing privileges involving the use of such improvements.

(f) *Cooperative agreements.* A licensee or permittee may enter into a cooperative agreement with the range manager for the construction and maintenance of range improvements on the Federal range. Failure of the licensee or permittee to comply with the terms of such an agreement within a reasonable time as allowed by the range manager may result in cancellation of the license or permit as provided in § 161.9 (d).

(g) *Applications for lands containing range improvements; compensation; reservation.* Public lands embraced in a license or permit are subject to classification and disposition under the provisions of sections 7 and 14 of the act, or other public land laws, as specified in § 161.5 (e).

(1) When the disposal application covers land upon which range improvements have been placed pursuant to a permit authorized under section 4 of the act, the owner thereof may be required to remove the improvements; or if the improvements are of a permanent nature, the land applicant may be required to agree in writing to compensate the licensee, permittee, or other owner of such improvements located on the lands applied for, in an amount to be mutually agreed upon, or, if the parties are unable to agree, then in the amount and within the time for payment as determined by the range manager in accordance with the applicable procedure under paragraph (e) of this section.

(2) (i) When the disposal application covers public land upon which range improvements have been placed by the United States, or pursuant to a cooperative agreement heretofore or hereafter entered into between the Bureau and the licensee, permittee, and/or other cooperators, the disposal application will be referred by the land office manager to the range manager for determination as to whether it may be allowed, notwithstanding such improvements, and, if so, whether with or without a reservation. If the application is to be allowed without a reservation of the improvements, the applicant may be required to agree in writing to compensate for the loss of such improvements in the amounts to be mutually agreed upon and payable separately to the Bureau and to the cooperators. In the event of disagreement, the range manager shall determine the total amount of compensation due, as provided in paragraph (e) of this section, and the time for payment. Such amount shall then be payable separately to the Bureau and to the cooperators entitled thereto, in proportion to the amount or value of their respective contributions in money, material, or labor, to the total cost of the improvement, as made by them under the original cooperative agreement, as specified by the range manager.

(ii) The refusal or failure of the land applicant to pay the licensee, permittee, or other party entitled thereto, in accordance with the agreement or in the amount fixed by the range manager and within the time allowed, shall be just cause for the rejection of an application or for the cancellation of any rights or interests in the lands acquired by the applicant by reason of the allowance of his application. Such rejection or cancellation shall be subject to the right of appeal directly to the Director and to the Secretary, in accordance with the rules of practice (Part 221 of this chapter).

(3) Under the act of July 9, 1942, as amended (43 U. S. C. sec. 315q), the holder of a grazing license or permit shall be compensated for the losses sustained by reason of cancellation of or prevention of use of authorized grazing privileges resulting from the use of lands embraced in such license or permit for war or national defense purposes, in an amount determined to be fair and reasonable and to be paid by the head of the Federal department or agency making such use. Such payment shall be deemed payment in full for such losses.

§ 161.16 *Special rules for grazing districts.* Whenever it appears to a state supervisor after considering the recommendation of the district advisory board that local conditions in any district make necessary the adoption of a special rule on any of the matters in the Federal Range Code for Grazing Districts in order better to achieve an administration consistent with the purposes of the act, he may, with the concurrence of the Area Administrator, recommend such a rule, supported by a factual showing of its necessity, for the approval of the Director. Such rule, if approved, shall be published in the FEDERAL REGISTER.

§ 161.17 *Contributions, for administration, protection, and improvement of public lands.* The State Supervisor may accept contributions, under section 9 of the act, of labor, materials, equipment, or money, toward any of the Bureau's functions in administering, protecting, and improving public lands under its jurisdiction in the states.

(a) Any individual, association, corporation, grazing district advisory board, state or local body or private group, may enter into an agreement with the State Supervisor with respect to such contribution. Where the contribution is to include money, the contributor should execute form 4–1268 or 4–1269 as requested by the range manager.

(b) Contributions may be conditioned upon their use for specific projects or in specific localities.

(c) Upon written request of the contributor, the State Supervisor may authorize refund of any amounts deposited, in excess of the contributor's proper share of the expense incident to the purpose for which the contribution was made.

§ 161.18 *Pledge of licenses and permits as security for loans; application for extension of permit term by borrower-permittee.* (a) A license or permit may be pledged as security for a loan of $500 or more from a lending agency if the loan is for the purpose of furthering the licensee's or permittee's livestock operations. Before a loan is made the lending agency may ascertain from the range manager the status of the grazing license or permit and other pertinent information relating thereto. A service fee of $10 will be charged non-Federal lending agencies for such information.

(b) A borrower-permittee desiring an extension of the term of his permit may file a request therefor, in writing, with the range manager, setting forth the name of the lending agency, purpose and amount of loan, and the need for the extension of the permit term. When it appears that such extension will be in accordance with applicable law and regulation and not contrary to the public interest, the range manager, in his discretion, may extend the permit for a period not to exceed 10 years from the date of the loan, subject to the rules and regulations then in force and to such additional terms and conditions as the range manager may provide. The provisions of this paragraph shall not be applicable to grazing licenses which are issued annually on a temporary basis prior to the issuance of term permits.

(c) If the base property to which the grazing privileges on the Federal range covered by the pledged license or permit are attached as a grazing unit is acquired by the lending agency through foreclosure or otherwise, such agency, or purchasers, lessees, or occupants of the property authorized by such agency, if qualified, may apply to be recognized as the successor licensee, or permittee. If in selling the property the lending agency takes back a mortgage on the base property, the agency will receive the same consideration as in the case of an original loan.

(d) Where a lending agency files with the range manager notice that it has made a loan and has accepted a grazing license or permit as security therefor in conformity with the provisions of this section, the range manager as a matter of cooperation will keep such agency advised of any adverse action affecting the license or permit, but the failure to give timely notice of such adverse action shall impose no legal liability or obligation on the range manager or the Bureau or any of its employees.

§ 161.19 *Saving clause.* So far as practicable and consistent with the purposes and provisions of the act and the basic policy and plan of administration outlined in § 161.1 (a) of the Federal Range Code for Grazing Districts, the provisions of §§ 161.1 to 161.19 inclusive of the Code will not be applied to the prejudice of the position of anyone who on the date of approval of these regulations was the holder of a grazing license or permit or who on that date had pending an application therefor.

Interested persons may submit in triplicate written comments, suggestions, or objections with respect to the regulations to the Bureau of Land Management, Washington 25, D. C., within 30 days from the date of publication in the FEDERAL REGISTER.

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

DECEMBER 19, 1955.

[F. R. Doc. 55–10282; Filed, Dec. 22, 1955; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

RECAPITULATION

Because of the number of outstanding amendments to Part 1 since it was last recapitulated in the FEDERAL REGISTER (April 7, 1950, at page 1978), Part 1 is recapitulated as of December 1, 1955, to read as set forth herein.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Subpart A [Reserved]

Subpart B [Reserved]

Subpart C [Reserved]

Subpart D—Rules Relating to Applications and Proceedings Affecting Radio Licenses Under Title III of the Communications Act

GENERAL REQUIREMENTS AS TO APPLICATIONS

Sec.
1.301 Applications required.
1.302 Place of filing and number of copies.
1.303 Subscription and verification of applications.
1.304 Contents of applications.
1.305 Full disclosures.
1.306 Additional statements.
1.307 Form of amendments to applications.
1.308 Amendments of applications ordered.

RULES RELATING TO FILING OF APPLICATIONS AND DESCRIPTION OF APPLICATION FORMS

1.309 Special forms.
1.310 FCC Form 410, Application of Canadian Radio Station Licensees for Registration and Permit to Operate in the United States.
1.311 Application forms for authority to construct a new station or make changes in an existing station; broadcast services.
1.312 Application forms for construction permit or modification thereof; radio services other than broadcast.
1.313 Installation or removal of apparatus; broadcast and nonbroadcast.
1.314 Application for extension of construction permit or for construction permit to replace expired construction permit (broadcast); application for extension of construction permit (nonbroadcast).
1.315 Application for equipment tests or for service or program tests; broadcast and nonbroadcast.
1.317 Application for license following construction permit.
1.318 Application for station license where no construction permit is required.
1.319 Application for modification of license; broadcast and nonbroadcast.
1.320 Application for renewal of license; broadcast and nonbroadcast.
1.321 Application for voluntary assignment or transfer of control; broadcast.
1.322 Application for voluntary assignment or transfer of control; nonbroadcast.
1.323 Application for involuntary assignment or transfer of control; broadcast and nonbroadcast.
1.324 Application for special temporary authorization.
1.325 Application for special service authorization; broadcast.
1.326 Application for standard broadcast station experimental operation.
1.327 Application concerning programs to be transmitted to foreign radio stations.
1.328 Application to determine operating power by direct measurement of antenna power.
1.329 Application for radio operator license.
1.330 Application for ship radio inspection or periodical survey of ships subject to compulsory radio requirements.
1.331 Applications for exemption from compulsory ship radio requirements.
1.332 Informal applications.
1.333 Construction permits.
1.334 Applications for permission to use lesser grade operators at aural broadcast stations than required by Commission rules.
1.335 FCC Form 482, "Certification of Civil Defense Radio Officer."

RULES RELATING TO OTHER FORMS AND INFORMATION TO BE FILED WITH THE COMMISSION

1.341 Financial report, broadcast licensees and permittees.
1.342 Filing of contracts, broadcast licensees and permittees.
1.343 Ownership reports, broadcast licensees and permittees.
1.344 Definitions of terms used in §§ 1.341–1.343.
1.346 Reports in connection with certain fixed public radio service operations.
1.347 Reports to be filed by international and coastal radiotelegraph carriers.

RULES RELATING TO ACCEPTANCE, AMENDMENT, OR DISMISSAL OF APPLICATION

1.361 Defective applications.
1.362 Inconsistent or conflicting applications.
1.363 Repetitious applications.
1.364 Multiple applications; broadcast service.
1.365 Amendments of applications.
1.366 Dismissal of applications.

THE MANNER IN WHICH APPLICATIONS ARE PROCESSED

1.371 Acceptance of applications.
1.372 Staff consideration of applications which receive action by the Commission.
1.373 Procedure with respect to processing of standard broadcast applications.
1.374 Staff consideration of applications which do not require action by the Commission.
1.375 Procedure with respect to amateur and commercial radio operator licenses.
1.376 Procedure with respect to applications for ship radio inspection or periodical survey.
1.377 Procedures for handling applications requiring special aeronautical consideration.
1.378 Procedure for processing applications for television broadcast stations.

ACTION ON APPLICATIONS

1.381 Failure to prosecute applications.
1.382 Grants without a hearing.
1.383 Partial grants.
1.384 Operation pending action on renewal application.
1.385 Designation for hearing.
1.386 Petition for reconsideration and grant without hearing.
1.387 Procedure when case is designated for hearing.
1.388 Petitions to intervene.
1.389 Motions to enlarge or change the issues.
1.390 Petitions for reconsideration or for rehearing.
1.391 Special waiver procedure relative to broadcast applications.

PROCEDURE WITH RESPECT TO REVOCATION AND MODIFICATION OF STATION AUTHORIZATIONS, ISSUANCE OF CEASE AND DESIST ORDERS, AND SUSPENSION OF RADIO OPERATOR'S LICENSE

1.401 Notice of violations.
1.402 Revocation of station licenses and construction permits and issuance of cease and desist orders.
1.403 Modification of licenses.
1.404 Suspension of operator licenses.

FORFEITURES AGAINST SHIPS AND SHIP MASTERS

1.410 Forfeitures against ships and ship masters.

Subpart E—Rules Relating to Applications, Reports, and Proceedings Affecting Common Carriers Under Title II of the Communications Act

GENERAL RULES RELATING TO APPLICATIONS

1.501 Subscription and verification of applications.
1.502 Full disclosures.
1.503 Additional statements.
1.504 Form of amendments to applications.
1.505 Amendments of applications ordered.
1.506 Defective applications.
1.507 Amendments and dismissals of applications.
1.508 Failure to prosecute applications.
1.509 Partial grants.
1.510 Inconsistent or conflicting applications.

FILING AND PROCESSING OF APPLICATIONS

1.521 Filing and routing of applications.
1.522 Application for extension of time in which to file financial reports.
1.523 Application for special tariff permission; procedure and application form.
1.524 Application for holding interlocking offices or directorates; procedure and application form.
1.525 Application for lines.
1.526 Application for discontinuance, reduction, or impairment of service.
1.527 Application for consolidation of telephone companies.
1.528 Application for consolidation of domestic telegraph carriers.
1.529 Application with respect to disposition of debit amounts in account 100.4, "Telephone plant acquisition adjustment," for class A and class B telephone companies and in account 1200, "Plant adjustments" for class C telephone companies.

TARIFFS, REPORTS, AND OTHER MATERIAL REQUIRED TO BE SUBMITTED BY CARRIERS

1.541 Tariffs to be filed.
1.543 Contracts to be filed.
1.544 Annual financial reports.
1.545 Monthly financial reports.
1.547 Reports to be filed under Part 31 of this chapter.
1.548 Reports to be filed under Part 33 of this chapter.
1.549 Reports to be filed under Part 34 of this chapter.
1.550 Reports to be filed under Part 35 of this chapter.

Sec.
1.551 Reports of proposed changes in depreciation rates.
1.552 Reports regarding premature destruction of records.
1.553 Reports regarding pensions and benefits.
1.554 Reports regarding division of international telegraph communication charges.
1.555 Reports regarding telegraph carrier services.
1.556 Reports of negotiations regarding foreign communication matters.
1.557 Reports on traffic.
1.558 Reports under § 63.04 of this chapter.
1.559 Reports to be filed regarding lines.
1.560 Reports to be furnished regarding domestic telegraph speed of service.

RULES RELATING TO COMPLAINTS

1.571 Formal or informal complaints.
1.572 Informal complaints.
1.573 Action on informal complaints.
1.574 Resubmission; 6 months' rule.
1.575 Formal complaints; requirements.
1.576 Statement of issues; joinder of causes of complaint.
1.577 Notice of complaints.
1.578 Charges, etc.; specific references.
1.579 Separate statement of each provision violated.
1.580 Allegations; certainty.
1.581 Challenge of general rate adjustments; reparation.
1.582 Discrimination specified.
1.583 Preference or prejudice.
1.584 Reparation; prayer for.
1.585 Limitations; damages pendente lite.
1.586 Supplemental complaints.
1.587 Cross complaints.
1.588 Answers to complaints and petitions.
1.589 Answers to petitions or amended complaints.
1.590 Requests for suspension of tariff schedules.

RULES CONCERNING SHOW CAUSE ORDERS AND TENTATIVE VALUATIONS

1.591 Order to show cause.
1.592 Protests of tentative valuations.

Subpart F—General Rules of Practice and Procedure

GENERAL

1.701 Suspension, amendment or waiver of rules.
1.702 Petition for amendment or waiver of rules.
1.703 Computation of time.

PERSONAL APPEARANCES; PRACTITIONERS

1.711 Appearances.
1.712 Authority for representation.
1.713 Persons who may be admitted to practice.
1.714 Suspension or disbarment of attorneys.
1.715 Former employees.
1.716 Appearance blanks.

PETITIONS AND OTHER REQUESTS FOR COMMISSION ACTION

1.721 General.
1.722 Petitions to intervene.
1.723 Request by nonparties to participate in hearings; communications relating to applications.
1.724 Petitions to consolidate.
1.725 Motions to enlarge or change the issues.
1.726 Reconsideration or rehearing.
1.727 Complaints.
1.728 Declaratory rulings.
1.729 Adverse rulings on petitions.
1.730 Oppositions and replies to oppositions.

MOTIONS DOCKET

1.741 Action by Commission.
1.742 Action by Motions Commissioner or Commissioner designated to preside at a hearing.
1.743 Action by Hearing Examiner.
1.744 Motions calendar: Time of calling and place; continuances.
1.745 Time for filing motions.
1.746 Oppositions.
1.747 Procedure in Motions calendar.
1.748 Number of copies.
1.749 Rulings.
1.750 Review of adverse ruling.
1.751 Limitation on length of pleadings in adjudicatory proceedings.

SPECIFICATIONS AND SERVICE OF PLEADINGS AND OTHER PAPERS

1.761 Cross reference.
1.762 Specifications as to pleadings and documents.
1.763 Briefs.
1.764 Number of copies.
1.765 Subscription and verification.
1.766 Amendments to pleadings.
1.767 Service of documents and proof of service.
1.768 Withdrawal of papers.

Subpart G—Rules Relating to Hearings and Decisions

1.801 Informal hearings.

FORMAL HEARINGS

1.802 Official reporter; transcript.
1.803 Notice of hearing.

CONTINUANCES AND PREHEARING CONFERENCES

1.811 Continuances and extensions.
1.812 Postponement or change of place.
1.813 Prehearing conferences.

DEPOSITIONS

1.821 Depositions on notice.
1.822 Persons before whom depositions may be taken.
1.823 Submission to witness; changes; signing.
1.824 Certification and filing by officer; copies.
1.825 Inclusion in the record; objections.
1.826 Inclusion in record.

SUBPENAS

1.831 Who may sign and issue.
1.832 Requests; verification and content.
1.833 Witness fees.
1.834 Service of subpenas; return.

HEARINGS AND DECISIONS

1.840 Applicability.
1.841 Exchange of exhibits and information; commencement of hearing procedure in cases involving broadcast applications for authority to construct broadcast facilities.
1.842 Order of procedure.
1.843 Designation of presiding officers.
1.844 Authority of presiding officers.
1.845 Hearing before more than one person.
1.846 Closing of the hearing.
1.847 Certification of transcript.
1.848 Corrections to transcripts.
1.849 Proposed findings and conclusions.
1.850 Contents of findings of fact and conclusions.
1.851 Initial and recommended decisions.
1.852 Waiver of initial or recommended decision.
1.853 Appeal and review of initial decision.
1.854 Exceptions; oral arguments.
1.855 Limitation of matters to be reviewed.
1.856 Number of copies.
1.857 Final decision of the Commission.
1.858 Separation of functions.
1.859 The record.

EVIDENCE

1.871 Rules of evidence.
1.872 Cumulative evidence.
1.873 Further evidence during hearing.
1.874 Documents containing matter not material.
1.875 Documents in foreign language.
1.876 Copies of exhibits.
1.877 Mechanical reproductions as evidence.
1.878 Tariffs as evidence.
1.879 Proof of official record; authentication of copy.
1.880 Proof of lack of record.
1.881 Other proof of official record.

REHEARINGS

1.891 Cross reference.
1.892 Who may file.
1.893 Contents; relief requested.
1.894 Time for filing.
1.895 Opposition.
1.896 Special calendar when granted.

Appendix 1—Applications under the Cable Landing Licenses Act and Executive Order No. 10530.
Appendix 2—A plan of cooperative procedure in matters and cases under the provisions of section 410 of the Communications Act of 1934.

AUTHORITY: §§ 1.301 to 1.896 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Statutory provisions interpreted or applied are cited to text in parentheses.

Table showing forms currently in effect and where they are referred to in Part 1 of this chapter.

SUBPART A [RESERVED]

SUBPART B [RESERVED]

SUBPART C [RESERVED]

SUBPART D—RULES RELATING TO APPLICATIONS AND PROCEEDINGS AFFECTING RADIO LICENSES UNDER TITLE III OF THE COMMUNICATIONS ACT[1]

GENERAL REQUIREMENTS AS TO APPLICATIONS

§ 1.301 *Applications required.*[2] (a) Construction permits, modifications of construction permits, operator and station licenses, renewal of operator and station licenses, modification of station licenses, special temporary authorizations, special service authorizations, assignment of construction permits or licenses and consent to transfer control of a corporation holding a construction permit or license, shall be granted only upon written, subscribed, and verified application upon forms prescribed by the Commission. A separate application shall be filed for each instrument of authorization requested. In cases arising in services other than broadcast, however, where a licensee holds several licenses which are identical in terms, or which are identical with the exception of station locality, and in other cases in the discretion of the Commission, a single application may be filed for renewal or modification of such licenses, provided such single application sets forth in detail an accurate description of the individual licenses sought to be renewed or

[1] Special provisions respecting procedure for consideration of applications for standard broadcast station assignments pending action with respect to ratification and entry into force of the North American Regional Broadcasting Agreement (NARBA), Washington, 1950, and in the light of the existing relationship in the field of standard broadcasting between the United States and other North American countries.

1. The special procedural provisions set out below with respect to the consideration of applications for standard broadcasting station assignments are adopted in order to take into account the policy set out in the note to § 3.28 (b) of this chapter. That note has reference to consideration by the Commission of applications for standard broadcast station assignments in the light of provisions of the North American Regional Broadcasting Agreement, Washington, 1950, referred to herein as NARBA, and the existing relationship in the field of standard broadcasting between the United States and other North American countries. The procedure set forth below is applicable to all applications before the Commission for standard broadcast station assignments except those already being held in a pending status in connection with Dockets Nos. 6741 and 8333.

APPLICATIONS INCONSISTENT WITH NARBA OR WHICH WOULD CAUSE OBJECTIONABLE INTERFERENCE TO STATIONS IN NORTH AMERICAN COUNTRIES NOT SIGNATORY TO THE NARBA

2. *Applications not in hearing status.* (a) Whenever it appears with respect to an application not in hearing status that a grant thereof would be inconsistent with the NARBA or that the operation proposed therein would cause objectionable interference to a station in a North American country not signatory to the NARBA, such application shall, by action of the Secretary upon advice of the Chief of the Broadcast Bureau, be placed in the pending file and, except as provided herein, shall not receive further consideration or action pending modification of the policy set forth in the above-mentioned note to § 3.28 (b) of this chapter. Where it appears that any such application is mutually exclusive with an application or applications, the grant of which would not be inconsistent with the NARBA and would not result in objectionable interference to any station in a North American country not signatory to the NARBA, such application will be designated for hearing in consolidation with the application or applications with which it is in conflict. In such cases, the question of consistency with the NARBA or objectionable interference to stations in North American countries not signatory to the NARBA shall be made a matter of issue in the hearing.

3. *Applications in hearing status.* (a) Whenever it appears with respect to any application which has been designated for hearing by itself or with respect to all of the applications in any consolidated proceeding that a grant of the application or applications involved would be inconsistent with the NARBA or would result in objectionable interference to a station in a North American country, not signatory to the NARBA, and where the hearing involved has not been commenced, such application or applications will be removed from the hearing docket and placed in the pending file. Where the hearing involved has been commenced, such application or applications will be placed in the pending file, but will not be removed from the hearing docket. Such action shall be by order and may be taken by the Commission upon its own motion or by the Motions Commissioner upon motion of any party to the proceeding or of the Chief of the Broadcast Bureau.

(b) Whenever it appears with respect to one or more but not all of the applications in any consolidated proceeding that a grant of such application or applications would be inconsistent with the NARBA or would result in objectionable interference with stations in a North American country not signatory to the NARBA or where consistency with the NARBA or interference to foreign stations is not already a matter at issue in the proceeding, the notice of hearing will be amended to include an appropriate issue and if the record has been closed it will be reopened for the purpose of taking testimony with respect to such issue. Such action will be taken by the Commission upon its own motion or upon motion of any party to the proceeding or the Chief of the Broadcast Bureau.

(c) In any proceeding in which after the hearing has commenced it becomes necessary to place the applications involved in the pending file or to add, with respect to any application or applications, an issue concerning consistency with the NARBA or interference to foreign stations the applicants concerned will, notwithstanding the status of the proceeding and the provisions of § 1.365 (a), be afforded a reasonable opportunity to amend for the purpose of achieving consistency with the NARBA and eliminating interference to foreign stations.

(d) In any proceeding in which there is an issue concerning consistency with the NARBA or interference to foreign stations the presiding officer will include in his decision a finding upon this issue. However, neither the presiding officer nor the Commission will take this factor into account in arriving at a determination whether the grant of any application in the proceeding would serve the public interest. The presiding officer and the Commission will adhere to the policy outlined below in taking final or intermediate action upon the applications involved in such proceedings.

(1) Applications will be granted where such action would not be inconsistent with the NARBA, would not result in interference to a station in a North American country not signatory to the NARBA, and would otherwise be in the public interest.

(ii) Applications will be denied (a) which are mutually exclusive with an application granted in accordance with (i) above; and (b) where a denial is required for reasons independent of the question whether grant of application would be consistent with the NARBA or would result in objectionable interference to a station in a North American country not signatory to the NARBA.

(iii) Applications will be placed in the pending file without removal from the hearing docket (a) where a grant would be inconsistent with the NARBA or would result in interference to a station in a North American country not signatory to the NARBA but would otherwise be in the public interest; and (b) where a denial would be based upon comparative consideration with an application placed in the pending file in accordance with the immediately preceding subdivision (iii) (a).

4. *General provisions with respect to applications placed in the pending file.* (a) whenever any application is placed in the pending file pursuant to paragraphs 2 or 3 above, the applicant concerned will be notified and public notice of the action will be given at the offices of the Commission in Washington, D. C. The Commission will maintain a list of all applications placed in the pending file which list will be available for pubic inspection. Any interested applicant who believes that an application has been erroneously placed in the pending file may petition the Commission for a review of its action or the Secretary's action. Petitions requesting that an application be placed in the pending file will also be entertained. All petitions filed pursuant to this paragraph must be filed in quintuplicate and be accompanied by an affidavit of a qualified radio engineer setting forth the engineering basis for the petition. Upon receipt of a petition filed in accordance with this paragraph, the Commission will review the action to which the petition is directed and provide opportunity for the submission by interested parties of any further data that may be required for full consideration of the matter.

5. *Applications consistent with the NARBA.* As a matter of general practice, except as provided in the procedure set out above, applications consistent with the NARBA which do not propose operations which would cause interference to stations in North American countries not signatory to the NARBA will be considered and acted upon by the Commission in accordance with its established procedure, even though the NARBA may not yet have entered into force. In particular cases involving applications consistent with the NARBA but in which special considerations of an international nature require that a different procedure be followed, the applicant or applicants involved will be formally advised to that effect.

[2] For additional information relative to applications see the respective rules relating to each service.

modified. In cases of emergency, the Commission may issue, for a period not in excess of three months, licenses, renewal of licenses or modification of licenses for stations on vessels or aircraft of the United States, without a formal application. In case of vessels at sea, the Commission may issue, by cable, telegraph, or radio, a permit for the operation of a station until the vessel returns to a port of the continental United States.

(b) Canadian licensees desiring to operate in the United States under the terms of Articles 2 and 3 of the Treaty between United States and Canada, effective May 15, 1952, are required to register and obtain a permit.

§ 1.302 *Place of filing and number of copies.* For places where applications must be filed and number of copies to be filed, see sections 0.409 through 0.414 of the Statement of Organization, Delegations of Authority and Other Information.

§ 1.303 *Subscription and verification of applications.* Each application or amendment thereto shall be personally subscribed and verified or affirmed according to law: (a) By the party filing such application or amendment, or by one of the parties, if there be more than one; (b) by an officer of the party filing the application or amendment if the party be a corporation: *Provided, however,* That subscription and verification may be made by the attorney for the party (1) in case of physical disability of the party, or (2) his absence from the continental United States. If it be made by a person other than the party, he must set forth in the verification the grounds of his belief as to all matters not stated upon his knowledge and the reason why it is not made by the party. Where more than one copy of an application is required to be filed with the Commission, only the original need be signed and verified; the copies may be conformed.

§ 1.304 *Contents of applications.* Each application (unless otherwise directed) shall be specific with regard to frequency or frequencies, power, hours of operation, equipment, location of the station, and other information required by the application forms.[a] An application for broadcast facilities in the standard, FM, or television bands shall be limited to one frequency and an application for radio station construction permit or license requesting alternate facilities will not be accepted. An application for a television broadcast station must request a specific channel provided for in table of assignments (§ 3.606 of this chapter) for the city in which the applicant proposes to construct a station.

§ 1.305 *Full disclosures.* Each application shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial, and other qualifications, and as to all matters and things required to be disclosed by the application forms.

§ 1.306 *Additional statements.* The Commission may require an applicant to submit such documents and written statements of fact, under oath, as in its judgment may be necessary.

§ 1.307 *Form of amendments to applications.* Any amendment to an application shall be subscribed, verified, and submitted in the same manner, and with the same number of copies, as was the original application.

§ 1.308 *Amendments of applications ordered.* The Commission may, upon its own motion or upon motion of any party to a proceeding, order the applicant to amend his application so as to make the same more definite and certain.

RULES RELATING TO FILING OF APPLICATIONS AND DESCRIPTION OF APPLICATION FORMS

§ 1.309 *Special forms.* (a) FCC Form 301–A, "Request for Modification of Broadcast Station Authorization (Remote Control)." For use by existing broadcast licensees or permittees applying for permit to operate a standard or FM broadcast station from a remote control point.

(b) FCC Form 318, "Request For Subsidiary Communications Authorizations." For use by existing FM broadcast licensees applying for permit to establish a SCA service, modification of SCA, renewal of SCA, and assignment and transfer of SCA.

§ 1.310 *FCC Form 410, Application of Canadian Radio Station Licensees for Registration and Permit to Operate in the United States.* For use of Canadian licensees applying for a permit for operation in the United States in accordance with the terms of the treaty between the United States and Canada relating to mutual recognition of certain radio station and operator licenses issued by either country.

§ 1.311 *Application forms for authority to construct a new station or make changes in an existing station; broadcast services.* Applications for new facilities or modification of existing facilities in the broadcast services including standard, FM, television, international, experimental (experimental television, experimental facsimile and developmental), and auxiliary (remote pickup broadcast, broadcast STL, FM inter-city relay, television pickup, television STL and television inter-city relay) shall be made on the following forms:

(a) FCC Form 301 "Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station."

(b) FCC Form 309, "Application for Authority to Construct or Make Changes in an Existing International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station."

(c) FCC Form 313, "Application for Authorization in the Auxiliary Broadcast Services."

(d) FCC Form 340, "Application for Authority To Construct or Make Changes in a Noncommercial Educational FM Broadcast Station."

§ 1.312 *Application forms for construction permit or modification thereof; radio services other than broadcast.* Applications for new facilities or modifications thereof in the Fixed Public Radio Services, Experimental Radio Services, Coastal and Marine Relay Services, Aviation Services, Public Safety Radio Services, Industrial Radio Services, Land Transportation Radio Services, and Radio Stations in Alaska shall be made on the following forms except as noted:

(a) FCC Form 400 "Application for Radio Station Authorization in Public Safety, Industrial and Land Transportation Radio Services." This form is used in these services for New Station, Modification, Renewal, Assignment of Authorization, or License to cover Construction Permit.

(b) FCC Form 400–A "Request for Amendment of Radio Station Authorization." This form may be used when requesting certain amendments to an existing radio station authorization, in the Public Safety, Industrial and Land Transportation Radio Services, as enumerated on the form and specified in the rules for the particular Service.

(c) FCC Form 401 "Application for new or modified Radio Station Construction Permit (other than Broadcast, Public Safety, Industrial, or Land Transportation Radio Services)."

(d) FCC Form 401–A, "Description of Proposed Antenna Structure(s) (services other than Broadcast)."

(e) FCC Form 480, "Application for Civil Air Patrol Radio Station Construction Permit and License".

§ 1.313 *Installation or removal of apparatus; broadcast and nonbroadcast.* Application for construction permit or modification thereof involving the installation of new transmitting apparatus shall be filed at least sixty days prior to the contemplated installation.

NOTE: In the Public Safety, Industrial, and Land Transportation Radio Services replacement of transmitting equipment may be made without prior authorization provided the replacement transmitters appear on the Commission's "List of Equipments Acceptable for Licensing" and designated for use in the Public Safety, Industrial and Land Transportation Radio Services and provided the substitute equipment employs the same type of emission and does not exceed the power limitations as set forth in the station authorization.

§ 1.314 *Application for extension of construction permit or for construction permit to replace expired construction permit (broadcast); application for extension of construction permit (nonbroadcast).* (a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) Application for extension of time within which to construct a station shall be filed on FCC Form 701, except in the Public Safety, Industrial, and Land Transportation Radio Services when FCC Form 400–A shall be used. Such application shall be filed at least 30 days prior to the expiration date of the construction permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

(c) In the broadcast services, when it is desired to replace an expired construction permit, application shall be made on FCC Form 321, "Application for Construction Permit to Replace Expired Permit."

§ 1.315 *Application for equipment tests or for service or program tests; broadcast and nonbroadcast.* Where the rules applicable to the particular service concerned require the filing of an application for authority to conduct equipment tests or service or program tests or notification to any office of the Commission of the commencement of such tests, such application or notification may be informal.

§ 1.317 *Application for license following construction permit.* (a) In all cases where a construction permit is required for the construction of a station, the application for station license (or for station license or modification thereof, if for station other than broadcast) shall be filed by permittee prior to service or program tests.

(b) The following application forms shall be used:

(1) FCC Form 302, "Application for New Broadcast Station License."

(2) FCC Form 310, "Application for an International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station License."

(3) FCC Form 313, "Application for Authorization in the Auxiliary Broadcast Services."

(4) FCC Form 341, "Application for Noncommercial Educational FM Broadcast Station License."

(5) FCC Form 400 "Application for Radio Station Authorization in the Public Safety, Industrial and Land Transportation Radio Services." Check Item 16 to indicate application is for License to cover Construction Permit.

(6) FCC Form 403, "Application for Radio Station License or Modification Thereof (other than broadcasting, amateur, ship, and aircraft)."

§ 1.318 *Application for station license where no construction permit is required.* (a) Where a construction permit is not required by the Communications Act or the applicable rules and regulations of the Commission, an application for a new station license shall be filed at least 60 days prior to the contemplated operation of the station.[a] In emergency and for good cause shown, the Commission may waive the requirements of this section.

(b) The following application forms should be used:

(1) FCC Form 302, "Application for broadcast station license." To be used for all applications for license to use the former main transmitter as the auxiliary transmitter when no new construction is involved, and for regular authorization covering special experimental authorization.

(2) FCC Form 341, "Application for Noncommercial Educational FM Broadcast Station License." To be used for all applications for license to use the former main transmitter as the auxiliary transmitter when no new construction is involved.

(3) FCC Form 404, "Application for Aircraft Radio Station License."

(4) [Reserved.]

(5) FCC Form 481, "Application for Authority to Operate a Station in the Radio Amateur Civil Emergency Service."

(6) FCC Form 501, "Application for Ship Radio Station Licenses."

(7) FCC Form 501–A, "Application for Ship Radiotelephone Station License."

(8) FCC Form 505, "Application for Citizens Radio Station Construction Permit and License."

(9) FCC Form 525, "Application for Disaster Communications Radio Station Construction Permit and License."

(10) FCC Form 602, "Application for Amateur Station License (under special provisions of Section 12.61 of the Commission's Rules)"—to be used for a station of amateurs in the armed forces when located in approved public quarters but not operated by the United States Government.

(11) FCC Form 610, "Application for Amateur Radio Operator and/or Station License."

§ 1.319 *Application for modification of license; broadcast and nonbroadcast.* (a) An application for modification of license, except amateur, and except as otherwise provided by regulations in this part, may be filed for change in frequency, change in operating power where no construction is necessary, change in hours of operation, and for change in name of licensee where no change in ownership or control is involved. In case of a broadcast station, an application for modification of license may be filed for change in location of main studio. In case of all stations other than broadcast, an application for modification of license may be filed for change in points of communication, change in nature of authorized service, and to cover an outstanding construction permit where the station is already licensed. Except when filed to cover construction permit, each application for modification of license shall be filed at least 60 days prior to the contemplated modification of license: *Provided, however,* That in emergencies and for good cause shown, the requirements hereof may be waived insofar as time for filing is concerned.

(b) The following application forms should be used:

(1) FCC Form 301, "Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station." To be used for all applications for modification of any term of an existing authorization of a broadcast station (except in the International, Facsimile, Experimental, or Auxiliary Broadcast Services).

(2) FCC Form 309, "Application for Authority to Construct or Make Changes in an Existing International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station."

(3) FCC Form 313, "Application for Authorization in the Auxiliary Radio Broadcast Services."

(4) FCC Form 340, "Application for Authority to Construct or make Changes in a Noncommercial Educational FM Broadcast Station." To be used for all applications for modification of any term of an existing authorization for a noncommercial educational FM broadcast station.

(5) FCC Form 400, "Application for Radio Station Authorization in the Public Safety, Industrial, and Land Transportation Radio Services." Check Item 16 to indicate application is for Modification.

(6) FCC Form 400–A, "Request for Amendment of Radio Station Authorization."

(7) FCC Form 403, "Application for Radio Station License or Modification Thereof (other than broadcasting, amateur, ship, or aircraft)."

(8) FCC Form 404, "Application for Aircraft Radio Station License."

(9) FCC Form 501, "Application for Ship Radio Station Licenses."

(10) FCC Form 501–A, "Application for Ship Radiotelephone Station License."

(11) FCC Form 505, "Application for Citizens Radio Station Construction Permit and License."

(12) FCC Form 525, "Application for Disaster Communications Radio Station Construction Permit and License."

(13) FCC Form 602, "Application for Amateur Station License (under special provisions of Section 12.61 of the Commission's Rules)"—To be used for a station of amateurs in the armed forces when located in approved public quarters but not operated by the United States Government.

(14) FCC Form 610, "Application for Amateur Radio Operator and/or Station License."

§ 1.320 *Application for renewal of license; broadcast and nonbroadcast.* (a) Unless otherwise directed by the Commission each application for renewal of license of a standard broadcast, FM broadcast, noncommercial educational FM broadcast, television broadcast station and an auxiliary broadcast station (remote pickup broadcast, broadcast STL, television pickup, television STL and television inter-city relay) shall be filed at least 90 days prior to the ex-

[a] Applications for FM facilities filed before July 1, 1947, need not specify a particular frequency unless the applicants are directed to do so by the Commission.

[a] Applications for amateur station license need not be filed 60 days prior to the contemplated operation of the station.

piration date of the license sought to be renewed; and each application for renewal of license of a non-broadcast station shall be filed at least 60 [4] days prior to the expiration date of the license sought to be renewed. No application for renewal of license of a broadcast station [5a] will be considered unless there is on file with the Commission the information currently required by §§ 1.341 to 1.344 reference to which by date and file number shall be included in the application.

(b) Whenever the Commission regards an application for a renewal of license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

(c) The following application forms should be used:

(1) FCC Form 303, "Application for renewal of broadcast station license."

(2) FCC Form 311, "Application for Renewal of an International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station License." To be used for all applications for renewal of licenses of International, Experimental Television, Experimental Facsimile, and Developmental Broadcast stations.

(3) FCC Form 313, "Application for Authorization in the Auxiliary Broadcast Services." To be used for all applications for renewal of regular licenses of auxiliary (remote pick-up and ST) radio broadcasting stations.

(4) FCC Form 342, "Application for Renewal of Noncommercial Educational FM Broadcast Station License."

(5) "FCC Form 405, Application for Renewal of Radio Station License." To be used for requesting renewal of license for those stations authorized under Parts 5 and 6 of this chapter.

(6) "FCC Form 405–A, Application for Renewal of Radio License (Short Form)." To be used for requesting renewal of those licenses issued under Parts 7, 8, 9, 10, 11, 12, 14, 16, 19, and 20 of this chapter.

(7) FCC Form 481–1, "Application for Authority to Operate a Station in the Radio Amateur Civil Emergency Service." To be used for all applications for renewal of authorizations of radio amateur civil emergency stations.

§ 1.321 *Application for voluntary assignment or transfer of control; broadcast.* (a) Applications for consent to the assignment of construction permit or license for an AM, FM, television or other broadcast station or for consent to the transfer of control of a corporation holding such a construction permit or license shall be filed with the Commission on FCC Form No. 314 (Assignment of License), FCC Form No. 315 (Transfer of Control), or FCC Form 316 (Short Form). Such applications shall be filed with the Commission at least 60 days prior to contemplated effective date of assignment or transfer of control.

(b) Pro forma assignment or transfer applications shall be filed on FCC Form 316. Such cases are defined as cases in which:

(1) There is an assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests;

(2) There is an assignment from a corporation to its individual stockholders without effecting any substantial change in the disposition of their interests;

(3) There is an assignment or transfer by which certain partners or stockholders retire but no new ones are brought in, provided that the interest transferred is not a controlling one;

(4) There is a corporate reorganization which involves no substantial change in the beneficial ownership of the corporation;

(5) There is an involuntary transfer to an Executor, Administrator or other court appointed officer caused by death or legal disability except that this form does not cover assignments (or transfers) from the Executor, Administrator or other court appointed officers to the ultimate beneficiary;

(6) There is an assignment or transfer from a corporation to a wholly owned subsidiary thereof or vice versa, or where there is an assignment from a corporation to a corporation owned or controlled by the assignor stockholders without substantial change in their interests.

(7) There is an assignment of less than a controlling interest in a partnership.

§ 1.322 *Application for voluntary assignment or transfer of control; nonbroadcast.* (a) Application for consent to voluntary assignment of a construction permit or license or for consent to voluntary transfer of control of a corporation holding a construction permit or license shall be filed with the Commission at least 60 days prior to the contemplated effective date of assignment or transfer of control.

(b) The following application forms should be used:

(1) FCC Form 400, "Application for Radio Station Authorization in the Public Safety, Industrial, and Land Transportation Radio Services" may be used for application for assignment of station authorization. Attached thereto shall be a notarized letter from proposed assignor stating his desire to assign his current authorization in accordance with the rules governing the particular service involved.

(2) FCC Form 702, "Application for Consent to Assignment of Radio Station Construction Permit or License (for stations in services other than Standard Broadcast)."

(3) FCC Form 703, "Application for Consent to Transfer of Control of Corporation Holding Construction Permit or Station License (for stations in services other than Standard Broadcast)."

§ 1.323 *Application for involuntary assignment or transfer of control; broadcast and nonbroadcast.* In the event of a death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(a) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability, and

(b) Within 30 days after the occurrence of such death or legal disability (except in the case of a ship or amateur station), application shall be filed for consent to involuntary assignment of such permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved. The procedure and forms to be followed are the same as those specified in §§ 1.321 and 1.322. In the case of ship and amateur stations, involuntary assignment of licenses will not be made; such licenses shall be surrendered for cancellation upon the death or legal disability of the licensee.

§ 1.324 *Application for special temporary authorization.* (a) Special temporary authority may be granted for the operation of a station (other than a standard broadcast station) for a limited time, or in a manner and to an extent or for service other or beyond that authorized in an existing license upon proper application therefor. No such request will be considered unless full particulars as to the purpose for which the request is made are stated and unless the request is received by the Commission at least 10 days previous to the date of proposed operation. A request received within less than 10 days may be accepted upon due showing of sufficient reasons for the delay in submitting such request.

(b) No application by a standard broadcast station for special temporary authority will be accepted by the Commission.

(c) The following application forms should be used:

(1) FCC Form No. 408, Application for Experimental or Special Temporary Authorization (fixed public radio services only), shall be used for new application and for extension or modification of existing authorization.

(2) In all other cases, informal application may be used.

(d) The purchasers of a new aircraft with factory-installed radio equipment may operate the radio station on their aircraft for a period of 30 days under Special Temporary Authority evidenced by a copy of a certificate (F. C. C. Form No. 453B) executed by the manufacturer, dealer or distributor, the original of which has been mailed to the Commission with the formal application for station license.

§ 1.325 *Application for special service authorization; broadcast.* (a) Special service authority may be issued to the licensee of a standard broadcast station or, in connection with the furnishing of facilities for service to the United States Government, to the licensee of an international broadcast station, for a service other or beyond that authorized in its existing license for a period not exceeding that of its existing license.

(b) Application for special service authorization must be made by formal application on FCC Form No. 317—"Application for Standard Broadcast Station Special Service Authorization or Extension Thereof"—and a satisfactory showing must be made in regard to the following, among others:

(1) That the requested operation may not be granted on a regular basis under the existing rules governing the operation of standard broadcast stations;

(2) That experimental operation is not involved as provided for by § 3.32 of this chapter;

(3) That public interest, convenience, and necessity will be served by the authorization requested.

§ 1.326 *Application for standard broadcast station experimental operation.* Special experimental authorization may be issued in accordance with § 3.32 of this chapter to the licensee of a standard broadcast station in addition to the regular license. An informal application should be used in applying for such authorization.

§ 1.327 *Application concerning programs to be transmitted to foreign radio stations.* Application under section 325 (b) of the Communications Act for authority to locate, use or maintain a radio broadcast studio in connection with a foreign radio station should be made on FCC Form 308, entitled "Application for permit to locate, maintain, or use studio or apparatus for production of programs to be transmitted or delivered to foreign radio station": *Provided*, That licensees or permittees of broadcast stations need not file applications on FCC Form 308 in those cases where the programs to be transmitted or delivered to a foreign radio station has been, is being, or will be broadcast in the United States by said licensee or permittee, but may make informal application for the authority sought.

§ 1.328 *Application to determine operating power by direct measurement of antenna power.* Application to determine operating power of broadcast stations by direct measurement of antenna power shall be made on FCC Form 302, "Application for New Broadcast Station License."

§ 1.329 *Application for radio operator license.* (a) Application for a new, renewed, replacement or duplicate commercial radio operator license or for an endorsement thereon, or for a verification card, shall be filed on FCC Form No. 756, entitled "Application for Commercial Radio Operator License or Permit": *Provided*, That application for a new restricted radiotelephone operator permit may be filed on FCC Form No. 753–1, entitled "Application for Restricted Radiotelephone Operator Permit by Declaration".

(b) Application for an amateur radio operator license is included with the application for station license. (See § 1.318.)

(c) FCC Form No. 759 should be used for filing statement relative to the posting of operator license.

§ 1.330 *Application for ship radio inspection or periodical survey of ships subject to compulsory radio requirements.* (a) Applications for ship radio inspection and certification of the ship radio license in accordance with the requirements of section 360 (b) of the Communications Act, and/or issuance of a Safety Convention certificate in accordance with the terms of Regulations 11 and 12, Chapter I, of the Safety Convention, should be submitted on FCC Form No. 801, entitled "Application for Ship Radio Inspection". This form should be forwarded to the radio district office nearest the desired port of inspection (see section 0.49 of the Statement of Organization, Delegations of Authority and Other Information).

(b) Applications for periodical survey as required by Article 11 of the Great Lakes Agreement and certification prescribed by Article 12 thereof, should be submitted on FCC Form 809 "Application for Periodical Survey (Great Lakes Agreement)". This form should be forwarded to the radio district office nearest the desired place of survey (see section 0.49 of the Statement of Organization, Delegations of Authority and Other Information).

(c) Applications for inspection of ship radio equipment and apparatus for the purposes of Part II of Title III of the Communications Act of 1934, as amended, on a Sunday or a national holiday or during other than the established working hours on any other day, should be submitted on FCC Form 808, entitled "Application for and Certificate of Overtime Service Involving Inspection of Radio Equipment". This form should be forwarded to the radio district office nearest the desired port of inspection (see section 0.49 of the Statement of Organization, Delegations of Authority and Other Information).

§ 1.331 *Applications for exemption from compulsory ship radio requirements.* Applications for exemption filed under the provisions of section 352 (b) of the Communications Act of 1934, as amended, and Regulations 5 or 6, Chapter IV, of the Safety of Life at Sea Convention, London, 1948, shall be submitted on FCC Form 820, entitled "Application for Exemption". Applications for exemption filed under the provisions of Article 6 of the Great Lakes Agreement shall be submitted on FCC Form 820–A, entitled "Application for Exemption (Great Lakes Agreement)".

§ 1.332 *Informal applications.* (a) Whenever Commission authorization is required by the Communications Act or the Commission's rules and regulations in connection with any matter under title III of the act and no application form is specified in this subpart, informal application may be utilized.

(b) A partial list of some of the matters concerning standard broadcast operation as to which informal request may be made is given below:

(1) To operate additional time.

(2) To discontinue operation or services not covered by § 3.71 of this chapter.

(3) To operate with additional power.

(4) To operate with reduced power not covered by § 3.57 of this chapter.

(5) To operate for test purposes (to determine site, etc.).

(6) To rebroadcast programs of stations of other classes.

(7) Other special temporary operation beyond terms of existing license.

(8) Temporary operation without specified items of equipment or with auxiliary equipment:

(i) Operation without thermometer in automatic temperature control chamber.

(ii) Operation with temporary antenna system.

(iii) Operation with auxiliary transmitter as main transmitter.

(9) Operation with new or modified equipment pending repair of existing equipment, or pending receipt and action upon a formal application.

(10) Where formal application is not required, application for new or modified equipment or antenna system.

(11) Change of specifications for painting and lighting antenna towers where formal application is not required.

(12) Relocation of transmitter in same building.

(13) Operations with reduced power or time under §§ 3.57 and 3.71 of this chapter.

(14) Approval of types of equipment as to compliance with outstanding rules or standards.

(15) All authorizations for equipment and program tests, or extensions thereof, where it appears that compliance has been had with the terms of the construction permit.

(16) Extensions of time within which to comply with technical requirements specified in authorizations, orders, and rules or releases of the Commission.

(17) Representations of compliance with technical requirements specified in authorizations, orders, rules, or releases (except formal applications).

(18) Operation with licensed, new, or modified equipment at a temporary location with a temporary antenna system in case of an emergency when, due to causes beyond the control of the licensee, it becomes impossible to continue operating at the licensed location.

(c) Requests for type approval of equipment should be made by informal application. Arrangements should be made through the Bureau of Engineering for inspection and examination of the equipment in question.

(d) Requests from broadcast stations for extension of authority to operate without any of the following indicating instruments should be made by informal application to the Engineer in Charge of the radio district in which the station is located. Such requests must contain information as to when and what steps were taken to repair or replace the defective instrument.

(1) Frequency monitor.

(2) Modulation monitor.

(3) Plate ammeter or voltmeter.

(4) Base current meter or common point meter.

[4] The 60-day requirement does not apply to amateurs.

[5a] This requirement does not apply to noncommercial educational FM broadcast stations.

piration date of the license sought to be renewed; and each application for renewal of license of a non-broadcast station shall be filed at least 60 [*] days prior to the expiration date of the license sought to be renewed. No application for renewal of license of a broadcast station [**] will be considered unless there is on file with the Commission the information currently required by §§ 1.341 to 1.344 reference to which by date and file number shall be included in the application.

(b) Whenever the Commission regards an application for a renewal of license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

(c) The following application forms should be used:

(1) FCC Form 303, "Application for renewal of broadcast station license."

(2) FCC Form 311, "Application for Renewal of an International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station License." To be used for all applications for renewal of licenses of International, Experimental Television, Experimental Facsimile, and Developmental Broadcast stations.

(3) FCC Form 313, "Application for Authorization in the Auxiliary Broadcast Services." To be used for all applications for renewal of regular licenses of auxiliary (remote pick-up and ST) radio broadcasting stations.

(4) FCC Form 342, "Application for Renewal of Noncommercial Educational FM Broadcast Station License."

(5) "FCC Form 405, Application for Renewal of Radio Station License." To be used for requesting renewal of license for those stations authorized under Parts 5 and 6 of this chapter.

(6) "FCC Form 405–A, Application for Renewal of Radio License (Short Form)." To be used for requesting renewal of those licenses issued under Parts 7, 8, 9, 10, 11, 12, 14, 16, 19, and 20 of this chapter.

(7) FCC Form 481–1, "Application for Authority to Operate a Station in the Radio Amateur Civil Emergency Service." To be used for all applications for renewal of authorizations of radio amateur civil emergency stations.

§ 1.321 *Application for voluntary assignment or transfer of control; broadcast.* (a) Applications for consent to the assignment of construction permit or license for an AM, FM, television or other broadcast station or for consent to the transfer of control of a corporation holding such a construction permit or license shall be filed with the Commission on FCC Form No. 314 (Assignment of License), FCC Form No. 315 (Transfer of Control), or FCC Form 316 (Short Form). Such applications shall be filed with the Commission at least 60 days prior to contemplated effective date of assignment or transfer of control.

(b) Pro forma assignment or transfer applications shall be filed on FCC Form 316. Such cases are defined as cases in which:

(1) There is an assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests;

(2) There is an assignment from a corporation to its individual stockholders without effecting any substantial change in the disposition of their interests;

(3) There is an assignment or transfer by which certain partners or stockholders retire but no new ones are brought in, provided that the interest transferred is not a controlling one;

(4) There is a corporate reorganization which involves no substantial change in the beneficial ownership of the corporation;

(5) There is an involuntary transfer to an Executor, Administrator or other court appointed officer caused by death or legal disability except that this form does not cover assignments (or transfers) from the Executor, Administrator or other court appointed officers to the ultimate beneficiary;

(6) There is an assignment or transfer from a corporation to a wholly owned subsidiary thereof or vice versa, or where there is an assignment from a corporation to a corporation owned or controlled by the assignor stockholders without substantial change in their interests.

(7) There is an assignment of less than a controlling interest in a partnership.

§ 1.322 *Application for voluntary assignment or transfer of control; nonbroadcast.* (a) Application for consent to voluntary assignment of a construction permit or license or for consent to voluntary transfer of control of a corporation holding a construction permit or license shall be filed with the Commission at least 60 days prior to the contemplated effective date of assignment or transfer of control.

(b) The following application forms should be used:

(1) FCC Form 400, "Application for Radio Station Authorization in the Public Safety, Industrial, and Land Transportation Radio Services" may be used for application for assignment of station authorization. Attached thereto shall be a notarized letter from proposed assignor stating his desire to assign his current authorization in accordance with the rules governing the particular service involved.

(2) FCC Form 702, "Application for Consent to Assignment of Radio Station Construction Permit or License (for stations in services other than Standard Broadcast)."

(3) FCC Form 703, "Application for Consent to Transfer of Control of Corporation Holding Construction Permit or Station License (for stations in services other than Standard Broadcast)."

§ 1.323 *Application for involuntary assignment or transfer of control; broadcast and nonbroadcast.* In the event of a death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(a) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability, and

(b) Within 30 days after the occurrence of such death or legal disability (except in the case of a ship or amateur station), application shall be filed for consent to involuntary assignment of such permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved. The procedure and forms to be followed are the same as those specified in §§ 1.321 and 1.322. In the case of ship and amateur stations, involuntary assignment of licenses will not be made; such licenses shall be surrendered for cancellation upon the death or legal disability of the licensee.

§ 1.324 *Application for special temporary authorization.* (a) Special temporary authority may be granted for the operation of a station (other than a standard broadcast station) for a limited time, or in a manner and to an extent or for service other or beyond that authorized in an existing license upon proper application therefor. No such request will be considered unless full particulars as to the purpose for which the request is made are stated and unless the request is received by the Commission at least 10 days previous to the date of proposed operation. A request received within less than 10 days may be accepted upon due showing of sufficient reasons for the delay in submitting such request.

(b) No application by a standard broadcast station for special temporary authority will be accepted by the Commission.

(c) The following application forms should be used:

(1) FCC Form No. 408, Application for Experimental or Special Temporary Authorization (fixed public radio services only), shall be used for new application and for extension or modification of existing authorization.

(2) In all other cases, informal application may be used.

(d) The purchasers of a new aircraft with factory-installed radio equipment may operate the radio station on their aircraft for a period of 30 days under Special Temporary Authority evidenced by a copy of a certificate (F. C. C. Form No. 453B) executed by the manufacturer, dealer or distributor, the original of which has been mailed to the Commission with the formal application for station license.

§ 1.325 *Application for special service authorization; broadcast.* (a) Special service authority may be issued to the licensee of a standard broadcast station or, in connection with the furnishing of facilities for service to the United States Government, to the licensee of an international broadcast station, for a service other or beyond that authorized in its existing license for a period not exceeding that of its existing license.

(b) Application for special service authorization must be made by formal application on FCC Form No. 317—"Application for Standard Broadcast Station Special Service Authorization or Extension Thereof"—and a satisfactory showing must be made in regard to the following, among others:

(1) That the requested operation may not be granted on a regular basis under the existing rules governing the operation of standard broadcast stations;

(2) That experimental operation is not involved as provided for by § 3.32 of this chapter;

(3) That public interest, convenience, and necessity will be served by the authorization requested.

§ 1.326 *Application for standard broadcast station experimental operation.* Special experimental authorization may be issued in accordance with § 3.32 of this chapter to the licensee of a standard broadcast station in addition to the regular license. An informal application should be used in applying for such authorization.

§ 1.327 *Application concerning programs to be transmitted to foreign radio stations.* Application under section 325 (b) of the Communications Act for authority to locate, use or maintain a radio broadcast studio in connection with a foreign radio station should be made on FCC Form 308, entitled "Application for permit to locate, maintain, or use studio or apparatus for production of programs to be transmitted or delivered to foreign radio station": *Provided*, That licensees or permittees of broadcast stations need not file applications on FCC Form 308 in those cases where the programs to be transmitted or delivered to a foreign radio station has been, is being, or will be broadcast in the United States by said licensee or permittee, but may make informal application for the authority sought.

§ 1.328 *Application to determine operating power by direct measurement of antenna power.* Application to determine operating power of broadcast stations by direct measurement of antenna power shall be made on FCC Form 302, "Application for New Broadcast Station License."

§ 1.329 *Application for radio operator license.* (a) Application for a new, renewed, replacement or duplicate commercial radio operator license or for an endorsement thereon, or for a verification card, shall be filed on FCC Form No. 756, entitled "Application for Commercial Radio Operator License or Permit": *Provided*, That application for a new restricted radiotelephone operator permit may be filed on FCC Form No. 753–1, entitled "Application for Restricted Radiotelephone Operator Permit by Declaration".

(b) Application for an amateur radio operator license is included with the application for station license. (See § 1.318.)

(c) FCC Form No. 759 should be used for filing statement relative to the posting of operator license.

§ 1.330 *Application for ship radio inspection or periodical survey of ships subject to compulsory radio requirements.* (a) Applications for ship radio inspection and certification of the ship radio license in accordance with the requirements of section 360 (b) of the Communications Act, and/or issuance of a Safety Convention certificate in accordance with the terms of Regulations 11 and 12, Chapter I, of the Safety Convention, should be submitted on FCC Form No. 801, entitled "Application for Ship Radio Inspection". This form should be forwarded to the radio district office nearest the desired port of inspection (see section 0.49 of the Statement of Organization, Delegations of Authority and Other Information).

(b) Applications for periodical survey as required by Article 11 of the Great Lakes Agreement and certification prescribed by Article 12 thereof, should be submitted on FCC Form 809 "Application for Periodical Survey (Great Lakes Agreement)". This form should be forwarded to the radio district office nearest the desired place of survey (see section 0.49 of the Statement of Organization, Delegations of Authority and Other Information).

(c) Applications for inspection of ship radio equipment and apparatus for the purposes of Part II of Title III of the Communications Act of 1934, as amended, on a Sunday or a national holiday or during other than the established working hours on any other day, should be submitted on FCC Form 808, entitled "Application for and Certificate of Overtime Service Involving Inspection of Radio Equipment". This form should be forwarded to the radio district office nearest the desired port of inspection (see section 0.49 of the Statement of Organization, Delegations of Authority and Other Information).

§ 1.331 *Applications for exemption from compulsory ship radio requirements.* Applications for exemption filed under the provisions of section 352 (b) of the Communications Act of 1934, as amended, and Regulations 5 or 6, Chapter IV, of the Safety of Life at Sea Convention, London, 1948, shall be submitted on FCC Form 820, entitled "Application for Exemption". Applications for exemption filed under the provisions of Article 6 of the Great Lakes Agreement shall be submitted on FCC Form 820–A, entitled "Application for Exemption (Great Lakes Agreement)".

§ 1.332 *Informal applications.* (a) Whenever Commission authorization is required by the Communications Act or the Commission's rules and regulations in connection with any matter under title III of the act and no application form is specified in this subpart, informal application may be utilized.

(b) A partial list of some of the matters concerning standard broadcast operation as to which informal request may be made is given below:

(1) To operate additional time.

(2) To discontinue operation or services not covered by § 3.71 of this chapter.

(3) To operate with additional power.

(4) To operate with reduced power not covered by § 3.57 of this chapter.

(5) To operate for test purposes (to determine site, etc.).

(6) To rebroadcast programs of stations of other classes.

(7) Other special temporary operation beyond terms of existing license.

(8) Temporary operation without specified items of equipment or with auxiliary equipment:

(i) Operation without thermometer in automatic temperature control chamber.

(ii) Operation with temporary antenna system.

(iii) Operation with auxiliary transmitter as main transmitter.

(9) Operation with new or modified equipment pending repair of existing equipment, or pending receipt and action upon a formal application.

(10) Where formal application is not required, application for new or modified equipment or antenna system.

(11) Change of specifications for painting and lighting antenna towers where formal application is not required.

(12) Relocation of transmitter in same building.

(13) Operations with reduced power or time under §§ 3.57 and 3.71 of this chapter.

(14) Approval of types of equipment as to compliance with outstanding rules or standards.

(15) All authorizations for equipment and program tests, or extensions thereof, where it appears that compliance has been had with the terms of the construction permit.

(16) Extensions of time within which to comply with technical requirements specified in authorizations, orders, and rules or releases of the Commission.

(17) Representations of compliance with technical requirements specified in authorizations, orders, rules, or releases (except formal applications).

(18) Operation with licensed, new, or modified equipment at a temporary location with a temporary antenna system in case of an emergency when, due to causes beyond the control of the licensee, it becomes impossible to continue operating at the licensed location.

(c) Requests for type approval of equipment should be made by informal application. Arrangements should be made through the Bureau of Engineering for inspection and examination of the equipment in question.

(d) Requests from broadcast stations for extension of authority to operate without any of the following indicating instruments should be made by informal application to the Engineer in Charge of the radio district in which the station is located. Such requests must contain information as to when and what steps were taken to repair or replace the defective instrument.

(1) Frequency monitor.

(2) Modulation monitor.

(3) Plate ammeter or voltmeter.

(4) Base current meter or common point meter.

[*] The 60-day requirement does not apply to amateurs.

[**] This requirement does not apply to noncommercial educational FM broadcast stations.

(5) Transmission line meter for FM and television stations.

§ 1.333 *Construction permits.* No construction permit is required for any class of station in the Maritime, Aviation, Public Safety, Industrial, Land Transportation, Citizens Radio, Disaster Communications, and Amateur Services except as follows: A construction permit is required for—

(a) All operational fixed stations;

(b) Land radiopositioning stations in the industrial radiolocation service;

(c) Public coast stations and limited Class I and Class II coast stations;

(d) Shore radiolocation, shore radionavigation, and shore radar stations;

(e) Alaskan public fixed stations; and

(f) Any station involving the erection of a new antenna or changes in an existing antenna if

(1) The antenna structure proposed to be erected will exceed an overall height of 170 feet above ground level, except in the case where the antenna is mounted on top of an existing man-made structure and does not increase the overall height of such man-made structure by more than 20 feet, or

(2) The antenna structure proposed to be erected will exceed an overall height of one foot above the established elevation of any landing area for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except in the case where the antenna structure does not exceed 20 feet above the ground or is mounted on top of an existing man-made structure or natural formation and does not increase the overall height of such man-made structure or natural formation by more than 20 feet as a result of such mounting.

§ 1.334 *Applications for permission to use lesser grade operators at aural broadcast stations than required by Commission rules.* (a) Applications for temporary permission to operate standard and FM broadcast stations with licensed operators of a lesser grade than normally required by the Commission's rules shall be submitted to the Engineer in Charge of the Commission's district headquarters field office in the area where the station is located. Such permission will be granted for periods of not to exceed 120 days if a proper showing is made, as set forth in this section, and may be renewed upon request only upon the making of an adequate similar showing. Within 60 days of receiving an authorization for a longer period, a written report shall be submitted on behalf of the station setting forth what continuing efforts have been made to obtain licensed operators of a grade normally required by the Commission's rules. The Engineer in Charge may terminate this permission in the absence of a satisfactory showing in the written report that adequate efforts have been made to obtain such operators, or for other good reason in the judgment of the Engineer in Charge.

(b) Such applications or reports are not required to be submitted on any numbered or prescribed form. However, the request or report shall be in writing, signed by the licensee, if the licensee is an individual; by a partner, if the licensee is a partnership; or by an officer of the corporation, if the licensee is a corporation.

(c) A specific request for permission to use operators of lesser grade than required by the Commission's rules shall be included and the following information shall be furnished:

(1) Call letters of the station;

(2) Name of licensee;

(3) The number of persons holding radiotelephone first class operator licenses that will be employed as full-time operators at the station, (this does not include part-time employees and persons only available on call in case of emergencies);

(4) A showing that at least one first class operator will be employed full time at the station and will be available on call at all times in the event of equipment failure;

(5) A statement that the additional licensed radiotelephone first class operators required for maintaining the normal schedule of operation could not be obtained for employment at the station or in the event an operator of the required grade will not accept employment at the station or was rejected by the station, a statement showing the reason for the failure to employ such operators.

(6) A showing that all known sources of broadcast operators within a reasonable distance have been exhausted. Names and addresses of sources contacted and the date of such contact shall be stated.

(d) The chief operator holding a radiotelephone first class operator license at a station to which temporary permission has been granted shall mail to the Engineer in Charge of the area from whom permission is received, within three days after employment of a lesser grade operator, a written certification setting forth the name and operator license number of the lesser grade operator employed and stating that the operator has the ability to perform the normal operation of the station.

§ 1.335 *FCC Form 482, "Certification of Civil Defense Radio Officer."* To be used by the local Civil Defense Official when certifying as to the loyalty, integrity, and the technical and administrative qualifications of the Radio Officer.

RULES RELATING TO OTHER FORMS AND INFORMATION TO BE FILED WITH THE COMMISSION

§ 1.341 *Financial report, broadcast licensees and permittees.* Each licensee of a broadcast station (standard, FM, television and international) and each permittee of a broadcast station engaged in interim operation shall file with the Commission on or before April 1 of each year on Form 324 broadcast revenue and expense statements for the preceding calendar year together with a statement as to investment in tangible broadcast property as of December 31 of such calendar year.

§ 1.342 *Filing of contracts, broadcast licensees and permittees.* Each licensee or permittee of a standard, FM, television, or international broadcast station shall file with the Commission within 30 days of execution thereof copies of the following contracts, instruments and documents, together with amendments, supplements and cancellations. The term "contract" as used in this section includes any contract, express or implied, oral or written. The substance of oral contracts shall be reported in writing:

(a) Contracts relating to network service. This provision does not require the filing of transcription agreements or contracts for the supplying of film for television stations which do not specify option time, contracts granting the right to broadcast music such as ASCAP, BMI, or SESAC agreements. Transcription agreements or contracts for the supplying of film for television stations which do specify option time must be filed.

(b) Contracts, instruments or documents relating to the present or future ownership or control of the licensee or permittee, or of the licensee's or permittee's stock, rights or interests therein, or relating to changes in such ownership or control. All contracts, instruments and documents exempted from the requirements of § 1.343 are similarly exempted in this section. The term "stock" includes any interest in legal or beneficial, right or privilege in connection with stock. The terms "officers" and "directors" include the comparable officials of unincorporated associations. This provision is limited to the following:

(1) Articles of partnership, association and incorporation and changes in such instruments.

(2) Bylaws and any instruments affecting changes in such bylaws.

(3) Any agreement, document or instrument affecting, directly or indirectly, the ownership or voting rights of the licensee's or permittee's stock (common or preferred, voting or non-voting stock), such as (i) agreements for transfer of stock, (ii) instruments for the issuance of new stock, (iii) or agreements for the acquisition of licensee's or permittee's stock by the issuing licensee or permittee corporation. Options to purchase stock, pledges, trusts agreements, and other executory agreements are required to be filed.

(4) Proxies with respect to the licensee's or permittee's stock running for a period in excess of one year; and all proxies, whether or not running for a period of one year, given without full and detailed instructions binding the recipient to act in a specified manner. With respect to the latter proxies given without full and detailed instructions, a statement showing the number of such proxies, by whom given and received, and the percentage of outstanding stock represented by each proxy shall be submitted by the licensee or permittee within 30 days after the stockholders' meeting in which the stock covered by such proxies has been voted: *Provided, however,* That when the permittee or licensee is a corporation having more than 50 stockholders, such complete information need be filed only with respect to proxies given by stockholders who are officers or directors or who have one percent or more of the corporation's stock. In cases where the permittee or licensee is a corporation having more than 50 stockholders and the stockholders giving the proxies are neither officers or directors nor hold one percent or more of the corporation's stock, the only information required to be filed[*] is the name of any person voting one percent or more of the stock by proxy, the number of shares voted by proxy by such person, and the total number of shares voted at the particular stockholders' meeting in which the aforesaid shares were voted by proxy.

(5) Mortgage or loan agreements containing provisions restricting the licensee's or permittee's freedom of operation, such as those specifying or limiting the amount of dividends payable, the purchase of new equipment, the maintenance of current assets, etc.

(6) Any agreement reflecting a change in the officers, directors, or stockholders of a corporation other than the licensee or permittee having an interest, direct or indirect, in the licensee or permittee as specified by § 1.343.

(c) Contracts relating to the sale of broadcast time to "time brokers" for resale.

(d) Contracts relating to functional music operations such as "storecasting", "transitcasting", "background music", and similar services. This provision does not require the filing of contracts granting functional music licensees or permittees the right to broadcast copyright music.

(e) Time sales contracts with the same sponsor for 4 or more hours per day, unless the length of the events broadcast pursuant to the contract is not under control of the station, such as athletic contests, musical programs and special events.

(f) Contracts relating to the utilization in a management capacity of any person other than an officer, director, or regular employee of the licensee or permittee station, and management contracts with any persons, whether or not officers, directors, or regular employees which provide for both a percentage of profits and a sharing in losses. With the above exceptions, this provision does not require the filing of agreements with persons regularly employed as general or station managers or salesmen, contracts with program managers or program personnel, contracts with Chief Engineers or other engineering personnel, contracts with consulting radio engineers, attorneys, or accountants, contracts with performers, contracts with station representatives, contracts with labor unions, or any similar agreements. It does require the filing of management consultant agreements with independent contractors.

§ 1.343 *Ownership reports, broadcast licensees and permittees.* (a) The licensee of each broadcast station shall file an Ownership Report (FCC Form 323) at the time the application for renewal of station license is required to be filed: *Provided, however,* That licensees owning more than one Standard, FM or Television broadcast station shall file the Ownership Report together with the first application for renewal of station license filed on or after February 1, 1954, and at three-year intervals thereafter. Ownership Reports shall give the following information as of a date not more than 30 days prior to the filing of the Ownership Report:

(1) In the case of an individual, the name of such individual.

(2) In the case of a partnership, the names of the partners and the interests of each partner.[6]

(3) In the case of a corporation or association: (i) Capitalization, with a description of the classes and voting power of stock authorized and the shares of each class issued and outstanding; (ii) the name, residence, citizenship, and stockholdings of officers and directors, and stockholders; (iii) full information with respect to the interest and identity of any person whether or not a stockholder of record, having any interest direct or indirect, in the licensee or any of its stock;

For example:

(a) Where A is the beneficial owner or votes stock held by B, the same information should be furnished for A as is required for B.

(b) Where X corporation controls the licensee, or holds 25 percent or more of the stock of the licensee, the same information should be furnished with respect to X corporation (its capitalization, officers, directors, and stockholders and the amount of stock in X held by each) as is required in the case of the licensee, together with full information as to the identity and citizenship of the person authorized to vote licensee's stock.

(c) The same information should be furnished as to Y corporation if it controls X corporation or holds 25 percent or more of the stock of X, and as to Z corporation if it controls Y corporation or holds 25 percent or more of the stock of Y and so on back to natural persons.

(iv) Full information as to family relationship or business association between two or more officials and/or stockholders.

(4) In the case of all licensees (i) a list of all contracts still in effect required to be filed with the Commission by § 1.342 showing the date of execution and expiration of each contract; (ii) any interest which the licensee may have in any other broadcast station.

(b) A supplemental Ownership Report (FCC Form 323) shall be filed by each licensee or permittee within 30 days after any change[6,7] occurs in the information required by the Ownership Report (the application or construction permit in the case of a permittee who has not filed an ownership report) from that previously reported. Such report shall include without limitation:

[6] Any change in partners or in their rights will require prior consent of the Commission upon an application for consent to assignment of license or permit. If such change involves less than a controlling interest, the application for Commission consent to such change may be made upon FCC Form No. 316 (Short Form).

[7] Before any change is made in the organization, capitalization, officers, directors, or stockholders of a corporation other than licensee or permittee, which results in a change in the control of the licensee or permittee, prior Commission consent must be received under section 310 (b) of the Communications Act and § 1.321.

(1) Any change in capitalization or organization.

(2) Any change in officers and directors.

(3) Any transaction affecting the ownership, direct or indirect, or voting rights of licensee's or permittee's stock, such as (i) a transfer of stock, (ii) issuance of new stock or disposition of treasury stock, (iii) acquisition of licensee's or permittee's stock by the issuing corporation.

(4) Any change in the officers, directors, or stockholders of a corporation other than the licensee or permittee such as X, Y, or Z corporation described in the example in paragraph (a) (3) of this section: *Provided, however,* That in the case of a change in the officers, directors, or stockholders of a corporation other than the licensee or permittee (such as X, Y, or Z corporation described in the example in paragraph (a) (3) of this section), such change need not be reported in the supplemental report unless that corporation directly or indirectly owns 25 percent or more of the voting stock in the licensee or permittee.[7]

(c) Exceptions: Where information is required under paragraphs (a) or (b) of this section with respect to a corporation having more than 50 stockholders, such information need be filed only with respect to stockholders who are officers or directors of the corporation, or of other stockholders who have 1 percent or more of the stock of the corporation.

§ 1.344 *Definitions of terms used in §§ 1.341–1.343.* As used in §§ 1.341–1.343:

(a) "Stock" shall include any interest, legal or beneficial in, or right or privilege in connection with stock.

(b) "Officer" and "director" shall include the comparable officials in unincorporated associations.

(c) "Contract" shall include any agreement (including, without limitation, an option, trust, or pledge) or any modification thereof, express or implied, oral or written.

§ 1.346 *Reports in connection with certain fixed public radio service operations.* Monthly and quarterly reports must be filed with the Commission in connection with certain fixed public radio service operations. No form is prescribed. A complete description of the contents of these reports is contained in §§ 6.41 and 6.53 of this chapter.

§ 1.347 *Reports to be filed by international and coastal radiotelegraph carriers.* Commission Orders Nos. 85 and 86 require international telegraph carriers to file on FCC Form No. 326 and common carriers engaged in radiotelegraph communication with maritime mobile stations (with certain exceptions) to file on FCC Form No. 337 certain traffic information at periodic intervals. A complete description of these reports is set forth in Orders Nos. 85 and 86.

RULES RELATING TO ACCEPTANCE, AMENDMENT, OR DISMISSAL OF APPLICATION

§ 1.361 *Defective applications.* (a) Applications which are defective with respect to completeness of answers to required questions, execution or other matters of a purely formal character will not

be received for filing by the Commission, unless the Commission shall otherwise direct, and will be returned to the applicant with a brief statement as to the omissions.

(b) If an applicant is requested by the Commission to file any documents or information not included in the prescribed application form, a failure to comply with such request will constitute a defect in the application.

(c) Applications which, because of the nature of the particular rule, regulation, or requirement involved, are patently not in accordance with the Commission's rules, regulations, or other requirements will be considered defective and will be dismissed unless accompanied by a request of the applicant for waiver of, or exception to, any rule, regulation, or requirement with which the application is in conflict. Such requests shall show the nature of the waiver or exception desired and set forth the reasons in support thereof.[8]

(d) Applications found to be complete are accepted for filing and are given a file number. Public notice of broadcast applications accepted for filing is given at regular intervals.

§ 1.362 *Inconsistent or conflicting applications.* When an applicant has an application pending and undecided, no other inconsistent or conflicting application filed by the same applicant, his successor or assignee, or on behalf or for the benefit of said applicant, will be considered by the Commission.

§ 1.363 *Repetitious applications.* (a) Where the Commission has, for any reason, denied an application for a new station, or for any modification of services or facilities, or dismissed such application with prejudice, the Commission will not consider a like application involving service of the same kind to substantially the same area by substantially the same applicant, or by its successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order. The Commission may, for good cause shown, waive the requirements of this section.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until the final disposition of such appeal.

§ 1.364 *Multiple applications; broadcast service.* In the broadcast service, while there is one application for new or additional facilities pending for a standard, international, television, facsimile, FM, or experimental broadcast station, the Commission will not accept another application for new or additional facilities for a station of the same class (as given above) to serve the same community, by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest. Two such applications may not be filed simultaneously.

§ 1.365 *Amendments of applications.* (a) Any application may be amended as a matter of right prior to the designation of such application for hearing merely by filing the appropriate number of copies of the amendments in question duly executed. Requests to amend an application after it has been designated for hearing will be considered only upon written petition properly served upon the parties of record, and will be granted only for good cause shown. Such a petition which requests either a change in frequency or power must be accompanied by the affidavit of a person with knowledge of facts as to whether or not consideration has been promised to or received by petitioner, directly or indirectly, in connection with the filing of such petition for amendment. If such consideration has been promised or received, the affidavit shall set forth in full detail all the relevant facts. A petition to amend an application will not be accepted (other than an amendment which is merely corrective in nature such as the removal of a named person because of death) if it is filed after public notice has been given of the issuance of a proposed decision with respect to such application, or of a recommended or an initial decision, as the case may be, where no proposed decision is to be issued.

(b) When leave to amend has been granted after an application has been designated for hearing, the application will not be removed from the hearing docket unless the Motions Commissioner shall determine that the proposed amendment substantially affects the issues upon which the application has been designated for hearing and orders that the application shall be removed from the hearing docket. An amended application which has been removed from the hearing docket will be reexamined by the Commission and when necessary will be redesignated for hearing at a subsequent time.

(c) When a broadcast applicant seeks removal from the hearing docket by proposing an amendment as to frequency or other matter substantially affecting the issues in the proceeding in which he is involved, and is unable concurrently to specify and submit the desired amendment, his application shall be dismissed without prejudice, subject to the right of reinstatement within a reasonable time. In any proper case of this kind where dismissal without prejudice has been allowed, the application involved will be reinstated upon the filing of a proper petition, accompanied by the amendment necessary to complete the application.

§ 1.366 *Dismissal of applications.* Any application may be dismissed without prejudice as a matter of right prior to the designation of such application for hearing. Requests to dismiss an application without prejudice after it has been designated for hearing will be considered only upon written petition properly served upon all parties of record. Such petition must be accompanied by the affidavit of a person with knowledge of the facts as to whether or not consideration has been promised to or received by petitioner, directly or indirectly, in connection with the filing of such petition for dismissal of the application. Petitions to dismiss an application without prejudice will be granted only for good cause shown, but will in no event be granted after public notice has been given by the Commission of the issuance of a proposed decision proposing to deny the application in question.

THE MANNER IN WHICH APPLICATIONS ARE PROCESSED[9]

§ 1.371 *Acceptance of applications.*[10a] [10b] All applications, other than amateur, operator and ship radio inspection, which are tendered for filing by mail are dated upon receipt by Mail and Files Branch of the Bureau of the Secretary and are forwarded to Broadcast License Branch if a broadcast application; otherwise, to Commercial License Branch.[11] Applications tendered for filing, in person, in the Bureau of the Secretary are dated and forwarded to the Broadcast or Commercial License Branch. An administrative examination is made of all applications by the Broadcast or Commercial License Branch to ascertain whether the application is complete. If found to be complete it is accepted and is then routed to the other Bureaus of the Commission.

§ 1.372 *Staff consideration of applications which receive action by the Commission.*[11a] (a) Upon acceptance of an application, the complete file is routed to the appropriate Division of the Bureau of Engineering. The application is there reviewed from an engineering standpoint. A draft report containing the recommendations of the Bureau of Engineering is prepared. In cases where no engineering problems are involved, the report contains no recommendations as to disposition.

(b) The complete file is then routed to the appropriate Division of the Bureau of Accounting where it is reviewed from an accounting standpoint. A draft report containing the recommendations of the Bureau of Accounting is prepared. In cases where no accounting problems are involved the report contains no recommendations as to disposition.

(c) The complete file is then routed to the appropriate Division of the Bureau of Law where it is reviewed to determine whether the authorization requested will be in accordance with the Commission's policies, rules and regulations and any other requirements imposed by law. A joint report containing the recommendations of the Bureau of Law and the other Bureaus and any other documents required is prepared and the entire file routed to the Minute Branch of the Bureau of the Secretary which records, mimeographs, and distributes necessary papers to the members of the Commission, heads of Bureaus and other interested staff members, and places the matter on the Commission's agenda.

§ 1.373 *Procedure with respect to processing of standard broadcast applications.* (a) When an application for the construction of a new broadcast station, or for a change in the facilities of an existing station, is received in the Commission it is immediately referred to the Broadcast License Branch which examines the application to determine whether it is sufficiently complete to permit the Commission to process it. If it is found to be sufficiently complete to be processed—even though it is incomplete in certain minor particulars—it is immediately given a file number and a letter is sent to the applicant requesting the correction of any minor defects that may have been disclosed by the examination. If the examination by the Broadcast License Branch discloses that the application is incomplete in major particulars which makes it impossible to process it, the Broadcast License Branch then with the advice and concurrence of the Offices of the General Counsel and the Chief Engineer returns the application to the applicant with a statement that it cannot be accepted. The reasons for its rejection are specified in the letter returning the application.

(b) There shall be only one processing line and all applications, subject to the exceptions noted in succeeding paragraphs of this section, will be processed in the order of filing with the Commission. Once an application has been given a file number it is referred to a member of the Office of the Chief Engineer to determine whether it is one which must obviously go to hearing. For example, if the application seeks to use 1240 kilocycles in a particular town and there is already pending an application for that same frequency in that same town, then the two obviously must be consolidated for hearing and steps are set in motion at this stage looking toward an order designating the two applications for a consolidated hearing. At this stage, however, only those cases which are obvious conflicts are sifted out and put into hearing. If an engineering study is necessary in order to determine whether the case must go to hearing, the application is not set for hearing at this stage but is put in line for processing by the Office of the Chief Engineer and is set for hearing after the engineering study is completed (provided that such a study discloses an engineering conflict requiring a hearing). In view of this, it is to the advantage of an applicant who knows that his case does present a conflict requiring a hearing promptly to point that fact out to the Commission—preferably at the time the application is filed—so that it will be immediately recognized as a hearing case. This will result in getting the application immediately into line awaiting the assignment of a date on the hearing calendar instead of having the case remain in line awaiting processing by the Office of the Chief Engineer with the result that some weeks or months later it will be recognized as a hearing case and then put in the hearing line.

(c) (1) Where the application is for modification of a construction permit filed because of conditions imposed by the Commission at the time of the original grant, such as conditions with respect to the approval of transmitter site and antenna system, it will be referred to the Civil Aeronautics Administration upon its receipt and will be acted on by the Commission as soon as approval by the Civil Aeronautics Administration is received without reference to the processing line.

(2) Where the application is for minor changes in the construction permit, such as specification of new equipment or very slight changes in the directional antenna pattern, effort will be made to handle these cases promptly upon their receipt without placing them in the processing line.

(3) Where an application for modification of a construction permit involves major changes in the original proposal requiring engineering study and such application is required by the terms of the original grant, such applications will be placed at the head of the construction permit processing line. However, wherever major changes in the original proposal are initiated by the applicant, these applications will be placed in the processing line in accordance with the file number of the original application for the construction permit which is sought to be modified.

(d) Applications take their places on the processing line in proper order according to file number. The oldest (lowest file number) is at the front of the line and the newest (highest file number) is at the back of the line. Cases are drawn by engineers in order of file number. Thus, the file number strictly determines the order in which the staff's work is begun on a particular application. There is one exception to this. The Aural Broadcast Division of the Office of the Chief Engineer is authorized to group together for study, cases which involve interference conflicts where it appears that by making a simultaneous study of such conflicting applications rather than individual studies of separate applications, a substantial amount of the staff's time can be saved. Further, such cases would ordinarily require simultaneous consideration by the Commission and preparation of simultaneous reports is, therefore, necessary.

(e) It takes longer to process some applications than it does others. Also it frequently occurs that when the processing of an application is begun it is discovered that additional information is needed and the staff's work cannot be completed until further word is received from the applicant. Thus, there will be cases where the processing of a particular application may be completed and ready for Commission action prior to another application even though the processing of the latter application began at an earlier date. However, every effort is made, once the processing of an application has begun, to carry its processing through to completion at the earliest possible date in the light of the circumstances involved in the particular case. The Offices of the General Counsel and Chief Accountant, by keeping track of the cases which will be reached next in the processing line, are in position to plan their work so that they will be writing reports on the same applications that are being studied by the Office of the Chief Engineer.

(f) If, as a result of the study by the Offices of the General Counsel, Chief Engineer and Chief Accountant and by the Commission it appears that the application is satisfactory in all respects, it can be granted without a hearing. If,

[8] This paragraph shall not apply to applications filed prior to its effective date (November 13, 1953); such applications, which could be accepted for filing even though patently not in accordance with the Commission's rules, regulations, or other requirements if accompanied by an appropriate rule-making petition, will remain on file.

[9] This description is applicable to all applications filed under title III. However, some of the detailed provisions governing processing are applicable only to applications which are tendered for filing in Washington. Operator and ship radio inspection applications are filed in the field. Their processing in general is substantially similar to that accorded applications filed in Washington.

[10a] Pending Commission review of the eligibility requirements of the citizens radio service, applications for citizens radio authorization which are eligible under the rules governing some other service shall not, except for good cause shown, be acted upon by the Commission, but shall be placed in the pending files.

[10b] Pending conclusion of the proceeding in Docket No. 8333 action will be withheld on the following:

(1) Applications proposing daytime or limited time assignments on any of the frequencies specified in § 3.25 (a) and (b) of this chapter;

(2) Applications from existing daytime or limited time stations presently assigned to any of the frequencies specified in § 3.25 (a) and (b), of this chapter, proposing (a) a change in operation resulting in an increase in radiation towards the normally protected contour of a United States Class I station on the channel; or (b) proposing a change in transmitter location resulting in a material reduction in the distance from that station to the normally protected contour of a United States Class I station on the channel;

(3) Applications for new stations, and those for changes in frequency assignment, proposing unlimited time Class II assignments on any of the frequencies specified in § 3.25 (b) of this chapter, which would operate differently during the day than at night;

(4) Applications for changes, other than frequency, of unlimited time Class II stations on any of the frequencies specified in § 3.25 (b), of this chapter, where the resulting daytime and nighttime operations are different; and either

(a) It is proposed to change daytime operation resulting in an increase in radiation towards the normally protected contour of a United States Class I station on the channel; or

(b) It is proposed to change transmitter location resulting in a material reduction in the distance from that station to the normally protected contour of a United States Class I station on the channel.

[11] Applications for Alaskan stations tendered for filing with the engineer in charge of Radio District 14, Seattle, Wash., are forwarded to Washington, D. C., for processing.

[11a] Applications filed by the fixed public and fixed public press international radio carriers for the assignment of additional frequencies not already assigned to a station of the licensee at some other location may be acted on by the Commission upon the recommendation of the Bureau of Engineering only.

on the other hand, the complete study by the staff and the Commission indicates that a hearing is required, then the application will be designated for hearing.

(g) Frequently, when two cases are designated for hearing because they are mutually exclusive, one of the applicants amends and removes the conflict. Where this occurs the appropriate procedure is to petition for leave to amend and remove from the hearing docket. Such motions will be considered promptly and if it appears that the conflict which caused the case originally to be set for hearing has been removed and there is no other obvious conflict, the two cases will be removed from the hearing docket and placed back in their proper position (as determined by the file numbers) in the processing line. Petitions for amendment, removal from the hearing docket, and grant will not be entertained insofar as they request a grant. The Examiner, or Motions Commissioner if an Examiner has not yet been designated, in acting on such petitions, will dismiss the request for a grant. In such a case the matter will simply be put back in its proper place in line.

(h) An application will continue to be carried under the same file number unless major amendment is made which really involves the substitution of a different application. Amendments simply changing the frequency and/or power or changing from full time to daytime only will be accepted without changing the file number.

(i) Sometimes it occurs that when an application is reached for processing it is necessary for the staff or the Commission itself to address a letter to the applicant asking further information. If the application cannot be processed until the information requested is received, then the application is placed in the pending file to await the applicant's response. Also it sometimes occurs that a particular category of cases is placed in the pending file by Commission action. In such cases the Commission makes a public announcement of its policy and notifies the individual applicant as to why his application is being placed in the pending file.

§ 1.374 *Staff consideration of applications which do not require action by the Commission.* Those applications which do not require action by the Commission but which, pursuant to the delegation of authority contained in sections 0.201 to 0.341 of the Statement of Organization, Delegations of Authority and Other Information, may be acted upon by employees designated in that statement, are forwarded to the appropriate heads of Bureaus for necessary action. In those cases where the Secretary may act after securing the approval of the various Bureaus, the applications are forwarded to such appropriate Bureaus. If the application is granted, it is returned to the appropriate License Branch for issuance of the formal authorization. In cases where the Secretary acts by himself the appropriate License Branch reviews the applications before final decision is made and the authorization issued if the application is granted. In any case where it is recommended that it be set down for hearing, where a novel question of policy is presented or where the employee to whom authority is delegated desires instructions from the Commission, the file with necessary recommendations is forwarded to the Minute Branch to be placed on the Commission agenda for action by the Commission.

§ 1.375 *Procedure with respect to amateur and commercial radio operator licenses.* (a) After an application for an amateur radio license is accepted for filing and an examination is conducted in accordance with Part 12 of this chapter, the examination is sent to Washington where it is graded by the Inspection and Operator Examination Branch of the Bureau of Engineering, and if the applicant passes, a license is issued by the Amateur License Section of the Commercial License Branch of the Bureau of the Secretary.

(b) After an application for a commercial radio operator license is accepted for filing, and an examination conducted in accordance with Part 13 of this chapter, the examination papers are graded by the office supervising the examination which also issues a license, if the applicant is successful.

§ 1.376 *Procedure with respect to applications for ship radio inspection or periodical survey.* After the following applications are accepted for filing, the district engineer to whom application is made makes the necessary examination and issues the appropriate certification:

(a) Application for ship radio inspection and certification of the ship radio license, pursuant to the requirements of section 360 (b) of the Communications Act, as amended;

(b) Application for a Safety Convention certificate in accordance with the terms of Regulations 11 and 12, Chapter I, of the Safety Convention;

(c) Application for periodical survey as required by Article 11 of the Great Lakes Agreement and certification prescribed by Article 12 thereof.

§ 1.377 *Procedures for handling applications requiring special aeronautical consideration.* (a) All antenna surveys are conducted by the Antenna Survey Branch of the Office of the Chief Engineer.

(b) Each operating bureau or office which is responsible for processing applications for radio facilities examine those applications for which it is responsible to ascertain whether or not special antenna consideration is required. If such consideration is required the operating bureau or office routes the appropriate antenna data to the antenna survey branch of the Office of the Chief Engineer.

(c) The Antenna Survey Branch then ascertains whether a special aeronautical study is required.

(d) If no special aeronautical study is required the application is returned to the appropriate operating division with the required antenna lighting and painting specifications for such further action as might be necessary.

(e) If a special aeronautical study is required the antenna specifications are forwarded to the appropriate regional airspace subcommittee for consideration and the operating bureau concerned advised of this action.

(f) Upon receipt of a report of the airspace subcommittee the Antenna Survey Branch forwards this information to the appropriate operating bureau where appropriate action may be taken.

§ 1.378 *Procedure for processing applications for television broadcast stations.* The following procedures shall apply with respect to the processing of applications for television broadcast stations and for the designation for hearing of such mutually exclusive applications.

(a) Applications for television stations will be processed in the order in which they are accepted for filing.

(b) Regardless of the number of applications filed for channels in a city or the number of assignments available in that city, those applications which are mutually exclusive, i. e., which request the same channel, will be designated for hearing. All other applications for channels will, if the applicants are duly qualified, receive grants. For example, if Channels 6, 13, 47, and 53 have been assigned to City X and there are pending two applications for Channel 6 and one application for each of the remaining channels, the latter three applications will be considered for grants without hearing and the two mutually exclusive applications requesting Channel 6 will be designated for hearing. If there are two pending applications for Channel 6 and two applications for Channel 13, separate hearings will be held.

(c) Where applications are mutually exclusive because the distance between their respective proposed transmitter sites is contrary to the station separation requirements set forth in § 3.610 of this chapter, said applications will be processed and designated for hearing at the time the application with the lower file number is processed. If the question concerning transmitter sites is resolved before a decision is rendered in the matter, the application with the higher file number will be returned to its appropriate place on the processing line. In order to be considered mutually exclusive with a lower file number application, the higher file number must have been accepted for filing at least one day before the lower file number application has been acted upon by the Commission. If the lower file number application is in hearing status at the time the higher file number application is accepted for filing, the 60-day cut-off date specified in § 1.387 (b) (3) will be applicable.

(d) Where a mutually exclusive application on file becomes unopposed, or where an amended application or a new application is filed in place of the several competing applications and the applicant formed by such a merger is completely or substantially the same parties as the parties to the original application or applications, the remaining application may be available for consideration on its merits by the Commission at a succeeding regular meeting as promptly as processing and review by the Commission can be completed.

ACTION ON APPLICATIONS

§ 1.381 *Failure to prosecute applications.* An applicant not desiring to prosecute his application may request the dismissal of same without prejudice. A request of an applicant for the return of an application which has been accepted for filing will be considered as a request to dismiss the same without prejudice. Where an applicant fails to respond to official correspondence or request for additional material, the application will be dismissed without prejudice.

§ 1.382 *Grants without a hearing.* (a) Where an application for radio facilities is proper upon its face and where it appears from an examination of the application and supporting data that (1) the applicant is legally, technically, and financially qualified; (2) a grant of the application would not involve modification, revocation, or nonrenewal of any existing license or outstanding construction permit; (3) a grant of the application would not cause additional electrical interference to an existing station or station for which a construction permit is outstanding within its normally protected contour as prescribed by the applicable rules and regulations; (4) a grant of the application would not preclude the grant of any mutually exclusive application; and (5) a grant of the application would be in the public interest, the Commission will grant the application without a hearing.

(b) In making its determinations pursuant to the provisions of paragraph (a) of this section, the Commission will not consider any other application as being mutually exclusive with the application under consideration unless such other application was substantially complete and was tendered for filing with the Commission not later than the close of business on the day preceding the day on which the Commission takes action with respect to the application under consideration.

§ 1.383 *Partial grants.* Where the Commission without a hearing grants any application in part, or with any privileges, terms, or conditions other than those requested, or subject to any interference that may result to the station if designated application or applications are subsequently granted, the action of the Commission shall be considered as a grant of such application unless the applicant shall, within 20 days from the date on which public announcement of such grant is made, or from its effective date if a later date is specified, file with the Commission a written request rejecting the grant as made. Upon receipt of such request, the Commission will vacate its original action upon the application and set the application for hearing in the same manner as other applications are set for hearing.

§ 1.384 *Operation pending action on renewal application.* (a) When there is pending before the Commission at the time of expiration of license any proper and timely application for renewal of license with respect to any activity of a continuing nature, in accordance with the provisions of section 9 (b) of the Administrative Procedure Act, such license shall continue in effect without further action by the Commission until such time as the Commission shall make a final determination with respect to the renewal application. No operation by any licensee under this section shall be construed as a finding by the Commission that the operation will serve public interest, convenience, or necessity nor shall such operation in any way affect or limit the action of the Commission with respect to any pending application or proceeding. A licensee operating by virtue of this section shall, after the date of expiration specified in the license, post in addition to the original license the acknowledgment received from the Commission that the renewal application has been accepted for filing or a signed copy of the application for renewal of license which has been submitted by the licensee or, in services other than broadcast and common carrier, a statement certifying that the licensee has mailed or filed a renewal application, specifying the date of mailing or filing.

(b) Where there is pending before the Commission at the time of expiration of license any proper and timely application for renewal or extension of the term of a license with respect to any activity not of a continuing nature, the Commission may in its discretion grant a temporary extension of such license, pending determination of such application. No such temporary extension shall be construed as a finding by the Commission that the operation of any radio station thereunder will serve public interest, convenience, or necessity beyond the express terms of such temporary extension of license nor shall such temporary extension in any way affect or limit the action of the Commission with respect to any pending application or proceeding.

(c) Except where an instrument of authorization clearly states on its face that it relates to an activity not of a continuing nature, or where the authorization is expressly denominated "temporary", or where the non-continuing nature is otherwise clearly apparent upon the face of the authorization, all licenses issued by the Commission shall be deemed to be related to an activity of a continuing nature.

§ 1.385 *Designation for hearing.* Applications will be designated for hearing in the following cases:

(a) Where it does not appear from an examination of the application that the applicant is legally, technically, or financially qualified; or

(b) Where a grant of the application would require the modification, revocation, or nonrenewal of license of an existing station or of any outstanding construction permit; or

(c) Where a grant of the application would cause electrical interference to an existing station or station for which a construction permit is outstanding within its normally protected contour as prescribed by the applicable rules and regulations; or

(d) Where it does not appear from an examination of the application that a grant of the application will be in the public interest.

(e) Where a grant of the application would preclude the grant of an application or applications mutually exclusive with it. However, the Commission may, if public interest will be served thereby, make a conditional grant of one of the applications and designate all of the mutually exclusive applications for hearing. Such conditional grant will be made upon the express condition that such grant is subject to being withdrawn if at the hearing it is shown that public interest will be better served by a grant of one of the other applications. Such conditional grants will be issued only where it appears:

(1) That some or all of the applications were not filed in good faith but were filed for the purpose of delaying or hindering the grant of another application; or

(2) That public interest requires the prompt establishment of radio service in a particular community or area; or

(3) That a grant of one or more applications would be in the public interest and that a delay in making a grant to any applicant until after the conclusion of a hearing on all applications might jeopardize the rights of the United States under the provisions of international agreement to the use of the frequency in question; or

(4) That a grant of one application would be in the public interest and that it appears from an examination of the remaining applications that they cannot be granted because they are in violation of provisions of the Communications Act, or of other statutes, or of the Commission's rules and regulations.

§ 1.386 *Petition for reconsideration and grant without hearing.* Where the Commission has designated an application for hearing, the applicant may file a petition requesting reconsideration and grant of the application without hearing. If the petition shows that a grant of the application without hearing would be consistent with § 1.382, the petition will be granted. Otherwise it will be denied.

§ 1.387 *Procedure when case is designated for hearing.* (a) When an application has been designated for hearing, the Secretary of the Commission will mail a written notice to applicant setting forth the action of the Commission designating the application for hearing, together with such statement of the Commission's reasons therefor as shall be appropriate to the nature of the application. In addition, notice of hearing involving matters under Part I of Title III of the act will be given by publishing the notice of hearing in the FEDERAL REGISTER. The Commission will attempt, when possible, to give at least 30 days advance notice of a hearing in cases other than those involving broadcast applications and at least 60 days advance notice on comparative hearings involving applications for authority to construct broadcast facilities. In order to avail himself of the opportunity to be

heard, the applicant, in person or by his attorney, shall, within 20 days of the mailing of the notice of designation for hearing by the Secretary, file with the Commission, in triplicate, a written appearance stating that he will appear and present evidence on the issues specified in the statement of reasons furnished by the Commission on such date as may be fixed for the hearing. Where an applicant fails to file such a written statement within the time specified, and has not filed prior to the expiration of that time period a petition to dismiss without prejudice pursuant to § 1.366, his application shall be dismissed with prejudice for failure to prosecute. In cases involving applications for facilities other than AM broadcast, FM broadcast, international broadcast, or television, the applicant shall submit with his appearance an additional copy of his application and supporting documents.

(b) The Commission will on its own motion name as parties to the hearing:

(1) Any existing licensee or holder of an outstanding construction permit who, if the application were granted, would suffer electrical interference within his normally protected contour as prescribed by the Commission's rules and regulations.

(2) Any existing licensee or holder of an outstanding construction permit whose license or construction permit would have to be modified or revoked, or whose application for renewal of license would have to be denied, if the application in question were granted.

(3) Any person who, prior to the time the application in question was designated for hearing, had filed with the Commission a mutually exclusive application. Any application that is mutually exclusive with another application or applications aready designated for hearing will be consolidated for hearing with such other application or applications only if the application in question is filed at least 30 days before the date on which the hearing on the prior application or applications is scheduled: *Provided, however,* That in the case of applications for broadcast stations the said period shall be 60 days. If the scheduled date is changed, the date last set shall govern in determining the timeliness of an application for purposes of this paragraph. If the application is filed after the 30-day period, or in the case of broadcast applications after the 60-day period, it will be dismissed without prejudice and will be eligible for refiling only after a decision is rendered by the Commission with respect to the application or applications designated for hearing or after such applications are dismissed or removed from hearing.

(4) In order to avail himself of the opportunity to be heard, any person named as a party pursuant to this subsection shall, within 20 days of the mailing of the notice of his designation as a party, file with the Commission, in person or by attorney, a written appearance in triplicate stating that he will appear and present evidence on the issues specified in the notice of hearing. Any person so named who fails to file this written statement within the time specified, shall, unless good cause for such failure is shown, forfeit his hearing rights.

§ 1.388 *Petitions to intervene.* (a) Where the Commission has failed on its own motion to name as parties to a hearing any person specified in § 1.387 (b), such person will be permitted to participate in the proceeding by filing a petition to intervene showing that he comes within the provisions of § 1.387 (b). Where the petition to intervene is based upon a claim that a grant of the application would cause electrical interference to an existing station or a station for which a construction permit is outstanding within its normally protected contour as prescribed by the applicable rules and regulations, the petition must be accompanied by an affidavit of a qualified radio engineer which shall show either by reference to the standard broadcast Technical Standards of part 3 of this chapter or to actual measurements made in accordance with the methods prescribed therein that electrical interference will be caused to the existing station or station for which a construction permit is outstanding within the normally protected contour of the station.

(b) Any other person desiring to participate in the hearing may file a petition to intervene. The petition must set forth the interest of the petitioner in the proceedings, must show how such person's participation will assist the Commission in the determination of the issues in question, and must be accompanied by the affidavit of a person with knowledge as to the facts set forth in the petition. The Commission in its discretion may grant or deny such petition or may permit intervention by such persons limited to particular issues or to a particular stage of the proceeding.

(c) The granting of any petition to intervene shall not have the effect of changing or enlarging the issues specified in the Commission's notice of hearing unless the Commission shall on motion amend the same.

(d) Petitions to intervene under this section must be filed with the Commission not later than 15 days after the issues in the hearing have first been published in the FEDERAL REGISTER. Any person desiring to file a petition to intervene after the expiration of such 15 days must set forth the reason why it was not possible to file the petition within the prescribed 15 days. Unless good cause is shown for delay in filing, the petition will not be granted.

§1.389 *Motions to enlarge or change the issues.* Motions to enlarge or change the issues may be filed by any party to a hearing. Such motions must be filed with the Commission not later than 15 days after the issues in the hearing have first been published in the FEDERAL REGISTER. Any person desiring to file a motion to enlarge or change the issues after the expiration of such 15 days must set forth the reason why it was not possible to file the petition within the prescribed 15 days. Unless good cause is shown for delay in filing, the motion will not be granted.

§ 1.390 *Petitions for reconsideration or for rehearing.* (a) Where an application has been granted without a hearing, any person aggrieved or whose interests would be adversely affected thereby may file a petition for reconsideration of such action. Such petition must be filed with the Commission within 30 days after public notice is given of the Commission's action in granting the application. Such petition will be granted if the petitioner shows that:

(1) Petitioner is an existing licensee or permittee and a grant of the application would require the modification, revocation, or nonrenewal of his license or construction permit; or

(2) That petitioner is an existing licensee or permittee and a grant of the application would cause interference to his station within the normally protected contour as prescribed by applicable rules and regulations; or

(3) At the time the application was granted, petitioner had a mutually exclusive application pending before the Commission; or

(4) A grant of the application is not in the public interest.

(b) Where an application has been granted or denied after hearing, petitions for rehearing may be filed within 30 days after public notice is given of the Commission's action in granting or denying the application. Petitions for rehearing by persons not parties to the Commission's hearing will not be granted unless good cause is shown as to why it was not possible for such person to participate earlier in the Commission's proceeding.

(c) Where a petition for reconsideration or for rehearing is based upon a claim of electrical interference within the normally protected contour of an existing station or a station for which a construction permit is outstanding, such petition must be accompanied by an affidavit of a qualified radio engineer which shall show either by reference to the standard broadcast Technical Standards of Part 3 of this chapter or to actual measurements made in accordance with the methods prescribed therein that electrical interference will be caused to the station within its normally protected contour. If the claim of interference is not based upon actual measurements made in accordance with the standard broadcast Technical Standards of Part 3 of this chapter, it may be controverted by affidavit containing results of actual measurements made in accordance with the standard broadcast Technical Standards of Part 3 of this chapter.

(d) Any opposition to a petition for reconsideration or rehearing may be filed within 10 days after the filing of such petition.

(e) Petitions for reconsideration or rehearing filed under this section may request (1) reconsideration, either in cases decided after hearing or in cases of applications granted without hearing; (2) reargument; (3) reopening of the proceeding; (4) amendment of any finding; or (5) such other relief as may be appropriate. Such petition shall state specifically the form of relief sought and, subject to this requirement, may contain alternative requests. Each such petition shall state with particularity in

what respect the decision, order or requirement or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact must specify the pages of record relied on. Where the petition is based upon a claim of newly discovered evidence, it must be accompanied by a verified statement of the facts relied upon, together with the facts relied on to show that the petitioner, with due diligence, could not have known or discovered such facts at the time of the hearing.

(f) The filing of a petition for reconsideration or rehearing shall not excuse any person from complying with or obeying any decision, order, or requirement of the Commission, or operate in any manner to stay or postpone the enforcement thereof. However, upon good cause shown the Commission may stay the effectiveness of its order or requirement pending a decision on the petition for rehearing.

§ 1.391 *Special waiver procedure relative to broadcast applications.* (a) In the case of any broadcast applications designated for hearing, the parties may request the Commission to grant or deny the application upon the basis of the information contained in the applications and other papers specified in paragraph (b) of this section without the presentation of oral testimony. Any party desiring to follow this procedure should execute and file with the Commission a waiver in accordance with paragraph (f) of this section and serve copies on all other parties, or a joint waiver may be filed by all the parties. Upon the receipt of waivers from all parties to a proceeding, the Commission will decide whether the case is an appropriate one for determination without the presentation of oral testimony. If it is determined by the Commission that, notwithstanding the waivers, the presentation of oral testimony is necessary, the parties will be so notified and the case will be retained on the hearing docket. If the Commission concludes that the case can appropriately be decided without the presentation of oral testimony, the case will be removed from the hearing docket and the record will be considered as closed as of the date the waivers of all parties were first on file with the Commission.

(b) In all cases which are removed from the hearing docket in accordance with this procedure, the Commission will decide the case upon the basis of the information contained in the applications and any other papers open to public inspection on file with the Commission (as of the date the record was closed) which pertain to the applicants or applications in question. The Commission reserves the right to call upon any party to furnish any additional information which the Commission deems necessary to a proper decision. Such information shall be served upon all parties. The waiver previously executed by the parties shall be considered in effect unless within 10 days of the service of such information the waiver is withdrawn.

(c) This procedure does not in any way change the Commission's practice with respect to protests. Any party, or any member of the public, may file with the Commission any information concerning the applicant which bears upon his qualifications to operate a station in the public interest. Where such protest raises a question of substance which might affect the granting of the application, the presentation of oral testimony will generally be required. If the protest is not of any substance the Commission may proceed to act upon the application without the presentation of oral testimony.

(d) In all cases where the Commission issues a decision pursuant to this procedure without holding the usual hearing, an opinion will be issued by the Commission stating its reasons for its grant or denial of the individual applications. This decision shall have the same effect as a proposed decision, and the procedure thereafter to be followed shall be the same as in the case of a proposed decision made under the regular hearing procedure.

(e) The Commission does not construe this procedure as involving any waiver by the parties of the right to appeal to the Courts from any adverse final decision of the Commission.

(f) The waiver provided for by this section shall be in the following form:

WAIVER

Name of Applicant_____
Call Letters_____
Docket No._____

The undersigned hereby requests the Commission to consider its application and grant or deny it in accordance with the procedure prescribed in § 1.391 of the Commission's rules and regulations. It is understood that all the terms and provisions of § 1.391 are incorporated in this waiver.

PROCEDURE WITH RESPECT TO REVOCATION AND MODIFICATION OF STATION AUTHORIZATIONS, ISSUANCE OF CEASE AND DESIST ORDERS, AND SUSPENSION OF RADIO OPERATOR'S LICENSE

§ 1.401 *Notice of violations.* Any licensee who appears to have violated any provision of the Communications Act of 1934 or of the rules and regulations of the Federal Communications Commission, shall be served with a notice calling the facts to his attention and requesting a statement concerning the matter. Within 3 days from receipt of such notice, or such other period as may be specified, the licensee shall send a written answer direct to the office of the Commission originating the official notice. If an answer cannot be sent nor an acknowledgment made within such 3-day period by reason of illness or other unavoidable circumstances, acknowledgment and answer shall be made at the earliest practicable date with a satisfactory explanation of the delay. The answer to each notice shall be complete in itself and shall not be abbreviated by reference to other communications or answers to other notices. If the notice relates to violations that may be due to the physical or electrical characteristics of transmitting apparatus, the answer shall state fully what steps, if any, have been taken to prevent future violations, and if any new apparatus is to be installed, the date such apparatus was ordered, the name of the manufacturer, and promised date of delivery. If the installation of such apparatus requires a construction permit, the file number of the application shall be given, or if a file number has not been assigned by the Commission such identification shall be given as will permit ready identification thereof. If the notice of violation relates to lack of attention or to improper operation of the transmitter, the name and license number of the operator in charge shall be given.

§ 1.402 *Revocation of station licenses and construction permits and issuance of cease and desist orders.* (a) Whenever it appears that a station license or construction permit should be revoked for any of the reasons set forth in section 312 (a) of the Communications Act of 1934, as amended, or a cease and desist order should be issued for any of the reasons specified in section 312 (b) of the act, the Commission will issue an order directing the licensee, permittee or person to show cause why an order of revocation or a cease and desist order, as the case may be, should not be issued.

(b) Any order to show cause issued in accordance with paragraph (a) of this section will contain a statement of the matters with respect to which the Commission is inquiring and will call upon the licensee or permittee or person to appear before the Commission at a time and place stated in the order, but in no event less than thirty (30) days after the receipt of such order, and give evidence upon the matter specified therein; except that where safety of life or property is involved, the Commission may provide in the order for a shorter period.

(c) In order to avail himself of the opportunity to appear before the Commission at the time and place stated in the show cause order to give evidence upon the matter specified therein, the licensee, permittee or person, in person or by his attorney, shall within 30 days of the receipt of the order, or such shorter period as may be specified therein if the safety of life or property is involved, file with the Commission, in triplicate, a written appearance stating that he will appear and present evidence on the matter specified in the order.

(d) Hearings on the matters specified in the order to show cause and the practice and procedure in connection therewith shall accord with the provisions of Subparts F and G of this part, except that in all such hearings the burden of proceeding with the introduction of evidence and burden of proof shall be upon the Commission, and except that the Commission may, where the circumstances of the proceeding require expedition, specify in the show cause order, or authorize the hearing examiner to specify by subsequent order, times within which the initial decision in such proceedings shall become effective, within which exceptions to such initial decision or replies thereto may be filed, and within which parties may file notice of intent to seek and participate in oral argument, less than those specified in §§ 1.853 and 1.854.

(e) If the licensee, permittee or person does not desire to appear before the Commission and give evidence upon the

matter specified in the show cause order, he shall, within 30 days of the receipt of the order or such shorter period as may be specified therein if the safety of life or property is involved, file with the Commission, in triplicate, a written waiver of hearing. Such waiver, which shall include the name of the licensee, permittee or person to whom the show cause order was addressed, the call letters of his station, if any, and the docket number of the proceeding, may be accompanied by a statement of reasons why the licensee, permittee or person believes that an order of revocation or a cease and desist order, as the case may be, should not be issued.

(f) If the licensee, permittee or person fails timely to respond to an order to show cause or fails to appear at a hearing, such failure will be deemed a waiver of hearing.

(g) If the licensee, permittee or person waives a hearing in accordance with the provisions of paragraph (e) of this section and fails to submit a statement therewith showing why he believes an order of revocation or a cease and desist order should not be issued, or if he is deemed to waive a hearing in accordance with the provisions of paragraph (f) of this section, the allegations specified in the order to show cause will be deemed to be admitted and a decision will be issued by the Commission invoking the sanction specified in the order to show cause. If a hearing is waived pursuant to paragraph (e) of this section but a written statement as to why an order of revocation or cease and desist order should not be issued is submitted, the Commission will, on the basis of the facts before it as supplemented by such written statement, issue a decision stating its reasons for invoking the sanction specified in the order to show cause or for dismissing the proceeding, as the case may be: *Provided*, That where the written statement contains factual allegations contrary to those upon which the show cause order was based the Commission may call upon the submitting party to furnish additional information under oath, or, if necessary, designate the proceeding for oral hearing. The decisions of the Commission referred to in this paragraph shall have the same effect as an initial decision and the procedure to be followed thereafter shall be the same as in the case of an initial decision issued in the course of the regular hearing procedure.[12]

(h) Any order of revocation or cease and desist order issued pursuant to this section shall include a statement of the findings and the grounds and reasons therefor and specify the effective date of the order, and shall be served on said licensee, permittee or person.

§ 1.403 *Modification of licenses.* Whenever it appears that public interest, convenience, and necessity would be served, or the provisions of the Communications Act, or of any treaty ratified by the United States will be more fully complied with, by the modification of any radio station construction permit or license, the Bureaus of Law and Engineering prepare a report and other necessary papers which are presented to the Commission for action. If the Commission concludes that proceedings should be instituted, an order will be issued to show cause why such construction permit or license should not be modified. Such order to show cause shall contain a statement of the grounds and reasons for such proposed modification, and shall specify wherein the said construction permit or license is required to be modified. It shall require the licensee against whom it is directed, to appear at a place and time therein named to show cause why the proposed modification should not be made and the order of modification issued. If the licensee against whom the order to show cause is directed does not appear at the time and place provided in said order, a final order of modification shall issue forthwith.

§ 1.404 *Suspension of operator licenses.* Whenever it appears that grounds exist for suspension of an operator license, as provided in section 303 (m) of the act, the Chief of the Safety and Special Radio Services Bureau, with respect to amateur operator licenses, or the Chief of the Field Engineering and Monitoring Bureau, with respect to commercial operator licenses, pursuant to authority delegated by the Commission, issue an order suspending the operator license. No order of suspension of any operator's license shall take effect until 15 days' notice in writing thereof, stating the cause for the proposed suspension, has been given to the operator licensee, who may make written application to the Commission at any time within said 15 days for a hearing upon such order. The notice to the operator licensee shall not be effective until actually received by him, and from that time he shall have 15 days in which to mail the said application. In the event that physical conditions prevent mailing of the application before the expiration of the 15-day period, the application shall then be mailed as soon as possible thereafter, accompanied by a satisfactory explanation of the delay. Upon receipt by the Commission of such application for hearing, said order of suspension shall be designated for hearing by the Chief, Safety and Special Radio Services Bureau or the Chief, Field Engineering and Monitoring Bureau, as the case may be, pursuant to authority delegated by the Commission, and said order of suspension shall be held in abeyance until the conclusion of the hearing, which shall be conducted under such rules as the Commission shall deem appropriate. Upon the conclusion of said hearing, the Commission may affirm, modify, or revoke said order of suspension. If the license is ordered suspended, the operator shall send his operator license to the office of the Commission in Washington, D. C., on or before the effective date of the order, or, if the effective date has passed at the time notice is received, the license shall be sent to the Commission forthwith.

FORFEITURES AGAINST SHIPS AND SHIP MASTERS

§ 1.410 *Forfeitures against ships and ship masters.* (a) Whenever information is received indicating that reasonable grounds exist to support a suit for collection of forfeitures provided by section 362 of the Communications Act of 1934, as amended, the owner of the ship and the master will be notified of apparent liability for forfeitures. The notification will specify dates, places and the nature of the alleged violations or irregularities, and will advise the parties of the Commission's authority under section 504 (b) of the act to remit or mitigate such forfeitures upon application therefor. Applications for mitigation or remission may be filed within thirty (30) days from the date of receipt of the notification letter, or within such extended time as may for good cause be granted. The application must be in duplicate but need not follow any special form. After a review of the case in the light of all the information available, including the information and arguments presented in the application, the applicant will be notified of the determination, which may be either remission of the entire amount, an offer of mitigation of the forfeiture to the extent which appears warranted under the circumstances, or denial of any relief.

(b) Acceptance of an offer of mitigation may be accomplished through payment, within thirty (30) days from the date of receipt of the notification, of the amount specified therein by check or similar means drawn to the order of the Treasurer of the United States and mailed to the Commission.

(c) In lieu of acceptance of an offer of mitigation, or in the event of denial of relief, application may be made within thirty (30) days from the date of receipt of the notification for review by the Commission as provided in section 5 (d) (2) of the act. The application should set forth the reasons for applicant's belief that the original action on his application should be modified. It may include a statement of any material facts that may have been omitted from the original application for relief. If the Commission grants the application for review, it may affirm, modify or set aside the previous action, or direct any further proceedings that appear necessary and in the public interest.

(d) If the applicant fails to take any action in respect to a notification of apparent liability for forfeiture or an offer of mitigation or a notification of denial of relief, the case may be referred by the Commission to the Attorney General of the United States for appropriate civil action to recover the forfeiture in accordance with the provisions of section 504 (a) of the act.

SUBPART E—RULES RELATING TO APPLICATIONS, REPORTS, AND PROCEEDINGS AFFECTING COMMON CARRIERS UNDER TITLE II OF THE COMMUNICATIONS ACT

GENERAL RULES RELATING TO APPLICATIONS

§ 1.501 *Subscription and verification of applications.* Each application or amendment thereto shall be personally subscribed and verified (a) by the party filing such application or amendment, or by one of the parties, if there be more than one; (b) by an officer of the party filing the application or amendment if the party be a corporation: *Provided, however*, That subscription and verification may be made by the attorney for the party (1) in case of physical disability of the party, or (2) his absence from the continental United States. If it be made by a person other than the party, he must set forth in the verification the grounds of his belief as to all matters not stated upon his knowledge and the reason why it is not made by the party. Where more than one copy of an application is required to be filed with the Commission, only the original need be signed and verified; the copies may be conformed.

§ 1.502 *Full disclosures.* Each application shall contain full and complete disclosures with regard to the real party or parties in interest and as to all matters and things required to be disclosed by the application forms.

§ 1.503 *Additional statements.* The Commission may require an applicant to submit such documents and written statements of fact, under oath, as in its judgment may be necessary.

§ 1.504 *Form of amendments to applications.* Any amendment to an application shall be subscribed, verified, and submitted in the same manner, and with the same number of copies, as was the original application.

§ 1.505 *Amendments of applications ordered.* The Commission may upon its own motion or upon motion of any party to a proceeding, order the applicant to amend his application so as to make the same more definite and certain.

§ 1.506 *Defective applications.* (a) Applications which are defective with respect to completeness of answers to required questions, execution or other matters of a purely formal character will not be received for filing by the Commission, unless the Commission shall otherwise direct, and will be returned to the applicant with a brief statement as to the omissions.

(b) If an applicant is requested by the Commission to file any documents or information not included in the prescribed application form, a failure to comply with such request will constitute a defect in the application.

(c) Applications which are not in accordance with the Commission's rules, regulations or other requirements will be considered defective unless accompanied either (1) by a petition to amend any rule or regulation with which the application is in conflict, or (2) by a request of the applicant for waiver of, or an exception to, any rule, regulation or requirement with which the application is in conflict. Such request shall show the nature of the waiver or exception desired and set forth the reasons in support thereof.

(d) Applications found to be complete are accepted for filing and are given a file number.

§ 1.507 *Amendments and dismissals of applications.* (a) Any application may be amended or dismissed without prejudice as a matter of right prior to the designation of such application for hearing. Thereafter, requests to amend or dismiss without prejudice will be considered only upon written motion properly served upon all parties of record.

(b) When leave to amend has been granted after an application has been designated for hearing, the application will not be removed from the hearing docket unless the Motions Commissioner shall determine that the proposed amendment substantially affects the issues upon which the application has been designated for hearing and orders that the application shall be removed from the hearing docket. An amended application which has been removed from the hearing docket will be reexamined by the Commission and when necessary will be redesignated for hearing at a subsequent time.

§ 1.508 *Failure to prosecute applications.* An applicant not desiring to prosecute his application may request the dismissal of same without prejudice. A request of an applicant for the return of an application which has been accepted for filing will be considered as a request to dismiss the same without prejudice. Where an applicant fails to respond to official correspondence or request for additional material, the application will be dismissed without prejudice.

§ 1.509 *Partial grants.* Where the Commission without a hearing grants any application in part, or with any privileges, terms or conditions other than those requested, the action of the Commission shall be considered as a grant of such application unless the applicant shall, within 20 days from the date on which public announcement of such grant is made, or from its effective date if a later date is specified, file with the Commission a written request rejecting the grant as made. Upon receipt of such request, the Commission will vacate its original action upon the application and set the application for hearing in the same manner as other applications are set for hearing.

§ 1.510 *Inconsistent or conflicting applications.* When an applicant has an application pending or undecided, no other inconsistent or conflicting application filed by the same applicant, his successor or assignee, or on behalf or for the benefit of said applicant, will be considered by the Commission.

FILING AND PROCESSING OF APPLICATIONS

§ 1.521 *Filing and routing of applications.* All applications under Title II of the act are filed with the Secretary and dated by the Mail and Files Branch of his Bureau. All applications other than for special tariff permission are then routed to the Commercial License Branch of the Bureau of the Secretary, where they are given a file number and then routed to the appropriate units of the Bureaus of Law, Accounting and Engineering. Applications for special tariff permission are routed to the Rates Division of the Bureau of Accounting, where they are numbered and referred to the appropriate branches of that Division.

§ 1.522 *Application for extension of time in which to file financial reports.* Applications for extensions of time in which to file annual, monthly, and special reports required by the Commission pursuant to sections 211 and 219 of the act should be made in writing.

§ 1.523 *Application for special tariff permission; procedure and application form.* Applications under section 203 (a) of the act for special tariff permission shall be made in the form and manner and with the number of copies required by §§ 61.151 through 61.153 of this chapter. Final action is taken by the Chief Accountant where Commission policy in the matter has been established, and in other cases the Commission acts upon the recommendation of the Chief Accountant or upon the recommendation of the Bureaus of Law, Accounting and Engineering.

§ 1.524 *Application for holding interlocking offices or directorates; procedure and application form.* Applications under section 212 of the act for authority to hold the position of officer or director of more than one carrier subject to the act shall be made in the form and manner and with the number of copies required by §§ 62.1, 62.2, 62.11 and 62.21 through 62.25 of this chapter. Final action is taken by the Secretary upon securing the approval of the Bureau of Law where Commission policy in the matter has been established, and in other cases the Commission acts upon the recommendations of the General Counsel.

§ 1.525 *Application for lines.* (a) Applications under section 214 of the act for authority to construct a new line, extend any line, acquire or operate any line or extension thereof, or to engage in transmission over or by means of such additional or extended line, to furnish temporary or emergency service or to supplement existing facilities shall be made on the form and manner and with the number of copies required by §§ 63.01 through 63.06 and §§ 63.51 through 63.54 of this chapter. In accordance with the delegation of authority provided for in the Commission's Statement of Organization, Delegations of Authority and Other Information, the Telegraph Committee, the Telephone Committee, and the Secretary, respectively, take final action on these matters. In other cases, final action is taken by the Commission. Recommendations on these applications are made by the Bureau of Engineering, or by the Bureaus of Engineering, Accounting and Law.

(b) In cases requiring a certificate, notice is given to and a copy of the application is filed with the Secretary of the Army, the Secretary of the Navy, and the Governor of each State involved. Hearing is held if any of these parties desires to be heard or if the Commission determines that a hearing should be held. Copies of applications for certificates are also served upon the state regulatory commissions of the states involved.

§ 1.526 *Application for discontinuance, reduction, or impairment of service.* (a) Applications under section 214 of the act for authority to discontinue, reduce or impair service to a community or part of a community or for the temporary, emergency or partial discontinuance, reduction or impairment of service shall be made on the form and manner

[12] See §§ 1.853 to 1.857.

and with the number of copies required by §§ 63.51 to 63.54, §§ 63.60 to 63.68, and §§ 63.500 to 63.507 of this chapter. Posted and published notice shall be given to the public as required by § 63.67, § 63.68 or § 63.90 of this chapter. In accordance with the delegation of authority provided for in the Commission's Statement of Organization, Delegations of Authority and Other Information, the Telegraph Committee, the Telephone Committee, and the Secretary, respectively, take final action on these matters. In other cases, final action is taken by the Commission. Recommendations on these applications are made by the Bureau of Accounting where telegraph service is involved, by the Bureau of Engineering where telephone service is involved, or by the Bureaus of Accounting, Engineering and Law.

(b) In cases requiring a certificate, notice is given to and a copy of the application is filed with the Secretary of the Army, the Secretary of the Navy, and the Governor of each State involved. A hearing is held if any of these parties desire to be heard or if the Commission determines that a hearing should be held. Also, copies of all formal applications under this section requesting authorizations are filed with the Governors of the States involved and the Secretary of the Army and Secretary of the Navy.

§ 1.527 *Application for consolidation of telephone companies.* Applications under section 221 (a) of the act, by one or more telephone companies for authority to consolidate their properties or a part thereof into a single company or to acquire the whole or any part of the property of another telephone company or other telephone companies or the control thereof by the purchase of securities or by lease or in any other like manner when such consolidated company would be subject to the Communications Act shall be submitted as follows:

(a) *Contents of application.* Each application shall contain in narrative form the following information:

(1) The exact name and address of each applicant;

(2) A statement as to whether each applicant is a carrier subject to the act and what change or changes in status will result from the consummation of the proposed transaction;

(3) The name, title, and post-office address of the officer to whom correspondence in regard to the application should be addressed;

(4) The Government, State, or Territory, under the laws of which each corporate applicant was organized;

(5) Detailed description of the property to be acquired, consolidated, or merged, and a brief history of such property;

(6) In a proposed consolidation or merger, the name of the company resulting therefrom, the capitalization proposed therefor, and the amount and class of capital stock and other securities proposed to be issued;

(7) The manner in which the properties, or control, will be acquired and the consideration, in money and otherwise, to be paid by each applicant;

(8) Statement of action of stockholders and directors of each applicant approving the proposed transaction, giving date and place of each meeting;

(9) Facts as to any intercorporate relations through holding companies, ownership of securities or otherwise, between the applicants, or any of them;

(10) Reasons in general why the proposed transaction will be of advantage to the persons to whom service is to be rendered and in the public interest;

(11) With respect to the full-time employees employed in the exchange area or exchange areas served by properties proposed to be acquired, a complete statement as to the treatment proposed to be accorded to such employees by the acquiring company, with due regard to such matters as severance pay, if any, for employees discharged as a consequence of the transaction; accrued pension and benefit rights, if any; wages; locations of employment; job assignments; seniority; and other conditions of employment.

(12) With respect to the full-time employees employed in the exchange area or exchange areas served by properties proposed to be consolidated or merged, a complete statement describing the manner in which the respective labor forces will be integrated or merged, giving due regard to the treatment to be accorded to such matters as severance pay, if any, for employees discharged as a consequence of the transaction; accrued pension and benefit rights, if any; wages; locations of employment; job assignments; seniority and other conditions of employment.

(13) The extent to which the facilities to be acquired or controlled (by purchase, lease, or otherwise) parallel or are competitive with the facilities of the proposed purchaser or others;

(14) A statement as to whether the proposed transaction has been presented to the regulatory authority of each state in which the property is situated, and, if so, with what results.

(b) *Supporting data required with application.* There shall be filed with and made a part of the original of each application under section 221 (a) the following:

(1) One copy of the charter, articles of incorporation and the bylaws of each applicant, duly certified (such copies as are already on file with the Commission may be incorporated in the application by reference);

(2) One copy of resolutions of the stockholders or directors of each of the applicants approving the proposed transaction, such resolutions to be properly attested and accompanied by appropriate excerpts from the minutes, showing the number of votes cast for and against each such resolution;

(3) Map or sketch indicating the facilities of each telephone carrier in the area involved, and the location and ownership of exchange and toll properties before and after consummation of the proposed transaction;

(4) A recent balance sheet and an income statement of each party involved;

(5) A statement showing the book cost and related reserve amounts with respect to the plant items to be acquired unless all of the telephone plant is included in the proposed acquisition, consolidation, or merger;

(6) Copy of any contract or contracts, exclusive of right-of-way and attachment contracts, entered into between the applicants, or any of them, with respect to any of the telephone properties or service included in the proposed transaction;

(7) With respect to the full-time employees employed in the exchange area or exchange areas served by the properties proposed to be acquired, consolidated, or merged, a table showing for each such employee, by name, his job classification, length of service, wage rate and location of employment; except that where twenty-five or more full-time employees are employed in any exchange area served by the properties to be consolidated or merged with another exchange area or exchange areas, such information with respect to those employees may be given on a group basis by job classification.

(8) Copies of any pension or benefit plans which are referred to in the statements supplied pursuant to paragraph (a) (11) and (12) of this section.

(9) Any additional facts or reasons in support of the application.

(c) *Copies required.* Five copies shall be furnished to the Commission for its use. In addition, a copy should be served on any other party to the proceeding.

(d) *Procedure.* These applications are acted upon by the Commission after a public hearing is held thereon. Reasonable notice of the hearing is given by the Commission to the Governor of each State in which the physical property affected, or any part thereof, is situated, and to the State commission having jurisdiction over telephone companies and to such other persons as the Commission may deem advisable.

§ 1.528 *Application for consolidation of domestic telegraph carriers.* (a) Applications under section 222 of the act by two or more domestic telegraph carriers for authority to effect a consolidation or merger or to acquire all or any part of the domestic telegraph properties, domestic telegraph facilities, or domestic telegraph operations of any carrier which is not primarily a telegraph carrier shall contain such information as is necessary for the Commission to act upon such application under the provision of section 222 of the act.

(b) These applications are acted upon by the Commission after public hearing. Reasonable notice in writing of the public hearing and an opportunity to be heard is given by the Commission to the Governor of each of the States in which any of the physical property involved in such proposed consolidation or merger is situated, to the Secretary of State, the Secretary of the Army, the Attorney General of the United States, the Secretary of the Navy, representatives of employees where represented by bargaining representatives known to the Commission, and to such other persons as the Commission may deem advisable.

§ 1.529 *Application with respect to disposition of debit amounts in account 100.4, "Telephone plant acquisition adjustment," for class A and class B telephone companies and in account 1200, "Plant adjustments" for class C telephone companies.* Sections 31.100:4 (c) (1) and 33.1200 (c) (1) of this chapter contain provisions relating to the disposition of such debit amounts in whole or in part, or for amortization over a reasonable period, through charges to appropriate income or surplus accounts. If a different disposition is desired, application therefor shall be made to the Commission. Final action, in accordance with established Commission policy, is taken on such applications by the Chief Accountant; or such applications are presented to the Commission for action upon the recommendation of the Chief Accountant.

TARIFFS, REPORTS, AND OTHER MATERIAL REQUIRED TO BE SUBMITTED BY CARRIERS

§ 1.541 *Tariffs to be filed.* Schedules of charges required under section 203 of the Communications Act shall be constructed, filed and posted in accordance with Part 61 of this chapter.

§ 1.543 *Contracts to be filed.* Copies of carrier contracts, agreements, concessions, licenses, authorizations or other arrangements, shall be filed in the form and manner and with the number of copies required by § 43.51 of this chapter.

§ 1.544 *Annual financial reports.* (a) Annual financial reports shall be filed by carriers and affiliates as required by § 43.21 of this chapter on the following forms:

(1) Form H (holding companies).

(2) Form M (telephone companies, class A and B).

(3) Form O (wire-telegraph and ocean-cable carriers, class A and B).

(4) Form R (radiotelegraph carriers, class A and B).

(5) [Reserved.]

(6) Form L (licensees in the domestic public land mobile radio services who do not report to the Commission on Annual Report Form M).

(b) Verified copies of annual reports filed with the Securities and Exchange Commission on its Form 10–K, Form 1–MD, or such other form as may be prescribed by that Commission for filing of equivalent information, shall be filed annually with this Commission by each person immediately controlling any communication common carrier in accordance with § 43.21 of this chapter.

(c) Reports shall be filed annually by common carriers with respect to operations of separate departments or divisions of a holding company, servicing, or manufacturing nature in accordance with § 43.21 of this chapter.

§ 1.545 *Monthly financial reports.* Monthly reports of revenues, expenses, and other items shall be filed by carriers as required by § 43.31 of this chapter on the following forms:

F. C. C. Form No. 901 Telephone.
F. C. C. Form No. 903 Radiotelegraph and Ocean-cable.
F. C. C. Form No. 905 Wire-telegraph.

§ 1.547 *Reports to be filed under Part 31 of this chapter.* Reports shall be filed, either periodically or upon the happening of specified events, by carriers under Part 31 of this chapter in regard to the following:

(a) 31.01–2 (d) (1), (2), and (3). Subaccounts, clearing, temporary and experimental accounts.

(b) 31.01–2 (e). Effecting entries to transfer the balances from the old to the new system of accounts.

(c) 31.01–5 (b). Particulars of relatively large delayed items.

(d) 31.01–9. Interpretation of prescribed accounting.

(e) 31.02–83, 31.138 (c), 31.609. Unprovided-for loss in service value of plant retired for causes not factors in depreciation.

(f) 31.1–13 (b). Amortization of amounts ordinarily includible in surplus and relating to the refinancing of the carrier's securities.

(g) 31.1–15 (f). Amortization of amounts ordinarily includible in surplus and relating to the refinancing of the carrier's long-term debt.

(h) 31.1–16. Exchange of securities.

(i) 31.1–16A. Issuance or assumption of nonpar capital stock.

(j) 31.1–16A. Transfer of surplus to nonpar capital stock account.

(k) 31.100:4 (b). Opening entry (and basis of computations of amounts included) in account 100.4, "Telephone plant acquisition adjustment."

(l) 31.100:4, 31.100:7, 31.172, 31.614. Disposition of amounts included in account 100:4, "Telephone plant acquisition adjustment," and in account 100:7, "Telephone plant adjustment."

(m) 31.138 (c), 31.6–64. Extensive replacement of station apparatus, inside, drop and block wires.

(n) 31.2–21 (b) (3). Acquisition of duplicate or other telephone plant to be retired.

(o) 31.2–21 (e). Substantial acquisition of telephone plant.

(p) 31.2–22 (b) (10) (ii) (iii). Interest for period longer than 6 months prior to commencement of construction, and interest during the suspension of construction.

(q) 31.2–24. Changes in list of retirement units.

(r) 31.2–26 (a), (b). Continuing property-record plan.

(s) 31 611 (a). Institution of an employment stabilization program.

(t) 31.672 (d), (f). Changes in (a) pension plan; (b) related matters; and (c) accounting for pension costs.

(u) Appendix B—Standard Practices, CPR: Section 1 (b). Continuing property record; (1) list of accounting areas (with descriptions) and (2) descriptions of subsequent proposed changes in the list.

(v) CPR: Section 2 (a). Continuing property record; proposed revisions in list of property-record units.

§ 1.548 *Reports to be filed under Part 33 of this chapter.* Reports shall be filed, either periodically or upon the happening of specified events, by carriers under Part 33 of this chapter in regard to the following:

(a) 33.1 (a). Jurisdictional matters; determination of class.

(b) 33.1 (b). Adoption of accounts prescribed for class A and class B telephone companies.

(c) 33.12 (e). Closing of books on other than a calendar-year basis.

(d) 33.14. Interpretation of prescribed accounting.

(e) 33.14. Spreading of relatively large amounts to prevent distortion of accounts.

(f) 33.14. Disposition of relatively large delayed items.

(g) 33.21 (f). Issuance or assumption of no-par capital stock.

(h) 33.21 (f). Transfer of surplus to no-par capital-stock accounts.

(i) 33.32 (b), 33.1200 (b). Distribution of cost of plant acquired to plant and other accounts.

(j) 33.1200 (c), 33.2700 (a), 33.5200. Disposition of amounts included in account 1200, "Plant adjustments."

(k) 33.34 (c). Replacements of property leased from others.

(l) 33.65 (d), 33.1890 (c), 33.2600 (b). Unprovided-for loss in service value of plant retired for causes not factors in depreciation.

(m) 33.1890 (c). Extensive retirements of station apparatus and inside, drop, and block wires.

(n) 33.2800 (b). Transfer of credit amounts from account 2800, "Contributions of telephone plant."

(o) 33.81. Revision of list of units of property.

§ 1.549 *Reports to be filed under Part 34 of this chapter.* Reports shall be filed, either periodically or upon the happening of specified events, by carriers under Part 34 of this chapter in regard to the following:

(a) 34.03–5 (b) (3). Subaccounts, clearing, temporary and experimental accounts.

(b) 34.03–6. Effecting entries to transfer the balances from the old to the new system of accounts.

(c) 34.03–11. Interpretation of prescribed accounting.

(d) 34.03–13. Particulars of relatively large delayed items.

(e) 34.04–4 (b), 34.1910. Unprovided-for loss in service value of plant retired for causes not factors in depreciation.

(f) 34.10–8. Exchange of securities.

(g) 34.10–9 (c). (a) Issuance of no-par capital stock; (b) transfer of surplus to no-par capital stock account; (c) reduction of capital surplus by use of no-par capital stock account; and (d) reduction of capital stock issued.

(h) 34.10–10 (c). Historical and detailed analysis of capital surplus for prior periods (ended December 31, 1939).

(i) 34.10–14 (f). Amortization of amounts ordinarily includible in income accounts and relating to refinancing of carrier's long-term debt.

(j) 34.1510 (e), 34.1520 (b), 34.4920 (a), 34.5255 (a). Disposition of amounts included in account 1510, "Plant acquisition adjustments."

(k) 34.1515 (b). Relief from mandatory charges to account 6299, "Other extraordinary income charges," to create a credit balance (at January 1, 1940) in account 1515, "Allowance for depreciation—Radiotelegraph plant," equal to sustained depreciation of owned plant.

(l) 34.1520 (c). Relief from mandatory charges to account 6299 to create a credit balance (at January 1, 1940) in account 1520, "Allowance for amortization—Radiotelegraph plant," equal to

the expired service value of certain intangibles.

(m) 34.1599 (d), 34.5089 (d). Changes in optional procedure adopted for recording foreign investments and foreign income.

(n) 34.1935 (a). Relief from mandatory charges to account 6299 of amounts cleared from account 1935, "Preliminary survey and investigation charges," and applicable to abandoned projects.

(o) 34.2220 (a), (c), 34.4198 (a). Institution of a program for equalization of maintenance expenses.

(p) 34.2225 (c). Relief from mandatory charges to account 6299 to create a credit balance (at January 1, 1940) in account 2225, "Provisions for depreciation and replacement of operated plant leased from others," equal to the expired service value of plant leased from others.

(q) 34.2515 (b). Transfer of credit amounts from account 2515, "Contributions of plant."

(r) 34.1–2 (d) (3). Acquisition of duplicate or other plant to be retired.

(s) 34.1–2 (g). Substantial acquisition of plant.

(t) 34.1–2 (g), 34.91 (b). Clearance date for plant acquisition entries.

(u) 34.1–3 (c) (8). Interest during the suspension of construction.

(v) 34.1–5 (g). Disposition of deferred charges and credits relating to plant leases terminated.

(w) 34.1–6 (f). Disposition of balances in account 2225 and account 2230, "Leased operated plant retired," relating to each expired lease of plant from others.

(x) 34.1–8. Continuous property-record plan.

(y) 34.4435 (d), (f). Changes in (a) pension plan, (b) related matters, and (c) in accounting for pension cost.

(z) 34.4950, 34.5260. Revenue-contract payments.

(aa) 34.9010 (Note). Relief from mandatory charges to account 6299 of amounts cleared from account 9010, "Research and development—Undistributed," and applicable to abandoned projects.

(bb) 34.1–6–1 (b). Revision of list of retirement units.

(cc) 34.1–6–1 (b), (d). Changes in list of retirement units (due 45 days after June 30, December 31).

§ 1.550 *Reports to be filed under Part 35 of this chapter.* Reports shall be filed, either periodically or upon the happening of specified events, by carriers under Part 35 of this chapter in regard to the following:

(a) 35.03–5 (b) (3). Subaccounts, clearing, temporary and experimental accounts.

(b) 35.03–6. Effecting entries to transfer the balance from the old to the new system of accounts.

(c) 35.03–11 (b). Interpretation of prescribed accounting.

(d) 35.03–13. Particulars of relatively large delayed items.

(e) 35.04–4, 35.1910. Unprovided-for loss in service value of plant retired for causes not factors in depreciation.

(f) 35.10–8. Exchange of securities.

(g) 35.10–9 (c). (a) Issuance of no-par capital stock; (b) transfer of surplus to no-par capital stock account; (c) reduction of capital surplus by use of no-par capital stock account; and (d) reduction of capital stock issued.

(h) 35.10–10 (c). Historical and detailed analysis of capital surplus for period ended December 31, 1942.

(i) 35.10–14 (f). Amortization of amounts ordinarily includible in income accounts and relating to refinancing of company's long-term debt.

(j) 35.1510 (d), 35.1520 (b), 35.4920 (a), 35.5255 (a). Disposition of amounts included in account 1510, "Plant acquisition adjustments."

(k) 35.1515 (b). Relief from mandatory charges to account 6120 "Extraordinary current income charges," to create a credit balance in account 1515 "Allowance for depreciation-wire-telegraph and ocean-cable plant," equal to the sustained depreciation at January 1, 1943, of owned plant.

(l) 35.1520 (c). Relief from mandatory charges to account 6120 to create a credit balance in account 1520 "Allowance for amortization-wire-telegraph and ocean-cable plant," equal to the sustained depreciation at January 1, 1943, of owned plant.

(m) 35.1545 (b). Disposition of amounts included in account 1545, "Plant adjustments."

(n) 35.1599 (d), 35.5089 (d). Changes in optional procedure adopted for recording foreign investments and foreign income.

(o) 35.1935 (a). Relief from mandatory charges to account 6120 of amounts cleared from account 1935, "Preliminary survey and investigation charges," and applicable to abandoned projects.

(p) 35.2220 (a), (c), 35.4180. Institution of a program for equalization of maintenance expenses.

(q) 35.2225 (c). Relief from mandatory charges to account 6120 to create a credit balance (at January 1, 1943) in account 2225, "Provisions for depreciation and replacement of operated plant leased from others."

(r) 35.2515 (b). Transfer of credit amounts from account 2515, "Contributions of Plant."

(s) 35.1–1 (f). Reclassification of plant; and statement of amounts in accounts before and after reclassification (at January 1, 1943).

(t) 35.1–2 (e). Acquisition of duplicate or other plant to be retired.

(u) 35.1–2 (h). Substantial acquisition of plant.

(v) 35.1–2 (h), 35.91 (b). Clearance date for plant acquisition entries.

(w) 35.1–3 (c) (8). Interest during the suspension of construction.

(x) 35.1–5 (g). Disposition of deferred charges and credits relating to plant leases terminated.

(y) 35.1–6 (k). Disposition of balances in account 2225 and account 2230, "Leased operated plant retired," relating to expired leases of plant from others.

(z) 35.1–8 (b). Continuous property-record plan.

(aa) 35.4327 (d), (f). Changes in (a) pension plan, (b) related matters, and (c) accounting for pension costs.

(bb) 35.9011 (b). Relief from mandatory charges to account 6120 of amounts cleared from account 9011, "Research and development clearing account," and applicable to abandoned projects.

(cc) 35.1–6–1 (b). Revision of list of retirement units.

(dd) 35.1–6–1 (b), (d). Permissive changes in list of retirement units (due 90 days after June 30).

§ 1.551 *Reports of proposed changes in depreciation rates.* Carriers shall file reports regarding proposed changes in depreciation rates as required by § 43.43 of this chapter.

§ 1.552 *Reports regarding premature destruction of records.* Carriers shall file reports relating to the premature destruction of records as required by §§ 45.7 and 46.7 of this chapter.

§ 1.553 *Reports regarding pensions and benefits.* Carriers shall file reports regarding pensions and benefits as required by § 43.42 of this chapter.

§ 1.554 *Reports regarding division of international telegraph communication charges.* Carriers engaging in international telegraph communication shall file reports in regard to the division of communication charges as required by § 43.53 of this chapter.

§ 1.555 *Reports regarding telegraph carrier services.* Telegraph carriers shall file description of their services as required by § 43.54 of this chapter.

§ 1.556 *Reports of negotiations regarding foreign communication matters.* Carriers engaging or participating in foreign communications shall file monthly reports covering negotiations conducted as required by § 43.52 of this chapter.

§ 1.557 *Reports on traffic.* (a) Commission Orders Nos. 85 and 86 require international telegraph carriers to file on FCC Form No. 336 and common carriers engaged in radiotelegraph communication with maritime mobile stations (with certain exceptions) to file on FCC Form No. 337 certain traffic information at periodic intervals. A complete description of these reports is set forth in Orders Nos. 85 and 86.

(b) Monthly and quarterly reports must be filed with the Commission in connection with certain fixed public radio service operations. No form is prescribed. A complete description of the contents of these reports is contained in §§ 6.41 and 6.53 of this chapter.

§ 1.558 *Reports under § 63.04 of this chapter.* Radio carriers receiving authority under § 63.04 of this chapter shall furnish quarterly reports as required therein.

§ 1.559 *Reports to be filed regarding lines.* Carriers shall furnish reports under § 63.54 of this chapter when a line authorized to be constructed, acquired or operated has been put into service.

§ 1.560 *Reports to be furnished regarding domestic telegraph speed of service.* The Western Union Telegraph Company shall furnish monthly reports under §§ 64.201 through 64.283 of this chapter in regard to Message Center speed of service and Origin to Destination speed of service on FCC Forms No. 338–A and No. 338–B respectively, and copies of instructions to field offices in accordance with § 64.226 of this chapter.

RULES RELATING TO COMPLAINTS

§ 1.571 *Formal or informal complaints.* Complaints filed under title II of the act may be either formal or informal.

§ 1.572 *Informal complaints.* No particular form is prescribed for informal complaints but they must be in writing, subscribed, and verified by the complainant. The complaint shall state the name and address of the complainant, the name of the carrier against whom the complaint is made, and shall state as definitely as possible the basis or reason for the complaint.

§ 1.573 *Action on informal complaints.* Upon receipt of an informal complaint properly drawn and executed, the Commission will, if its nature warrants, take the question up by correspondence with the carrier complained of in an endeavor to bring about satisfaction. Such correspondence with the carrier shall call upon it either to satisfy the complainant or advise the Commission of its refusal or inability to do so within such time as may be prescribed. If the carrier satisfies the complainant, it shall immediately notify the Commission and file with it proof of satisfaction; whereupon the complaint will be dismissed. If the carrier refuses or is unable to satisfy the complainant within the time prescribed, it shall so notify the Commission, which decision the Commission will forthwith give notice of to the complainant.

§ 1.574 *Resubmission; 6 months' rule.* When an informal complaint has not been satisfied pursuant to the foregoing rule, the complainant may either file a formal complaint or resubmit his informal complaint within 6 months from the date of the Commission's notice: *Provided, however,* That such resubmitted informal complaint must contain new material matter upon the same cause of action. The procedure prescribed herein for handling of informal complaints will be followed in case of resubmitted informal complaints. If such resubmitted informal complaint or a formal complaint is filed with the Commission within the 6-month period, such resubmission or filing will be deemed to relate back to the date of the filing of the original informal complaint. But reference to the original date of the informal complaint must be made in such resubmission or in the formal complaint filed.

§ 1.575 *Formal complaints; requirements.* (a) Formal complaints shall contain the names of all parties complainant and defendant in full, the address of each complainant, and the name and address of his attorney, if represented by attorney, and shall be subscribed and verified by the complainant.

(b) A form of such complaint is as follows:

(This form may be used in cases to which it is applicable, with such alterations as the circumstances may render necessary.)

COMPLAINT

Before the Federal Communications Commission, Washington, D. C.

COMPLAINANT

Docket No. ------

(To be inserted by the Secretary of the Commission)

Complainant

v.

Defendant

The complainant (here insert full name of each complainant and if a corporation the corporate title of such complainant) respectively shows:

(1) That (here state occupation and post-office address of each complainant).

(2) That (here insert the full name, occupation, and post-office address of each defendant).

(3) That (here insert fully and clearly the specific act or thing complained of, together with such facts as are necessary to give a full understanding of the situation).

Wherefore, complainant asks (here state specifically the relief desired).

Dated at -------- this ---- day of --------, 19-----.

(Name of each complainant)

(Name and address of attorney, if any)

FORM OF VERIFICATION

---------- being first duly sworn, on oath, deposes, and says:

That he is the complainant (or one of the complainants), in the above-entitled matter; that he has read the within and foregoing complaint and knows the contents thereof, and that the matter and things therein stated are true of his own knowledge, save and except those matters therein stated on information and belief, and as to those he believes them to be true.

Subscribed and sworn to before me this ---- day of ---------- 19-----.

(Notary public or other proper officer)

§ 1.576 *Statement of issues; joinder of causes of complaint.* Formal complaints shall be so drawn as to advise the Commission and the defendant fully wherein the provisions of the act, or an order, rule or regulation of the Commission have been violated, the facts claimed to constitute such violation, and the relief sought. Two or more grounds of complaint involving the same principle, subject, or statement of facts may be included in one complaint, but should be separately stated and numbered.

§ 1.577 *Notice of complaints.* Upon receipt of any formal complaint against any common carrier subject to the act, the Commission will forward a copy of the same to such carrier together with a notice of the filing thereof, which notice shall contain an order of the Commission calling upon the carrier to satisfy the complaint or answer the same in writing within the time specified in said notice, which in no event shall be less than 30 days.

§ 1.578 *Charges, etc.; specific references.* The several charges, classifications, regulations, or practices complained of shall be set out by specific references to schedules of charges and classifications, and also the particular regulations or practices whenever that is possible.

§ 1.579 *Separate statement of each provision violated.* When a violation of more than one provision of a section of the act is alleged, such violation shall be separately stated with respect to each provision of the act claimed to be violated.

§ 1.580 *Allegations; certainty.* In case recovery of damage is sought, the complaint should contain appropriate allegations showing such data as will serve to identify, with reasonable certainty, the communications or transmissions, or other services, in respect of which recovery is sought and shall state (a) that the complainant makes claim for reparation; (b) the name and address of each individual claimant asking reparation; (c) the name and address of defendants against which claim is made; (d) the communications, transmissions, or other services rendered, the charge applied thereto, the date when charges were paid, by whom paid, and by whom borne; (e) the period of time within which, or the specific dates when such communications, transmissions or other services were rendered; (f) points of origin and reception of such communications or transmissions, and if the damages sought to be recovered are for services other than communications or transmissions, then the allegations of the complaint shall state the nature and extent of such services, the date or dates when rendered, when paid for, and by whom borne; (g) nature and amount of injury sustained by each claimant; (h) if reparation is sought on behalf of others than the complainant, in what capacity or by what authority complaint is made in their behalf; and (i) that claimant has not filed suit in any court on the basis of the same claim.

§ 1.581 *Challenge of general rate adjustments; reparation.* If a general rate adjustment is challenged in the complaint, or many communications and transmissions or points of origin and reception are involved, the Commission will find and determine in its report the issues as to violation of the act, injury thereby to complainant, and right to reparation. The Commission will afford the parties opportunity to agree or make proof respecting the communications, transmissions, or other services, and amount of reparation due under its findings, before entering its order awarding reparation. In such cases, authenticated schedules of charges, receipts, statements, and other exhibits bearing on details of such communications, transmissions, or other services, for which reparation is claimed, and the amount claimed (separately stated with respect to each communication, transmission, or other service rendered), need not be produced at the hearing unless called for or needed to develop other pertinent facts.

§ 1.582 *Discrimination specified.* In case unjust or unreasonable discrimination is alleged, the charge, practice, classification, regulation, facility, or service complained of must be clearly specified.

§ 1.583 *Preference or prejudice.* In case undue or unreasonable preference, advantage, or prejudice is alleged, the particular person, company, firm, corporation, locality, or description of traffic affected thereby, and the particular preference or prejudice or disadvantage, relied upon as constituting a violation, shall be clearly specified.

§ 1.584 *Reparation; prayer for.* Reparation will not be awarded upon a complaint unless specifically prayed for, except under unusual circumstances and for good cause shown. Reparation may be awarded, however, upon a supplemental complaint based upon the finding of the Commission in the original proceeding.

§ 1.585 *Limitations: damages pendente lite.* The Commission will consider as in substantial avoidance of the statute of limitations, a complaint in which the complainant alleges that the matters complained of, if continued in the future, will constitute violations of the act in the particulars and to the extent indicated, and prays reparation accordingly as to charges which shall be paid and borne by complainant on all communications, transmissions, or other services affected thereby occurring during the pendency of the proceeding.

§ 1.586 *Supplemental complaints—*(a) *General.* Supplemental complaints may be tendered for filing by the parties complainant, against the parties defendant, setting forth any causes of action under the act alleged to have accrued in favor of the complainants and against the defendants since the filing of the original complaint.

(b) *Seeking damages.* If recovery of damages is sought by supplemental complaint, it must be filed with the Commission within the statutory periods stated in section 415 of the act.

§ 1.587 *Cross complaints.* Cross complaints alleging violations of the act by other carriers, parties to the proceeding, or seeking relief against them under the act, may be tendered for filing by defendants with their answers and, upon leave granted, will be filed and served by the Commission in the manner provided for serving complaints.

§ 1.588 *Answers to complaints and petitions.* Any party upon whom a copy of a complaint, petition, or cross complaint is filed under this subpart shall file an answer within 30 days after service of the complaint. Such answer shall be subscribed by the party answering and shall be so drawn as to advise the parties and the Commission fully and completely of the nature of the defense, and shall admit or deny specifically and in detail all material allegations of the complaint. Collateral or immaterial issues shall be avoided in answers and every effort shall be made to narrow the issues. Matters alleged as affirmative defenses shall be separately stated and numbered. Any defendant failing to file and serve answer within the time and in the manner prescribed will be deemed in default, and the Commission will issue an appropriate order. (Counterclaims and set-offs against users of service supplied by carriers are not within the jurisdiction of the Commission.) This section does not apply to protests or applications seeking suspensions of proposed tariff schedules.

§ 1.589 *Answers to petitions or amended complaints.* Answers to petitions for intervention, or to amended complaints filed and served upon leave granted, need not be separately made unless the defendant so elects, and defendant's answer to the complaint will be deemed its answer to the petition in intervention.

§ 1.590 *Requests for suspension of tariff schedules.* Requests for suspensions of tariff schedules under section 204 of the act will not ordinarily be considered unless made in writing or by telegram at least 10 days before the effective date named in the schedule. Requests for suspensions must indicate the schedule affected by its Federal Communications Commission number and give specific reference to the items against which protest is made, together with a statement of the grounds thereof. If such request is made by telegram, the telegram must be followed and confirmed by request in writing and the telegram should succinctly state the substance of the matters to be set forth in the written request. Sixteen copies of each written request must be furnished to the Commission.

RULES CONCERNING SHOW CAUSE ORDERS AND TENTATIVE VALUATIONS

§ 1.591 *Order to show cause.* (a) Whenever the Commission desires to institute a proceeding within its jurisdiction under title II of the act against any common carrier, it will commence such action by serving upon the carrier an order to show cause. Said order shall contain a statement of the particulars and matters concerning which the Commission is inquiring, and the reasons for such action, and shall call upon the carrier to appear before the Commission at a place and time therein stated, and answer and give evidence upon the matters specified in said order. The Commission may require in said order, that the carrier file with the Commission its verified answer to the order to show cause, on or before a day certain, prior to the hearing date therein fixed, in no event less than 30 days after service of the order.

(b) Any carrier, upon whom an order to show cause has been served under this section shall respond to the same by filing its answer within the time specified in said order. Such answer shall be drawn so as specifically to admit or deny the charges or allegations which may be made in said order, and so as to advise the Commission fully and completely upon the matters and things inquired of.

§ 1.592 *Protests of tentative valuations.* Protests in opposition to a tentative valuation shall be subscribed and verified and shall contain a concise statement of the essential elements of the protest with particularity as to the matters concerning which protest is made. Each object of protest shall be set up as a separate item in a separately numbered paragraph and the protest shall also include a statement of the protestant's interest in the matter in controversy.

SUBPART F—GENERAL RULES OF PRACTICE AND PROCEDURE

GENERAL

§ 1.701 *Suspension, amendment or waiver of rules.* The rules and regulations of the Commission may be suspended, revoked, modified, amended, or supplemented, in whole or in part, at any time by the Commission, subject to the provisions of the Administrative Procedure Act. Any provision of the rules may be waived by the Commission, if good cause therefor exists.

§ 1.702 *Petition for amendment or waiver of rules.* Any interested person may petition for issuance, amendment, repeal or waiver of any rule or regulation. Such petition shall show the text of the proposed rule, or its change, and set forth the reason in support of the petition.

§ 1.703 *Computation of time.* In computing any period of time prescribed or allowed by the Commission's rules or by order of the Commission the day of the act, event, or default, after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Sunday or a legal holiday or a Saturday on which the Commission's offices are not open, in which event the period runs until the end of the next day which is not a Sunday, holiday, or Saturday on which the Commission's offices are not open. When the period of time prescribed or allowed is less than 7 days, intermediate Saturdays, Sundays, and holidays shall be excluded in the computation. A half holiday shall be considered as other days and not as a holiday.

PERSONAL APPEARANCES; PRACTITIONERS

§ 1.711 *Appearances.* Any person appearing before the Commission or any of its representatives may be heard in person and may be accompanied, represented and advised by counsel.

§ 1.712 *Authority for representation.* Any person, in a representative capacity, transacting business with the Commission, may be required to show his authority to act in such capacity.

§ 1.713 *Persons who may be admitted to practice.* (a) The Commission will maintain a register of attorneys admitted to practice before the Commission. Any attorney at law in good standing admitted to practice before any court of the United States, the District of Columbia, or the highest court of any State or Territory, may register by filing with the Commission, an affidavit to this effect on FCC Form No. 786. The Commission may, if it so desires, require additional proof of said attorney's qualifications.

(b) Any attorney at law who has not been admitted to practice before the Commission may, in the discretion of the Commission or the official presiding at any hearing, be admitted for a particular case in which he may be employed.

§ 1.714 *Suspension or disbarment of attorneys.* The Commission may censure, suspend, disbar, or revoke the right of any person who has been admitted to practice before it if it finds that such person has in obtaining admission concealed any material facts with reference to his legal qualifications, professional standing, character or integrity, or has failed to conform to recognized standards of professional conduct. Before any member of the bar of the Commission shall be censured, suspended, disbarred, or his right to practice before the Commission revoked, charges shall be preferred by the Commission against such practitioner and he shall be afforded an opportunity to be heard thereon.

§ 1.715 *Former employees.* (a) No member, officer, or employee of the Commission shall, within 2 years after his service with the Commission is terminated, appear as attorney before the Commission in any cause or application which he has handled or passed upon while in the service of the Commission.

(b) No member, officer or employee of the Commission (1) whose active service with the Commission has terminated but who is receiving pay while on annual leave not taken prior to separation from such active service, or (2) who is in any other leave status, shall appear as attorney or participate in the preparation or handling of any matter before, or to be submitted to, the Commission.

§ 1.716 *Appearance blanks.* Each attorney representing a party to any proceeding shall enter his appearance in duplicate on the form prescribed for the purpose by the Commission prior to participating in such proceeding, which appearance shall be made a part of the record.

PETITIONS AND OTHER REQUESTS FOR COMMISSION ACTION

§ 1.721 *General.* Persons desiring to file complaints with the Commission or to request information on file with the Commission or for any other relief under the jurisdiction of the Commission may do so either formally or informally. Formal submissions must be by way of petition which shall set forth clearly and concisely the petitioner's interest and facts supporting the relief sought and must comply with the Commission's rules concerning pleadings. All other submittals will be considered as informal in nature.

§ 1.722 *Petitions to intervene.* (a) Special rules governing petitions to intervene in matters arising under title III of the Communications Act are set forth in § 1.388.

(b) In all other proceedings persons desiring to intervene must file a petition setting forth the grounds of the proposed intervention, the position and interest of the petitioner, in the proceeding, the facts on which the petitioner bases his claim that his intervention will be in the public interest. If a proper showing is made, the Commission will grant the petition and permit participation in the proceedings. If the facts warrant, the Commission may limit participation by such persons to particular issues or to a particular stage of the proceedings. The granting of a petition to intervene shall not have the effect of changing or enlarging the issues which shall be those specified in the Commission's notice of hearing unless on motion the Commission shall amend the same.

§ 1.723 *Request by nonparties to participate in hearings; communications relating to applications.* (a) There will be maintained in the office of the Secretary of the Commission a record of all communications received by the Commission relating to the merits of any application pending before the Commission requesting the granting, renewal, modification, or revocation of any license or construction permit, certificate of convenience and necessity, or rate schedule. Such record shall show the name and address of the person making the statement and the substance of such statement. When the date of hearing has been set, if the matter is designated for hearing, the Secretary shall notify all persons shown by the records to have communicated with the Commission regarding the merits of such matter in order that such persons will have an opportunity to appear and give evidence at such hearing. In the case of communications bearing more than one signature, notice shall be given to the person first signing unless the communication clearly indicates that such notice should be sent to someone other than such person.

(b) No such person shall be precluded from giving any relevant material and competent testimony at such hearing because he lacks a sufficient interest to justify his intervention as a party in the matter.

(c) No such communication will be considered by the Commission in determining the merits of any such matter, nor shall any such communication be considered by any hearing officer unless it has been introduced into evidence at the hearing and appears as a part of the record. The admissibility of any such communication or the Secretary's record of any such communication shall be governed by the applicable rules of evidence, and no such communication shall be admissible on the basis of a stipulation unless Commission's counsel as well as counsel for all of the parties shall join in such stipulation.

(d) Such communications, however, may be considered by the Commission if circumstances warrant in deciding whether or not a matter shall be set down for hearing in cases where in the absence of such communication no hearing would be required by the Commission.

§ 1.724 *Petitions to consolidate.* (a) The Commission, upon motion, or upon its own motion, will, where such action will best conduce to the proper dispatch of business and to the ends of justice, consolidate for hearing (1) any cases which involve the same applicant or arise from the same complaint or cause, or (2) any applications which by reason of the privileges, terms, or conditions requested present conflicting claims of the same nature.

(b) Any application that is mutually exclusive with another application or applications already designated for hearing will be consolidated for hearing with such other application or applications only if the application in question is filed at least 30 days before the date on which the hearing on the prior application or applications is scheduled: *Provided, however,* That in the case of applications for broadcast stations the said period shall be 60 days. If the scheduled date is changed, the date last set shall govern in determining the timeliness of an application for purposes of this paragraph.

§ 1.725 *Motions to enlarge or change the issues.* (a) Special rules governing motions to enlarge or change the issues in matters arising under title III of the Communications Act are set forth in § 1.389.

(b) In all other proceedings, motions to enlarge or change the issues may be filed by any party to a hearing.

§ 1.726 *Reconsideration or rehearing.* (a) Special rules relating to petitions for reconsideration or rehearing concerning matters arising under title III of the Communications Act are set forth in §§ 1.386 and 1.390.

(b) Rules governing petitions for rehearing in other cases are set forth in §§ 1.891–1.896.

(c) The Commission may on its own motion set aside any action made or taken by it within 30 days after public notice is given of such action.

§ 1.727 *Complaints.* (a) Special rules governing complaints as to matters arising under title II of the Communications Act are set forth in §§ 1.571–1.590.

(b) In other matters, formal petitions may be filed complaining of anything done, or omitted to be done, in contravention of provisions of law or of the Commission's rules and regulations. Upon the filing of such a petition the Commission will either make an investigation and issue a report or will deny the petition, setting forth the reasons therefor. Persons desiring to submit complaints by informal methods may do so. Such complaints may, in the Commission's discretion be investigated or otherwise acted upon in any manner the Commission may deem expedient; but such informal complaint shall not be deemed to be a formal complaint within the meaning of this part, irrespective of any action taken thereon by the Commission.

§ 1.728 *Declaratory rulings.* The Commission may in its discretion on motion or on its own motion issue a declaratory ruling terminating a controversy or removing uncertainty.

§ 1.729 *Adverse rulings on petitions.* (a) Whenever the Commission denies in whole or in part any petition, prompt notice thereof will be given. This notice will contain or be accompanied by a statement of the reasons for the Commission's action unless it is merely an affirmance of a prior denial where reasons were given or the reasons for the denial are self-evident.

(b) The requirements of this section shall apply only to formal petitions as defined in § 1.721.

§ 1.730 *Oppositions and replies to oppositions.* Except as otherwise provided, oppositions to petitions must be filed within 10 days after such petitions are filed with the Commission. Replies to such oppositions must be filed within 5 days after such oppositions are filed with the Commission. No other pleadings may be filed with the Commission unless (a) specifically requested by the Commission or (b) leave to file such additional pleadings has been granted by the Motions Commissioner upon a showing of good cause.

MOTIONS DOCKET

§ 1.741 *Action by Commission.* In cases designated for formal hearing, all motions, petitions and other pleadings requesting final disposition of any case on its merits, those having the nature of an appeal to the Commission, those changing the issues upon which the hearing was ordered, and those requesting change or modification of a final order made by the Commission, shall be acted upon by the Commission. All other motions, petitions and other pleadings shall be acted upon in accordance with §§ 1.742 to 1.750.

§ 1.742 *Action by Motions Commissioner or Commissioner designated to preside at a hearing.* In cases designated for formal hearing all motions, petitions and other pleadings, except those subject to Commission action under § 1.741, shall be acted upon by the Motions Commissioner or, if a Commissioner has been designated to hear the case, by such Commissioner. When such Commissioner is not available, the Motions Commissioner may act.

§ 1.743 *Action by Hearing Examiner.* (a) After a Hearing Examiner has been designated to preside at a hearing, all motions, petitions and other pleadings, except those described in paragraph (b) of this section, which would be acted upon by the Motions Commissioner in accordance with § 1.742, shall be acted upon by the Hearing Examiner. If the Hearing Examiner is not available, the Motions Commissioner may act.

(b) Petitions to intervene, to dismiss an application or proceeding, or any motion or petition filed after an initial decision is issued will be acted upon in accordance with the provisions of either §§ 1.741 or 1.742.

§ 1.744 *Motions calendar: Time of calling and place; continuances.* (a) There shall be a weekly Motions calendar consisting of two parts:

(1) Motions to be acted upon by the Motions Commissioner; and

(2) Motions to be acted upon by presiding officers.

(b) Each part of the motions calendar shall be called at the offices of the Commission at such times as the Motions Commissioner shall designate.

(c) The Motions Commissioner or Commissioner designated to preside at a hearing or a Hearing Examiner may continue any motion, petition or other pleading, and may upon notice, hear any motion at any time.

§ 1.745 *Time for filing motions.* Unless it is found that irreparable injury would be caused to one of the parties or the public interest so requires, no motion, petition, or other pleading shall be called, considered, or determined in the absence of consent by all parties unless it shall have been on file, accompanied by proof of service upon all parties, for a period of four days.

§ 1.746 *Oppositions.* Any party or the General Counsel of the Commission may file a pleading in opposition within the time specified in § 1.745 and may be heard thereon on the day designated for hearing of the motion, petition, or other pleading.

§ 1.747 *Procedure in Motions calendar.* Upon the request of any party or the General Counsel of the Commission, oral argument with respect to any contested matter on the Motions calendar may be heard before the Motions Commissioner, the Commissioner designated to preside at a hearing, or the Hearing Examiner. Failure of any party to request oral argument shall be deemed a waiver of his rights thereto; except that such request may be made after an opposition is filed by any other party. If oral argument is waived by any party, such motion or opposition shall be considered together with any pleadings or briefs which may be filed in support thereof. The waiving of oral argument by any party shall not preclude oral argument by any other party who makes timely request therefor. A motion duly served on all parties may be granted without oral argument if no opposition thereto has been timely filed, unless, in the discretion of the Motions Commissioner, the Commissioner designated to preside, or the Hearing Examiner, oral argument appears necessary prior to action, in which event, he may order such argument. If oral argument has not been requested by any party, the Motions Commissioner, the Commissioner designated to preside, or the Hearing Examiner may, in his discretion, order oral argument.

§ 1.748 *Number of copies.* Eight copies of each motion, petition, or opposition thereto shall be filed unless the subject matter requires consideration by the Commission en banc or a Board or Committee of Commissioners, in which event 15 copies shall be filed.

§ 1.749 *Rulings.* Each motion or petition shall be disposed of by written order of which public notice shall promptly be given. The order upon contested motions or petitions shall contain a brief statement of the reasons for the ruling therein, unless such order is self-explanatory, or is merely the affirmance of a prior denial in which reasons have been given.

§ 1.750 *Review of adverse ruling.* (a) Any interested party may obtain review by the Commission of an adverse ruling with respect to any petition or motion by (1) filing within two days a petition for review; or (2) by stating his exception on the record in the hearing and requesting that it be carried forward therein.

(b) Failure to make timely request for review or to state an exception on the record, shall be deemed a waiver of any right to review.

§ 1.751 *Limitation on length of pleadings in adjudicatory proceedings.* No pleading filed with the Commission or Motions Commissioner by any party to any adjudicatory proceeding which has been designated for hearing which relates to an appeal from an interlocutory ruling of an examiner, or the Motions Commissioner, or to matters covered by section 0.222 of the rules, or to petitions for reconsideration and grant without hearing of applications previously designated for hearing, will be accepted for filing if the pleadings exceed 15 double spaced typewritten pages: *Provided,* That parties may, in a separate pleading, request permission to file pleadings on matters covered by this section of more than 15 pages, which permission will be granted upon good cause shown. Such requests must be filed in the case of the petition for reconsideration and grant without hearing within ten days of the mailing of the notice of designation for hearing by the Commission, and in all other matters covered by this section, within two days of the ruling in question. The two-day requirement of § 1.750 shall be operative only after disposal of the request for permission to file a pleading exceeding the limit here specified.

SPECIFICATIONS AND SERVICE OF PLEADINGS AND OTHER PAPERS

§ 1.761 *Cross reference.* Rules governing applications and reports under title III of the Communications Act are contained in Subpart D of this part. Rules governing applications, reports and complaints under title II of the Communications Act are contained in Subpart E of this part.

§ 1.762 *Specifications as to pleadings and documents.* All pleadings and documents (except briefs) filed in any proceeding shall, unless otherwise specifically provided herein, be on paper either 8 by 10½ or 8½ by 13 or 14 inches, with left-hand margin not less than 1½ inches wide. This requirement shall not apply to original documents, or admissible copies thereof, offered as exhibits or to specially prepared exhibits. The impression shall be on one side of the paper only and shall be double-spaced, except that long quotations shall be single-spaced and indented. All papers, except charts and maps, shall be typewritten or prepared by mechanical processing methods, other than letterpress or printed. The foregoing shall not apply to official publications. All copies must be clearly legible.

§ 1.763 *Briefs.* Briefs may be printed, typewritten, mimeographed, or multigraphed. Printed briefs shall be in 10- or 12-point type, on good unglazed paper, 5⅞ inches wide by 9 inches long, with inside margin not less than 1½ inches wide, and with double-leaded text and single-leaded citations.

§ 1.764 *Number of copies.* Unless otherwise specifically provided, an original and 14 copies of all petitions, motions, pleadings, briefs and other documents required or permitted to be filed under these rules shall be furnished the Commission, and one extra copy for each party to the proceeding when service is made by the Commission.

§ 1.765 *Subscription and verification.* All petitions, motions, pleadings, briefs, and other documents filed by any party represented by an attorney, shall be signed by at least one attorney of record in his individual name, whose address shall be stated. A party who is not represented by an attorney shall sign and verify the document and state his address. Except when otherwise specifically provided by rule or statute, documents signed by the attorney for a party need not be verified or accompanied by affidavit. The signature of an attorney constitutes a certificate by him that he has read the document; that to the best of his knowledge, information, and belief there is good ground to support it; and that it is not interposed for delay. If a document is not signed or is signed with intent to defeat the purpose of this section, it may be stricken as sham and false and the matter may proceed as though the document had not been filed. For a willful violation of this rule an attorney may be subjected to appropriate disciplinary action. Similar action may be taken if scandalous or indecent matter is inserted.

§ 1.766 *Amendments to pleadings.* Any pleading may be amended as a matter of right if filed with the Commission not less than 30 days prior to the date set for hearing in the proceeding in which the pleading is filed. Thereafter, requests for leave to amend will be considered only upon written motion. Amendments, amended pleadings, or requests for leave to amend must be served upon all parties of record.

§ 1.767 *Service of documents and proof of service.* All pleadings, petitions, motions, briefs, or other documents filed in any proceeding shall be served by the party filing the same upon all parties of record, at or prior to the date fixed by these rules for the filing thereof, as follows:

(a) Service upon common carriers shall be made as provided in section 413 of the Communications Act of 1934, as amended.

(b) In all other cases whenever under the regulations in this part service is required or permitted to be made upon a party, and such party is represented by an attorney of record in the proceeding, the service shall be made upon the attorney. Service upon the attorney or upon a party shall be made by delivering a copy to him or by mailing it to him at his last-known address. Delivery of a copy within this rule means: handing it to the attorney or to the party; or leaving it at his office with his clerk or other person in charge thereof; or, if there is no one in charge, leaving it in a conspicuous place therein, or, if the office is closed or the person to be served has no office, leaving it at his dwelling house or usual place of abode with some person of suitable age and discretion then residing therein. Service by mail is complete upon mailing.

Proof of service as provided in the foregoing shall be made by appropriate certificate describing the service which shall be signed and attached to the original and copies of which shall be attached to all copies filed with the Commission. If service has been made by a delivery of a copy to the attorney, written acknowledgment thereof on the original filed will be considered proof of service; in such case an appropriate notation of such acknowledgment shall be made on all copies filed.

(c) Applications under title II of the Communications Act, which require service, and formal complaints, supplemental complaints, cross complaints, and amended complaints under title II will be served by the Commission. Service by the Commission upon common carriers shall be by leaving a copy of any document requiring service with the designated agent of such carrier at his office or usual place of residence in the District of Columbia, and if no such agent is designated, then service may be made by posting such notice, process, order, decision, or pleading in the office of the Secretary of the Commission.

§ 1.768 *Withdrawal of papers.* The granting of a request to dismiss or withdraw an application or a pleading does not authorize the removal of such application or pleading from the Commission's records. No application or other document once officially filed shall be returned unless the Commission shall, for good cause shown, order such return.

SUBPART G—RULES RELATING TO HEARINGS AND DECISIONS[1]

§ 1.801 *Informal hearings.* The Commission may upon petition by any person or upon its own motion hold such informal hearings as it may deem necessary from time to time in connection with the investigation of any matter which it has power to investigate under the law, or for the purpose of obtaining information necessary or helpful in the determination of its policies, the carrying out of its duties or the formulation or amendment of its rules and regulations. For such purposes it may subpena witnesses and require the production of testimony as in formal hearings but the procedure to be followed shall be such as in the opinion of the Commission will best serve the purposes of such hearing.

FORMAL HEARINGS

§ 1.802 *Official reporter; transcript.* The Commission will designate from time to time an official reporter for the taking down and transcribing of hearing proceedings. No transcript of the testimony taken, or argument had, at any hearing will be furnished by the Commission, but will be open to inspection under section 0.406 of the Statement of Organization, Delegations of Authority and Other Information. Copies of such transcript, if desired, may be obtained from the official reporter upon payment of the charges therefor.

§ 1.803 *Notice of hearing.* Reasonable notice of hearing will be given to all parties to a proceeding. Such notice shall include:

(a) A statement as to the time, place and nature of the hearing. If the time and place are not specified in the initial notice, the notice will indicate that the time and place will be designated by subsequent notice.

(b) A statement as to the legal authority and jurisdiction under which the hearing is to be held.

(c) A statement of the matters of fact and law involved.

CONTINUANCES AND PREHEARING CONFERENCES

§ 1.811 *Continuances and extensions.* Continuances of any proceeding or hearing and extensions of time for making any filing or performing any act required or allowed to be done within a specified time may be granted upon motion for good cause shown, unless the time for performance or filing is limited by statute.

§ 1.812 *Postponement or change of place.* The Commission or the presiding officer may recess or adjourn a hearing for such time as may be deemed necessary, and may change the place thereof.

§ 1.813 *Prehearing conferences.* (a) The Commission or the presiding officer on its or his initiative, or at the request of any party, may direct the parties or their attorneys to appear at a specified time and place for a conference prior to or during the course of a hearing, or to submit suggestions in writing, for the purpose of considering, among other things, the following matters:

(1) The necessity or desirability of simplification, clarification, amplification or limitation of the issues;

(2) The possibility of stipulating with respect to facts;

(3) The procedure at the hearing;

(4) The limitation of the number of witnesses;

(5) The necessity or desirability of prior mutual exchange between or among the parties of prepared testimony and exhibits;

(6) In cases arising under Title II of the act, the necessity or desirability of amending the pleadings and offers of settlement or proposals of adjustment.

(b) An official transcript of the conference shall be made and action taken at or on the basis of the conference, including agreements reached between the parties, shall be incorporated by the Hearing Examiner in an order issued as promptly as may be feasible subsequent to the conclusion of the conference. All agreements will be subject to such ruling as the Examiner may make upon appropriate objection and, to be effective, must be found to be acceptable and approved by the Hearing Examiner.

DEPOSITIONS

§ 1.821 *Depositions on notice—(a) Notice of examination: time and place.* A party to a hearing desiring to take the deposition of any person shall give reasonable notice in writing to every other party. The notice shall state the time and place for taking the deposition, the name and address of each person to be examined, if known, and if the name is not known, a general description suffi-

[1] See footnote to Subpart D.

cient to identify him or the particular class or group to which he belongs, and the matters with which the deposition will be concerned. On motion of any party upon whom the notice is served, the Commission may, for cause shown, enlarge or shorten the time.

(b) *Orders for the protection of parties and deponents.* After notice is served for taking a deposition, upon motion, seasonably made by any party or by the person to be examined, and upon notice and for good cause shown, the Commission may make an order that the deposition shall not be taken, or that it may be taken only at some designated place other than that stated in the notice, or that it may be taken only on written interrogatories, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the Commission; or that Commission may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression.

§ 1.822 *Persons before whom depositions may be taken.* (a) *Qualifications.* Depositions shall be taken before any judge of any court of the United States, or any United States commissioner, or any clerk of a district court, or any chancellor, justice or judge of a supreme or superior court, mayor or chief magistrate of a city, judge of a county court, or court of common pleas of any of the United States, or any notary public, not being of counsel or attorney to any party, nor interested in the event of the proceeding.

(b) *Record of examination; oath; objections.* The officer before whom the deposition is to be taken shall administer an oath or affirmation to the witness and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed, unless the parties agree otherwise. Any objection made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to such objection. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim.

§ 1.823 *Submission to witness; changes; signing.* When the testimony is fully transcribed the deposition of each witness shall be submitted to him for examination and shall be read to or by him. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless upon a motion to suppress the Commission holds that the reason given for the refusal to sign requires rejection of the deposition in whole or in part.

§ 1.824 *Certification and filing by officer; copies.* The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness, and that said officer is not of counsel or attorney to either of the parties, nor interested in the event of the proceeding or investigation. He shall then securely seal the deposition in an envelope endorsed with the title of the action and marked "Deposition of (here insert name of witness)" and shall promptly send the original and two copies thereof together with the original and two copies of all exhibits by registered mail to the Secretary of the Commission.

§ 1.825 *Inclusion in the record; objections.* (a) No deposition shall constitute a part of the record in any proceeding until received in evidence at a hearing. Except as provided in paragraphs (b) and (c) of this section, objection may be made at the hearing to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence, if the witness were then present and testifying.

(b) Objections to the competency of a witness, or to the competency, relevancy, or materiality of testimony are not waived by failure to make them before or during the taking of the deposition, unless the ground of the objection is one which might have been obviated or removed if presented at that time.

(c) Errors and irregularities occurring at the oral examination in the manner of taking the deposition, in the form of the questions or answers, in the oath, or affirmation, or in the conduct of parties and errors of any kind which might be obviated, removed, or cured if promptly presented, are waived unless seasonable objection thereto is made at the taking of the deposition.

§ 1.826 *Inclusion in record.* The deposition of a person with a substantial interest in or holding a position of responsibility with a party to the proceeding will not be admitted in evidence unless it is shown that the witness is dead or seriously ill, or that such exceptional circumstances exist, or that the testimony proferred is of such character that in the interest of justice and with due regard to the importance of presenting the testimony of the witnesses orally, the deposition should be admitted.

SUBPENAS

§ 1.831 *Who may sign and issue.* Subpenas requiring the attendance and testimony of witnesses, and subpenas requiring the production of any books, papers, schedules of charges, contracts, agreements, and documents relating to any matter under investigation or hearing may be signed and issued as follows:

(a) Hearings before the Commission en banc or before a Committee of Commissioners: By a Commissioner;

(b) Hearings before a presiding officer: By a Commissioner or by the presiding officer.

§ 1.832 *Requests; verification and content.* A subpena, other than one directed by the Commission on its own initiative, will be issued only upon request in writing, unless such request is made on the record while a hearing is in progress, in which case such request on the record may be accepted in lieu of written request. Any request for a subpena shall be supported by a showing of the general relevance and materiality of the evidence sought. A request for a subpena to compel a witness to produce documentary evidence shall be in writing, duly subscribed and verified, and shall specify with particularity the books, papers, and documents desired and the facts expected to be proved thereby. Such requests need not be served upon other parties to the hearing. Prompt notice, including a brief statement of the reasons therefor, will be given of the denial, in whole or in part, of a request for a subpena.

§ 1.833 *Witness fees.* Witnesses who are subpenaed and respond thereto are entitled to the same fees including mileage as are paid for like service in the courts of the United States. The party at whose instance the testimony is taken shall pay such fees at the time the subpena is served.

§ 1.834 *Service of subpenas; return.* (a) A subpena may be served by a United States marshal or his deputy or by any other person who is not a party and is not less than 18 years of age. Service of a subpena upon a person named therein shall be made by delivering a copy thereof to such person and by tendering to him the fees for one day's attendance and the mileage allowed by law. If the subpena is issued on behalf of the United States or an officer or agency thereof fees and mileage need not be tendered.

(b) If service of the subpena is made by a person other than a United States marshal or his deputy, such person shall make affidavit thereof, stating the date, time, and manner of service; and return such affidavit on, or with, the original subpena in accordance with the form thereon. In case of failure to make service the reasons for the failure shall be stated on the original subpena. In making service, the original subpena shall be exhibited to the person served, shall be read to him if he is unable to read, and a copy thereof shall be left with him. The original subpena, bearing or accompanied by the required return, affidavit, or statement, shall be returned forthwith to the Secretary of the Commission, or, if so directed on the subpena, to the official before whom the person named in the subpena is required to appear,

HEARINGS AND DECISIONS

§ 1.840 *Applicability.* Sections 1.843, 1.851 and 1.858 shall apply only to (a) cases which have been designated for hearing on or after December 11, 1946; (b) cases which were designated for hearing prior to December 11, 1946, and which after the record was closed were designated for further hearing on and after December 11, 1946, before a Commissioner or a Hearing Examiner appointed pursuant to the Administrative Procedure Act; and (c) cases designated for a hearing prior to December 11, 1946, if consolidated with a case designated for hearing on or after said date.

§ 1.841 *Exchange of exhibits and information; commencement of hearing procedure in cases involving broadcast applications for authority to construct broadcast facilities.* (a) Each applicant in a hearing upon broadcast applications for authority to construct broadcast facilities shall provide all parties to the hearing with a full set of exhibits to be offered in the hearing as the direct case of the said applicant. Such exchange of exhibits shall be made in accordance with such agreements and rulings as may result from the pre-hearing conference held pursuant to § 1.813, and unless otherwise directed by the Examiner, shall take place at least twenty days in advance of the date for commencement of the hearing. The exhibits required to be exchanged by this paragraph shall comprise the full direct case of the applicant, i. e., all data desired to be submitted by the applicant in connection with his qualifications and proposals.

(b) Oral testimony by an applicant or his witnesses in connection with his direct case will be limited to (1) such appropriate qualification and explanation as may be necessary of the applicant's exhibits and (2) testimony concerning any portion of the applicant's affirmative case in substitution of exhibits or portions thereof which are rejected by the Examiner on grounds of competency or form rather than for reasons of lack of materiality or relevance. Such substituted oral testimony, however, is to be limited to the scope of the rejected exhibit or portions thereof: *Provided, however,* That the provision of this paragraph shall not be construed to preclude or limit normal cross-examination, rebuttal testimony, or the submission of appropriate exhibits in connection therewith.

(c) Except for good cause found in advance by the presiding officer, in all broadcast hearings involving applications for authority to construct broadcast facilities, there shall be held prior to the exchange of exhibits pursuant to this section a pre-hearing conference,[a] in accordance with § 1.813, and a further conference following such exchange of exhibits. Unless otherwise ordered by the Examiner such further conference shall be held at least ten days prior to the date for the commencement of the hearing looking toward agreement on all matters relating to the conduct of the hearing and not already the subject of agreement. At this conference the Examiner and the parties, including Commission counsel, should be prepared to discuss (1) the possibility of agreements disposing of any evidentiary issues raised with respect to the exhibits previously exchanged between the parties; (2) the limitation on cumulative evidence; (3) number of witnesses and estimated length of testimony; (4) need for the use of depositions; and (5) any other matters which may aid the disposition of the hearing.

(d) The Hearing Examiner shall endeavor to issue an order at least five days prior to the date for commencement of hearing which recites the action taken at the further conference; the date for the hearing on the applicants' affirmative cases which, in the absence of special circumstances warranting greater delay, shall not be later than the date for commencement of the hearing specified by the Commission; agreements reached at the conference and any other matters relating to the subsequent course of the hearing. The orders issued by the Examiner as provided for herein shall control the course of the hearing unless modified by the Hearing Examiner for cause during the course of the hearing or by the Commission upon a review of the Hearing Examiner's ruling.

(e) Unless otherwise provided by agreement pursuant to § 1.813 (b), or by order of the Examiner in the light of the circumstances of a particular case, any party to a proceeding involving application for authority to construct broadcast facilities shall be entitled, upon written request therefor, to receive from any other party to the proceeding such detailed information relevant to the proposals of such other party as may reasonably and timely be requested, including information respecting the cost of station construction and operation, and including any material falling within the categories hereinafter specified:

(1) Background and experience.

(2) Integration of ownership and management.

(3) Past operation of broadcast stations.

(4) Programs.

(5) Studies and surveys.

(6) Studio, transmitter, and auxiliary broadcast equipment.

(7) Studio, office, and transmitter building facilities.

(8) Management and staffing plans.

[a] Such conferences involving applications for broadcast stations in comparative hearings may include matters such as: (1) Narrowing the issues or the areas of inquiry and proof at the hearing; (2) admissions of fact and of documents which will avoid unnecessary proof; (3) reports and letters relating to surveys or contacts; (4) assumptions regarding the availability of equipment; (5) network programming; (6) assumptions regarding the availability of networks proposed; (7) offers of letters in general; (8) the method of handling evidence relating to the past cooperation of existing stations owned and/or operated by the applicants with organizations in the area; (9) proof of contracts, agreements, or understandings reduced to writing; (10) stipulations; (11) need for depositions; (12) the numbering of exhibits; (13) the order of offer of proof with relationship to docket number; and (14) such other matters as will be conducive to an expeditious conduct of the hearing.

§ 1.842 *Order of procedure.* At hearings on a formal complaint or petition, or in a proceeding for any instrument of authorization which the Commission is empowered to issue, the complainant, petitioner, or applicant, as the case may be, shall open and close. At hearings on revocation or modification of a station license under section 312 of the act, on suspension of an operator's license under section 303 of the act, or other like proceedings instituted by the Commission, the Commission shall open and close. At all hearings under Title II of the act, other than hearings on formal complaints, petitions or applications, the respondent shall open and close unless otherwise specified by the Commission. In all other cases, the Commission or presiding officer shall designate the order of presentation. Intervenors shall follow the party in whose behalf intervention is made, and in all cases where the intervention is not in support of an original party, the Commission, or presiding officer, shall designate at what stage such intervenors shall be heard.

§ 1.843 *Designation of presiding officers.* (a) There shall be designated to preside at hearings one or more Commissioners, or a Hearing Examiner appointed pursuant to section 11 of the Administrative Procedure Act.

(b) So far as practicable, Hearing Examiners designated as presiding officers shall be assigned to cases in rotation, due consideration being given to the following factors: (1) The grade classification of the Hearing Examiner, (2) the nature of the case to be heard, (3) the specialized experience of the Hearing Examiner, and (4) the extent of the Hearing Examiner's workload.

(c) Unless the Commission determines that due and timely execution of its functions requires otherwise, presiding officers shall be so designated, and notice thereof made public, at least 10 days prior to the date set for hearing. In the event that a presiding officer deems himself disqualified and desires to withdraw from the case he shall notify the Commission of his withdrawal at least 7 days prior to the date set for hearing. Any party or the General Counsel of the Commission may request the presiding officer to withdraw on the grounds of personal bias or other disqualification. The person seeking disqualification shall file with the presiding officer an affidavit setting forth in detail the facts alleged to constitute grounds for disqualification, and the presiding officer may file a response thereto. Such affidavit shall be filed not later than 5 days before the commencement of the hearing, unless for good cause shown, additional time is necessary; but in no event later than the close of the first day of the hearing. If the presiding officer believes himself not disqualified he shall so rule and proceed with the hearing. If the person seeking disqualification excepts to the ruling, he shall so state at the time the ruling is made, and the presiding officer shall certify the question together with the affidavit and any response filed in connection therewith, to the Commission. The Commission may rule on the question without hearing or it may require testi-

mony or argument on the issues raised. The affidavit, response, testimony and decision thereon shall be part of the record in the case. Unless objection is made and exception is taken as required by this section, the right to request withdrawal of the presiding officer shall be deemed waived.

(d) If a presiding officer becomes unavailable to the Commission before the taking of testimony has been concluded, another presiding officer will be designated by order as provided in paragraph (a) of this section. If a presiding officer becomes unavailable to the Commission after the taking of testimony has been concluded, the record shall be certified by the Secretary to the Commission.

§ 1.844 *Authority of presiding officers.* Presiding officers, with respect to cases assigned to them, from the date of their designations until the submission of their decisions or the transfer of the cases to the Commission, and in addition to and in accordance with the authority elsewhere specified in the rules in this part, shall have authority to:

(a) Administer oaths and affirmations,

(b) Examine witnesses,

(c) Rule upon questions of evidence,

(d) Take or cause depositions to be taken,

(e) Regulate the course of the hearing, maintain discipline and decorum and exclude from the hearing any person found in contemptuous conduct,

(f) Require the filing of memoranda of law, and the presentation of oral argument with respect to any question of law upon which he is required to rule during the course of the hearing,

(g) Issue subpenas authorized by law,

(h) Hold conferences for the settlement or simplification of the issues by consent of the parties,

(i) Dispose of procedural requests or similar matters,

(j) Make decisions or recommended decisions in conformity with the Administrative Procedure Act.

§ 1.845 *Hearing before more than one person.* If more than one person is designated to preside at a hearing, the terms "presiding officer", "Commissioner designated to preside" or "Hearing Examiner" shall apply to all such persons, and authority to act shall be vested in a majority thereof, except as otherwise provided by order of the Commission.

§ 1.846 *Closing of the hearing.* The record of hearing shall be closed by an announcement to that effect, at the hearing, by the presiding officer when the taking of testimony has been concluded. In the discretion of the presiding officer, the record may be closed as of a future specified date in order to permit the admission into the record of exhibits to be prepared: *Provided,* The parties to the proceeding stipulate on the record that they waive the opportunity to cross-examine or present evidence with respect to such exhibits. The record in any hearing which has been adjourned may not be closed by such officer prior to the adjourned date except upon 10 days' notice to all parties to the proceeding and to the General Counsel of the Commission.

§ 1.847 *Certification of transcript.* After the close of the hearing the complete transcript of testimony, together with all exhibits, shall be certified as to identity by the presiding officer and filed in the office of the Secretary of the Commission. Notice of such certification shall be served on all parties to the proceedings.

§ 1.848 *Corrections to transcripts.* Within ten days after the date of notice of certification of the transcript, any party to the proceeding or the General Counsel may file with the presiding officer a motion requesting the correction of the transcript, which motion shall be accompanied by proof of service thereof upon all other parties to the proceedings. Within five days, other parties and the General Counsel may file a pleading in support of or in opposition to such motion. Thereafter, the presiding officer shall, by order, specify the corrections to be made in the transcript, and a copy of the order shall be served upon all parties and made a part of the record. The presiding officer, on his initiative, may specify corrections to be made in the transcript on 5 days' notice.

§ 1.849 *Proposed findings and conclusions.* (a) Each party to the proceeding and the General Counsel of the Commission may file proposed findings of fact and conclusions, briefs or memoranda of law: *Provided, however,* That the presiding officer may direct the filing of proposed findings of fact and conclusions, briefs or memoranda of law. Such proposed findings of fact, conclusions, briefs, and memoranda of law shall be filed within 20 days after the record is closed, unless additional time is allowed.

(b) All pleadings and other papers filed pursuant to this section shall be accompanied by proof of service thereof upon all the other counsel.

(c) In the absence of a showing of good cause therefor, the failure to file proposed findings of fact, conclusions, briefs, or memoranda of law, when directed to do so, may be deemed a waiver of the right to participate further in the proceeding.

§ 1.850 *Contents of findings of fact and conclusions.* Proposed findings of fact shall be set forth in serially numbered paragraphs and shall set out in detail and with particularity all basic evidentiary facts developed on the record (with appropriate citations to the transcript of record or exhibit relied on for each evidentiary fact) supporting the conclusions proposed by the party filing same. Proposed conclusions shall be separately stated. Proposed findings of fact and conclusions submitted by a person other than an applicant may be limited to those issues in connection with the hearing which affect the interests of such person.

§ 1.851 *Initial and recommended decisions.* (a) Except as provided in paragraph (b) of this section, the presiding officer shall prepare an "Initial Decision" which shall be transmitted to the Secretary of the Commission who shall make it public immediately and file it in the docket of the case.

(b) In the order designating the presiding officer, or by subsequent order, the Commission may direct that the record in any case be certified to it for initial decision. If a case is certified to the Commission for initial decision, the presiding officer shall first prepare a recommended decision which shall be transmitted to the Secretary and which shall be made public at the time of the issuance of the Commission's initial decision, except that if the case involves rule making or the determination of an application for an initial license, no recommended decision shall be prepared unless it is otherwise ordered by the Commission. If a presiding officer is not required to prepare an initial or a recommended decision, he shall, upon the completion of the testimony, transmit the record of the case to the Secretary.

(c) Each initial and recommended decision shall contain findings of fact and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law or discretion presented on the record; each initial decision shall also contain the appropriate rule or order, and the sanction, relief or denial thereof; and each recommended decision shall contain recommendations as to what disposition of the case should be made by the Commission. Each initial decision will show the date upon which it will become effective in accordance with the rules in this part in the absence of exceptions, appeal or review.

(d) The authority of the presiding officer over the proceedings shall cease when he has filed his initial or recommended decision, or, if it is a case in which he is to file no decision, when he has certified the case to the Commission for decision.

§ 1.852 *Waiver of initial or recommended decision.* At the conclusion of the hearing or within 20 days thereafter, all the parties to the proceeding and the General Counsel may agree to waive an initial or recommended decision, and may request that the Commission issue a final decision or order in the case. The Commission may, in its discretion, grant the request, in whole or in part, if such action will best conduce to the proper dispatch of business and to the ends of justice.

§ 1.853 *Appeal and review of initial decision.* (a) Within 20 days after the date on which public announcement of an initial decision is made, any of the parties or the General Counsel of the Commission may appeal to the Commission by filing exceptions to the initial decision and such decision shall not become effective and shall then be reviewed by the Commission, whether or not such exceptions may thereafter be withdrawn. The time for filing such exceptions may be extended for good cause shown.

(b) The Commission may on its initiative provide, by order adopted within 20 days after the time for filing exceptions expires, that an initial decision shall not become final, and that it shall be further reviewed or considered by the Commission.

(c) In any case in which an initial decision is subject to further review in accordance with paragraphs (a) or (b) of this section, the Commission may take any one or more of the following actions:

(1) Schedule the proceedings for oral argument;

(2) Require the filing of briefs;

(3) Prior to or after oral argument or the filing of briefs, reopen the record and remand the proceedings to the presiding officer to take further testimony or evidence;

(4) Prior to or after oral argument or the filing of briefs remand the proceedings to the presiding officer to make further findings or conclusions; and

(5) Prior to or after oral argument or the filing of briefs, issue a supplemental initial decision.

(d) No initial decision shall become effective before 40 days after public announcement thereof is made unless otherwise ordered by the Commission. The timely filing of exceptions or the further review or consideration of an initial decision on the Commission's initiative shall stay the effectiveness thereof until the Commission's review thereof has been completed. If the effective date of an initial decision falls within any further time allowed for the filing of exceptions it shall be postponed automatically until 20 days after time for filing exceptions has expired.

(e) If no exceptions are filed, and the Commission has not ordered the review of an initial decision on its initiative, the initial decision shall become effective, an appropriate notation to that effect shall be entered in the docket of the case and public notice thereof shall be given by the Commission. The provisions of § 1.726 (c) shall not be applicable with respect to this paragraph.

(f) When any party fails to file exceptions within the specified time to an initial decision which proposes to deny its application, such party shall be deemed to have no interest in further prosecution of its application, and its application may be dismissed with prejudice for failure to prosecute.

§ 1.854 *Exceptions; oral arguments.* (a) Each exception to an initial decision or to any part of the record or proceeding in any case, including rules upon motions or objections, shall point out with particularity alleged errors in the decision or ruling and shall contain specific references to the page or pages of the transcript of hearing, exhibit or order on which the exception is based. Any objection not saved by exception, filed pursuant to this section, is waived. The exceptions should be concise and they will not be accepted if they contain argumentative matters or discussions of law. Excerpts of testimony, as may be desired, must not be contained in the exceptions but they may be set forth in an appendix to a brief or memorandum of law filed in accordance with paragraph (c) of this section.

(b) Within the period of time allowed herein for the filing of exceptions any party or the General Counsel of the Commission, may file a statement in support of an initial decision in whole or in part, which shall be similar in form to a statement of exceptions.

(c) Exceptions or supporting statements may be accompanied by a separate brief or memorandum of law in support thereof, and may contain a request for oral argument before the Commission. Except by special permission such brief or memorandum of law will not be accepted if they exceed 50 double spaced typewritten pages in length. After the filing of exceptions to a decision, any other party or the Bureau Counsel, or the General Counsel of the Commission, as the case may be, may file a reply brief for which the same limitation in length applies and a request for oral argument, (1) within 10 days after expiration of the time for filing exceptions, or (2) within 10 days after all parties have filed exceptions whichever period expires earliest. A request by an exceptor for oral argument shall be made within the time allowed for filing exceptions except, if such request has not been so made and a reply brief is filed, an exceptor may request such argument within five days after the filing of the reply brief. If no request for oral argument is filed within the time allowed herein, the parties will be deemed to have waived the right to oral argument.

(d) Within 10 days after any party or the Bureau Counsel or the General Counsel, as the case may be, has filed a request for oral argument, notice of intention to appear and participate therein shall be filed by the other parties and the Bureau Counsel or General Counsel. If the Commission on its initiative designates an initial decision for oral argument, all parties who wish to participate, including the Bureau Counsel or the General Counsel shall, within 5 days thereafter, file written notice of intention to appear and participate in oral argument. Failure to file the written notice shall constitute a waiver of the right to participate in oral argument. The notice of hearing will contain the allotment of time for oral argument before the Commission for each party. The Commission will grant, in its discretion, upon good cause shown, an extension of such time upon petition by a party, which petition must be filed within 5 days after issuance of said notice of hearing.

(e) Within ten days after a transcript of oral argument has been filed in the office of the Secretary of the Commission, any party who participated in the oral argument, and the General Counsel, may file with the Commission a motion requesting correction of the transcript, which motion shall be accompanied by proof of service thereof upon all other parties who participated in the oral argument. Within five days other parties, and the General Counsel, may file a pleading in support of or in opposition to such motion. Thereafter, the Commissioner who presided at the oral argument shall, by order, specify the corrections to be made in the transcript, and a copy of the order shall be served upon all parties to the proceeding. The Commissioner who presided at the oral argument, on his own initiative, may specify corrections to be made in the transcript on five days' notice.

§ 1.855 *Limitation of matters to be reviewed.* Upon review of any initial decision, the Commission may, in its discretion, limit the issues to be reviewed to those findings and conclusions to which exceptions have been filed, or to those findings and conclusions specified in the Commission's order of review issued pursuant to § 1.853 (b).

§ 1.856 *Number of copies.* Fifteen copies of proposed findings of fact and conclusions, exceptions, supporting statements or briefs shall be filed.

§ 1.857 *Final decision of the Commission.* After opportunity has been afforded for the filing of proposed findings of fact and conclusions, exceptions, supporting statements, briefs and for the holding of oral argument as provided in the rules in this part, the Commission will issue a final decision in each case in which an initial decision has not otherwise become final. The final decision shall contain findings of fact and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law or discretion presented on the record; shall contain a ruling on each relevant and material exception filed and the appropriate rule or order and the sanction, relief or denial thereof.

§ 1.858 *Separation of functions.* (a) No hearing examiner shall consult any person or party on any fact in issue unless upon notice and opportunity for all parties to participate; nor shall such officer be responsible to or subject to the supervision or direction of any officer, employee or agent engaged in the performance of investigative or prosecuting functions for the Commission.

(b) Except as provided by section 5 of the Administrative Procedure Act, no officer, employee or agent engaged in the performance of investigative or prosecuting functions for the Commission in any case shall, in that or a factually related case, participate or advise in the decision, recommended decision or Commission review of any decision, except as a witness or counsel in public proceedings.

§ 1.859 *The record.* The transcript of testimony and exhibits, together with all papers and requests filed in the proceeding, shall constitute the exclusive record for decision.

EVIDENCE

§ 1.871 *Rules of evidence.* Except as otherwise provided in this subpart, the rules of evidence governing civil proceedings in matters not involving trial by jury in the courts of the United States shall govern formal hearings. Such rules may be relaxed if the ends of justice will be better served by so doing.

§ 1.872 *Cumulative evidence.* The introduction of cumulative evidence shall be avoided, and the number of witnesses that may be heard in behalf of a party on any issue may be limited.

§ 1.873 *Further evidence during hearing.* At any stage of a hearing, the presiding officer may call for further evidence upon any issue and may require such evidence to be submitted by any party to the proceeding.

§ 1.874 *Documents containing matter not material.* If material and relevant matter offered in evidence is embraced

in a document containing other matter not material or relevant, and not intended to be put in evidence, such document will not be received, but the party offering the same shall present to other counsel, and to the presiding officer, the original document, together with true copies of such material and relevant matter taken therefrom, as it is desired to introduce. Upon presentation of such matter in proper form, it may be received in evidence, and become a part of the record. Other counsel will be afforded an opportunity to introduce in evidence, in like manner, other portions of such document if found to be material and relevant.

§ 1.875 *Documents in foreign language.* Every document, exhibit, or other paper written in a language other than English, which shall be filed in any proceeding, or in response to any order, shall be filed in the language in which it is written together with an English translation thereof duly verified under oath to be a true translation. Each copy of every such document, exhibit, or other paper filed, shall be accompanied by a separate copy of the translation.

§ 1.876 *Copies of exhibits.* No document or exhibit, or part thereof shall be received as, or admitted in, evidence unless offered in duplicate. In addition, when exhibits of a documentary character are to be offered in evidence, copies shall be furnished to other counsel unless the presiding officer otherwise directs.

§ 1.877 *Mechanical reproductions as evidence.* Unless offered for the sole purpose of attempting to prove or demonstrate sound effect, mechanical or physical reproductions of sound waves shall not be admitted in evidence. Any party desiring to offer any matter alleged to be contained therein or thereupon shall have such matter typewritten on paper of the size prescribed by the rules of the Commission, and the same shall be identified and offered in duplicate in the same manner as other exhibits.

§ 1.878 *Tariffs as evidence.* In case any matter contained in a tariff schedule on file with the Commission is offered in evidence, such tariff schedule need not be produced or marked for identification, but the matter so offered shall be specified with particularity (tariff and page number) in such manner as to be readily identified, and may be received in evidence by reference subject to check with the original tariff schedules on file.

§ 1.879 *Proof of official record; authentication of copy.* An official record, or entry therein when admissible for any purpose, may be evidenced by an official publication thereof or by a copy attested by the officer having legal custody of the record, or by his deputy, and accompanied with a certificate that such officer has the custody. If the office in which the record is kept is within the United States or within a territory or insular possession subject to the dominion of the United States, the certificate may be made by the judge of a court of record of the district or political subdivision in which the record is kept, authenticated by the seal of the court, or may be made by any public officer having a seal of office having official duties in the district or political subdivision in which the record is kept, authenticated by the seal of his office. If the office in which the record is kept is in a foreign state or country, the certificate may be made by a secretary of embassy or legation, consul general, consul, vice consul, or consular agent or by any officer in the foreign service of the United States stationed in the foreign state or country in which the record is kept, and authenticated by the seal of his office.

§ 1.880 *Proof of lack of record.* The absence of an official record or entry of a specified tenor in an official record may be evidenced by a written statement signed by an officer, or by his deputy, who would have custody of the official record, if it existed, that after diligent search no record or entry of a specified tenor is found to exist in the records of his office accompanied by a certificate as provided in §1.879. Such statement and certificate are admissible as evidence that the records of his office contain no such record or entry.

§ 1.881 *Other proof of official record.* Sections 1.879 and 1.880 do not prevent the proof of official records or of entry or lack of entry therein by any method authorized by any applicable statute or by the rules of evidence at common law.

REHEARINGS

§ 1.891 *Cross reference.* Special rules relating to petition for reconsideration or rehearing concerning matters arising under Title III of the Communications Act are set forth in §§ 1.386 and 1.390.

§ 1.892 *Who may file.* A petition for rehearing may be filed by any party to the hearing. Any person not a party to the hearing desiring to file a petition for rehearing shall state his interest in the proceeding and show good reason why it was not possible for him to participate in the hearing.

§ 1.893 *Contents; relief requested.* (a) Petitions for rehearing shall state with particularity in what respect the decision, order, or requirement or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact shall specify the pages of record relied on. If the existence of newly discovered evidence is claimed, the petition shall be accompanied by a verified statement of the facts, together with the facts relied on to show that the petitioner, with due diligence, could not have known or discovered such facts at the time of the hearing.

(b) The petition for rehearing may request (1) reconsideration, either in cases decided after hearing or in cases of application granted without hearing under Title III of the act; (2) oral argument; (3) reopening of the proceeding; (4) amendment of any findings, or (5) other relief. Such petition shall be specific as to the form of relief sought and, subject to this requirement, may contain alternative requests.

§ 1.894 *Time for filing.* Petitions for rehearing shall be filed within 30 days after public notice is given of the order or action complained of.

§ 1.895 *Opposition.* An opposition to any petition for rehearing may be filed within 10 days after the filing of such petition.

§ 1.896 *Special calendar when granted.* In case any petition for rehearing is granted, whether the taking of additional testimony is ordered or otherwise, the case shall be placed upon a special calendar and consideration of the same shall be expedited.

APPENDIX 1—APPLICATIONS UNDER THE CABLE LANDING LICENSES ACT[1] AND EXECUTIVE ORDER NO. 10530

APPLICATIONS UNDER "AN ACT RELATING TO THE LANDING AND OPERATION OF SUBMARINE CABLES IN THE UNITED STATES"

These applications should be filed in duplicate with the Secretary of the Federal Communications Commission in accordance with the provisions of Executive Order No. 10530, dated May 10, 1954, and should contain the name and address of the applicant, the corporate structure and citizenship of officers if a corporation; description of submarine cable, including type and number of channels and capacity thereof; location of points on shore of United States and points in foreign countries where cable will land (including map); proposed use, need and desirability of the cable; and any other information as may be necessary to enable the Commission to act thereon. Each application or amendment thereto shall be personally subscribed and verified (or affirmed according to law): (1) By the party filing such application or amendment, or by one of the parties, if there be more than one; (2) by an officer of the party filing the application or amendment if the party be a corporation: *Provided, however,* That subscription and verification may be made by the attorney for the party (1) in case of physical disability of the party, or (2) his absence from the continental United States. If it be made by a person other than the party, he must set forth in the verification the grounds of his belief as to all matters not stated upon his knowledge and the reason why it is not made by the party. Only the original copy need be signed and verified; the copy may be conformed.

These applications are acted upon by the Federal Communications Commission after obtaining the approval of the Secretary of State and such assistance from any executive department or establishment of the Government as it may require. These applications are processed initially by the International Division of the Common Carrier Bureau, which makes a recommendation thereon to the Commission.

Original files relating to submarine cable landing licenses and applications for licenses since June 30, 1934, are kept by the Federal Communications Commission. Such applications for licenses (including all documents and exhibits filed with and made a part thereof, with the exception of any maps showing the exact location of the submarine cable or cables to be licensed) and the licenses issued pursuant thereto, with the exception of such maps, shall, unless otherwise ordered by the Commission, be open to public inspection in the offices of the Commission in Washington, D. C.

Original files relating to licenses and applications for licenses for the landing operation of cables prior to June 30, 1934, were kept by the Department of State and such files prior to 1930 have been transferred to the Executive and Foreign Affairs Branch of the General Records Office of the National Archives. Requests for inspection of these files should, however, be addressed to the Federal Communications Commission, Washington 25, D. C.; and the Commission will obtain such files for a temporary period in order to permit inspection at the offices of the Commission.

APPENDIX 2—A PLAN OF COOPERATIVE PROCEDURE IN MATTERS AND CASES UNDER THE PROVISIONS OF SECTION 410 OF THE COMMUNICATIONS ACT OF 1934

(Approved by the Federal Communications Commission October 25, 1938, and approved by the National Association of Railroad and Utilities Commissioners on November 17, 1938.)

PRELIMINARY STATEMENT CONCERNING THE PURPOSE AND EFFECT OF THE PLAN

Section 410 of the Communications Act of 1934 authorizes cooperation between the Federal Communications Commission, hereinafter called the Federal Commission, and the State commissions of the several States, in the administration of said act. Subsection (a) authorizes the reference of any matter arising in the administration of said act to a board to be composed of a member or members from each of the States in which the wire, or radio communication affected by or involved in the proceeding takes place, or is proposed. Subsection (b) authorizes conferences by the Federal Commission with State commissions regarding the relationship between rate structures, accounts, charges, practices, classifications, and regulations of carriers subject to the jurisdiction of such State commissions and of said Federal Commission and joint hearings with State commissions in connection with any matter with respect to which the Federal Commission is authorized to act.

Obviously, it is impossible to determine in advance what matters should be the subject of a conference, what matters should be referred to a board, and what matters should be heard at a joint hearing of State commissions and the Federal Commission. It is understood, therefore, that the Federal Commission or any State commission will freely suggest cooperation with respect to any proceedings or matter affecting any carrier subject to the jurisdiction of said Federal Commission and of a State commission, and concerning which it is believed that cooperation will be in the public interest.

To enable this to be done, whenever a proceeding shall be instituted before any commission, Federal or State, in which another commission is believed to be interested, notice should be promptly given each such interested commission by the commission before which the proceeding has been instituted. Inasmuch, however, as failure to give notice as contemplated by the provisions of this plan will sometimes occur purely through inadvertence, any such failure should not operate to deter any commission from suggesting that any such proceeding be made the subject matter of cooperative action, if cooperation therein is deemed desirable.

It is understood that each commission, whether or not represented in the National Association of Railroad and Utilities Commissioners, must determine its own course of action with respect to any proceeding in the light of the law under which, at any given time, it is called upon to act, and must be guided by its own views of public policy; and that no action taken by such Association can in any respect prejudice such freedom of action. The approval by the Association of this plan of cooperative procedure, which was jointly prepared by the Association's standing Committee on Cooperation between Federal and State commissions and said Federal Commission, is accordingly recommendatory only; but such plan is designed to be, and it is believed that it will be, a helpful step in the promotion of cooperative relations between the State commissions and said Federal Commission.

NOTICE OF INSTITUTION OF PROCEEDING

Whenever there shall be instituted before the Federal Commission any proceeding involving the rates of any telephone or telegraph carrier, the State commissions of the States affected thereby will be notified immediately thereof by the Federal Commission, and each notice given a State commission will advise such commission that, if it deems the proceeding one which should be considered under the cooperative provisions of the act, it should either directly or through the National Association of Railroad and Utilities Commissioners, notify the Federal Commission as to the nature of its interest in said matter and request a conference, the creation of a joint board, or a joint hearing as may be desired, indicating its preference and the reasons therefor. Upon receipt of such request the Federal Commission will consider the same and may confer with the commission, making the request and with other interested commissions, or with representatives of the National Association of Railroad and Utilities Commissioners, in such manner as may be most suitable; and if cooperation shall appear to be practicable and desirable, shall so advise each interested State commission, directly, when such cooperation will be by joint conference or by reference to a joint board appointed under said section 410 (a), and, as hereinafter provided, when such cooperation will be by a joint hearing under said section 410 (b).

Each State commission should in like manner notify the Federal Commission of any proceeding instituted before it involving the toll telephone rates or the telegraph rates of any carrier subject to the jurisdiction of the Federal Commission.

PROCEDURE GOVERNING JOINT CONFERENCES

The Federal Commission, in accordance with the indicated procedure, will confer with any State commission regarding any matter relating to the regulation of public utilities subject to the jurisdiction of either commission. The commission desiring a conference upon any such matter should notify the other without delay, and thereupon the Federal Commission will promptly arrange for a conference in which all interested State commissions will be invited to be present.

PROCEDURE GOVERNING MATTERS REFERRED TO A BOARD

Whenever the Federal Commission, either upon its own motion or upon the suggestion of a State commission, or at the request of any interested party, shall determine that it is desirable to refer a matter arising in the administration of the Communications Act of 1934 to a board to be composed of a member or members from the State or States affected or to be affected by such matter, the procedure shall be as follows:

The Federal Commission will send a request to each interested State commission to nominate a specified number of members to serve on such board.

The representation of each State concerned shall be equal, unless one or more of the States affected chooses to waive such right of equal representation. When the member or members of any board have been nominated and appointed, in accordance with the provisions of the Communications Act of 1934, the Federal Commission will make an order referring the particular matter to such board, and such order shall fix the time and place of hearing, define the force and effect the action of the board shall have, and the manner in which its proceedings shall be conducted. The rules of practice and procedure, as from time to time adopted or prescribed by the Federal Commission, shall govern such board, as far as applicable.

PROCEDURE GOVERNING JOINT HEARINGS

Whenever the Federal Commission, either upon its own motion or upon suggestions made by or on behalf of any interested State commission or commissions, shall determine that a joint hearing under said section 410 (b) is desirable in connection with any matter pending before said Federal Commission, the procedure shall be as follows:

(a) The Federal Commission will notify the general solicitor of the National Association of Railroad and Utilities Commissioners that said Association, or, if not more than eight States are within the territory affected by the proceeding, the State commissions interested, are invited to name Cooperating Commissioners to sit with the Federal Commission for the hearing and consideration of said proceeding.

(b) Upon receipt of any notice from said Federal Commission inviting cooperation, if not more than eight States are involved, the general solicitor shall at once advise the State commissions of said States, they being represented in the membership of the association, of the receipt of such notice, and shall request each such commission to give advice to him in writing, before a date to be indicated by him in his communication requesting such advice (1) whether such commission will cooperate in said proceeding, (2) if it will, by what commissioner it will be represented therein.

(c) Upon the basis of replies received, the general solicitor shall advise the Federal Commission what States, if any, are desirous of making the proceeding cooperative and by what commissioners they will be represented, and he shall give like advice to each State commission interested therein.

(d) If more than eight States are interested in the proceeding, because within territory for which rates will be under consideration therein, the general solicitor shall advise the president of the association that the association is invited to name a cooperating committee of State commissioners representing the States interested in said proceeding.

The president of the association shall thereupon advise the general solicitor in writing (1) whether the invitation is accepted on behalf of the association, and (2) the names of commissioners selected to sit as a cooperating committee. The president of the association shall have authority to accept or to decline said invitation for the association, and to determine the number of commissioners who shall be named on the cooperating committee, provided that his action shall be concurred in by the chairman of the association's executive committee. In the event of any failure of the president of the association and chairman of its executive committee to agree, the second vice president of the association (or the chairman of its committee on cooperation between State and Federal commissions, if there shall be no second vice president) shall be consulted, and the majority opinion of the three shall prevail. Consultations and expressions of opinion may be by mail or telegraph.

(e) If any proceeding, involving more than eight States, is pending before the Federal Commission, in which cooperation has not been invited by that Commission, which the association's president and the first and second vice presidents, or any two of them, consider should be made a cooperating proceeding, they may instruct the general solicitor to suggest to the Federal Commission that the proceeding be made a cooperative proceeding; and any State commission considering that said proceeding should be made cooperative may request the president of the association or the chairman of its executive committee to make such suggestion after consideration with the executive officers above named. If said Federal Commission shall assent to the suggestion, made as aforesaid, the president of the association shall have the same authority to proceed, and shall

proceed in the appointment of a cooperating committee, as is provided in other cases involving more than eight States, wherein the Federal Commission has invited cooperation, and the invitation has been accepted.

(f) Whenever any case is pending before the Federal Commission involving eight States or less, which a commission of any of said States considers should be made cooperative, such commission, either directly or through the general solicitor of the association, may suggest to the Federal Commission that the proceeding be made cooperative. If said Federal Commission accedes to such suggestion, it will notify the general solicitor of the association to that effect and thereupon the general solicitor shall proceed as is provided in such case when the invitation has been made by the Federal Commission without State commission suggestion.

APPOINTMENT OF COOPERATING COMMISSIONERS BY THE PRESIDENT

In the appointment of any cooperating committee, the president of the association shall make appointments only from commissions of the States interested in the particular proceeding in which the committee is to serve. He shall exercise his best judgment to select cooperating commissioners who are especially qualified to serve upon cooperating committees by reason of their ability and fitness; and in no case shall he appoint a commissioner upon a cooperating committee until he shall have been advised by such commissioner that it will be practicable for him to attend the hearings in the proceeding in which the committee is to serve, including the arguments therein, and the cooperative conferences, which may be held following the submission of the proceeding, to an extent that will reasonably enable him to be informed upon the issues in the proceeding and to form a reasonable judgment in the matters to be determined.

TENURE OF COOPERATORS

(a) No State commissioner shall sit in a cooperative proceeding under this plan except a commissioner who has been selected by his commission to represent it in a proceeding involving eight States or less, or has been selected by the president of the association to sit in a case involving more than eight States, in the manner hereinbefore provided.

(b) A commissioner who has been selected, as hereinbefore provided, to serve as a member of a cooperating committee in any proceeding, shall without further appointment, and without regard to the duration of time involved, continue to serve in said proceeding until the final disposition thereof, including hearings and conferences after any order or reopening, provided that he shall continue to be a State commissioner.

(c) No member of a cooperating committee shall have any right or authority to designate another commissioner to serve in his place at any hearing or conference in any proceeding in which he has been appointed to serve.

(d) Should a vacancy occur upon any cooperating committee, in a proceeding involving more than eight States, by reason of the death of any cooperating commissioner, or of his ceasing to be a State commissioner, or of other inability to serve, it shall be the duty of the president of the association to fill the vacancy by appointment, if, after communication with the chairman of the cooperating committee, it be deemed necessary to fill such vacancy.

(e) In the event of any such vacancy occurring upon a cooperating committee involving not more than eight States, the vacancy shall be filled by the commission from which the vacancy occurs.

COOPERATING COMMITTEE TO DETERMINE RESPECTING ANY REPORT OF STATEMENT OF ITS ATTITUDE

(a) Whenever a cooperating committee shall have concluded its work, or shall deem such course advisable, the committee shall consider whether it is necessary and desirable to make a report to the interested State commissions, and, if it shall determine to make a report, it shall cause the same to be distributed through the secretary of the association, or through the general solicitor to all interested commissions.

(b) If a report of the Federal Commission will accompany any order to be made in said proceeding, the Federal Commission will state therein the concurrence or nonconcurrence of said cooperating committee in the decision or order of said Federal Commission.

CONSTRUCTION HEREOF IN CERTAIN RESPECTS EXPRESSLY PROVIDED

It is understood and provided that no State or States shall be deprived of the right of participation and cooperation as hereinbefore provided because of nonmembership in the association. With respect to any such State or States, all negotiations herein specified to be carried on between the Federal Commission and any officer of such association shall be conducted by the Federal Commission directly with the chairman of the commission of such State or States.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

YELLOWSTONE NATIONAL PARK

Section 20.13 *Yellowstone National Park* is amended by the addition of paragraph (f) reading as follows:

(f) *Commercial automobiles and busses.* The prohibition against the admission of commercial automobiles and busses to Yellowstone National Park, contained in § 1.36 of this chapter, shall be subject to the following exceptions: Motor vehicles operated on a general, infrequent, and nonscheduled tour on which the visit to the park is an incident to such tour, carrying only round-trip passengers traveling from the point of origin of the tour, will be accorded admission to the park upon establishing to the satisfaction of the superintendent that the tour originated from such place and in such a manner as not to provide, in effect, a regular and duplicating service conflicting with, or in competition with, the services provided for the public at or outside of the park pursuant to contract authorization with the Secretary. Admission to the park will be accorded such motor vehicles upon payment of a special tour permit fee of $2.00 per passenger-carrying seat in the vehicle.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 6th day of December 1955.

[SEAL] CONRAD L. WIRTH, *Director, National Park Service.*

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 19]

CHEESES; PROCESS CHEESES; CHEESE FOODS; CHEESE SPREADS; AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

NOTICE OF PROPOSALS TO AMEND DEFINITIONS AND STANDARDS OF IDENTITY FOR CERTAIN CHEESES TO PERMIT BLEACHING OF MILK AND TO PERMIT ARTIFICIAL COLORING IN SWISS CHEESE

Notice is hereby given that a petition has been filed by the National Cheese Institute, 110 North Franklin Street, Chicago 6, Illinois, whose members include manufacturers of various cheeses, setting forth proposals to amend the definitions and standards of identity for swiss cheese, provolone cheese, caciocavallo siciliano cheese, parmesan cheese, romano cheese, and asiago fresh cheese to permit bleaching of milk, to require certain label statements as to use of bleached milk, and to permit harmless artificial coloring in swiss cheese.

Notice is also given that the Commissioner of Food and Drugs, pursuant to the authority delegated to him by the Secretary of Health, Education, and Welfare, proposes to amend the definitions and standards of identity for blue cheese and gorgonzola cheese to require label declarations as to use of bleached milk.

Pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, 68 Stat. 54; 21 U. S. C. 341), delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996), the Commissioner of Food and Drugs invites all interested persons to present their views in writing regarding the proposals published in this notice. Such views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, Health, Education, and Welfare Building, Washington 25, D. C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

A. The proposals of the National Cheese Institute are as follows:

1. It is proposed to amend § 19.540 *Swiss cheese, emmentaler cheese* • • • by adding thereto the following:

"Harmless artificial coloring may be added."

"Such milk may be bleached by the use of benzoyl peroxide or a mixture of benzoyl peroxide with potassium alum, calcium sulfate, and magnesium carbonate; but the weight of the benzoyl peroxide is not more than 0.002 percent of the weight of the milk bleached, and the weight of potassium alum, calcium sulfate, and magnesium carbonate, singly or combined, is not more than six times the weight of the benzoyl peroxide used. If the milk is bleached in this manner, vitamin A is added to the curd in such quantity as to compensate for the vitamin A or its precursors destroyed in the bleaching process, and artificial coloring is not used."

"If the milk used is bleached, the label shall bear the statement 'Milk bleached with _____,' the blank being filled in with the common or usual name of the bleaching agent used."

2. It is proposed to amend § 19.590 *Provolone cheese, pasta filata cheese* • • • by adding thereto the following:

"Such milk may be bleached by the use of benzoyl peroxide or a mixture of benzoyl peroxide with potassium alum, calcium sulfate, and magnesium carbonate; but the weight of the benzoyl peroxide is not more than 0.002 percent of the weight of the milk bleached, and the weight of the potassium alum, calcium sulfate, and magnesium carbonate, singly or combined, is not more than six times the weight of the benzoyl peroxide used. If the milk is bleached in this manner, vitamin A is added to the curd in such quantity as to compensate for the vitamin A or its precursors destroyed in the bleaching process, and artificial coloring is not used."

"If the milk used is bleached, the label shall bear the statement 'Milk bleached with _____,' the blank being filled in with the common or usual name of the bleaching agent used."

3. It is proposed to amend § 19.591 *Caciocavallo siciliano cheese* • • •, § 19.595 *Parmesan cheese, reggiano cheese* • • •, § 19.610 *Romano cheese* • • •, § 19.615 *Asiago fresh cheese, asiago soft cheese* • • • by adding thereto the statements quoted under the proposed amendment for provolone cheese, pasta filata cheese, stated in A 2 above.

B. The proposals of the Commissioner of Food and Drugs are as follows:

1. It is proposed to amend § 19.565 *Blue cheese* • • • by adding a new paragraph (d), reading as follows:

(d) (1) If the milk used is bleached, the label shall bear the statement "Milk bleached with benzoyl peroxide."

(2) Wherever the name of the food appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the statement specified in subparagraph (1) of this paragraph shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter.

2. It is proposed to amend § 19.567 *Gorgonzola cheese* • • • by adding thereto a new paragraph (d) reading as above under the proposed amendment B 1.

Dated: December 19, 1955.

[SEAL] GEO. P. LARRICK, *Commissioner of Food and Drugs.*

[F. R. Doc. 55-10298; Filed, Dec. 22, 1955; 8:48 a. m.]

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCE FOR RESIDUES OF THIRAM

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition has been filed by E. I. du Pont de Nemours and Company, Wilmington, Delaware, proposing the establishment of a tolerance of 3 parts per million for residues of thiram (tetramethylthiuram disulfide) in or on apples.

The analytical method proposed in the petition for determining residues of thiram is the method described by W. K. Lowen in "Determination of Dithiocarbamate Residues on Food Crops," published in Analytical Chemistry, Volume 23, page 1846 (1951), except that boiling with acid should be continued until no further carbon disulfide is evolved, rather than the 30 to 45 minutes prescribed for metallic dithiocarbamates.

Dated: December 16, 1955.

[SEAL] GEO. P. LARRICK, *Commissioner of Food and Drugs.*

[F. R. Doc. 55-10300; Filed, Dec. 22, 1955; 8:49 a. m.]

[21 CFR Part 130]

DRUGS EXEMPTED FROM PRESCRIPTION-DISPENSING REQUIREMENTS OF SECTION 503 (b) (1) (C) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

EXEMPTION FOR CERTAIN DRUGS LIMITED BY NEW-DRUG APPLICATIONS TO PRESCRIPTION SALE

Notice is given that the Commissioner of Food and Drugs, in accordance with the Federal Food, Drug, and Cosmetic Act (secs. 503 (b) (3), 505 (c), 701 (a); 65 Stat. 649, 52 Stat. 1052, 1055; 21 U. S. C. 353 (b) (3), 355 (c), 371 (a)) and the authority delegated to him by the Secretary of Health, Education, and Welfare (21 CFR 1.108 (c)) hereby offers an opportunity to all interested persons to submit their views in writing to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER on the proposed amendment set forth below:

It is proposed to amend paragraph (a) of § 130.1 *Exemption for certain drugs limited by new-drug applications to prescription sale* by adding the following new subparagraph (12):

(12) Hexadenol (a mixture of tetracosanes and their oxidation products) preparations meeting all the following conditions:

(i) The hexadenol is prepared and packaged, with or without other drugs solvents, and propellants, in a form suitable for self-medication by external application to the skin as a spray, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The hexadenol and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 5 percent by weight of hexadenol.

(v) The preparation is labeled with adequate directions for use by external application in the treatment of minor burns and minor skin irritations.

(vi) The labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Use on serious burns or skin conditions or prolonged use, except as directed by a physician.

(*b*) Spraying the preparation in the vicinity of eyes, mouth, nose, or ears.

The proposed amendment removes the drugs mentioned therein from the prescription-dispensing requirements of the Federal Food, Drug, and Cosmetic Act (sec. 503 (b) (1) (C), 52 Stat. 1052, 65 Stat. 648; 21 U. S. C. 353 (b) (1) (C)). These drugs were previously limited by new-drug application to use under professional supervision, because the scientific data establishing the toxic potential of the drugs and their intended uses showed that they were safe only if used under professional supervision.

Pursuant to the regulations in § 1.108 (c) of this chapter (21 CFR 1.108 (c)), petitions have been submitted to remove the prescription restrictions from these drugs. Evidence now available through investigation and marketing experience shows that the drugs can be safely used by the laity in self-medication if they are used in accordance with the proposed labeling. The restriction to prescription sale is no longer necessary for the protection of the public health.

This action in removing the prior restriction limiting these drugs to prescription sale is taken under the authority of the Federal Food, Drug, and Cosmetic Act (secs. 503 (b) (3), 505 (c), 52 Stat. 1052, 65 Stat. 649; 21 U. S. C. 353 (b) (3), 355 (c)) which provides for and requires the removal of such restrictions if they are not necessary for the protection of the public health.

Dated: December 19, 1955.

[SEAL] GEO. P. LARRICK, *Commissioner of Food and Drugs.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Eastern States Office Order 3]

MANAGER, RUSSELLVILLE, ARK.

DELEGATION OF AUTHORITY TO PERFORM CERTAIN FUNCTIONS

DECEMBER 19, 1955.

Pursuant to the authority contained in section 4.1 of Bureau Order No. 541 as amended and subject to the limitations contained therein, the Manager of the Bureau of Land Management Office at Russellville, Arkansas, is authorized to perform, in his geographical area of jurisdiction and in accordance with existing policies, regulations and procedures of this Bureau and under the direct supervision of the Supervisor, Eastern States Office, the functions of the Director, Bureau of Land Management, listed below unless specifically limited.

(a) *Cancellations or surrenders of contracts, leases and permits.* Make partial or complete cancellations or accept surrenders of contracts, leases, and permits.

(b) *Copies of records.* On matters in which he is authorized to act, the manager may take all actions on requests for copies of records.

(c) *Government contests.* Initiate Government contests against claims asserted to public lands.

(d) *Bonds.* Take all actions on bonds required in connection with matters pertaining to the lands or the resources thereof under his jurisdiction.

(e) *Trespass.* Determine liability and accept damages for trespass on the public lands, and dispose of resources recovered in trespass cases for not less than the appraised value thereof, under 43 CFR Part 288.

(f) *Classification of lands.* Classify public lands under section 7 of the Taylor Grazing Act of June 28, 1934, as amended (43 U. S. C. sec. 315f), or pursuant to other laws under 43 CFR, Part 296.

(g) *Grazing leases.* Grazing leases of public lands, under section 15 of the act of June 28, 1934, as amended (43 U. S. C. sec. 315m), and the permits or cooperative agreements to construct and maintain improvements on lands so leased, and to determine the value of such improvements.

(h) *Disposition of forest products.* Take all actions relating to the disposal of forest products when authorized by law, under 43 CFR Part 259. This authority shall not include the approval of any sale of timber in excess of 10,000,000 feet, board measure.

(i) *Color-of-title and riparian claims.* Take all actions relating to color-of-title and riparian claims, under 43 CFR Parts 140 and 141.

(j) *Homesteads.* Take all actions on homesteads pursuant to 43 CFR Parts 166 and 170.

(k) *Material other than forest products.* Take all actions relating to any sale or contract for the sale of material other than forest products, or the free use of materials other than forest products, under 43 CFR Part 259.

(l) *Public sales.* Take all actions on public sales pursuant to 43 CFR Part 250, and other sales of land by competitive bidding when authorized by law.

(m) *Small tracts.* Take all actions with respect to small tracts, under the act of June 1, 1938 (52 Stat. 609), as amended by the act of June 8, 1954 (68 Stat. 239; 43 U. S. C. 682a), under 43 CFR Part 257.

(n) *Special land-use permits.* Take all actions in issuing special land-use permits for public lands, pursuant to 43 CFR Part 258.

(o) *Timber and stone.* Take all actions on timber and stone entries pursuant to 43 CFR Part 285.

This order supersedes Eastern States Office Order No. 2, dated June 1, 1955, which is hereby revoked.

LUTHER T. HOFFMAN,
Supervisor,
Eastern States Office.

Approved: December 19, 1955.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

Bureau of Reclamation

AMERICAN RIVER DIVISION, CENTRAL VALLEY PROJECT, CALIFORNIA

ORDER OF REVOCATION

MARCH 16, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of February 19, 1952, insofar as said order affects the following described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 14 N., R. 9 E.,
Sec. 1, Lot 5, SW¼NW¼.

The above area aggregates 86.47 acres.

E. G. NIELSEN,
Assistant Commissioner.

[66480]

DECEMBER 19, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands are withdrawn for power purposes and are, therefore, not subject to the provisions of the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, granting preference rights to Veterans of World War II, the Korean Conflict, and others.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

FEDERAL POWER COMMISSION

[Docket No. G-6191]

ARROW DRILLING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 19, 1955.

Take notice that Arrow Drilling Company (Applicant), a Delaware corporation whose address is Philtower Building, Tulsa 3, Oklahoma, filed on November 29, 1954, an application for itself and as agent for Stewart Petroleum Company for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas produced from the Rhodessa Gas Field, Marion County, Texas, in interstate commerce to the Texas Eastern Transmission Corporation for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 13, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 6, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10292; Filed, Dec. 22, 1955; 8:47 a. m.]

[Docket No. G-9370]

JAY KORNFELD

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 19, 1955.

Take notice that Jay Kornfeld (Applicant), a sole proprietorship whose address is 623 Union National Bank Building, Wichita 1, Kansas, filed as operator on September 19, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the 640 acre Garden City No. 1 Unit, Hugoton Field, Finney County, Kansas, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 24, 1956 at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 4, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10293; Filed, Dec. 22, 1955; 8:47 a. m.]

[Docket No. G-9437]

NORTH CENTRAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 19, 1955.

Take notice that North Central Gas Company (Applicant), a Wyoming corporation with a principal office in Casper, Wyoming, filed an application on October 31, and supplements thereto on October 14, and November 1, 1955, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to acquire facilities by lease, by purchase, and to construct and operate facilities hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to (1) lease and operate approximately 40.35 miles of 12 and 16-inch pipeline extending from Scottsbluff, Nebraska, to Northport, Nebraska, constructed and operated by Service Pipe Line Company, sold to Fred Goodstein, a stockholder of Applicant, and now proposed to be leased by Applicant from said stockholder for $48,000 annual fee; (2) purchase and operate approximately 4,318 feet of 16-inch, 726 feet of 12-inch and 225 feet of 10-inch pipeline extending from a connection with Applicant's existing system at a point near Northport, Nebraska, northeasterly to the terminus of the 10-inch line; now owned by American Pipe and Supply Company for $15,038; and (3) construct and operate facilities consisting of piping, valves and fittings at Mitchell Regulator Station to connect Applicant's existing facilities with the leased line, 4,000 feet of 6-inch pipeline, meters, valves, new compressor cylinders and station piping to connect the leased line into Applicant's existing Scottsbluff, Nebraska, compressor station, and to increase the capacity of said station, 400 feet of 6-inch pipeline meters, valves and piping to connect the purchased line to Applicant's existing system at Northport, Nebraska, at an estimated cost of $46,450.

The application as supplemented recites that Applicant has the option to purchase the pipeline described in (1) above from Mr. Fred Goodstein for $150,000 within a 15-year period, at the end of which time it must purchase.

The application further recites the described facilities are required to take gas from the Northport-Huntsman area; that additional volumes of gas are necessary to enable it to meet its peak requirements in the Northport-Scottsbluff area during the coming winter; and that its proposal heretofore described is the most economic method available to enable it to meet such requirements.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 24, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January

13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-8581]

PETROLEUM, INC.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 19, 1955.

Take notice that Petroleum, Inc. (Applicant), a Kansas corporation whose address is 311 East Third Street, Wichita, Kansas, filed as operator on March 14, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the 640 acre Howell Gas Unit, 640 acre Heskamp Gas Unit, 640 McClure Gas Unit and the 640 acre Brown Gas Unit, Hugoton Field, Haskell County, Kansas, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 24, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 4, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9141]

MAGNA OIL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 19, 1955.

Take notice that Magna Oil Corporation (Applicant), a Delaware corporation whose address is 1610 Life of America Building, Dallas, Texas, filed as operator on July 18, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing applicant to render service as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the Belle Wisdom "A" Lease, Belle Wisdom Lease and Whittenburg Lease, Panhandle Field, Hutchinson County, Texas, to Phillips Petroleum Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 24, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 4, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 67]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.367 *Navel Orange Regulation 67*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on December 22, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., December 25, 1955, and ending at 12:01 a. m., P. s. t., January 1, 1956, is hereby fixed as follows:

(i) District 1: 646,800 cartons;

(ii) District 2: 68,508 cartons;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," and "District 4" have the same meaning as when used in said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit, or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 23, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 621]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.728 *Lemon Regulation 621*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 21, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 25, 1955, and ending at 12:01 a. m., P. s. t., January 1, 1956, is hereby fixed as follows:

(i) District 1: 32,550 cartons;

(ii) District 2: 158,100 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 22, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-10362; Filed, Dec. 23, 1955; 8:53 a. m.]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

AMENDMENT OF AMENDED ADMINISTRATIVE RULES AND PROCEDURES

Notice was published in the November 26, 1955, issue of the FEDERAL REGISTER (20 F. R. 8724) that the Secretary of Agriculture was considering a proposed rule to approve further amendments, submitted by the Prune Administrative Committee, of the amended administrative rules and procedures, issued pursuant to the applicable provisions of Marketing Agreement No. 110, as further amended, and Order No. 93, as further amended (19 F. R. 1301), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Said proposed further amendments related to §§ 993.150 (c) (1), 993.161 (a) (3), and 993.161 (b) (1), and the addition of a new § 993.176. In said notice, opportunity was afforded all interested persons to file written data, views, or arguments with respect thereto. No such written data, views, or arguments were filed, and the period provided therefor has now expired.

After consideration of all pertinent available information, it is concluded that the proposed amendments of the amended administrative rules and procedures as set forth in the aforesaid notice would tend to effectuate the declared policy of the act and should be approved.

Therefore, it is hereby ordered, That the aforesaid administrative rules and procedures (19 F. R. 5297, 6908; 20 F. R. 1240) be further amended as set forth below:

1. Amend the provisions of § 993.150 (c) (1) to read as follows:

§ 993.150 *Receiving and disposition of prunes by handlers during any crop year when the estimated seasonal average price is in excess of parity.* • • •

(c) *Reports of accounting*—(1) *Independent handler's reports of accounting.* Within 10 days (exclusive of Saturdays, Sundays and legal holidays) after a handler, other than a nonprofit cooperative agricultural marketing association, makes a size report, accounting, or settlement with a producer or dehydrator for prunes delivered to him, he shall submit to the committee a copy of the size report, and the accounting or settlement record, which shall contain the following information: (i) The names and addresses of the producer or dehydrator and the handler, and the date of size report, accounting, or settlement; (ii) the contract number, if any; (iii) an itemized statement of the total tenders of prunes in the delivery, showing the date, receiving point, weight certificate or door receipt number, inspection certificate number, net weight, variety, the crop year of production, and the total net weight of the delivery. In the event more than one producer or dehydrator has a financial interest in prunes shown on a size report, accounting, or settlement sheet required to be submitted hereunder, the handler shall include thereon the name and address of each person having such financial interest as shown by the handler's records.

2. Amend the provisions of § 993.161 (a) (3) to read as follows:

§ 993.161 *Surplus tonnage*—(a) *Reports.* • • •

(3) *Independent handler's reports of accounting.* Within 10 days (exclusive of Saturdays, Sundays and legal holidays) after a handler, other than a nonprofit cooperative agricultural marketing association, makes a size report, accounting, or settlement with a producer or dehydrator for prunes delivered to him, he shall submit to the committee a copy of the size report and the accounting or settlement record, which shall contain the following information: (i) The names and addresses of the producer or dehydrator and the handler, and the date of the size report, accounting, or settlement; (ii) the contract number, if any; (iii) an itemized statement of the total tenders of prunes in the delivery, showing the date, receiving point, weight certificate or door receipt number, inspection certificate number, net weight, variety, the crop year of production, and type of certification, and, if substandard, the average size count of a representative sample of the off-grade prunes in the tender, and if received on appraisal, the tonnage of prunes equivalent to the quantity of off-grade prunes necessary to be removed therefrom for the remainder to be standard prunes; and (iv) the total net weight of the delivery, itemized as to salable, surplus standard, and surplus substandard prunes, the net weight, by sizes, of the surplus standard prunes, and the net weight by classifications (edible and inedible), of the surplus substandard prunes as determined by inspection certificate data developed for the administration of the provisions of § 993.63 (f). In the event more than one producer or dehydrator has a financial interest in prunes shown on a size report, accounting, or settlement sheet required to be submitted hereunder, the handler shall include thereon the name and address of each person having such financial interest as shown by the handler's records.

3. Amend the provisions of § 993.161 (b) (1) to read as follows:

§ 993.161 *Surplus tonnage.* • • •

(b) *Holding in proper storage and delivery of surplus tonnage*—(1) *Provision in the event of failure to deliver in accordance with obligation.* In the event a handler fails to deliver to the committee the total surplus tonnage of any established grade or size group category in accordance with his obligation to so deliver, after any applicable tolerance allowances for shrinkage in weight, increase in the number of prunes per pound, and normal and natural deterioration and spoilage which may then be in effect have been applied, the handler shall make up any deficiency by delivering to the committee a quantity of prunes of his salable tonnage of the weight, grade, and size necessary to rectify such deficiency: *Provided,* That a handler may deliver prunes for disposition as animal feed, botanicals, or distillation without a requirement as to grade or its certification, if such prunes, on the basis of incoming inspection certificates or certificates of appraisal, as the case may be, were received as standard prunes. To the extent that a handler is unable to rectify such a deficiency with prunes of his salable tonnage he shall compensate the committee in the amount of the reduction of surplus tonnage revenue that is occasioned by his unfulfilled surplus tonnage obligation, such amount to be calculated on the basis of the average price received by the committee during the crop year for surplus tonnage prunes of the applicable grade or size category and of the specific grade and size involved plus costs to the committee caused by the handler's failure to meet his obligation: *Provided,* That the remedies herein provided shall

be in addition to and not exclusive of any of the remedies or penalties prescribed in the act with respect to the failure on the part of the handler to comply with the applicable provisions of the act or any part or subpart thereof.

4. Add a new § 993.176, immediately after existing § 993.175, reading as follows:

§ 993.176 *Records.* Each handler shall maintain such records as are necessary to furnish any report required to be submitted to the committee by him under this subpart, including, but not limited to, all records of prunes received, held and disposed of by him, and he shall retain such records for at least two years after the end of the crop year in which the applicable transaction occurred.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 20th day of December 1955, to be, and become, effective 30 days after the date of publication of this document in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

AMENDMENT OF SCHEDULE OF PAYMENTS TO HANDLERS TO COMPENSATE THEM FOR NECESSARY SERVICES IN CONNECTION WITH SURPLUS TONNAGE PRUNES

Notice was published in the November 26, 1955 issue of the FEDERAL REGISTER (20 F. R. 8724) that the Secretary of Agriculture was considering a rule to approve a further amendment of the amended schedule of payments, as set forth in such notice, to compensate handlers for necessary services rendered by them in connection with surplus tonnage prunes. The aforesaid amendment was submitted by the Prune Administrative Committee pursuant to the applicable provisions of Marketing Agreement No. 110, as further amended, and Order No. 93, as further amended (19 F. R. 1301), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). In said notice, opportunity was afforded all interested persons to file written data, views, or arguments with respect thereto. No such written data, views, or arguments were filed, and the period provided therefor has now expired.

After consideration of all pertinent available information, it is concluded that the aforementioned further amendment of the amended schedule of payments should be approved as set forth in the aforesaid notice of proposed rule making.

Therefore, it is hereby ordered, That the introductory portion of § 993.401 (b) (i. e., that portion which precedes subparagraph (1) of that section) is amended to read as follows:

(b) For surplus tonnage received by a handler from producers or dehydrators either as standard prunes or as standard prunes in appraisal lots, the handler so holding such prunes, who performs the necessary services thereon for the committee, shall be reimbursed, except as provided in paragraphs (c) and (e) of this section, at the rate of $18.00 per ton for the following service costs.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 20th day of December 1955, to be, and become, effective 30 days after the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter D—Multifamily and Group Housing Insurance

PART 232—MULTIFAMILY HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING MULTIFAMILY HOUSING

PART 241—COOPERATIVE HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS FOR PROJECT MORTGAGE

CERTIFICATE OF ACTUAL COST

1. Section 232.26 (b) is amended to read as follows:

§ 232.26 *Certificate of actual cost.*
* * *

(b) When the work has been completed under a contract as described in § 232.25 (b), the mortgagor's certification shall be on the form prescribed therefor by the Commissioner and shall indicate all amounts as required in paragraph (a) of this section, plus the allowance for the builder's fee as established by the Commissioner. This form of certification shall be accompanied by a certification by the builder on the form prescribed therefor by the Commissioner, indicating all actual costs paid for labor, materials, and subcontract work under the general contract exclusive of the builder's fee and less any kickbacks, rebates, trade discounts, or other similar payments to the builder or mortgagor corporation or any of its officers, directors, or stockholders. These certificates of actual cost shall be certified to by a Certified Public Accountant or a public accountant satisfactory to the Commissioner. The scope of audit and certification must be in a form satisfactory to the Commissioner and include a statement that the accounts have been examined in accordance with generally accepted auditing standards, to the extent deemed necessary to verify the actual costs as defined in section 227 of the National Housing Act. The mortgagor shall keep records as required in paragraph (a) of this section and shall in turn require the builder to keep available similar records.

2. In Section 232.31a paragraphs (c) and (h) are amended to read as follows:

§ 232.31a *Eligibility of mortgages on trailer courts or parks for trailer coach mobile dwellings.* * * *

(c) A mortgage on a trailer court or park is not subject to the provisions of § 232.4.

* * * * *

(h) At the time a mortgage is insured on a trailer court or park, the mortgagor shall have constructed and completed, or shall have rehabilitated and completed, pursuant to a commitment to insure upon completion, or shall be obligated to construct and complete, or to rehabilitate and complete pursuant to a commitment to insure advances, such court or park, consisting of a single project of not less than fifty spaces on one site, designed principally for rental use for trailers or mobile homes, and conforming to standards, specifications, plans and requirements satisfactory to the Commissioner.

* * * * *

3. Section 241.35 (b) is amended to read as follows:

§ 241.35 *Certificate of actual cost.*
* * *

(b) When the work has been completed under a contract as described in § 241.34 (b), the mortgagor's certification shall be on the form prescribed therefor by the Commissioner and shall indicate all amounts as required in paragraph (a) of this section, plus the allowance for the builder's fee as established by the Commissioner. This form of certification shall be accompanied by a certification by the builder on the form prescribed therefor by the Commissioner, indicating all actual costs paid for labor, materials, and subcontract work under the general contract exclusive of the builder's fee and less any kickbacks, rebates, trade discounts, or other similar payments to the builder or mortgagor corporation or any of its officers, directors, or stockholders. These certificates of actual cost shall be certified to by a Certified Public Accountant or a public accountant satisfactory to the Commissioner. The scope of audit and certification must be in a form satisfactory to the Commissioner and include a statement that the accounts have been examined in accordance with generally accepted auditing standards, to the extent deemed necessary to verify the actual costs, as defined in section 227 of the National Housing Act. The mortgagor shall keep records as required in paragraph (a) of this section and shall in turn require the builder to keep available similar records.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b)

Issued at Washington, D. C., December 20, 1955.

[SEAL] NORMAN P. MASON, *Federal Housing Commissioner.*

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 779—RETAIL OR SERVICE ESTABLISHMENT AND RELATED EXEMPTIONS

APPLICATION OF CERTAIN EXEMPTIONS TO ICE MANUFACTURERS AND ICE DEALERS

On October 26, 1955 notice was published in the FEDERAL REGISTER (20 F. R. 8051) that the Administrator of the Wage and Hour Division, United States Department of Labor, proposed to amend Interpretative Bulletin, Part 779 by the addition of a new section applicable to ice manufacturers and ice dealers. Interested persons were given 30 days to submit for consideration, data, views or arguments pertaining to the proposed amendment. No objections have been received.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.) Interpretative Bulletin, Part 779 (29 CFR, Part 779), is amended by the addition of § 779.32 to read as follows:

§ 779.32 *Application of the 13 (a) (2) and 13 (a) (4) exemptions to ice manufacturers and ice dealers.* (a) It is the purpose of this section to show generally how the principles governing the application of the 13 (a) (2) and 13 (a) (4) exemptions apply to establishments engaged in selling ice, including those establishments which make the ice they sell.

(b) In applying the tests of the 13 (a) (2) exemption, all sales of ice will be regarded as retail except:

(1) Sales for resale.

(2) Sales of ice for icing railroad cars and for icing cargo trucks. However, sales of ice for the re-icing of cargo trucks are recognized as retail if such sales do not fall into the nonretail categories described in subparagraph (4) or (5) of this paragraph.

(3) Sales of ice in railroad car lots.

(4) Sales of ice of a ton or more.

(5) Sales of ice at a price comparable to that charged by the establishment to dealers or, if no sales are made to dealers by the establishment, at a price comparable to or lower than the prevailing price to dealers in the area.

(c) If 50 percent or more of the establishment's annual dollar volume of sales of goods or services is made within the state in which the establishment is located and if 75 percent or more of the annual dollar volume of sales of the establishment consists of sales which are not for resale and are recognized as retail, the exemption under section 13 (a) (2) will apply to all employees employed by the establishment except those employees who are engaged in the making or processing of ice or other goods. In order for employees engaged in making or processing of ice to be exempt, the establishment must meet all of the following tests of the exemption under section 13 (a) (4):

(1) The establishment must qualify as an exempt retail establishment under section 13 (a) (2), as explained above.

(2) More than 85 percent of the establishment's annual dollar volume of sales of the ice which it makes or processes must be made within the state in which the establishment is located.

(3) The ice which the establishment makes or processes must be made or processed at the establishment which sells it.

(4) The establishment must be recognized as a retail establishment in the particular industry.

(d) With respect to the application of the requirement in subparagraph (4) of this paragraph, the legislative history indicates that ice plants are among the establishments which may qualify as retail establishments under the 13 (a) (4) exemption. It appears that all ice plants are manufacturing establishments of the same general type, permitting no separate classifications with respect to recognition as retail establishments. Any ice plant which meets the test of section 13 (a) (2) will, therefore, be considered to be recognized as a retail establishment in the industry under this requirement.

(e) There are some ice plants which meet the 13 (a) (2) exemption tests, but do not qualify under section 13 (a) (4) because they are unable to meet the tests listed in subparagraphs (c) (2) or (c) (3) of this section. In such establishments, there may be some employees whose duties relate to both the sales portion of the business and the making or processing of ice. These employees will not qualify for exemption. However, in such establishments, there may be some employees who work primarily for the sales portion of the business and also perform incidental clerical, custodial, or messenger service for the manufacturing operation. For example, office workers may keep records of both the manufacturing activities and of the retail sales department, maintenance workers may clean up in both parts of the establishment, and messengers may perform services for both activities. If these employees spend relatively little time in the work related to the ice manufacturing portion of the business, they will not, as an enforcement policy, be regarded as engaged in the making or processing of ice. Such an auxiliary employee will thus be exempt under section 13 (a) (2) in any workweek in which an insubstantial amount of his time (20 percent or less) is allocable to the clerical, messenger, or custodial work of the ice manufacturing operations.

This amendment shall become effective January 23, 1956.

(52 Stat. 1060, as amended; 29 U. S. C. 201-219)

Signed at Washington, D. C., this 21st day of December 1955.

NEWELL BROWN, *Administrator, Wage and Hour Division, United States Department of Labor.*

[F. R. Doc. 55-10341; Filed, Dec. 23, 1955; 8:51 a. m.]

PART 785—HOURS WORKED

Sec.
785.0 Introductory statement.
785.1 The principles for determining hours worked.
785.2 Statutory exceptions.
785.3 Application of the principles.
785.4 Recording working time.
785.5 Applicable statutory provisions.
Appendix.

AUTHORITY: §§ 785.0 to 785.5 issued under 52 Stat. 1060, as amended; 29 U. S. C. 201-219.

§ 785.0 *Introductory statement.* (a) The Fair Labor Standards Act[1] requires that each employee, not specifically exempted, who is engaged in interstate commerce or in the production of goods for such commerce, receive the statutory minimum wage.[2] It also provides that no such employee may be employed for more than 40 hours a week without receiving at least time and one-half of his regular rate of pay for the overtime hours. The amount of money an employee should receive cannot be determined without knowing the number of hours he has worked. This part discusses the principles involved in determining what constitutes working time. It also seeks to apply these principles to situations that frequently arise. It cannot include every possible situation. No inference should be drawn from the fact that a subject or an illustration is omitted. If doubt arises inquiries should be sent to the Administrator of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington 25, D. C., or to any Regional Office of the Divisions. A list of such offices is contained in the appendix to this part.

(b) The ultimate decisions on interpretations of the act are made by the courts. The Administrator must determine in the first instance the positions he will take in the enforcement of the act. This bulletin seeks to inform the public of such positions. It should thus provide a "practical guide for employers and employees as to how the office representing the public interest in its enforcement will seek to apply it."[3]

(c) These interpretations will remain in effect until they are rescinded, modified or withdrawn. This will be done when and if the Administrator concludes upon re-examination, or in the light of judicial decision, that a particular interpretation, ruling or enforcement policy is incorrect or unwarranted. All other rulings, interpretations or enforcement policies inconsistent with any portion of this part are superseded by it. The Portal-to-Portal Bulletin[4] is still in effect except insofar as it may not be consistent with any portion hereof. The applicable statutory provisions are set forth in § 785.5.

(d) The principles set forth in this part are also followed by the Adminis-

---

[2] The minimum wage is 75 cents an hour but becomes $1.00 an hour on March 1, 1956.

[3] Skidmore v. Swift, 323 U. S. 134, 138.

[4] General Statement as to the Effect of the Portal-to-Portal Act of 1947 on the Fair Labor Standards Act of 1938, 29 CFR, 790.

trator of the Wage and Hour and Public Contracts Divisions in determining hours worked by employees performing work subject to the provisions of the Walsh-Healey Public Contracts Act.[5]

§ 785.1 *The principles for determining hours worked.* (a) Section 6 requires the payment of the minimum wage by an employer to his employees who are subject to the act. Section 7 prohibits their employment for more than 40 hours without proper overtime compensation.

(b) By statutory definition the term "employ" includes (section 3 (g)) "to suffer or permit to work". The act, however, contains no definition of "work".[6]

(c) The United States Supreme Court originally stated that employees subject to the act must be paid for all time spent in "physical or mental exertion (whether burdensome or not) controlled or required by the employer and pursued necessarily and primarily for the benefit of the employer or his business." [7] Subsequently, the Court ruled that there need be no exertion at all and that all hours are hours worked which the employee is required to give to his employer, that "an employer, if he chooses, may hire a man to do nothing, or to do nothing but wait for something to happen. Refraining from other activity often is a factor of instant readiness to serve, and idleness plays a part in all employments in a stand-by capacity. Readiness to serve may be hired, quite as much as service itself, and time spent lying in wait for threats to the safety of the employer's property may be treated by the parties as a benefit to the employer." [8] The workweek ordinarily includes "all time during which an employee is required to be on duty or on the employer's premises, or at a prescribed work place." [9]

(d) The principles are applicable even though there may be a custom, contract or agreement not to pay for the time so spent, with certain special statutory exceptions discussed in §§ 785.2 and 785.3.[10]

§ 785.2 *Statutory exceptions.* There are certain statutory exceptions to the rules stated in § 785.1. The Portal-to-Portal Act eliminates from working time certain travel and walking time and other similar "preliminary" and "postliminary" activities performed "prior" or "subsequent" to the "workday" that are not made compensable by contract, custom or practice.[11] Section 3 (o) of the Fair Labor Standards Act excludes certain time spent at the beginning or end of the workday in washing up or changing clothes, if these activities are excluded from measured working time by the provisions of, or by custom or practice under, a bona fide collective bargaining agreement applicable to the particular employee.

§ 785.3 *Application of the principles.* This part applies the rules to some of the problems which arise frequently.

(a) *Employees "suffered or permitted" to work.* (1) Work not requested but suffered or permitted is work time.[12] For example, an employee may voluntarily continue to work at the end of the shift. He may be a pieceworker, he may desire to finish an assigned task or he may wish to correct errors, paste work tickets, prepare time reports or other records. The reason is immaterial. The employer knows or has reason to believe that he is continuing to work and the time is working time.

(2) The rule is also applicable to work performed away from the premises or the job site, or even at home. If the employer knows or has reason to believe that the work is being performed he must count the time as hours worked.

(3) In all such cases it is the duty of management to exercise its control and see that the work is not performed, if it does not want it to be performed. It cannot sit back and accept the benefits without compensating for them. The mere promulgation of a rule against such work is not enough. Management has the power to enforce the rule and must make every effort to do so.

(b) *Waiting time.* Whether waiting time is time worked under the act depends upon the particular circumstances. The determination involves "scrutiny and construction of the agreements between particular parties, appraisal of their practical construction of the working agreement by conduct, consideration of the nature of the service, and its relation to the waiting time, and all of the circumstances. Facts may show that the employee was engaged to wait, or they may show that he waited to be engaged." [13] Such questions "must be determined in accordance with common sense and the general concept of work or employment." [14]

(1) *Waiting while on duty.* A stenographer who reads a book while waiting for dictation, a messenger who works a crossword puzzle while awaiting assignments, a fireman who plays checkers while waiting for alarms and a factory worker who talks to his fellow employees while waiting for machinery to be repaired are all working during their periods of inactivity. The rule also applies to employees who work away from the plant. For example, a repair man is working while he waits for his employer's customer to get the premises in readiness. The time is worktime even though the employee is allowed to leave the premises or the job site during such periods of inactivity. The periods during which these occur are unpredictable. They are usually of short duration. In either event the employee is unable to use the time effectively for his own purposes. It belongs to and is controlled by the employer. In all of these cases waiting is an integral part of the job. The employee is engaged to wait.[15]

(2) *Waiting time off duty.* (i) Periods during which an employee is completely relieved from duty and which are long enough to enable him to use the time effectively for his own purposes are not hours worked. He is not completely relieved from duty and cannot use the time effectively for his own purposes unless he is definitely told in advance that he may leave the job and that he will not have to commence work until a definitely specified hour has arrived.

(ii) Whether the time is long enough to enable him to use the time effectively for his own purposes depends upon all of the facts and circumstances of the case.

(iii) A truck driver who has to wait at or near the job site for goods to be loaded is working during the loading period. If the driver reaches his destination and while awaiting the return trip is required to take care of his employer's property he is also working while waiting. In both cases the employee is engaged to wait.[16] Waiting is an integral part of the job. On the other hand, for example, if the truck driver is sent from Washington, D. C. to New York City, leaving at 6:00 a. m. and arriving at 12:00 noon, and is completely and specifically relieved from all duty until 6:00 p. m. when he again goes on duty for the return trip, the idle time is not working time. He is waiting to be engaged.[17]

(3) *On-call time.* An employee who is required to remain on call on the employer's premises or so close thereto that he cannot use the time effectively for his own purposes is working while "on call".[18] An employee who is not required to remain on the employer's premises but is merely required to leave word at his home or with company officials where he may be reached is not working while on call.

(c) *Rest periods.* Rest periods of short duration, running from 5 minutes to about 20 minutes, are common in industry. They promote the efficiency of the employee and are customarily paid for as working time. They must be counted as hours worked.[19]

(d) *Meal periods.* (1) Bona fide meal periods are not work time. Bona fide meal periods do not include coffee breaks or time for snacks. These are rest periods. The employee must be completely relieved from duty for the purposes of eating regular meals. Ordinarily thirty minutes or more is long enough for a bona fide meal period. A shorter period may be long enough under special conditions. The employee is not relieved if he is required to perform any duties, whether active or inactive, while eating.[20] For example, an office employee who is required to eat at his desk or a factory worker who is required to be at his machine is working while eating.

(2) It is not necessary that an employee be permitted to leave the premises if he is otherwise completely freed from duties during his meal period.

(e) *Sleeping time and certain other activities.* Under certain conditions an employee is considered to be working even though some of his time is spent in sleeping or in certain other activities.

(1) *Less than 24-hour duty.* (i) An employee who is required to be on duty for less than 24 hours is working even though he is permitted to sleep or engage in other personal activities when not busy.[21]

(ii) A telephone operator, for example, who is required to be on duty for specified hours is working even though she is permitted to sleep when not busy answering calls. It makes no difference that she is furnished facilities for sleeping. Her time is given to her employer. She is required to be on duty and the time is work time.

(2) *Duty of 24 hours or more.* (i) Where an employee is required to be on duty for 24 hours or more the employer and employee may agree [22] to exclude bona fide meal periods and a bona fide regularly scheduled sleeping period of not more than eight hours from hours worked provided adequate sleeping facilities are furnished by the employer and the employee can usually enjoy an uninterrupted night's sleep.[23] If the sleeping period is interrupted by a call to duty the interruption must be counted as hours worked.

(ii) If the period is interrupted to such an extent that the employee cannot get a reasonable night's sleep, the entire period must be counted.[24] For enforcement purposes, the Divisions have adopted the rule that if the employee cannot get at least five hours' sleep during the scheduled period the entire time is working time.

(3) *Employees residing on employer's premises or working at home.* An employee who resides on his employer's premises on a permanent basis or for extended periods of time is not considered as working all the time he is on the premises. Ordinarily, he may engage in normal private pursuits and thus have enough time for eating, sleeping, entertaining, and other periods of complete freedom from all duties when he may leave the premises for purposes of his own. It is of course difficult to determine the exact hours worked under these circumstances and any reasonable agreement of the parties which takes into consideration all of the pertinent facts will be accepted. This rule would apply, for example, to the pumper of a stripper well who resides on the premises of his employer and also to a telephone operator who has the switchboard in her own home.[25]

(f) *Preparatory and concluding activities.* (1) In November 1947 the Administrator issued the Portal-to-Portal Bulletin. In dealing with this subject the Bulletin 29 CFR 790.8 (b) and (c) said:

> (b) The term "principal activities" includes all activities which are an integral part of a principal activity. Two examples of what is meant by an integral part of a principal activity are found in the Report of the Judiciary Committee of the Senate on the Portal-to-Portal bill. They are the following:
>
> (1) In connection with the operation of a lathe an employee will frequently, at the commencement of his workday, oil, grease, or clean his machine, or install a new cutting tool. Such activities are an integral part of the principal activity, and are included within such term.
>
> (2) In the case of a garment worker in a textile mill, who is required to report 30 minutes before other employees report to commence their principal activities, and who during such 30 minutes distributes clothing or parts of clothing at the workbenches of other employees and gets machines in readiness for operation by other employees, such activities are among the principal activities of such employee.
>
> "Such preparatory activities, which the Administrator has always regarded as work and as compensable under the Fair Labor Standards Act, remain so under the Portal Act, regardless of contrary custom or contract.
>
> (c) Among the activities included as an integral part of a principal activity are those closely related activities which are indispensable to its performance. If an employee in a chemical plant, for example, cannot perform his principal activities without putting on certain clothes, changing clothes on the employer's premises at the beginning and end of the workday would be an integral part of the employee's principal activity. On the other hand, if changing clothes is merely a convenience to the employee and not directly related to his principal activities, it would be considered as a "preliminary" or "postliminary" activity rather than a principal part of the activity. However, activities such as checking in and out and waiting in line to do so would not ordinarily be regarded as integral parts of the principal activity or activities.

(2) These principles have guided the Administrator in the enforcement of the act. Their application has been challenged in two cases which are now pending before the Supreme Court of the United States. In one case employees changed their clothes and took showers in a battery plant where the manufacturing process involved the extensive use of caustic and toxic materials which made the changing of clothes and

---

[5] See Rulings and Interpretations No. 3, Walsh-Healey Public Contracts Act, section 43.

[6] Section 3 (o) of the Fair Labor Standards Act contains a partial definition of "hours worked" in the form of a limited exception for clothes-changing and wash up time.

[7] Tennessee Coal, Iron & Railroad Co. v. Muscoda Local, 321 U. S. 590.

[8] Armour & Co. v. Wantock, 323 U. S. 126; Skidmore v. Swift, 329 U. S. 134.

[9] Anderson v. Mt. Clemens Pottery Co., 328 U. S. 680. The Portal-to-Portal Act did not change the rule except to provide an exception for preliminary and postliminary activities. See § 785.2.

[10] Cf. Portal-to-Portal Bulletin, 29 CFR 790, for special provisions relating to travel or walking and other similar "preliminary" and "postliminary" activities.

[11] 29 U. S. C. 251–262. It should be noted that "preliminary" and "postliminary" activities do not include "principal" activities. See General Statement as to the Effect of the Portal-to-Portal Act, 29 CFR 790.6–790.8. Section 4 of the Portal Act does not affect the computation of hours worked within the "workday." "Workday," in general, means the period between "the time on any particular workday at which such employee commences [his] principal activity or activities" and "the time on any particular workday at which he ceases such principal activity or activities." The "workday" may thus be longer than the employee's scheduled shift hours, tour of duty, or time on the production line. Also, its duration may vary from day to day depending upon when the employee commences or ceases his "principal" activities.

With respect to time spent in any "preliminary" or "postliminary" activity compensable by contract, custom or practice, the Portal Act requires that such time must also be counted for purposes of the Fair Labor Standards Act. There are, however, limitations on this requirement.

The "preliminary" or "postliminary" activity in question must be engaged in during the portion of the day with respect to which it is made compensable by the contract, custom or practice. Also, only the amount of time allowed by the contract or under the custom or practice is required to be counted. If, for example, the time allowed is 15 minutes but the activity takes 25 minutes, the time to be added to other working time would be limited to 15 minutes. Galvin v. National Biscuit Co., 82 F. Supp. 535 (S. D. N. Y.), appeal dismissed, 177 F. 2d 963 (C. A. 2).

showering indispensable. The United States Court of Appeals for the Sixth Circuit upheld the view expressed in the Portal-to-Portal Bulletin that these activities were an integral part of the employee's principal job and that they were not activities which were excluded by the Portal-to-Portal Act.[26]

(3) In another case the Court of Appeals for the Ninth Circuit held that the sharpening of knives by knifemen in a meet packing plant before and after the scheduled work day was a preliminary and postliminary activity and was not to be considered time worked under the statute.[27] If the Supreme Court should decide these cases contrary to these views the Administrator will make and publish whatever revision may be required under the circumstances.

(4) Section 3 (o) of the act provides an exception to the general rule for employees under collective bargaining agreements. This section provides for the exclusion of time spent in changing clothes or washing at the beginning or end of the workday, if the time is excluded by the express terms of or by a custom or practice under a bona fide collective bargaining agreement applicable to the particular employee.

(g) *Adjusting grievances.* Time spent in adjusting grievances between an employer and employees during the time the employees are required to be on the premises is hours worked, but in the event a bona fide union is involved the counting of such time will, as a matter of enforcement policy, be left to the process of collective bargaining or to the custom or practice under the collective bargaining agreement.

(h) *Lectures, meetings and training programs.* (1) Attendance at lectures, meetings, training programs and similar activities need not be counted as working time if the following four criteria are met: (i) Attendance is outside of the employee's regular working hours; (ii) attendance is in fact voluntary; (iii) the course, lecture, or meeting is not directly related to the employee's job, and (iv) the employee does not perform any productive work during such attendance.

(2) Attendance is not voluntary, of course, if it is required by the employer. It is not voluntary in fact if the employee is given to understand or led to believe that his present working conditions or the continuance of his employment would be adversely affected by nonattendance.

(3) The training is directly related to the employee's job if it is designed to make the employee handle his job more effectively as distinguished from training him for another job. For example, a stenographer who is given a course in stenography is engaged in an activity to make her a better stenographer. Time spent in such a course given by the employer or under his auspices is hours worked. However, if the stenographer takes a course in bookkeeping, it may not be directly related to her job. Thus, the time she spends voluntarily in taking such a bookkeeping course, outside of regular working hours, need not be counted as working time.

(4) Of course, if an employee on his own initiative attends an independent school, college or independent trade school after hours, the time is not hours worked for his employer even if the courses are related to his job.

(5) There are some special situations where the time spent in attending lectures, training sessions and courses of instruction is not regarded as hours worked. For example, an employer may establish for the benefit of his employees a program of instruction which corresponds to courses offered by independent bona fide institutions of learning. Voluntary attendance by an employee at such courses outside of working hours would not be hours worked even if they are directly related to his job, or paid for by the employer.

(6) As an enforcement policy, time spent in an organized program of related, supplemental instruction by employees working under bona fide apprenticeship programs may be excluded from working time if the following criteria are met: (i) The apprentice is employed under a written apprenticeship agreement or program which substantially meets the fundamental standards of the Bureau of Apprenticeship, U. S. Department of Labor, (ii) such time does not involve productive work or performance of the apprentice's regular duties. If the above criteria are met the time spent in such related supplemental training shall not be counted as hours worked unless the written agreement specifically provides that it is hours worked. The mere payment or agreement to pay for time spent in related instruction does not constitute an agreement that such time is hours worked.

(i) *Medical attention.* Time spent by an employee in waiting for and receiving medical attention on the premises or at the direction of the employer during the employee's normal working hours on days when he is working constitutes hours worked.

(j) *Civic and charitable work.* Time spent in work for public or charitable purposes at the employer's request, or under his direction or control, or while the employee is required to be on the premises, is working time. However, time spent voluntarily in such activities outside of the employee's normal working hours is not hours worked.

(k) *Suggestion systems.* Generally, time spent by employees outside of their regular working hours in developing suggestions under a general suggestion system is not working time but if employees are permitted to work on suggestions during regular working hours the time spent must be counted as hours worked. Where an employee is assigned to work on the development of a suggestion, the time is considered hours worked.

(l) *Travel time.* (1) The principles which apply in determining whether or not time spent in travel is working time depend upon the kind of travel involved. The subject is discussed under the headings "Travel from home to work," "Travel that is all in the day's work," and "Travel away from home." At the outset a brief reference must be made to the Portal Act as it applies to travel time.

(2) The Portal Act provides in section 4 (a) that except as provided in subsection (b) no employer shall be liable for the failure to pay the minimum wage or overtime compensation for time spent in "walking, riding, or traveling to and from the actual place of performance of the principal activity or activities which such employee is employed to perform either prior to the time on any particular workday at which such employee commences, or subsequent to the time on any particular workday at which he ceases, such principal activity or activities."

(3) Subsection (b) provides that the employer shall not be relieved from liability if the activity is compensable by express contract or by custom or practice not inconsistent with an express contract.

(4) Thus travel time at the commencement or cessation of the workday which was originally considered as working time under the Fair Labor Standards Act (such as underground travel in mines or walking from time clock to work-bench)[28] need not be counted as working time unless it is compensable by contract, custom or practice. If compensable by express contract or by custom or practice not inconsistent with an express contract, such travel time must be counted in computing hours worked. However, ordinary travel from home to work (see subparagraph (5) of this paragraph) need not be counted as hours worked even if the employer agrees to pay for it.

(5) Travel from home to work: (i) An employee who travels from home before his regular workday and returns to his home at the end of the workday is engaged in ordinary home to work travel which is a normal incident of employment. This is true whether he works at a fixed location or at different job sites.

(ii) While normal travel from home to work is not work time, if an employee receives an emergency call outside of his regular working hours and is required to travel to his regular place of business or some other work site, all of the time spent in such travel is working time.

(iii) A problem arises when an employee who regularly works at a fixed location in one city is given a special one-day work assignment in another city. For example, an employee who works in Washington, D. C., with regular working hours from 9 a. m. to 5 p. m., may be given a special assignment in New York City, with instructions to leave Washington at 8 a. m. He arrives in New York at 12 noon, ready for work. The special assignment is completed at 3 p. m., and the employee arrives back in Washington at 7 p. m. Such travel cannot be regarded as ordinary home-to-work travel occasioned merely by the fact of employment. It was performed for the employer's benefit and at his special request to meet the needs of the particular and unusual assignment. It would thus qualify as an integral part of the "principal" activity which the employee was hired to perform on the workday in question; it is like travel involved in an irregular emergency call (described in this section), or like travel that is all in the day's work (see subparagraph (6) of this paragraph). All the time involved, however, need not be counted. Since, except for the special assignment, the employee would have had to report to his regular work site, the travel between his home and the railroad depot may be deducted, it being in the "home-to-work" category. Also, of course, the usual meal time would be deductible.

(6) Travel that is all in the day's work: Time spent by an employee in travel as part of his principal activity, such as travel from job site to job site during the work day, must be counted as hours worked. Where an employee is required to report at a meeting place to receive instructions or to perform other work there, or to pick up and to carry tools, the travel from the designated place to the work place is part of the day's work and must be counted as hours worked regardless of contract, custom, or practice.[29] If an employee normally finishes his work on the premises at 5:00 p. m. and is sent to another job which he finishes at 8:00 p. m. and is required to return to his employer's premises arriving at 9:00 p. m., all of the time is working time. However, if the employee goes home instead of returning to his employer's premises, the travel after 8:00 p. m. is home-to-work travel and is not hours worked.

(7) Travel away from home: (i) Travel that keeps an employee away from home overnight is travel away from home. Travel away from home is clearly worktime when it cuts across the employee's work day. The employee is simply substituting travel for other duties. The time is not only hours worked on regular working days during normal working hours but also during the corresponding hours on non-working days. Thus, if an employee regularly works from 9:00 a. m. to 5:00 p. m. from Monday through Friday the travel time during these hours is worktime on Saturday and Sunday as well as on the other days. Regular meal period time is not counted. As an enforcement policy the Divisions will not consider as worktime that time spent in travel away from home outside of regular working hours as a passenger on an airplane, train, boat, bus, or automobile.

(ii) If an employee is offered public transportation but requests permission to drive his car instead, the employer may count as hours worked either the time spent driving the car or the time he would have had to count as hours worked during working hours if the employee had used the public conveyance.

(iii) Any work which an employee is required to perform while traveling must of course be counted as hours worked. An employee who drives a truck, bus, automobile, boat or airplane, or an employee who is required to ride therein as an assistant or helper, is working while riding, except during bona fide meal periods or when he is permitted to sleep in adequate facilities furnished by the employer.

§ 785.4 *Recording working time.* (a) Section 11 (c) of the act authorizes the Secretary to promulgate regulations requiring the keeping of records of hours worked, wages paid and other conditions of employment. These regulations are published in Part 516 of this chapter. Copies of the regulations may be obtained on request.

(b) In recording working time under the act, insubstantial or insignificant periods of time beyond the scheduled working hours, which cannot as a practical administrative matter be precisely recorded for payroll purposes, may be disregarded. The courts have held that such trifles are de minimis.[30] This rule applies only where there are uncertain and indefinite periods of time involved of a few seconds or minutes duration, and where the failure to count such time is due to considerations justified by industrial realities. An employer may not arbitrarily fail to count as hours worked any part, however small, of the employee's fixed or regular working time or practically ascertainable periods of time he is regularly required to spend on duties assigned to him.[31]

(c) Time clocks are not required. In those cases where time clocks are used, employees who voluntarily come in before their regular starting time or remain after their closing time, do not have to be paid for such periods provided, of course, that they do not engage in any work. Their early or late clock punching may be disregarded. Minor differences between the clock records and actual hours worked cannot ordinarily be avoided, but major discrepancies should be discouraged since they raise a doubt as to the accuracy of the records of the hours actually worked.

(d) It has been found that in some industries, particularly where time clocks are used, there has been the practice for many years of recording the employees' starting time and stopping time to the nearest five minutes, or to the nearest one-tenth or quarter of an hour. Presumably, this arrangement averages out so that the employees are fully compensated for all the time they actually work. For enforcement purposes this practice of computing working time will be accepted, provided that it is used in such a manner that it will not result, over a period of time, in failure to compensate the employees properly for all the time they have actually worked.

§ 785.5 *Applicable statutory provisions*—(a) *Fair Labor Standards Act.* (1) Section 6 (a) of this act provides that "Every employer shall pay to each of his employees who is engaged in commerce or in the production of goods for commerce wages at the following rates—(1) not less than 75 cents an hour; * * *".[32]

(2) Section 7 (a) of this act provides that: "Except as otherwise provided in this section no employer shall employ any of his employees who is engaged in commerce or in the production of goods for commerce for a workweek longer than 40 hours, unless such employee receives compensation for his employment in excess of the hours above specified at a rate not less than one and onehalf times the regular rate at which he is employed."

(3) Section 3 (g) of this act provides that: "'Employ' includes to suffer or permit to work".

(4) Section 3 (o) of this act provides that: "Hours worked—in determining for the purposes of sections 6 and 7 the hours for which an employee is employed, there shall be excluded any time spent in changing clothes or washing at the beginning or end of each workday which was excluded from the measured working time during the week involved by the express terms of or by custom or practice under a bona fide collective-bargaining agreement applicable to the particular employees".

(b) *Portal-to-Portal Act.* Section 4 of this act provides that:

(a) Except as provided in subsection (b), no employer shall be subject to any liability or punishment under the Fair Labor Standards Act of 1938, as amended, the Walsh-Healey Act, or the Davis-Bacon Act, on account of the failure of such employer to pay an employee minimum wages, or to pay an employee overtime compensation, for or on account of any of the following activities of such employee engaged in on or after May 14, 1947—

(1) Walking, riding, or traveling to and from the actual place of performance of the principal activity or activities which such employee is employed to perform, and

(2) Activities which are preliminary to or postliminary to said principal activity or activities, which occur either prior to the time on any particular workday at which such employee commences, or subsequent to the time on any particular workday at which he ceases, such principal activity or activities.

(b) Notwithstanding the provisions of subsection (a) of this section which relieve an employer from liability and punishment with respect to an activity the employer shall not be so relieved if such activity is compensable by either—

(1) An express provision of a written or non-written contract in effect, at the time of such activity, between such employee, his agent, or collective-bargaining representative and his employer; or

---

[26] Steiner v. Mitchell, 215 F. 2d 171 (C. A. 6).

[27] Cf. Mitchell v. King Packing Co., 216 F. 2d 618 (C. A. 9) contra.

[28] Tennessee Coal, Iron & R. R. Co. v. Muscoda Local, 321 U. S. 590; Anderson v. Mt. Clemens Pottery Co., 328 U. S. 690; Walling v. Anaconda Copper Mining Co., 66 F. Supp. 913 (D. Mont.).

[29] Walling v. Mid-Continent Pipe Line Co., 143 F. 2d 308 (C. A. 10).

[30] Anderson v. Mt. Clemens Pottery Co., 328 U. S. 680.

[31] See Glenn L. Martin Nebraska Co. v. Culkin, 197 F. 2d 981, 987 (C. A. 8), certiorari denied, 344 U. S. 866, rehearing denied, 344 U. S. 888, holding that working time amounting to $1.00 of additional compensation a week is "not a trivial matter to a working man," and was not de minimis; Addison v. Huron Stevedoring Corp., 204 F. 2d 88, 95 (C. A. 2) certiorari denied 346 U. S. 877, holding that "To disregard work weeks for which less than a dollar is due will produce capricious and unfair results." Hawkins v. E. I. Du Pont de Nemours, & Co., 12 WH Cases 448, 27 Labor Cases Para. 69,094 (E. D. Va.), holding that 10 minutes a day is not de minimis.

[32] The minimum rate becomes $1.00 an hour on March 1, 1956.

(2) A custom or practice in effect, at the time of such activity, at the establishment or other place where such employee is employed, covering such activity, not inconsistent with a written or nonwritten contract, in effect at the time of such activity, between such employee, his agent, or collective-bargaining representative and his employer.

(c) For the purposes of subsection (b) of this section, an activity shall be considered as compensable, under such contract provision or such custom or practice only when it is engaged in during the portion of the day with respect to which it is so made compensable.

(d) In the application of the minimum wage and overtime compensation provisions of the Fair Labor Standards Act of 1938, as amended, of the Walsh-Healey Act, or of the Davis-Bacon Act, in determining the time for which an employer employs an employee with respect to walking, riding, traveling, or other preliminary or postliminary activities described in subsection (a) of this section, there shall be counted all that time, but only that time, during which the employee engages in any such activity which is compensable within the meaning of subsections (b) and (c) of this section.

APPENDIX

Regional Offices of the Wage and Hour and Public Contracts Divisions:

Region I (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont). Regional office: Boston, Mass.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 49—STAR ROUTE SERVICE

PART 94—MAIL-MESSENGER SERVICE

PART 95—TRANSPORTATION OF MAIL BEYOND BORDERS OF UNITED STATES

MISCELLANEOUS AMENDMENTS

The following changes are made in the regulations of the Post Office Department:

PART 49—STAR ROUTE SERVICE

In Part 49—Star Route Service add new § 49.5, to read as follows:

§ 49.5 *Subcontracts.* — (a) *Requirements for subletting.* (1) A contractor must get prior permission from the Post Office Department for subletting. Subletting without proper consent may cause a route to be relet, thereby making contractor and his sureties liable under their bond for damages.

(2) Subcontracts are executed in triplicate, providing a copy for: (i) Post Office Department, Bureau of Transportation; (ii) Contractor; (iii) Subcontractor.

(3) After an order has been issued recognizing a subcontract, payments are made directly to and in name of the subcontractor.

(b) *Requirements of subcontractors.* A subcontractor must:

(1) Meet the legal residence requirements of contractors.

(2) Be in a position to supervise the service properly.

(3) Be financially and morally responsible.

(4) Have fully adequate and suitable equipment.

(c) *Assignment.* Assignment or transfer of a contract for transporting mail is prohibited by law, except as provided in the Assignment of Claims Act. A contract may be sublet as provided by law.

(d) *Term.* The subcontract must be executed for service on the whole route and for a period of not less than 1 year or for the remainder of the contract term when less than 1 year.

(e) *Responsibility of contractor.* The execution and recognition of a subcontract does not release a contractor from his obligation, but it relieves him of the necessity of giving the route his personal supervision.

(f) *Termination*—(1) *By joint request.* A subcontract may be terminated by the Post Office Department on the joint request of both contractor and subcontractor.

(2) *By death of subcontractor.* On the death of a subcontractor, the contractor, legal representative of the estate of a deceased contractor, or sureties in charge should immediately resume charge of the route.

(R. S. 161, 396, 3951, as amended, 3964, as amended, 3965, 3966, 3968, 3969; sec. 2, 20 Stat. 62, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369; 39 U. S. C. 434, 445, 481, 483, 484, 486, 487)

PART 94—MAIL-MESSENGER SERVICE

Part 94 *Mail-Messenger Service,* is revised to read as follows:

Sec.
94.1 Mail Messenger Service not to be established without authority.
94.2 Mail Messenger Service not to be extended without authority.
94.3 No payment to be made for Mail Messenger Service unless authorized.
94.4 Irregularities and fines.

AUTHORITY: §§ 94.1 to 94.4 issued under R. S. 161, 396, 3962, as amended; 24 Stat. 492, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C., 443, 578.

§ 94.1 *Mail messenger service not to be established without authority.* The postmaster must apply to his regional transportation manager for authority to employ temporary mail messenger service where necessary before the establishment of regular mail messenger service.

§ 94.2 *Mail messenger service not to be extended without authority.* The postmaster must obtain authorization from the regional transportation manager before extending service of a mail messenger beyond the limits stated in the advertisement and notice of designation.

§ 94.3 *No payment to be made for mail messenger service unless authorized.* No person may be paid for mail messenger service unless the service has been authorized.

§ 94.4 *Irregularities and fines.* Mail messengers may be held financially liable for loss or damage to mail in their custody. They are also accountable and answerable in fines for failure to:

(a) Carry the mail in a safe and secure manner.

(b) Guard the pouches and other mail in their custody from theft or damage by water or any other source.

(c) Return and deliver the mail into the post office, notifying the postmaster, when for any reason he is unable to make proper dispatch of the mail in his custody.

PART 95—TRANSPORTATION OF MAIL BEYOND BORDERS OF UNITED STATES

Part 95—Transportation of Mail Beyond Borders of United States is revised to read as follows:

Sec.
95.1 Transportation and protection of mail between post offices and ships.
95.2 Certificate for ship letters and payment of shipmaster.
95.3 When fees on ship letters not allowed.
95.4 Compensation for transportation of surface mails by vessel.
95.5 Rates for rail service across Isthmus of Panama.
95.6 Fines on steamship companies transporting mail beyond borders of United States.

AUTHORITY: §§ 95.1 to 95.6 issued under R. S. 161, 396, 398, as amended, 3962, as amended, 4009, as amended, 4010, as amended; secs. 304, 309, 42 Stat. 24, 25, sec. 1, 62 Stat. 777; 5 U. S. C. 22, 369, 372, 18 U. S. C. 1698, 39 U. S. C. 443, 654, 655.

§ 95.1 *Transportation and protection of mail between post offices and ships*—(a) *Outgoing mail.* Steamship companies are to provide for the transportation and protection of all outgoing mail, including parcel post and sacks containing empty sacks, from the post office to the transporting vessel.

(b) *Incoming mail.* All incoming mail, including letter mail, parcel post and sacks containing empty sacks, is to be placed on the piers by the steamship companies. At that point delivery of the mail is made into the custody of agents of the postal service for trucking to the post office. The mail shall be placed on the piers and delivered to the agents of the postal service before the transporting vessel makes entry or breaks bulk, such action to be regarded as compliance with the law. Mail, including letter mail, parcel post and sacks containing empty sacks, waybilled for discharge at ports other than the first port of call of the vessel in the United States, shall be discharged at the first port of call if the vessel is scheduled to remain at said first port of call for more than 24 hours.

(c) *Vehicles and attendants.* Each vehicle used to transport mail between post offices and vessels, except the completely closed van type, shall be provided with a man to ride on the rear of the vehicle to protect the mail. The mail compartment of the completely closed van type vehicle must be locked or sealed. When a rack type truck is used the sacks shall be covered by a tarpaulin.

(d) *Registered (red label) sacks.* The registered sacks shall be specially protected during transfer between post offices and the transporting vessels and on board the vessels. The red label sacks shall be separately delivered to the steamship company's representative at the post office in the case of outgoing mails. Incoming red label sacks shall be segregated from the other mails on the piers by the steamship companies.

§ 95.2 *Certificate for ship letters and payment of shipmaster.* (a) Postmasters at offices where ship and steamboat letters are delivered shall obtain a certificate from the master of the ship showing:

(1) Number of letters.
(2) Name of ship or vessel.
(3) Place from which vessel last sailed.

(b) The postmaster shall pay to the master or owner of the ship or steamboat 2 cents for each letter delivered into his office which has not previously been mailed, except as provided in § 95.3. The postmaster shall obtain a receipt for such payment.

§ 95.3 *When fees on ship letters not allowed.* Fees shall not be allowed for ship letters if they are:

(a) Addressed to a foreign country.

(b) Delivered by any of the following:

(1) A passenger or sailor, other than the master.

(2) The master of any vessel or any person on board any vessel which carries mail.

(3) Any carier on any mail route.

(4) The master of a vessel who delivers to a postmaster letters which were carried over a post route.

Fees shall not be allowed for printed matter.

§ 95.4 *Compensation for transportation of surface mail*—(a) *Definite rates.* Unless otherwise provided, payment shall be made for the transportation of United States mail and foreign closed transit mail on steamships of United States registry and foreign registry at the rates given below:

Distance conveyed (nautical miles)	United States mail, including parcel post, on steamships of United States registry (cents per pound—net weight)	All mail, including parcel post, on steamships of foreign registry; and foreign closed transit mail, including parcel post, on steamships of United States registry (cents per pound—net weight)
Up to 300 miles	3.1	1.8
Over 300 up to 600 miles	3.1	2.5
Over 600 up to 1,000 miles	3.1	3.1
Over 1,000 up to 1,500 miles	3.6	3.6
Over 1,500 up to 2,000 miles	4.7	4.0
Over 2,000 up to 2,500 miles	4.7	4.4
Over 2,500 up to 3,000 miles	4.7	4.7
Over 3,000 up to 3,500 miles	5.0	5.0
Over 3,500 up to 4,000 miles	5.3	5.3
Over 4,000 up to 5,000 miles	5.6	5.6
Over 5,000 up to 6,000 miles	6.1	6.1
Over 6,000 up to 7,000 miles	6.5	6.5
Over 7,000 up to 8,000 miles	6.8	6.8
Over 8,000 miles	7.1	7.1

(b) *Exceptions to above rates.* As an exception to the rates in paragraph (a) of this article, payment for the mail which the United States is obligated to convey shall be made at the rates in the schedule below for the following services:

(1) Mail, including parcel post, dispatched onward from the Canal Zone.

(2) Postal Union mail from any country signatory to the Convention of the Postal Union of the Americas and Spain (except continental United States and Canada) to any other country, and Postal Union mail originating in signatory countries conveyed from countries not signatory.

Distance conveyed (nautical miles)	All mail, including parcel post where conveyance is obligated (cents per pound—net weight)
Up to 300 miles	1.3
Over 300 up to 600 miles	2.0
Over 600 up to 1,000 miles	2.6
Over 1,000 up to 1,500 miles	3.1
Over 1,500 up to 2,000 miles	3.5
Over 2,000 up to 2,500 miles	3.9
Over 2,500 up to 3,000 miles	4.2
Over 3,000 up to 3,500 miles	4.5
Over 3,500 up to 4,000 miles	4.8
Over 4,000 up to 5,000 miles	5.1
Over 5,000 up to 6,000 miles	5.6
Over 6,000 up to 7,000 miles	6.0
Over 7,000 up to 8,000 miles	6.3
Over 8,000 miles	6.6

(c) *Other exceptions*—(1) *Free transit provisions.* No compensation will be paid by the United States Post Office Department for the transportation of letters and prints mail originating in the United States or countries signatory to the Convention of the Postal Union of the Americas and Spain when dispatched on vessels of the registry or flag of a signatory country. Such conveyance is an obligation of the country in which the vessel is registered in accordance with the free transit provisions of the Convention of the Postal Union of the Americas and Spain. This does not apply to ships of Panamanian registry (with respect to ships which Panama does not use for its own correspondence) or those of the United States and Canadian registry.

(2) *Mails dispatched from more than one port in the United States.* When mail is dispatched from more than one port in the United States this section shall not prevent a carrier from accepting the lowest rate applicable from the United States to port of destination.

(d) *Membership of Postal Union of the Americas and Spain.* The following countries are signatory to the Convention of the Postal Union of the Americas and Spain:

Argentina.
Bolivia.
Brazil.
Canada.
Colombia.
Costa Rica.
Cuba.
Chile.
Dominican Republic.
Ecuador.
El Salvador.
Guatemala.
Haiti.
Honduras (Republic).
Mexico.
Nicaragua.
Panama.
Paraguay.
Peru.
Spain.
United States.
Uruguay.
Venezuela.

§ 95.5 *Rates for rail service across Isthmus of Panama.* Payment for the transportation by railroad across the Isthmus of Panama, for United States and foreign closed transit mail shall be $0.0525 per pound for letters and post cards and $0.007 per pound for other articles, including parcel post.

§ 95.6 *Fines on steamship companies transporting mail beyond borders of United States.* Steamship companies are responsible to the United States for the safety of the mail intrusted to them, and accountable for any loss or damage resulting to any mail by reason of failure on the part of any of their officers, agents, or employees to exercise due care in the custody, handling, or transportation thereof. In case of delinquencies, fines may be imposed or deductions made from the company's pay.

[SEAL] ABE MCGREGOR GOFF,
The Solicitor.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

CHILLED ORANGE JUICE [1]

UNITED STATES STANDARDS FOR GRADES; NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States standards for Grades of Chilled Orange Juice pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.). These standards, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C. not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

PRODUCT DESCRIPTION, TYPES, STYLES, AND GRADES

Sec.
52.2761 Product description.
52.2762 Types of chilled orange juice.
52.2763 Styles of processed chilled orange juice.
52.2764 Grades of chilled orange juice.

FILL OF CONTAINER

52.2765 Recommended fill of container.

FACTORS OF QUALITY

52.2766 Ascertaining the grade.
52.2767 Ascertaining the rating for the factors which are scored.
52.2768 Color.
52.2769 Absence of defects.
52.2770 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.2771 Definitions of terms and methods of analyses.

LOT CERTIFICATION TOLERANCES

52.2772 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.2773 Score sheet for chilled orange juice.

AUTHORITY: §§ 52.2761 to 52.2773 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, TYPES, STYLES, AND GRADES

§ 52.2761 *Product description.* Chilled orange juice is the unfermented juice initially obtained from sound, mature fruit of the sweet orange group (Citrus sinensis) and Mandarin group (Citrus reticulata), except tangerines, which fruit was prepared by sorting and by washing prior to extraction of the juice to assure a clean and sanitary product. Chilled orange juice is prepared without chemical preservatives, acids, or similar additives but may be packed with the addition of a non-liquid nutritive sweetening ingredient or sweeting ingredients. The orange juice of the applicable type and style is prepared, chilled quickly, and packaged in accordance with good commercial practice; and the chilled product is maintained at temperatures necessary for the marketing of chilled orange juice.

§ 52.2762 *Types of chilled orange juice.* Chilled orange juice is prepared as the following types and sub-types:

(a) *Type I, Chilled fresh orange juice.* Chilled orange juice of this type is prepared as a fresh, undiluted, unconcentrated, and untreated orange juice, except for chilling and the removal of seeds and undesirable pulp, without added sweetening ingredient(s).

(b) *Type II, Chilled processed orange juice.* Chilled orange juice may be prepared as any of the following sub-types:

(1) Type II (a), natural orange juice that is heat treated or otherwise treated in whole or in part to reduce bacterial or enzymatic action; or chilled orange juice that is prepared from frozen single-strength orange juice, with or without heat-treatment or other treatment in whole or in part to reduce bacterial or enzymatic action; or chilled orange juice that is prepared from any combination thereof.

(2) Type II (b), natural orange juice that is prepared with or without heat-treatment or other treatment in whole or in part to reduce bacterial or enzymatic action; or chilled orange juice that is prepared from frozen single-strength orange juice, with or without heat-treatment or other treatment in whole or in part to reduce bacterial or enzymatic action; or chilled orange juice that is prepared from any combination thereof; and to which a small amount of frozen concentrated orange juice has been admixed to standardize the chilled orange juice;

(3) Type II (c), frozen concentrated orange juice reconstituted with water and natural orange juice or frozen single-strength orange juice; or

(4) Type II (d), frozen concentrated orange juice reconstituted solely with water.

§ 52.2763 *Styles of processed chilled orange juice.* (a) Style I, Unsweetened (or without added sweetening ingredient).

(b) Style II, Sweetened (or with added sweetening ingredient).

§ 52.2764 *Grades of chilled orange juice.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of chilled orange juice that shows no coagulation or no material separation and possesses the appearance of fresh orange juice; that possesses a very good color; that is practically free from defects; that possesses a very good flavor; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 85 points.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of chilled orange juice that shows no coagulation but may show some separation and possesses the appearance of fresh orange juice; that possesses a good color; that is reasonably free from defects; that possesses a good flavor; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 70 points.

(c) "Substandard" is the quality of chilled orange juice that fails to meet the requirements of U. S. Grade B or U. S. Choice.

FILL OF CONTAINER

§ 52.2765 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that the container be as full of chilled orange juice as practicable.

FACTORS OF QUALITY

§ 52.2766 *Ascertaining the grade.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(1) *Factors not rated by score points.*
(i) Degree of coagulation;
(ii) Separation;
(iii) Appearance of fresh orange juice.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

	Points
(i) Color	40
(ii) Absence of defects	20
(iii) Flavor	40
Total score	100

§ 52.2767 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, and 20 points).

§ 52.2768 *Color*—(a) *(A) classification.* Chilled orange juice that possesses a very good color may be given a score of 34 to 40 points. "Very good color" means a very good yellow to yellow-orange color that is bright and typical of rich-colored fresh orange juice.

(b) *(B) classification.* If the chilled orange juice possesses a good color, a score of 28 to 33 points may be given. Chilled orange juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Good color" means that the color is the yellow to yellow-orange color typical of fresh orange juice which may be dull but is not off color for any reason.

(c) *(SStd) classification.* Chilled orange juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2769 *Absence of defects—(a) General.* The factor of absence of defects refers to the degree of freedom from recoverable oil, from seeds and portions thereof, from pulp, and from other defects.

(1) *Pulp.* "Pulp" means particles of membrane, core, and peel.

(b) *(A) classification.* Chilled orange juice that is practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that there may be present: (1) not more than 0.035 percent by volume of recoverable oil; (2) small seeds or portions thereof that are of such size that they could pass through round perforations not exceeding ⅛ inch in diameter, provided such seeds or portions thereof do not materially affect the appearance or drinking quality of the juice; (3) pulp that does not materially affect the appearance or drinking quality of the juice; and (4) other defects that are not more than slightly objectionable.

(c) *(B) classification.* If the chilled orange juice is reasonably free from defects, a score of 14 to 16 points may be given. Chilled orange juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that there may be present: (1) not more than 0.050 percent by volume of recoverable oil; (2) small seeds or portions thereof that are of such size that they could pass through round perforations not exceeding ⅛ inch in diameter, provided such seeds or portions thereof do not seriously affect the appearance or drinking quality of the juice; (3) pulp that does not seriously affect the appearance or drinking quality of the juice; and (4) other defects that are not materially objectionable.

(d) *(SStd) classification.* Chilled orange juice that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2770 *Flavor*—(a) *(A) classification.* Chilled orange juice that possesses a very good flavor may be given a score of 34 to 40 points. "Very good flavor" means that the flavor is fine, distinct, and substantially typical of orange juice extracted from fresh, mature sweet oranges; is free from off flavors of any kind; and meets the following additional requirements for the applicable style:

(1) *Style I, Unsweetened.* (i) Brix: Not less than 11.8°.

(ii) Brix-acid ratio: Not less than 10 to 1 if the Brix is 12.0° or more; and not less than 12 to 1 if the Brix is less than 12.0°; and not more than 18 to 1.

(2) *Style II, Sweetened.* (i) Brix: Not less than 12.5°.

(ii) Brix-acid ratio: Not less than 12 to 1 nor more than 14 to 1.

(b) *(B) classification.* If the chilled orange juice possesses a good flavor, a score of 28 to 33 points may be given. Chilled orange juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Good flavor" means that the flavor is fairly typical of orange juice extracted from fresh, mature sweet oranges; is free from off flavors of any kind; and meets the following additional requirements for the applicable style:

(1) *Style I, Unsweetened.* (i) Brix: Not less than 10.5°, except that if the product is prepared in whole or in part from frozen concentrated orange juice, the Brix shall be not less than 11.8°.

(ii) Brix-acid ratio: Not less than 9 to 1 if the Brix is 12.0° or more; and not less than 11 to 1 if the Brix is less than 12.0°; and not more than 20 to 1.

(2) *Style II, Sweetened.* (i) Brix: Not less than 12.5°.

(ii) Brix-acid ratio: Not less than 10 to 1 nor more than 15 to 1.

(c) *(SStd) classification.* Chilled orange juice that fails to meet the requirements of paragraph (b) of this section, or is off flavor for any reason, may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSES

§ 52.2771 *Definitions of terms and methods of analyses—(a) Brix.* "Brix" means the degrees Brix of chilled orange juice when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.). If used in testing juice at a temperature other than 20 degrees C. (68 degrees F.) the applicable temperature correction shall be made to the reading of the scale as prescribed in the "Official Methods of Analysis of the Association of Official Agricultural Chemists." The degrees Brix of chilled orange juice may be determined by any other method which gives equivalent results.

(b) *Acid.* "Acid" means the grams of total acidity, calculated as anhydrous citric acid, per 100 ml. of chilled orange juice. Total acidity is determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator.

(c) *Recoverable oil.* "Recoverable oil" is determined by the following method:

(1) *Equipment.*

Oil separatory trap similar to either of those illustrated in Figure 1 or Figure 2.[1]

Gas burner or hot plate.
Ringstand and clamps.
Rubber tubing.
8-liter narrow-neck flask.

(2) *Procedure.* (i) Exactly 2 liters of juice are placed in a 3-liter flask. Close the stopcock, place distilled water in the graduated tube, run cold water through the condenser from bottom to top, and bring the juice to a boil. Boiling is continued for one hour at the rate of approximately 50 drops per minute.

(ii) By means of the stopcock, lower the oil into the graduated portion of the separatory trap, remove the trap from the flask, allow it to cool, and record the amount of oil recovered.

(iii) The number of milliliters of oil recovered divided by 20 equals the percent by volume of recoverable oil.

LOT CERTIFICATION TOLERANCES

§ 52.2772 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of chilled orange juice the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drugs, and Cosmetic Act and in effect at the time of the aforesaid certification; and (2) with respect to those factors which are scored:

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

[7 CFR Part 914]

[Docket No. AO–245–A2]

NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO AMENDED MARKETING AGREEMENT AND ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 229 Federal Building, 312 North Spring Street, Los Angeles, California, beginning at 9:00 a. m., P. s. t., January 27, 1956, with respect to proposed amendments to the marketing agreement as amened, and Order No. 14, as amended (7 CFR Part 914), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of navel oranges grown in Arizona and designated part of California. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the proposed amendments, which are hereinafter set forth, and to any appropriate modifications thereof.

The following amendments to the marketing agreement and order have been proposed by the Naval Orange Administrative Committee, the administrative agency established pursuant to the marketing agreement and order:

1. Delete the provisions of § 914.15 and substitute in lieu thereof the following:

§ 914.15 *Carton.* "Carton" means the standard carton Number 58 as defined in § 828.83 of the Agricultural Code of California, of a capacity of approximately 38½ pounds of oranges, or such other container and weight as may be established by the committee with the approval of the Secretary, or the equivalent thereof.

2. Delete the provisions of § 914.17 and substitute in lieu thereof the following:

§ 914.17 *Carload.* "Carload" means a quantity of oranges equivalent to 924 cartons of oranges, or such other quantity of oranges as may be established by the committee with the approval of the Secretary.

3. Amend the provisions of § 914.21 by deleting therefrom the word and figure "November 1" and substitute in lieu thereof the word and figure "October 1".

4. Amend the provisions of § 914.31 by adding at the end of the section the following additional sentence: "Whenever specifically authorized and approved by the committee, alternate members shall be reimbursed for reasonable expenses necessarily incurred by them in attending committee meetings and shall receive compensation at the rate provided in this section, notwithstanding that the committee members for whom they serve as alternate also attend such meetings."

5. Amend the provisions of § 914.32 as follows: (a) Delete the first sentence thereof and substitute in lieu thereof the following: "The committee shall, as soon as practicable after the end of the marketing year, prepare and mail an annual report to the Secretary and to each handler and grower of record."

(b) Delete therefrom the words following (d) and substitute in lieu thereof the following: "notice of the time and place of an open meeting, to be held as soon as practicable after the mailing of the annual report, to review the whole record of the operations of this part."

6. Amend the provisions of § 914.53 (e) by adding the following proviso at the end thereof: "*Provided*, That on gains occasioned by the bona fide transfer of real property on which such oranges are produced, any quantity of oranges which is deducted as provided herein shall be added, over a comparable period, to the handler who gains control of such oranges."

7. Amend the provisions of § 914.55 by deleting therefrom the first sentence and substituting in lieu thereof the following: "During any week for which the Secretary has fixed the total quantity of oranges which may be handled, any person who has received an allotment, and whose total allotment is not required for the repayment of an allotment loan or a prior overshipment, may handle in addition to his allotment an amount of such oranges equivalent to 10 percent of his allotment, or one carload, whichever is the greater."

8. Amend the provisions of § 914.57 by adding a new subparagraph (e) as follows:

(e) No allotment may be loaned from one handler to another when such loan is brought about by the payment of a consideration, monetary or otherwise, to the loaning handler.

9. Amend the provisions of § 914.64 by inserting the following immediately after the first sentence of such section: "Such size regulation may establish the percentage of the allotment which is issued to each handler during each prorate period which may be used by such handler only during such prorate period in the shipment of a stated size whenever volume regulation is in effect. If volume regulation is not in effect the percentage of the stated size which each handler may ship each week may be established in relation to the total quantity of oranges such handler ships during such week."

10. Add a new § 914.68, reading as follows:

§ 914.68 *Volume regulation when season average price is in excess of parity.* In order to effectuate the declared policy of the act, and in order to maintain such orderly marketing conditions for oranges as will provide in the interest of producers and consumers alike an orderly flow of the supply of oranges to market throughout their normal marketing season, and in order to avoid unreasonable fluctuation in the supply and price of oranges, the provisions of this subpart may be made effective notwithstanding that the season average price of oranges is found to be in excess of parity.

11. Amend the provisions of § 914.71 by deleting therefrom the word "box" and substituting in lieu thereof the word "carton".

12. Amend the provisions of § 914.83 (c) (3) by deleting from the last sentence of this subparagraph the word and figure "September 15" and substituting in lieu thereof the word and figure "March 15".

The Fruit and Vegetable Division, Agricultural Marketing Service, has proposed that consideration be given to making such other changes in the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or the Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California.

Done at Washington, D. C., this 20th day of December 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 55–10317; Filed, Dec. 23, 1955; 8:46 a. m.]

[7 CFR Part 922]

[Docket No. AO–250–A1]

VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 810, Federal Building, 312 North Spring Street, Los Angeles, California, beginning at 10:00 a. m., P. s. t., January 25, 1956, with respect to proposed amendments to the tentative marketing agreement, heretofore approved by the Secretary of Agriculture, and Order No. 22 (7 CFR Part 922), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of Valencia oranges grown in Arizona and designated part of California. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the proposed amendments, which are hereinafter set forth, and to any appropriate modifications thereof.

The following amendments to the marketing agreement and order have been proposed by the Valencia Orange Administrative Committee, the administrative agency established pursuant to the order:

1. Delete the provisions of § 922.16 and substitute in lieu thereof the following:

§ 922.16 *Carton.* "Carton" means the standard carton number 58 as defined in § 828.83 of the Agricultural Code of California, of a capacity of approximately 38½ pounds of oranges, or such other container and weight as may be established by the committee with the approval of the Secretary, or the equivalent thereof.

2. Delete the provisions of § 922.18 and substitute in lieu thereof the following:

§ 922.18 *Carload.* "Carload" means a quantity of oranges equivalent to 924 cartons of oranges, or such other quantity of oranges as may be established by the committee with the approval of the Secretary.

3. Amend the provisions of § 922.31 by adding at the end of the section the following additional sentence: "Whenever specifically authorized and approved by the committee, alternate members shall be reimbursed for reasonable expenses necessarily incurred by them in attending committee meetings, and shall receive compensation at the rate provided in this section, notwithstanding that the committee members for whom they serve as alternates also attend such meetings."

4. Amend the provisions of § 922.32 as follows: (a) Delete therefrom the first sentence and substitute in lieu thereof the following: "The committee shall, as soon as practicable after the end of the marketing year, prepare and mail an annual report to the Secretary and to each handler and grower of record."

(b) Delete therefrom the words following (d) and substitute in lieu thereof the following: "notice of the time and place of an open meeting, to be held as soon as practicable after the mailing of the annual report, to review the whole record of the operations of this part."

5. Amend the provisions of § 922.53 (e) by adding the following proviso at the end thereof: "*Provided*, That on gains occasioned by the bona fide transfer of real property on which such oranges are produced, any quantity of oranges which is deducted as provided herein shall be added, over a comparable period, to the handler who gains control of such oranges."

6. Amend the provisions of § 922.55 by deleting therefrom the first sentence and substituting in lieu thereof the following: "During any week for which the Secretary has fixed the total quantity of oranges which may be handled, any person who has received an allotment, and whose total allotment is not required for the repayment of an allotment loan or a prior overshipment, may handle in addition to his allotment an amount of such oranges equivalent to 10 percent of his allotment, or one carload, whichever is the greater."

7. Amend the provisions of § 922.57 by adding a new paragraph (e) as follows:

(e) No allotment may be loaned from one handler to another when such loan is brought about by the payment of a consideration, monetary or otherwise, to the loaning handler.

8. Amend the provisions of § 922.64 by inserting the following immediately after the first sentence of such section: "Such size regulation may establish the percentage of the allotment which is issued to each handler during each prorate period which may be used by such handler only, during such prorate period in the shipment of a stated size whenever volume regulation is in effect. If volume regulation is not in effect, the percentage of a stated size, which each handler may ship during each week, may be established in relation to the total quantity of oranges such handler ships during such week."

9. Add a new § 922.68 reading as follows:

§ 922.68 *Volume regulation when season average price in excess of parity.* In order to effectuate the declared policy of the act, and in order to maintain such orderly marketing conditions for oranges as will provide in the interest of producers and consumers alike an orderly flow of the supply of oranges to market throughout their normal marketing season, and in order to avoid unreasonable fluctuation in the supply and price of oranges, the provisions of this subpart may be made effective notwithstanding that the season average price of oranges is found to be in excess of parity.

10. Amend the provisions of § 922.71 by deleting therefrom the word "box" and substituting in lieu thereof the word "carton."

11. Amend the provisions of § 922.83 (c) (3) by deleting therefrom the word and figure "December 15" wherever it appears and substituting in lieu thereof the word and figure "October 15."

The Fruit and Vegetable Division, Agricultural Marketing Service, has proposed that consideration be given to making such other changes in the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or the Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California.

Done at Washington, D. C., this 20th day of December 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 945]

TOMATOES GROWN IN FLORIDA

NOTICE OF PROPOSED EXPENSES AND RATE OF ASSESSMENT

Notice is hereby given that the Secretary of Agriculture is considering the approval of the expenses and rate of assessment hereinafter set forth, which were recommended by the Florida Tomato Committee, established pursuant to Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945; 20 F. R. 7357), regulating the handling of tomatoes grown in Florida, issued under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed in triplicate with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 945.201 *Expenses and rate of assessment.* (a) The reasonable expenses that are likely to be incurred by the Florida Tomato Committee, established pursuant to Marketing Agreement No. 125 and Order No. 45, to enable such committee to perform its functions pursuant to the provisions of aforesaid marketing agreement and order, during the fiscal period ending July 31, 1956, will amount to $135,000.

(b) The rate of assessment to be paid by each handler, pursuant to Marketing Agreement No. 125 and Order No. 45, shall be one and one-half cents ($0.015) per 60-pound crate of tomatoes, or respective equivalent quantities thereof, handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 125 and Order No. 45.

Dated: December 20, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 953]

[Docket No. AO 144–A7]

LEMONS GROWN IN CALIFORNIA AND ARIZONA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO AMENDED MARKETING AGREEMENT AND ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and in accordance

with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR, Part 900), notice is hereby given of a public hearing to be held in Room 810 Federal Building, 312 North Spring Street, Los Angeles, California, beginning at 9:00 a. m., P. s. t., January 25, 1956, with respect to proposed amendments to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR, Part 953 20 F. R. 8451), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of lemons grown in California and Arizona. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the proposed amendments, which are hereinafter set forth, and to any appropriate modifications thereof.

The following amendments to the marketing agreement and order have been proposed by the Lemon Administrative Committee, the administrative agency established pursuant to the marketing agreement and order:

1. Delete the provisions of § 953.8 and substitute in lieu thereof the following:

§ 953.8 *Carload.* "Carload" means a quantity of lemons equivalent to 930 cartons of lemons, or such other quantity of lemons as may be established by the committee with the approval of the Secretary.

2. Delete the provisions of § 953.9 and substitute in lieu thereof the following:

§ 953.9 *Carton.* "Carton" means standard carton No. 58 as defined in § 828.83 of the Agricultural Code of California, of a capacity of approximately 39½ pounds of lemons, or such other container and weight as may be established by the committee with the approval of the Secretary, or the equivalent thereof.

The Fruit and Vegetable Division, Agricultural Marketing Service, has proposed that consideration be given to making such other changes in the marketing agreement and order as may be necesary to make the entire marketing agreement and order conform with any amendment thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or from the Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California.

Done at Washington, D. C., this 20th day of December 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Part 40]

[Draft Release 55-31]

REDISPATCH OF SCHEDULED AIR CARRIER FLIGHTS UNDER ADVERSE WEATHER CONDITIONS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of amendments to Part 40 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by February 24, 1956. Copies of such communications will be available after February 28, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

In the preamble to revised Part 40, adopted April 13, 1953, effective April 1, 1954, the Board stated that considerable comment had been received concerning the provision presently contained in § 40.389 (a), which provides for the designation of a second alternate when the weather conditions forecast for the destination and first alternate are "marginal." This comment indicated that the word "marginal" is not sufficiently definite and that the language contained in this section does not establish an unambiguous standard for air carrier operations. The Board, therefore, indicated that additional consideration would be given this matter and an appropriate alternative proposal would be circulated in the future.

Accordingly, it is proposed herein to delete the requirement in § 40.389 (a) for an additional alternate airport when the weather conditions forecast for the destination and first alternate are marginal, since it appears that this provision does not contribute materially to the sense and intent of the section. In lieu thereof, it is proposed to require redispatch of a flight when forecasts for the destination and alternate no longer indicate that ceilings and visibilities at the destination and alternate will be at or above the appropriate minimums at the estimated time of arrival thereat. It is believed that the intent of § 40.389 (a) will be substantially met by such a requirement.

In view of the foregoing, notice is hereby given that it is proposed to recommend to the Board that Part 40 of the Civil Air Regulations be amended as follows:

1. By amending § 40.389 (a) by deleting the words "and, when the weather conditions forecast for the destination and first alternate are marginal, at least one additional alternate airport".

2. By amending § 40.393 (c) to read as follows:

§ 40.393 *Redispatch and continuance of flight.* * * *

(c) No flight shall be continued to any airport to which it has been dispatched unless:

(1) The weather conditions at an alternate airport specified in the dispatch release or specified in accordance with the redispatch provisions of paragraph (b) of this section, remain at or above the minimums for such airport when used as an alternate, and

(2) The current weather reports and forecasts, or a combination thereof, for the destination and alternate specified in the dispatch release or specified in accordance with the redispatch provisions of paragraph (b) of this section, continue to indicate that weather conditions will be at or above the appropriate airport minimums at the estimated time of arrival thereat.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended, and may be changed in the light of comment received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended, 49 U. S. C. 551-560)

Dated at Washington, D. C., December 16, 1955.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

DEPARTMENT OF COMMERCE

Federal Maritime Board and Maritime Administration

[46 CFR Ch. II]

[Docket No. S-59]

AMERICAN PRESIDENT LINES, LTD.

NOTICE OF PROPOSED RULE MAKING

Notice of proposed rule making in connection with petition of American President Lines, Ltd., was published in the FEDERAL REGISTER issue of September 26, 1955 (20 F. R. 8050), as amended by notice published November 10, 1955 (20 F. R. 8425).

Notice is hereby given that the time stipulated therein for submission of written data, views, or arguments relative thereto is hereby extended to March 1, 1956.

By order of the Federal Maritime Board/Maritime Administrator.

Dated: December 22, 1955.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

[F. R. Doc. 55-10363; Filed, Dec. 23, 1955; 9:45 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket Nos. 11532, 11433; FCC 55-1235]

RADIO BROADCAST SERVICES

MEMORANDUM OPINION AND ORDER

In the matter of amendment of Part 3 of the Commission's Rules and Regulations Governing Television Broadcast Stations, Docket No. 11532.

In the matter of amendment of Part 3 of the Commission's Rules and Regulations to increase the maximum effective radiated power for television stations on Channels 14-83, Docket No. 11433.

1. In the Notice of Proposed Rule Making adopted in this proceeding on November 10, 1955, the Commission announced its intention to consider proposals for revision of the national television allocations plan.

2. In paragraph 8 of that Notice the Commission set out a series of factors which it felt should be taken into consideration in evaluating proposals for revision of the existing television allocation plan and television standards.

3. The following petitions, now pending before the Commission, request changes to the present rules which bear directly on the problems which the Commission has under consideration in Docket No. 11532:

Date	Petitioner	Request (in brief)
Apr. 18, 1955	Albert J. Balusek, San Antonio, Tex.	Deintermix UHF and VHF channel assignments in all communities.
June 21, 1955	UHF Industry Coordinating Committee.	Authorize VHF stations on a case-to-case basis at mileage separations lower than the present minima.[1]
Oct. 17, 1955	UHF Industry Coordinating Committee.	Consider the allocations problem under a broad rule making proceeding.[1]
Oct. 7, 1955	American Broadcasting Co.	Partial deintermixture, and reduced VHF separations at reduced powers, and other revisions.
Nov. 9, 1955	Scharfeld and Baron, Washington, D. C.	Make channel assignments on the basis of individual applications, rather than under a fixed Table of Assignments.

[1] These 2 petitions request, in addition, the suspension or deferment of new grants which would increase intermixture. The latter requests are not dealt with in this notice.

4. In addition, the Commission has under consideration in the rule making proceeding inaugurated on September 11, 1955, under Docket No. 11433, a proposal to increase the maximum permissible power for UHF stations to 5 megawatts. Like the foregoing petitions, this proposal relates to one of the basic features of the present television standards.

5. In view of the close interrelationships between the foregoing matters and the questions under consideration in the instant rule making proceeding, the Commission believes that its review of the nationwide television allocations plan, and its quest for lasting solutions, would be facilitated by dealing with the foregoing matters within the framework of the instant proceeding.

6. Accordingly, *It is ordered*, That so much of the petitions listed in paragraph 3 hereof as request action other than the suspension or deferment of authorizations for new television stations will be considered under the rule making proceedings in Docket No. 11532.

7. *It is further ordered*, That the record in Docket No. 11433 is made part of the rule making proceeding under Docket No. 11532; and Docket No. 11433 is hereby terminated.

Adopted: December 14, 1955.

Released: December 15, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10343; Filed, Dec. 23, 1955; 8:51 a. m.]

NOTICES

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

DIXIE STOCK YARD, INC.

DEPOSTING OF STOCKYARD

It has been ascertained that the Dixie Stock Yard, Inc., Meridian, Mississippi, originally posted on September 19, 1955, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under that act for the reason that it no longer meets the area requirements. Accordingly, notice is given to the owner thereof and to the public that such livestock market is no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a livestock market which no longer meets the area requirements of the act and is, therefore, no longer a stockyard within the definition contained in the act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after its publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER. (42 Stat. 159, as amended and supplemented; 7 U. S. C. 181 et seq.).

Done at Washington, D. C., this 20th day of December 1955.

[SEAL] DAVID M. PETTUS,
Acting Director, Livestock Division, Agricultural Marketing Service.

CIVIL AERONAUTICS BOARD

[Dockets Nos. 7464, 7465, and 7466]

BRITISH OVERSEAS AIRWAYS CORP.

NOTICE OF HEARING FOR AMENDMENT OF FOREIGN AIR CARRIER PERMIT

In the matter of the application, Docket No. 7464, of British Overseas Airways Corporation under section 402 of the Civil Aeronautics Act of 1938, as amended, for amendment of its foreign air carrier permit so as to include Detroit, Mich., as an additional co-terminal point in the United States; application, Docket No. 7465, requesting a foreign air carrier permit authorizing service between London, England, and the co-terminal points New York, N. Y., and San Francisco, Calif.; application, Docket No. 7466, requesting a foreign air permit authorizing service between the terminal point Nassau, Bahama Islands, and New York, N. Y.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 of said Act, a hearing in the above-entitled proceeding will be held on January 4, 1956, at 10:00 a. m., e. s. t., in Room 5855 Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington 25, D. C., before Curtis C. Henderson, Hearing Examiner.

Without limiting the scope of the issues presented by the applications particular attention will be directed to the following questions:

1. Whether the proposed air transportation will be in the public interest.

2. Whether applicant is fit, willing, and able to perform the air transportation and conform to the provisions of the Act and the rules, regulations, and requirements of the Board thereunder.

3. Whether authorization of the proposed air transportation will be consistent with the obligations assumed by the United States in any treaty, convention, or agreement that may be in force between the United States and the United Kingdom of Great Britain and Northern Ireland.

For further details as to the service proposed and authorization requested, interested parties are referred to the applications on file with the Civil Aeronautics Board.

Notice is further given that any person, other than a party of record, desiring to be heard in this proceeding must file with the Board on or before January 4, 1956, a statement setting forth the pertinent issues of fact or law which he desires to controvert.

Dated at Washington, D. C., December 20, 1955.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11392, 11393; FCC 55M-1040]

BARTLETT AND REED MANAGEMENT AND BLACKHILLS VIDEO CO.

ORDER FOR CONDUCT OF HEARING

DECEMBER 15, 1955.

In re applications of Bartlett and Reed Management, Rapid City, South Dakota, Docket No. 11392, File Nos. 557, 558, 559, 560, 561, 562, 563-C1-P-55; and Blackhills Video Company, Rapid City, South Dakota, Docket No. 11393, File Nos. 1096, 1097, 1098, 1099, 1100, 1101, 1102, 1103, 1104, 1105-C1-P-55; for construction permits for radio relay facilities.

Appearances. Kelley E. Griffith, Washington, D. C., on behalf of Bartlett and Reed Management; Eugene L. Burke, Washington, D. C., on behalf of Blackhills Video Company; Charles F. Martin, New York, N. Y., on behalf of American Telephone and Telegraph Company (Intervener); Charles V. Wayland, Washington, D. C., on behalf of Blackhills Broadcast Company (Intervener); and William M. Lesher and Byron E. Harrison, Washington, D. C., on behalf of the Chief, Common Carrier Bureau, Federal Communications Commission.

1. The first pre-hearing conference in the above-entitled proceeding was held June 16, 1955. The second pre-hearing conference was held before the undersigned Examiner on December 5, 1955. The parties attending were as above indicated.

2. Subsequent to the specification of the issues in the Commission order of May 18, 1955, designating the above-entitled applications for hearing, the Commission by order dated August 31, 1955, has made the American Telephone and Telegraph Company a party in this proceeding.

3. As a result of the pre-hearing conference held December 5, 1955, the hearing will proceed on the following time schedule:

a. On or before Friday, January 13, 1956, the parties will prepare and exchange all of the exhibits they propose to offer in evidence in response to the issues prescribed herein. The exhibits to be exchanged by the American Telephone and Telegraph Company will relate to the services presently available to the communities involved through the Bell System companies and the present timetable of the Bell System companies for serving such communities.

b. The evidentiary hearing will begin on Monday, January 30, 1956. On that date, the parties will offer in evidence the exhibits in support of their affirmative case. It is the intention of the Examiner to receive in evidence the exhibits and stipulations to which there are no objections and other exhibits which, after objections, the Examiner finds to be legally admissible.

4. After the receipt of the exhibits referred to, there will be a further conference to determine what other exhibits, if any, are to be offered either in support of the affirmative case or in rebuttal, the number of witnesses to be called and the date for further hearing.

It is so ordered, This the 15th day of December 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10344; Filed, Dec. 23, 1955; 8:52 a. m.]

[Docket No. 11516; FCC 55M-1043]

ELIZABETH EVANS AND W. COURTNEY EVANS (WSUX)

ORDER CONTINUING HEARING

In re application of Elizabeth Evans and W. Courtney Evans (WSUX), Seaford, Delaware, Docket No. 11516, File No. BMP-6870; for construction permit.

The Hearing Examiner having under consideration a petition filed on December 9, 1955, and a supplement thereto filed on December 12, 1955, by the respondent, Radio Hanover, Inc. (WHVR), requesting continuance of the hearing now scheduled for January 3, 1956;

It appearing that counsel for applicant and the Broadcast Bureau have no objection to a continuance until January 9, 1956, and that such a continuance would under all the circumstances not conflict with the interests of any party;

It is ordered, This 15th day of December 1955, that the petition is granted to the extent that the hearing now scheduled for January 3, 1956 is continued to Monday, January 9, 1956, at 10:00 a. m., in the offices of the Commission, Washington, D. C.; and that the further conference (see Transcript November 23, 1955, Prehearing Conference, p. 8) now scheduled for December 19, 1955 is continued without date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-10345; Filed, Dec. 23, 1955; 8:52 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-9175]

TENNESSEE GAS TRANSMISSION CO.

NOTICE OF DATE OF HEARING

DECEMBER 20, 1955.

Take notice that Tennessee Gas Transmission Company, a Delaware corporation (Applicant), with a principal place of business in Houston, Texas, filed on July 25, 1955, an application for a certificate of public convenience and necessity and a supplement thereto on October 4, 1955, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to increase the daily contract quantity of natural gas being delivered to The Peoples Natural Gas Company (Peoples) from 25,000 Mcf to 40,000 Mcf, and to utilize natural gas facilities made the subject of an application in Docket No. G-8805, wherein the construction and operation of facilities are contemplated which will increase both Applicant's average and peak day capacity. The proposed new facilities will provide 32,196 Mcf (14.73 psia) of unallocated capacity, a portion of which will be used to render the increased service to Peoples.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 30, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Notice of said application has been duly published in the FEDERAL REGISTER on October 4, 1955 (20 F. R. 7386).

Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10323; Filed, Dec. 23, 1955; 8:48 a. m.]

[Docket No. G-9221]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that The Ohio Fuel Gas Company, an Ohio corporation (Applicant), with a principal office in Columbus, Ohio, filed on August 10, 1955, an application for permission to abandon service to The River Gas Company pursuant to section 7 of the Natural Gas Act, authorizing Applicant to terminate service to The River Gas Company as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The application recites: that Applicant purchased the distribution system of The River Gas Company in Athens and Morgan Counties, Ohio, and initiated retail service through the acquired facilities on June 15, 1955, and will supply the same quantities of gas through the acquired facilities that it originally sold to The River Gas Company so no one will be deprived of service by reason of the transfer.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 30, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 16, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-9268]

JOHN B. HAWLEY, JR.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that John B. Hawley, Jr. (Applicant), an individual whose address is Minneapolis, Minnesota, filed on August 29, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Hugoton Field, Haskell County, Kansas, which it proposes to sell to Northern Natural Gas Company for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 23, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C. concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 8, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10325; Filed, Dec. 23, 1955; 8:48 a. m.]

[Docket No. G-9430]

LONE STAR GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that Lone Star Gas Company, a Texas corporation (Applicant), with its principal office in Dallas, Texas, filed on October 4, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to construct and operate facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate 1.67 miles of 2-inch lateral pipe line and appurtenant measuring and regulating facilities in Choctaw County, Oklahoma, to serve the Goodland Indian Orphanage, and adjoining Goodland School; and which will extend in a Westerly direction from its 6-inch natural gas transmission line E-16 to a point near the said school.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 25, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10326 Filed, Dec. 23, 1955; 8:48 a. m.]

[Docket No. G-9432]

HOPE NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that Hope Natural Gas Company, a West Virginia corporation (Applicant), with a principal office in Clarksburg, West Virginia, filed on October 4, 1955, an application for permission to abandon and remove facilities pursuant to section 7 of the Natural Gas Act, authorizing Applicant to abandon and remove facilities hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to abandon one 500 horsepower and one 600 horsepower compressor units at its Hunt Station located in Kanawha County, West Virginia, which it proposes to return to the warehouse for future use. The application recites that local gas supplies pumped by the two units are nearly depleted, and the proposed abandonment and removal will eliminate operating and maintenance costs, and will not result in any curtailment of service.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 25, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-4640]

BEAL ASSOCIATES

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that Beal Associates (Applicant), whose address is Midland, Texas, filed on November 1, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all are more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Spraberry Trend Field, Upton County, Texas, which it proposes to sell to Texas Gas Products Corporation for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 23, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 23, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-6195]

BRITISH-AMERICAN OIL PRODUCING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that The British-American Oil Producing Company, Applicant, a Delaware corporation whose address is Dallas, Texas, filed on November 29, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from various gas fields in Logan County, Colorado, and sells it in interstate commerce to Kansas-Nebraska Natural Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 19, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 8, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-9000]

GEORGE G. JOHNSON DRILLING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that George G. Johnson Drilling Company (Applicant), a Texas corporation whose address is Denver, Colorado, filed on June 6, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Big Springs Field, Deuel County, Nebraska, which it proposes to sell to Kansas-Nebraska Natural Gas Company, Inc. for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 23, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 8, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9081]

LONE STAR PRODUCING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that Lone Star Producing Company, a Texas corporation (Applicant), with a principal office in Dallas, Texas, filed on January 27, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to produce natural gas in the O'Hagen and Oil Creek Fields, Grayson County, Texas, and to sell it in interstate commerce to Lone Star Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 26, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 16, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. G-9082]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that Consolidated Gas Utilities Corporation (Applicant), a Delaware corporation with its principal office in Oklahoma City, Oklahoma, filed on June 27, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to construct and operate facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to replace a 10.7-mile section of looped 6⅞-inch and 7-inch O. D. gas pipeline with a continuous line of 16-inch, 14-inch and 12¾-inch pipe of approximately the same length in Beckham and Greer Counties, Oklahoma.

The application recites the increased capacity is required for the Altus Air Force Base, requirements of which will be: maximum of 400,000 Mcf annually and 4,000 Mcf daily.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 26, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 16, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Acting Secretary.

[F. R. Doc. 55-10332; Filed, Dec. 23, 1955; 8:49 a. m.]

[Docket No. G-9267]

COLORADO INTERSTATE GAS CO.

NOTICE OF HEARING ON APPLICATION FOR CERTIFICATE OF PUBLIC CONVENIENCE

DECEMBER 19, 1955.

Take notice that Colorado Interstate Gas Company, Applicant, a Delaware corporation whose address is Colorado National Bank Building, Colorado Springs, Colorado, filed on August 29, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to construct and operate certain proposed facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct approximately 1.9 miles of 4-inch pipeline for the purpose of rendering direct industrial service to Pabco Products, Incorporated which is building a new gypsum wallboard plant located between Florence and Portland, Colorado.

Said line will run from a point of interconnection with Applicant's present 8-inch Portland lateral line near Portland, Colorado, in a westerly direction for a distance of approximately 1.9 miles where it will terminate on or adjacent to the premises of Pabco. Applicant also proposes to construct a meter and regulator station to be located on or adjacent to the premises of Pabco.

The total estimated cost of the pipeline and station is stated to be $29,903. However, as a contribution in aid of construction, Pabco has agreed to reimburse Applicant for the actual cost of the 4-inch line which is stated by Applicant for this purpose to be $22,357.

Under contract dated June 6, 1955, Applicant proposes to deliver up to 1500 MCF per day, of which 25 MCF will be on a firm basis and 1475 MCF on an interruptible basis with an option to deliver quantities in excess of 1500 MCF per day on an interruptible basis. The prices to January 1, 1957 (thereafter to be determined annually on a negotiated basis), are stated as 30 cents per MCF for firm gas and 21 cents per MCF for interruptible gas.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 10, 1956, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and

procedure. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10333; Filed, Dec. 23, 1955; 8:49 a. m.]

[Docket No. G-4568, etc.]

BERT FIELDS, ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 19, 1955.

Bert Fields, et al., Docket Nos. G-4568—G-4572 inclusive; Rockhill Oil Company, et al., Docket Nos. G-5920, G-5921, G-5922, G-5923 and G-5935; Elm Oil and Gas Corporation, Docket Nos. G-5924 and G-5926; Dorchester Corporation, Docket No. G-5925; Sohio Petroleum Company, Docket No. G-5928; Sunray Oil Corporation, Docket No. G-5932; Simon Anisman, Docket No. G-5936; Fred M. Manning, Docket No. G-5954; Placid Oil Company, Docket Nos. G-5971 and G-5972.

Take notice that there have been filed with the Federal Power Commisison applications for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the respective Applicants in the above-entitled dockets to render the service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in their applications, which are on file with the Commission and open for public inspection.

Each of the above-named Applicants sells natural gas in interstate commerce for transportation and for resale from the following fields to the purchasers as indicated below:

Docket No.; Location of Field; and Purchaser

G-4568; Carthage Field, Panola County, Texas; Arkansas Louisiana Gas Company.

G-4569; North Lansing Field, Harrison County, Texas; Arkansas Louisiana Gas Company.

G-4570; Sentell Field, Bossier and Caddo Parishes, Louisiana; Arkansas Louisiana Gas Company.

G-4571; Carthage Field, Panola County, Texas; Tennessee Gas Transmission Company.

G-4572; Waskom Field, Harrison County, Texas; Arkansas Louisaina Gas Company.

G-5920; North Pettus Field, Bee, Carnes and Goliad Counties, Texas; United Gas Pipe Line Company.

G-5921; Carthage Field, Panola County, Texas; Arkansas Louisiana Gas Company.

G-5922; Brandt Field, Goliad County, Texas; Wilcox Trend Gathering System.

G-5923; Gloria Field, Jim Wells and Brooks Counties, Texas; Transcontinental Gas Pipe Line Corporation and Texas Illinois Natural Gas Pipe Line Company.

G-5924; Hugoton Field, Kearney County, Kansas; Colorado Interstate Gas Company.

G-5925; Panhandle Field, Carson and Gray Counties, Texas; Northern Natural Gas Company.

G-5926; Hugoton Field, Kearney County, Kansas; Colorado Interstate Gas Company.

G-5928; Egan Filed, Acadia Parish, Louisiana; Transcontinental Gas Pipe Line Corporation.

G-5932; Athens Field, Claiborne, Parish, Louisiana; Arkansas Louisiana Gas Company.

G-5935; Hordes Creek Field, Goliad County, Texas; Wilcox Trend Gathering System.

G-5936; West Panhandle, Gray County, Texas; Kerr McGee Oil Industries, Inc.

G-5954; Elk Basin Unit Area, Park County, Wyoming; Montana-Dakota Utilities Company.

G-5971; Sligo Field, Bossier, Parish, Louisiana; Texas Gas Transmission Corporation.

G-5972; Lapeyrouse Field, Terrebonne Parish, Louisiana; United Gas Pipe Line Company.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 24, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 10, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

Each has filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render services as hereinbefore described, subject to the jurisdiction of the Commission, all as more fully represented in their respective applications which are on file with the Commission and open for public inspection.

All of the Applicants herein listed produce and propose to sell natural gas to Tennessee Gas Transmission Company for transportation in interstate commerce for resale.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 18, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 3, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

REGIONAL ADMINISTRATORS

DELEGATION OF AUTHORITY WITH RESPECT TO PUBLIC FACILITY LOANS

Each Regional Administrator of the Housing and Home Finance Agency is hereby authorized to take the following actions, on behalf of the Housing and Home Finance Administrator, in connection with public facility loans authorized under section 202 of Public Law 345, 84th Congress (69 Stat. 642, 42 U. S. C. 1491):

1. To execute offers to public agencies for loans authorized by the Community Facilities Commissioner;

2. To authorize payments under any contracts resulting from acceptance of offers made pursuant to subparagraph 1 above;

3. To take all other actions requisite or needed in the administration of the program except the power:

(a) To determine the rate of interest on loans;

(b) to issue notes or other obligations for purchase by the Secretary of the Treasury;

(c) to authorize loans;

(d) to increase the amount of an authorized loan or to effect a major change in project scope; and

4. To redelegate to one or more officers or employees under his jurisdiction any of the authority herein delegated.

(Reorg. Plan No. 3 of 1947, 61 Stat. 954; 62 State. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U. S. C., 1952 ed. 1701c)

Effective as of the 28th day of November 1955.

[SEAL] ALBERT M. COLE,
Housing and Home Finance Administrator.

[F. R. Doc. 55-10313; Filed, Dec. 23, 1955; 8:45 a. m.]

COMMUNITY FACILITIES COMMISSIONER

DELEGATION OF AUTHORITY WITH RESPECT TO PUBLIC FACILITY LOANS

The Community Facilities Commissioner is hereby authorized:

1. To execute the powers and functions vested in the Housing and Home Finance Administrator under section 202 of Public Law 345, 84th Congress (69 Stat. 642, 42 U. S. C. 1491), except (a) the power to determine the rate of interest on loans and (b) the power to issue notes or other obligations for purchase by the Secretary of the Treasury; and

2. To redelegate to one or more officers or employees under his jurisdiction any of the authority herein delegated except the power to authorize loans.

(Reorg. Plan No. 3 of 1947, 61 Stat. 954; 62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U. S. C., 1952 ed. 1701c)

Effective as of the 28th day of November 1955.

[SEAL] ALBERT M. COLE,
Housing and Home Finance Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3434]

CITIES SERVICE CO.

NOTICE OF FILING OF DECLARATION REGARDING STOCK DIVIDEND

DECEMBER 20, 1955.

Notice is hereby given that Cities Service Company ("Cities"), a registered holding company, has filed a declaration with this Commission, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act").

All interested persons are referred to the declaration on file at the offices of this Commisison for a statement of the transactions therein proposed, which are summarized as follows:

Cities proposes to issue 198,242 shares of its $10 par value common stock and to distribute said shares on or about January 23, 1956, to its stockholders of record as of December 7, 1955, as a 2 percent stock dividend, on the basis of one share of said stock for each fifty shares of its outstanding 9,912,105 shares of common stock. In lieu of fractional shares, it is proposed to issue Order Forms, and the fractional interests represented thereby may be combined with other fractional interests to enable the holder to receive certificates for full shares, or may be sold as the owner may elect. The company has made arrangements with Guaranty Trust Company of New York to buy and sell such fractional interests for the account of the holders thereof, without cost to such holders. All shares held to cover fractional interests with respect to which Guaranty Trust Company does not receive completed Order Forms before the close of business on February 24, 1956, will be sold in due course for the account of the holders thereof, and the proceeds distributed pro rata. On February 28, 1962, all unclaimed and all undelivered proceeds of such sales shall become the absolute property of the company.

Cities proposes to assign a value of $54 per share to each of the 198,242 shares of common stock to be issued as a stock

dividend, or an aggregate of $10,705,068. It proposes to debit earned surplus in that amount, to credit its common stock capital account with the par value of such shares, $10 per share, or an aggregate of $1,982,420, and to credit its capital surplus account with the excess of the assigned value over the par value, $44 per share, or an aggregate of $8,722,648. The corporate earned surplus of the company at September 30, 1955 amounted to $206,602,540.

The company states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 4, 1956, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request, and the issues of fact or law raised by the declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should bear the above title and file number, and be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 24B-762]

MAINE MINING AND EXPLORATION CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

I. Maine Mining and Exploration Corporation, a Maine corporation, 193 Middle Street, Portland, Maine, having filed with the Commission on January 28, 1954, a notification on Form 1-A and an offering circular, and having subsequently filed amendments thereto, relating to an offering of 745,000 shares of 10 cents par value common stock at 40 cents per share for an aggregate of $298,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that:

1. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to the statement of receipts and disbursements as indicated in letters of the Commission's staff, dated April 18 and May 16, 1955;

2. The issuer failed to file, as required by rule 221,

(a) an undated letter mailed by the underwriter on or about June 1, 1955, to stockholders, which letter contained false and misleading statements with respect to the statements that the offering would soon be closed, orders would not be executed at the offering price of 40 cents per share after June 1, 1955, shares would be offered only in the open market at the prevailing market price and a merger with a financially sound company was being negotiated; and

(b) certain television advertisements relating to the offering on or after October 19, 1954, on station WATV Newark, New Jersey;

3. The offering has been made by the false and misleading statements in the aforesaid letter to stockholders by salesmen of the underwriter;

4. The issuer failed to file a report of sales on Form 2-A as required by rule 224; and

B. The use of said offering circular and the aforesaid written and oral statements did operate as a fraud or deceit upon the purchasers.

It is ordered, Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given, that any persons having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this Order and Notice shall be served upon Maine Mining and Exploration Corporation, 193 Middle Street, Portland, Maine, and Sonnenberg & Co., 120 North Wood Avenue, Linden, New Jersey, personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

UNITED STATES TARIFF COMMISSION

[List No. D-7-11]

APPARATUS FOR ELECTROLYTICALLY TREATING METAL SURFACES

COMPLAINT DISMISSED

DECEMBER 21, 1955.

Complaint as listed below heretofore filed with the Tariff Commission for investigation under the provisions of section 337 of the Tariff Act of 1930 has been dismissed.

Name of article	Purpose of request	Date received	Name and address of complainant
Apparatus for electrolytically treating metal surfaces.	Exclusion from entry.	July 1, 1955	Central Scientific Co., 1700 Irving Park Rd., Chicago 13, Ill., and others.

Notice of the receipt of the above complaint was published in 20 F. R. 5378.

By direction of the Commission.

[SEAL] DONN N. BENT, *Secretary.*

[F. R. Doc. 55-10346; Filed, Dec. 23, 1955; 8:52 a. m.]

TARIFF COMMISSION REPORT TO PRESIDENT OF "ESCAPE-CLAUSE" FINDINGS ON CERIUM ALLOYS

DECEMBER 21, 1955.

The Tariff Commission today submitted a report to the President of its findings and recommendation in "escape-clause" Investigation No. 41 under section 7 of the Trade Agreements Extension Act of 1951, as amended, with respect to ferrocerium and other cerium alloys dutiable under paragraph 302 (q) of the Tariff Act of 1930. The investigation was instituted by the Commission on April 7, 1955, on the basis of an application for an "escape-clause" investigation by domestic producers of lighter flints. The imports under the tariff provision in question consist primarily of lighter flints and rods from which lighter flints are made.

The Commission found unanimously that cerium alloys are being imported into the United States in such increased quantities, both actual and relative to domestic production, as to cause serious injury to the domestic lighter-flint producers and recommends to the President the withdrawal of the tariff concession on these products granted in the General Agreement on Tariffs and Trade. The statute allows the President a period of 60 days within which to act on the Commission's recommendation.

Copies of the Commission's report are available upon request, as long as the limited supply lasts. Requests for copies should be addressed to the United States Tariff Commission, Eighth and E Streets NW., Washington 25, D. C.

[SEAL] DONN N. BENT, *Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 12, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31406: *Bituminous coal from Menominee, Mich., to Wisconsin.* Filed by The Chicago, Milwaukee, St. Paul and Pacific Railroad Company. Rates on bituminous coal, carloads from Menominee, Mich., to points in Wisconsin.

Grounds for relief: Market competition.

Tariff: Supplement 19 to C. M. St. P. & P. Ry. Co. I. C. C. No. B-7789.

FSA No. 31407: *Commodities from and to points in Western Trunk Line Territory.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on barium carbonate, wallboard, zinc dry battery shells and fire fighting equipment, carloads from various origins in western trunk-line territory to various destinations in western trunk-line territory, also in official (including Illinois) and southern territories, and Canada, and between various points in western trunk-line and Illinois territories.

Grounds for relief: Carrier competition and circuity.

FSA No. 31408: *Substituted service—Pennsylvania Railroad.* Filed by Eastern Central Motor Carriers Association for and on behalf of the Pennsylvania Railroad Company, Eazor Express, Inc., and other interested motor carriers. Rates on various commodities, in highway truck trailers loaded on railroad flat cars between Chicago, Ill., and Kearny, N. J.

Grounds for relief: "Trailer-on-flat car" or motortruck competition.

Tariff: Eastern Central Substituted Freight Service Directory No. 34-D, I. C. C. No. 5.

FSA No. 31409: *Cement—Marquette and St. Louis, Mo., to Indiana.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on cement, common, hydraulic, masonry, mortar, natural or portland, carloads, from Marquette and St. Louis, Mo., to stations in Indiana within 240 miles from origins named in the application.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 32 to Agent Hinsch's I. C. C. 4225.

FSA No. 31410: *Sand and gravel from and to points in Alabama.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on chert, cinders, gravel, marl, oyster shell dust, sand, slag, slate, stone, broken, crushed, granulated or pulverized and related commodities, carloads from Bessemer, Ensley, Fairfield and Woodward, Ala., to Andalusia, Heath, Gantt, Dunns, and Glenwood, Ala.

Grounds for relief: Circuitous routes.

Tariff: Supplement 37 to Agent C. A. Spaninger's I. C. C. 1469.

FSA No. 31411: *Motor fuel anti-knock compounds—Louisiana to Illinois.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on motor fuel anti-knock compounds, tank-car loads from Baton Rouge and North Baton Rouge, La., to Chicago, Ill., and group, also Lemont and Lockport, Ill.

Grounds for relief: Barge competition and circuity.

Tariff: Supplement 145 to Alternate Agent Marque's I. C. C. 417.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F. R. Doc. 55-10286; Filed, Dec. 22, 1955; 8:46 a. m.]

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 21, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31447: *Sand from Vincennes, Ind., to Pana, Ill.* Filed by R. G. Raasch, Agent, for the Baltimore and Ohio Railroad Company. Rates on sand, carloads from Vincennes, Ind., to Pana, Ill.

Grounds for relief: Motor truck competition.

Tariff: Supplement 45 to Baltimore & Ohio Railroad tariff I. C. C. 24048.

FSA No. 31448: *Iron and steel articles in Western Trunk Line Territory.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on iron and steel articles, carloads from, to, and between points in western trunk line territory.

Grounds for relief: Short-line distance formula, carrier competition, circuity, and to maintain higher rates from and to points in territory outside the scope of the instant adjustment.

Tariff: Supplement 32 to W. J. Prueter's tariff I. C. C. No. A-3821, and others listed in the application.

FSA No. 31449: *Acidulated phosphate from Idaho and Utah.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on phosphate, acidulated or ammoniated, carloads, from Don, Idaho, and Garfield, Utah, to points in Minnesota, North Dakota, and South Dakota.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement No. 5 to Agent Prueter's I. C. C. A-4123; Supplement No. 13 to Union Pacific Railroad tariff I. C. C. No. 5285.

FSA No. 31450: *Sugar from Gulf Ports to points in Georgia.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on sugar, carloads from New Orleans, Three Oaks, Gramercy, Reserve, La., Gulfport, Miss., and Mobile, Ala., and points taking the same rates to points in Georgia.

Grounds for relief: Circuity.

Tariffs: Supplement 285 to Alternate Agent J. H. Marque's I. C. C. No. 380.

FSA No. 31451: *Coke from Illinois to Keokuk, Iowa.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on coke, coke breeze, coke dust or coke screenings, carloads from Roxana, Wood River, and Federal, Ill., to Keokuk, Iowa.

Grounds for relief: Barge and market competition.

Tariff: Supplement 39 to Agent Raasch's I. C. C. No. 767.

FSA No. 31452: *Lignin liquor—East to Central Territory.* Filed by C. W. Boin, and O. E. Swenson, Agents, for interested rail carriers. Rates on lignin liquor, in tank cars from Erie, Johnsonburg and York Haven, Pa., and Corinth, N. Y., to points in Illinois, and Davenport, Iowa and Mexico, Mo.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 92 to Agent Boin's I. C. C. A-1015 and others.

FSA No. 31453: *Lithium ore—East to Twin Cities.* Filed by C. W. Boin, and O. E. Swenson, Agents, for interested rail carriers. Rates on lithium ore, carloads from North Atlantic Ports and Exton, Pa., and Camden, N. J., to Minneapolis, Minnesota Transfer, St. Paul and St. Louis Park, Minn.

Grounds for relief: Port equalization, port relations and circuity.

Tariffs: Supplement 27 to C. W. Boin's I. C. C. A-1034; Supplement 66 to O. E. Swenson's I. C. C. 604.

FSA No. 31454: *Lumber—Missouri-Arkansas to Illinois.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on lumber and related articles, carloads from Southeast Missouri and Northeast Arkansas to southern Illinois.

Grounds for relief: Grouping and circuity.

Tariff: Supplement 89 to Agent Kratzmeir's I. C. C. 3954.

FSA No. 31455: *Petroleum coke from East St. Louis, Ill., to Keokuk, Iowa.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on petroleum coke, petroleum coke breeze, petroleum coke dust, and petroleum coke screenings, carloads from East St. Louis, Ill., to Keokuk, Iowa.

Grounds for relief: Circuity and barge competition.

Tariff: Supplement 39 to Agent Raasch's I. C. C. No. 767.

FSA No. 31456: *Roofing and building materials—South to North.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on roofing and building material, and slate roofing, carloads from points in southern territory to points in official territory.

Grounds for relief: Short-line distance formula, grouping and circuity.

Tariff: Supplement 2 to Agent Spaninger's I. C. C. No. 1500.

FSA No. 31457: *Sugar—Minnesota to Gary, Ind.* Filed by E. W. Bergstrom, Alternate Agent, for interested rail carriers. Rates on sugar, carloads, from Bingham, East Grand Forks and Wilds, Minn., to Gary, Ind.

Grounds for relief: Grouping and circuity.

Tariff: Supplement 47 to Agent Brown's I. C. C. No. 2.

FSA No. 31458: *Motor-rail Rates—N. Y. N. H. & H. RR.* Filed by The New York, New Haven and Hartford Railroad Company and Central Motor Trucking,

Inc., and other motor carriers. Rates on various commodities between points in New England and points in the United States.

Grounds for relief: Motor competition, grouping, and circuity.

FSA No. 31459: *Old bags—Cleveland, Ohio to Memphis, Tenn.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on old worn out bags, carloads from Cleveland, Ohio to Memphis, Tenn.

Grounds for relief: Competition and circuity.

FSA No. 31460: *Monel metal from Huntington, W. Va., to New Orleans, La.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on Monel, nickel, and inconel metals, bar or rod, plate, strip, or sheet, pipe or tubing, carloads from Huntington, W. Va., to New Orleans, La.

Grounds for relief: Carrier competition and circuity.

F. S. A. No. 31461: *Window glass from Pennsylvania and West Virginia.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on glass, window (other than plate), carloads from Clarksburg, W. Va., Jeanette and New Kensington, Pa., to points in North Carolina and Virginia.

Grounds for relief: Motor truck competition.

Tariff: Supplement 2 to Agent Boin's I. C. C. No. A-1079.

By the Commission.

MAIN READING ROOM

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[7th Gen. Rev. of Export Regs., Amdt. 47]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

Section 373.41 *Nonferrous commodities, including ores, concentrates, or unrefined products* is amended to read as follows:

§ 373.41 *Nonferrous commodities, including ores, concentrates, or unrefined products*—(a) [Reserved.]

(b) *Nonferrous metal alloys, including alloy scrap.* Applications for licenses to export the nonferrous metal alloys, or alloy scrap, listed below, shall contain in the commodity description column of Form IT– or FC–419, a complete commodity description, including the percentage of each alloying element present or the recognized standard commercial brand or trade name of the commodity, such as is published in "Engineering Alloys" by the American Society for Metals, or as published in "Standard Specification" by the American Society for Testing Materials:

Commodity	Schedule B No.
Copper-base alloy ingots	644100
Nickel alloy scrap, including nickel-bearing stainless steel scrap	654502
Nickel-bearing cobalt scrap	664526

(c) *Nickel alloy and nickel-bearing cobalt scrap*—(1) *Nickel alloy scrap, including nickel-bearing stainless steel scrap, Schedule B No. 654502.* Evidence of commercial unsalability in the domestic market, as provided in subparagraph (3) of this paragraph, shall be submitted in support of applications to export (i) clean nickel alloy scrap, containing less than 50 percent nickel, (ii) contaminated nickel alloy scrap, (iii) nickel-copper alloy scrap (including monel) containing 75 percent or less nickel, and (iv) contaminated nickel-chromium-iron alloy scrap (nickel-bearing stainless steel scrap) containing up to 36 percent nickel with a minimum chromium content of 10 percent.

(2) *Nickel-bearing cobalt scrap, Schedule B No. 664526.* Applications for licenses to export clean cobalt scrap containing less than 50 percent nickel, and contaminated cobalt scrap shall be supported by evidence of commercial unsalability in the domestic market as provided in subparagraph (3) of this paragraph.

NOTE: For purposes of this section, material is considered to be contaminated when the contaminant can not be readily sorted from the balance of the material.

(3) *Evidence of commercial unsalability.* As required in subparagraphs (1) and (2) of this paragraph, the exporter must submit evidence of commercial unsalability in the domestic market. This evidence may be in the form of a letter or other statement from the applicant, supplier, or persons to whom the scrap was offered for sale. Such evidence must be adequate to demonstrate that the scrap has been offered for sale without success in the normal domestic market at reasonable and competitive prices. It shall include, as a minimum, the names and addresses of the potential users to whom the scrap has been offered, the terms at which it has been offered, and the reason(s) for rejection of offers to sell.

(4) *Commodities not licensed.* Pure nickel scrap, clean nickel alloy scrap containing 50 percent or more nickel, clean nickel-chromium-iron alloy scrap (nickel-bearing stainless steel) containing up to 36 percent nickel with a minimum chromium content of 10 percent, and clean cobalt scrap containing 50 percent or more nickel, will not be considered for licensing.

(d) *Copper ores, and concentrates, unrefined copper, refined copper, copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms including remelt ingots*—(1) *General.* License applications to export copper ores, concentrates, matte, and other unrefined copper, Schedule B No. 640100; refined copper in cathodes, billets, ingots, wire bars, and anodes and other crude forms, except copperweld rods, Schedule B No. 641200 (hereinafter referred to as refined copper); copper scrap (new and old), Schedule B No. 641300; copper-base alloy scrap (new and old), Schedule B No. 644000; and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, will be

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

considered for approval in accordance with the procedures described below.

(2) *Refined copper, Schedule B No. 641200.* License applications to export refined copper in cathodes, billets, ingots, wire bars and other crude forms (including anodes) made from domestic origin materials, or Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, will generally be denied. License applications covering the exportations of these refined copper materials made from foreign or commingled domestic and foreign origin materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, shall include the following:

(i) *Certification of foreign origin or commingled origin.* (*a*) Applications from non-producers of refined copper—Applications from non-producers covering refined copper made from materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, of foreign or commingled domestic and foreign origin materials shall be accompanied by a letter, addressed to the Bureau of Foreign Commerce, from the producer of the refined copper to the effect that (*1*) the refined copper proposed for export is refined from foreign origin copper other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots; or (*2*) that an equivalent amount of foreign origin materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export.

(*b*) Applications from producers of refined copper—Applications from producers of refined copper made of foreign or commingled (foreign and domestic origin) materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, shall include the following certification:

I (we) certify that I am (we are) the producer(s) of the refined copper covered by this license application and (1) that this refined copper was produced from foreign origin materials other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, or (2) that an equivalent amount of foreign materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export.

(ii) *Availability for export.* One of the following certifications shall appear on each license application:

(*a*) Where materials are in possession of applicant the applicant shall execute and submit to the Bureau of Foreign Commerce the following certification:

I (we) certify that the copper materials described in this license application are in my (our) possession and will be available for export not later than December 31, 1955.

or

(*b*) (*1*) Where materials are not in possession of applicant, the applicant shall submit to the Bureau of Foreign Commerce the following certification from the producer of the materials:

I (we) certify that not later than December 31, 1955, I (we) shall supply to _____
_____,
(Name of applicant)
_____ short
(Quantity in short tons)
tons of _____
(Type of copper material)
in accordance with the terms of contract sale number _____ dated
(Contract number)
_____.
(Date of contract)

(2) All documents evidencing commitment of sale must be kept available for inspection, upon demand, by the Bureau of Foreign Commerce for three years from the date of receipt of the application, as shown on the Acknowledgment Card, Form IT– or FC–116.

(3) Applications not accompanied by the evidence of availability required by the provisions of this subparagraph, shall not be approved and should not be submitted.

(iii) *Disclosure of foreign consumer.* The foreign consumer shall be identified on the license application by the use of one of the following applicable statements:

The foreign consumer of the commodities covered by this application is the same as that shown in item 7 on this license application;

or if the foreign consumer is not the same as that shown in item 7:

The name and address of the foreign consumer is _____.

(iv) *Toll or conversion agreements.* Applications covering the exportation of refined copper produced in the United States under toll or conversion agreements from materials received from foreign sources are not subject to any of the above provisions of this paragraph. Where the license application covers refined copper produced from toll or conversion agreements, the applicant shall include the following certification on the license application:

I (we) certify that the refined copper described in this license application was produced in the United States under toll or conversion contracts from materials received from foreign sources.

(3) *Copper ores, concentrates, matte, and other unrefined copper, Schedule B No. 640100.* License applications to export copper ores, concentrates, matte, and other unrefined copper of domestic origin or produced from domestic materials generally will be denied. However, where consideration of such applications is requested, the application shall be supported by documentation or other evidence showing any exceptional hardship as well as by the information set forth in subparagraph (2) (ii) and (iii) of this paragraph. With reference to the copper materials included in this paragraph, a foreign smelter, refiner, or processor may be identified as the consumer. License applications covering the exportation of these copper materials of foreign origin or produced from foreign material shall include in addition to the information set forth in subparagraph (2) (ii) and (iii) of this paragraph, the following:

(i) *Non-producers.* Applications from non-producers covering the exportation of these materials of foreign origin or commingled foreign and domestic origin (or materials produced from materials of foreign origin or commingled foreign and domestic origin) shall be accompanied by a letter addressed to the Bureau of Foreign Commerce from the producer of the copper material to the effect that (*a*) the material proposed for export is of foreign origin or is produced from foreign origin materials; or (*b*) that an equivalent amount of foreign origin material has been imported to replace in the domestic market the amount of domestic copper material contained in the commingled copper materials proposed for export.

(ii) *Producers.* (*a*) Applications from producers of these copper materials of foreign or commingled foreign and domestic origin, (or produced from foreign or commingled foreign and domestic materials) shall include the following certification:

I (we) certify that I am (we are) the producer(s) of the unrefined copper material covered by this license application and that (1) this material was produced from foreign origin material, or (2) that an equivalent amount of foreign material has been imported to replace in the domestic market the amount of domestic copper material contained in the commingled copper material proposed for export.

(*b*) The provisions of this subparagraph do not apply to exportations of materials included under Schedule B No. 640100 made for purposes of processing abroad where the resultant copper is to be returned to the United States. In such cases, details of the transaction shall accompany the application for an export license.

(4) *Copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms including remelt ingots.* (i) In order that the Bureau of Foreign Commerce may provide an equitable basis for distributing available export quotas for copper scrap (new and old) containing 40 percent or more copper, Schedule B No. 641300; copper-base alloy scrap (new and old) containing 40 percent or more copper, Schedule B No. 644000; and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, applicants are required to submit to the Bureau of Foreign Commerce a Statement of Past Participation in Exports of these commodities on Form IT– or FC–821 in accordance with the procedure set forth in § 373.4. A separate report on Form IT– or FC–821 shall be filed for each Schedule B number, broken down by countries of destination, and shall cover the quantity in Schedule B units of exports from the United States made during the fourth calendar quarter of 1953 and the calendar year 1954, where the total for such exports to all countries for each Schedule B number was $5,000 or over for the five quarters. In preparing Form IT– or FC–821, the heading above items (c) and (d) shall be changed to read "4th quarter 1953" and the heading above items (e) and (f) shall read "calendar year 1954."

(ii) License applications covering copper scrap (new and old) containing less than 40 percent copper, Schedule B No. 641300, or copper-base alloy scrap (new and old) containing any percentage of copper, Schedule B No. 644000, shall include information as to the copper and nickel content of the material.

(5) *Validity period.* Licenses to export all materials covered by this paragraph will be issued for a validity period ending on the last day of the third month following the month during which the license is validated, e. g., a license issued on November 25, 1955, would expire February 29, 1956.

(6) *Amendments to export licenses.* Except for export licenses issued under toll or conversion agreements, no amendments requesting an extension of the validity period of the license will be granted for export licenses issued under this procedure.

(7) *Time for submission of applications.* Applications for licenses to export copper scrap (new and old) containing 40 percent or more copper Schedule B No. 641300, copper-base alloy scrap (new and old) containing 40 percent or more copper, Schedule B No. 644000, and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, shall be submitted in accordance with the time schedules set forth in § 373.71.

(e) *Aluminum scrap (new and old) and aluminum remelt ingots*—(1) *General.* License applications to export aluminum scrap (new and old), Schedule B No. 630050 and aluminum remelt ingots, Schedule B No. 630070, will be considered by the Bureau of Foreign Commerce for approval in accordance with the procedure described herein.

(2) *Availability for export.* One of the following certifications shall appear on each license application:

(*a*) Where materials are in possession of applicant, the applicant shall execute and submit to the Bureau of Foreign Commerce the following certification:

I (we) certify that the aluminum materials described in this license application are in my (our) possession and will be available for export not later than December 31, 1955.

or

(*b*) (*1*) Where materials are not in possession of applicant, the applicant shall submit to the Bureau of Foreign Commerce the following certification from the supplier of the materials:

I (we) certify that not later than December 31, 1955, I (we) shall supply to _____
_____,
(Name of applicant)
_____
(Quantity in short tons)
short tons of _____
(Type of aluminum material)
in accordance with the terms of contract sale number _____
(Contract number)
dated _____
(Date of contract)

(2) All documents evidencing commitment of sale must be kept available for inspection, upon demand, by the Bureau of Foreign Commerce for three years from the date of receipt of the application, as shown on the Acknowledgment Card (Form IT– or FC–116).

(3) *Statement of past participation in exports, Form IT– or FC–821.* Applicants are required to submit to the Bureau of Foreign Commerce for the commodities set forth above a Statement of Past Participation in Exports on Form IT– or FC–821 in accordance with the procedure set forth in § 373.4. A separate report on Form IT– or FC–821 shall be filed for each Schedule B number, broken down by countries of destination, and shall cover the quantity in Schedule B units of exports from the United States made during the second, third and fourth calendar quarters of 1954 and the first calendar quarter of 1955, where the total for such exports to all countries

for each Schedule B number was $2,000 or over for the four quarters. In preparing Form IT– or FC–821, the heading above items (c) and (d) shall be changed to read "2d, 3d, 4th quarters, 1954", and the heading above items (e) and (f) shall read "1st quarter 1955."

(4) *Unsalable leaded aluminum foil.* Applications for licenses to export leaded aluminum foil scrap for which there is no market in the United States are not subject to subparagraphs (2) and (3) of this paragraph, but shall be supported by evidence of commercial unsalability in the domestic market. This evidence may be in the form of a letter or other statement from the applicant, supplier, or persons to whom the scrap was offered for sale. The evidence must be adequate to demonstrate that the scrap has been offered for sale without success in the normal domestic market at reasonable and competitive prices. It shall include, as a minimum, the names and addresses of the potential users to whom the scrap has been offered, the terms at which it has been offered, and the reason(s) for rejection of offers to sell.

(5) *Aluminum scrap containing 70 percent or less aluminum* (including drosses, skimmings, slags, ashes, insulated wire and cable, paper-backed and cloth-backed aluminum foil). Applications for licenses to export aluminum scrap containing 70 percent or less aluminum shall specify the weight of the aluminum alloy metal content of the scrap material to be exported.

(6) *Validity period.* Licenses to export the aluminum materials covered by this paragraph will be issued for a validity period ending on the last day of the third month following the month during which the license is validated, e. g., a license issued on October 25, 1955, would expire January 31, 1956. However, no licenses will be approved for a validity period extending beyond January 31, 1956.

(7) *Amendments to export licenses.* No amendments requesting an extension of the validity period of the license will be granted for export licenses issued under this procedure. Where an amendment request involves an action other than an extension of the validity period, it shall be submitted directly to the Bureau of Foreign Commerce.

(8) *Time for submission of applications.* Applications for licenses to export aluminum scrap (new and old), Schedule B No. 630050, and aluminum remelt ingots, Schedule B No. 630070, shall be submitted in accordance with the time schedules set forth in § 373.71.

(9) *Utilization of export quota.* (i) A licensee who determines that the full amount of the quantity of the aluminum materials shown on the export license will not be used during the validity period for which it was issued should promptly submit a request for amendment on Form IT– or FC–763 to reduce the quantity of the aluminum materials licensed to the amount actually intended for export. The amendment procedure set forth in § 380.2 (g) of this subchapter shall be followed in requesting quantity reductions on outstanding licenses.

(11) Any quantities recovered as a result of this procedure will be considered for licensing in the same quarter in which they were recovered. The return of any unused quantities by an exporter will in no way affect the exporter's entitlement under the historical licensing procedure in future quarters.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

JOHN C. BORTON,
Acting Director,
Bureau of Foreign Commerce.

PART 989—RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

MODIFICATION OF MINIMUM GRADE STANDARDS FOR PACKED MUSCAT RAISINS

Correction

In F. R. Document 55–10276, appearing in the issue for Thursday, December 22, 1955, at page 9855, in the first line of paragraph 1, the reference to "§ 989.69 (a) (1) (i)" should read "§ 989.59 (a) (1) (i)".

[Docket No. AO–268]

PART 1009—MILK IN CLARKSVILLE, W. VA., MARKETING AREA

ORDER REGULATING HANDLING

Correction

In Federal Register Document 55–8101, appearing at page 7433 of the issue for Thursday, October 6, 1955, § 1009.5 (f) should read as follows:

§ 1009.5 *Clarksville marketing area.* • • • (f) the City of Westen in Lewis County • • •.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1262]

ALASKA

EXCLUDING CERTAIN TRACTS FROM CHUGACH NATIONAL FOREST AND RESTORING THEM FOR PURCHASE AS HOMESITES AND AS TRADE AND MANUFACTURING SITES

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The following-described tracts of public land in Alaska, occupied as homesites or as trade and manufacturing sites, and identified by surveys of which plats and field notes are on file in the Bureau of Land Management, are hereby excluded from the Chugach National Forest, Alaska, as hereinafter indicated, and restored, subject to valid existing rights, for purchase as homesites or as trade and manufacturing sites under section 10 of the act of May 14, 1898, as amended by the act of May 26, 1934 (48 Stat. 809; 48 U. S. C. 461):

[69011]

An area to be identified as U. S. Survey No. 3392, 5.56 acres; latitude 60°29' N., longitude 149°56' W.

An area to be identified as U. S. Survey No. 3393, 4.8 acres; latitude 60°29' N., longitude 149°59' W.

An area to be identified as U. S. Survey No. 3405, 1.3 acres; latitude 60°30' N., longitude 149°47' W.

U. S. Survey No. 3306, Tract 10–A, 1.56 acres; latitude 60°30'10" N., longitude 149°48' W. (Homesite No. 159, Slaughter Creek Group).

[69120]

U. S. Survey No. 2519, Tract 1, 3.28 acres; latitude 60°25'30" N., longitude 149°22' W. (Homesite No. 134, Fall Creek Group).

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

DECEMBER 21, 1955.

CERTIFICATE

§ 50.1 , *Issuance.* An airman agency certificate will be issued to an applicant who complies with the minimum requirements for one or more school ratings.

§ 50.2 *School ratings.* (a) Basic ground school.
(b) Advanced ground school.
(c) Primary flying school. (1) Airplanes.
(2) Helicopters.
(3) Gliders.
(d) Commercial flying school. (1) Airplanes.
(2) Helicopters.
(3) Gliders.
(e) Instrument flying school.
(f) Flight instructor school.

REQUIREMENTS

§ 50.10 *Ground school requirements.* (a) Classrooms adequately heated and lighted, of sufficient size to accommodate the greatest number of students scheduled for attendance at any one time.

(b) Sufficient classroom equipment to insure adequate instruction in all required subjects.

(c) At least one regularly available principal instructor possessed of a ground instructor certificate with ratings for each of the required subjects of the curriculum.

§ 50.11 *Ground school curriculum.* A ground school curriculum approved by the Administrator for at least one of the following:

(a) *Basic ground school.* 50 hours of classroom instruction in the subjects of Civil Air Regulations (the regulations in this subchapter), including air traffic control practices and procedures, navigation, meteorology, and general servicing of aircraft.

(b) *Advanced ground school.* 150 hours of instruction in the subjects of Civil Air Regulations, including air traffic control practices and procedures, navigation, meteorology, aircraft and engines, including the general servicing and maintenance of aircraft and engines.

§ 50.12 *Flying school requirements.* (a) An airport adequate for the aircraft to be used and safe for the flight instruction to be given.

(b) Adequate hangar facilities housing all aircraft used for flight instruction.

(c) Adequate office, rest room, and ready room facilities.

(d) A sufficient number of certificated aircraft appropriate for the flight instruction to be given.

(e) Adequate shop, or readily available facilities suitable to insure proper maintenance of the aircraft to be used.

(f) A sufficient number of certificated mechanics readily available to provide for the inspection, maintenance, and repair of all aircraft used for flight instruction, unless other arrangements are approved by the Administrator.

(g) A sufficient number of regularly available and appropriately rated flight instructors.

§ 50.13 *Flying school curriculum.* A curriculum approved by the Administrator for at least one of the following:

(a) *Primary flying school.* (1) Airplanes—35 hours of flight time, or 30 hours of flight time and such additional specialized instruction as is acceptable to the Administrator.
(2) Helicopters—35 hours of flight time.
(3) Gliders—8 hours of flight time.
(b) *Commercial flying school.* (1) Airplanes—160 hours of flight time.
(2) Helicopters—160 hours of flight time.
(3) Gliders—20 hours of flight time.
(c) *Instrument flying school.* 30 hours of instrument flying instruction of which at least 20 hours shall be in actual flight; and 30 hours of ground instruction in the subjects of Civil Air Regulations (the regulations in this subchapter), navigation, meteorology, and radio orientation and procedure, as applied to instrument flying.
(d) *Flight instructor school.* 25 hours of flying devoted exclusively to the science of flight instruction, and 40 hours of theoretical instruction in subjects covering the fundamentals of giving flight instruction and the analysis and performance of flight technique.

GENERAL

§ 50.20 *Application.* Application for an airman agency certificate and rating shall be made upon the form prescribed and furnished by the Administrator, and shall be accompanied by two copies of any proposed curriculum.

§ 50.21 *Display.* Display of an airman agency certificate shall be made upon the reasonable request of any person.

§ 50.22 *Duration.* An airman agency certificate shall expire 24 calendar months after the month of issuance.

§ 50.23 *Renewal.* Application for renewal of an airman agency certificate shall be made on a form furnished by the Administrator and may be mailed or presented to any inspector within 60 days prior to the month of expiration.

§ 50.24 *Transfer.* An airman agency certificate is not transferable.

§ 50.25 *Surrender.* Upon the suspension, revocation, termination, or cancellation of an airman agency certificate the holder thereof shall surrender such certificate to an authorized representative of the Administrator.

§ 50.26 *Quality of instruction.* The quality of instruction shall be such that at least 80 percent of the students who apply within 60 days after graduation will be able to qualify for pilot ratings appropriate to the curriculum from which they were graduated.

§ 50.27 *Student examinations.* Upon the completion of each subject included in an approved curriculum, each student taking the subject shall be given an appropriate examination. The student's written examination, or, in the case of a practical examination, a report thereof, shall be kept by the school for not less than 1 year from the date of the termination of the student's enrollment.

§ 50.28 *Records.* The school shall keep an accurate individual record of each student, which shall include a chronological log of all instruction, attendance, subjects covered, examination, and examination grades. The entire record shall be certified by an authorized official of the school.

§ 50.29 *Graduation certificates.* A graduation certificate on the form prescribed by the Administrator shall be given each student graduated from a certificated airman agency school.

§ 50.30 *Inspection.* Upon reasonable request, an applicant for an airman agency certificate, or the holder of such a certificate, shall permit any authorized representative of the Administrator or the Board to inspect its personnel, facilities, equipment, and records.

§ 50.31 *Curriculum changes.* Changes in an approved curriculum shall not be made without filing immediate notification of such changes with the Administrator. Unless the school is notified to the contrary within 45 days after filing the proposed changes with the Administrator, they will be considered approved.

§ 50.32 *Maintenance of facilities, equipment, and material.* A certificated airman agency shall maintain personnel, facilities, and equipment at least equal in quality and quantity to those required for the issuance of such a certificate.

§ 50.33 *Advertising.* No certificated airman agency shall make any statement pertaining to the school which is false, or which is designed to mislead any person contemplating enrollment in the school. Any advertising which indicates that the school is approved by the Administrator shall clearly differentiate between those courses which have been approved by the Administrator and those which have not.

§ 50.34 *Change of location.* No change in a location of an approved airman agency shall be made without the prior written approval of the Administrator.

[F. R. Doc. 55–10358; Filed, Dec. 27, 1955; 8:47 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 174]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest. and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53985]

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

POWERS OF ATTORNEY

A study of the Customs Regulations relating to powers of attorneys indicates that certain requirements of the regulations have in many instances made the use of powers of attorney impracticable. As a result, a large number of customs transactions are made in the name of a nominal consignee, rather than in the name of the actual consignee. In order to relieve restrictions on the use of powers of attorney to the extent that the revenue will not thereby be endangered, § 8.19 of the Customs Regulations is amended as follows:

1. Paragraph (a) is amended to read as follows:

(a) A power of attorney may be executed for the transaction of a specified part or for all the customs business of the principal, except that a separate power of attorney on customs Form 5295 or 5295–A shall be required for filing protests.[26a] Customs Form 5291 may be used by individuals and customs Form 5293 by corporations for giving powers of attorney to transact customs business. If a customs power of attorney is not on a prescribed customs form, it shall be either a general power of attorney with unlimited authority [26a] or a limited power of attorney as explicit in its terms as is the prescribed customs form and executed in the same manner as the prescribed form. If for the execution of sealed instruments, it shall be under seal. A customs power of attorney to a minor shall not be accepted. A customs power of attorney executed under authority of another power of attorney shall be accepted if the grantor of the original power of attorney is a nonresident and if such original power contains express authority from the principal for the appointment of a subagent or subagents. Customs powers of attorney of residents shall be without power of substitution except for the purpose of executing shippers' export declarations. A subagent so appointed cannot delegate his authority. A customs power of attorney executed in favor of a licensed corporate customhouse broker may specify that the power of attorney is granted to the corporation to act through any of its licensed officers or any employees specifically authorized to act for such corporation by power of attorney filed by the corporation with the collector of customs.

2. There is appended to paragraph (a) the following new footnote:

[26a] The following is an example of an acceptable general power of attorney with unlimited authority:

Know all men by these presents, that

(Name of principal)

(State legal designation, such as corporation, individual, etc.)

residing at ---
and doing business under the laws of the State of ---
hereby appoints ---

(Name, legal designation, and address)

as a true and lawful agent and attorney of the principal named above with full power and authority to do and perform every lawful act and thing the said agent and attorney may deem requisite and necessary to be done for and on behalf of the said principal without limitation of any kind as fully as said principal could do if present and acting, and hereby ratify and confirm all that said agent and attorney shall lawfully do or cause to be done by virtue of these presents until and including ---, or until notice
(Date)
of revocation in writing is duly given before that date.

(Principal's name)

3. Paragraph (e) is amended to read as follows:

(e) A power of attorney shall not be required when the person signing customs documents on behalf of a resident corporation is known to the collector to be the president, vice president, treasurer, or secretary of the corporation. When a power of attorney is required for a resident corporation, it shall be executed by an officer of the corporation, and a certificate of the secretary, assistant secretary, or other corporate officer, but not the officer executing the power, showing the authority of such officer to execute the power of attorney shall be executed under seal as follows:

CERTIFICATE

I, ---, certify that I am the --- of ---, organized under the laws of the State of ---; that ---, who signed this power of attorney on behalf of the donor, is the --- of the said corporation; and that said power of attorney was duly signed, sealed, and attested for and in behalf of said corporation by authority of its governing body as the same appears in a resolution of the Board of Directors passed at a regular meeting held on the --- day of ---, now in my possession or custody. I further certify that the resolution is in accordance with the articles of incorporation and by-laws of said corporation.

In witness whereof, I have hereunto set my hand and affixed the seal of said corporation, at the City of --- this --- day of ---, 19---.

A power of attorney executed by a nonresident corporation shall be supported by the following documents which, except the certificate of incorporation, shall be certified as correct by the secretary of the corporation under its corporate seal: (1) a certificate from the proper public officer of the country showing the legal existence of the corporation, (2) a copy of that portion of the charter or articles of incorporation which shows the scope of the business of the corporation and the governing body thereof, (3) if the authority of the grantor is derived from the charter or articles of incorporation, there shall be filed also a copy of that portion thereof which contains such authority or, if the authority of the grantor is derived from the governing body, there shall be filed a copy of the by-laws or other document which authorizes the governing body to designate others to appoint agents or attorneys, together with a copy of the resolution, minutes, or other document by which the governing body conferred the authority on the grantor.

4. A new paragraph (j) is added reading as follows:

(j) An individual (but not a partnership, association, or corporation) who is not a regular importer may appoint a relative as his agent for customs purposes by executing a power of attorney applicable to a single non-commercial shipment by writing, printing, or stamping and subscribing on the invoice, or a separate paper attached thereto, the following statement:

--- of ---
Name Address

is hereby authorized to execute, as an agent who has knowledge of the facts, pursuant to the provisions of section 485 (f), Tariff Act of 1930, as amended, the consignee's and owner's declarations provided for in section 485 (a) and (d), Tariff Act of 1930, and to enter on my behalf or for my account the goods described in the attached invoice which contains a true and complete statement of the facts concerning this shipment.

Date ---, 19---.
Signature of importer ---
Address ---

5. A new paragraph (k) is added reading as follows:

(k) For the purposes of this section "resident" shall mean an individual who resides within, or a partnership, one or more of whose partners reside within, the customs territory of the United States or the Virgin Islands, or a corporation incorporated in any State, Territory, or possession within the customs territory of the United States or in the Virgin Islands.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

Notice of the proposed amendment of § 8.19 was published in the FEDERAL REGISTER on August 10, 1955 (20 F. R. 5779). After consideration of the data, views, and arguments received relating to the proposed amendment, the amendments set forth above are adopted and shall become effective 60 days after publication in the FEDERAL REGISTER.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: December 20, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10355; Filed, Dec. 27, 1955; 8:46 a. m.]

[T. D. 53984]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

ARTICLES FOR PERSONAL OR HOUSEHOLD USE, ENTRY

As the result of suggestions received under the Incentive Awards Program, the Bureau has decided that articles accompanying and for the personal or household use of persons arriving in the United States and entitled to free entry under section 321 (a) (2) (B) of the Tariff Act of 1930, as amended, may be cleared under an oral declaration and that declarations of owners with supporting inventories described in § 10.26

(b) and (c) of the Customs Regulations covering the personal and household effects of members of the armed forces of the United States or of civilian employees of the Panama Canal which are examined by customs officers outside the United States and passed free upon arrival in this country may be accepted as entries for the effects.

Accordingly, the Customs Regulations are amended as follows:

Section 10.19 (b) is amended by inserting "or are being admitted free of duty under section 321 (a) (2) (B)" after "1798 (b)".

(Sec. 498, 46 Stat. 728, as amended; 19 U. S. C. 1498)

Section 10.26 (b) is amended by deleting "and upon an entry being filed to cover the importation" in the first sentence and by adding the following sentence at the end of the paragraph: "The declaration of the owner may be accepted as an entry for any effects passed free under this paragraph when supported by evidence of the right to make entry."

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 19, 19 U. S. C. 66, 1624)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: December 20, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10354; Filed, Dec. 27, 1955; 8:46 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VI—Department of the Navy

MISCELLANEOUS AMENDMENTS TO CHAPTER

1. Part 720 is amended to read as follows:

PART 720—PROCEEDINGS IN CIVIL COURTS

Sec.

720.1 Delivery when personnel beyond territorial limits of the requesting State.
720.2 Delivery when personnel within territorial limits of the requesting State.
720.3 Agreement required prior to delivery to State authorities.
720.4 Delivery of personnel to Federal authorities.
720.5 Personnel released by civil authorities on bail or on their own recognizance.
720.6 Service of process upon personnel of the Naval Establishment.
720.7 Personnel of the Naval Establishment subpoenaed as witnesses in State or Local courts.
720.8 Personnel of the Naval Establishment subpoenaed as witnesses in Federal courts.
720.9 Naval prisoners as witnesses or parties in civil courts.

AUTHORITY: §§ 720.1 to 720.9 issued under R. S. 161, sec. 1 64 Stat. 112; 5 U. S. C. 22, 50 U. S. C. 568.

NOTE: §§ 720.1 to 720.9 are contained in Chapter VII of 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951.

§ 720.1 *Delivery when personnel beyond territorial limits of the requesting State.* In all cases in which the delivery of any person in the Navy or Marine Corps is wanted by State or Local Civil authorities for trial, and such person is not attached to or serving at a Naval or Marine activity within the requesting State, or aboard a ship within the territorial waters of said requesting State, a requisition for the delivery of the person must be made by the Governor or Chief Executive of such State, addressed to the Secretary of the Navy, showing that the person desired is charged with a crime in that State for which he could be extradited under the constitution of the United States, the enactments of Congress, or the Laws of the State desiring his delivery. Such requisition should be forwarded to the Secretary of the Navy (Judge Advocate General) for examination, together with the appointment of the agent of the State to whom the delivery is to be made. If the papers allege that the person is a fugitive from the justice of that State and that he is charged with an extraditable crime, as aforesaid, and the papers are otherwise found to be in due form, the Secretary of the Navy will send the necessary authorization to the designated agent permitting him to take the person into custody upon compliance with § 720.3.

§ 720.2 *Delivery when personnel within territorial limits of the requesting State*—(a) *General.* In cases in which the delivery of any person in the Navy or Marine Corps is requested by Civil authorities within the Continental United States, Alaska, Hawaii, the Canal Zone or Puerto Rico, and such person is attached to or serving at a Naval or Marine Station or other Naval or Marine place within the requesting State, Territory or possession, or aboard a ship within the territorial waters of such State, Territory or possession, commanding officers are authorized to deliver such person when a proper warrant is presented. Warrants reciting that the individual is a fugitive from another State or jurisdiction (commonly known as fugitive warrants) are considered an attempt to come within the provisions of §720.1 and are not "proper warrants" within the meaning of this section; delivery will be refused upon presentation thereof.

(b) *Disciplinary proceedings pending.* When disciplinary proceedings involving military offenses are pending or the person is undergoing a sentence of a court-martial, commanding officers must obtain specific authority from the Secretary of the Navy (Judge Advocate General) to deliver personnel to State, Territorial or Local Authorities.

§ 720.3 *Agreement required prior to delivery to State authorities*—(a) *General.* In every case in which the delivery of any person in the Navy or Marine Corps to the civil authorities of a State, for trial, is authorized, such person's commanding officer will, before making such delivery, obtain from the Governor or other duly authorized officer of such State a written agreement that the commanding officer of the naval or marine activity to which the person is to be returned will be immediately informed of the outcome of the trial and that the person delivered will be returned to the naval or marine activity designated in the agreement without expense to the United States or to the person delivered immediately upon completion of his trial for the alleged misconduct which occasioned his delivery to the civil authorities, in the event the charges against him are dismissed, or in the event he is acquitted, or immediately upon his satisfying the sentence of the court in the event he is convicted and a sentence imposed, or upon other disposition of his case, provided the naval or marine authorities shall then desire his return. When indicating in the agreement the naval or marine activity to which the person delivered is to be returned by the State, care should be taken to designate the closest appropriate activity which possesses special court-martial jurisdiction. The Department considers this agreement substantially complied with when the man is furnished transportation back to a naval or marine activity as set forth herein and necessary cash to cover his incidental expenses en route thereto, and the Navy Department so informed. Any substantial departure from these requirements must have prior approval from the Secretary of the Navy (Judge Advocate General).

(b) *Form of agreement.* The following is suggested as a form of agreement acceptable to the Department in cases referred to in paragraph (a) of this section.

In consideration of the delivery of _____
_____
(Name of person delivered)
United States Navy (United States Marine Corps), to _____, at _____, I hereby agree, pursuant to the authority vested in me as _____, that the Commanding Officer of the _____
_____
(Insert here the name of the command to which the man is to be returned)
will be immediately informed of the outcome of the trial and that said _____
(Name of person delivered)
will be returned to the _____
_____,
(Insert here the name of the command to which the man is to be returned)
or issued transportation thereto, without expense to the United States or to the person delivered immediately upon dismissal of the charges or completion of the trial in the event he is acquitted, or immediately upon satisfying the sentence of the court in the event he is convicted and a sentence imposed, or upon other disposition of his case, provided that the naval authorities shall then desire his return.

§ 720.4 *Delivery of personnel to Federal authorities*—(a) *Authority to deliver.* Commanding officers are authorized to deliver personnel to Federal authorities on presentation of a proper warrant in all cases except those in which disciplinary proceedings are pending or the person is undergoing a sentence of a court-martial or when in the opinion of the commanding officer unusual circumstances exist which warrant reference of the matter to the Secretary of the Navy (Judge Advocate General).

(b) *Agreement not required of Federal authorities.* An agreement as to expenses will not be exacted as a condition to the delivery of personnel to Federal authorities for trial. Men desired by Federal authorities for trial will be called

for and taken into custody by a United States marshal or deputy marshal. In the event that the person delivered is acquitted upon said trial, or immediately upon satisfying the sentence of the court in the event he is convicted and a sentence imposed, or upon other disposition of his case, provided that the naval authorities shall then desire his return, the man will be returned to the naval service and the necessary expenses paid from an appropriation under the control of the Department of Justice.

§ 720.5 *Personnel released by civil authorities on bail or on their own recognizance.* A person in the Navy or Marine Corps arrested by Federal or State civil authorities and released on bail or his own recognizance has a duty to return to his parent organization. Accordingly, where a person in the Navy or Marine Corps is arrested by Federal or State authorities and returns to his ship or station on bail, or upon his own recognizance, the commanding officer shall normally grant him leave of absence to appear for trial on the date set, upon verification of the attending facts, date of trial, and approximate length of time that should be covered by the leave of absence: *Provided*, Such absence will not prejudice the best interests of the naval service. Nothing in this section is to be construed as permitting the person arrested and so released to avoid the obligations of his bond or his recognizance solely by reason of his being in the service.

§ 720.6 *Service of process upon personnel of the Naval Establishment*—(a) *Within the jurisdiction.* Commanding officers afloat and ashore are authorized to permit service of process of Federal, State, Territorial, or Local courts upon naval personnel or civilians named therein and located within the jurisdiction of the court out of which the process issues, but such service should not be allowed without the permission of the commanding officer first being obtained. (Personnel serving aboard vessels located within the territorial waters of the State out of which the process issues are considered within the jurisdiction of the court for the purpose of service of process.) In cases where the exigencies of the service would jeopardize or limit personnel from defending themselves in litigation, service of process will not be permitted until conditions permit. The commanding officer shall permit the service of process except in unusual cases where compliance with the mandate of the process would seriously prejudice the public interest. Where practicable, commanding officers will require that the process be served in their presence, or that of an officer designated by them. Where service of process by mail is sufficient, the process may be mailed to the person named therein. In all cases commanding officers will insure that the nature of the process is explained to the person concerned.

(b) *Where service is not allowed.* Where service of process is not permitted, a report of such refusal to permit service and the reasons therefor shall be forwarded by letter to the Secretary of the Navy (Judge Advocate General).

(c) *Personnel beyond the jurisdiction of the court.* Where a person in the naval service, or a civilian, is beyond the jurisdiction of the court issuing the process, the commanding officer will permit service or delivery of the process under the same conditions as noted in paragraph (a) of this section above for whatever legal effect it may have. At the same time the commanding officer or his designee will advise the person being served that he is not required to indicate acceptance of service in writing, or otherwise, although he may do so voluntarily, and further advise him to consult legal counsel. Where process is forwarded to a commanding officer with the request that it be delivered to a person within his command, he may deliver it to the person named therein, provided he voluntarily accepts it. In such cases the commanding officer will insure that the serviceman or civilian concerned is informed that he is not required to accept service of the process but may do so voluntarily. The commanding officer is not required to act as a process server, and when the person named in the process does not voluntarily accept the process it should be returned to the forwarder with the advice that the person named therein refuses to accept it.

(d) *Leave of absence to be granted persons served with process.* In those cases where the personnel under his command are served with process as noted in paragraph (a) of this section above or accept service of process as noted in paragraph (c) of this section above, the commanding officer is authorized and will normally grant leave of absence to the person upon whom the process is served in order to permit him to obey the same, unless the public interest would be seriously prejudiced by his absence. In such cases, a full report of the matter should be made to the Secretary of the Navy (Judge Advocate General) prior to the date set for appearance of the person served, where possible.

(e) *Suits against the United States.* Where it appears that a subpoena or other process relates to a suit against the United States dispatch advice will be requested of the Judge Advocate General. Where it appears that the subpoena or other process related to a suit against the United States is brought under the provisions of the Public Vessels Act, dispatch advice will be requested of the Judge Advocate General (Admiralty Division) in view of the requirements of 46 U. S. C. 784.

§ 720.7 *Personnel of the Naval Establishment subpoenaed as witnesses in State or Local courts.* Where personnel of the naval establishment, service personnel or civilian employees, are subpoenaed to appear as a witness in State or Local courts, and are served in the manner described under either of the conditions set forth in § 720.6 the provisions of § 720.6 (d) apply.

§ 720.8 *Personnel of the Naval Establishment subpoenaed as witnesses in Federal courts*—(a) *Witnesses on behalf of Federal government.* Where naval personnel are required to appear as witnesses in a Federal court to testify on behalf of the Federal government, the Bureau of Naval Personnel or the Commandant of the Marine Corps, as the case may be, will direct the activity to which the person is attached to issue Temporary Additional Duty Travel Orders to the person concerned. The charges for such orders will be borne by the activity to which the required witness is attached. Payment to witnesses will be as provided by the Joint Travel Regulations and U. S. Navy Travel Instructions. If the required witness is to appear in a case where the Department of the Navy is not a party in interest, the Navy will be reimbursed in accordance with the procedures outlined in the Navy Comptroller Manual, paragraph 046278.

(b) *Witnesses on behalf of nongovernmental parties*—(1) *Criminal actions.* Where naval personnel are served with a subpoena to appear as a witness for the defendant in a criminal action and the fees and mileage required by Rule 17 (d) of the Federal Rules of Criminal Procedure are tendered, the commanding officer is authorized to issue the person subpoenaed premissive orders authorizing attendance at the trial at no expense to the government, unless the public interest would be seriously prejudiced by his absence, in which case a full report of the circumstances will be made to the Judge Advocate General. In those cases where fees and mileage are not tendered as required by Rule 17 (d) of the Federal Rules of Criminal Procedure; but the person subpoenaed still desires to attend, the commanding officer is authorized to issue permissive orders at no cost to the government, as above, however, such persons should be advised that an agreement as to reimbursement for any expenses incident to travel, lodging, and subsistence should be effected with the party desiring their attendance and that no reimbursement should be expected from the government.

(2) *Civil actions.* Where naval personnel are served with a subpoena to appear as a witness on the behalf of a nongovernmental party in a civil action brought in a Federal court, the provisions of § 720.6 apply.

§ 720.9 *Naval prisoners as witnesses or parties in civil courts.* (a) *Criminal actions.* In those instances where the Federal or State authorities desire the attendance of a naval prisoner as a witness in a criminal case, a request for such person's attendance should be submitted to the Secretary of the Navy (Judge Advocate General). Upon receipt of such a request, authority will be given, in a proper case, for the production of the requested naval prisoner in court without resort being had to a writ of habeas corpus ad testificandum.

(b) *Civil actions.* The Navy Department will not authorize the attendance of a naval prisoner in a Federal or State court, either as a party or as a witness, in private litigation pending before such court, as in such cases the court may grant a postponement or a continuance of the trial; but the Navy Department will allow the deposition of such naval prisoner to be taken in the case.

2. Part 725 is amended to read as follows:

PART 725—DISPOSITION OF CASES INVOLVING PHYSICAL DISABILITY

Sec.
725.1 Source of authority.

PHYSICAL EVALUATION BOARDS

725.2 Function.
725.3 Convening authorities.
725.4 Appointment of boards.
725.5 Jurisdiction of boards.

CASES INVOLVING MEMBERS OF THE NAVAL SERVICE ON EXTENDED ACTIVE DUTY

725.6 Composition.
725.7 Orders for appearance.
725.8 General instructions.

CASES INVOLVING MEMBERS OF THE NAVAL SERVICE NOT ON ACTIVE DUTY

725.9 Composition.
725.10 Orders for appearance.
725.11 General instructions.

THE PHYSICAL REVIEW COUNCIL

725.12 Convening authority.
725.13 Composition.
725.14 Jurisdiction.
725.15 Function.
725.16 General instructions.

THE PHYSICAL DISABILITY APPEAL BOARD

725.17 Convening authority.
725.18 Composition.
725.19 Jurisdiction.
725.20 Function.
725.21 General instructions.

PERIODIC PHYSICAL EXAMINATIONS

725.22 Requirements.
725.23 Procedure.

FINAL ACTION

725.24 Action by the Secretary of the Navy.
725.25 Relief from final action.

APPENDIX

725.26 Excerpts from "Misconduct and Line of Duty" provisions of Chapter IV of the 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951, referred to in § 725.8.

AUTHORITY: §§ 725.1 to 725.26 issued under sec. 413, 63 Stat. 824; 37 U. S. C. 283. Interpret or apply R. S. 161, sec. 206, 52 Stat. 1179, as amended, sec. 302, 58 Stat. 287, as amended, secs. 401–412, 414, 63 Stat. 816–824, as amended, 825, as amended, secs. 226, 249, 66 Stat. 488, 495; 5 U. S. C. 22, 34 U. S. C. 854e, 37 U. S. C. 271–282, 284, 285, 38 U. S. C. 6931, 50 U. S. C. 950, 992.

NOTE: §§ 725.1 to 725.25 are contained in Chapter IX of 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951.

§ 725.1 *Source of authority.* Title IV of the Career Compensation Act of 1949 (37 U. S. C. 271–285) provides that, subject to certain other requirements, when it is determined that a member of the uniformed services is unfit to perform the duties of his office, rank, grade or rating by reason of physical disability, he may be retired or separated from the service concerned. Section 413 of the Act (37 U. S. C. 283) provides that the Secretary of the Navy shall prescribe regulations for the administration of the Title. Section 302 of the Servicemen's Readjustment Act of 1944, as amended (38 U. S. C. 693i), directs the Secretary of the Navy to establish a board to review, at the request of any officer retired or released from active service, without pay, for physical disability pursuant to the decision of a retiring board or board of medical survey, the findings and decision of such board. Section 226 of the Armed Forces Reserve Act of 1952 (50 U. S. C. 950) provides that the Secretary of the Navy may provide for the honorable discharge or transfer to a retired status of members of reserve components who are found not physically qualified, subject to certain considerations, for active duty. Section 249 of that act (50 U. S. C. 992) provides that an officer of the reserve components who has completed three years of commissioned service shall not be involuntarily discharged or separated except pursuant to the approved recommendation of a board of officers convened by competent authority or the approved sentence of a court-martial. Section 206 of the Naval Reserve Act of 1938, as amended (34 U. S. C. 854e), provides that enlisted men transferred to the Fleet Reserve after sixteen or more years of service who are found not physically qualified upon a physical examination, required by the statute, shall be transferred to the retired list of the Regular Navy. The following regulations are prescribed pursuant to and in implementation of the foregoing provisions of law. They are designed to afford an individual whose physical fitness is being evaluated a full and fair hearing, when required, and to provide the Secretary of the Navy, in whom reposes the responsibility for final determination of each case, a sound basis for such determination. To accomplish these ends, various agencies shall function as prescribed in this part.

NOTE: No reference is made herein to medical boards or medical dispositions prior to or independent of evaluations made pursuant to this chapter inasmuch as this subject is covered by the Manual of the Medical Department, U. S. Navy.

PHYSICAL EVALUATION BOARDS

§ 725.2 *Function.* Physical evaluation boards are constituted to afford full and fair hearings incident to evaluation of the physical fitness of certain members and former members of the naval service to perform the duties of their rank, grade or rating; to investigate the nature, cause, degree and probable permanency of disabilities presented by such parties; and to make recommended findings appropriate thereto. No member of the naval service shall be separated or retired by reason of physical disability from an active duty status without a hearing before a physical evaluation board unless such hearing is waived by the member concerned. No member of the naval service shall be separated or retired by reason of physical disability from an inactive duty status without a hearing before a physical evaluation board if such member shall demand it. As used in this part, a "member of the naval service" shall include any commissioned officer, chief warrant officer, warrant officer, naval aviation cadet, or enlisted person, including a retired person, of the Navy and Marine Corps, the Reserve components thereof, the Fleet Reserve and Fleet Marine Corps Reserve.

§ 725.3 *Convening authorities.* (a) The Secretary of the Navy and such officers as he may designate may convene physical evaluation boards. The following officers are hereby designated as empowered to convene such boards:

Chief of Naval Personnel.
Commandant of the Marine Corps.
Commandants of the First, Third, Fourth, Fifth, Sixth, Eighth, Ninth, Eleventh, Twelfth and Thirteenth Naval Districts.
Commandant, Potomac River Naval Command.
Commandant, Marine Corps Schools, Quantico, Virginia.
Commanding Generals of Marine Base, Camp Lejeune, North Carolina, and Camp Pendleton, Oceanside, California.
Commanding General, Marine Corps Recruit Depot, Parris Island, South Carolina.
Commanding General, Department of the Pacific.
Such other officers as the Secretary of the Navy may from time to time designate.

(b) No such officer may appear as the individual whose case is to be evaluated before a physical evaluation board which has been convened by him or his successor or by anyone under him in the chain of command.

§ 725.4 *Appointment of boards.* Orders appointing physical evaluation boards shall designate the time and place of meeting and shall list by name the membership and counsel of the board, provided that the medical members of the board shall be selected from medical officers specified for such duty, either permanent or alternate, by the Surgeon General of the Navy. More than the required number of members may be listed in the orders, provided that the orders contain provisions insuring that only the correct number of officers shall act in any one case. Unless the board is appointed by the Secretary of the Navy, or an officer designated in § 725.3, the appointing orders must show that authority to appoint has been duly granted. Certified copies of such orders and amendatory orders shall be forwarded to the Judge Advocate General by the convening authority. The original orders appointing physical evaluation boards and the originals of all amendatory orders shall be retained by the boards until cancelled, when they shall be forwarded to the Judge Advocate General via the convening authority.

§ 725.5 *Jurisdiction of boards.* A physical evaluation board shall have jurisdiction to act in any proper case referred to it by the Secretary of the Navy, the Chief of Naval Personnel, the Commandant of the Marine Corps, the Surgeon General of the Navy, the Physical Disability Appeal Board, the Physical Review Council, or any officer authorized to convene a medical board.

CASES INVOLVING MEMBERS OF THE NAVAL SERVICE ON EXTENDED ACTIVE DUTY

§ 725.6 *Composition*—(a) *In general.* A physical evaluation board will be composed of competent and mature officers of sound judgment who are familiar with board procedures and, in particular, with the regulations and instructions pertaining to physical evaluation boards and physical standards. A physical evaluation board considering the case of a party who is a member of the naval service on extended active duty shall consist of three commissioned officers as members, two of whom shall be non-medical officers and one of whom shall be a medical officer. There shall also be appointed a counsel for the board, and, unless waived by the party, a counsel for the party. There shall not be such disparity in rank and experience among the members of the board as might tend to operate to inhibit and influence junior members in expressing their opinions. When the party whose physical fitness is under consideration is a member of the regular Navy or the regular Marine Corps, two members shall, whenever practicable, be senior in rank to such party. In the absence of objection by the party, the seniority of the members of the board shall be considered as waived. Whenever the board acts on the case of a member of a Reserve component, all members of the board shall be senior to the party, and, where possible, two of the members shall be Reserve officers.

(b) *Limitation on medical members.* No medical officer shall act as a medical member of a physical evaluation board who has had direct charge of the case of the party concerned immediately preceding appearance before the board or who was a member of a board of medical officers which reported on the party concerned.

(c) *Limitation on non-medical members.* Dental officers, officers of the Medical Service Corps and officers of the Nurse Corps are considered as non-medical officers as used in this chapter, but none shall act as non-medical members of a physical evaluation board unless the party concerned is a member of the same corps. When the party concerned is a member of the Navy, the non-medical members shall, if practicable, be officers of the Navy. When the party concerned is a member of the Marine Corps, the non-medical members shall, if practicable, be officers of the Marine Corps.

(d) *Counsel for the board.* The counsel for the physical evaluation board will be a competent, mature officer of sound judgment, who is familiar with board procedures and, in particular, with the regulations and instructions pertaining to physical evaluation boards.

(e) *Counsel for the party.* Designated counsel for the party concerned will be a competent, mature commisioned officer or chief warrant officer of sound judgment, who is familiar with board procedures and, in particular, with the regulations and instructions pertaining to physical evaluation boards and physical standards. Counsel for the party may be waived by the party concerned unless representation by counsel is mandatory pursuant to § 725.8 (b) (5). A mentally competent party, the next of kin, person to be notified in case of emergency, or legal guardian of a mentally incompetent party may obtain the services of civilian or naval counsel, other than the designated counsel, to act for the party, provided that the employment of such counsel does not result in expense to the Government or in unreasonable delay of board proceedings. In every case in which counsel is mandatory pursuant to § 725.8 (b) (5), counsel shall be a member of the bar of a Federal court or the highest court of a State.

§ 725.7 *Orders for appearance.* Orders directing or authorizing a member of the naval service who is on extended active duty to report to a physical evaluation board shall be issued as prescribed in the appropriate regulatory publications for the Naval Establishment, including, when such orders involve entitlement to travel allowance, current instructions relating thereto.

§ 725.8 *General instructions*—(a) *Duties and responsibilities of the Physical Evaluation Board.* (1) *Senior member.* The officer senior in precedence among the members of a physical evaluation board considering any one case shall act as the presiding officer of the board. He shall take appropriate action to preserve order in open sessions of the board and to insure that the proceedings are conducted in a dignified and judicial manner. He will rule upon all interlocutory questions except challenges. His rulings on interlocutory questions may be objected to by any other member of the board, in which case the matter will be decided by a majority vote of the board members in closed session. For good reason he may recess or adjourn the board or grant a continuance in the case. He shall preside over closed sessions of the board and speak for the board in announcing its recommended findings and the result of any vote upon challenge or other interlocutory question. He shall authenticate the record of the board proceedings except that in his absence the record may be authenticated by any other member of the board who acted in the case.

(2) *Members in general.* It is the responsibility of each member of the board to weigh and impartially to examine the evidence presented in a case and to make recommended findings, each according to his conscience, and in conformity with applicable laws, regulations, and established policies. Each member has an equal voice and vote with other members in deliberating upon and deciding all questions submitted to vote. Each member may question witnesses in an order prescribed by the senior member. Members of the board may discuss the case freely in closed session, but except as authorized to be set forth in the record of proceedings pursuant to this part, the opinions expressed by any member in closed session shall not be disclosed.

(3) *Counsel for the board.* The officer designated as counsel for the physical evaluation board shall, in every case before the board, assemble, prepare, and present all available evidence which is relevant to the issues to be decided by the board. This shall include, but not be limited to, the medical records, reports of medical boards, statements of service, reports and proceedings pursuant to chapters III and IV, 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951, and the current disciplinary status of the party concerned. He shall examine witnesses who appear before the board. In accordance with procedures prescribed by competent authority, he shall secure or request witnesses to appear before the board and shall obtain depositions, affidavits, or statements which may aid the board in its decision of the issues before it. He shall notify the board members, witnesses, counsel for the party, and reporter of the time and place fixed for the hearing and make necessary arrangements to permit a proper hearing to be held. He shall insure that the records of the party concerned are furnished to the medical witnesses for examination prior to the hearing and shall perform such other duties as may be required by the senior member of the board. It is his specific responsibility to insure that the board has before it sufficient information to ascertain as accurately as practicable the circumstances in which the party concerned incurred his disability, the extent of the disability, and where it appears that the disability existed prior to the party's entrance into active duty, its extent at the time of entrance into active service, and all other pertinent circumstances relating to the party's disability. He shall, under the direction of the board, be responsible for preparation of the record of proceedings and shall, prior to the senior member, sign the record of proceedings as an authentication of its correctness. The standards of conduct for the counsel for the board shall be the same as prescribed for counsel before naval courts-martial (see § 719.3 of this chapter).

(4) *Counsel for the party.* The designated counsel for the party shall represent the party concerned before the physical evaluation board. The status of counsel for the party shall not lapse with the termination of the board's proceedings but shall continue until final determinations and dispositions prescribed by law have been effected in the case of the party concerned. Counsel will confer with the party as soon as practicable in order to advise him of his rights and to prepare a case in accordance with the legitimate desires and the best interests of the party. He will request the counsel for the board to arrange for the attendance of necessary witnesses or other specifically desired evidence and will assist in the procurement and presentation of any available evidence which will support the position of the party concerned. He shall perform such other duties as usually devolve upon counsel for an interested party before a formal fact-finding body and will guard the interests of the party by all honorable and legitimate means. In cases in which representation by counsel is not mandatory pursuant to paragraph (b) (5) of this section and the party concerned has waived his right to counsel, such party may act as his own counsel. Where counsel other than the designated counsel has been obtained to represent the party, the designated counsel may act as associate counsel if desired as such by individual counsel. The standards of conduct for counsel for the party shall be the same as prescribed for counsel before naval courts-martial (see § 719.3 of this chapter).

(5) *Board reporter, interpreter and orderly.* The convening authority shall provide qualified reporters, and where necessary or requested by counsel for

the board, an interpreter or an orderly or both in the same manner as provided for courts of inquiry (see section 0302*a* (3) and (4), 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951). Such individuals shall act in the same capacity as in the proceedings of a court of inquiry.

(b) *Procedure*—(1) *In general.* The proceedings of physical evaluation boards shall be conducted in accordance with instructions set out in this chapter and in accordance with chapter III, 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951, insofar as practicable except that an oath or affirmation need not be administered to the members of the board or the counsel.

(2) *Personal appearance.* The party concerned shall appear personally before the board unless there is a recommendation by a medical board or a determination by the physical evaluation board that to do so would be detrimental to his health. In addition to the fact that it may contsitute a military offense, failure to appear when so directed or authorized shall be considered as a waiver of the right of the party concerned to appear before the board unless it is reasonably shown that such failure was through no fault of the party. The board may at its discretion, however, waive the appearance of the party if so requested in writing by the party concerned. Such request shall be appended to the record of proceedings by the board.

(3) *Challenges.* Members of a physical evaluation board may be challenged through the same procedure and for the same reasons as prescribed for members of a court of inquiry (see section 0302c (3), 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951).

(4) *Full and fair hearing.* Every party whose case is being considered by a physical evaluation board shall be deemed to have demanded a full and fair hearing and shall be granted such unless he has waived in writing his right thereto. When a party who has been directed to appear before a board, through his own fault fails to do so and his absence has not been authorized by the board, the absence will not be excused and he will be deemed to have relinquished his demand for a full and fair hearing. The requirements for a full and fair hearing shall include, but shall not be limited to, the right of the party concerned: To be present in person unless to do so would be detrimental to his health; to be represented by qualified counsel during all stages of the proceedings until final action on the case is effected; to challenge members for cause; to present evidence in his own behalf; to secure witnesses, depositions, affidavits and statements on relevant issues insofar as practicable; to cross-examine witnesses; to present or have presented arguments in his behalf; to have the issues in his case decided only on evidence adduced and presented in the hearing; to file a rebuttal to the recommended findings of the physical evaluation board, and in certain circumstances to file a rebuttal to the recommended substitute findings of the Physical Review Council or a petition for appeal to the Physical Disability Appeal Board. The party may testify in his own behalf or may be called as a witness by the board. Not less than three days prior to the date set for the hearing, all relevant rules and regulations, including the standard schedule of rating disabilities in current use by the Veterans Administration, and all records and papers pertaining to the case shall be made available to the party concerned or his counsel, as appropriate, who shall have the right to inspect such rules, records and papers and to make notes therefrom as may be necessary in the preparation of the case. The party concerned or his counsel may, in writing, waive the right to the three-day inspection period and, upon the filing of such waiver, the board may proceed to hear the case. Failure of the party concerned to utilize one or more of the aspects of a full and fair hearing shall not be considered as a waiver of other such aspects.

(5) *Counsel for the party mandatory.* The physical evaluation board shall not consider the case of any party who is not represented by qualified counsel where a medical board has recommended that personal appearance before the board or the disclosure to the party of information relative to his physical disability would be deleterious to his health. If, during the course of the proceedings, the board shall determine that further attendance of the party may be deleterious to his health or that the party is not mentally competent to represent himself, the board shall, if the party is not represented by qualified counsel, immediately adjourn and shall request competent authority to designate qualified counsel to represent the party. In subsequent proceedings in such case the physical evaluation board may be composed of the same or different members.

(6) *Mentally incompetent party.* Upon receipt of a case in which previously it has been found that the party concerned is mentally incompetent, in that he is mentally incapable of managing his own affairs, or in which the physical evaluation board is of the opinion that the party is so mentally incompetent, further proceedings will be held in abeyance until the next-of-kin, the person to be notified in case of emergency, or the guardian (where appointed) has been notified that he or she may appear and provide counsel in behalf of the party. Such person shall be notified, by registered mail or by registered air mail, if it will facilitate delivery, with return receipt requested, of: the place, date, and hour scheduled for the hearing and that request may be submitted for an extension of time or for a more convenient date; the name, rank, and official address of the officer designated to represent the party; the right of the addressee, at no expense to the Government, to be present at the hearing and to be represented by civilian or naval counsel of his or her own selection; and the right of the addressee to procure and introduce witnesses, to obtain documentary evidence, and to take such other action as may be deemed necessary in the interests of the party. The hearing will be held at the time scheduled when no reply is received from the person so notified provided that the registered mail receipt indicates that the addressee has received notification. The date for the hearing generally will be two weeks from the date of mailing the notification but may be extended by the senior member upon written request. All correspondence, including the notification, the reply, if any, and the registered mail receipts will be appended as exhibits to the record of proceedings.

(c) *Evidence.* (1) A physical evaluation board shall consider all documentary evidence transmitted to it by proper authority. The board may, in addition, require and examine such records as may be in the files of the Navy Department that relate to the issues before the board. All evidence having a probative value as to the determination of issues before the board may be considered. All testimony shall be taken under oath or affirmation. The oath or affirmation shall be administered by the counsel for the board in a form as follows: "You swear (or affirm) that the evidence you shall give in the matter now before this board shall be the truth, the whole truth and nothing but the truth. So help you God."

(2) In the administration of an affirmation, the closing sentence of adjuration will be omitted. The board may take official notice of any generally accepted medical fact or principle and of any fact which may be judicially noticed by courts-martial. In consideration of the weight or probative value to be accorded evidence, the members of the board are expected to utilize their background and experience, their common sense and their knowledge of human nature and behavior. The fact that a witnes is the party whose case is before the board does not condemn him as unworthy of belief, but does create in him an interest greater than that in any other witness, and to that extent affects the question of credibility. It is a general rule that the relations of a witness to the matter to be decided are legitimate subjects of consideration in respect to the weight to be given to his testimony. In every case the testimony of the party concerned should be considered in connection with all the evidence adduced and given such weight as the board may believe it merits. When the testimony presented at the hearing indicates that the party claims to have disabilities not disclosed by the official medical records or presents evidence sharply in conflict with official medical records, and the issue thus drawn is not one that can be readily resolved by the observation of the board, there should be further development of the case by requesting further physical examination, special studies, or further investigation by appropriate agencies; and the hearings should be continued until such development has been accomplished. Findings and recommendations of the board should be based upon evidence consistent with a reasonable probability of truth.

(d) *Definitions and presumptions*—(1) *Fitness for duty.* In the absence of convincing evidence to the contrary, a party before a physical evaluation board is presumed fit and physically qualified to perform the duties of his rank, grade or rating. The presence of physical disability or the fact that the party concerned is currently on the sick list or hospitalized does not necessarily require a finding of unfitness for duty. If the board is of the opinion that the party concerned will be fit for duty after a reasonable period of time, such party should be considered as fit for duty. On the other hand, a finding of unfitness for duty is to be made when the evidence discloses that the member is not physically capable of performing all the duties of his rank, grade or rating to a degree that would reasonably fulfill the purposes of his employment.

(2) *Physical disability.* "Physical disability", as used in this chapter, is any manifest or latent impairment of function due to disease or injury regardless of the degree of impairment. The term "physical disability" includes mental diseases other than inherent defects such as behavior disorders, personality disorders, and primary mental deficiency. "Impairment of function" is any lessening or weakening of the capacity of the body, or any of its parts to perform that which is considered by accepted medical principles to be normal activity of the bodily economy. "Manifest impairment" is that which is accompanied by signs or symptoms, or both. "Latent impairment" is that which is not accompanied by signs or symptoms but which is of such a nature that there is a reasonable and moral certainty, according to accepted medical principles, that signs or symptoms, or both, will appear within a reasonable time.

(3) *Accepted medical principles.* "Accepted medical principles" shall be considered to be fundamental deductions consistent with medical facts and based upon the observation of a large number of cases. To constitute accepted medical principles, the deductions must be so reasonable and logical as to create a moral certainty that they are correct.

(4) *Incurred while entitled to receive basic pay.* Physical disability due to the natural progress of disease or injury is "incurred" when the disease or injury causing the disability is contracted. Physical disability in excess of that due to natural progress of the disease or injury is considered due to aggravation and as such is "incurred" when the disease or injury is aggravated. "While entitled to receive basic pay" encompasses all types of duty which entitle the party concerned to receive active duty pay, and any duty without pay which, by law, may be counted the same as like duty with pay (see section 240, Armed Forces Reserve Act of 1952; 50 U. S. C. 971). Nothing contained in this subsection shall be construed to entitle any party not on extended active duty, who at the time of his separation from active duty was considered physically fit for duty, to benefits under Title IV of the Career Compensation Act of 1949 (37 U. S. C. 271–285) by reason of an increase in disability occurring while the party is not entitled to receive basic pay.

(5) *Intentional misconduct or willful neglect.* "Intentional misconduct" and "willful neglect" are terms which are descriptive of "misconduct" as defined in chapter IV, 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951. See § 725.26.

(6) *Unauthorized absence.* "Unauthorized absence" as used in this chapter is absence from duty without authority such as that contemplated under the disciplinary laws applicable to the uniformed service concerned at the time of its commission.

(7) *Proximate result of the performance of active duty.* Any disability incurred in line of duty which reasonably may be assumed to have been the result of the performance of military duties is considered to be the proximate result of the performance of active duty. A determination to such effect is not precluded simply because the party concerned was in a leave or liberty status or temporarily absent with authority from his immediate job when the disability was incurred. Any physical disability resulting from disease incurred in line of duty shall be presumed to be the proximate result of the performance of active duty unless it is shown by clear and convincing evidence, including generally accepted medical principles, that to assume that it was the result of military duties is unreasonable. However, for a party who is on extended active duty, any disability shown to have been incurred in line of duty during a period of active service in time of war or national emergency shall be considered to be the proximate result of the performance of active duty.

(8) *Permanent nature of disability.* Disability "may be of a permanent nature" when, based on medical experience in like cases, it is considered likely that the party concerned will recover to an extent which will permit him to perform duty commensurate with his rank, grade or rating within a five year period from the date of retirement or separation for physical disability; or that within the five-year period the disability, if currently ratable at less than seventy-five percent in accordance with the standard schedule of rating disabilities in current use by the Veterans Administration, will change in degree; or that within the five-year period the disability, if currently ratable at seventy-five percent or more in accordance with such schedule, may fall below such percentage. Where none of the above contingencies is likely to occur, the disability is considered as disability which "is of a permanent nature".

(9) *Line of duty.* Presumptions and definitions set forth in chapter IV, 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951, relating to the incurrence of disease or injury in line of duty (see § 725.26) are applicable to this part. In addition thereto, there exists a presumption rebuttable by clear and convincing evidence, including generally accepted medical principles, that any increase occurring while in active service in the extent of a disability is due to aggravation as opposed to the natural progress of the disease or injury.

(10) *Recommended findings.* As used in this chapter the term "recommended findings" means recommended determinations of fact which are advisory only. No findings, recommendations, decisions, or modifications thereof, made by any body established under this chapter, shall in any case be considered as conclusive or final or not subject to modification by competent authority until final disposition of the case pursuant to findings and recommendations approved by the Secretary of the Navy has been effected.

(11) *Extended active duty.* The term "on extended active duty," when used in this chapter shall have its traditional meaning when applied to members of reserve components and when applied to members of the regular Navy and regular Marine Corps shall mean a status of being entitled to receive basic pay.

(e) *Recommended findings.* A physical evaluation board, after having considered and deliberated on all the evidence before it, shall announce, through the senior member, that in the opinion of the board the following findings are supported by the evidence and that it is the recommendation of the board that such findings be approved:

(1) That the party, who is entitled to receive basic pay, is unfit (fit) to perform the duties of his rank, grade or rating, and, if unfit, that such unfitness is by reason of physical disability (a condition not a physical disability). (If the party is found fit, or if the unfitness is solely by reason of a condition not a physical disability, no further findings are required.)

(2) Where the party is found unfit by reason of physical disability, that his disability was (was not) incurred while he was entitled to receive basic pay.

(3) List the diagnosis of each condition causing disability in the terminology set forth in Joint Armed Forces Classification and Basic Diagnostic Nomenclature together with the following information: The Veterans' Administration Diagnostic Code Number; that each disability is (is not) due to the party's intentional misconduct or willful neglect; that each disability was (was not) incurred during a period of unauthorized absence; that for a party with less than eight years' active duty, each disability was (was not) the proximate result of the performance of active duty; the percentage of each disability at the time of evaluation less the percentage of disability which existed upon entry into active service or which was incurred in a period of unauthorized absence or which otherwise was incurred not in line of duty, if any, and the net resulting disability rating, if any, existing at the time of evaluation.

(4) In the case of any party serving on active duty in a retired status, in addition to the foregoing, the board shall make a finding as to the percentage of disability incurred while the party was so serving on active duty in a retired status.

(5) Set forth, on the basis of the resulting disability rating listed under (3)

above, the final percentage of such of the party's disability as may be ratable, if any, computed in accordance with the standard schedule of rating disabilities in current use by the Veterans' Administration, and whether accepted medical principles indicate that such disability "may be of a permanent nature" or that it "is of a permanent nature."

(f) *Minority report.* Each recommended finding made pursuant to this section concurred in by a majority of the board shall constitute the action of the board. Any dissenting member of the board will make a minority report concerning those particulars in which he does not agree with the action of the board. In case the board is unable to arrive at a conclusion, it shall adjourn and notify the convening authority of such circumstances. In such event, the convening authority may refer the case for consideration to a board composed of different members or he may return it to the original board for further consideration.

(g) *Basis for recommended findings.* (1) It is essential that the record clearly reflect facts sufficient to form the basis for the recommended findings. It is not intended that the board should state in the record that it believed one witness and disbelieved another or why it reached a certain conclusion based on evidence of record which is not sharply in conflict. On the other hand, it is essential that there be no hiatus as to the basis for conclusions. Hence, should the board resort to the taking of official notice of a generally accepted medical fact or principle or of any other fact of which a court-martial might take judicial notice, such fact or principle shall be set forth in the record.

(2) Further, where any doubt may exist as to which of several different ratings should be assigned on the basis of the relative severity of the disability, the reasons for the assignment of the particular percentage should be set out. The board may upon its own motion at any time prior to final adjournment in a case, set aside its previous recommended findings, consider further evidence, and make new recommended findings, but in such event the basis for the action of the board shall be set forth in the record of proceedings.

(h) *Rebuttal.* (1) A physical evaluation board shall, when it arrives at its recommended findings, advise counsel for the party and the party concerned thereof, that such recommended findings do not indicate what the final determination of the Secretary of the Navy will be, and that they are communicated to him only for the purpose of filing a rebuttal if he so desires. The party or his counsel shall be afforded five days exclusive of Sundays and holidays, after receipt of a copy of the record of proceedings of the board, in which to file a rebuttal. A rebuttal will set forth specifically the recommended findings of the board with which the party or his counsel does not concur together with proposed alternate recommended findings which are acceptable to the party.

(2) It is not mandatory, but desirable, that a brief, setting forth the legal and factual basis for such non-concurrence or any other request for relief, be included in the rebuttal. In any case where a physical evaluation board is directed to conduct a new hearing or proceedings in revision as prescribed in paragraph (j) of this section and the party or his counsel files a rebuttal to the recommended findings arrived at in such proceedings, the rebuttal shall operate to afford the party an automatic appeal to the Physical Disability Appeal Board: *Provided*, (i) The recommended findings of such Physical Evaluation Board differ in a material respect, detrimental to the party, from any prior recommended findings made in the case by a physical evaluation board, and (ii) the subsequent recommendations of the Physical Review Council differ in a material respect, detrimental to the party, from the relief sought in his rebuttal.

(i) *Preparation, authentication and forwarding of record.* The record of proceedings of a physical evaluation board shall be prepared in accordance with chapter III, 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951, insofar as applicable. After authentication, such record, together with all documents which were before the board, including a rebuttal, if filed, shall be transmitted to the Physical Review Council. A copy of the record of proceedings shall be furnished the party or his counsel. The recipient of such copy of the record of proceedings shall give a dated receipt therefor.

(j) *Revision proceedings and new hearings.* In the event that a physical evaluation board is directed to conduct a new hearing, such hearing shall be conducted and the record prepared in the same manner as if the board were meeting in the first instance. The record of proceedings in such case shall be prefixed to the original record. A board in revision shall, where practicable, consist of the same members who previously acted upon the case and shall proceed as instructed by the referring authority. A board conducting a new hearing shall consist of different members than those who previously acted upon the case.

(k) *Action subsequent to forwarding the record.* In the event any cognizant authority shall receive information, subsequent to the forwarding of a record of proceedings of a physical evaluation board and prior to final action thereon, that the party concerned has, following his hearing before such board, committed an offense or offenses such as are believed by the cognizant authority to have a possible bearing on the case and should therefore be brought to the attention of the Physical Review Council, incurred additional disability from that presented at the time of his hearing, or suffered an increase in the disability that was evaluated, or that his status has changed in any respect which might affect the action of the Secretary of the Navy on the record of proceedings, such authority shall immediately forward such information to the Physical Review Council by dispatch, with information copies to the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate, and to the Judge Advocate General. Such dispatch shall be followed as soon as practicable by a complete report of the matter, together with recommendations concerning the action to be taken. Upon a change in his status occurring subsequent to his hearing before a physical evaluation board and prior to final action thereon, which, in his opinion, might affect the action of the Secretary of the Navy, the party concerned may forward information of such change in the manner provided above.

CASES INVOLVING MEMBERS OF THE NAVAL SERVICE NOT ON EXTENDED ACTIVE DUTY

§ 725.9 *Composition.* A physical evaluation board considering the case of a member or former member of the naval service not on extended active duty shall have the same composition as provided in § 725.6 except that in cases arising under section 302 of the Servicemen's Readjustment Act of 1944, as amended (38 U. S. C. 693i), the physical evaluation board, which acts in the capacity of the former Naval Retiring Board, shall have five commissioned officers as members, three of whom shall be non-medical officers and two of whom shall be medical officers.

§ 725.10 *Orders for appearance.* Orders directing or authorizing a member of the naval service who is not on extended active duty to report to a physical evaluation board shall be issued in conformity with regulatory publications for the Naval Establishment or as prescribed by the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate. Orders directing or authorizing an officer or former officer of the naval service, consideration of whose case arises under section 302 of the Servicemen's Readjustment Act of 1944, as amended, to report to a physical evaluation board shall be issued by direction of the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate. Concurrently with the issuance of orders under this section, the issuing authority shall forward a letter to the appropriate physical evaluation board setting forth the law under which the individual concerned is eligible to have his case considered and, in cases arising under section 302, *supra*, and cases not specifically covered by the categories set forth in this chapter, the issues to be determined by the board and the phraseology to be employed in making findings concerning such issues.

§ 725.11 *General instructions*—(a) *In general.* Physical evaluation boards acting in cases of members or former members of the naval service who are not on extended active duty shall be governed by the procedural provisions of § 725.8 and shall be conducted and the record prepared and forwarded in the same manner as if the party concerned were on extended active duty except that recommended findings or findings on the issues, as the case may be, shall be made in conformity with this section.

(b) *Servicemen's Readjustment Act cases.* (1) Members of a physical evaluation board convened to act in cases arising under section 302 of the Servicemen's Readjustment Act of 1944, as amended (38 U. S. C. 693i) shall be sworn as follows:

You, and each of you, do solemnly swear (or affirm) that you will honestly and impartially examine and report upon the case of ---------- about to be examined by the board.

(2) The oath shall be administered to the members by the counsel for the board. Findings on the issues shall be made in the form prescribed by the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate, in the orders which authorize the party concerned to appear before the board.

(c) *Cases arising under Section 402 (c) of the Career Compensation Act.* Physical evaluation boards acting in cases arising under section 402 (c) of the Career Compensation Act of 1949 (37 U. S. C. 272 (c)) shall make recommended findings as follows:

(1) That the party concerned is unfit (fit) to perform the duties of his rank, grade, or rating, and, if unfit, that such unfitness is by reason of physical disability resulting from an injury (physical disability not resulting from an injury) (a condition not a physical disability). (If the party is found fit or if the unfitness is solely by reason of physical disability not resulting from an injury or a condition not a physical disability, no further findings are required.)

(2) List the diagnosis of each condition causing disability resulting from an injury in the terminology set forth in Joint Armed Forces Statistical Classification and Basic Diagnostic Nomenclature together with the following information: the Veterans Administration Diagnostic Code Number; that each disability was (was not) the result of intentional misconduct or willful neglect of the party; that each disability was (was not) the result of the performance of full-time training duty, other full-time duty, inactive duty training, or active duty other than extended active duty, as the case may be; the percentage of each disability at the time of evaluation less the percentage of disability which existed upon entry into such status or which was otherwise not incurred as the proximate result of the performance of such duty, if any, and the resulting disability rating, if any, existing at the time of evaluation.

(3) In the case of any party serving on active duty other than extended active duty in a retired status, in addition to the foregoing, the board shall make a finding as to the percentage of disability incurred while the party was so serving in a retired status; and

(4) Set forth, on the basis of the resulting disability ratings listed under subparagraph (2) of this paragraph, the final percentage of such of the party's disability as may be ratable, if any, computed in accordance with the standard schedule of rating disabilities in current use by the Veterans' Administration, and whether accepted medical principles indicate that such disability "may be of a permanent nature" or that it "is of a permanent nature."

(d) *Re-evaluation Career Compensation Act cases.* Physical evaluation boards acting in cases of members of the naval service on the temporary disability retired list who are not on extended active duty shall make findings and recommendations as follows:

(1) That the party concerned is physically unfit (fit) to perform the duties of his rank, grade or rating and, if unfit, that such unfitness is by reason of physical disability (a condition not a physical disability). (If the party is found physically fit or if the unfitness is solely by reason of a condition not a physical disability, no further findings are required.)

(2) Where the party is found unfit by reason of physical disability, recommended findings will be made as prescribed under paragraph (c) of this section or §§ 725.8 (e) as appropriate, except that for conditions and the natural sequelae of conditions which were previously evaluated by a physical evaluation board approved by the Secretary of the Navy, and which continue to exist, recommended findings need be made only as to the percentage and permanency of the disability caused thereby.

(e) *Armed Forces Reserve Act cases.* Physical evaluation boards acting in cases arising under sections 225, 226 and 249 of the Armed Forces Reserve Act of 1952 (50 U. S. C. 949, 950 and 992) shall make a recommended finding only as to whether the party concerned is (is not) considered physically qualified for active duty in the Naval Reserve or the Marine Corps Reserve, as the case may be, together with the diagnosis of the disqualifying disability or defect set forth in Joint Armed Forces Statistical Classification and Basic Diagnostic Nomenclature; and, if the party be considered not so qualified, a recommendation as to whether such party be involuntarily discharged or separated from his reserve component in the event that he is not first transferred into the Retired Reserve of such component. In determining physical qualification for active duty, due consideration shall be given to the character of duty to which the party may be assigned in the event he should be ordered to active duty pursuant to law.

(f) *Naval Reserve Act cases.* Physical evaluation boards acting in cases arising under section 206 of the Naval Reserve Act of 1938, as amended (34 U. S. C. 854e), shall make a recommended finding only as to whether the party concerned is (is not) considered physically qualified for active duty in the Fleet Reserve or Fleet Marine Corps Reserve, as the case may be, together with the diagnosis of the disability or defect which disqualifies the party in the terminology set forth in Joint Armed Forces Statistical Classification and Basic Diagnostic Nomenclature, and if not so qualified, a recommendation that the party be transferred to the retired list of the Regular Navy or Marine Corps, as the case may be.

(g) *Miscellaneous cases.* Physical evaluation boards considering cases not covered in the above categories shall make recommended findings only with respect to issues designated by competent authority.

THE PHYSICAL REVIEW COUNCIL

§ 725.12 *Convening authority.* The Secretary of the Navy shall convene the Physical Review Council and additional panels thereof, if required.

§ 725.13 *Composition.* The Physical Review Council and additional panels of such Council, if appointed, shall consist of the Chief of Naval Personnel or his designated representative acting for him, or, when acting in cases involving personnel of the Marine Corps, the Commandant of the Marine Corps or his designated representative acting for him, the Chief of the Bureau of Medicine and Surgery or his designated representative acting for him, and the Judge Advocate General, or his designated representative acting for him, as members, and a recorder.

§ 725.14 *Jurisdiction.* The Physical Review Council shall have jurisdiction to act in any particular relating to or implementing its function.

§ 725.15 *Function.* The Physical Review Council is constituted to review records of proceedings of physical evaluation boards in the light of established medical and legal principles and personnel policies and to express its views thereon for the information of the Secretary of the Navy; to act upon reports of medical boards referred to it; and to perform such other duties as the Secretary of the Navy may from time to time direct. It is not the function of the Council to act as a board or to conduct hearings, and applications for personal appearance by parties concerned will not be entertained.

§ 725.16 *General instructions*—(a) *Procedure.* After consideration of all the evidence concerning a case before it, and in the light of established medical and legal principles and personnel policies, the members of the Physical Review Council shall advise the Secretary of the Navy that they concur in the recommended findings of the physical evaluation board or that they do not concur, in whole or in part, in such recommended findings. In the latter case they shall, in lieu of the recommended findings in which they do not concur, present substitute or additional recommended findings for the consideration of the Secretary of the Navy, together with the basis for their action as prescribed for physical evaluation boards in § 725.8 (g) where the basis is not otherwise adequately set forth in the record of proceedings. In the event of disagreement between the individual members of the Council with respect to any aspect of a case, each member shall set forth in the report of the Council his views with respect to those aspects in which there is disagreement. The Council may, on its own initiative, take no action on the recommended findings of the physical evaluation board and return the case to a medical board for further study, to the physical evaluation board for a hearing in revision for correction of errors, for further development of the case, for reconsideration of its recommended findings, or to a different physical evalu-

ation board for another hearing, or to a physical evaluation board in a different area for another hearing.

(b) *Authentication and forwarding of records.* Action by the Physical Review Council on a record of proceedings of a physical evaluation board shall be prepared in appropriate form and shall be signed by all members and by the recorder. Cases not returned to a medical board or a physical evaluation board shall be forwarded to the Secretary of the Navy or referred to the Physical Disability Appeal Board, as appropriate.

(c) *Referral to the Physical Disability Appeal Board*—(1) *Discretionary referral.* The Physical Review Council or any member thereof, may, in its or his discretion, forward to the Physical Disability Appeal Board any case for further consideration. The Council shall give the party or his counsel notice of such referral with a brief statement of the reasons therefor.

(2) *Referral on basis of Physical Review Council recommendation.* The Council shall forward a case to the Physical Disability Appeal Board for further consideration where final approval of the recommendations of the Council in lieu of the recommended findings of the Physical Evaluation Board would change final disposition of the case in a manner substantially detrimental to the party unless the party concerned or his counsel concurs in such recommendation of the Council or fails to file a rebuttal thereto within the time allowed. In the event that the Council proposes to make such recommendations, it shall notify the party or his counsel, as appropriate, of the substitute or additional findings which it proposes to submit to the Secretary of the Navy together with a brief statement of the reasons therefor, which shall include reference to any matter officially noticed by the Council if such substitute or additional findings are based thereon. Upon recepit of such notification the party or his counsel may file a rebuttal thereto, if he so desires. The rebuttal shall be submitted directly and expeditiously to the Council within five days, exclusive of Sundays and holidays, after the party or his counsel receives such notification. In exceptional cases, and upon request, the time of filing a rebuttal may be extended in the discretion of the Council.

(3) *Referral on the basis of revision proceedings or a new hearing.* In any case where, as a result of proceedings in revision or a new hearing by a physical evaluation board, recommended findings are made, final approval of which in lieu of prior recommended findings made in the case would change final disposition in a manner substantially detrimental to the party, and a rebuttal, as prescribed in § 725.8 (h), has been filed to the last physical evaluation board action, the Council shall refer the case to the Physical Disability Appeal Board for further consideration unless the Council shall recommend action by the Secretary of the Navy which does not differ in a material respect, detrimental to the party, from the relief sought in the rebuttal.

(4) *Recommendations not considered substantially detrimental to the party.* As used in this section and § 725.8 (h), recommendations, final approval of which would defer action on a case for a stated or an indefinite period, or retire the party temporarily for physical disability in lieu of permanent retirement for physical disability or separation, or retire the party permanently for physical disability in lieu of separation, or separate him for physical disability with severance pay in lieu of separation without severance pay, shall not be considered as substantially or materially detrimental to the interests of the party.

(d) *Procedure in Servicemen's Readjustment Act cases.* The Physical Review Council shall act in cases arising under section 302 of the Servicemen's Readjustment Act of 1944, as amended, (38 U. S. C. 693i), in advisory capacity only and shall, in such capacity, recommend to the Secretary of the Navy that the findings of such board be approved or disapproved, or that orders be issued in the case. In the event that other than approval is recommended, the reasons therefor shall be stated. The action of the Council shall otherwise be prepared in appropriate form and shall be signed by all members and by the recorder. It shall be transmitted to the Judge Advocate General.

(e) *Action on medical reports of periodic physical examinations of parties on the Temporary Disability Retired List.* Upon receipt of a report of a periodic physical examination of a party on the temporary disability retired list, forwarded pursuant to § 725.23, the Physical Review Council shall evaluate such report. If less than five years have elapsed since the date of the placement of the name of the party on the temporary disability retired list and the Council considers that no change in the status of the party is indicated, no action shall be taken on such report. If the Council considers that a change in the status is indicated, or if the period of five years from the date of the placement of the name of the party on the temporary disability retired list will soon terminate, the Council shall refer the case to a physical evaluation board for re-evaluation. In the event, however, the Council determines from the report that the party concerned is physically fit to perform the duties of his rank, grade, or rating and the party concerned has indicated a desire to be found physically fit for the performance of his duties, the case may be referred directly to the Secretary of the Navy for his action thereon without consideration by a physical evaluation board.

(f) *Action where party failed to report for final scheduled periodic physical examination.* If five years will soon elapse since the date of the placement of the name of the party on the temporary disability retired list and the party has failed to report for his last periodic physical examination scheduled pursuant to § 725.23, the Physical Review Council shall consider available records pertaining to the physical condition of the party concerned and advise the Secretary of the Navy, on the basis thereof, whether in accordance with accepted medical principles it may be found beyond any reasonable doubt that the party concerned was, and would remain, unfit to perform the duties of his rank, grade, or rating by reason of permanent physical disability when he was temporarily retired for physical disability or when he was given a subsequent periodic physical examination, as the case may be; and if so, the percentage which may be assigned for the disability for which the party was temporarily retired in accordance with the standard schedule of rating disabilities in current use by the Veterans Administration, assuming such physical disability to have improved to the greatest extent consonant with accepted medical principles. In lieu of the foregoing action, however, the Council may in any case arising under this subsection where it is reasonable to conclude from the available records that the party concerned has willfully abandoned benefits under Title IV of the Career Compensation Act of 1949, as amended (37 U. S. C. 271–285), by repeated failures to report for his periodic physical examinations after receipt of proper notification or by other conduct which clearly manifests an intent to abandon such benefits, recommend that the Secretary of the Navy, on the basis of such evidence, determine that the party concerned has abandoned his rights to disability benefits pursuant to Title IV of the Career Compensation Act of 1949, as amended, and that the name of such party therefore be removed from the temporary disability retired list without further disability benefits pursuant to Title IV of the Career Compensation Act of 1949, as amended. Action under this subsection shall be prepared by the Council in such form as it may desire and shall be signed by all members and by the recorder. It shall be transmitted to the Secretary of the Navy prior to the end of the five-year period during which the name of the party concerned may be carried on the temporary disability retired list.

THE PHYSICAL DISABILITY APPEAL BOARD

§ 725.17 *Convening authority.* The Secretary of the Navy shall convene the Physical Disability Appeal Board.

§ 725.18 *Composition.* The Physical Disability Appeal Board shall consist of five commissioned officers, three of whom shall be non-medical officers and two of whom shall be medical officers, designated by the Secretary of the Navy, and a recorder. The appointing order convening the Physical Disability Appeal Board may list more than five members, in which case the following provision may be included in the order: "Only five members of this Board, three of whom shall be non-medical members and two of whom shall be medical members, are empowered to act in any one case." The senior officer designated as a member shall be the President of the Board. The recorder may be either a commissioned officer or a civilian in the employ of the Government. Whenever the Board acts upon the case of a member of a Reserve component, all members of the Board shall be senior to the party, and, where possible, a majority of the members present and acting shall be Reserve officers.

§ 725.19 *Jurisdiction.* The Physical Disability Appeal Board shall have jurisdiction to act in any proper case referred to it pursuant to these regulations.

§ 725.20 *Function.* The Physical Disability Appeal Board is constituted to review certain records of proceedings of physical evaluation boards in the light of the action by the Physical Review Council and such contentions as may be raised in opposition to such action, applying established medical and legal principles and personnel policies as appropriate, and to express its views thereon for the information of the Secretary of the Navy, and to perform such other duties as the Secretary of the Navy may from time to time direct.

§ 725.21 *General instructions*—(a) *Procedure.* The Physical Disability Appeal Board, upon concurrence of a majority of the membership, may cause a record to be returned to a medical board or a physical evaluation board for the same reasons that it may be returned by the Physical Review Council, but such record shall be returned via the Physical Review Council. Where the Appeal Board takes action other than to so return the record, such action will be based on that evidence which was adduced before the physical evaluation board unless the party or his counsel has been given opportunity to appear and present evidence before the Appeal Board, or has consented to the consideration of other evidence by the Appeal Board, or has waived his right for final disposition based only on the evidence before the physical evaluation board. Proceedings before the Appeal Board may be solely on the record or may be adversary in nature. In the former, the Appeal Board shall take action upon such evidence as it legally may consider, which shall be presented to the Appeal Board by the recorder. In an adversary proceeding the Appeal Board shall take action on the evidence in the same manner as in the former case except that it will also consider further arguments presented to the Appeal Board by appellate counsel for the party and, if desired by the President of the Appeal Board, by the recorder. Such arguments shall be submitted as prescribed by the President of the Appeal Board and may be either written or oral as he may direct. The President of the Appeal Board may, in his discretion, in any adversary proceeding, if requested, allow the party concerned or his legal representative to appear and present evidence before the Appeal Board, and such evidence, together with other evidence of probative value then presented by him or on behalf of the Government, may be considered by the Appeal Board in arriving at its decision. The nature of the proceedings before the Appeal Board in any particular case shall be as determined by the President of the Appeal Board unless it is directed by the Secretary of the Navy that they be adversary in nature. The party concerned has no right to demand that proceedings before the Appeal Board be adversary in nature.

(b) *Disposition.* After consideration of the evidence before it, the Physical Disability Appeal Board shall render an advisory opinion for the Secretary of the Navy as to the appropriate recommended findings upon which it considers that final disposition of the case should rest. The Appeal Board may, in its discretion, set forth the basis for its opinion and shall do so in the same manner as prescribed for physical evaluation boards in § 725.8 (g) where the basis is not otherwise adequately set forth in the record. Any dissenting member of the Appeal Board shall make a minority report on those particulars in which he dissents. Such report shall be included in the record of the Appeal Board.

(c) *Appellate counsel.* Appellate counsel for the party shall be designated by the Judge Advocate General and shall consist of one or more officers. In an adversary proceedings before the Appeal Board the party concerned may be represented by civilian counsel when it does not cause undue delay in the appeal proceeding and if provided by him or his representative at no expense to the Government. In such case the designated appellate counsel for the party, unless his assistance is requested by the civilian counsel, shall not act in the case. Within five days excluding Sundays and holidays after notification of the advisory opinion and any dissent rendered by the Appeal Board, appellate counsel may file an argument in rebuttal to the advisory opinion or dissent of the Appeal Board. In exceptional cases and upon request the time for filing such argument may be extended in the discretion of the President of the Appeal Board.

(d) *Authentication and forwarding of records.* The record of proceedings of the Physical Disability Appeal Board shall be prepared in such form as the President of the Appeal Board may direct and shall be signed by all members and by the recorder. Arguments submitted in rebuttal to the actions of the Appeal Board shall be affixed to the record. The entire record shall be forwarded to the Secretary of the Navy. In cases where the recommendations of the Appeal Board differ in a significant respect from those of the Physical Review Council, the record will be resubmitted to the Council for comment.

PERIODIC PHYSICAL EXAMINATIONS

§ 725.22 *Requirements.* An individual whose name has been placed on the temporary disability retired list shall be given periodic physical examinations, not less frequently than every eighteen months during the period that his name is carried on such list, to determine whether the disability for which he was placed on such list has changed.

§ 725.23 *Procedure.* Orders shall be issued by the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate, directing an individual on the temporary disability retired list to report to an appropriate command for a periodic physical examination. In the event the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate, considers that it is not practicable for an individual to report for a periodic physical examination, the examination may be otherwise conducted or information as to the present physical condition of the individual may be otherwise obtained in such manner as the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate, may prescribe. If an individual on the temporary disability retired list considers that there has been a change in his disability which would warrant consideration prior to his next scheduled periodic physical examination he may request the Chief of Naval Personnel or the Commandant of the Marine Corps, as appropriate, to issue orders for earlier consideration. Reports of such examination are primarily for the purpose of furnishing information upon which determinations can be made as prescribed in § 725.11 (d) and shall be made as prescribed by the Surgeon General of the Navy or as prescribed in the Manual of the Medical Department, as appropriate. When considered necessary, the examiner or examiners may request that the Bureau of Medicine and Surgery furnish the complete medical records of the individual under examination. The report of the examination shall be headed "Report of Periodic Physical Examination" and be submitted to the Physical Review Council via routine channels.

FINAL ACTION

§ 725.24 *Action by the Secretary of the Navy.* After considering the entire record of a physical evaluation board case, the Secretary of the Navy will make determinations in conformity with the applicable law and will direct the disposition of the party whose case has been considered. Except in cases under section 302 of the Servicemen's Readjustment Act of 1944, as amended (38 U. S. C. 693i), and except as the Secretary of the Navy may otherwise direct, the Judge Advocate General and the Assistant Judge Advocate General are authorized to take action herein prescribed for the Secretary of the Navy. The Secretary of the Navy, after considering the record of proceedings and findings of a physical evaluation board convened in cases arising under section 302 of the Servicemen's Readjustment Act of 1944, as amended, will approve or disapprove, or issue orders in such case.

§ 725.25 *Relief from final action*—(a) *Generally.* Upon execution of the direction of the Secretary of the Navy as to disposition of a case which has been considered pursuant to this chapter, such action becomes final and may not be changed, modified, set aside or reopened except upon one or more of the grounds, and in the manner, hereinafter set forth.

(1) *Clerical mistakes.* Clerical mistakes or mathematical miscalculations in the orders affecting disposition or other parts of the record of proceedings may be corrected by the Secretary of the Navy at any time on his own initiative or upon the petition of the individual whose case has been considered or any cognizant authority of the Naval Establishment after such notice, if any, as the Secretary of the Navy may direct.

(2) *Other grounds for relief.* Upon notice to the individual concerned and opportunity for hearing thereon or upon petition of the individual concerned, the Secretary of the Navy may, in his discretion, change or modify or may set aside his action directing the disposition of the individual and direct new proceedings in his case for the following reasons:

(i) *Newly discovered evidence.* Upon the presentation of newly discovered evidence which by due diligence could not have been presented prior to the effective date of disposition of the individual concerned, which relates to a fact in existence at the time of such disposition, which is not merely cumulative or corroborative and not such as merely to affect the weight of the evidence or the credibility of the witnesses, and which would have warranted a different action had it been presented;

(ii) *Fraud, misrepresentation, or other misconduct.* Upon a showing that the directed disposition of an individual was based upon the fraud, misrepresentation of material fact, or other misconduct of a party of such nature that in the absence thereof a different action would have been taken; and

(iii) *Mistake of law.* When it appears that the directed disposition of an individual was based upon a mistake of law which resulted in either an assumption of jurisdiction beyond the authority granted by law or a refusal to assume jurisdiction within the authority granted by law.

(b) *Procedure for obtaining relief.* (1) *Clerical mistakes.* A clerical mistake or mathematical miscalculation which does not affect the disposition of the individual or change the computation of his disability retirement pay on the basis of percentage of disability may be corrected by the Secretary of the Navy without notice. If the correction of the error would affect the disposition or so change the computation of disability retirement pay, the individual shall be given reasonable notice and afforded an opportunity to be heard, if he shall request it, before such correction is made. Relief sought by an individual under this subparagraph shall be by petition addressed to the Secretary of the Navy setting forth the error complained of and the relief desired.

(2) *Relief on other grounds.* When relief is sought on the grounds set forth in § 725.25 (a) (2), the individual concerned, his legal representative or the cognizant authority of the Naval Establishment shall address a petition to the Physical Review Council. The petition must be filed within five years from the effective date of the individual's disposition and shall set forth the relief desired and the grounds for such relief. When the petition is based upon evidence not of record in the Navy Department, such evidence shall be filed with the petion. The Physical Review Council, upon consideration of such petition, shall make recommendations to the Secretary of the Navy relative to granting such relief.

(3) *Hearing upon petition for relief.* If the Physical Review Council, upon the consideration of a petition for relief, shall deem it necessary that hearings be held upon any such petition, it may direct any physical evaluation board to hold such hearings, the record of which, without recommendations, shall be forwarded to the Physical Review Council.

(4) *Effect of filing petition for relief and action thereon.* The filing of any petition for relief shall not affect the directed disposition of an individual or suspend its operation until and unless the Secretary of the Navy shall so direct. Neither the action of the Secretary of the Navy upon a petition for relief nor any action taken by him pursuant to the proceedings on the reopening of a case shall operate to extend the time for application for review of the original disposition by a statutory board.

APPENDIX

§ 725.26 *Excerpts from "Misconduct and Line of Duty" provisions of Chapter IV of the 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951, referred to in* § 725.8—(a) *General.* An adverse finding as to misconduct and line of duty will not be applied in case of death, injury or disease as a punitive measure. Disciplinary action, if warranted, should be taken independently of any determination of misconduct or line of duty. A favorable finding of not misconduct and line of duty does not preclude separate disciplinary action.

(b) *Nature of misconduct.* Misconduct is wrongful conduct. Simple or ordinary negligence or carelessness standing alone does not constitute misconduct. As a general rule, the fact that an act violates a law, regulation or order does not, of itself, constitute a basis for a determination of misconduct. In order to support an opinion of misconduct, it must be found that the death, injury or disease: (1) was intentionally incurred, or resulted from such gross negligence as to demonstrate a reckless disregard of the consequences; and (2) was either immediately caused by the act under consideration, or set other events in motion, all constituting a natural and continuous chain of events, which caused the death, injury or disease; and (3) was the reasonably foreseeable or the likely result of such act. As indicated above, the wrongful conduct must be found to have been a proximate cause of the death, injury or disease, and to be a proximate cause the wrongful conduct must have been such that it could have been reasonably foreseen that death, injury or disease would likely result therefrom. If an intervening cause directly precipitated the death or disability but was not reasonably foreseeable at the time of the act of misconduct in question, the misconduct cannot be considered to have been a proximate cause of the resulting death or disability.

(c) *Exception.* Notwithstanding any of the foregoing provisions of this section, a finding of misconduct will normally be required in cases in which injury or death occurs while the individual is engaged in the theft or wrongful appropriation of any vehicle, or while he is voluntarily participating in the use of any vehicle, knowing it to have been stolen or otherwise wrongfully appropriated.

(d) *Presumption of not misconduct.* In the absence of sufficient evidence to the contrary, it is presumed that death, injury or disease suffered by a person in the naval service was not the result of his misconduct. In order to overcome this presumption, there must be clear and convincing evidence that the death, injury or disease was either the proximate result of the person's misconduct or that it was incurred in the circumstances noted in paragraph (c) of this section. Mere conjecture is not sufficient. Any reasonable doubt as to the misconduct status shall be resolved in favor of the deceased or disabled person.

(e) *Line of duty.* Injury or disease suffered while in active service, or disability or death proximately resulting therefrom, shall be considered to have been in line of duty unless the injury or disease is found to have been incurred: (1) As the result of the person's misconduct, or (2) While avoiding duty by deserting the service, or (3) While absent without leave materially interfering with the performance of military duties, or (4) While confined under sentence of court-martial which involved an unremitted dishonorable discharge, or (5) While confined under sentence of civil court following conviction of a felony as defined by the laws of the jurisdiction where convicted. The applicability of any of the foregoing enumerated conditions to the injury or disease precludes an opinion that the injury or disease, or death resulting therefrom, was incurred in line of duty. For the purposes of the foregoing definition, active service shall be construed to include extended active duty, active duty for training and any authorized leave or liberty therefrom, and inactive-duty training. The misconduct status is an integral part of the line of duty determination. An opinion that the death, injury or disease was incurred in line of duty must be preceded by the opinion that the death, injury or disease was not the result of the person's misconduct. An opinion of "misconduct" precludes an opinion that the death, disease or injury was incurred in line of duty. An opinion of "not in line of duty" is not, however, inconsistent with a conclusion of "not misconduct." A finding of "not in line of duty" will be made where injury or disease or death resulting therefrom, is incurred while the person is in an unauthorized absence status which materially interferes with the performance of his military duties. Whether absence without leave materially interferes with the performance of military duties necessarily depends upon the facts of each situation to which must be applied a standard of reality and common sense. No definite rule can be formulated as to what constitutes material interference. Generally speaking, however, an absence in excess of 24 hours will be considered to be a material interference in the absence of evidence establishing the contrary. Similarly an absence of shorter duration will not be considered to be a material interference unless there is evidence to establish the contrary.

(f) *Presumption of line of duty.* It is presumed, in the absence of clear and convincing evidence to the contrary, that an injury or disease was incurred in line of duty. This presumption applies when the person was examined upon entry into active service and such defect was not noted, and when there is no evidence in the medical record that the injury or disease existed prior to commencement of, or return to, active service. Where disease or injury was incurred prior to entry upon, or return to, active service and became a disability or resulted in death when aggravated due to service, the aggravation is a proper basis for finding line of duty.

(g) *Determinations as to misconduct and line of duty.* Any one of the following determinations may be made as to misconduct and line of duty status:

(1) In line of duty, not due to own misconduct

(2) Not in line of duty, not due to own misconduct

(3) Not in line of duty, due to own misconduct.

(h) *Mental irresponsibility*—(1) *General.* In the absence of evidence to the contrary, there is a presumption that all persons are mentally competent. A person mentally incompetent with respect to a given act is not held to be responsible for that act, and injury or death incurred as a result of such act is not considered to be the result of misconduct, unless the incompetency is shown to have resulted from his prior misconduct and was the proximate cause of the injury or death. Death, injury or disease incurred during a period of unauthorized absence will be held "in the line of duty" when it is determined that the person was not mentally competent at the time such absence commenced.

(2) *Suicide.* In view of the strong human instinct of self-preservation, suicide or a bona fide suicide attempt is considered to be evidence of mental irresponsibility. Before the rules pertaining to suicide are applied, however, it must be established that the death or injury was the result of a suicidal act with suicidal intent, and in cases of doubt, any other reasonable explanation of the death or injury should be adopted. When it is determined that the death or injury was a suicide or the result of a bona fide suicide attempt, and when no reasonable and adequate motive therefor is supplied by the evidence, the suicidal act itself rebuts the presumption of sanity and a conclusion of mental irresponsibility is in order. When the evidence indicates that the suicidal act was motivated by a reason that might prompt a rational person to take his own life, the question of sanity will depend upon all of the evidence pertaining to the mental competence of the person at the time of the suicidal act. Intentional self-inflicted injury, unaccompanied by a bona fide suicidal intent, is a suicidal gesture and such injury, in the absence of a showing of mental irresponsibility, is deemed to be the result of the victim's own misconduct.

(i) *Miscellaneous cases*—(1) *Venereal disease.* Venereal disease of itself is not to be deemed due to misconduct if the person has complied with pertinent regulations requiring him to report and receive treatment for such disease.

(2) *Surgical and medical treatment.* Disability or death shall be held to have been incurred as the result of misconduct if it resulted from an unreasonable refusal to submit to surgical or medical treatment.

(3) *Intoxication.* Death or injury incurred as the proximate result of intoxication is considered to have occurred as the result of misconduct. In order for intoxication alone to be considered the basis for a determination of misconduct, there must be a clear showing that the person was intoxicated at the time of the injury or death and that the intoxication was a proximate cause thereof.

(4) *Alcoholism and drugs.* Disability either sickness or disease, or death which is directly attributable to intemperate use of alcoholic liquor or habit-forming drugs, is the result of misconduct.

3. Section 750.1 is revised to read as follows:

§ 750.1 *Definition.* The term "employee of the Government", as used in §§ 750.1 to 750.16, includes members of the naval forces of the United States, officers or employees of the Navy, and persons acting on behalf of the Navy in an official capacity, temporarily or permanently in the service of the United States, whether with or without compensation.

4. Section 750.2 is revised to read as follows:

§ 750.2 *Statutory authority.* Pursuant to, and subject to the limitations of, Part 2 of the Federal Tort Claims Act, Title IV of the Legislative Reorganization Act of 1946, approved August 2, 1946 (60 Stat. 843), repealed, revised, codified and re-enacted as a part of Title 28, United States Code, by Public Law 773, 80th Congress, approved June 25, 1948 (62 Stat. 982; 28 U. S. C. 2671–2680), as amended, the Secretary of the Navy, or his designee for the purpose, acting on behalf of the United States, is authorized to consider, ascertain, adjust, determine, and settle any claim for money damages of $1,000 or less against the United States, accruing on or after January 1, 1945, for injury or loss of property or personal injury or death caused by the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant, in accordance with the law of the place where the act or omission occurred.

5. Section 750.8 (a) is revised to read as follows:

§ 750.8 *Statutory authority for action.* (a) Pursuant to, and subject to the limitations of, Part 3 of the Federal Tort Claims Act, Title IV of the Legislative Reorganization Act of 1946, approved August 2, 1946 (60 Stat. 843; 28 U. S. C. 931–934), as amended by the act of August 1, 1947 (Pub. Law 324, 80th Cong.; 61 Stat. 722), repealed, revised, codified and re-enacted as a part of Title 28, United States Code, by Public Law 773, 80th Congress, approved June 25, 1948 (62 Stat. 928, 933, 937, 971, 973, 983; 28 U. S. C. 1254, 1255, 1346, 1402, 2402, 2411, 2412, 2674), as amended, the United States district court for the district where the plaintiff resides or wherein the act of omission complained of occurred, including the District Court for the Territory of Alaska, the United States District Court for the District of the Canal Zone and the District Court of the Virgin Islands, sitting without a jury, has exclusive jurisdiction of civil actions on claims against the United States, for money damages, accruing on or after January 1, 1945, for injury or loss of property, or personal injury or death caused by the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant for such damage, loss, injury, or death in accordance with the law of the place where the act or omission occurred.

(62 Stat. 982; 28 U. S. C. 2671–2680)

6. Section 750.17, preceding paragraph (a), is revised to read as follows:

§ 750.17 *Definitions.* As used in §§ 750.17 to 750.27: • • •

7. Section 750.18 is revised to read as follows:

§ 750.18 *Statutory authority.* The first section of the act of December 28, 1945 (59 Stat. 662; 31 U. S. C. 223d), makes applicable to the Navy the act of July 3, 1943 (57 Stat. 372; 31 U. S. C. 223b), as amended by the act of May 29, 1945 (59 Stat. 225; 31 U. S. C. 223b), and the act of June 28, 1946 (60 Stat. 332; 31 U. S. C. 223b). Pursuant to, and subject to the limitations of, this authority, as amended, the Secretary of the Navy and, subject to appeal to the Secretary of the Navy, such other officer or officers as he may designate for such purposes and under such regulations as he may prescribe, are authorized to consider, ascertain, adjust, determine, settle, and pay in an amount not in excess of $1,000, where accepted by the claimant in full satisfaction and final settlement, any claim against the United States arising on or after May 27, 1941, when such claim is substantiated in such manner as the Secretary of the Navy may by regulation prescribe, for damage to or loss or destruction of property, real or personal, or for reasonable medical, hospital, and burial expenses actually incurred on account of personal injury or death, caused by military personnel or civilian employees of the Navy while acting within the scope of their employment, or otherwise incident to noncombat activities of the Navy, including claims for damage to or loss or destruction, by criminal acts, of registered or insured mail while in the possession of the military authorities, claims for damage to or loss or destruction of personal property bailed to the Government and claims for damages to real property incident to the use and occupancy thereof, whether under a lease, express or implied, or otherwise.

8. Section 750.19 (b) (7) is revised to read as follows:

(7) Any claim arising on or after January 1, 1945, the cause of which has been determined to be the negligent or wrongful act or omission of an employee of the Government (as defined in § 750.1) while acting within the scope of his office or employment, and which is in all other respects within the cognizance of the provisions governing administrative settlement of Federal tort claims under Title 28, United States Code, and §§ 750.1–750.7.

9. Section 750.19 (b) (8) is revised to read as follows:

(8) Any claim arising in a foreign country or possession thereof which is cognizable under the provisions of the act of January 2, 1942 (55 Stat. 880; 31 U. S. C. 224d), as amended, and regulations issued pursuant thereto.

10. Section 750.26 (a) is revised to read as follows:

§ 750.26 *Claims arising in foreign countries.* (a) There are no geographical limitations upon the scope of application of the act of December 28, 1945, and §§ 750.17–750.27. The Foreign Claims Act of January 2, 1942 (55 Stat. 880; 31 U. S. C. 224d), as amended, and regulations issued pursuant thereto, however, have preemptive application to claims for damage to or loss or destruction of real or personal property, and for personal injury or death, caused by military forces or individual members thereof, whether military personnel or civilian employees, or otherwise incident to noncombat activities of such forces, in a foreign country, to public property located therein, or to the privately owned property or to the persons or inhabitants of such country. Any claim which arises in a foreign country, therefore, and which is within the scope of the Foreign Claims Act, as amended, is precluded from consideration under the act of December 28, 1945, and §§ 750.17–750.27. Any claim which arises in a foreign country and is for any reason not cognizable under the Foreign Claims Act and the regulations issued thereunder, however, may be considered and paid under the act of December 28, 1945, and §§ 750.17–750.27 provided it is in all respects within the scope thereof.

11. Section 750.27 is revised to read as follows:

§ 750.27 *Statute of limitations.* No claim may be settled under the act of December 28, 1945, and §§ 750.17–750.27 unless it is presented in writing within one year after the occurrence of the accident or incident out of which it arises, except that

(a) If such accident or incident occurs in time of war, or if war intervenes within one year after its occurrence, any claim may, on good cause shown, be presented wtihin one year after peace is established; or

(b) If such accident or incident occurred after June 23, 1950, and before the termination of the national emergency proclaimed December 16, 1950, any claim may, on good cause shown, be presented within one year after the termination of that national emergency or August 1, 1953, whichever is earlier.

(Sec. 1, 59 Stat. 662; 31 U. S. C. 223d)

12. Section 750.35 (d) is revised to read as follows:

(d) The regulations in this part in no way modify the requirements of Navy Regulations; the Manual for Courts-Martial, United States, 1951; and the 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951 and the making of an investigation and report hereunder does not constitute or excuse compliance with any provision of Navy Regulations; the Manual for Courts-Martial, United States, 1951; and the 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951.

13. Section 750.38 is revised to read as follows:

§ 750.38 *Duties of the investigating officer.* (a) It shall be the duty of the investigating officer, in making an investigation pursuant to the regulations in this part:

(1) To consider all information and evidence obtained as a result of any previous investigation or inquiry into any aspect of the incident.

(2) To conduct further investigation of the matter in a fair and impartial manner, covering all phases of the incident and giving consideration to its bearing on possible claims against or in favor of the Government and on other interests of the service, to the end that a comprehensive, accurate, and unbiased factual report of the incident may be made available to higher authority for such action as is required by the circumstances of the case.

(3) To secure and consider signed statements from all competent witnesses on facts pertinent to the incident. Witnesses should be interviewed by the investigating officer at the earliest opportunity and he should obtain from them full statements. Statements from principal witnesses should be reduced to writing and their signatures obtained thereon if at all possible. The interests of the United States may be seriously prejudiced if the investigating officer fails to obtain such statements before witnesses lose their clear recollection or can be confused by questioning by persons with adverse interests.

(4) To inspect the property damage and to interview injured persons or their representatives personally, and if such personal inspection and interview is not conducted, to state the reason therefor.

(5) To ascertain the nature, extent, and amount of damage and to obtain all pertinent repair bills and estimates, or medical, hospital, and associated bills, as are necessary to the proper adjudication of any claim against or in favor of the Government which may arise from the incident for proper method of computing the amount of damages (see § 750.30). Claims for items of damages such as loss of earnings, pain and suffering, and temporary or permanent disability, arising under the Federal Tort Claims Act, require submission by the claimant of a statement by his employer executed before a notary public, or where the claimant is in business for himself, a certified copy of the company records or where this is not available a sworn statement by the claimant.

(6) In all cases in which a suit against the United States is likely or is pending, and in all other cases in which it appears pertinent to determine liability, to obtain from the proper maintenance office the latest report of material inspection of the Navy aircraft or motor vehicle that was conducted prior to the accident.

(7) To secure from qualified persons of the activity concerned, or of another appropriate activity, statements concerning the extent of damage or injury and the reasonableness of the damages claimed. The investigating officer, if the injured person does not object, should have a physical examination made of the injured person at a military installation, to the extent of the adequacy of the personnel and facilities of such installation, when such examination is considered necessary in connection with a claim incident to such injuries, provided that no expense for services or supplies from other federal agencies or civilian agencies is incurred with such examination. A copy of the report of such examination obtained from the medical installation will be included in the report of investigation or, if made subsequent to the forwarding of the latter report, will be forwarded to the same command as the report of investigation.

(8) To reduce to writing and incorporate into a unified investigative report, prepared in triplicate, all pertinent testimony, exhibits, and any other evidence taken or considered. (See, however, the exception contained in § 750.39 (b).)

(9) To furnish the proper claim forms to any person who inquires concerning the procedure for making claim against the Government as a result of a service-connected incident, and to advise such person where the claim should be filed and what substantiating evidence should accompany the claim.

(10) To submit the complete investigative report to his commanding officer as promptly as the circumstances permit; and in the case of an incident involving any personal injury or property damage estimated to be in excess of $1,000, to submit immediately a preliminary report, containing such information as is at that time available, to his commanding officer for forwarding to reach the Judge Advocate General within twenty days of the occurrence of the incident under investigation. In a case where not all of the required information is immediately available, as in an accident resulting in personal injuries requiring extended periods of hospitalization or medical care, the investigative report shall be submitted promptly, containing all available information at the time of submission and shall be completed by means of a supplementary report or reports submitted as soon as the previously omitted information becomes available.

14. Section 750.39 is revised to read as follows:

§ 750.39 *Contents of the investigative report.* A written report of investigation will be made in each case, using standard forms whenever appropriate forms are available.

(a) Except in cases falling within the provisions of paragraph (b) of this section, the report shall be complete in every significant detail and will include particularly such of the following information as is pertinent:

(1) Date, time, and exact place the accident or incident occurred, specifying the highway, street, road, or intersection, including the streets between which or the number of the block where the accident or incident occurred, or the number of miles and the direction from the nearest town.

(2) A concise but complete statement of the circumstances of the accident or incident. Reference should be made to pertinent physical facts observed and to any material statements, admissions, or declarations against interest by any person involved.

(3) A statement whether a claim has been or, if known, will be filed and, if so, the name and address of the claimant.

(4) A statement whether the claimant is the sole owner of the damaged property and, if not, the name and address of the owner, or part owners, and the basis of the claimant's alleged right to file the claim.

(5) Names, service numbers, grades, organizations and addresses of military personnel and civilian employees involved as participants or witnesses.

(6) Names and addresses of witnesses.

(7) A statement whether military personnel and civilian employees were acting within the scope of their employment and the basis for such determination.

(8) Accurate description of Government property involved, and nature and amount of damage, if any. If Government property was not damaged, that fact should be stated.

(9) Accurate description of all privately owned property involved, nature and amount of damage, if any, and the names and addresses of the owners thereof.

(10) Names, addresses, and ages of all civilians or military personnel injured or killed. Information as to the nature and extent of injuries, degree of permanent disability, prognosis, period of hospitalization, name and address of attending physician and hospital, and amount of medical, hospital, and burial expenses actually incurred, occupation, and wage or salary of civilians injured or killed. Names, addresses, ages, relationship, and extent of dependency of survivors of any such person killed or fatally injured should be stated.

(11) If straying animals are involved, a statement whether the jurisdiction has "open range law" and, if so, reference to such statute.

(12) A statement whether any person involved violated any State or Federal statute, local ordinance, or installation regulations and, if so, in what respect. The statute, ordinance, or regulation should be set out in full.

(13) A statement whether a police investigation was made. A copy of the police report of investigation will be included if available.

(14) A statement whether any arrests were made or charges preferred, and the result of any trial in civil or military courts.

(15) The comments and recommendations of the investigating officer as to the existence of liability and as to the amount of the damage, loss or destruction, or the amount payable on account of personal injury or death.

(16) As many exhibits or enclosures as are pertinent, and as may appear necessary or useful in the circumstances of each case, shall be obtained during the course of the investigation and shall be attached to the investigative report, forming a part thereof. The enclosures shall be numbered consecutively and shall be listed numerically in the investigative report in accordance with standard Navy correspondence procedure.

(b) In lieu of the formal investigation contemplated by § 750.38 and the detailed report described in paragraph (a) of this section, a more limited investigation and report may be made when the following circumstances exist:

(1) A claim has been presented for an amount of $100.00 or less.

(2) The claim is cognizable under the Federal Tort Claims Act (§§ 750.1–750.7) or the Act of December 28, 1945 (§§ 750.17–750.27).

(3) The amount payable on the claim has been agreed upon. This limited report will take the form of a certification and should provide substantially as follows:

CERTIFICATE

---------- 195----

I certify that I have investigated the accident (incident), that the facts fully substantiate the claim, and that I have taken the following action:

I further find that the amount claimed represents the claimant's loss and recommend payment under the provisions of §§ 750.1–750.7 NGCR (§§ 750.17–750.27).

(Investigating officer)

(Commanding officer)

(Authorized adjudicating officer)

Incls X Std Form 91.*
---------- Police Report
---------- Paid bill or estimate
---------- Other
Approved for payment.

*Must be included in all cases involving motor vehicle accidents.

In the space provided for noting the action taken by the investigating officer, he should describe very briefly the limited investigation upon which his recommendation is based, for example, information (estimates, etc.) received by telephone from ----------; interviewed Government driver (other driver, witnesses, etc.); inspected damaged property; violation of local law; etc.

15. Section 750.40 is revised to read as follows:

§ 750.40 *Action by the commanding officer.* The investigative report will be reviewed and, if necessary, returned to the investigating officer for the correction of any omissions noted. If there is a legal officer available, the commanding officer should ordinarily use his services in reviewing and, if desirable, endorsing the report. If the report is in order, it shall be forwarded by endorsement, with any pertinent comments and recommendations. In cases in which the certificate report authorized by § 750.39 (b) is used, the commanding officer may indicate his approval of the certificate report by signing this report in the space provided thereon. One copy of the report shall be retained in the file of the local activity and shall be made available to safety officers for use in accident prevention and to superior commands upon request. The original and one copy of the report, together with all three copies of any claim filed, shall be forwarded by means of the aforementioned endorsement, without regard to chain of command, to the Commandant of the naval district in which the incident occurs, attention District Legal Officer. In cases where the incidents occur outside the geographical limits of any naval district, the commanding officer shall promptly forward such reports to the Judge Advocate General.

16. Section 750.41 is revised to read as follows:

§ 750.41 *Action by the district legal officer.* (a) The district legal officer may, in his discretion, return the investigative report for such additional investigation and information as may be considered necessary. When satisfied with the report, the district legal officer shall endorse the investigative report with his recommendations as to whether any claim or claims should be paid, and in what amount, stating the legal basis for his recommendations.

(b) The commandant of the naval district or the district legal officer shall approve or disapprove the claims within his adjudicating authority (see § 750.42) as the law and the facts may warrant. In exceptional and unusual cases, even though the claim or claims may appear to fall within the adjudicating authority of the commandant and the district legal officer, the entire record, together with pertinent comments and recommendations, may be referred to the Judge Advocate General for appropriate action.

(c) In all cases not coming within the adjudicating authority of the commandant and the district legal officer, one copy of the investigative report shall be retained for the files and the original of the report, together with all related papers and all three copies of any claims filed shall be forwarded, with pertinent comments and recommendations, to the Judge Advocate General.

17. Section 750.42 is revised to read as follows:

§ 750.42 *Approval of claims.* (a) Claims cognizable under the provisions governing administrative settlement of federal tort claims under Title 28, United States Code, and §§ 750.1 to 750.7 shall be approved or disapproved, in whole or in part, by any of the following, all of whom are designated to administer those provisions of law for the Navy:

(1) The Judge Advocate General.
(2) The Assistant Judge Advocate General.
(3) The Director, Civil Law Division of the Office of the Judge Advocate General.
(4) The head, General Claims Branch, Civil Law Division of the Office of the Judge Advocate General.
(5) The Commandant or the District Legal Officer of the naval district within which the claims arose, if the combined liquidated and known potential claims of all possible claimants for the property damage arising from the accident or incident do not exceed a total amount of $1,000 and there are no known possible claims in any amount for either personal injury or death as a result of the accident or incident.
(6) The Legal Officer, U. S. Naval Base, Newport, Rhode Island, and the Legal Officer, U. S. Naval Submarine Base, New London, Connecticut, for claims accruing to operators of fishing vessels for damage to nets, booms, lines, and other trawler impediment as a result of contact with naval ordnance (mines and torpedoes), if the combined liquidated and known potential claims of all possible claimants for property damage arising from the accident or incident do not exceed a total amount of $1,000 and there are no known possible claims in any amount for either personal injury or death as a result of the accident or incident.

(b) Claims cognizable under the act of December 28, 1945, and §§ 750.17–750.27 shall be approved or disapproved, in whole or in part by any of the following, all of whom are designated to administer those provisions of law for the Navy:

(1) The Judge Advocate General.
(2) The Assistant Judge Advocate General.
(3) The Director, Civil Law Division of the Office of the Judge Advocate General.
(4) The Head, General Claims Branch, Civil Law Divison of the Office of the Judge Advocate General.
(5) The Commandant or the District Legal Officer of the naval district within which the claims arose, if the combined liquidated and known potential claims of all possible claimants for property damage arising from the accident or incident do not exceed a total amount of $1,000 and there are no known possible claims in any amount for either personal injury or death as a result of the accident or incident.
(6) Foreign Claims Commissions to the extent authorized by Department of Defense Notices of January 28, 1955 (20 F. R. 775) and December 11, 1953 (18 F. R. 8513). (See § 753.33 of the Foreign Claims Regulations.)

(c) Claims cognizable under the act of July 11, 1919, as amended, and §§ 750.28–750.29 shall be approved or disapproved by the Secretary of the Navy.

(d) Subject to the provisions of Title 28, United States Code, § 1346 (b), and §§ 750.8–750.16 respecting civil action against the United States, and subject to the provisions of § 750.43, with regard to appeal, any award or determination of the Secretary of the Navy or his designees, under the provisions governing administrative settlement of federal tort claims under Title 28, United States Code, is final and conclusive upon all officers of the Government, except when procured by means of fraud. Notwithstanding any other provision of law to the contrary, any settlement made by the Secretary of the Navy under the authority of the act of December 28, 1945, and §§ 750.17–750.27, or, subject to the provisions of § 750.43 with regard to appeal to the Secretary of the Navy, by his designees for the purpose, is final and conclusive for all purposes.

18. Section 750.43 is revised to read as follows:

§ 750.43 *Notice and appeal.* (a) The claimant shall, in every case, be notified by the approving or disapproving authority, in writing, of the action taken on his claim.

(b) When a claim has been disapproved, either in whole or in part, the claimant may, within thirty days after receipt of the aforementioned notification, appeal to the Secretary of the Navy (Judge Advocate General), stating the grounds relied upon for such appeal. Such appeals, in cases of claims considered under the act of December 28, 1945, shall be decided by the Secretary of the Navy. In cases of claims considered under Title 28, United States Code, the appeal, except in cases originally processed and disapproved by The Judge Advocate General, may be decided either by the Secretary of the Navy or The Judge Advocate General. In cases originally processed and disapproved by The Judge Advocate General, the appeal shall be decided by the Secretary of the Navy.

19. Section 750.44 is revised to read as follows:

§ 750.44 *Settlement agreement.* (a) In cases in which the claim is approved in the full amount claimed, no settlement agreement, other than the agreement incorporated in the claim for damage or injury, Standard Form #95, is necessary. In cases in which the claim is being approved for a lesser amount than that claimed, no payment will be made until the claimant has indicated in writing his willingness to accept such amount in full satisfaction and final settlement of the claim.

(b) The acceptance by the claimant of any award or settlement made by the Secretary of the Navy, or his designees for the purpose, in pursuance of the authority granted by statute and the regulations in this part, or of any award, compromise, or settlement made by the Attorney General, is final and conclusive upon the claimant and constitutes a complete release by the claimant of any claim against the United States by reason of the same subject matter. The acceptance by the claimant of any award, compromise, or settlement made under the provisions governing the administrative settlement of federal tort claims under Title 28, United States Code, or the civil action provisions of Title 28, United States Code, section 1346 (b), and §§ 750.1–750.16 also constitutes a complete release by the claimant of any claim against the employee of the Government whose act or omission gave rise to the claim, by reason of the same subject matter.

20. Section 750.45 is revised to read as follows:

§ 750.45 *Payment of claims.* Claims approved by the Secretary of the Navy, the Judge Advocate General, the Assistant Judge Advocate General, the Director of the Civil Law Division of the Office of the Judge Advocate General, or the Head, General Claims Branch, Civil Law Division of the Office of the Judge Advocate General as provided in § 750.42 shall be forwarded to the U. S. Navy Regional Accounts Office, Washington 25, D. C., for payment from appropriations designated for that purpose. Claims approved by the Legal Officer, U. S. Naval Base, Newport, Rhode Island, the Legal Officer, U. S. Naval Submarine Base, New London, Connecticut, or a Commandant or District Legal Officer as provided in § 750.42 shall be forwarded to such disbursing officer as may be designated by the Bureau of Supplies and Accounts for payment from appropriations designated for that purpose.

(41 Stat. 132, sec. 1, 59 Stat. 662, 62 Stat. 982; 34 U. S. C. 600, 31 U. S. C. 223d, 28 U. S. C. 2671–2680)

21. Section 751.20 is revised to read as follows:

§ 751.20 *Form of claim.* Claim will be submitted by presenting a detailed statement in triplicate, signed by or on behalf of the claimant, on form NAVEXOS 2662B, except when such forms are not available through normal distribution channels, in which case a claim may be accepted on a form containing the information necessary to substantiate the claim. Attention is directed to the provisions of § 751.21 outlining specific types of evidence required in particular classes of claims; careful compliance with such requirements is essential to avoid delays resulting from the necessity of returning the claim for amplification.

22. Section 751.24 is revised to read as follows:

§ 751.24 *Form of investigating officer's report.* Report by the investigating officer (see § 751.23 (b)), will be submitted on form NAVEXOS 2662B, except when such form is not available through normal distribution channels, in which case the report should set forth substantially the information indicated by the form.

23. Section 751.27 (a) is revised to read as follows:

§ 751.27 *Civilian personnel adjudicating authority*—(a) *Claims.* The Judge Advocate General of the Navy, the Assistant Judge Advocate General of the Navy, the Director, Civil Law Division, Office of the Judge Advocate General and the Head, General Claims Branch, Civil Law Division, Office of the Judge Advocate General, are hereby designated and authorized to consider, ascertain, adjust, and determine claims filed under the provisions of §§ 751.1 and 751.32 by civilian personnel of the Navy and Marine Corps.

(Sec. 2, 59 Stat. 662; 31 U. S. C. 222e)

24. The authority preceding § 753.1, is revised to read as follows:

AUTHORITY: §§ 753.1 to 753.33 issued under sec. 1, 55 Stat. 880, as amended; 31 U. S. C. 224d. Interpret or apply 57 Stat. 372, as amended, 61 Stat. 500, as amended, 68 Stat. 1006; 31 U. S. C. 223b to 223e, 5 U. S. C. 171a, 31 U. S. C. 224l–2 to 224l–5.

25. The note, preceding § 753.1, is revised to read as follows:

NOTE: §§ 753.1 to 753.33 are also contained in the 1955 Naval Supplement to the Manual for Courts-Martial, United States, 1951.

26. Section 753.18 is revised to read as follows:

§ 753.18 *Claims for damage occasioned by naval vessels.* Unless specifically authorized by the Judge Advocate General in each case, the Foreign Claims Commission shall not assume jurisdiction or proceed to hear any claim for damage occasioned by a naval vessel. This provision applies to claims for damage caused to land structures as well as claims of an admiralty nature. The occurrence of any such damage, if brought to the attention of a claims commission, shall be reported immediately to the Judge Advocate General, attention of the Admiralty Division.

27. Section 753.21 is revised to read as follows:

§ 753.21 *No formal procedure prescribed.* No formal procedure for the conduct of an investigation of a claim is prescribed. However, the instructions governing the procedure of courts of inquiry and boards of investigation by the 1955 Naval Supplement to the Manual for Courts Martial, United States, 1951, should be followed in principle as a guide. A transcript of the testimony of witnesses is not required and only the substance of statements of witnesses need be recorded. However, it is desirable that signed statements of material witnesses be made a part of the record. The formal rules of evidence need not be adhered to and any evidence, regardless of its form, which the commission deems material may be received and evaluated.

28. Section 753.24 is revised to read as follows:

§ 753.24 *Payments.* Claims authorized to be paid hereunder will be forwarded after approval to the nearest Navy or Marine Corps disbursing officer in the country concerned for preparation and payment of the public voucher.

29. Section 753.30 is added to read as follows:

§ 753.30 *Claims arising in specified foreign countries.* The United States has ratified the NATO Status of Forces Agreement and has entered into, and contemplates entering into, other similar agreements with foreign countries. Article VIII of the NATO Status of Forces Agreement and certain provisions of other agreements are inconsistent with the continued unrestricted use of the Foreign Claims Act and its implementing regulations in certain countries. It is, therefore, directed that the directives of the cognizant area commander be consulted and that claims not be referred to foreign claims commissions until it has been determined that such action is not inconsistent with the provisions of the aforementioned agreements and their implementing directives. Department of Defense Notice of January 28, 1955 (20 F. R. 775) directs that, where a single service has been or may be assigned responsibility for claims in a particular country or area, all reimbursements, settlements or payments that may be made in such country or area under the Foreign Claims Act of January 2, 1942, as amended, and the Military Claims Act of July 3, 1943, as amended, shall be made solely by that service. In countries in which the NATO Status of Forces Agreement or a similar agreement is in force, accidents which may give rise to a tort claim against the United States arising from acts or omissions of naval personnel, or members of the civilian component of the naval service, including claims for death or personal injury resulting from the navigation or operation of a ship, or in the loading, carriage or discharge of its cargo, will be investigated and reports will be made in accordance with the instructions promulgated by the cognizant naval commander.

30. Section 753.31 is added to read as follows:

§ 753.31 *Crossservicing.* Department of Defense Notice of January 28, 1955 (20 F. R. 775) provides that any claim, which may be settled under the provisions of the Foreign Claims Act of January 2, 1942, as amended, and the Military Claims Act of July 3, 1943, as amended, may be settled retroactively to August 1, 1953 by any commission or commissions appointed by the Army, Air Force, Navy or Marine Corps under the provisions thereof, without regard to the service of the military tortfeasor. See § 753.30 in regard to areas in which cross-servicing is mandatory.

31. Section 753.32 is added to read as follows:

§ 753.32 *Settlement of claims arising from the activities of Military Assistance Advisory Groups.* Department of Defense Notice of December 11, 1953 (18 F. R. 8513) directs that claims against the United States, except claims cognizable by foreign governments under the provisions of existing treaties and agreements, which have arisen since January 30, 1953, or may hereafter arise from the activities of Military Assistance Advisory Groups, or of the military personnel or civilian employees thereof which are otherwise cognizable under such acts, shall be settled in accordance with the provisions of the Foreign Claims Act (Act of January 2, 1942, 55 Stat. 880) as amended, or of the Act of July 3, 1943, (57 Stat. 372), as amended, and the regulations of the responsible Department implementing such acts. In accordance with this directive, foreign claims commissions of the Navy shall be responsible for the processing and settlement of such claims arising in foreign countries in which the Navy has been made responsible for the processing of claims under the NATO Status of Forces Agreement or other pertinent treaties or agreements in areas in which the Navy has the predominant interest.

32. Section 753.33 is added to read as follows:

§ 753.33 *Settlement authority under the act of December 28, 1945.* Department of Defense Notice of January 28, 1955 (20 F. R. 775) provides that any claims, whether Army, Air Force, Navy or Marine Corps, which may be settled under the provisions of the Foreign Claims Act of January 2, 1942, as amended, or of the act of July 3, 1943, as amended, may be settled retroactively to August 1, 1953 by any commission or commissions appointed under the regulations of any of the above-listed services, without regard to the service of the military tortfeasor. Department of Defense Notice of December 11, 1953 (18 F. R. 8513) directs settlement of claims in certain instances arising from the activities of Military Assistance Advisory Groups, or of the military personnel or civilian employees thereof which are otherwise cognizable under the act of July 3, 1943, as amended. The Act of July 3, 1943 was made applicable to the Navy by the first section of the act of December 28, 1945 (59 Stat. 662; 31 U. S. C. 223d). See § 753.30 in regard to areas in which cross-servicing is mandatory. The regulations implementing this statutory settlement authority are contained in the Navy General Claims Regulations (Part 750 of this chapter) and will be followed, as far as applicable, in the settlement of claims under this act by foreign claims commissions.

By direction of the Secretary of the Navy.

Dated: December 19, 1950.

IRA H. NUNN,
Rear Admiral, U. S. Navy,
Judge Advocate General of the Navy.

[F. R. Doc. 55–10310; Filed, Dec. 27, 1955; 8:45 a. m.]

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 55–52]

MISCELLANEOUS AMENDMENTS TO CHAPTER

The editorial changes and corrections in this document are to bring the regulations and the authority therefor up to date, as well as to correct a Coast Guard Document CGFR 55–1 published in the FEDERAL REGISTER March 25, 1955. The major change affects the authority for certain regulations governing inspection of foreign vessels which may be acquired by purchase or requisition by the Secretary of Commerce. In this respect section 5 of the act of June 6, 1941, as amended (sec. 5, 55 Stat. 244, 245; 50 U. S. C. App. 1275), has expired. This authority was replaced by section 3 of the act of August 9, 1954 (sec. 3, 68 Stat. 675, 50 U. S. C. 198). The other changes

correct the title "Merchant Marine Investigating Unit" to "Investigating Section" in 46 CFR 1.01; revise Table 75.20–15 (s), regarding lifeboat sails for passenger vessels, in 46 CFR 75.20–15, to be the same as for cargo and miscellaneous vessels; and in 46 CFR 75.05–1 and 94.05–1 correct the title of the pamphlet CG–190 from "Equipment Lists for Merchant Vessels" to "Equipment Lists".

Because the amendments in this document are editorial in nature it is hereby found that compliance with the Administrative Procedure Act respecting notice of proposed rule making, public rule making procedures thereon, and effective date requirements thereof, is unnecessary.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), Treasury Department Order 167–9, dated August 3, 1954 (19 F. R. 5915), and Treasury Department Order No. 167–14, dated November 26, 1954 (19 F. R. 8026), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments in this document are prescribed and shall become effective upon the date of publication of this document in the FEDERAL REGISTER:

Subchapter A—Procedures Applicable to the Public

PART 1—GENERAL COURSE AND METHODS

Section 1.01 (c), regarding general flow of functions, is amended by changing the title "Merchant Marine Investigating Unit" to "Investigating Section."

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4403, as amended, sec. 2, 23 Stat. 118, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 372, 2, 367, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 2—VESSEL INSPECTIONS

The regulations in this part also interpret or apply sec. 3, 68 Stat. 675, 50 U. S. C. 198.

PART 3—MERCHANT MARINE PERSONNEL

The regulations in this part also interpret or apply sec. 3, 68 Stat. 675, 50 U. S. C. 198.

Section 3.01–1, regarding applications for licenses or documents, is amended by changing the phrase "50 U. S. C. App. 1275, and Public Law 525, 80th Congress, 2d Session" to "50 U. S. C. 198".

PART 4—INVESTIGATIONS AND HEARINGS

The authority for the regulations in this part is amended by changing a reference therein from "54 Stat. 244" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter B—Merchant Marine Officers and Seamen

PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4427, as amended, 4438–4442, as amended, 4445, as amended, 4447, as amended, sec. 2, 29 Stat. 188, as amended, sec. 1, 34 Stat. 1411, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 7, 53 Stat. 1147, as amended, secs. 7, 17, 54 Stat. 165, 166, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 68 Stat. 484, and sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 405, 224, 224a, 226, 228, 229, 214, 231, 233, 225, 237, 367, 247, 526f, 526p, 1133, 710c, and 50 U. S. C. 198.

Section 10.01–5 (b), regarding authority for regulations, is amended by changing certain references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 12—CERTIFICATION OF SEAMAN

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4488, as amended, 4551, as amended, sec. 13, 38 Stat. 1169, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 7, 49 Stat. 1936, as amended, sec. 3, 54 Stat. 346, sec. 2, 68 Stat. 484, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 481, 643, 672, 367, 689, 1133, 710c, 50 U. S. C. 198. Other statutory provisions interpreted or applied are cited to the text in parenthesis.

Section 12.01–5, regarding authority for regulations, is amended by changing references in paragraphs (b), (c), and (d) from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter D—Tank Vessels

PART 30—GENERAL PROVISIONS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 3, 68 Stat. 675; 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

Section 30.01–1, regarding basis and purpose of regulations—TB/ALL, is amended by changing references from "sec. 5 (e) of the Act of June 6, 1941" to "sec. 3 (c) of the Act of August 9, 1954" and from "50 U. S. C. 1275" to "50 U. S. C. 198".

PART 31—INSPECTION AND CERTIFICATION

The authority for the regulations in this part is revised by changing statute references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 32—SPECIAL EQUIPMENT, MACHINERY, AND HULL REQUIREMENTS

The authority for the regulations issued in this part is amended by revising references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 33—LIFESAVING APPLIANCES

The authority for the regulations issued in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 34—FIRE-FIGHTING EQUIPMENT

The authority for the regulations issued in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 35—OPERATIONS

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter E—Load Lines

PART 46—SUBDIVISION LOAD LINES FOR PASSENGER VESSELS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations in this part are issued under sec. 2, 45 Stat. 1493, as amended, sec. 2, 49 Stat. 888, as amended; 46 U. S. C. 85a, 88a. Interpret or apply R. S. 4490, as amended, sec. 3, 24 Stat. 129, as amended, 41 Stat. 305, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 482, 483, 363, 369, 367, 1333, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

Section 46.01–5, regarding authority, is amended by changing references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter F—Marine Engineering

The authority for the regulations in Parts 50 to 61, inclusive, is revised by changing references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter G—Marine Engineering Installations Contracted for Prior to July 1, 1935

The authority for the regulations in Parts 66 to 69, inclusive, is revised by changing references from "sec. 5, 55 Stat. 244, 245, as amended" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. 1275" to "50 U. S. C. 198".

PART 66—GENERAL

Section 66.01–1 (b), regarding authority for regulations, is amended by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 198" to "50 U. S. C. 198".

Subchapter H—Passenger Vessels

PART 70—GENERAL PROVISIONS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations in this part are issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4426, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, and sec. 3, 68 Stat. 675; 46 U. S. C. 404, 369, 367, 526p, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

Section 70.01–10, regarding authority for regulations, as amended by changing references in paragraphs (b) to (l), inclusive, from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Section 70.30–1, regarding vessels acquired or documented under the act of June 6, 1941, is amended by changing the references to the law in the heading from "act of June 6, 1941" to "act of August 9, 1954" and in paragraph (a) from "act of June 6, 1941, as amended (sec. 5, 55 Stat. 244, 245; 50 U. S. C. App. 1275)" to "act of August 9, 1954 (sec. 3, 68 Stat. 675; 50 U. S. C. 198)".

PART 71—INSPECTION AND CERTIFICATION

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 72—CONSTRUCTION AND ARRANGEMENT

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 73—WATERTIGHT SUBDIVISION

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 74—STABILITY

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 75—LIFESAVING EQUIPMENT

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations in this part are issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4481, as amended, 4482, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 474, 475, 481, 489, 367, 526p, 1332, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

Section 75.05–1 (a), regarding equipment of an approved type, is amended by revising the title of the pamphlet CG–190 from "Equipment Lists for Merchant Vessels" to "Equipment Lists".

The Table 75.20–15 (s) in section 75.20–15 (s) is amended by changing the fifth number in the eleventh column for the diameter of masts 16 feet and 6 inches long for lifeboats over 23 feet and not over 25 feet in length from "3¾" to "4" inches and by inserting a reference to footnote "(2)" in the last line of the second column opposite "31", length of lifeboat in feet.

PART 76—FIRE PROTECTION EQUIPMENT

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 77—VESSEL CONTROL AND MISCELLANEOUS SYSTEMS AND EQUIPMENT

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 78—OPERATIONS

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter I—Cargo and Miscellaneous Vessels

PART 90—GENERAL PROVISIONS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations in this part are issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4426, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 2, 54 Stat. 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 404, 367, 526p, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

Section 90.01–10, regarding authority for regulations, is amended by revising in paragraphs (b) to (h), inclusive, references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Section 90.30–1, regarding vessels acquired or documented under the Act of June 6, 1941, is amended by changing the references to the law in the heading from "Act of June 6, 1941" to "Act of August 9, 1954" and in paragraph (a) from "Act of June 6, 1941, as amended (sec. 5, 55 Stat. 244, 245; 50 U. S. C. App. 1275)" to "Act of August 9, 1954 (sec. 3, 68 Stat. 675; 50 U. S. C. 198)".

PART 91—INSPECTION AND CERTIFICATION

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 92—CONSTRUCTION AND ARRANGEMENT

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 93—STABILITY

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 94—LIFESAVING EQUIPMENT

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4481, as amended, 4482, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 474, 475, 481, 489, 367, 526p, 1332, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

Section 94.05–1 (a), regarding equipment of an approved type, is amended by changing the title of the pamphlet CG–190 from "Equipment Lists for Merchant Vessels" to "Equipment Lists."

PART 95—FIRE PROTECTION EQUIPMENT

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 96—VESSEL CONTROL AND MISCELLANEOUS SYSTEMS AND EQUIPMENT

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

PART 97—OPERATIONS

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter J—Electrical Engineering

PART 110—GENERAL PROVISIONS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, as amended, 4400, as amended, 4417, as amended, 4417a, as amended, 4418, as amended, 4421, as amended, 4426, as amended, 4427, as amended, 4433, as amended, 4453, as amended, sec. 14, 29 Stat. 690, as amended, sec. 10, 35 Stat. 428, as amended, 41 Stat. 305, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

Section 110.25–1, regarding vessels acquired or documented under the Act of June 6, 1941, is amended by changing the

references to the law in the heading from "Act of June 6, 1941" to "Act of August 9, 1954" and in paragraph (a) by changing the reference from "Act of June 6, 1941" to "Act of August 9, 1954 (sec. 3, 68 Stat. 675, 50 U. S. C. 198)".

PART 111—ELECTRICAL SYSTEM; GENERAL REQUIREMENTS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, as amended, 4400, as amended, 4417, as amended, 4417a, as amended, 4418, as amended, 4421, as amended, 4426, as amended, 4427, as amended, 4433, as amended, 4453, as amended, sec. 14, 29 Stat. 690, as amended, sec. 10, 35 Stat. 428, as amended, 41 Stat. 305, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

PART 112—EMERGENCY LIGHTING AND POWER SYSTEM

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, as amended, 4400, as amended, 4417, as amended, 4417a, as amended, 4418, as amended, 4421, as amended, 4426, as amended, 4427, as amended, 4433, as amended, 4453, as amended, sec. 14, 29 Stat. 690, as amended, sec. 10, 35 Stat. 428, as amended, 41 Stat. 305, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

PART 113—COMMUNICATION AND ALARM SYSTEMS AND EQUIPMENT

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, as amended, 4400, as amended, 4417, as amended, 4417a, as amended, 4418, as amended, 4421, as amended, 4426, as amended, 4427, as amended, 4433, as amended, 4453, as amended, sec. 14, 29 Stat. 690, as amended, sec. 10, 35 Stat. 428, as amended, 41 Stat. 305, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 3, 54 Stat. 346, as amended, sec. 2, 54 Stat. 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 1333, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

Subchapter K—Marine Investigations and Suspension and Revocation Proceedings

PART 136—MARINE INVESTIGATION REGULATIONS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4450, as amended, secs. 1, 2, 49 Stat. 1544, sec. 3, 68 Stat. 198; 46 U. S. C. 239, 367, 50 U. S. C. 198.

Section 136.01-1 (b), regarding authority and scope of regulations, is amended by changing the reference from "50 U. S. C. 1275" to "50 U. S. C. 198".

PART 137—SUSPENSION AND REVOCATION PROCEEDINGS

The authority for the regulations in this part is revised to read as follows:

AUTHORITY: The regulations are issued under R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4450, as amended, secs. 1, 2, 49 Stat. 1544, as amended, secs. 1–12, 60 Stat. 237–244, secs. 1, 2, 68 Stat. 484, sec. 3, 68 Stat. 675; 46 U. S. C. 239, 367, 710c, 5 U. S. C. 1001–1011, 50 U. S. C. 198.

Subchapter M—Bulk Grain Cargoes

PART 144—LOADING AND STOWAGE OF GRAIN CARGOES

The authority for the regulations in this part is revised by changing references from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter P—Manning of Vessels

PART 157—MANNING REQUIREMENTS

Section 157.01-10 (b), regarding authority for regulations, is amended by revising references to the law from "sec. 5, 55 Stat. 244, 245" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

Subchapter Q—Specifications

The authority notes for Subparts 160.001–160.003, 160.005, 160.006, 160.009–160.013, 160.015–160.018, 160.021–160.024, 160.026–160.028, 160.031–160.038, and 160.040–160.044 in Part 160, Part 161, Subparts 162.001, 162.012–162.014, 162.016–162.018, 162.026, and 162.027 in Part 162, Part 163, and Subparts 164.001–164.003, 164.006, 164.008, and 164.009 in Part 164 are amended by changing references from "sec. 5, 55 Stat. 244, 245, as amended" to sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

Subchapter R—Nautical Schools

PART 167—PUBLIC NAUTICAL SCHOOL SHIPS

The authority for the regulations in this part is amended by changing references from "sec. 5, 55 Stat. 244" to "sec. 3, 68 Stat. 675" and from "50 U. S. C. App. 1275" to "50 U. S. C. 198".

CORRECTION OF PRIOR DOCUMENT

The Coast Guard Document CGFR 55–1 and FEDERAL REGISTER Document 55–2412 published in the FEDERAL REGISTER of March 25, 1955, is corrected by changing the section number "110.15–45" to "110.15–145" in paragraph 1 under Subpart 110.15 on page 1816.

Dated: December 16, 1955.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard, Commandant.

NOTICES

FEDERAL POWER COMMISSION

[Projects Nos. 2148 and 2149]

PUGET SOUND POWER & LIGHT COMPANY AND PUBLIC UTILITY DISTRICT NO. 1 OF DOUGLAS COUNTY, WASHINGTON

NOTICE OF HEARING

DECEMBER 21, 1955.

On October 15, 1954, Puget Sound Power & Light Company, of Seattle, Washington (the Company), filed applications for rehearing of two Commission orders issued September 22, 1954: (1) Issuing a preliminary permit to Public Utility District No. 1 of Douglas County, Washington (District) for proposed Project No. 2149; and (2) denying the application for preliminary permit filed by the Company for conflicting proposed Project No. 2148 and denying the Company's petition to intervene in the proceeding on the application for Project No. 2149.

No hearing having been held upon either the Company's or the District's application for preliminary permit for the conflicting projects, the Commission, by order issued November 10, 1954: (1) Rescinded its order issued November 10, 1954, insofar as it denied the Company's petition to intervene in the proceeding on Project No. 2149; (2) granted the Company's petition to intervene in the proceeding on Project No. 2149; and (3) granted the Company's above-mentioned applications for rehearing—the time and place for the rehearing to be fixed by further order of the Commission.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 308 (a) of the Federal Power Act and the Commission's rules of practice and procedure, a hearing will be held on February 6, 1956, at 10:00 a. m., e. s. t., in the hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C. concerning the matters involved in and the issues presented by Puget Sound Power & Light Company's applications for rehearing of the Commission's orders issued September 22, 1954 in the proceedings on Projects Nos. 2148 and 2149.

Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Anadarko Area Office Redelegation Order 1, Amdt. 1]

OSAGE INDIAN FUNDS; HEADRIGHTS

REDELEGATION OF AUTHORITY

Order No. 1 (20 F. R. 2091) is amended by adding a new heading and two new sections to Part 2 to read as follows:

FUNCTIONS RELATING TO FUNDS AND FISCAL MATTERS

SEC. 2.265 *Osage Indian funds.* The approval of applications by Osage Indians under section 5 of the act of April 18, 1912 (37 Stat. 87), for the withdrawal of individual trust funds in the Treasury of the United States and quarterly pro rata share payments of Osage tribal funds and interest on individual funds in the United States Treasury pursuant to the provisions of the act of June 28, 1906 (34 Stat. 544), as amended, or supplemented by the acts of February 27, 1925 (43 Stat. 1008), and June 24, 1938 (52 Stat. 1034).

SEC. 2.266 *Osage headrights.* The approval of transfers of Osage headrights belonging to any persons not an Indian by blood, pursuant to the provisions of the act of April 12, 1924 (43 Stat. 94).

WILL J. PITNER,
Area Director.

Approved: December 21, 1955.

GLENN L. EMMONS,
Commissioner.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 79]

WASHINGTON

DECLARATION OF DISASTER AREA

Whereas it has been reported that beginning on or about November 3, 1955, because of the disastrous effects of flood, damage resulted to residences and business property located in certain areas in the State of Washington; and

Whereas the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953, as amended;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) (1) of the Small Business Act of 1953, as amended, may be received and considered by the Office below indicated from persons or firms whose property situated in Clallam County (including any areas adjacent to Clallam County) suffered damage or other destruction as a result of the catastrophe above referred to:

Small Business Administration Regional Office, 905 Second Avenue, Burke Building, Seattle, Washington.

2. No special field offices will be established at this time.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to June 30, 1956.

Dated: December 12, 1955.

WENDELL B. BARNES,
Administrator.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter C—Regulations and Standards Under the Farm Products Inspection Act

PART 56—GRADING AND INSPECTION OF SHELL EGGS AND UNITED STATES STANDARDS, GRADES, AND WEIGHT CLASSES FOR SHELL EGGS

MISCELLANEOUS AMENDMENTS

The regulations governing the grading and inspection of shell eggs and United States standards, grades and weight classes for shell eggs (7 CFR Part 56) were revised and published in the FEDERAL REGISTER on February 1 and 4, 1955 (20 F. R. 667, 757). Most of the provisions of the revised regulations became effective on March 1, 1955. However, changes were made in the weight classes for shell eggs to become effective January 1, 1956 (§§ 56.218 (c), 56.223 (b), and 56.228 (b)). On June 15, 1955, a notice of suspension of the effective date of these paragraphs was published in the FEDERAL REGISTER (20 F. R. 4176) in order to permit further study and consideration of additional views and arguments submitted by members of the trade and other interested parties with respect to the adverse effect such changes in the weight classes for shell eggs might have on the industry. The amendment hereinafter promulgated is pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

After consideration of the additional information submitted it is determined that §§ 56.218 (c), 56.223 (b), and 56.228 (b) should be, and such paragraphs are hereby rescinded, effective upon publication in the FEDERAL REGISTER.

It is hereby found that it would be impractical, unnecessary, and contrary to the public interest to engage in further public rule making procedures with respect to this rescission or to postpone the effective date thereof until thirty (30) days after publication in the FEDERAL REGISTER for the reasons that (1) the changes in the weight classes are not now in effect and will not require any preparation on the part of industry; (2) the additional information received indicates that it would be in the public interest to rescind said paragraphs; and (3) the industry should be advised of this rescission as soon as possible in order that it may plan for future contractual obligations. Therefore, good cause exists for making this rescission effective upon its publication in the FEDERAL REGISTER.

(60 Stat. 1087; 7 U. S. C. 1621-1627)

Issued this 23d day of December 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

amended, the "Regulations for 1953 and Succeeding Crop Years", as amended (16 F. R. 9628, 11565; 17 F. R. 189, 10537; 18 F. R. 439, 3632, 6990, 7222; 19 F. R. 469, 3017, 5603, 8233; 20 F. R. 5054, 8071), which shall continue in full force and effect for the 1956 crop year, are hereby amended for the 1957 and succeeding crop years to read as set forth below. The provisions of this subpart shall apply, until amended or superseded, to all continuous wheat contracts as they relate to the 1957 and succeeding crop years.

Sec.
418.1 Availability of wheat crop insurance.
418.2 Coverages, premium rates, and fixed price.
418.3 Application for insurance.
418.4 Public notice of indemnities paid.
418.5 Creditors.
418.6 The policy.

AUTHORITY: §§ 418.1 through 418.6 issued under secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509.

§ 418.1 *Availability of wheat crop insurance.* (a) Wheat crop insurance may be provided in counties designated annually by the Manager of the Corporation from a list of counties approved by the Board of Directors of the Corporation. A list of the designated counties shall be published annually by appendix to this section.

(b) Insurance will not be provided in a county for any crop year unless the minimum participation requirement established by the Federal Crop Insurance Act, as amended, is met. For the purpose of determining whether the minimum participation requirement is met, an insurance unit shall be counted as one farm.

§ 418.2 *Coverages, premium rates, and fixed price.* The Corporation shall establish coverage(s) and premium rate(s) per acre and the fixed price, used to evaluate production, which shall be shown on the county actuarial table on file in the county office and may be revised from year to year.

§ 418.3 *Application for insurance.* (a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover his interest as landlord, owner-operator, or tenant in a wheat crop. For any crop year applications shall be submitted to the county office on or before the following applicable closing date preceding such crop year, except that in counties in Montana and South Dakota with an August 31 closing date, an application for insurance may be filed until the March 31 following the closing date provided that in such cases winter wheat will not be insured for the first crop year of the contract.

§ 418.4 *Public notice of indemnities paid.* The Corporation shall provide for the posting annually in each county at the county courthouse of a list of the indemnities paid in the county.

§ 418.5 *Creditors.* An interest in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, or any involuntary transfer shall not entitle the holder of the interest to any benefit under the contract.

§ 418.6 *The policy.* The provisions of the policy for 1957 and succeeding crop years are as follows:

Pursuant to the provisions of the application upon which this policy is issued, which application together with this policy shall constitute the contract, and subject to the terms and conditions set forth herein, the Federal Crop Insurance Corporation (herein called the "Corporation") does insure the applicant (herein called the "insured"), subject to the acceptance of his application, against unavoidable loss of production on his wheat crop due to drought, flood, hail, wind, frost, winter-kill, lightning, fire, excessive rain, snow, wildlife, hurricane, tornado, insect infestation and plant disease. The contract shall not cover any loss due to the neglect or malfeasance of the insured, any member of his household, his tenants or employees, or failure to follow recognized good farming practices, or to any cause other than those specified above. No term or condition of the contract shall be waived or changed on behalf of the Corporation except in writing by a duly authorized representative of the Corporation.

TERMS AND CONDITIONS

1. *Insured acreage and interest.* The insured acreage and interest for each crop year shall be that acreage in the county seeded to wheat for harvest as grain in which the insured had an interest at the time of seeding and his interest therein at such time as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect: *Provided*, That insurance shall not attach or be considered to have attached on acreage for which a coverage is not shown on the county actuarial table for the crop year or, in counties where a coverage(s) is established by farming practice(s), on acreage on which the farming practice followed is one for which a coverage is not established except that the Corporation may elect to consider that insurance attached to such acreage on the basis of the farming practice reported by the insured: *Provided further*, That insurance shall not attach or be considered to have attached on acreage on which it is determined by the Corporation that wheat is (a) destroyed and it is practical to reseed to wheat and such acreage is not reseeded to wheat, (b) initially seeded too late to expect a normal crop to be produced, (c) volunteer wheat, (d) seeded with flax or other small grains, vetch, Austrian winter peas, or dry edible peas, (e) of a type or class not adapted to the area or shown as non-insurable on the county actuarial table, (f) seeded on new ground acreage in counties where the cancellation date is April 30 or June 30. The Corporation reserves the right to limit the insured acreage to the wheat allotment or permitted acreage established under any act of Congress including the Agricultural Adjustment Act of 1938, as amended. For the purpose of determining the amount of loss, the insured interest shall not exceed the insured's interest at the time of loss or the beginning of harvest, whichever occurs first.

2. *Responsibility of the insured to report acreage and interest.* (a) Promptly after seeding the wheat crop (winter or spring)

each year the insured shall submit to the county office, on a form prescribed by the Corporation, a report showing all acreage of wheat in the county (including a designation of any wheat seeded for purposes other than harvest as grain and all other acreage of wheat to which insurance did not attach) in which he has an interest and his interest therein at the time of seeding. If the insured does not have an interest in any wheat acreage in the county for any year he shall nevertheless submit a report so indicating. Any acreage report submitted by the insured shall be binding upon the insured and shall not be subject to change by him.

(b) If the insured fails to submit the above-mentioned acreage report within 30 days after seeding of wheat (winter or spring) is generally completed in the county, the Corporation may elect to determine the insured acreage and interest or to declare the insured acreage to be "zero".

3. *Coverage(s), premium rate(s), and fixed price.* For each crop year of the contract the coverage(s) and premium rate(s) per acre established for the area in which the insured acreage is located, and the fixed price, used to evaluate production, shall be those established by the Corporation for such crop year and shown on the county actuarial table on file in the county office. The coverage per acre is progressive depending upon whether the acreage is (a) First Stage—released and seeded to a substitute crop, (b) Second Stage—not harvested and not seeded to a substitute crop, or (c) Third Stage—harvested, except that in those counties where so shown on the county actuarial table the coverage per acre shall be progressive depending upon whether the acreage is (a) First Stage—not harvested or (b) Second Stage—harvested.

4. *Changes in contract.* The Corporation reserves the right to change the premium rate(s), coverage(s), fixed price, and other terms and provisions of the contract from year to year. Any changes shall be mailed to the insured or placed on file in the county office at least 15 days prior to the cancellation date preceding the crop year for which the changes are to become effective, and such mailing or filing shall constitute notice to the insured. Failure of the insured to cancel the contract as provided in section 13 shall constitute his acceptance of any such changes.

5. *Amount of annual premium.* (a) The annual premium will be based upon (1) the insured acreage of wheat, (2) the applicable premium rate(s), and (3) the insured interest(s) in the crop at the time of seeding, and with respect to any insured acreage shall be earned and payable when the wheat on such acreage is seeded. There will be a reduction in the annual premium for each insurance unit of 4 percent for the first full 200 acres of insured acreage on the unit and an additional 2 percent reduction for each additional full 100 acres: *Provided, however,* That the total reduction shall not exceed 20 percent.

(b) Any amount of the premium which is unpaid on the day following the discount date (the discount date shall be the November 30 following the time the wheat crop is normally harvested) shall be increased by ten percent, which increased amount shall be the premium balance, and thereafter, at the end of each 12 months' period six percent simple interest shall attach to any amount of the premium balance which is unpaid.

(c) The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutively insured wheat crops (immediately preceding the current crop year) without a loss for which an indemnity was paid. Whether or not the insured is eligible for the above premium reduction, his annual premium may be reduced in lieu of the above in any year by not to exceed 50 percent if it is determined by the Corporation that the accumulated balance (expressed in bushels) of premiums over indemnities on consecutively insured wheat crops preceding the current crop year exceeds his total coverage (computed on a harvested acreage basis). Nothing in this paragraph shall create in the insured any right to a reduced premium.

(d) If in any year a premium is earned and totals less than $10.00 the amount shall be increased to $10.00.

(e) Any unpaid amount due the Corporation by the insured may be deducted from any indemnity payable to the insured by the Corporation or from any loan or payment to the insured under any act of Congress, or program, administered by the United States Department of Agriculture.

6. *Insurance period.* Insurance on any insured acreage shall attach at the time the wheat is seeded and shall cease upon threshing (in California 120 hours thereafter when combined and in sacks in the field) or removal from the field, whichever occurs first, but in no event shall insurance remain in effect later than October 31 of the calendar year in which the wheat is normally harvested.

7. *Notice of loss or substantial damage.* (a) If, during the growing season, the insured wheat crop on any insurance unit is substantially damaged the insured shall promptly give written notice of such damage to the Corporation at the county office.

(b) If an insured loss occurs on any insurance unit the insured shall give prompt written notice to the Corporation at the county office but in no event shall such notice be given later than 15 days after threshing is completed on the insurance unit or October 31 of the calendar year in which the wheat is normally harvested, whichever is earlier.

(c) Any insured acreage which is not to harvested shall be left intact until the Corporation makes an inspection.

(d) The Corporation may reject any claim for loss if any of the requirements of this section are not met.

8. *Released or damaged acreage.* (a) Any acreage of the insured wheat crop may be released by the Corporation after it is too late to reseed to wheat if (1) the Corporation determines that the crop in such acreage is destroyed, or (2) the insured requests a release of acreage which the Corporation determines is not destroyed and agrees to the appraisal by the Corporation of the potential production from such acreage. No insured acreage may be put to another use or planted to a substitute crop until the Corporation releases such acreage. If the wheat crop on insured acreage is damaged but the acreage has not been released by the Corporation, proper measures shall be taken to care for the crop and protect it from further damage.

(b) Where released acreage is not put to another use, or is reseeded to wheat, the release may be disregarded by the Corporation.

(c) There shall be no abandonment of any crop or portion thereof to the Corporation.

9. *Time of loss.* Any loss shall be deemed to have occurred at the end of the insurance period unless the entire crop on the insurance unit was destroyed earlier in which event the loss shall be deemed to have occurred on the date of such damage as determined by the Corporation.

10. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured establish the production of wheat on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the seeded acreage (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, (2) subtracting therefrom the value (determined in accordance with (d) below) of the total production to be counted for the seeded acreage, and (3) multiplying the remainder by the insured interest. However, if for the insurance unit, the premium computed for the seeded acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production from acreage initially seeded for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, failure to carry out the farming practice reported by the insured, or acreage abandoned or put to another use without being released by the Corporation. In determining total production volunteer small grains, volunteer Austrian winter peas, volunteer dry edible peas, and volunteer vetch growing with the seeded wheat crop, and small grains seeded in the growing wheat crop on acreage not released by the Corporation shall be counted as wheat on a weight basis. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with (d) below) of any wheat harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) In determining any loss under the contract, production shall be valued at the fixed price. However, any threshed wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes occurring within the insurance period and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price; *Provided,* when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such threshed wheat, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

(e) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

11. *Payment of indemnity.* (a) Any indemnity will be payable within thirty days after a claim for loss is approved by the Corporation, but if payment is delayed for any reason, the Corporation shall not be liable for interest or damage on account of such delay.

(b) If the insured dies, is judicially declared incompetent or disappears after the seeding of the wheat crop in any year, any

indemnity which is, or becomes, part of his estate shall be paid to the legal representative of the estate. Should no such representative be qualified, the Corporation may pay the indemnity to the person(s) it determines to be beneficially entitled thereto or to any one or more of such persons on behalf of all such persons, or may withhold payment until a legal representative of the estate is qualified. In such cases, and in any other case where an indemnity is claimed by a person(s) other than the original insured or diverse interests appear with respect to any insurance unit, the determination of the Corporation as to the existence or non-existence of a circumstance in the event of which payment may be made and of the person(s) to whom such payment shall be made shall be final and conclusive. Payment of an indemnity shall constitute a complete discharge of the Corporation's obligations with respect to the loss for which such indemnity is paid.

12. *Avoidance of contract.* The Corporation may void the contract without affecting the insured's liability for premium(s) or waiving any right or remedy including the right to collect any unpaid premium(s) if (a) at any time, either before or after loss, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, or (b) the insured fails to give any notice or otherwise fails to comply with the terms of the contract at the time and in the manner prescribed. The Corporation may make such avoidance effective as of the beginning of any crop year with respect to which any act or omission referred to in (a) or (b) above occurred.

13. *Life of contract, cancellation or termination thereof.* (a) Subject to the provisions of this section, the contract shall be in effect for the first crop year specified on the application and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancellation may be made by either party giving written notice to the other party on or before the applicable cancellation date shown in section 22 preceding the crop year for which the cancellation is to become effective: *Provided, however,* That (1) if by the March 31 following such cancellation date for all counties with a December 31 cancellation date, any amount due the Corporation under this contract remains unpaid, or (2) if by such cancellation date for all other counties, any amount due the Corporation under this contract, except the premium due on the crop harvested or to be harvested in the calendar year in which the cancellation date occurs, remains unpaid, the contract shall terminate as if canceled by the Corporation prior to such cancellation date. Any notice of cancellation by the insured shall be in writing and shall be filed with the county office. The Corporation shall mail any notice of cancellation to the insured's last known address and mailing shall constitute notice to the insured.

(b) If the insured cancels the contract, he shall not be eligible for wheat crop insurance in the county in the next succeeding crop year unless he subsequently applies for insurance on or before the cancellation date preceding such year.

(c) If the Corporation determines that the county minimum participation requirement established by the Federal Crop Insurance Act, as amended, is not met for any crop year, insurance shall not be in effect for that crop year and the contract shall terminate.

(d) The contract shall terminate upon death or judicial declaration of incompetence of the insured, except that if such death or judicial declaration of incompetence occurs after the beginning of seeding of the wheat crop in any crop year but before the end of the insurance period for such year, the contract shall (1) not terminate until the end of such insurance period, and (2) cover any additional wheat seeded for the insured or his estate for that crop year.

14. *Transfer of interest.* If the insured transfers all or a part of his insured interest in a wheat crop before the beginning of harvest and the time of loss, the transferee may obtain the benefits of the contract for the current crop year on the interest transferred if within 15 days after the date of transfer he (1) submits to the county office such information concerning the transfer as may be required by the Corporation, and (2) makes arrangements satisfactory to the Corporation for the payment of any unpaid premium on the interest transferred. Upon approval of a transfer of interest by the Corporation, the transferee and transferor shall be jointly and severally liable for any unpaid premium on the interest transferred. Any transfer shall be subject to the conditions of the contract including any collateral assignment made by the transferor, and the Corporation shall not be liable for a greater amount of indemnity in connection with the insured crop than if the transfer had not taken place.

15. *Collateral assignment.* The original insured may assign his right to an indemnity for any year under the contract by executing a form prescribed by the Corporation and upon approval thereof by the Corporation the interest of the assignee will be recognized and the assignee shall have the right to submit the loss notices and forms as required by the contract if the insured neglects or refuses to take such action.

16. *Subrogation.* The insured assigns to the Corporation all rights of recovery against any person(s) for loss or damage to the extent that payment therefor is made by the Corporation, and shall execute all papers required and take such other action as may be necessary to secure such rights.

17. *Other insurance.* If the insured has other insurance, whether valid or not, against (a) more than two of the risks insured against under this contract, or (b) damage by fire during the insurance period, and there is damage from a risk(s) so insured against, the Corporation shall not be liable, unless it otherwise elects, for a greater proportion of any loss under this contract than the coverage under this contract for the insurance unit(s) involved bears to the total of all coverages.

18. *Records and access to farms.* The insured shall keep or cause to be kept, for two years after the time of loss, records of the harvesting, storage, shipment, sale or other disposition of all wheat produced on each insurance unit covered by the contract and separate records showing the same information for production on any uninsured acreage in the county in which he has an interest. Any persons designated by the Corporation shall have access to such records and the farm(s) for purposes related to the contract.

19. *Forms.* Copies of forms referred to in the contract are available at the county office.

20. *Meaning of terms.* For purposes of the wheat insurance program:

(a) "County" means the area shown on the county actuarial table which may include farms located in a local producing area(s) bordering on the county.

(b) "County actuarial table" means the form(s) and related materials (including the crop insurance maps) which are approved annually by the Corporation and show the fixed price, the coverages per acre and the premium rates per acre applicable in the county.

(c) "County office" means the Corporation's office for the county shown on the application for insurance or such other office as may be specified by the Corporation from time to time.

(d) "Crop year" means the period within which the wheat crop is seeded and normally harvested, and shall be designated by reference to the calendar year in which the crop is normally harvested.

(e) "Harvest" means the mechanical severance from the land of matured wheat for threshing where the wheat crop has not been destroyed.

(f) "Insurance unit" means (1) all the insurable acreage of wheat in the county in which the insured has 100 percent interest at the time of seeding, or (2) all the insurable acreage of wheat in the county which is owned by one person and is operated by the insured as a tenant at the time of seeding; or (3) all the insurable acreage of wheat in the county which is owned by the insured and is rented to one tenant at the time of seeding. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

(g) "New ground acreage" means any acreage which has not been planted to a crop in any one of the previous three crop years, except (1) acreage in tame hay or rotation pasture during the previous crop year, and (2) (applicable only in Montana) any acreage which has been properly summer fallowed the previous crop year in accordance with good farming practices in the area shall not be considered new ground acreage.

(h) "Person" means an individual, partnership, association, corporation, estate, or trust or other business enterprise or other legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

(i) "Substitute crop" means any crop except lespedeza, annual legumes used for a green manure crop or for a cover crop and not harvested, biennial and perennial legumes and perennial grasses, planted on released acreage before harvest of wheat becomes general in the county (in California, before wheat generally in the area is mature) as determined by the Corporation. Biennial and perennial legumes and perennial grasses seeded with the wheat or in the growing wheat crop shall not be considered a substitute crop. If other small grains are seeded in a growing wheat crop on released acreage, the crop of mixed wheat and other grains shall be considered a substitute crop.

(j) "Tenant" means a person who rents land from another person for a share of the wheat crop, or proceeds therefrom, produced on such land.

21. *Irrigated acreage.* (a) The acreage of wheat which shall be insured on the basis of irrigated coverage in any year shall not exceed the smaller of (i) that acreage which could be irrigated adequately with the facilities available, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm, or (ii) that acreage on which one irrigation is carried out in accordance with good farming practices as determined by the Corporation, either before the crop is seeded or during the growing season. Insurance shall not attach with respect to acreage seeded to wheat the first year after being leveled.

(b) In addition to the causes of loss insured against shown on the first page of this policy the contract shall cover loss in production, due to failure of the water supply from natural causes, that could not be foreseen and prevented by the insured, including (1) lowering of the water level in pump wells adequate at the beginning of the growing season to the extent that either deepening the well or drilling a new well would be necessary to obtain an adequate supply of water, (2) failure of public power used for pumping or failure of an irrigation district or water company to deliver water where such failure is not within the control of the

insured, and (3) the collapse of casing in wells.

(c) The contract shall not cover loss in production caused by (1) failure properly to apply adequate irrigation water to wheat when needed and in accordance with recognized good farming practice for the area, (2) failure to provide adequate casing or properly to adjust the pumping equipment in the event of a lowering of the water level in pump wells when such adjustment can be made without deepening the well, (3) failure properly to apply irrigation water to wheat in proportion to the need of the crop and the amount of water available for all irrigated crops, and (4) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which could be reasonably expected.

22. *Date table.* For each year of the contract the cancellation date is as follows:

State and county:	Cancellation date
California	April 30
Colorado	Do.
Idaho	June 30
Illinois	Do.
Indiana	Do.
Kansas	April 30
Maryland	June 30
Michigan	Do.
Minnesota	December 31
Missouri	June 30
Montana:	
Blaine	Do.
Cascade	Do.
Chouteau	Do.
Fergus	Do.
Hill	Do.
Judith Basin	Do.
Liberty	Do.
Petroleum	Do.
Pondera	Do.
Teton	Do.
All others	December 31
Nebraska	April 30
New Mexico	Do.
New York	June 30
North Dakota	December 31
Ohio	June 30
Oklahoma	April 30
Oregon	June 30
Pennsylvania	Do.
South Dakota:	
Bennett	April 30
Jones	Do.
Lyman	Do.
Meade	Do.
Mellette	Do.
Tripp	Do.
All others	December 31
Texas	April 30
Utah	June 30
Washington	Do.
Wyoming	April 30

NOTE: The reporting and record-keeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Adopted by the Board of Directors on December 16, 1955.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on December 22, 1955.

[Amdt. 1]

PART 419—COTTON CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1956 AND SUCCEEDING CROP YEARS

The above identified regulations (20 F. R. 7984), are hereby amended for Saint Landry Parish, Louisiana, effective beginning with the 1956 crop year as follows:

The paragraph preceding section 1 of the policy shown in § 419.7 is amended by striking the period appearing at the end of the first sentence thereof, substituting a semicolon therefor, and adding the following language: "*Provided*, That in Saint Landry Parish, Louisiana, flood as a cause of loss insured against shall not include damage caused by the use or overflow of the Atchafalaya River Spillway."

(Secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interprets or applies secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509)

Adopted by the Board of Directors on December 16, 1955.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on December 22, 1955.

TRUE D. MORSE,
Acting Secretary.

PART 421—DRY EDIBLE BEAN CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1956 AND SUCCEEDING CROP YEARS

By virtue of the authority contained in the Federal Crop Insurance Act, as amended, the "Regulations for the 1950 and Succeeding Crop Years," as amended (14 F. R. 7684; 15 F. R. 2485, 9034; 16 F. R. 3973, 7695, 9302; 17 F. R. 5980, 10537; 18 F. R. 3634, 6992; 19 F. R. 5604, 9365; 20 F. R. 1583, 5626), which shall continue in full force and effect for the 1955 crop year, are hereby amended for the 1956 and succeeding crop years to read as set forth below. The provisions of this subpart shall apply, until amended or superseded, to all continuous bean crop contracts as they relate to the 1956 and succeeding crop years.

Sec.
421.1 Availability of bean crop insurance.
421.2 Coverages, premium rates, and fixed prices.
421.3 Application for insurance.
421.4 Public notice of indemnities paid.
421.5 Creditors.
421.6 The policy.

AUTHORITY: §§ 421.1 to 421.6 issued under secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509.

§ 421.1 *Availability of bean crop insurance.* (a) Bean crop insurance may be provided in counties designated annually by the Manager of the Corporation from a list of counties approved by the Board of Directors of the Corporation. A list of the designated counties and the class(es) of beans to be insured shall be published annually by appendix to this section.

(b) Insurance will not be provided in a county for any crop year unless the minimum participation requirement established by the Federal Crop Insurance Act, as amended, is met. For the purpose of determining whether the minimum participation requirement is met, an insurance unit shall be counted as one farm.

§ 421.2 *Coverages, premium rates and fixed prices.* The Corporation shall establish coverage(s) and premium rate(s) per acre and the fixed price(s), used to evaluate production, which shall be shown on the county actuarial table on file in the county office and may be revised from year to year.

§ 421.3 *Application for insurance.* Application for insurance on a form prescribed by the Corporation may be made by any person to cover his interest as landlord, owner-operator, or tenant, in a bean crop. For any crop year applications shall be submitted to the county office on or before the May 15 preceding such crop year.

§ 421.4 *Public notice of indemnities paid.* The Corporation shall provide for the posting annually in each county at the county courthouse of a list of the indemnities paid in the county.

§ 421.5 *Creditors.* An interest in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy or any involuntary transfer shall not entitle the holder of the interest to any benefit under the contract.

§ 421.6 *The policy.* The provisions of the policy for the 1956 and succeeding crop years are as follows:

Pursuant to the provisions of the application upon which this policy is issued, which application together with this policy shall constitute the contract, and subject to the terms and conditions set forth herein, the Federal Crop Insurance Corporation (herein called the "Corporation") does insure the applicant (herein called the "insured"), subject to the acceptance of his application, against unavoidable loss of production on his dry edible bean crop due to drought, flood, hail, wind, frost, freeze, lightning, fire, excessive rain, snow, wildlife, hurricane, tornado, insect infestation and plant disease. The contract shall not cover any loss due to the neglect or malfeasance of the insured, any member of his household, his tenants or employees, or failure to follow recognized good farming practices, or to any cause other than those specified above. No term or condition of the contract shall be waived or changed on behalf of the Corporation except in writing by a duly authorized representative of the Corporation.

TERMS AND CONDITIONS

1. *Insured acreage and interest.* The insured acreage and interest for each crop year shall be that acreage in the county planted to dry edible beans of the class(es) shown on the county actuarial table in which the insured had an interest at the time of planting and his interest therein at such time as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect: *Provided*, That insurance shall not attach or be considered to have attached on acreage for which a coverage is not shown on the county actuarial table for the crop year or, in counties where a coverage(s) is established by farming practice(s), on acreage on which the farming practice followed is one for which a coverage is not established except that the Corporation may elect to consider that insurance attached to such acreage on the basis of the farming practice reported by the insured. *Provided further*, That insurance shall not attach or be considered to have attached on acreage on which it is determined by the Corporation that beans are (a) destroyed and it is practical to replant to beans and such acreage is not replanted to beans, (b) initially planted too late to expect a normal crop to be produced, or (c) planted on new ground acreage. The Corporation reserves the right to limit the insured acreage to the bean allotment or permitted acreage established under any act of Congress including the Agricultural Adjustment Act of 1938, as amended. For the purpose of determining the amount of loss, the insured interest shall not exceed the insured's interest at the time of loss or the beginning of harvest, whichever occurs first.

2. *Responsibility of the insured to report acreage and interest.* (a) Promptly after planting the bean crop each year the insured shall submit to the county office, on a form prescribed by the Corporation, a report showing all acreage in the county planted to beans in which he has an interest and his interest therein at the time of planting. If the insured does not have an interest in any bean acreage in the county for any year he shall nevertheless submit a report so indicating. Any acreage report submitted by the insured shall be binding upon the insured and shall not be subject to change by him.

(b) If the insured fails to submit the above-mentioned acreage report within 30 days after planting of beans is generally completed in the county, the Corporation may elect to determine the insured acreage and interest or to declare the insured acreage to be "zero".

3. *Coverage(s), premium rate(s) and fixed price(s).* For each crop year of the contract the coverage(s) and premium rate(s) per acre established for the area in which the insured acreage is located, the fixed price(s) used to evaluate production, and the class(es) of beans to be insured shall be those established by the Corporation for such crop year and shown on the county actuarial table on file in the county office. The coverage per acre is progressive by stages of production which are: (a) First Stage—not pulled or cut, (b) Second Stage—pulled or cut but not threshed, or (c) Third Stage—threshed.

4. *Changes in contract.* The Corporation reserves the right to change the premium rate(s), coverage(s), fixed price(s), class(es) of beans to be insured, and other terms and provisions of the contract from year to year. Any changes shall be mailed to the insured or placed on file in the county office at least 15 days prior to the cancellation date preceding the crop year for which the changes are to become effective, and such mailing or filing shall constitute notice to the insured. Failure of the insured to cancel the contract as provided in section 13 shall constitute his acceptance of any such changes.

5. *Amount of annual premium.* (a) The annual premium will be based upon (1) the insured acreage of beans, (2) the applicable premium rate(s), and (3) the insured interest(s) in the crop at the time of planting, and with respect to any insured acreage shall be earned and payable when the beans on such acreage are planted.

(b) Any amount of the premium which is unpaid on the day following the discount date (the discount date shall be the November 30 following planting) shall be increased by ten percent, which increased amount shall be the premium balance, and thereafter, at the end of each 12 months' period, six percent simple interest shall attach to any amount of the premium balance which is unpaid.

(c) The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutively insured bean crops (immediately preceding the current crop year) without a loss for which an indemnity was paid. If the insured is not eligible for the above premium reduction, his annual premium may be reduced 25 percent if it is determined by the Corporation that his accumulated balance, expressed in dollars, of premiums over indemnities on consecutively insured bean crops preceding the current crop year exceeds his total coverage (computed on the basis of the coverage applicable to threshed acreage). Nothing in this paragraph shall create in the insured any right to a reduced premium.

(d) If in any year a premium is earned and totals less than $10.00 the amount shall be increased to $10.00.

(e) Any unpaid amount due the Corporation by the insured may be deducted from any indemnity payable to the insured by the Corporation or from any loan or payment to the insured under any act of Congress, or program, administered by the United States Department of Agriculture.

6. *Insurance period.* Insurance on any insured acreage shall attach at the time the beans are planted and shall cease upon threshing or removal from the field, whichever occurs first, but in no event shall insurance remain in effect later than December 15 of the calendar year in which beans are normally harvested.

7. *Notice of loss or substantial damage.* (a) If, during the growing season, the insured bean crop on any insurance unit is substantially damaged the insured shall promptly give written notice of such damage to the Corporation at the county office.

(b) If an insured loss occurs on any insurance unit the insured shall give prompt written notice to the Corporation at the county office but in no event shall such notice be given later than 15 days after threshing is completed on the insurance unit or December 15 of the calendar year in which the beans are normally harvested, whichever is earlier.

(c) Any insured acreage which is not to be harvested shall be left intact until the Corporation makes an inspection.

(d) The Corporation may reject any claim for loss if any of the requirements of this section are not met.

8. *Released or damaged acreage.* (a) Any acreage of the insured bean crop may be released by the Corporation after it is too late to replant to beans if (1) the Corporation determines that the crop on such acreage is destroyed, or (2) the insured requests a release of acreage which the Corporation determines is not destroyed and agrees to the appraisal by the Corporation of the potential production from such acreage. No insured acreage may be put to another use until the Corporation releases such acreage. If the bean crop on insured acreage is damaged but the acreage has not been released by the Corporation, proper measures shall be taken to care for the crop and protect it from further damage.

(b) Where released acreage is not put to another use, or is replanted to beans, the release may be disregarded by the Corporation.

(c) There shall be no abandonment of any crop or portion thereof to the Corporation.

9. *Time of loss.* Any loss shall be deemed to have occurred at the end of the insurance period unless the entire crop on the insurance unit was destroyed earlier in which event the loss shall be deemed to have occurred on the date of such damage as determined by the Corporation.

10. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured establish the production of beans on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, (2) subtracting therefrom the value (determined in accordance with (d) below) of the total production to be counted for the planted acreage, and (3) multiplying the remainder by the insured interest. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all threshed production and in addition any appraisals which the Corporation determines should be made for potential or unthreshed production, poor farming practices, uninsured causes of loss, failure to carry out the farming practice reported by the insured, or acreage abandoned or put to another use without being released by the Corporation. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with (d) below) of any beans threshed, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) In determining any loss under the contract, threshed production shall be valued at the fixed price for the applicable grade or pick, except that any threshed production of beans which will not meet any U. S. Grade or pick shown on the county actuarial table because of poor quality due to insured causes occurring within the insurance period and would not meet these requirements if properly handled, shall be valued at the lesser of the lowest price shown on the county actuarial table for that class of beans or the market value of such beans as determined by the Corporation. Any potential or unthreshed production to be counted shall be valued at the fixed price shown on the county actuarial table for this purpose.

(e) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

11. *Payment of indemnity.* (a) Any indemnity will be payable within 30 days after a claim for loss is approved by the Corporation, but if payment is delayed for any reason, the Corporation shall not be liable for interest or damage on account of such delay.

(b) If the insured dies, is judicially declared incompetent or disappears after the planting of the bean crop in any year, any indemnity which is, or becomes, part of his estate shall be paid to the legal representative of the estate. Should no such repre-

sentative be qualified, the Corporation may pay the indemnity to the person(s) it determines to be beneficially entitled thereto or to any one or more of such persons on behalf of all such persons, or may withhold payment until a legal representative of the estate is qualified. In such cases, and in any other case where an indemnity is claimed by a person(s) other than the original insured or diverse interests appear with respect to any insurance unit, the determination of the Corporation as to the existence or nonexistence of a circumstance in the event of which payment may be made and of the person(s) to whom such payment shall be made shall be final and conclusive. Payment of an indemnity shall constitute a complete discharge of the Corporation's obligations with respect to the loss for which such indemnity is paid.

12. *Avoidance of contract.* The Corporation may void the contract without affecting the insured's liability for premium(s) or waiving any right or remedy including the right to collect any unpaid premium(s) if (a) at any time, either before or after loss, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, or (b) the insured fails to give any notice or otherwise fails to comply with the terms of the contract at the time and in the manner prescribed. The Corporation may make such avoidance effective as of the beginning of any crop year with respect to which any act or omission referred to in (a) or (b) above occurred.

13. *Life of contract, cancellation or termination thereof.* (a) Subject to the provisions of this section, the contract shall be in effect for the first crop year specified on the application and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancellation may be made by either party giving written notice to the other party on or before the cancellation date which shall be the March 15 preceding the crop year for which the cancellation is to become effective: *Provided, however,* That if by the May 15 following such cancellation date any amount due the Corporation under this contract remains unpaid, the contract shall terminate as if canceled by the Corporation prior to such cancellation date. Any notice of cancellation by the insured shall be in writing and shall be filed with the county office. The Corporation shall mail any notice of cancellation to the insured's last known address and mailing shall constitute notice to the insured.

(b) If the insured cancels the contract, he shall not be eligible for bean crop insurance in the county in the next succeeding crop year unless he subsequently applies for insurance on or before the cancellation date preceding such year.

(c) If the Corporation determines that the county minimum participation requirement established by the Federal Crop Insurance Act, as amended, is not met for any crop year, insurance shall not be in effect for that crop year and the contract shall terminate.

(d) The contract shall terminate upon death or judicial declaration of incompetence of the insured, except that if such death or judical declaration of incompetence occurs after the beginning of planting of the bean crop in any crop year but before the end of the insurance period for such year, the contract shall (1) not terminate until the end of such insurance period, and (2) cover any additional beans planted for the insured or his estate for that crop year.

14. *Transfer of interest.* If the insured transfers all or a part of his insured interest in a bean crop before the beginning of harvest and the time of loss, the transferee may obtain the benefits of the contract for the current crop year on the interest transferred if within 15 days after the date of transfer he (1) submits to the county office such information concerning the transfer as may be required by the Corporation, and (2) makes arrangements satisfactory to the Corporation for the payment of any unpaid premium on the interest transferred. Upon approval of a transfer of interest by the Corporation, the transferee and transferor shall be jointly and severally liable for any unpaid premium on the interest transferred. Any transfer shall be subject to the conditions of the contract including any collateral assignment made by the transferor, and the Corporation shall not be liable for a greater amount of indemnity in connection with the insured crop than if the transfer had not taken place.

15. *Collateral assignment.* The original insured may assign his right to an indemnity for any year under the contract by executing a form prescribed by the Corporation and upon approval thereof by the Corporation the interest of the assignee will be recognized and the assignee shall have the right to submit the loss notices and forms as required by the contract if the insured neglects or refuses to take such action.

16. *Subrogation.* The insured assigns to the Corporation all rights of recovery against any person(s) for loss or damage to the extent that payment therefor is made by the Corporation, and shall execute all papers required and take such other action as may be necessary to secure such rights.

17. *Other insurance.* If the insured has other insurance, whether valid or not, against (a) more than two of the risks insured against under this contract, or (b) damage by fire during the insurance period, and there is damage from a risk(s) so insured against, the Corporation shall not be liable, unless it otherwise elects, for a greater proportion of any loss under this contract than the coverage under this contract for the insurance unit(s) involved bears to the total of all coverages.

18. *Records and access to farm.* The insured shall keep or cause to be kept, for two years after the time of loss, records of the harvesting, storage, shipment, sale or other disposition of all beans produced on each insurance unit covered by the contract, and separate records showing the same information for production on any uninsured acreage in the county in which he has an interest. Any person designated by the Corporation shall have access to such records and the farm(s) for purposes related to the contract.

19. *Forms.* Copies of forms referred to in the contract are available at the county office.

20. *Meaning of terms.* For the purpose of the bean insurance program:

(a) "County" means the area shown on the county actuarial table which may include farms located in a local producing area(s) bordering on the county.

(b) "County actuarial table" means the form(s) and related materials (including the crop insurance maps) which are approved annually by the Corporation and show the fixed price(s), the coverages per acre and the premium rates per acre applicable in the county.

(c) "County office" means the Corporation's office for the county shown on the application for insurance or such other office as may be specified by the Corporation from time to time.

(d) "Crop year" means the period within which the bean crop is planted and normally harvested, and shall be designated by reference to the calendar year in which the crop is normally harvested.

(e) "Harvest" means pulling or cutting matured beans for threshing where the bean crop has not been destroyed.

(f) "Insurance unit" means (1) all the insurable acreage of beans in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of beans in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of beans in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

(g) "New ground acreage" means any acreage which has not been planted to a crop in any one of the previous three crop years, except that acreage in tame hay or rotation pasture during the previous crop year shall not be considered new ground acreage.

(h) "Person" means an individual, partnership, association, corporation, estate, or trust or other business enterprise or other legal entity, and wherever applicable a State, a political subdivision of a State, or any agency thereof.

(i) "Pick" means the defects consisting of splits, damaged beans, contrasting classes and foreign material included in net weight beans, and where used shall be expressed in terms of percent of net weight beans.

(j) "Tenant" means a person who rents land from another person for a share of the bean crop, or proceeds therefrom, produced on such land.

21. *Irrigated acreage.* (a) The acreage of beans which shall be insured on the basis of irrigated coverage in any year shall not exceed the smaller of (1) that acreage which could be irrigated adequately with the facilities available, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm, or (2) that acreage on which one irrigation is carried out in accordance with good farming practices as determined by the Corporation, either before the crop is planted or during the growing season. Insurance shall not attach with respect to acreage planted to beans the first year after being leveled.

(b) In addition to the causes of loss insured against shown on the first page of this policy the contract shall cover loss in production, due to failure of the water supply from natural causes, that could not be foreseen and prevented by the insured, including (1) lowering of the water level in pump wells adequate at the beginning of the growing season to the extent that either deepening the well or drilling a new well would be necessary to obtain an adequate supply of water, (2) failure of public power used for pumping or failure of an irrigation district or water company to deliver water where such failure is not within the control of the insured, and (3) the collapse of casing in wells.

(c) The contract shall not cover loss in production caused by (1) failure properly to apply adequate irrigation water to beans when needed and in accordance with recognized good farming practices for the area, (2) failure to provide adequate casing or properly to adjust the pumping equipment in the event of a lowering of the water level in pump wells when such adjustment can be made without deepening the well, (3) failure properly to apply irrigation water to beans in proportion to the need of the crop and the amount of water available for all irrigated crops, and (4) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which could be reasonably expected.

NOTE: The reporting and record-keeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Adopted by the Board of Directors on December 16, 1955.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on December 22, 1955.

TRUE D. MORSE,
Acting Secretary.

PART 424—BARLEY CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1956 AND SUCCEEDING CROP YEARS

The above identified regulations (19 F. R. 9315; 20 F. R. 7637) are hereby amended, effective beginning with the 1956 crop year as follows:

1. Subsection (d) of section 10 of the policy shown in § 424.6 is amended to read as follows:

(d) In determining any loss under the contract, production shall be valued at the fixed price, except that any threshed production of barley which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insured causes occurring within the insurance period and would not meet these requirements if properly handled, shall be valued by the Corporation at a price not in excess of the fixed price.

(Secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interprets or applies secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509)

Adopted by the Board of Directors on December 16, 1955.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on December 22, 1955.

TRUE D. MORSE,
Acting Secretary.

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 728—WHEAT

SUBPART—1956-57 MARKETING YEAR

DETERMINATION OF COUNTY NORMAL YIELDS FOR 1956 CROP

The regulations contained in § 728.608 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the determination of county normal yields of wheat for 1956, including the appraisal of yields for years in the ten-year period used in determining county normal yields for which the data are not available or in which there were no actual yields.

Prior to preparing the regulations in § 728.608, public notice (20 F. R. 655) was given in accordance with the Administrative Procedure Act. The data, views, and recommendations pertaining to the regulations in § 728.608, which were submitted, have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 728.608 *Determination of county normal yields for 1956 crop of wheat.* (a) A normal yield shall be determined for each wheat-producing county, except counties in States designated as outside the commercial wheat-producing area. A county normal yield for 1956 shall be determined on the basis of the average yield per acre of wheat for the county during the ten calendar years, 1945 through 1954, adjusted for abnormal weather conditions and trends in yields. In adjusting for abnormal weather conditions: (1) If the yield in any year of the nine-year period 1945 through 1953 was adjusted for abnormal weather conditions in determining the county normal yield for 1955 (§ 728.509, 19 F. R. 8128), such adjustment shall be applicable in determining the county normal yield for 1956; (2) if the yield for the crop of 1954 is less than 75 per centum of the average of the ten-year period 1945 through 1954 (computed without regard to such year) on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, such year shall be eliminated in calculating the normal yield per acre; and (3) if the yield for the crop of 1954 is more than 125 per centum of the average of the ten-year period 1945 through 1954 (computed without regard to such year) on account of abnormal weather conditions, there shall be substituted for such year a yield equivalent to 125 per centum of the average of the ten-year period 1945 through 1954 (computed without regard to such year).

(b) The adjustment for trends in yields shall be made by (1) multiplying the county normal yield of wheat determined for 1955 by ten; (2) deducting therefrom the yield for the crop of 1944, adjusted for abnormal weather conditions as indicated above; (3) adding to the remainder twice the yield for the crop of 1954 adjusted for abnormal weather conditions as indicated above; and (4) dividing the sum by eleven.

(c) If for any year of the ten-year period 1945 through 1954 the data are not available or there was no actual yield, the yield for such year shall be appraised by taking into consideration the yields in years for which data are available, and the yields for such year in nearby or adjacent counties, or crop reporting districts recognized by the Agricultural Marketing Service, in which the type of soil, topography, and farming practices associated with the production of wheat are similar.

(d) County normal yields for the 1956 crop of wheat, determined as indicated by paragraphs (a) to (c) of this section are as follows:

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter I—Determination of Prices

[Sugar Determination 878.8]

PART 878—SUGARCANE; VIRGIN ISLANDS

1956 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation, and due consideration of the evidence obtained at the public hearing held in Christiansted, St. Croix, Virgin Islands, on October 11, 1955, the following determination is hereby issued:

§ 878.8 *Fair and reasonable prices for the 1956 crop of Virgin Islands sugarcane.* A producer of sugarcane in the Virgin Islands who is also a processor of sugarcane (hereinafter referred to as "processor"), shall have paid, or contracted to pay, for sugarcane of the 1956 crop grown by other producers and processed by him, prices determined in accordance with the following requirements:

(a) *Definitions.* For the purpose of this section, the term:

(1) "Raw sugar" means 96° raw sugar.

(2) "Settlement period" means the two-week period in which sugarcane is delivered by the producer to the processor. The first such period shall start on Monday of the week grinding commences and successive periods shall start at two-week intervals thereafter.

(3) "Average price of raw sugar" means the simple average of the daily spot quotations of raw sugar of the New York Coffee and Sugar Exchange (domestic contract), adjusted to a duty-paid basis by adding to each daily quotation the United States duty prevailing on Cuban raw sugar on that day, for the period on which settlement is based, except that, if the Director of the Sugar Division determines that for any such period such average price does not reflect the true market value of raw sugar because of inadequate volume or other factors, he may designate the average price to be effective under this determination, which he determines will reflect the true market value of raw sugar.

(4) "F. o. b. mill price" means the average price of raw sugar minus selling and delivery expenses (converted to a pound unit) actually incurred by the processor in the marketing of 1956 crop raw sugar (other than bags or storage in company warehouses).

(5) "Yield of raw sugar" means the yield of raw sugar per 100 pounds of sugarcane determined for each settlement period in accordance with the following procedure:

A representative sample of not less than six stalks of sugarcane shall be taken from each producer's truckload or partial load and the juice shall be extracted by a laboratory power mill. Correlating factors shall be established between the laboratory power mill juice and the factory crusher juice brix and sucrose not less than once weekly during a continuous 8-hour period. While establishing these correlating factors, the "cush-cush" or juice screenings shall be returned to the milling process at a point after the first crusher, that is, before the second or third or any subsequent mill. The correlating factors then shall be applied to the laboratory mill analysis of brix and sucrose to bring the laboratory mill analysis to the equivalent of factory crusher juice analysis.

Application shall then be made of the formula, $R=(S-0.3B)F$, in which:

R = Recoverable sugar yield, 96° polarization.
S = Polarization of the crusher juice obtained from the sugarcane of each producer.
B = Brix of the crusher juice obtained from the sugarcane of each producer.
F = Factor obtained from the fraction whose numerator is the average yield of sugar, 96° polarization, obtained from the aggregate grinding during each settlement period in which the sugarcane of the producer has been ground and whose denominator is the average polarization of the crusher juice minus three-tenths of the brix of the crusher juice, both components of the denominator being obtained from the aggregate grinding during the settlement period in which the sugarcane of the producer has been ground.

(b) *Basic payment.* The processor shall pay, or contract to pay, the producer for sugarcane delivered during a settlement period the f. o. b. mill price of that portion of the raw sugar determined by applying the following applicable percentage to the yield of raw sugar from the producer's sugarcane:

Yield of raw sugar per 100 pounds of sugarcane (pounds):	Percentage
6.0	59.0
7.0	60.0
8.0	61.0
9.0	62.0
10.0	63.0
11.0	64.0
12.0	65.0

Intermediate points within the scale are to be interpolated to the nearest one-tenth point. Points below 6 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(c) *Molasses payment.* The processor shall pay the producer for each 100 pounds of sugarcane delivered an amount computed by applying the following applicable percentage to the net proceeds derived from the sale of blackstrap molasses produced per 100 pounds of sugarcane for the 1956 crop:

Yield of raw sugar per 100 pounds of sugarcane (pounds):	Percentage
6.0	86.0
7.0	80.0
8.0	74.0
9.0	68.0
10.0	62.0
11.0	56.0
12.0	50.0

Intermediate points within the scale are to be interpolated to the nearest one-tenth point. Points below 6 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(d) *Transportation allowances to producers.* The processor shall make an allowance to the producer equal to 50 percent of the rate, as agreed upon between the parties, for loading sugarcane at the farm and for its transportation to the mill.

(e) *Reporting requirement.* The processor shall submit in duplicate to the Caribbean Area Agricultural Stabilization and Conservation Office, San Juan, Puerto Rico, for approval a certified statement of the actual deductions made in determining the f. o. b. mill price of raw sugar and the net proceeds from blackstrap molasses.

(f) *Subterfuge.* The processor shall not reduce returns to the producer below those determined in this section through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination establishes fair and reasonable prices to be paid for sugarcane of the 1956 crop by a producer who processes sugarcane grown by other producers. It establishes the minimum requirements with respect to prices for sugarcane which must be met by such producer as one of the conditions for payment under the act.

(b) *Requirements of the act.* Section 301 (c) (2) of the act provides that the producer on the farm who is also, directly or indirectly a processor of sugarcane, as may be determined by the Secretary, shall have paid or contracted to pay under either purchase or toll agreements, for any sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due

notice and opportunity for public hearing.

(c) *1956 price determination.* The 1956 price determination continues the provisions of the 1955 determination except for a change in the method of calculating the quality of sugarcane delivered by producers. The change permits the establishing of the correlating factors between the laboratory power mill juice and the factory mill crusher juice, once weekly instead of twice weekly as in prior years.

At the public hearing held in Christiansted, St. Croix, Virgin Islands, interested persons presented testimony on fair and reasonable prices for the 1956 crop of Virgin Islands sugarcane. The representative of the Virgin Islands Corporation recommended that the determination be modified to permit the mill to change the frequency of computing the correlating factors between the juices extracted by the laboratory mill and the factory mill crusher. The witness stated that this change was necessary because it was proposed to introduce the cush-cush (cane juice screenings) at a point prior to the first mill or crusher, in order to achieve more efficient factory operations. To obtain the most effective results, the proposed system should be used as continuously as possible and, accordingly, the correlating factors should be established less frequently. The witness recommended no other changes in the 1956 determination as compared with the 1955 determination. Two representatives of producers stated that they were in favor of the change recommended by the corporation since it was designed to improve milling efficiency and thereby increase sugar recoveries and producers' returns from sugarcane. These witnesses recommended no other changes in the determination.

Consideration has been given to the recommendations made at the public hearing, to the results of investigations, to the financial position of producers and the processor, and to other pertinent factors. Financial reports of the Virgin Islands Corporation, which is the largest grower and only processor of sugarcane in the Islands, shows that losses on sugar operations for the year 1955, although not as large as in recent years, continue to be substantial. Because of these continuing annual losses on sugar operations, the standards customarily considered in price determinations in other cane-producing areas cannot be applied in the usual manner. However, the sharing relationship specified in this determination provides returns to producers which compare favorably with those obtained by sugarcane producers in other offshore areas.

The recommendation of the Virgin Islands Corporation for a change in the frequency of establishing correlating factors between the laboratory mill and the factory crusher mill has been adopted. In prior years samples of sugarcane delivered by producers were ground in a laboratory mill and the cane juice analyzed for sucrose and brix. Cane juice samples were then taken from the mill crusher and correlating factors were established between the two test samples every third day during a 12-hour period. In the former process the cane juice screenings were introduced at the second or subsequent mill and did not affect the crusher juice analysis.

Under the proposed system the cush-cush, or cane juice screenings, is to be returned to the milling process at a point prior to the crusher mill and, accordingly, the crusher juice analysis will be affected. To achieve the most efficient results, it is desirable to have the cush-cush returned to the mill carrier for extended periods of time. The establishment of correlating factors once weekly for a continuous 8-hour period, during which time the cush-cush would be returned to the second or subsequent mill, would provide approximately optimum conditions. The proposed change is expected to result in higher recoveries of sugar from the same quality of sugarcane.

Accordingly, I hereby find and conclude that the foregoing price determination is fair and reasonable and will effectuate the price provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. 1131)

Issued this 22d day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-10403; Filed, Dec. 28, 1955; 8:53 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-83-A19]

PART 934—MILK IN MERRIMACK VALLEY, MASS., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

Sec.
934.0 Findings and determinations.

DEFINITIONS

934.1 General definitions.
934.2 Definitions of persons.
934.3 Definitions of plants.
934.4 Definitions of milk and milk products.

MARKET ADMINISTRATOR

934.10 Designation of market administrator.
934.11 Powers of market administrator.
934.12 Duties of market administrator.

CLASSIFICATION

934.15 Classes of utilization.
934.16 Classification of interplant movements of fluid products other than cream.
934.17 Classification of interplant movements of cream, and of milk products other than fluid milk products.
934.18 Responsibility of handlers in establishing the classification of milk.

DETERMINATION OF POOL PLANT STATUS

934.20 Basic requirements for pool plant status.
934.21 Additional requirements for city pool plants.
934.22 Additional requirements for country pool plants.

ASSIGNMENT OF RECEIPTS TO CLASSES

934.25 Assignment of pool handlers' receipts to Class I milk.
934.26 Assignment of pool handlers' receipts to Class II milk.
934.27 Receipts from other Federal order plants.

REPORTS OF HANDLERS

934.30 Pool handlers' reports of receipts and utilization.
934.31 Reports of nonpool handlers.
934.32 Reports regarding individual producers.
934.33 Reports of payments to producers.
934.34 Maintenance of records.
934.35 Verification of reports.
934.36 Retention of records.
934.37 Notices to producers.

CLASS PRICES

934.40 Class I price at city plants.
934.41 Class II price at city plants.
934.42 Country plant price differentials.
934.43 Automatic changes in zone price differentials and other price factors.
934.44 Use of equivalent factors in formulas.
934.45 Announcement of class prices.

NEW ENGLAND BASIC PRICE FORMULA

934.48 Computation of New England basic Class I price.

BLENDED PRICES TO PRODUCERS

934.50 Computation of net value of milk used by each pool handler.
934.51 Computation of the basic blended price.
934.52 Announcement of blended prices.

PAYMENTS FOR MILK

934.60 Advance payments.
934.61 Final payments.
934.62 Adjustments of errors in payments.
934.63 Butterfat differential.
934.64 Location differentials.
934.65 Payments on outside milk.
934.66 Payments on Class I receipts from other Federal order plants.
934.67 Adjustment of overdue accounts.
934.68 Statements to producers.

MARKETING SERVICES

934.70 Marketing service deduction; nonmembers of an association of producers.
934.71 Marketing service deduction; members of an association of producers.

ADMINISTRATION EXPENSE

934.72 Payment of administration expense.

OBLIGATIONS

934.73 Termination of obligations.

MISCELLANEOUS PROVISIONS

934.80 Effective time.
934.81 Suspension or termination.
934.82 Continuing obligations.
934.83 Liquidation after suspension or termination.
934.84 Agents.

AUTHORITY: §§ 934.0 to 934.84 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 934.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Merrimack Valley, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than January 1, 1956. Any delay beyond that date will seriously threaten the orderly marketing of milk in the Merrimack Valley, Massachusetts, marketing area.

The provisions of the said order are well known to handlers, the public hearing having been held on April 18 to May 5, 1955, the recommended decision having been issued on July 29, 1955, and the final decision having been issued on September 13, 1955. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective January 1, 1956, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (See sec. 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Merrimack Valley, Massachusetts, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Merrimack Valley, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order is hereby further amended to read as follows:

DEFINITIONS

§ 934.1 *General definitions.* (a) "Act means Public Act No. 10, 73d Congress, as amended, and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Merrimack Valley, Massachusetts, marketing area," also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns:

Andover.	Merrimac.
Billerica.	Methuen.
Chelmsford.	North Andover.
Dracut.	Tewksbury.
Groveland.	Tyngsboro.
Haverhill.	Westford.
Lawrence.	West Newbury.
Lowell.	

(c) "Order", used with the name of a marketing area other than the Merrimack Valley, Massachusetts, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) "Month" means a calendar month.

§ 934.2 *Definitions of persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk during any of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February, nor any dairy farmer from whom the handler received nonpool milk during such months of October through February only at a plant which met all the applicable requirements for pool plant status under this order in those months except that it was a pool plant under the Boston order.

(e) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer with respect to his operation of a farm from which milk is ordinarily delivered to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 934.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant. The term shall not apply to a dairy farmer who is a producer under the Boston, Worcester, or Springfield orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Handler" means any person who, in a given month, operates a pool plant, or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(h) "Pool handler" means any handler who operates a pool plant.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from other dairy farmers except producer-handlers.

(j) "Buyer-handler" means any handler who operates a bottling or processing plant from which more than 10 percent of his total receipts of fluid milk products, other than cream, are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) "Dealer" means any person who operates a plant at which he engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any

fluid milk products in the marketing area.

(l) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 934.3 *Definitions of plants.* (a) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "City plant" means any plant which is located within 10 miles of the marketing area.

(c) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

(d) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmer's deliveries.

(e) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 934.20, 934.21, and 934.22 for being considered a pool plant in that month.

(f) "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

§ 934.4 *Definitions of milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 10 percent; frozen milk; reconstituted milk; and 50 percent of the quantity, by weight, of "half and half."

(b) "Cream" means that portion of milk, containing not less than 16 per cent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The terms also include sour cream; frozen cream; milk and cream mixtures containing 16 percent or more of butterfat; and 50 percent of the quantity, by weight, of "half and half."

(c) "Half and half" means any fluid milk product, except concentrated milk, the butterfat content of which has been adjusted to at least 10 percent but less than 16 percent.

(d) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(e) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(f) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(g) "Outside milk" means:

(1) All milk received from dairy farmers for other markets;

(2) All fluid milk products, other than cream, received at a regulated plant from an unregulated plant, up to the total quantity of nonpool milk received at the unregulated plant; except exempt milk, receipts from New York order pool plants which are assigned to Class I milk pursuant to § 934.27, and receipts from regulated plants under the Boston, Worcester, or Springfield orders;

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a regulated plant under the Boston or Worcester orders, without its intermediate movement to another plant.

(h) "Concentrated milk" means the concentrated, unsterilized milk product, resembling plain condensed milk, which is disposed of to consumers for human consumption in fluid form.

(i) "Exempt milk" means milk which is received at a regulated plant:

(1) In bulk from an unregulated plant, or from the dairy farmer who produced it, for processing and bottling, and for which an equivalent quantity of packaged milk is returned to the dairy farmer or to the operator of the unregulated plant during the same month; or

(2) In packaged form from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and bottling during the same month.

MARKET ADMINISTRATOR

§ 934.10 *Designation of market administrator.* The agency for the administration of this part shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 934.11 *Powers of market administrator.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 934.12 *Duties of market administrator.* The market administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties;

(c) Pay, out of the funds provided by § 934.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor, or to such other person as the Secretary may designate;

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(f) Promptly verify the information contained in the reports submitted by handlers; and

(g) Give each of the producers delivering to a plant, as reported by the handler, prompt written notice of his actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 934.15 *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 934.16, 934.17, and 934.18, the classes of utilization shall be as follows:

(a) Class I milk shall be:

(1) All fluid milk products sold, distributed, or disposed of as or in milk;

(2) All fluid milk products sold, distributed, or disposed of for human consumption as or in flavored milk, skim milk, flavored or cultured skim milk, or buttermilk;

(3) Ninety-eight percent, by weight, of the fluid milk products used to produce concentrated milk; and

(4) All fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as specified in subparagraphs (1), (2), and (3) of paragraph (a) of this section; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 934.16 *Classification of interplant movements of fluid products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 934.25 and 934.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant except a plant subject to the Boston, Worcester, or Springfield orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the Boston, Worcester, or Springfield orders, they shall be classified in the same class to which the receipt is assigned under such order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the Boston, Worcester, or Springfield orders, and thence to another plant, they shall be classified by applying the provisions of paragraphs (a) through (d) of this section, whichever is applicable, except that if the other plant to which such movement is made is located outside of the New England States and New York State, they shall be classified as Class I milk.

§ 934.17 *Classification of interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 934.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any nonpool milk or milk products received by a handler, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 934.20 *Basic requirements for pool plant status.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in § 934.21 or § 934.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, Sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, Section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

(c) The plant is operated neither as the plant of a producer-handler nor as a pool plant pursuant to the provisions of the Boston, New York, Worcester, or Springfield orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler. This paragraph shall not apply to any plant which met all the applicable requirements for pool plant status under this part during each of such months of October through February, except that it was operated as a pool plant pursuant to the provisions of the Boston order. Also, any plant which otherwise met all of the requirements for pool plant status during each of the months of October 1955 through February 1956 shall not be a nonpool plant during the months of March through September 1956, solely because of the previously effective language of the dealer definition which did not make the operation of a plant a qualifying condition under such definition.

§ 934.21 *Additional requirements for city pool plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers. In determining whether a city plant has disposed of the required 10 percent of its receipts as Class I milk in the marketing area, the total quantity of fluid milk products, other than cream, moved from that plant to another city plant which is a regulated plant shall be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from the other plant.

§ 934.22 *Additional requirements for country pool plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 30 percent of its total receipts of fluid milk products, other than cream, after deducting Class I sales direct to consumers outside the marketing area, is disposed of directly to consumers in the marketing area as Class I milk or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk: *Provided*, That the quantity of fluid milk products, other than cream, disposed of in the marketing area as Class I milk, is at least 10 percent of its total receipts of fluid milk products other than cream.

(b) Any country plant which is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven-months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 934.25 *Assignment of pool handlers' receipts to Class I milk.* For the purpose of computing the net quantity of each pool handler's Class I milk for which a value is to be computed pursuant to § 934.50, his receipts of milk and milk products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 934.27.

(c) Receipts of fluid milk products, other than cream and bulk skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and bulk skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to the City Hall in Lawrence.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section in the order of the nearness of the plants to the City Hall in Lawrence.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to the City Hall in Lawrence.

(j) Receipts of bulk skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 934.26 *Assignment of Pool Handlers' Receipts to Class II Milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 934.25 shall be assigned to Class II milk.

§ 934.27 *Receipts from Other Federal Order Plants.* Receipts of fluid milk products from plants regulated by other Federal orders shall be assigned as follows:

(a) Receipts of fluid milk products from regulated plants under the Boston order shall be assigned to the class in which they are classified under that order.

(b) Receipts of fluid milk products, other than cream, from regulated plants under the Worcester or Springfield

orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class II milk up to the total Class II uses of fluid milk products, other than cream, at the receiving plant.

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified and priced in Classes I–A or I–B under the New York order.

REPORTS OF HANDLERS

§ 934.30 *Pool handlers' reports of receipts and utilization.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to §§ 934.25, 934.26, and 934.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 934.15, 934.16, and 934.17.

§ 934.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 934.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 934.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 934.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 934.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this part;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 934.36 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 934.37 *Notices to producers.* Each pool handler shall furnish each producer from whom he receives milk with information regarding the daily weight and composite butterfat test of the producer's milk, as follows:

(a) Within 3 days after each day on which he receives milk from the producer, the handler shall give the producer written notice of the daily quantity so received.

(b) Within 7 days after the end of any sampling period for which the composite butterfat test of the producer's milk was determined, the handler shall give the producer written notice of such composite test.

CLASS PRICES

§ 934.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be the New England basic Class I price per hundredweight determined for each month pursuant to § 934.48 plus 52 cents.

§ 934.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to § 904.41 of the Boston order plus 5.8 cents.

§ 934.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 934.40 and 934.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the City Hall in Lawrence, Massachusetts, over highways on which the highway departments of the governing States permit milk tank trucks to move, or on the railway mileage distance to Lawrence from the nearest railway shipping point for such plant, whichever is shorter. The applicable zone differentials shall be those set forth in the following table, as adjusted pursuant to § 934.43.

DIFFERENTIALS FOR DETERMINATION OF ZONE PRICES

A	B	C
Zone (miles)	Class I price differentials (cents per hundredweight)	Class II price differentials (cents per hundredweight)
Less than 40½	−17.0	−2.0
41 to 50	−41.5	−2.0
51 to 60	−42.5	−3.0
61 to 70	−43.0	−3.0
71 to 80	−44.5	−3.0
81 to 90	−45.0	−3.0
91 to 100	−45.5	−3.0
101 to 110	−45.5	−4.5
111 to 120	−47.0	−4.5
121 to 130	−47.0	−4.5
131 to 140	−48.0	−4.5
141 to 150	−50.5	−4.5
151 to 160	−52.0	−6.0
161 to 170	−52.0	−6.0
171 to 180	−54.5	−6.0
181 to 190	−54.5	−6.0
191 to 200	−56.0	−6.0
201 to 210	−56.0	−7.0
211 to 220	−60.0	−7.0
221 to 230	−60.5	−7.0
231 to 240	−61.5	−7.0
241 to 250	−61.5	−7.0
251 to 260	−62.5	−8.0
261 to 270	−63.0	−8.0
271 to 280	−63.5	−8.0
281 to 290	−64.5	−8.0
291 and over	−65.5	−8.0

§ 934.43 *Automatic changes in zone price differentials and other price factors.* In case the rail tariff for the transportation of milk or cream, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in the table in § 934.42 and the price factors specified in §§ 934.40 and 934.41 shall be correspondingly increased or decreased. Such adjustments shall become effective in the first complete month in which the changes in rail tariffs apply. Adjustments pursuant to paragraphs (a), (b), and (c) of this section shall be made to the nearest one-half cent per hundredweight, and adjustments pursuant to paragraph (d) of this section shall be made to the nearest one-tenth cent per hundredweight.

(a) If the rail tariff for transporting milk in 40-quart cans in carlots of 200 or more cans is changed, the differentials set forth in column B of the table shall be adjusted to the extent of the change.

(b) If the rail tariff for transporting milk in carlots in tank cars for mileage distances of 201–210 miles is changed, the price factor of 52 cents specified in § 934.40 shall be adjusted to the extent of the change.

(c) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans is changed, the differentials set forth in column C of the table shall be adjusted by the result obtained by dividing the tariff change by 9.05.

(d) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans for mileage distances of 201–210 miles is changed, the price factor of 5.8 cents specified in § 943.41 shall be adjusted by the result obtained by multiplying the tariff change by 1.03 and then dividing by 9.05.

§ 934.44 *Use of equivalent factors in formulas.* If for any reason a price, index, or wage rate specified by this part for use in computing class prices and for other purposes is not reported or published in the manner described in this part, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 934.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

NEW ENGLAND BASIC PRICE FORMULA

§ 934.48 *Computation of New England basic Class I price.* The New England basic Class I price per hundredweight of milk containing 3.7 percent butterfat shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding work day shall be used.

(a) Compute the economic index as follows:

(1) Divide by 1.143 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the years 1947–49 as the base period.

(2) Using the data on national and regional per capita income payments as published by the United States Department of Commerce, establish a "New England adjustment percentage" by computing the current percentage relationship of New England per capita income to the national per capita income. Multiply by the New England adjustment percentage the quarterly figure showing the current annual rate of per capita disposable personal income in the United States as released by the United States Department of Commerce or the Council of Economic Advisers to the President. Divide the result by 15.27 to determine an index of per capita disposable income in New England.

(3) Multiply by 20 the average price per 100 pounds paid by farmers in the New England region for all mixed dairy feed of less than 29 percent protein content as reported by the United States Department of Agriculture for the month and divide the result by 0.884 to determine the dairy ration index. Compute the average, weighted by the indicated factors, of the following farm wage rates reported for the New England region by the United States Department of Agriculture: Rate per month with board and room, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and the rate per day without board or room, 26. Divide the average wage rate so computed by 1.458 to determine the wage rate index. Multiply the dairy ration index by 0.6 and the wage rate index by 0.4 and combine the two results to determine the grain-labor cost index.

(4) Divide by 3 the sum of the wholesale price index, the index of per capita disposable income in New England, and the grain-labor cost index determined pursuant to this paragraph. The result shall be known as the economic index.

(b) Compute a supply-demand adjustment factor as follows:

(1) Combine into separate monthly totals the receipts from producers for Greater Boston, Merrimack Valley, Springfield, and Worcester and the Class I milk from producers for the same markets as announced by the respective market administrators in the statistical reports for such markets for the second and third months preceding the month for which the price is being computed.

(2) Divide the four-market total of Class I producer milk by the four-market total of receipts from producers for each of the two months for which computations were made pursuant to subparagraph (1) of this paragraph.

(3) Divide each of the percentages determined in subparagraph (2) of this paragraph into the following normal Class I percentage for the respective month, multiply each result by 100, and compute a simple average of the resulting percentages. The result shall be known as the percentage of normal supply.

Month:	Normal Class I percentage
January	76.9
February	73.9
March	65.3
April	57.7
May	51.6
June	50.7
July	61.6
August	70.1
September	70.7
October	73.4
November	82.0
December	77.8

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket under the normal supply column within which the percentage computed pursuant to subparagraph (3) of this paragraph falls. If the percentage falls in an interval between brackets, the applicable bracket shall be that above the interval in which the percentage falls if the adjustment for the previous month was determined by a bracket above such interval, and shall be determined by the bracket below such interval if the adjustment for the previous month was determined by a bracket below such interval.

Percentage of normal supply:	Supply-demand adjustment factor
91.5 and under	1.12
92 to 92.5	1.10
93 to 93.5	1.08
94 to 94.5	1.06
95 to 96	1.04
97 to 98	1.02
99 to 101	1.00
102 to 103	.98
104 to 105	.96
106 to 107	.94
108 to 109	.92
110 to 111	.90
112 and over	.88

(c) The seasonal adjustment factor shall be the factor listed below for the month for which the price is being computed.

Month:	Seasonal adjustment factor
January and February	1.04
March	1.00
April	.92
May and June	.88
July	.96
August	1.00
September	1.04
October, November, and December	1.08

(d) Compute a New England basic Class I price index by multiplying the economic index determined pursuant to paragraph (a) of this section by the supply-demand adjustment factor determined pursuant to paragraph (b) of this section and multiplying the result by the applicable seasonal adjustment factor pursuant to paragraph (c) of this section.

(e) The New England basic Class I price shall be as shown in the following table:

New England basic Class I price index times $0.0561: At least	But less than	Class I price
$4.88	$5.10	$4.99
$5.10	$5.32	5.21
$5.32	$5.54	5.43
$5.54	$5.76	5.65
$5.76	$5.98	5.87
$5.98	$6.20	6.09
$6.20	$6.42	6.31

If the New England basic Class I price index times $0.0561 is less than $4.88 or more than $6.42, the New England basic Class I price shall be determined by extending the table at the indicated rate of extension.

(f) Notwithstanding the provisions of paragraphs (a) through (e) of this section, the New England basic Class I price for November or December of each year shall not be lower than such price for the immediately preceding month.

BLENDED PRICES TO PRODUCERS

§ 934.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute in the following manner the net value of milk which is sold, distributed, or used by each pool handler:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 934.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 934.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 934.40, 934.41, and 934.42;

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 934.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 934.25 (f), (i), and (k) by the price applicable pursuant to §§ 934.41 and 934.42.

(g) Subtract any amount which the handler is required to pay on such milk pursuant to § 904.65 (b) of the Boston order.

§ 934.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk computed pursuant to § 934.50 and the payments required pursuant to §§ 934.65 and 934.66 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 934.61 (b), 934.65, and 934.66 for the preceding month;

(b) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 934.61, 934.62, 934.65, 934.66, and 934.67;

(c) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 934.64;

(d) Divide by the total quantity of pool milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 934.61 and 934.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at city plants, shall be known as the basic blended price.

§ 934.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the differentials pursuant to § 934.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this part.

PAYMENTS FOR MILK

§ 934.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this section shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 934.61 (a).

§ 934.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 934.50, as follows:

(a) On or before the 25th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 934.63 and 934.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 934.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 934.50, as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

§ 934.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 934.61 (b), 934.65, and 934.66, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 934.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 934.63 *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, the amount per hundredweight determined for the corresponding month pursuant to § 934.63 of the Boston order.

§ 934.64 *Location differentials.* The payments to be made to producers by handlers pursuant to § 934.61 (a) shall be subject to the Class I price differentials applicable pursuant to § 934.42, and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located more than 40 miles from the City Hall in Lawrence, but not more than 80 miles from the State House in Boston, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 934.40 and 934.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(b) With respect to milk delivered by a producer whose farm is located not more than 40 miles from the City Hall in Lawrence, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 934.40 and 934.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

§ 934.65 *Payments on outside milk.* Within 23 days after the end of each month, handlers shall make payments to producers, through the market administrator, as follows:

(a) Each buyer-handler or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity at the difference between the Class I and Class II prices pursuant to §§ 934.40, 934.41, and 934.42, effective for the location or zone of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 934.40, 934.41, and 934.42, effective for the location or zone of the handler's plant.

§ 934.66 *Payments on Class I receipts from other Federal order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York, Boston, Worcester, or Springfield order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the price pursuant to §§ 934.40 and 934.42, effective for the location or zone of the plant from which the Class I milk was received, by the butterfat differential calculated pursuant to § 934.63.

(b) Adjust the zone Class I price applicable under the other Federal order (Class I–A or I–B in the case of a New York order plant) by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the other Federal order plant by the difference in price.

§ 934.67 *Adjustment of overdue accounts.* Any balance due, pursuant to §§ 934.61, 934.62, 934.65, and 934.66, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent effective the 11th day of such month.

§ 934.68 *Statements to producers.* In making the payments to producers prescribed by § 934.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 934.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 934.70 and 934.71, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 934.70 *Marketing service deduction; nonmembers of an association of producers.* In making payments to producers pursuant to § 934.61 (a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 934.71, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall, on or before the 23d day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 934.71 *Marketing service deduction; members of an association of producers.* In the case of producers who are members of an association of producers which is actually performing the services set forth in § 934.70 each handler shall, in lieu of the deductions specified in § 934.70, make such deductions from payments made pursuant to § 934.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deductions to such associations, accompanied by a statement showing the pounds of milk delivered by each producer from whom the deduction was made.

ADMINISTRATION EXPENSE

§ 934.72 *Payment of administration expense.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

OBLIGATIONS

§ 934.73 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8 (c) (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 934.80 *Effective time.* The provisions of this part, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 934.81.

§ 934.81 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 934.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there

are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 934.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 934.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Issued at Washington, D. C., this 22d day of December 1955, to be effective on and after January 1, 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 55-10398; Filed, Dec. 28, 1955; 8:51 a. m.]

[Docket No. AO-203-A5]

PART 996—MILK IN SPRINGFIELD, MASS., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

Sec.

996.0 Findings and determinations.

DEFINITIONS

996.1 General definitions.
996.2 Definitions of persons.
996.3 Definitions of plants.
996.4 Definitions of milk and milk products.

MARKET ADMINISTRATOR

996.10 Designation of market administrator.
996.11 Powers of market administrator.
996.12 Duties of market administrator.

CLASSIFICATION

996.15 Classes of utilization.
996.16 Classification of interplant movements of fluid milk products other than cream.
996.17 Classification of interplant movements of cream, and of milk products other than fluid milk products.
996.18 Responsibility of handlers in establishing the classification of milk.

DETERMINATION OF POOL PLANT STATUS

996.20 Basic requirements for pool plant status.
996.21 Additional requirements for city pool plants.
996.22 Additional requirements for country pool plants.

ASSIGNMENT OF RECEIPTS TO CLASSES

996.25 Assignment of pool handlers' receipts to Class I milk.
996.26 Assignment of pool handler's receipts to Class II milk.
996.27 Receipts from other Federal order plants.

REPORTS OF HANDLERS

996.30 Pool handlers' reports of receipts and utilization.
996.31 Reports of nonpool handlers.
996.32 Reports regarding individual producers.
996.33 Reports of payments to producers.
996.34 Maintenance of records.
996.35 Verification of reports.
996.36 Retention of records.
996.37 Notices to producers.

MINIMUM CLASS PRICES

996.40 Class I price at city plants.
996.41 Class II price at city plants.
996.42 Country plant price differentials.
996.43 Automatic changes in zone price differentials and other price factors.
996.44 Use of equivalent factors in formulas.
996.45 Announcement of class prices.

NEW ENGLAND BASIC PRICE FORMULA

996.48 Computation of New England basic Class I price.

BLENDED PRICES TO PRODUCERS

996.50 Computation of net value of milk used by each pool handler.
996.51 Computation of the basic blended price.
996.52 Announcement of blended prices.

PAYMENTS FOR MILK

996.60 Advance payments.
996.61 Final payments.
996.62 Adjustments of errors in payments.
996.63 Butterfat differential.
996.64 Location differentials.
996.65 Payments on outside milk.
996.66 Payments on Class I receipts from other Federal order plants.
996.67 Adjustment of overdue accounts.
996.68 Statements to producers.

MARKETING SERVICES

996.70 Marketing service deduction; nonmembers of an association of producers.
996.71 Marketing service deduction; members of an association of producers.

ADMINISTRATION EXPENSE

996.72 Payment of administration expense.

OBLIGATIONS

996.73 Termination of obligations.

MISCELLANEOUS PROVISIONS

996.80 Effective time.
996.81 Suspension or termination.
996.82 Continuing obligations.
996.83 Liquidation after suspension or termination.
996.84 Agents.

AUTHORITY: §§ 996.0 to 996.84 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 996.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Springfield, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than January 1, 1956. Any delay beyond that date will seriously threaten the orderly marketing of milk in the Springfield, Massachusetts, marketing area.

The provisions of the said order are well know to handlers, the public hearing having been held on April 18 to May 5, 1955, the recommended decision having been issued on July 29, 1955 and the final decision having been issued on September 13, 1955. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective January 1, 1956, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (See section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Springfield, Massachusetts, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Springfield, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order is hereby further amended to read as follows:

DEFINITIONS

§ 996.1 *General definitions.* (a) "Act" means Public Act No. 10, 73d Congress, as amended, and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Springfield, Massachusetts, marketing area," also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns:

Agawam.	Northampton.
Chicopee.	South Hadley.
Easthampton.	Springfield.
East Longmeadow.	Westfield.
Holyoke.	West Springfield.
Longmeadow.	Wilbraham.
Ludlow.	

(c) "Order", used with the name of a marketing area other than the Springfield, Massachusetts, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) "Month" means a calendar month.

§ 996.2 *Definitions of persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk during any of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February, nor any dairy farmer from whom the handler received nonpool milk during such months of October through February only at a plant which met all the applicable requirements for pool plant status under this part in those months except that it was a pool plant under the Boston order.

(e) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer with respect to his operation of a farm from which milk is ordinarily delivered to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 996.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant. The term shall not apply to a dairy farmer who is a producer under the Boston, Merrimack Valley, or Worcester orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Handler" means any person who, in a given month, operates a pool plant, or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(h) "Pool handler" means any handler who operates a pool plant.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from other dairy farmers except producer-handlers.

(j) "Buyer-handler" means any handler who operates a bottling or processing plant from which more than 10 percent of his total receipts of fluid milk products, other than cream, are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) "Dealer" means any person who operates a plant at which he engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(l) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 996.3 *Definitions of plants.* (a) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "City plant" means any plant which is located within 10 miles of the marketing area.

(c) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

(d) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

(e) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 996.20, 996.21, and 996.22 for being considered a pool plant in that month.

(f) "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

§ 996.4 *Definitions of milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 10 percent; frozen milk; reconstituted milk; and 50 percent of the quantity, by weight, of "half and half."

(b) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term also includes sour cream; frozen cream; milk and cream mixtures containing 16 percent or more of butterfat; and 50 percent of the quantity, by weight, of "half and half."

(c) "Half and half" means any fluid milk product, except concentrated milk, the butterfat content of which has been adjusted to at least 10 percent but less than 16 percent.

(d) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(e) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(f) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(g) "Outside milk" means:

(1) All milk received from dairy farmers for other markets;

(2) All fluid milk products, other than cream, received at a regulated plant from an unregulated plant, up to the total quantity of nonpool milk received at the unregulated plant; except exempt milk, receipts from New York order pool plants which are assigned to Class I milk pursuant to § 996.27, and receipts from regulated plants under the Boston, Merrimack Valley, or Worcester orders;

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a regulated plant under the Worcester order, without its intermediate movement to another plant.

(h) "Concentrated milk" means the concentrated, unsterilized milk product, resembling plain condensed milk, which is disposed of to consumers for human consumption in fluid form.

(i) "Exempt milk" means milk which is received at a regulated plant:

(1) In bulk from an unregulated plant, or from the dairy farmer who produced it, for processing and bottling, and for which an equivalent quantity of packaged milk is returned to the dairy farmer or to the operator of the unregulated plant during the same month; or

(2) In packaged form from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and bottling during the same month.

MARKET ADMINISTRATOR

§ 996.10 *Designation of market administrator.* The agency for the administration of this part shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 996.11 *Powers of market administrator.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 996.12 *Duties of market administrator.* The market administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties;

(c) Pay, out of the funds provided by § 996.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor, or to such other person as the Secretary may designate;

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(f) Promptly verify the information contained in the reports submitted by handlers; and

(g) Give each of the producers delivering to a plant, as reported by the handler, prompt written notice of his actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 996.15 *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 996.16, 996.17, and 996.18, the classes of utilization shall be as follows:

(a) Class I milk shall be:

(1) All fluid milk products sold, distributed, or disposed of as or in milk;

(2) All fluid milk products sold, distributed, or disposed of for human consumption as or in flavored milk, skim milk, flavored or cultured skim milk, or buttermilk;

(3) Ninety-eight percent, by weight, or the fluid milk products used to produce concentrated milk; and

(4) All fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as specified in subparagraphs (1), (2), and (3) of paragraph (a) of this section; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 996.16 *Classification of interplant movements of fluid milk products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 996.25 and 996.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant except a plant subject to the New York, Boston, Merrimack Valley, or Worcester orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the New York, Boston, Merrimack Valley, or Worcester orders, they shall be classified in the same class to which the receipt is assigned under such order, except that if moved to a plant subject to the New York order they shall be classified as Class I milk if classified in Classes I–A, I–B, or I–C under the New York order, and shall be classified as Class II milk if classified in any class other than I–A, I–B, or I–C under the New York order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the New York, Boston, Merrimack Valley, or Worcester orders, and thence to another plant, they shall be classified by applying the provisions of paragraphs (a) through (d) of this section, whichever is applicable, except that if the other plant to which such movement is made is located outside of the New England States and New York State, they shall be classified as Class I milk.

§ 996.17 *Classification of interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 996.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any nonpool milk or milk products received by a handler, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 996.20 *Basic requirements for pool plant status.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in § 996.21 or § 996.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

(c) The plant is operated neither as the plant of a producer-handler nor as a pool plant pursuant to the provisions of the Boston, Merrimack Valley, New York, or Worcester orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler. This paragraph shall not apply to any plant which met all the applicable requirements for pool plant status under this order during each of such months of October through February, except that it was operated as a pool plant pursuant to the provisions of the Boston order.

§ 996.21 *Additional requirements for city pool plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers. In determining whether a city plant has disposed of the required 10 percent of its receipts as Class I milk in the marketing area, the total quantity of fluid milk products, other than cream, moved from that plant to another city plant which is a regulated plant shall be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from the other plant.

§ 996.22 *Additional requirements for country pool plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 30 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven-months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 996.25 *Assignment of pool handlers' receipts to Class I milk.* For the purpose of computing the net quantity of each pool handler's Class I milk for which a value is to be computed pursuant to § 996.50, his receipts of milk and milk products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 996.27.

(c) Receipts of fluid milk products, other than cream and bulk skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and bulk skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to Springfield.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section in the order of the nearness of the plants to Springfield.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to Springfield.

(j) Receipts of bulk skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 996.26 *Assignment of pool handlers' receipts to Class II milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 996.25 shall be assigned to Class II milk.

§ 996.27 *Receipts from other Federal order plants.* Receipts of fluid milk products from plants regulated by other Federal orders shall be assigned as follows:

(a) Receipts of fluid milk products from regulated plants under the Boston order shall be assigned to the class in which they are classified under that order.

(b) Receipts of fluid milk products, other than cream, from regulated plants under the Merrimack Valley, or Worcester orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class II milk up to the total Class II uses of fluid milk products, other than cream, at the receiving plant.

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified and priced in Classes I–A or I–B under the New York order.

REPORTS OF HANDLERS

§ 996.30 *Pool handlers' reports of receipts and utilization.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to §§ 996.25 through 996.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 996.15 through 996.18.

§ 996.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 996.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 996.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month,

his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 996.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 996.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this part;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 996.36 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 996.37 *Notices to producers.* Each pool handler shall furnish each producer from whom he receives milk with information regarding the daily weight and composite butterfat test of the producer's milk, as follows:

(a) Within 3 days after each day on which he receives milk from the producer, the handler shall give the producer written notice of the daily quantity so received.

(b) Within 7 days after the end of any sampling period for which the composite butterfat test of the producer's milk was determined, the handler shall give the producer written notice of such composite test.

MINIMUM CLASS PRICES

§ 996.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be the New England basic Class I price per hundredweight determined for each month pursuant to § 996.48 plus 52 cents.

§ 996.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to Sec. 904.41 of the Boston order plus 5.8 cents.

§ 996.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 996.40 and 996.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the City Hall in Springfield, Massachusetts, over highways on which the highway departments of the governing States permit milk tank trucks to move, or on the railway mileage distance to Springfield from the nearest railway shipping point for such plant, whichever is shorter. The applicable zone differentials shall be those set forth in the following table, as adjusted pursuant to § 996.43.

DIFFERENTIALS FOR DETERMINATION OF ZONE PRICES

A	B	C
Zone (miles)	Class I Price differentials (cents per hundredweight)	Class II Price differentials (cents per hundredweight)
Less than 40	None	None
41 to 50	−41.5	−2.0
51 to 60	−42.5	−3.0
61 to 70	−43.0	−3.0
71 to 80	−44.5	−3.0
81 to 90	−45.0	−3.0
91 to 100	−45.5	−3.0
101 to 110	−45.5	−4.5
111 to 120	−47.0	−4.5
121 to 130	−47.0	−4.5
131 to 140	−48.0	−4.5
141 to 150	−50.5	−4.5
151 to 160	−52.0	−6.0
161 to 170	−52.0	−6.0
171 to 180	−54.5	−6.0
181 to 190	−54.5	−6.0
191 to 200	−56.0	−6.0
201 to 210	−56.0	−7.0
211 to 220	−60.0	−7.0
221 to 230	−60.5	−7.0
231 to 240	−61.5	−7.0
241 to 250	−61.5	−7.0
251 to 260	−62.5	−8.0
261 to 270	−63.0	−8.0
271 to 280	−63.5	−8.0
281 to 290	−64.5	−8.0
291 and over	−65.5	−8.0

§ 996.43 *Automatic changes in zone price differentials and other price factors.* In case the rail tariff for the transportation of milk or cream, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in the table in § 996.42 and the price factors specified in §§ 996.40 and 996.41 shall be correspondingly increased or decreased. Such adjustments shall become effective in the first complete month in which the changes in rail tariffs apply. Adjustments pursuant to paragraphs (a), (b), and (c) of this section shall be made to the nearest one-half cent per hundredweight, and adjustments pursuant to paragraph (d) of this section shall be made to the nearest one-tenth cent per hundredweight.

(a) If the rail tariff for transporting milk in 40-quart cans in carlots of 200 or more cans is changed, the differentials set forth in column B of the table shall be adjusted to the extent of the change.

(b) If the rail tariff for transporting milk in carlots in tank cars for mileage distances of 201–210 miles is changed, the price factor of 52 cents specified in § 996.40 shall be adjusted to the extent of the change.

(c) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans is changed, the differentials set forth in column C of the table shall be adjusted by the result obtained by dividing the tariff change by 9.05.

(d) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans for mileage distances of 201–210 miles is changed, the price factor of 5.8 cents specified in § 996.41 shall be adjusted by the result obtained by multiplying the tariff change by 1.03 and then dividing by 9.05.

§ 996.44 *Use of equivalent factors in formulas.* If for any reason a price, index, or wage rate specified by this order for use in computing class prices and for other purposes is not reported or published in the manner described in this order, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 996.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

NEW ENGLAND BASIC PRICE FORMULA

§ 996.48 *Computation of New England basic Class I price.* The New England basic Class I price per hundredweight of milk containing 3.7 percent butterfat shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding work day shall be used.

(a) Compute the economic index as follows:

(1) Divide by 1.143 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the years 1947–49 as the base period.

(2) Using the data on national and regional per capita income payments as published by the United States Department of Commerce, establish a "New England adjustment percentage" by computing the current percentage relationship of New England per capita income to the national per capita income. Multiply by the New England adjustment percentage the quarterly figure showing the current annual rate of per capita disposable personal income in the United States as released by the United States Department of Commerce or the Council of Economic Advisers to the President. Divide the result by 15.27 to determine an index of per capita disposable income in New England.

(3) Multiply by 20 the average price per 100 pounds paid by farmers in the New England region for all mixed dairy feed of less than 29 percent protein content as reported by the United States Department of Agriculture for the month and divide the result by 0.884 to determine the dairy ration index. Compute the average, weighted by the indicated factors, of the following farm wage rates reported for the New England region by the United States Department of Agriculture: Rate per month with board and room, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and the rate per day without board or room, 26. Divide the average wage rate so computed by 1.458 to determine the wage rate index. Multiply the dairy ration index by 0.6 and the wage rate index by 0.4 and combine the two results to determine the grain-labor cost index.

(4) Divide by 3 the sum of the wholesale price index, the index of per capita disposable income in New England, and the grain-labor cost index determined pursuant to this paragraph. The result shall be known as the economic index.

(b) Compute a supply-demand adjustment factor as follows:

(1) Combine into separate monthly totals the receipts from producers for Greater Boston, Merrimack Valley, Springfield, and Worcester and the Class I milk from producers for the same markets as announced by the respective market administrators in the statistical reports for such markets for the second and third months preceding the month for which the price is being computed.

(2) Divide the four-market total of Class I producer milk by the four-market total of receipts from producers for each of the two months for which computations were made pursuant to subparagraph (1) of this paragraph.

(3) Divide each of the percentages determined in subparagraph (2) of this paragraph into the following normal Class I percentage for the respective month, multiply each result by 100, and compute a simple average of the resulting percentages. The result shall be known as the percentage of normal supply.

Month:	Normal Class I percentage
January	76.9
February	73.9
March	65.3
April	57.7
May	51.6
June	50.7
July	61.6

Month—Continued	Normal Class I percentage
August	70.1
September	70.7
October	73.4
November	82.0
December	77.8

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket under the normal supply column within which the percentage computed pursuant to subparagraph (3) of this paragraph falls. If the percentage falls in an interval between brackets, the applicable bracket shall be that above the interval in which the percentage falls if the adjustment for the previous month was determined by a bracket above such interval, and shall be determined by the bracket below such interval if the adjustment for the previous month was determined by a bracket below such interval.

Percentage of normal supply:	Supply-demand adjustment factor
91.5 and under	1.12
92 to 92.5	1.10
93 to 93.5	1.08
94 to 94.5	1.06
95 to 96	1.04
97 to 98	1.02
99 to 101	1.00
102 to 103	.98
104 to 105	.96
106 to 107	.94
108 to 109	.92
110 to 111	.90
112 and over	.88

(c) The seasonal adjustment factor shall be the factor listed below for the month for which the price is being computed.

Month:	Seasonal adjustment factor
January and February	1.04
March	1.00
April	.92
May and June	.88
July	.96
August	1.00
September	1.04
October, November and December	1.08

(d) Compute a New England basic Class I price index by multiplying the economic index determined pursuant to paragraph (a) of this section by the supply-demand adjustment factor determined pursuant to paragraph (b) of this section and multiplying the result by the applicable seasonal adjustment factor pursuant to paragraph (c) of this section.

(e) The New England basic Class I price shall be as shown in the following table:

New England basic Class I price index times $0.0561: At least	But less than	Class I price
$4.88	$5.10	$4.99
$5.10	$5.32	5.21
$5.32	$5.54	5.43
$5.54	$5.76	5.65
$5.76	$5.98	5.87
$5.98	$6.20	6.09
$6.20	$6.42	6.31

If the New England basic Class I price index times $0.0561 is less than $4.88 or more than $6.42, the New England basic Class I price shall be determined by extending the table at the indicated rate of extension.

(f) Notwithstanding the provisions of paragraphs (a) through (e) of this section, the New England basic Class I price for November or December of each year shall not be lower than such price for the immediately preceding month.

BLENDED PRICES TO PRODUCERS

§ 996.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute in the following manner the net value of milk which is sold, distributed, or used by each pool handler:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 996.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 996.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 996.40, 996.41, and 996.42;

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 996.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 996.25 (f), (i), and (k) by the price applicable pursuant to §§ 996.41 and 996.42.

§ 996.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk computed pursuant to § 996.50 and the payments required pursuant to §§ 996.65 and 996.66 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 996.61 (b), 996.65, and 996.66 for the preceding month;

(b) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 996.61, 996.62, 996.65, 996.66, and 996.67;

(c) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 996.64;

(d) Divide by the total quantity of pool milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 996.61 and 996.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at city plants, shall be known as the basic blended price.

§ 996.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the differentials pursuant to § 996.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this part.

PAYMENTS FOR MILK

§ 996.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this section shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 996.61 (a).

§ 996.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 996.50, as follows:

(a) On or before the 25th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 996.63 and 996.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 996.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 996.50, as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

§ 996.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 996.61 (b), 996.65, and 996.66, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 996.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 996.63 *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, the amount per hundredweight determined for the corresponding month pursuant to § 904.63 of the Boston order.

§ 996.64 *Location differentials.* The payments to be made to producers by handlers pursuant to § 996.61 (a) shall be subject to the Class I price differentials applicable pursuant to § 996.42, and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located in any of the following cities or towns, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 996.40 and 996.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price:

MASSACHUSETTS

Becket.	Sandisfield.
Florida.	Savoy.
Hinsdale.	Washington.
Otis.	Windsor.
Peru.	

NEW HAMPSHIRE

Chesterfield.	Westmoreland.

VERMONT

Brattleboro.	Newfane
Dover.	Putney.
Dummerston.	Wilmington.
Marlboro.	

(b) With respect to milk delivered by a producer whose farm is located in Franklin, Hampshire, Hampden, or Worcester Counties in Massachusetts, or in any of the following cities or towns, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 996.40 and 996.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price:

CONNECTICUT

Ellington.	Somers.
Enfield.	Stafford.
Granby.	Suffield.

NEW HAMPSHIRE

Hinsdale.	Winchester.

VERMONT

Guilford.	Vernon.
Halifax.	Whitingham.
Readsboro.	

§ 996.65 *Payments on outside milk.* Within 23 days after the end of each month, handlers shall make payments to producers, through the market administrator, as follows:

(a) Each buyer-handler or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity at the difference between the Class I and Class II prices pursuant to §§ 996.40, 996.41, and 996.42, effective for the location or zone of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 996.40, 996.41, and 996.42, effective for the location or zone of the handler's plant.

§ 996.66 *Payments on Class I receipts from other Federal order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York, Boston, Merrimack Valley, or Worcester order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the price pursuant to §§ 996.40 and 996.42, effective for the location or zone of the plant from which the Class I milk was received, by the butterfat differential calculated pursuant to § 996.63.

(b) Adjust the zone Class I price applicable under the other Federal order (Class I–A or I–B in the case of a New York order plant) by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the other Federal order plant by the difference in price.

§ 996.67 *Adjustment of overdue accounts.* Any balance due, pursuant to §§ 996.61, 996.62, 996.65, and 996.66, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent effective the 11th day of such month.

§ 996.68 *Statements to producers.* In making the payments to producers prescribed by § 996.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 996.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 996.70 and 996.71, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 996.70 *Marketing service deduction; nonmembers of an association of producers.* In making payments to producers pursuant to § 996.61 (a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 996.71, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall, on or before the 23d day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 996.71 *Marketing service deduction; members of an association of producers.* In the case of producers who are members of an association of producers which is actually performing the services set forth in § 996.70, each handler shall, in lieu of the deductions specified in § 996.70, make such deductions from payments made pursuant to § 996.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deductions to such associations, accompanied by a statement showing the pounds of milk delivered by each producer from whom the deduction was made.

ADMINISTRATION EXPENSE

§ 996.72 *Payment of administration expense.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, receipts of exempt milk processed at a regulated plant, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

OBLIGATIONS

§ 996.73 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed; unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 996.80 *Effective time.* The provisions of this part, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 996.81.

§ 996.81 *Suspension or termination.* The Secretary may suspend or terminate this order or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 996.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 996.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected, pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 996.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Issued at Washington, D. C., this 22d day of December 1955, to be effective on and after January 1, 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 55-10397; Filed, Dec. 28, 1955; 8:51 a. m.]

[Docket No. AO-204-A5]

PART 999—MILK IN WORCESTER, MASS., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

Sec.

999.0 Findings and determinations.

DEFINITIONS

999.1 General definitions.
999.2 Definitions of persons.
999.3 Definitions of plants.
999.4 Definitions of milk and milk products.

MARKET ADMINISTRATOR

Sec.
999.10 Designation of market administrator.
999.11 Powers of market administrator.
999.12 Duties of market administrator.

CLASSIFICATION

999.15 Classes of utilization.
999.16 Classification of interplant movements of fluid milk products other than cream.
999.17 Classification of interplant movements of cream, and of milk products other than fluid milk products.
999.18 Responsibility of handlers in establishing the classification of milk.

DETERMINATION OF POOL PLANT STATUS

999.20 Basic requirements for pool plant status.
999.21 Additional requirements for city pool plants.
999.22 Additional requirements for country pool plants.

ASSIGNMENT OF RECEIPTS TO CLASSES

999.25 Assignment of pool handlers' receipts to Class I milk.
999.26 Assignment of pool handlers' receipts to Class II milk.
999.27 Receipts from other Federal order plants.

REPORTS OF HANDLERS

999.30 Pool handlers' reports of receipts and utilization.
999.31 Reports of nonpool handlers.
999.32 Reports regarding individual producers.
999.33 Reports of payments to producers.

999.84 Agents.

AUTHORITY: §§ 999.0 to 999.84 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 999.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Worcester, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than January 1, 1956. Any delay beyond that date will seriously threaten the orderly marketing of milk in the Worcester, Massachusetts, marketing area.

The provisions of the said order are well known to handlers, the public hearing having been held on April 18 to May 5, 1955, the recommended decision having been issued on July 29, 1955 and the final decision having been issued on September 13, 1955. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective January 1, 1956, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (See sec. 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Worcester, Massachusetts, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Worcester, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order is hereby further amended to read as follows:

DEFINITIONS

§ 999.1 *General definitions.* (a) "Act" means Public Act No. 10, 73d Congress, as amended, and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Worcester, Massachusetts, marketing area," also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns:

Auburn.
Boylston.
Clinton.
Grafton.
Holden.
Leicester.
Millbury.
Paxton.
Rutland.
Shrewsbury.
Spencer.
West Boylston.
Worcester.

(c) "Order", used with the name of a marketing area other than the Worcester, Massachusetts, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) "Month" means a calendar month.

§ 999.2 *Definitions of persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "*Secretary*" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk during any of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February, nor any dairy farmer from whom the handler received nonpool milk during such months of October through February only at a plant which met all the applicable requirements for pool plant status under this part in those months except that it was a pool plant under the Boston order.

(e) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer with respect to his operation of a farm from which milk is ordinarily delivered to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 999.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant. The term shall not apply to a dairy farmer who is a producer under the Boston, Merrimack Valley, or Springfield orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Handler" means any person who, in a given month, operates a pool plant, or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(h) "Pool handler" means any handler who operates a pool plant.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from other dairy farmers except producer-handlers.

(j) "Buyer-handler" means any handler who operates a bottling or processing plant from which more than 10 percent of his total receipts of fluid milk products, other than cream, are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) "Dealer" means any person who operates a plant at which he engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(l) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, live stock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 999.3 *Definitions of plants.* (a) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "City plant" means any plant which is located within 10 miles of the marketing area.

(c) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

(d) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

(e) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 999.20, 999.21, and 999.22 for being considered a pool plant in that month.

(f) "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

§ 999.4 *Definitions of milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 10 percent; frozen milk; reconstituted milk; and 50 percent of the quantity, by weight, of "half and half".

(b) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term also includes sour cream; frozen cream; milk and cream mixtures containing 16 percent or more of butterfat; and 50 percent of the quantity, by weight, of "half and half".

(c) "Half and half" means any fluid milk product, except concentrated milk, the butterfat content of which has been adjusted to at least 10 percent but less than 16 percent.

(d) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(e) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(f) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(g) "Outside milk" means:

(1) All milk received from dairy farmers for other markets;

(2) All fluid milk products, other than cream, received at a regulated plant from an unregulated plant, up to the total quantity of nonpool milk received at the unregulated plant; except exempt milk, receipts from New York order pool plants which are assigned to Class I milk pursuant to § 999.27, and receipts from regulated plants under the Boston, Merrimack Valley, or Springfield orders;

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a regulated plant under the Boston, Merrimack Valley, or Springfield orders, without its intermediate movement to another plant.

(h) "Concentrated milk" means the concentrated, unsterilized milk product, resembling plain condensed milk, which is disposed of to consumers for human consumption in fluid form.

(i) "Exempt milk" means milk which is received at a regulated plant: (1) In bulk from an unregulated plant, or from the dairy farmer who produced it, for processing and bottling, and for which an equivalent quantity of packaged milk is returned to the dairy farmer or to the operator of the unregulated plant during the same month; or

(2) In packaged form from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and bottling during the same month.

MARKET ADMINISTRATOR

§ 999.10 *Designation of market administrator.* The agency for the administration of this part shall be a market administrator who shall be a person se-

lected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 999.11 *Powers of market administrator.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 999.12 *Duties of market administrator.* The market administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties;

(c) Pay, out of the funds provided by § 999.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor, or to such other person as the Secretary may designate;

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(f) Promptly verify the information contained in the reports submitted by handlers; and

(g) Give each of the producers delivering to a plant as reported by the handler prompt written notice of his actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 999.15 *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 999.16, 999.17, and 999.18, the classes of utilization shall be as follows:

(a) Class I milk shall be:

(1) All fluid milk products sold, distributed, or disposed of as or in milk;

(2) All fluid milk products sold, distributed, or disposed of for human consumption as or in flavored milk, skim milk, flavored or cultured skim milk, or buttermilk;

(3) Ninety-eight percent, by weight, of the fluid milk products used to produce concentrated milk; and

(4) All fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as specified in subparagraphs (1), (2), and (3) of paragraph (a) of this section; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 999.16 *Classification of interplant movements of fluid milk products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 999.25 and 999.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant except a plant subject to the New York, Boston, Merrimack Valley, or Springfield orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the New York, Boston, Merrimack Valley, or Springfield orders, they shall be classified in the same class to which the receipt is assigned under such order, except that if moved to a plant subject to the New York order they shall be classified as Class I milk if classified in Classes I–A, I–B, or I–C under the New York order, and shall be classified as Class II milk if classified in any class other than I–A, I–B, or I–C under the New York order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the New York, Boston, Merrimack Valley, or Springfield orders, and thence to another plant, they shall be classified by applying the provisions of paragraphs (a) through (d) of this section, whichever is applicable, except that if the other plant to which such movement is made is located outside of the New England States and New York State, they shall be classified as Class I milk.

§ 999.17 *Classification of interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 999.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any nonpool milk or milk products received by a handler, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 999.20 *Basic requirements for pool plant status.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in §§ 999.21 or 999.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, Sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

(c) The plant is operated neither as the plant of a producer-handler nor as a pool plant pursuant to the provisions of the Boston, Merrimack Valley, New York, or Springfield orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity as a producer-handler. This paragraph shall not apply to any plant which met all the applicable requirements for pool plant status under this order during each of such months of October through February, except that it was operated as a pool plant pursuant to the provisions of the Boston order.

§ 999.21 *Additional requirements for city pool plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers. In determining whether a city plant has disposed of the required 10 percent of its receipts as Class I milk in the marketing area, the total quantity of fluid milk products, other than cream, moved from that plant to another city plant which is a regulated plant shall be considered as a disposition of Class I milk in the marketing area up to the quantity of Class I milk disposed of in the marketing area from the other plant.

§ 999.22 *Additional requirements for country pool plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 50 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven-months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 999.25 *Assignment of pool handlers' receipts to Class I milk.* For the purpose of computing the net quantity of each pool handler's Class I milk for which a value is to be computed pursuant to § 999.50, his receipts of milk and milk products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 999.27.

(c) Receipts of fluid milk products, other than cream and bulk skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and bulk skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to Worcester.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section in the order of the nearness of the plants to Worcester.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to Worcester.

(j) Receipts of bulk skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 999.26 *Assignment of pool handlers' receipts to Class II milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 999.25 shall be assigned to Class II milk.

§ 999.27 *Receipts from other Federal order plants.* Receipts of fluid milk products from plants regulated by other Federal orders shall be assigned as follows:

(a) Receipts of fluid milk products from regulated plants under the Boston order shall be assigned to the class in which they are classified under that order.

(b) Receipts of fluid milk products, other than cream, from regulated plants under the Merrimack Valley, or Springfield orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class II milk up to the total Class II uses of fluid milk products, other than cream, at the receiving plant.

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified and priced in Classes I–A or I–B under the New York order.

REPORTS OF HANDLERS

§ 999.30 *Pool handlers' reports of receipts and utilization.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to §§ 999.25 through 999.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 999.15 through 999.18.

§ 999.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 999.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 999.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 999.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 999.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this order;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 999.36 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 999.37 *Notices to producers.* Each pool handler shall furnish each producer from whom he receives milk with information regarding the daily weight and

composite butterfat test of the producer's milk, as follows:

(a) Within 3 days after each day on which he receives milk from the producer, the handler shall give the producer written notice of the daily quantity so received.

(b) Within 3 days after each day on sampling period for which the composite butterfat test of the producer's milk was determined, the handler shall give the producer written notice of such composite test.

MINIMUM CLASS PRICES

§ 999.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be the New England basic Class I price per hundredweight determined for each month pursuant to § 999.48 plus 52 cents.

§ 999.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to § 904.41 of the Boston order plus 5.8 cents.

§ 999.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 999.40 and 999.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the City Hall in Worcester, Massachusetts, over highways on which the highway departments of the governing States permit milk tank trucks to move, or on the railway mileage distance to Worcester from the nearest railway shipping point for such plant, whichever is shorter. The applicable zone differentials shall be those set forth in the following table, as adjusted pursuant to § 999.43.

DIFFERENTIALS FOR DETERMINATION OF ZONE PRICES

A Zone (miles)	B Class I price differentials (cents per hundredweight)	C Class II price differentials (cents per hundredweight)
Less than 40½	None	None
41 to 50	−41.5	−2.0
51 to 60	−42.5	−3.0
61 to 70	−43.0	−3.0
71 to 80	−44.5	−3.0
81 to 90	−45.0	−3.0
91 to 100	−45.5	−3.0
101 to 110	−45.5	−4.5
111 to 120	−47.0	−4.5
121 to 130	−47.0	−4.5
131 to 140	−48.0	−4.5
141 to 150	−50.5	−4.5
151 to 160	−52.0	−6.0
161 to 170	−52.0	−6.0
171 to 180	−54.5	−6.0
181 to 190	−54.5	−6.0
191 to 200	−56.0	−6.0
201 to 210	−56.0	−7.0
211 to 220	−60.0	−7.0
221 to 230	−60.5	−7.0
231 to 240	−61.5	−7.0
241 to 250	−61.5	−7.0
251 to 260	−62.5	−8.0
261 to 270	−63.0	−8.0
271 to 280	−63.5	−8.0
281 to 290	−64.5	−8.0
291 and over	−65.5	−8.0

§ 999.43 *Automatic changes in zone price differentials and other price factors.* In case the rail tariff for the transportation of milk or cream, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof, is increased or decreased, the zone price differentials set forth in the table in § 999.42 and the price factors specified in §§ 999.40 and 999.41 shall be correspondingly increased or decreased. Such adjustments shall become effective in the first complete month in which the changes in rail tariffs apply. Adjustments pursuant to paragraphs (a), (b), and (c) of this section shall be made to the nearest one-half cent per hundredweight, and adjustments pursuant to paragraph (d) of this section shall be made to the nearest one-tenth cent per hundredweight.

(a) If the rail tariff for transporting milk in 40-quart cans in carlots of 200 or more cans is changed, the differentials set forth in column B of the table shall be adjusted to the extent of the change.

(b) If the rail tariff for transporting milk in carlots in tank cars for mileage distances of 201–210 miles is changed, the price factor of 52 cents specified in § 999.40 shall be adjusted to the extent of the change.

(c) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans is changed, the differentials set forth in column C of the table shall be adjusted by the result obtained by dividing the tariff change by 9.05.

(d) If the rail tariff for transporting cream in 40-quart cans in carlots of 100–199 cans for mileage distances of 201–210 miles is changed, the price factor of 5.8 cents specified in § 999.41 shall be adjusted by the result obtained by multiplying the tariff change by 1.03 and then dividing by 9.05.

§ 999.44 *Use of equivalent factors in formulas.* If for any reason a price, index, or wage rate specified by this order for use in computing class prices and for other purposes is not reported or published in the manner described in this order, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 999.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

NEW ENGLAND BASIC PRICE FORMULA

§ 999.48 *Computation of New England basic Class I price.* The New England basic Class I price per hundredweight of milk containing 3.7 percent butterfat shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding work day shall be used.

(a) Compute the economic index as follows:

(1) Divide by 1.143 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the years 1947–49 as the base period.

(2) Using the data on national and regional per capita income payments as published by the United States Department of Commerce, establish a "New England adjustment percentage" by computing the current percentage relationship of New England per capita income to the national per capita income. Multiply by the New England adjustment percentage the quarterly figure showing the current annual rate of per capita disposable personal income in the United States as released by the United States Department of Commerce or the Council of Economic Advisers to the President. Divide the result by 15.27 to determine an index of per capita disposable income in New England.

(3) Multiply by 20 the average price per 100 pounds paid by farmers in the New England region for all mixed dairy feed of less than 29 percent protein content as reported by the United States Department of Agriculture for the month and divide the result by 0.884 to determine the dairy ration index. Compute the average, weighted by the indicated factors, of the following farm wage rates reported for the New England region by the United States Department of Agriculture: Rate per month with board and room, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and the rate per day without board or room, 26. Divide the average wage rate so computed by 1.458 to determine the wage rate index. Multiply the dairy ration index by 0.6 and the wage rate index by 0.4 and combine the two results to determine the grain-labor cost index.

(4) Divide by 3 the sum of the wholesale price index, the index of per capita disposable income in New England, and the grain-labor cost index determined pursuant to this paragraph. The result shall be known as the economic index.

(b) Compute a supply-demand adjustment factor as follows:

(1) Combine into separate monthly totals the receipts from producers for Greater Boston, Merrimack Valley, Springfield, and Worcester and the Class I milk from producers for the same markets as announced by the respective market administrators in the statistical reports for such markets for the second and third months preceding the month for which the price is being computed.

(2) Divide the four-market total of Class I producer milk by the four-market total of receipts from producers for each of the two months for which computations were made pursuant to subparagraph (1) of this paragraph.

(3) Divide each of the percentages determined in subparagraph (2) of this paragraph into the following normal Class I percentage for the respective month, multiply each result by 100, and compute a simple average of the resulting percentages. The result shall be known as the percentage of normal supply.

Month:	Normal Class I percentage
January	76.9
February	73.9
March	65.3
April	57.7
May	51.6
June	50.7
July	61.6
August	70.1
September	70.7
October	73.4
November	82.0
December	77.8

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket under the normal supply column within which the percentage computed pursuant to subparagraph (3) of this paragraph falls. If the percentage falls in an interval between brackets, the applicable bracket shall be that above the interval in which the percentage falls if the adjustment for the previous month was determined by a bracket above such interval, and shall be determined by the bracket below such interval if the adjustment for the previous month was determined by a bracket below such interval.

Percentage of normal supply:	Supply-demand adjustment factor
91.5 and under	1.12
92 to 92.5	1.10
93 to 93.5	1.08
94 to 94.5	1.06
95 to 96	1.04
97 to 98	1.02
99 to 101	1.00
102 to 103	.98
104 to 105	.96
106 to 107	.94
108 to 109	.92
110 to 111	.90
112 and over	.88

(c) The seasonal adjustment factor shall be the factor listed below for the month for which the price is being computed.

Month:	Seasonal adjustment factor
January and February	1.04
March	1.00
April	.92
May and June	.88
July	.96
August	1.00
September	1.04
October, November, and December	1.08

(d) Compute a New England basic Class I price index by multiplying the economic index determined pursuant to paragraph (a) of this section by the supply-demand adjustment factor determined pursuant to paragraph (b) of this section and multiplying the result by the applicable seasonal adjustment factor pursuant to paragraph (c) of this section.

(e) The New England basic Class I price shall be as shown in the following table:

New England basic Class I price Index times $0.0561: At least	But less than	Class I price
$4.88	$5.10	$4.99
$5.10	$5.32	5.21
$5.32	$5.54	5.43
$5.54	$5.76	5.65
$5.76	$5.98	5.87
$5.98	$6.20	6.09
$6.20	$6.42	6.31

If the New England basic Class I price index times $0.0561 is less than $4.88 or more than $6.42, the New England basic Class I price shall be determined by extending the table at the indicated rate of extension.

(f) Notwithstanding the provisions of paragraphs (a) through (e) of this section, the New England basic Class I price for November or December of each year shall not be lower than such price for the immediately preceding month.

BLENDED PRICES TO PRODUCERS

§ 999.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute in the following manner the net value of milk which is sold, distributed, or used by each pool handler:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 999.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 999.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 999.40, 999.41, and 999.42;

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 999.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 999.25 (f), (i), and (k) by the price applicable pursuant to §§ 999.41 and 999.42.

§ 999.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk computed pursuant to § 999.50 and the payments required pursuant to §§ 999.65 and 999.66 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 999.61 (b), 999.65, and 999.66 for the preceding month;

(b) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 999.61, 999.62, 999.65, 999.66, and 999.67;

(c) Deduct the amount of the plus differentials, and add the amount to the minus differentials, which are applicable pursuant to § 999.64;

(d) Divide by the total quantity of pool milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 999.61 and 999.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at city plants, shall be known as the basic blended price.

§ 999.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the differentials pursuant to § 999.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this part.

PAYMENTS FOR MILK

§ 999.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this section shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 999.61 (a).

§ 999.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 999.50, as follows:

(a) On or before the 25th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 999.63 and 999.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 999.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 999.50, as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

§ 999.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 999.61 (b), 999.65, and 999.66, the

market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 999.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 999.63 *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, the amount per hundredweight determined for the corresponding month pursuant to § 904.63 of the Boston order.

§ 999.64 *Location differentials.* The payments to be made to producers by handlers pursuant to § 999.61 (a) shall be subject to the Class I price differentials applicable pursuant to § 999.42, and to further differentials as follows: (a) With respect to milk delivered by a producer whose farm is located in Franklin, Hampshire, Hampden, Worcester, Middlesex, or Norfolk Counties in Massachusetts, or in the towns of Hinsdale, New Hampshire, or Vernon, Vermont, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 999.40 and 999.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

§ 999.65 *Payments on outside milk.* Within 23 days after the end of each month, handlers shall make payments to producers, through the market administrator, as follows:

(a) Each buyer-handler or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity at the difference between the Class I and Class II prices pursuant to §§ 999.40, 999.41, and 999.42, effective for the location or zone of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 999.40, 999.41, and 999.42, effective for the location or zone of the handler's plant.

§ 999.66 *Payments on Class I receipts from other Federal order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York, Boston, Merrimack Valley, or Springfield order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the price pursuant to §§ 999.40 and 999.42, effective for the location or zone of the plant from which the Class I milk was received, by the butterfat differential calculated pursuant to § 999.63.

(b) Adjust the zone Class I price applicable under the other Federal order (Class I–A or I–B in the case of a New York order plant) by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the other Federal order plant by the difference in price.

§ 999.67 *Adjustment of overdue accounts.* Any balance due, pursuant to §§ 999.61, 999.62, 999.65, and 999.66, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent effective the 11th day of such month.

§ 999.68 *Statements to producers.* In making the payments to producers prescribed by § 999.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 999.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 999.70 and 999.71, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 999.70 *Marketing service deduction; nonmembers of an association of producers.* In making payments to producers pursuant to § 999.61 (a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 999.71, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall, on or before the 23d day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 999.71 *Marketing service deduction; members of an association of producers.* In the case of producers who are members of an association of producers which is actually performing the services set forth in § 999.70, each handler shall, in lieu of the deductions specified in § 999.70, make such deductions from payments made pursuant to § 999.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deductions to such associations, accompanied by a statement showing the pounds of milk delivered by each producer from whom the deduction was made.

ADMINISTRATION EXPENSE

§ 999.72 *Payment of administration expense.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, receipts of exempt milk processed at a regulated plant, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

OBLIGATIONS

§ 999.73 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 999.80 *Effective time.* The provisions of this part, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 999.81.

§ 999.81 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 999.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 999.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 999.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Issued at Washington, D. C., this 22d day of December 1955, to be effective on and after January 1, 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs. 5, Amdt. 18-5]

PART 18—MAINTENANCE, REPAIR, AND ALTERATION OF AIRFRAMES, POWER PLANTS, PROPELLERS, AND APPLIANCES

MAINTENANCE, REPAIR, AND ALTERATION PRIVILEGES AND LIMITATIONS FOR COMMERCIAL OPERATORS UTILIZING AIRCRAFT OF MORE THAN 12,500 POUNDS MAXIMUM CERTIFICATED TAKE-OFF WEIGHT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1955.

One of the provisions of currently effective Part 18 of the Civil Air Regulations permits an appropriately certificated air carrier to perform maintenance in accordance with a continuous maintenance and inspection program. Part 45 of the Civil Air Regulations requires certificated commercial operators in the conduct of their operations to comply with the provisions of Part 40 or Part 42, as appropriate, with certain minor exceptions. These parts contain the certification and operation rules applicable to scheduled and irregular air carriers, respectively. However, a certificated commercial operator is not an air carrier. Consequently, the provisions of Part 18 do not permit a certificated commercial operator to exercise any of the privileges of an appropriately certificated air carrier in the maintenance of its aircraft, notwithstanding the fact that it is subject to the same certification and operation rules.

This amendment will permit a certificated commercial operator to accomplish maintenance, repairs, and alterations on its own aircraft as provided for in its continuous airworthiness maintenance and inspection program and its maintenance manual.

Interested persons have been afforded an opportunity to participate in the making of this amendment (20 F. R. 5976), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 18 of the Civil Air Regulations (14 CFR Part 18, as amended) effective January 27, 1956.

1. By amending § 18.1 by adding new subparagraph (8a) to paragraph (a) to read as follows:

§ 18.1 *Definitions.* (a) • • •

(8a) *Certificated commercial operator.* A certificated commercial operator means any person holding a commercial operator certificate as required by the provisions of Part 45 of this subchapter.

2. By amending § 18.10 by adding a new paragraph (f) to read as follows:

§ 18.10 *Persons authorized to perform maintenance, preventive maintenance, repairs, and alterations.*[3] • • •

(f) A certificated commercial operator may perform maintenance, repairs, and alterations on its own aircraft or aircraft components, including propellers and appliances, as provided for in its continuous airworthiness maintenance and inspection program and its maintenance manual.

3. By amending § 18.11 by adding a new subparagraph (5) to paragraph (a) and a new subparagraph (6) to paragraph (b) to read as follows:

§ 18.11 *Persons authorized to approve maintenance, repair, and alterations.*[4]

(a) *Maintenance, minor repairs, and minor alterations.* • • •

(5) A certificated commercial operator.

(b) *Major repairs and major alterations.* • • •

(6) A certificated commercial operator, if the work has been performed on aircraft listed in the operating certificate of that operator and has been performed in accordance with a manual, specification, or other technical data approved by the Administrator.[5]

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply secs. 601, 52 Stat. 1007, as amended, 49 U. S. C. 551)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 55-10420; Filed, Dec. 28, 1955; 8:57 a. m.]

[Reg. SR-414]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

SPECIAL CIVIL AIR REGULATION; REQUIREMENTS FOR PILOT ROUTE QUALIFICATIONS IN SCHEDULED INTERSTATE AIR CARRIER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1955.

The Board has received a petition from American Airlines, Inc. (American), dated December 2, 1955, requesting permission to qualify its pilots into airports at Pittsburgh, Pennsylvania, and Houston, Texas, by means other than those presently required by § 40.303 (c) of Part 40 of the Civil Air Regulations. This section requires in part that each pilot in command make an entry into each regular, provisional, and refueling airport into which he is to be scheduled to fly.

On January 20, 1955, the Bureau of Safety Regulation published Civil Air Regulations Draft Release No. 55–3, "Scheduled Air Carrier Pilot Airport Qualification Without Prior Take-Off and Landing." This proposal was concerned with the over-all problems of pilot airport and route qualification. Considerable emphasis was placed on recent developments of motion picture panoramic views of airports and their environs which showed excellent promise of providing an effective means for insuring pilot airport qualification.

The objective of this draft release was described in the preamble in part as follows: "The Bureau is of the opinion that, with necessary safeguards, the regulations should be amended in a manner that will encourage further research and development of the visual training aids program by various commercial sources and at the same time provide more acceptable airport qualification rules for use in the meantime. Accordingly, it would seem appropriate to permit methods of airport qualification other than physical entry, provided that such alternative methods have the approval of the Administrator." Response to the draft release was generally favorable.

Following publication of the draft release, Pan American World Airways, Inc., (PAA) petitioned the Board to permit qualification of pilots in command on the Manila-Saigon-Singapore route by means other than those presently required by Part 41 of the Civil Air Regulations which applies to air carrier operations outside the continental limits of the United States. The PAA request was based, among other things, upon the consideration that PAA had developed a comprehensive training program utilizing color motion pictures showing clear daylight views of the complete physical layout of the airports, surrounding terrain, obstructions, approaches to all runways, restricted areas, and conspicuous reference points that would be of value to the pilot. The Board was also advised that certain procedural safeguards had been agreed upon by the Civil Aeronautics Administration, PAA, and the pilots concerned. The Board considered that PAA's program would provide a timely opportunity for evaluation of a means of airport and route qualification by industry and government alike and was of the opinion that a Special Civil Air Regulation was the appropriate vehicle for permitting the controlled introduction of the new techniques. Accordingly, the Board adopted Special Civil Air Regulation No. SR–413, effective September 23, 1955, to permit PAA, with the Administrator's approval, to proceed with its plans and also to permit other Part 41 carriers to request of the Administrator similar approval should they be in a position to do so. Special Civil Air Regulation No. SR–413 terminates on September 23, 1956.

American bases its request upon considerations which are substantially the same as those which the Board found justified the issuance of SR–413. In lieu of actual entry, American proposes to familiarize its pilots with the layout, obstructions, approaches, and the relationship of approaches to obstructions at the Pittsburgh and Houston airports through the use of color slides taken from such positions in the air as will best display these features and their relationship to each other. Also, American advises that any pilot qualified by this method will be accompanied by a flying supervisor on his first scheduled flight. In addition, American states that the pilots concerned concur in this request. The Civil Aeronautics Administration has cooperated with American in the development of its proposed qualification program and is actively interested in exploring fully the possibilities offered by this medium of airport qualification.

The Board is of the opinion that American's program will provide an excellent opportunity for further evaluation of a pictorial means of airport and route qualification, and that it is appropriate to promulgate a Special Civil Air Regulation to permit the controlled introduction of the new techniques in air carrier operations conducted pursuant to Part 40 of the Civil Air Regulations. This will permit American, with the Administrator's approval, to proceed with its program and will also permit other carriers to request of the Administrator similar approval should they be in a position to do so. It should be clearly understood that this temporary regulation will not relieve any air carrier of the responsibility of showing that each pilot in command is thoroughly qualified for the routes and airports which he is scheduled to serve. Furthermore, nothing in this regulation should be construed to prejudice final action by the Board on the proposals presented in Draft Release No. 55–3.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter presented. Since it imposes no additional burden on any person, this regulation may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation, effective December 23, 1955:

Contrary provisions of Part 40 of the Civil Air Regulations notwithstanding, an air carrier conducting scheduled interstate operations may, subject to the approval of the Administrator, comply with the following provisions in lieu of the provisions of § 40.303:

(a) The air carrier shall be responsible that each pilot in command is thoroughly qualified for the route over which he is to fly aircraft in scheduled air transportation as a pilot in command. An air carrier shall not utilize a pilot as pilot in command until he has been qualified for the route on which he is to serve at least in accordance with paragraphs (b), (c), and (d) of this regulation and the appropriate instructor or check pilot has so certified.

(b) Each such pilot shall demonstrate adequate knowledge concerning the subjects listed below with respect to the route to be flown. Those portions of the demonstration pertaining to holding procedures and instrument approach procedures may be accomplished in a synthetic trainer which contains the radio equipment and instruments necessary to simulate the navigational and letdown procedures approved for use by the air carrier:

(1) Weather characteristics,
(2) Navigational facilities,
(3) Communication procedures,
(4) Type of en route terrain and obstruction hazards,
(5) Minimum safe flight levels,
(6) Position reporting points,
(7) Holding procedures,
(8) Pertinent traffic control procedures, and
(9) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional, and refueling airport approved for the route.

(c) Each such pilot shall make an entry as a member of the flight crew at each regular, provisional, and refueling airport into which he is scheduled to fly. Such entry shall include a landing and take-off. Unless impracticable, such entry shall be made under day VFR to permit the qualifying pilot to observe the airport and surrounding terrain, including any obstructions to landing and take-off. The qualifying pilot shall occupy a seat in the pilot compartment and shall be accompanied by a pilot who is qualified at the airport: *Provided*, That such entry shall not be required if the air carrier shows that pilot airport qualification can be accomplished by other means approved by the Administrator.

(d) On routes on which navigation must be accomplished by pilotage and on which flight is to be conducted at or below the level of the adjacent terrain which is within a horizontal distance of 25 miles on either side of the center line of the route to be flown, the pilot shall be familiarized with such route by not less than two one-way trips as pilot or additional member of the crew over the route under VFR weather conditions to permit the qualifying pilot to observe terrain along the route.

This regulation shall terminate September 23, 1956, unless sooner superseded or rescinded by the Board.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended, 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

SABINE RIVER, TEXAS

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.184 is hereby prescribed to govern the use and navigation of waters in the vicinity of the berthing area of the Texas Group, Atlantic Reserve Fleet, at Orange, Texas, as follows:

§ 207.184 *Sabine River at Orange, Texas; restricted area in vicinity of the Texas Group, Atlantic Reserve Fleet*—(a) *The area.* The berthing area of the Texas Group, Atlantic Reserve Fleet and the waters adjacent thereto from the mean high tide shore line to a line drawn parallel to, and 100 feet channelward from lines connecting the pier heads of Piers 1 through 12; and from a line drawn parallel to, and 200 feet upstream from, Pier 1 to a line drawn parallel to, and 100 feet downstream from, Pier 12.

(b) *The regulations.* (1) No vessel or other craft, except vessels of the United States Government or vessels duly authorized by the Commander, Texas Group, Atlantic Reserve Fleet, shall navigate, anchor, or moor in the restricted area.

(2) The regulations of this section shall be enforced by the Commander, Texas Group, Atlantic Reserve Fleet, and such agencies as he may designate.

[Regs., December 12, 1955, 800.211 (Sabine River, Tex.)—ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 44—PUBLIC PROPERTY AND WORKS

Chapter V—Library of Congress

PART 501—PROCEDURES

MISCELLANEOUS AMENDMENTS

1. The following sections are revised to read as set forth below:

§ 501.6 *Loans of library materials for the blind*—(a) *Definition of blind.* In connection with the Library's program of service under the act of March 3, 1931, as amended, entitled "An Act to Provide Books for the Blind," the blind readers entitled to service under this act shall be defined as "Residents of the United States, including the several States, Territories, Insular Possessions, and the District of Columbia, whose visual acuity is 20/200 or less in the better eye with correcting glasses, or whose widest diameter of visual field subtends an angular distance no greater than twenty degrees." The degree of such blindness shall be certified by a duly licensed physician, optometrist, or ophthalmologist. The reading materials for the blind provided under the authority of the act cited above, including sound reproducers, may be loaned not only to readers who qualify under the above definition but also to hospitals, institutions, and schools for the use of such readers.

(b) *Loans to residents.* The Division for the Blind lends books in embossed characters and talking-book records to the blind under regulations and conditions of use established by the Librarian. The area to which this service is extended is limited generally to the District of Columbia, Maryland, Virginia, North Carolina, and South Carolina. Inquiries by mail concerning this service should be addressed to: Chief, Division for the Blind, Library of Congress, Washington 25, D. C.

(c) *Loans to residents temporarily domiciled abroad.* In accordance with the definition given in paragraph (a) of this section, and the intent and purpose of the Act to Provide Books for the Blind Residents of the United States, its Territories, Insular Possessions, and the District of Columbia (2 U. S. C. 135a), the distributing libraries which have been designated by the Librarian of Congress to serve as local or regional centers for the circulation of such books (2 U. S. C. 135b) shall lend such books to blind residents of the United States, its Territories, etc., who may be temporarily domiciled outside the jurisdictions enumerated by the act. Inquiries for information relative to the prescribed procedures and regulations governing such loans should be to: Chief, Division for the Blind, Library of Congress, Washington 25, D. C.

(1) When requests for loans of the character authorized in this section are made of the Library of Congress, they shall be addressed to the Loan Division, Library of Congress, Washington 25, D. C., U. S. A.

(2) Talking book machine lending agencies are authorized to permit blind readers, residents of the United States, temporarily domiciled abroad, to take the talking book machines loaned to them when they go abroad under the same conditions as book loans.

§ 501.7 *Service of scientific materials.* Readers requesting reference and bibliographic assistance in science and technology, including aeronautics, may consult the staff on duty in the general reading rooms. Inquiries are referred when necessary to specialists in the Science Division. A current science reference collection is available to readers in the Science Room.

§ 501.8 *Reference and bibliographic assistance.* Reference and bibliographic services provided in response to requests from readers and requests received by telephone and by mail are governed by policies and regulations established by the Librarian of Congress. Readers requiring reference and bibliographic assistance in the general collections and aid in the use of the card catalogs may request help from the staff on duty in the general reading rooms. Requests for such assistance in special collections are referred to the appropriate specialized divisions.

§ 501.9 *Service of Hispanic materials.* Readers requesting reference and bibliographic assistance on Hispanic materials may consult the staff on duty in the general reading rooms. Inquiries are referred when necessary to specialists in the Hispanic Foundation.

§ 501.11 *Service of maps.* Services to readers in the Map Reading Room are provided in accordance with prescribed conditions of use of the materials in the custody of the Map Division. Special facilities are provided for use of maps. Investigators requiring materials in other collections of the Library for use with materials in the custody of the Map Division may requisition and use such materials in the Map Reading Room insofar and on such conditions as they are available for use therein.

§ 501.19 *Card distribution.* Printed catalog cards are supplied under the procedures specified in the latest edition of the Handbook of Card Distribution, supplemented by emendations in the bulletin, Cataloging Service, published by the Library of Congress, Processing Department. Cards may be ordered by author and title or by serial number. Card order slips required for this purpose are furnished to subscribers upon request. Printed catalog cards in book form are available by purchase of the publication, Library of Congress Catalog (A Cumulative List of Works Represented by Library of Congress Printed Cards)—Books: Authors and Books: Subjects.

2. The following sections are added to read as set forth below:

§ 501.20 *Exhibit of Library materials.* Certain materials in the Library's collections are available for loan to other institutions for purposes of display at free public exhibits, subject to special conditions fixed by the Library. This service is subject to limitations in terms of the character of the materials and the availability of staff to prepare materials for shipment.

§ 501.21 *Service of materials in Slavic and East European languages.* Readers requesting reference and bibliographic assistance on materials in Slavic and other East European languages may consult the staff on duty in the Slavic Room. Inquiries are referred when necessary to specialists in the Slavic and East European Division.

§ 501.22 *Service of local history and genealogy materials.* Readers requesting reference and bibliographic assistance on materials in local history and genealogy may consult the staff in the Local History and Genealogy Room.

(Sec. 1, 29 Stat. 544, 546; 2 U. S. C. 136)

L. QUINCY MUMFORD,
Librarian of Congress.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RADIO BROADCAST SERVICES

REVISION OF REGULATIONS

In the matter of revision of Part 3, Radio Broadcast Services and The Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

The Commission's Report and Order (FCC 55–1097) in the above-entitled matter, adopted 11–3–55, as published in the FEDERAL REGISTER of December 9,

1955 (20 F. R. 9041), is corrected in the following respects:

1. Section 3.111 (b) (4) (iv), previously deleted, was inadvertently included in this revision and is hereby deleted.

2. To correct a typographical error in the last sentence of § 3.79, the phrase "actual sunrise and sunrise and sunset tables" is corrected to read "actual sunrise and sunset tables".

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 55-10414; Filed, Dec. 28, 1955; 8:56 a. m.]

[Docket No. 9288; FCC 55-1260]

PART 15—INCIDENTAL AND RESTRICTED RADIATION DEVICES

INTRODUCTION

In the matter of amendment of Part 15 of the Commission's rules governing Restricted Radiation Devices.

1. On April 13, 1949, the Commission issued a Notice of Proposed Rule Making setting forth general principles on the basis of which it proposed to revise its regulations relating to restricted radiation devices (Part 15 of its rules). All persons concerned were requested to comment on these principles. To facilitate the submission of comments, the proposal was divided into four separate parts by order dated July 29, 1949.

2. The Commission issued a Further Notice of Proposed Rule Making on April 15, 1954, which contained specific regulations based on the comments received in response to the earlier proposal, on discussions with various industry groups and on developments in the radio and electronic industries during that period. Comments on this Further Notice of Proposed Rule Making were received until January 3, 1955.

3. Basically, Part 15 is intended to regulate the use of equipment that radiates radio frequency energy and which is not presently regulated either by Part 18 dealing with Industrial Scientific and Medical (ISM) devices or by the rules dealing with licensed radio stations. The devices that are now or which will be, subject to Part 15 are many and range in diversity from various electric motors and appliances to carrier current systems. They include very short range transmitters, radio receivers and a wide array of electronic equipment that have become an integral part of our daily life.

4. With the exception of the very short range transmitters, Part 15 will regulate the unwanted radiations from electrical and electronic equipment. Unwanted radiation may be described as electromagnetic energy that is radiated within the radio spectrum but which is not useful for the purpose of the radiating device. It is well established that radio communications can produce satisfactory results and be effective only so long as the desired signal is strong enough to override the interference that may be present at the receiver. Since any radiation, whether intended or unwanted, is capable of interfering with radio communication, the need for regulation of radiation, both intended and unwanted, is thus apparent. This area of regulation is becoming ever more important as the use of the radio spectrum for communications expands, through an increase in the number of stations as well as through the use of more sensitive receiving equipment, and as the number of non-radio devices producing radiation keeps growing.

5. Part 15 is based upon the rationale that if radiation can be kept within certain fixed limitations, a general assumption can be made that such operations will normally not cause interference to interstate communications or otherwise have interstate effects bringing such operations within the purview of those which must be licensed under section 301 of the Communications Act. Accordingly, it is the Commission's position that these operations, as long as they do not exceed certain radiation limitations and do not in particular situations cause actual interference, may lawfuly be carried on without a license.

6. Examination of the comments filed in the instant proceeding, as well as detailed consideration of the technical developments in the field, have convinced the Commission that the several types of devices covered by these rules require separate treatment on account of the practical problems relating to the suppression of radiation from these several types of devices in different parts of the spectrum, as well as the varying needs for interference-free reception by the licensed operations in the several bands. We have been constrained, therefore, to expand further the particularization of methods of treating different devices which was previously anticipated in Subpart B of the rules as proposed in the April 15, 1954 Further Notice of Proposed Rule Making.

7. In view of the necessity of putting these rules into effect at as early a date as possible, we have determined that finalization of rules for those devices upon which agreement can now be reached should not be made to await completion of other sections of the rules dealing with devices with respect to which substantial problems still remain unresolved. Thus, while it is presently contemplated that the rules covering Part 15 will be broken down into some eight substantive Sub-parts,[1] this Report will confine itself to Incidental Radiation Devices and Radio Receivers. In addition to the Sub-parts relating to those devices, however, the rules as presently promulgated, will contain a general introductory Sub-part A, to which will be attached, as a temporary expedient, the substance of the present Part 15 which will, of course, continue to govern those devices for which special rules have not yet been adopted.

[1] These will cover:
1. Incidental radiation devices.
2. Radio receivers.
3. Carrier current communication systems.
4. Aural broadcast distribution systems.
5. Community Antenna television systems.
6. Low power communication devices.
7. Test equipment.
8. Detecting equipment.

GENERAL RULES

8. Subpart A of Part 15 contains rules applicable generally to the operation of all incidental and restricted radiation devices. Included are definitions of terms used, and provisions with respect to the operation of incidental and restricted radiation devices which do not conform to the radiation limits specified in Part 15. The latter category of devices may not be operated except in accordance with a license issued pursuant to section 301 of the Communications Act. With the exception of unique cases, a person seeking a license for a device which cannot operate in accordance with Part 15 will first be required to secure the establishment of a licensed service through appropriate amendment of the Commission's Rules.

INCIDENTAL RADIATION DEVICES

9. Concerning Incidental Radiation Devices, we are faced with the fact that there are an almost infinite variety of devices, as well as a lack of any detailed knowledge of what limitations would be necessary to eliminate the probability of harmful interference from these devices to interstate communications or what limitations are practical of achievement. This consideration renders any establishment of fixed standards at this time unfeasible. However, in view of the infrequent and intermittent nature of most of the interference actually observed as emanating from this source, we believe that the matter can and should now be handled through the adoption of a simple rule to the effect that the operation of incidental radiation devices must not cause harmful interference, and that, where they do cause harmful interference, the operators of the particular devices must promptly take steps to eliminate the interference.

RADIO RECEIVERS

10. Subpart A of the proposed rules contained general provisions for the operation of restricted radiation devices, including radio receivers. The limitations to be imposed on these devices were expressed in terms of the maximum radiated power or the maximum field strength. The proposal contained two tables of field strength limitations; table one was to become effective at the time the rules were finalized and table two containing more stringent limitations was to become effective June 30, 1956. As proposed the power or field strength limitations would be applicable only to TV and frequency modulation broadcast receivers and land mobile receivers operating above 25 Mc until July 1, 1956, after which date, the limitations would be applicable to all receivers. Subpart B of the proposal would have required the certification of receivers operating above 25 Mc based on the determination that such receivers meet the proposed limitations.

11. In general, the rules which the Commission is now finalizing with respect to radio receivers are applicable only to receivers which operate (tune) between 30 and 890 Mc. Radio receivers operating below 30 Mc have been exempted from most of the requirements on the basis of the finding that the record in this proceeding does not support the need for specific radiation limits for these receivers. Similarly, receivers operating above 1000 Mc are exempt from most of the requirements since the record shows a lack of satisfactory standard measurement techniques and insufficient knowledge on which specific radiation limits could be based. However, it should be emphasized that all radio receivers, no matter on what frequency they may operate, are subject to the general requirement that they shall not cause harmful interference.

12. The attached rules retain the same field strength limitations as were contained in the proposal for radiation on frequencies between 25–1000 Mc. However, the rules we are now adopting do not contain specific field strength limitations for radiation on frequencies below 25 Mc and above 1000 Mc. Specific limitations for those frequency ranges have been deleted because the record indicates that there are presently no adequate standard methods for measuring receiver radiation in those bands. For the frequencies below 25 Mc the Commission has substituted a line voltage limitation for the field strength limitation since it has determined that there are practical standard methods for measuring line voltage limitations on frequencies below 25 Mc, and that this measurement will give an adequate indication of the capability of the receiver for causing interference on those frequencies. The rules do not establish any radiation limitations on frequencies above 1000 Mc, and receivers in that range will be subject only to the non-interference requirement.

13. The Commission has determined that the second more restrictive set of limitations which would have gone into effect at some specified later date should not be adopted at this time. On the basis of the present record, the Commission is unable to decide the precise radiation limitations which should or could be made applicable to radio receivers at some later date. Therefore, the Commission is adopting only one set of limitations at this time, and will continue to study the problem with a view to adopting more stringent limitations as the need arises.

14. The attached rules contain provisions designed to clarify the requirements for certification of radio receivers. In addition they provide that all receivers operating in the range 30–890 Mc manufactured after May 1, 1956, shall comply with all of the requirements applicable to receivers with certain exceptions. Compliance by television receivers with the radiation limits is deferred for a specified period. Compliance is also deferred for the pocket type of superregenerative receiver used in one-way signalling systems. However, the rules contain specific dates on which these requirements must be met by television receivers and by the pocket receivers.

CONCLUSION

15. The Commission has determined that the public interest will be served by adopting the attached rules, which include general rules applicable to all restricted and incidental radiation devices as well as rules specifically governing incidental radiation devices and radio receivers. As indicated above, the Commission has found that the rules with respect to the other types of restricted radiation devices require further study. Further orders with respect to the other categories of devices will be issued by the Commission at such times as the problems involved are resolved.

16. Authority for the adoption of the attached rules is contained in sections 4 (i), 301 and 403 (f) of the Communications Act of 1934, as amended.

17. *It is ordered*, That effective February 1, 1956, Part 15 of the Commission's rules and regulations is amended to read as set forth below.

Adopted: December 21, 1955.

Released: December 23, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

Subpart A—General

Sec.
15.1 Basis of this part.
15.2 Scope of this part.
15.3 General condition of operation.
15.4 General definitions.
15.5 Equipment available for inspection.
15.6 Information required by the Commission.
15.7 General requirement for restricted radiation devices.

Subpart B—Incidental Radiation Devices

15.31 Operating requirements.

Subpart C—Radio Receiver

15.61 Scope of this subpart.
15.62 Radiation interference limits.
15.63 Measurement procedure.
15.64 Certification of radio receivers.
15.65 Information to be filed with Commission.
15.66 Identification of certificated receivers.
15.67 Operation of radio receivers aboard a ship.
15.68 Effective date of this subpart.
15.69 Interference from a radio receiver.

AUTHORITY: §§ 15.1 to 15.69 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 301, 403; 48 Stat. 1081, 66 Stat. 719; 47 U. S. C. 301, 403.

SUBPART A—GENERAL

§ 15.1 *Basis of this part.* Section 301 of the Communications Act of 1934, as amended, provides for the control by the Federal Government over all the channels of interstate and foreign radio communication and further provides, in part, that no person shall use or operate apparatus for the transmission of energy, communications or signals by radio when the effects of such operation extend beyond state lines or cause interference with the transmission or reception of energy, communications, or signals, of any interstate or foreign character by radio, except under and in accordance with the Communications Act and a license granted under the provisions of that act. Restricted and incidental radiation devices emit radio frequency energy on frequencies within the radio spectrum and constitute a source of harmful interference to authorized radio communication services operating upon the channels of interstate and foreign communication unless precautions are taken which will prevent the creation of any substantial amount of such interference.

§ 15.2 *Scope of this part.* (a) This part contains rules that set forth the conditions under which the operation of incidental and restricted radiation devices is considered to fall outside the purview of section 301 of the Communications Act which specifies when a station license is required as a condition for lawful operation.

(b) No incidental or restricted radiation device which fails to conform to the provisions of this part, or which causes harmful interference, may be operated without a station license. Unless such devices may be operated in accordance with the provisions of some other part of this chapter (see particularly Part 19, Citizens Radio Service), persons wishing to operate such devices in a manner inconsistent with this part will be required to first secure an amendment of the Commission's rules to establish a licensed service providing for such operation and setting forth the technical and other limitations thereof; provided that in appropriate circumstances, when such a petition for rule making has been filed, the Commission may consider, prior to final action thereon, applications for Special Temporary Authorizations to operate stations on a developmental basis where it can be shown that such temporary operation would be in aid of a final determination as to whether the proposed rule should be adopted, and that such temporary operation would otherwise be in the public interest; and provided further that the Commission will, in exceptional situations, consider individual applications for licenses to operate incidental or restricted radiation devices, not conforming to the provisions of this part, where it can be shown that the proposed operation would be in the public interest, that it is for a unique type of station or for a type of operation which is incapable of establishment as a regular service, and that the proposed operation cannot feasibly be conducted under these rules.

§ 15.3 *General condition of operation.* Persons operating restricted or incidental radiation devices shall not be deemed to have any vested or recognizable right to the continued use of any given frequency, by virtue of prior registration or certification of equipment. Operation of these devices is subject to the conditions that no harmful interference is caused and that interference must be accepted that may be caused by other incidental or restricted radiation devices, industrial, scientific or medical equipment, or from any authorized radio service.

§ 15.4 *General definitions*—(a) *Radio frequency energy.* Electromagnetic en-

ergy at any frequency in the radio spectrum between 10 kc and 3,000,000 Mc.

(b) *Harmful interference.* Any radiation or induction which endangers the functioning of a radio navigation service or of a safety service or obstructs or repeatedly interrupts a radio service operating in accordance with the regulations in Part 2 of this chapter.

(c) *Incidental radiation device.* A device that radiates radio frequency energy during the course of its operation although the device is not intentionally designed to generate radio frequency energy.

(d) *Restricted radiation device.* A device in which the generation of radio frequency energy is intentionally incorporated into the design and in which the radio frequency energy is conducted along wires or is radiated, exclusive of transmitters which require licensing under other parts of this chapter and exclusive of devices in which the radio frequency energy is used to produce physical, chemical or biological effects in materials and which are regulated under the provisions of Part 18 of this chapter.

§ 15.5 *Equipment available for inspection.* Any equipment or device subject to the provisions of this part together with any license, certificate, notice of registration or any technical data required to be kept on file by the operator of the device shall be made available for inspection by Commission representatives upon reasonable request.

§ 15.6 *Information required by the Commission.* The owner or operator of any device subject to this part shall promptly furnish to the Commission or its representative such information as may be requested concerning the operation of the device including a copy of any field strength measurements made by or for the operator of the device.

§ 15.7 *General requirement for restricted radiation devices.* Unless regulated under some other subpart of this part, any apparatus which generates a radio frequency electromagnetic field functionally utilizing a small part of such field in the operation of associated apparatus not physically connected thereto and at a distance not greater than $\frac{157{,}000}{F(kc.)}$ feet $\left(\text{equivalent to } \frac{\lambda}{2\pi}\right)$ need not be licensed provided:

(a) That such apparatus shall be operated with the minimum power possible to accomplish the desired purpose.

(b) That the best engineering principles shall be utilized in the generation of radio frequency currents so as to guard against interference to established radio services, particularly on the fundamental and harmonic frequencies.

(c) That in any event the total electromagnetic field produced at any point a distance of $\frac{157{,}000}{F(kc.)}$ feet $\left(\text{equivalent to } \frac{\lambda}{2\pi}\right)$ from the apparatus shall not exceed 15 microvolts per meter.

(d) That the apparatus shall conform to such engineering standards as may from time to time be promulgated by the Commission.

(c) That in the event harmful interference is caused, the operator of the apparatus shall promptly take steps to eliminate the harmful interference.

SUBPART B—INCIDENTAL RADIATION DEVICES

§ 15.31 *Operating requirements.* An incidental radiation device shall be operated so that the radio frequency energy that is radiated does not cause harmful interference. In the event that harmful interference is caused, the operator of the device shall promptly take steps to eliminate the harmful interference.

SUBPART C—RADIO RECEIVERS

§ 15.61 *Scope of this subpart.* Radio receivers come within the scope of this subpart insofar as they are restricted radiation devices and generate and radiate radio frequency energy. Typically, these rules apply to superheterodyne receivers in which the oscillator may produce harmful interference. As another example, these rules also regulate television broadcast receivers with respect to the radio frequency energy which is generated by the horizontal sweep circuits and which may cause interference.

§ 15.62 *Radiation interference limits.* The radiation from all radio receivers that operate (tune) in the range 30 to 890 Mc, including frequency modulation broadcast receivers and television broadcast receivers, manufactured after the effective date of this subpart shall not exceed the following field strength limits at a distance of 100 feet or more from the receiver:

Frequency of radiation (Mc)	Field strength (uv/m)
0.45 up to and including 25	See Note 1.
Over 25 up to and including 70	32.
Over 70 up to and including 130	50.
130–174	50–150 (linear interpolation).
174–260	150.
260–470	150–500 (linear interpolation.
470–1000	500.

NOTE 1: Pending the development of suitable measurement techniques for measuring the actual radiation in this band the interference capabilities of a receiver in this band will be determined by the measurement of radio frequency voltage between each power line and ground at the power terminals of the receiver. The voltage so measured shall not exceed 100 uv at any frequency between 450 kc and 25 Mc inclusive.

NOTE 2: The Commission will review this table from time to time with a view to reducing the radiation limits as the radio art develops.

NOTE 3: See also § 15.69.

§ 15.63 *Measurement procedure.* (a) Any measurement procedure acceptable to the Commission may be used to show compliance with the requirements of this subpart. A detailed description of the proposed measurement procedure, including a list of the test equipment to be used, shall be submitted to the Commission when requesting a determination regarding the acceptability of the proposed measurement procedure.

(b) The following methods of measurement are considered acceptable procedures for certification of receivers pursuant to § 15.64:

(1) Institute of Radio Engineers Standard 51 IRE 17S1 for radiation measurements.

(2) Institute of Radio Engineers Standard 54 IRE 17.S1 for powerline interference measurements for television broadcast receivers, when the standard is modified by substituting a line stabilization network having the electrical constants described in MIL–I–16910A, "Military Specification For Interference Measurement" available from the Commanding Officer, Naval Supply Depot, Scotia 2, New York.

(c) In the case of measurements in the field, radiation in excess of 15 uv/m at any frequency between 450 kc and 25 Mc at the border of the property and more than 15 feet from any power line crossing this border under the control and exclusive use of the person operating or authorizing the operation of the receiver will be considered an indication of noncompliance with the radiation requirements of this subpart.

§ 15.64 *Certification of radio receivers.* (a) No radio receiver manufactured after the effective dates of this subpart that operates in the range 30 to 890 Mc, including frequency modulation broadcast receivers and television broadcast receivers, shall be operated without a station license unless it has been certificated to demonstrate compliance with the radiation interference limits in this subpart.

(b) The owner or operator need not certificate his own receiver, if it has been certificated by the manufacturer or the distributor.

(c) Certification made by a manufacturer or the distributor shall be based on tests made on receivers actually produced for sale. Tests shall be performed on a sufficient number of production units to assure that all production units comply with the radiation limitations of this subpart.

(d) The certificate may be executed by an engineer skilled in making and interpreting field strength measurements.

(e) The certificate shall contain the following information:

(1) Name of manufacturer or distributor of receiver,

(2) Model number,

(3) Brief description of receiver, including tuning range, type of circuit, purpose for which used (as broadcast, aircraft, etc.),

(4) Brief statement of the measurement procedure used,

(5) Date the measurements were made,

(6) A summary of the data obtained,

(7) A statement certifying that on the basis of measurements made, the radio receiver is capable of complying with the requirements of this part under normal operation with the usual maintenance,

(8) The name and address of the certifying engineer, and name and address of his employer, if any, and

(9) Date of the certificate.

(f) The certificate shall be retained by the owner, manufacturer or the distributor for a period of five years, and shall be made available upon reasonable request to an authorized Commission representative, or photostat furnished by mail. (See § 15.65 for filing requirement with FCC).

§ 15.65 *Information to be filed with Commission.* (a) Each manufacturer, distributor or other certifying agency that issues certifications pursuant to this subpart shall file with the Commission a description of its measurement facilities used for certification.

(b) A copy of each certificate prepared by a manufacturer, distributor or certifying agency shall be filed with the Commission at the time the certificate is prepared.

§ 15.66 *Identification of certificated receivers.* Each certificated receiver shall be identified by a distinctive seal or label, which may be a part of the name plate and which shall state that the receiver has been certificated for compliance with the requirements of this subpart. The seal or label shall be permanently attached to the receiver and shall be readily visible for inspection by prospective purchasers.

§ 15.67 *Operation of radio receivers aboard a ship.* In addition to meeting the requirements of this part, a radio receiver operated aboard a ship shall also meet the requirements of Part 8 of this chapter.

§ 15.68 *Effective date of this subpart.* (a) Except as provided in paragraphs (b), (c) and (d) of this section, all radio receivers that operate (tune) in the range 30 to 890 Mc, including frequency modulation broadcast receivers and television broadcast receivers, manufactured after May 1, 1956, shall comply with the requirements of this subpart.

(b) The radiation interference limits above 260 Mc and the certification requirements with respect thereto shall be met by all new models of UHF television broadcast receiver chassis placed in production after December 31, 1956, and by all UHF television broadcast receivers manufactured after June 30, 1957.

(c) The power line interference limit and the certification requirement with respect thereto shall be met by all new models of television broadcast receiver chassis placed in production after June 30, 1956, and by all television broadcast receivers manufactured after December 31, 1956.

(d) The radiation interference limits and the certification requirement with respect thereto shall be met by all pocket type superregenerative receivers used in the one-way signalling services as defined in Part 6 of this chapter which are manufactured after December 31, 1956.

§ 15.69 *Interference from a radio receiver.* The operator of a radio receiver, regardless of tuning range, date of manufacture, or of certification, which causes harmful interference shall promptly take steps to eliminate the harmful interference.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 1]

[192-31.1]

EAGLE AND HYDER, ALASKA

NOTICE OF PROPOSED REVOCATIONS OF DESIGNATIONS AS CUSTOMS PORTS OF ENTRY

DECEMBER 22, 1955.

Notice is hereby given that, pursuant to the authority vested in the President by section 1 of the act of August 1, 1914, 38 Stat. 623 (19 U. S. C. 2), and delegated to the Secretary of the Treasury by the President by Executive Order No. 10289, of September 17, 1951 (3 CFR, 1951 Supp., Ch. II), it is proposed to revoke the designations of Eagle and Hyder, Alaska, as customs ports of entry in Customs Collection District No. 31 (Alaska); and it is further proposed to amend section 1.1 of the Customs Regulations (19 CFR 1.1) by deleting the names "Eagle" and "Hyder" from the list of ports of entry in said district.

This action will be in the interest of efficient administration, as delays in depositing and accounting for collections, and various monthly reports, etc., required to be prepared by customs officers at ports of entry, will be eliminated. Although the volume of business at these ports has decreased materially, the Commissioner of Customs will designate such places as customs stations, and the customs officers will be retained to handle such business as may arise.

This notice is published pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). Data, views, or arguments with respect to the proposed action may be addressed to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., in writing. To assure consideration of such communications, they must be received in the Bureau of Customs not later than 20 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10409; Filed, Dec. 28, 1955; 8:54 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 27, 28]

COTTON

OFFICIAL STANDARDS OF THE UNITED STATES

Notice is hereby given, in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that the Agricultural Marketing Service is considering the amendment of §§ 27.202, 27.203, 27.204, and 28.115 of the official cotton standards for length of staple and the regulations relating to the official cotton standards for grade and length of staple (7 CFR 27.202, 27.203, 27.204, and 28.115) pursuant to authority contained in section 6 of the United States Cotton Standards Act (42 Stat. 1518; 7 U. S. C. 56) and section 4854 of the Internal Revenue Code of 1954 (68A Stat. 580; 26 U. S. C., Supp. II, 4854).

The primary purposes of the proposed amendments are to (1) eliminate the staple designations "¾" and "Below ¾" and establish the designation "Below $^{13}/_{16}$," (2) eliminate the official standard for ¾ inch staple length, and (3) eliminate the practical forms for the staple lengths $1^{9}/_{32}$, $1^{11}/_{32}$, and 1½ inches for upland cotton.

The proposed amendments are as follows:

1. Delete from § 27.202 the designations "Below ¾; ¾;" and substitute therefor the designation "Below $^{13}/_{16}$;"

2. Delete from the first clause of § 27.203 the designations "¾," "$1^{9}/_{32}$," "$1^{11}/_{32}$," and "1½."

3. Amend § 27.204 to read as follows:

§ 27.204 *Over $^{13}/_{16}$ inch staple.* Cotton which is more than thirteen-sixteenths of an inch in length of staple, but is not exactly one of the measurements specified in § 27.202, shall be designated by that one of such measurements which comes nearest under its true measurement.

4. Amend the second and third undesignated paragraphs of § 28.115 (a) by inserting the words "Good Middling" immediately under the headings "White Grades."

5. Delete from § 28.115 (a) the terms "¾ inch," "$1^{9}/_{32}$ inches," "$1^{11}/_{32}$ inches," and "1½ inches" listed under the heading "American Upland Cotton" with reference to standards for length of staple.

Any interested person who wishes to submit written data, views or arguments concerning the proposed amendments may do so by filing them with the Director, Cotton Division, Agricultural Marketing Service, Washington 25, D. C., not later than 30 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 23d day of December 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[7 CFR Part 51]

INSPECTION AND CERTIFICATION OF FRUITS, VEGETABLES AND OTHER PRODUCTS[1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision of existing regulations (7 CFR, Part 51) governing the inspection and certification of fruits, vegetables, and other products, issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C., 1621 et seq.). The proposed revision will implement Public Law 272, 84th Congress, 1st Session, approved August 9, 1955, amending the aforesaid act, by designating the certificates, memoranda, marks and other identifications and devices for making such marks or identifications, with respect to inspection, class, grade, quality, size, or condition, that are official for the purpose of said act. The proposed revision also changes the definition of the statutory authority under which inspection and certification are conducted.

All persons who desire to submit written data, views, or arguments in connection with the proposed revision should file the same in duplicate with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 10 days after publication hereof in the FEDERAL REGISTER.

1. Delete paragraph (a) under § 51.3 *Terms defined*, and insert in lieu thereof the following:

(a) "Act" means the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) or any other Act of Congress conferring like authority.

2. Insert new § 51.3a as follows:

§ 51.3a. *Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.* Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

(a) "Official certificate" means any form of certification, either written or printed, including those defined in § 51.3, used under this part to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspection, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, size, quantity, or condition specified in this Part of any symbol, stamp, label, or seal indicating that the product has been officially graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

Done at Washington, D. C., this 23d day of December 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator for Marketing Services.

[F. R. Doc. 55-10423; Filed, Dec. 28, 1955; 8:57 a. m.]

[1] Among such other products are the following: raw nuts; Christmas trees and greens; flowers and flower bulbs; and onion sets.

[7 CFR Part 941]

[Docket No. AO-101-A20]

MILK IN CHICAGO, ILL., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Chicago, Illinois, on July 5-8, 1955, pursuant to notice thereof which was issued on June 14, 1955 (20 F. R. 4256) and June 28, 1955 (20 F. R. 4690).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on November 29, 1955 (20 F. R. 8854), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision, and notice of opportunity to file written exception thereto.

The material issues on the record of the hearing were:

1. Whether Kankakee, Will County, and Lake County, all in Illinois, or portions thereof, should be added to the marketing area;

2. Class I price differentials;

3. General changes in accounting for milk, including use of a skim milk and butterfat system of accounting;

4. Special classification and price for milk used in the manufacture of American Cheese;

5. Revision of differential to producers with respect to milk received in the marketing area;

6. Revision of the base-excess method of paying producers, including changes in the calculation of bases, changes in base rules, and calculation of base and excess prices;

7. Allocation of class utilization to own farm production;

8. Application of the 70-cent differential added in the case of bulk Class I and Class II milk moved outside the surplus milk manufacturing area;

9. Pool plant approval on the basis of shipments to plants distributing in the marketing area; and

10. Establishment of order prices at locations where milk is transferred from the tank truck in which it was picked up at the producer's farm to another tank truck.

This decision deals only with the bases assigned for the months of March, April, May and June 1956 to producers who relinquish earned bases, or have not earned a base, and base rules. All other issues on the record are reserved for a further decision.

Findings and conclusions. The following findings and conclusions on the material issues are based upon evidence contained in the record of the hearing:

Calculation of bases. The amount of base milk for producers who have not earned a base, or who relinquish an earned base, should be 65 percent of deliveries in March 1956, 60 percent of deliveries in April 1956, 55 percent in May and June 1956. Producers should be allowed until January 15 to elect the option of relinquishing an earned base.

Order provisions allow a producer until December 31 of any year to decide whether he wishes to retain his earned base or take a base calculated the same as for a new producer. For the 1955 season, a new producer's base was calculated for the several months as follows: for March, 65 percent of his average daily deliveries in the month, for April, 60 percent, and for May and June, 55 percent. Beginning with 1956, new producer bases would be calculated as 10 percent less than the average percentage of base milk calculated for the same month of the previous year with respect to producers with earned bases.

Testimony generally favored continuation of use of optional bases through

the 1956 base-payment period. In this connection, since producers have had a year of experience in adjusting their production to the base-excess plan, it is possible there will be less cause for relinquishing earned bases than last season. However, the manner in which optional bases would be computed for the March-June 1956 period would appear to be more liberal than used in the prior season. Since this condition would tend to lessen the effectiveness of the base plan, it is preferable to retain the fixed percentages of deliveries for the 1956 base-paying period to serve as the method for computing an optional base.

It was proposed that the period for allowing a producer to relinquish an earned base be extended from December 31, this year, as now provided, to January 15, 1956. Such an extension would give producers additional time to submit a notice of adopting new producer status, without interfering with the operation of administration of the base-excess plan. It is concluded that this change should be adopted.

Base rules. The following changes should be made in base rules:

Producers with more than one farm should be allowed to establish a base for each farm and relinquish a base for one farm without doing so for other farms. If more than one producer ships from a farm, one base should be computed for the farm, and be allocated to each producer according to his share in the sale of milk from the farm, unless one of the producers has a base earned while he was on another farm and requests he be allowed to retain such base. Provision should be made for division of a jointly held base. Provision should be made also to allow a producer to transfer credit towards establishment of a base in the same manner as he may transfer a base. The base rules should not be amended to allow a base to be earned on milk delivered to nonpool plants.

Testimony indicated that a number of producers with multiple farms found themselves at a disadvantage in that they could not relinquish a base and take the option of new producer status under the same circumstances as producers with a single farm. Present rules require that a producer with more than one farm must relinquish bases earned on all his farms if he relinquishes the base on one farm. It was testified there would be little danger of manipulation if a producer were allowed to elect the optional base on each farm separately. The proposed change is adopted in the proposed amendment attached hereto.

An additional base rule was proposed by the Dairy Division with respect to farms where there are two or more producers. Under the proposal, each producer would share in the base, during March, April, May, and June, in the same proportion each month as he shares in the milk deliveries. In exceptions, request was made to allow producers who have earned bases on separate farms to retain their individual bases if they join in a combined operation. Such a provision would give desirable flexibility when two producers with substantially variant earned bases wish to combine their operations. These provisions will serve to facilitate operation of the base plan and should be adopted. Another provision proposed by the Dairy Division would allow producers who have an interest in a jointly held base and cease producing milk from the same farm, to divide the base upon notice to the market administrator within the month in which the division is effective. It would be provided, however, that if the producers holding such a joint base do not notify the market administrator of the terms of division, it shall be divided in the same proportion as they shared in milk deliveries during the base-making period, except that in the case of a partnership, the base shall be divided equally among the producers. This provision appears to be in accord with the experience in administration of the base plan, and will provide a specific method of division of bases.

An additional provision should be included to allow transfers of credit towards an earned base by a producer who discontinues shipping milk during the base-earning period.

It was proposed that a producer who has not earned a base on this market be allowed a base computed on his record of deliveries to another market.

Testimony in opposition to this proposal stressed the danger that dairy farmers, who in the short season sell in secondary markets where no base plans exist, might take advantage of such a provision to exploit the producer pool in this market during the base-payment months. There does not appear to be a real need for such a provision, inasmuch as a base allowance is provided for new producers.

Rulings on exceptions. In arriving at the findings and conclusions included in this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

Determination of representative period. The month of September 1955 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Chicago, Illinois, marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

Issued at Washington, D. C., this 22d day of December 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendment thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 941.69 (a) (1) delete the words "December 31" and insert instead the words "January 15 preceding the months in which the base applies,".

2. In § 941.69 (a) (2) delete subdivision (ii) and substitute the following:

(ii) Determine the percentage that base milk was of the remaining pounds, and subtract ten, except that for the months of March, April, May and June 1956 the percentages computed pursuant to this subdivision shall be as follows:

Month:	Percentage
March 1956	65
April 1956	60
May 1956	55
June 1956	55

3. Delete § 941.69 (b) (3) and substitute the following:

(3) Where two or more producers deliver milk from the same farm, the market administrator shall compute one base for each such farm, which base shall be held jointly in the names of the producers, and during March, April, May and June, each producer having an interest in a jointly held base shall share the base during each delivery period in the same proportion as he shares in the milk deliveries in such delivery period: *Provided*, That if the producers have earned bases separately, one or more of which was earned on another farm, each producer may retain his individual base if application is made in writing to the market administrator postmarked not later than the last day of the first month during which the base is to apply.

4. Renumber § 941.69 (b) (4) as § 941.69 (b) (5) and insert a new subparagraph (4) as follows:

(4) When two or more producers holding a joint base cease delivering milk from the same farm, the base may be divided among the producers having an interest in such base by notification in writing to the market administrator postmarked not later than the last day of the month during which the division is to be effective, such notification to specify the terms of division of base and bearing the signatures of all interested producers: *Provided*, That in the event producers do not notify the market administrator of their agreed terms of division of base by letter postmarked not later than the last day of the month during which the division is effective, the market administrator shall divide the base among the producers in the same ratio as they shared in the milk deliveries during the base-making period, or if the base is held in the name of a partnership, it shall be divided equally among the interested producers.

5. In § 941.69 (b) insert subparagraph (6) as follows:

(6) Subject to the provisions set forth in subparagraphs (1) and (2) of this paragraph, a producer who discontinues shipping milk to a pool plant during September, October or November may transfer to another producer credit for milk deliveries for base making purposes.

Commodity Stabilization Service

[7 CFR Part 728]

WHEAT

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO MARKETING QUOTAS, NATIONAL, STATE, AND COUNTY ACREAGE ALLOTMENTS, AND FORMULATION OF REGULATIONS PERTAINING TO FARM ACREAGE ALLOTMENTS AND COUNTY NORMAL YIELDS FOR THE 1957 CROP

Pursuant to the authority contained in applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1332, 1333, 1334, 1335), the Secretary of Agriculture is preparing to determine whether marketing quotas are required to be proclaimed for the 1957 crop of wheat, to determine and proclaim the national acreage allotment for the 1957 crop of wheat, to apportion among States and counties the national acreage allotment for the 1957 crop of wheat, and to formulate regulations for establishing farm acreage allotments and county normal yields for the 1957 crop of wheat.

Section 335 of the act provides that whenever in the calendar year 1956 the Secretary determines (1) that the total supply of wheat for the 1956–57 marketing year will exceed the normal supply for such marketing year by more than 20 per centum, or (2) that the total supply of wheat for the 1955–56 marketing year is not less than the normal supply for such marketing year and that the average farm price for wheat for three consecutive months of such marketing year does not exceed 66 per centum of parity, the Secretary shall, not later than May 15, 1956, proclaim such fact and a national marketing quota shall be in effect on the marketing of wheat during the 1957–58 marketing year.

Section 333 of the act provides that the national acreage allotment shall be that acreage which the Secretary determines will, on the basis of the national average yield for wheat, produce an amount thereof adequate, together with the estimated carry-over at the beginning of the marketing year for such crop and imports, to make available a supply for such marketing year equal to a normal year's domestic consumption and exports plus 30 per centum thereof; but such allotment for any year shall not be less than 55 million acres. Section 332 of the act requires that the Secretary, not later than May 15, 1956, shall ascertain and proclaim national acreage allotment for the 1957 crop of wheat.

As defined in section 301 of the act, for the purpose of these determinations, "total supply" for any marketing year is the carryover of wheat for such marketing year, plus the estimated production of wheat in the United States during the calendar year in which such marketing year begins and the estimated imports of wheat into the United States during such marketing year; "normal supply" for any marketing year is the estimated domestic consumption of wheat for the marketing year ending immediately prior to the marketing year for which normal supply is being determined, plus the estimated exports of wheat for the marketing year for which normal supply is being determined, plus 20 per centum of such consumption and exports, with such adjustments for current trends in consumption and for unusual conditions as deemed necessary; "normal year's domestic consumption" of wheat is the yearly average quantity of wheat that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption; "normal year's exports" of wheat is the yearly average quantity of wheat produced in the United States that was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports; "marketing year" for wheat is the period July 1 to June 30; and "national average yield" of wheat is the national average yield of wheat for the ten calendar years preceding the year in which such national average yield is used, adjusted for abnormal weather conditions and for trends in yields.

Section 334 (a) of the act requires that the national acreage allotment of wheat for the 1957 crop, less a reserve of not to exceed one per centum thereof, be apportioned among the several States on the basis of the acreage seeded for the production of wheat during the ten calendar years 1946–1955 (plus, in applicable years, the acreage diverted under agricultural adjustment and conservation programs), with adujstments for abnormal weather conditions and trends in acreage during such period. Section 334 (b) of the act requires that the State acreage allotment of wheat for the 1957 crop, less a reserve of not to exceed 3 per centum thereof, be apportioned among the counties in the State on the basis of the acreage seeded for the production of wheat during the ten calendar years 1946–1955 (plus, in applicable years, the acreage diverted under agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such period and for the promotion of soil-conservation practices.

Section 335 (e) of the act provides that if for any marketing year, the acreage allotment for wheat for any State is twenty-five thousand acres or less the Secretary in order to promote efficient administration of the act and the Agricultural Act of 1949 may designate such State as outside the commercial wheat-producing area for such marketing year. The acreage allotment for any other State shall not be increased by reason of such designation.

Section 334 (c) of the act requires that the allotment to the county be apportioned among the farms within the county on the basis of past acreage of wheat, tillable acres, crop-rotation practices, type of soil, and topography, and provides that not more than 3 per centum of the State allotment be apportioned to farms on which wheat has not been planted for harvest during any of the three marketing years immediately preceding the marketing year in which the allotment is made.

Section 301 (b) (13) of the act provides for the determination of county normal yields of wheat by taking the average yields per acre of wheat for the county during the ten calendar years immediately preceding the year in which such normal yield is determined, adjusted for abnormal weather conditions and trends in yields. Provision is also made that if for any year during such 10-year period the data are not available, or there is no actual yield, an appraised yield for such year shall be determined in accordance with regulations issued by the Secretary of Agriculture, and that such normal yield per acre for any county need be redetermined only when the actual average yield for the ten calendar years immediately preceding the calendar year in which such yield is being reconsidered differs by at least 5 per centum from the actual average yield for the 10 years upon which the existing normal yield per acre for the county was based.

It is proposed that in connection with apportionment of the national wheat acreage allotment among States a reserve of from one tenth of one per centum to five tenths of one per centum of the national acreage allotment be first deducted therefrom for making additional acreage allotments to counties on the basis of their relative needs for additional allotment because of reclamation or other new areas coming into the production of wheat during the preceding ten calendar years as authorized by section 334 (a) of the act.

It is proposed that in connection with the apportionment of the State acreage allotments among counties the State Agricultural Stabilization and Conservation Committee for each State shall determine the percentage of the State acreage allotment, not in excess of three per centum, which shall be reserved for apportionment to farms in the State on which wheat will be produced for 1957 for the first time since 1953.

It is proposed that the regulations for establishing farm acreage allotments for the 1957 crop of wheat shall be substantially the same as those for the 1956 crop of wheat (20 F. R. 1632) with the following exceptions:

1. The historical acreage for any farm shall be determined on the basis of the average wheat acreage on the farm for the four years 1952 through 1955, including acreage diverted under the 1954 program and 1955 program.

2. Where the base acreage for the farm determined under the regulations for the 1956 crop of wheat would be substantially the same as that under the proposed regulations, the 1956 base acreage may be used for 1957; and in cases where the base acreage for the farm determined under the regulations for 1955 (19 F. R. 3250, 6157, 6391) rather than the 1956 base acreage is representative for 1957 because of the established crop rotation system for the farm and such 1955 base acreage would be substantially the same as that under the proposed regulations, the 1955 base acreage may be used for 1957.

Prior to making any of the foregoing determinations with respect to marketing quotas and national, State, and county acreage allotments for the 1957 crop of wheat and the formulation of regulations for the establishment of farm acreage allotments and county normal yields for the 1957 crop of wheat consideration will be given to data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than fifteen days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 22d day of December 1955.

[SEAL] EARL M. HUGHES,
Administrator.

FEDERAL POWER COMMISSION

[18 CFR Part 141]

[Docket No. R-149]

FPC FORMS NO. 12, 12-A AND 12-D POWER SYSTEMS STATEMENTS

NOTICE OF PROPOSED RULE MAKING

DECEMBER 20, 1955.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Pursuant to the authority vested in it by the Federal Power Act (49 Stat. 838, 16 U. S. C. 791a–825r) and particularly sections 4 (a), 301 (a), 304 (a), 309 and 311 (49 Stat. 839, 854, 855, 858 and 859) thereof, the Commission proposes to amend §§ 141.51, 141.52 and 141.55 of the Commission's rules (18 CFR § 141.51, § 141.52 and § 141.55) so as to prescribe revised FPC Forms 12, 12-A and 12-D.[1]

3. FPC Forms No. 12, 12-A and 12-D solicit from each corporation, person, agency, authority, or other legal entity or instrumentality, whether public or private, which operates facilities for the generation, transmission or distribution of electric energy, information concerning electric generating and transmission facilities electric loads, classified uses of electric energy, and power and energy transactions with other electric utility systems. In general, the proposed changes would defer the filing date from April 15 to May 1, simplify the reporting requirements for smaller systems, and provide that for the year 1955 and every fifth year thereafter full reports be made of certain system data rather than only the changes occurring during the year. Such full reporting every fifth year and reporting for other years only of changes would be in accordance with the practice heretofore followed.

4. The detailed proposed changes in Form FPC 12 are as follows:

Cover and Page 1—The date the report should be filed has been changed to May 1 instead of April 15.

General Instructions—A new Class V has been added for utility systems which generate no energy but purchase their entire system energy requirements from other systems. This change will allow such utility systems to report on the smaller F. P. C. Form No. 12–A rather than the larger FPC Form No. 12, except that particular systems may be requested to use the latter.

Schedule 3—The instructions are revised to require reporting for steam-electric plants of under 10,000, instead of 5,000, kw installed capacity, and internal-combustion plants of under 2,500, instead of 1,000, kw installed capacity.

Schedule 5—The instructions are revised to require reporting on steam-electric plants of 10,000, instead of 5,000, kw installed capacity or greater.

Schedule 7—The instructions are revised to require reporting for internal-combustion engine plants of 2,500, instead of 1,000, kw installed capacity or greater.

Schedule 8, Instruction 1 of Part A; Schedule 13, Instruction 1 (b); and Schedule 15, Instructions, will be editorially revised due to the change in system classification.

Schedule 18—Minor editorial changes are included in Instructions 2 and 4 to avoid the use of the term "transmission line"; also, Instruction 6 is deleted.

Schedules 2, 3, 4, 5 and 7 are revised so as to require full reporting of data for 1955 and every fifth year thereafter, instead merely of changes occurring during the year.

5. The proposed changes in Form FPC 12–A are as follows:

Title Page—The date the report should be filed has been changed to May 1 instead of April 15.

General Instructions—Changed to provide for the new Class V filing, as described above for Form FPC 12.

General Instruction 15 is revised to require reporting of plant data for steam-electric plants of 10,000, instead of 5,000, kw installed capacity or greater, and internal-combustion engine plants of 2,500, instead of 1,000, kw installed capacity or greater. This instruction is also revised to require that all plants be reported for 1955 and every fifth year thereafter, rather than merely changes occurring during the year.

Schedule 6—Minor editorial changes are included in the instructions to avoid the use of the term "transmission line."

6. In Form FPC 12–D it is merely proposed to change the date the report should be filed from April 15 to May 1.

[1] Forms filed with original document.

7. Although the proposed revision of FPC Forms 12, 12–A and 12–D is deemed to be purely a matter of procedure or practice not requiring notice under section 4 (a) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003 (a) (1946)), this notice will be published in the FEDERAL REGISTER and will be served on all public utilities and licensees subject to the Federal Power Act. The Commission desires to have and will consider any data, views or comments which any interested person may submit not later than January 13, 1956.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 72, 73, 74, 77, 78]

[Docket 3666; Notice 21]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

NOTICE OF PROPOSED RULE MAKING

NOVEMBER 29, 1955.

The Commission is in receipt of applications for early amendment of the above-entitled regulations insofar as they apply to shippers in the preparation of articles for transportation, and to all carriers by rail and highway. The proposed amendments are set forth below and the reasons therefor are listed in the appendix hereto.

Application for these amendments ordinarily would be considered at our next hearing in this docket. It appears, however, that the proposed amendments have been the subject of exchanges and study by interested parties, in which substantial agreement has been reached. In view thereof no oral hearing is contemplated at this time.

Any party desiring to make representations in favor of or against the proposed amendments may do so through the submission of written data, views, or arguments. The original and five copies of such submission may be filed with the Commission on or before January 4, 1956. The proposed amendments are subject to change or changes that may be made as a result of such submissions.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection, and by filing a copy of the notice with the Director, Division of the Federal Register.

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
Secretary.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

Amend § 72.5 Commodity List (19 F. R. 8524, Dec. 14, 1954) (17 F. R. 7279, Aug. 9, 1952) (20 F. R. 949, Feb. 15, 1955) (15 F. R. 8265, 8267, 8272, 8273, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 72.5) as follows:

§ 72.5 *List of explosives and other dangerous articles.* (a) • • •

Article	Classed as—	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
Change				
*Ammonium nitrate-phosphate	Oxy. M.	73.153, 73.182	Yellow	100 pounds.
*Chlorate and magnesium chloride mixture.	Oxy. M.	73.153, 73.229	Yellow	100 pounds.
*Chlorine	Nonf. G.	73.302, 73.308, 73.314, 73.315	Green	150 pounds.
Radioactive materials, n. o. s.	Pois. D.	73.392, 73.393, 73.394	Poison Radioactive materials (Blue or Red).	See § 73.391 (b) and (c).
Add				
Chromyl chloride	Cor. L.	No exemption, 73.244, 73.247	White	1 gallon.
Cigarette loads	Expl. C.	No exemption, 73.111		150 pounds.
Heaters for refrigerator cars, liquid fuel type.	F. L.	73.146		
Sodium potassium alloys	F. S.	No exemption, 73.206	Yellow	25 pounds.
Trick matches	Expl. C.	No exemption, 73.111		150 pounds.

PART 73—SHIPPERS

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

Amend § 73.33 paragraph (k) (11) (19 F. R. 3259, June 3, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.33) to read as follows:

§ 73.33 *Qualification, maintenance, and use of cargo tanks.* • • •

(k) • • •

(11) Every cargo tank authorized for the transportation of flammable liquids and/or corrosive liquids under specifications MC 300 to MC 304 inclusive, MC 310, or MC 311 (§§ 78.321 to 78.324, 78.330, or 78.331 of this chapter) must be retested as provided in the applicable specification, except that retests not required on tanks equipped with rubber lining but retests must be made before such tanks are relined.

• • • • •

SUBPART B—EXPLOSIVES; DEFINITION AND PREPARATION

1. In § 73.65 amend the introductory text of paragraph (b) (19 F. R. 8525, Dec. 14, 1954) (49 CFR 1950 Rev., 1954 Supp., 73.65) to read as follows:

§ 73.65 *High explosives with no liquid explosive ingredient nor any chlorate.* • • •

(b) Amatol consisting of 80 percent ammonium nitrate and 20 percent trinitrotoluene, ammonium picrate, nitroguanidine, nitrourea, urea nitrate, picric acid, tetryl, trinitroresorcinol, trinitrotoluene, pentolite, cyclotrimethylenetrinitramine (desensitized), and soda amatol, in dry condition, in addition to containers prescribed in paragraphs (a) (1) to (5) of this section, may be shipped in containers complying with the following specifications:

• • • • •

2. Add paragraph (a) (4) to § 73.92 (18 F. R. 6777, Oct. 27, 1953) (49 CFR 1950 Rev., 1954 Supp., 73.92) to read as follows:

§ 73.92 *Jet thrust units (jato), class B, or igniters, jet thrust.* (a) • • •

(4) Jet thrust units (jato), class B, may be packed in the same outside shipping container with separately packaged igniters, jet thrust, when the containers are approved by the Bureau of Explosives.

• • • • •

3. Amend § 73.100 paragraph (r) (11); add paragraph (x) (18 F. R. 3134, June 2, 1953) (15 F. R. 8296, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 73.100) to read as follows:

§ 73.100 *Definitions of class C explosives.* • • •

(r) • • •

(11) Novelties consisting of two or more devices enumerated in this paragraph when approved by the Bureau of Explosives.

• • • • •

(x) Cigarette loads and trick matches must be of a type approved by the Bureau of Explosives and are described as follows:

(1) Cigarette loads consist of wooden pegs to which are affixed a small amount of explosive composition.

(2) Trick matches consist of book matches, strike anywhere matches, or strike-on-box matches which have small amounts of explosive or pyrotechnic composition affixed to the match stem just below the match head.

4. In § 73.111 amend the heading, and introductory text of paragraph (a) (20 F. R. 950, Feb. 15, 1955) (49 CFR 73.111, 1950 Rev.) to read as follows:

§ 73.111 *Cigarette loads, explosive auto alarms, toy propellant devices, toy smoke devices, and trick matches.* (a) Cigarette loads, explosive auto alarms, toy propellant devices, toy smoke devices, and trick matches must be packed in containers complying with the following specifications:

• • • • •

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

1. Amend § 73.115 paragraph (a) (15 F. R. 8297, Dec. 2, 1950) (49 CFR 73.115, 1950 Rev.) to read as follows:

§ 73.115 *Flammable liquids; definition.* (a) A flammable liquid for the purpose of Parts 71–78 of this chapter is any liquid other than a pressurized flammable liquid which gives off flammable vapors (as determined by flash point from Tagliabue's open-cup tester, as

used for test of burning oils) at or below a temperature of 80° F.

• • • • •

2. Amend § 73.119 paragraphs (a) (17), (b) (6), (e) (3), (f) (5), and (k) (2) (15 F. R. 8298 to 8300, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

§ 73.119 *Flammable liquids not specifically provided for.* (a) • • •

(17) Spec. MC 300, MC 301, MC 302, MC 303, or MC 304 (§§ 78.321, 78.322, 78.323, 78.324, or 78.325 of this chapter). Tank motor vehicles.

[Note 1 remains unchanged.]

• • • • •

(b) *Flammable liquids with flash point above 20° F. to 80° F.* • • •

(6) Spec. 6K (§ 78.101 of this chapter). Metal barrels or drums which must be constructed of Type 304 stainless steel, having heads with minimum convexity of 5/8 inch welded to the body, and be equipped at both heads with 12 gauge chime reinforcements. Body seams shall be welded. Drums shall be equipped with I-bar rolling hoops.

• • • • •

(e) *When the vapor pressure exceeds 16 pounds per square inch, absolute, at 100° F.* • • •

(3) Spec. MC 300, MC 301, MC 302, MC 303, or MC 304 (§§ 78.321, 78.322, 78.323, 78.324, or 78.325 of this chapter). Tank motor vehicles.

(f) *When the vapor pressure exceeds 27 pounds per square inch, absolute, at 100° F.* • • •

(5) Spec. MC 304 (§ 78.325 of this chapter). Tank motor vehicle.

• • • • •

(k) *Viscous flammable liquids having a vapor pressure which does not exceed 16 pounds per square inch, absolute, at 100° F.* • • •

(2) Spec. 6A, 6B, 6C, or 42F (§§ 78.97, 78.98, 78.99, or 78.110 of this chapter). Metal barrels or drums.

• • • • •

3. Add paragraph (a) (5) to § 73.125 (15 F. R. 8301, Dec. 2, 1950) (49 CFR 73.125, 1950 Rev.) to read as follows:

§ 73.125 *Alcohol.* (a) • • •

(5) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

4. Add paragraph (a) (8) to § 73.141 (16 F. R. 11777, Nov. 21, 1951) (49 CFR 1950 Rev., 1954 Supp., 73.141) to read as follows:

§ 73.141 *Amyl mercaptan, butyl mercaptan, ethyl mercaptan, isopropyl mercaptan, propyl mercaptan, and aliphatic mercaptan mixtures.* (a) • • •

(8) Spec. MC 330 (§ 78.336 of this chapter), tank motor vehicles.

5. Add paragraphs (a) (4) and (5) to § 73.145 (20 F. R. 8101, Oct. 28, 1955) (49 CFR 73.145, 1950 Rev.) to read as follows:

§ 73.145 *Methylhydrazine and unsymmetrical dimethylhydrazine.* (a) • • •

(4) Spec. 17H (§ 78.118 of this chapter). Metal barrels or drums (single-trip). Authorized only for unsymmetrical dimethylhydrazine.
